## PREFACE

**Mr. Speaker Sir,**

The Standing Committee on Roads and Transportation is established under standing order 212(3) of the Standing Orders of the Senate and is mandated to *consider all matters relating to transport, roads, public works, construction and maintenance of roads, rails and buildings, air and seaports.*

In executing its mandate, the Committee oversees the Ministry of Transport, infrastructure, Housing and Urban Development.

**Composition of the Committee**

The Committee is comprised of the following Members:

1) Sen. Wamatangi Kimani, MP, **Chairperson**
2) Sen. Hargura Godana, MP, **Vice- Chairperson**
3) Sen. Enoch Wambua, MP, Member
4) Sen. Christine Zawadi, MP, Member
5) Sen. (Dr.) Lelegwe Ltumbesi, MP, Member
6) Sen. Philip Mpaayei, MP, Member
7) Sen. Sylvia Kasanga, MP, Member
8) Sen. (Prof.) Ekal Imana, MP, Member
9) Sen. Cleophas Malalah, MP, Member

**Members Present during the Visit**

On 16th – 19th August, 2018, the Committee undertook project status assessment in Kitui County on a fact finding mission on the Kibwezi-Mutomo-Kitui road. The following Members comprised the delegation during the inspection visit;

1) Sen. Wamatangi Kimani, MP, **Chairperson**
2) Sen. Enoch Wambua, MP, Member
3) Sen. (Prof.) Ekal Imana, MP, Member

The Government of Kenya received financing from the China Exim Bank towards rehabilitation and capacity enhancement of Kibwezi-Mutomo-Kitui road. It is implementing the project through Kenya National Highways Authority (KeNHA). The Kibwezi-Mutumo-Kitui road construction contract was awarded to Sinohydro Corporation Ltd by KeNHA on 20th September, 2016 for a period of 42 months at a

contract price of Ksh. 18,404,888,139. As an EPC/Turnkey (a contract comprising Engineering, Procurement and Construction) Commercial Contract, the Contractor is tasked with undertaking design as they construct.

During the visit, the Committee was accompanied by representatives from Kenya National Highways Authority (KeNHA), the Supervision Consultant, Contractor, Kitui County and several media houses.

The objectives of the inspection visit were as follows;

i. To assess the upgrading of Kibwezi-Mutomo-Kitui-Kabati-Migwani (A9/B64) Road, (contract no KeNHA/1469/2016);
ii. Interact with the residents and engage the contractor on the concerns raised on the slow pace of road construction and completion timelines;
iii. Engage the Contractor on the Corporate Social Responsibility (CSR) for the ongoing road works;
iv. Assess the progress on compensation of the residents by the National Land Commission arising from compulsory acquisition;
v. Assess the public safety concerns along the Mwingi- Garissa road;
vi. Assess the impact of road construction on traders;
vii. Assess the status of Mutomo and Tseikuru airstrips.

During the visit, the Committee made the following observations:-

1. There was delay in compensation to the Project Affected Persons (PAPs) by Kenya National Highways Authority (KeNHA) and National Land Commission (NLC) undertaking land acquisition for the road project;

2. Lack of fair compensation for cracked structures by the blasting activities. 98 persons were undercompensated as a result of the explosions done at the quarry. Whereas the contractor has referred about 44 house quarry claims to the insurance, the loss adjuster to the site and the evaluation report has not been released to the affected persons;

3. Dust and pollution activities from the quarry operated by the contractor have negatively affected the community. A young girl by the name Joyce Kiema was reported to have developed hearing problems arising from the blasting.

Arising from the observations made during the inspection tour of the Kibwezi-Mutumo-Kitui road project the Committee recommends that:-

1. The National Lands Commission and the Kenya National Highways Authority promptly compensate land owners affected by the project (PAPs) along the Kibwezi-Mutomo-Kitu-Kibati-Migwani road;

2. The project as conceptualized does not have a provision for corporate social responsibility (CSR). Going forward, EPC/Turnkey Projects should have corporate social responsibility (CSR) component to be aligned with the community needs;

3. There should be no revision of land valuation downwards for those persons who have been given awards;

4. The road contractor engages and hires local residents for labour on the road project for both skilled and unskilled jobs;

5. The road contractor adheres to the terms of the NEMA license whilst constructing the road;

6. The Kenya National Highways Authority (KeNHA) should give a full disclosure of the total cost of the project and the full distance covered. This arose from information made available to the Committee by both KeNHA and the contractor that an additional 50 kilometers was included to the initial project from Kitui town to Migwani apparently at no extra cost.

## ACKNOWLEDGEMENT

I wish to express my gratitude to the Offices of the Speaker and the Clerk of the Senate for facilitating an inspection visit of the Kibwezi-Athi-Mutomo-Kitui (A9/B64) Road in Kitui County that was undertaken by the Committee and which gave valuable insights that led to the production of this report.

The Committee acknowledges the valuable time and considerable effort made by Members of the Committee, technical officers from the Ministry of Transport, Infrastructure, Housing and Urban development, the Kenya National Highways Authority, the leadership of the project affected persons and members of the public who made both oral and written submissions that has informed the preparation of this report.

Finally, I recognize the unqualified effort of all stakeholders who appeared before the Committee including the contractor to respond to issues that emerged and which also informed the production of this report.

**Mr. Speaker Sir,**

It is now my pleasant duty to table the report of the Standing Committee on Roads and Transportation, in relation to the project assessment visit to Kitui County that was undertaken on 16th -19th August, 2018.

# CHAPTER ONE:

# BACKGROUND INFORMATION ON THE KIBWEZI-ATHI-MUTOMO-KITUI ROAD PROJECT

## 1.0 Introduction

### 1.1 Background to the Project

The Government of Kenya received financing from the China Exim Bank towards rehabilitation and capacity enhancement of Kibwezi-Mutomo-Kitui road. It is implementing the project through Kenya National Highways Authority (KeNHA). The objective of the project is capacity enhancement and rehabilitation of the road in order to maximize comfort of the road users and ensure their safety.

On 9th February, 2011, Kenya National Highways Authority(KeNHA) and Messrs Sinohydro Corporation Ltd signed an EPC Turnkey Contract to undertake Contract Engineering, Procurement and Construction of Kibwezi -Mutomo –Kitui . This Agreement came into force following approval of the loan facility relating to upgrading of the road between Government of Kenya (15%) and Export –Import Bank of China (85%) and a further legal opinion by the Attorney General of Kenya.

Subsequent to the above, on 20th September 2016, Addendum No. 1 to the Contract was signed between the two parties for construction of the project road. The commencement date was 16th August, 2017 for a period of 42 months and a completion period of 15th February, 2021.

The project was being constructed mainly on existing road reserve though additional land was required to accommodate road realignment and the proposed Ikutha by-passes. KeNHA with support of the National Land Commission (NLC) embarked on valuation, verification, and validation of affected persons' property for the project period. This exercise entailed the establishment of a Sub-County level Grievances Redress Committee to facilitate compensation of all persons affected by the project.

The Sub-County level Grievances Redress Committee comprised of the following;

1) Deputy County Commissioner (Chairperson);
2) Sub-County Administrator (County Government);
3) Two (2) from the Project Affected Persons (PAPs);
4) Representative of the contractor;
5) Representative of the consultant (Secretary);
6) Representative NEMA;
7) Representative of Department of Occupational Safety and Health;
8) Representative of the Labour office;
9) Representative of the Children Office;
10) Representative of Chamber of Commerce;

**1.2 Scope of the Project**

The scope of works for the Project Road was as summarised below:

**a) Engineering, Procurement and Construction (EPC) of the following road sections:**

1) Kibwezi – Kitui Road (145 km)
2) Kabati – Migwani direction (16.71 km)
3) Kibwezi Township Roads (3 km)
4) Ikutha Township Roads (3 km)
5) Mutomo Township Roads (4 km)
6) Kitui Township Roads (8 km)
7) Construction of interchanges at Kibwezi and Kitui
8) Rehabilitation of the Kitui - Kabati Road (12 km), and
9) Construction of Social amenities in Kibwezi and Kitui.

**b) The road cross section was 7m wide carriageway with 2m wide shoulders. The pavement consists of;**

1) Single seal surface dressing
2) 50mm AC on the carriageway and 35mm AC for the shoulder

As an EPC/ Turnkey commercial contract, the contractor designs the road as he constructs. However, the contractor had designed the road in detail from 0 to 145k m and construction works were well underway between 0-135 km. The design review for the sections between 135 km to 145 km included provisions for township roads for Kibwezi, Ikutha and Mutomo and interchanges at Kibwezi and Kitui.

## 1.5 Financial Status

Pursuant to the Schedule of payments agreed upon in the contract agreement, payments are to be made in nine (9) milestones at different levels of completion of the project. As at the time of the committee visit two milestones commensurate to 7,766,862,794.66 (42.2%) of the contract sum had been certified. The total amount paid was KES. 5, 686,870.70 with a certified balance of 2,080,194,194.80

## 1.6.1 SITE VISITS CONDUCTED BY THE COMMITTEE ALONG THE ROAD PROJECT

Further to inspection the road works along the section of interest, the Committee stopped at Athi, Ikutha and Mutomo and sought views from the local residents on the impacts of the road project.

### 1.6.1 Meeting at the Athi River Bridge

The Committee also assessed the Athi river bridge at the border between Kitui and Makueni Counties on the mitigation measures during flooding. The objective of the Committee's assessment was to review the measures taken by the contractor in expansion of the bridge and the commitment on completion timelines.

The Committee was informed that the bridge was 100 m and there were design plans in place to expand the bridge to control the flooding of the Athi River. The local resident engineer undertook to prepare a comprehensive report and on the issues.

***Emerging issues from the meeting at Athi River Bridge***

i. The market required rehabilitation and construction of parking for lorries and vehicles supplying deliveries and other customers;
ii. Residents requested for the construction of market stalls;
iii. The local youth leader explained that residents could not access their homes from the tarmac and requested for extension of the tarmac into residential areas. The Committee recommended that all access routes that had been disrupted should be restored by the contractor.

### 1.6.2 Meeting at the Ikutha Market

The Committee visited Ikutha market and interacted with traders and community leaders. They were informed as follows;

i. The by-pass construction had witnessed a lot of disruptions;
ii. The National Land Commission and KeNHA had been invited by residents to explain the actual compensation values with respect to houses, graves, schools, water and health concerns;

iii. Residents demanded to be paid before the construction work began.

***Emerging issues raised by the Residents of Ikutha Market***

The Committee met with Residents of Ikutha market and received the following submissions:

i. The blasting at the quarry by the Chinese contractor had resulted in the following;

a) cracked buildings;

b) air pollution in the area caused by the quarry dust;

c) health problems among the residents such as breathing complications from the heavy quarry dust.

ii. The project on quarrying did not engage the community in a public participation exercise;

iii. The blasting at the quarry should be stopped and the residents compensated;

iv. The County Government of Kitui should be consulted and engaged when such projects are being undertaken.

v. The residents argued that the quarrying activities were adversely affecting them and the Trading Centre due to the physical, health and environmental impacts resulting from the activities;

vi. A total of 198 residents whose buildings had cracked due to the blasting had been profiled by civil society organizations;

vii. Quarrying activity has resulted in the following;

a) Death of a school pupil who drowned in an open pit left after quarrying;

b) Damage to surrounding building evidenced by cracked walls and damaged roof tops;

viii. Interruption of learning at the nearby schools as a result of blasts

**1.6.3 Reactions by the Committee on the Blasting**

The Committee considered the information available on the blasts and made the following observations and recommendations;

i. Compensation process for damage of property arising from the blasting activity had not been agreed upon between the contractor and the residents;
ii. The blasting activity should be carried out in a controlled manner that does not adversely affect the community and other social amenities;
iii. The entity that was undertaking the blasting activity should besides compensation, rehabilitate and/ or restore the degraded environment immediately it finalizes its operations in a given area.
iv. Residents to involve the local leadership in all compensation negotiations;

## CHAPTER TWO:

## 2.0 COMMITTEE OBSERVATIONS

The Committee made the following observations of issues that emerged;

### 1) Employment:

Residents reported that most people employed as skilled and unskilled labourers were not residents of Kitui County. It was however noted that the project road traverses both Kitui and Makueni Counties and the Contractor undertook to make considerable efforts to employ workers from both counties.

### 2) Corporate Social Responsibility (CSR):

The Committee observed that there were no significant Corporate Social Responsibility (CSR) projects by the contractor. The Committee was informed that CSR was a self-regulating business model that helps a company to be socially accountable to itself, its stakeholders, and the public. Further, in Engineering, Procurement and Construction (EPC) type of Contract such as the one the Contractor was engaged in, the contract amount was lump sum for which the Contractor was paid upon fulfilment of the employer's requirements.

During the deliberation, the following issues emerged—

i. KeNHA undertook to involve the local leadership in identifying ways to improve provision of water, which would be beneficial to both the contractor and the Community. The Contractor had engaged a local NGO, *MetaMeta* to advise on viability and location for excavation of water pans or earth dams.

ii. KeNHA committed to reinstate schools, churches and other public bodies that had been affected during project implementation.

iii. The Contractor had undertaken some projects the most significant being construction of classrooms and administration block for Njoro Secondary School. Before the CSR, the primary and Secondary schools were sharing facilities in a congested environment. He committed to do much more during contract implementation.

3) **Compensation of Project affected Persons:**

It was reported that residents were unhappy with the compensation offered by the National Lands Commission (NLC) for their land acquisition and developments. It was noted that inquiries for compulsory acquisition of land at Mutomo, Ikutha, and Athi had been concluded on 3rd August 2018. However, the NLC was yet to issue the Schedule of Award of Compensation to KeNHA for the aforementioned sections detailing the size of land to be acquired, its value and the amount of compensation payable.

Further, KeNHA had also initiated and established sub-county- level Grievance Redress Committee with a view to address such issues as they may arise during project implementation phase.

4) **Compensation for houses cracked during Contractor's activities:**

The residents complained of failure by the Contractor to pay them for the cracks that developed on the buildings and houses adjacent to the roads works due to the blasting and explosion activities by the Contractor.

The Committee was informed that the contractor had established a quarry and crusher site in Mutomo and had engaged a licensed blaster by the Mines & Geology Department. Although blasting had been done in accordance to Explosives Act CAP 115 of 2016, claims from 326 houses had been received. Several liaison meetings had subsequently been conducted with the last one held conducted on 13th August, 2018. The Contractor visited the affected homes and verified 171 households, some of whom had been compensated. However, some claims had been referred to the insurer especially those that could not be dealt with locally.

The Committee was informed that at a previous community liaison meeting held between the Sinohydro Corporation Limited and the Community leaders at Mutomo Chief's Office on 13th August, 2018 , the following issues were deliberated upon;

a) **Distance:** According to blasting experts, it was established that it was safe to dwell beyond 500 metres for schools, shopping centres, houses and other facilities.

However, the company had considered enlarging the coverage radius to up to 2km segment for compensation and CSR activities;

b) **Minimum Compensation value**: the company welcomed the proposal to increase the valuation from 1,000 to 5,000 as the lowest compensation value and that those who had consented to the minimum value would be given the top up. The chief undertook to facilitate verification for compensation claims;

c) **Impaired Hearing of a minor:** There was an incident in which the hearing of a minor by the name Joyce Kiema had been impaired following the blasting activities by the Contractor. **The Committee heard that the contractor had referred the matter to their insurance since the family already engaged an advocate to deal with the matter**;

d) **Allegations of 24 hour crushing operations which generate a lot of noise and dust:** The Committee heard that operations within the crusher and the quarry were regulated by the NEMA license which the contractor acquired before commencing operations. The conditions of the license stipulate the working periods, permitted level of noise and control of dust emissions for which the contractor was bound to strictly adhere to;

e) **Compensation of the rock outcrop within the quarry at Mutomo which was privately owned:** There were claims that compensation for the rock outcrop had been made to a different person from the owner. However, the issue had been sorted out and a revised contract signed with the kin of the deceased landlord as the family beneficiary;

f) **Construction of Bus Park at Ikutha and market stalls at Athi:** The Committee heard that the CSR projects had not been done due to the constraints of the lump sum contract under implementation. Further it was informed that the requested items were devolved functions and which were under the purview of the County Government. KeNHA requested that construction of the bus park at Ikutha and market stalls at Athi be taken up by Kitui County government;

g) **Handling of the local community with respect:** In view of complaints relating to the handling of residents respectively by the contractor, KeNHA initiated and

established sub-county level Grievance Redress Committee to address such issues as may arise during project implementation;

h) **Slow progress of the Road Works:** Concerns were raised over the slow pace of the road works was slow and this could compromise the commencement and completion timelines to which KeNHA enlisted the following as factors that had affected the progress. They were enlisted as follows;

   i. **Relocation of Power lines along the construction corridor**- although KPLC had dispatched personnel to the site to reroute the power lines, progress had been very slow;

   ii. **Interests on delayed payments**;-The loan agreement required that the Government of Kenya (GoK) pays in full it portion of the Interim Payment Certificate (IPC) before the China EXIM Bank pays its portion. This had led to accrual of interest;

   iii. **Shortage of water for construction**;-Although the Contractor had been utilizing existing Athi Rivers for construction, there was need to sink boreholes to supplement the water sources;

   iv. **Land acquisition;** The National Land Commission had concluded a land inquiries exercise for affected parcels of land between Kibwezi and Mutomo on 3rd August, 2018;

   v. **Payment of Cess to the County Government of Kitui**;-Demands for payment of Cess by the County Government of Kitui had affected construction activities as the contract agreement had not envisioned the payment of county taxes in the form of cess. Therefore, attempts to amend the contract midstream were likely to affect the progress and speed of the works.

Further the Committee made the following observations-

1. There was delay in compensation to the Project Affected Persons (PAPs) by Kenya National Highways Authority (KeNHA) and National Land Commission (NLC) undertaking land acquisition for the road project;

2. There was lack of fair compensation for structures that cracked as a result of blasting activities by the project contractor. 98 affected persons were undercompensated as a result of the explosions done at the quarry. Whereas the contractor has referred about 44 house quarry claims to the insurance, the loss adjuster to the site and the evaluation report has not been released to the affected persons;

3. Dust and pollution activities from the quarry operated by the contractor have negatively affected the community. A young girl by the name Joyce Kiema was reported to have developed hearing problems arising from the blasting.

## CHAPTER THREE:

## 3.0 COMMITTEE RECOMMENDATIONS

Following the observations made during the visit and subsequent engagement of all stakeholders and relevant parties, the Committee recommends:-

1) **THAT,** the Kenya National Highways Authority (KeNHA) and National Lands Commission (NLC) should adhere to the provisions of the law by ensuring prompt payment of awards issued to PAPs along Kibwezi-Mutomo-Kitu-Kibati-Migwani road project;
2) **THAT,** the project as conceptualized does not have a provision for corporate social responsibility (CSR). Going forward, EPC/Turnkey Projects should have corporate social responsibility (CSR) component to be aligned with the community needs;
3) **THAT,** there should be no revision of land valuation downwards for those project affected persons who have been awarded;
4) **THAT,** the road contractor engages and hires local residents for labour on the road project construction for both skilled and unskilled jobs;
5) **THAT,** the road contractor should adhere to the terms of the NEMA license whilst constructing the road;
6) **THAT,** the Kenya National Highways Authority (KeNHA) should give a full disclosure of the total cost of the project and the full distance covered. This arose from information made available to the Committee by both KeNHA and the contractor that an additional 50 kilometres was included to the initial project from Kitui town to Migwani apparently at no extra cost.

**The Vice- Chairperson, National land Commission informed that committee as follows;**

**Legal Framework for Compulsory Acquisition:**

1) The National Land Commission is established by Article 67 of the Constitution to among other functions; manage public land on behalf of the National and County Governments. Article 67(2) (g) provides that the Commission shall asses tax on land and premiums on immovable property in any area designated by law.

2) The legal framework for compulsory acquisition is found in the Constitution of Kenya Atricle 40 (3 and 4), part VIII section 107 to 133 of the Land Act 2012, and Legal Notice 283, The Land (assessment of just compensation) Rules2017.

**Project Background**

i. The Commission had received a letter from Cabinet Secretary, Ministry of Transport, Infrastructure,Housing, Urban Development and Public Works requesting for acquisition of land required for the upgrading of Kibwezi-Mutomo-Kitui-Kabati Migwani Road (A9) to bitumen standards.

ii. Approval of the request prompted the publication of a notice of intention to acquire in Kenya Gazette vide **notice No. 176 of 12th January, 2018** and **No. 5075 of 25th May 2018** which was followed by physical inspection of parcels identified for acquisition for purposes of valuation between **March and May 2018.** Inquiries to claims from Project Affected Persons as spelt in Land Act No. 6 of 2012 was carried out between **June, July and August 2018** and awards issued to compensatees.

## 2. KEY ISSUES OF LAND ACQUISITION

| Process | Issues | Action |
|---|---|---|
| 1. Gazette of intention to acquire and inquiry | Most parcels between Kibwezi and Mutomo have not been gazetted as required by law since the acquiring body was yet to identify the land to be acquired. This means that the procedures documented in this report cannot be executed. This is also important for submission to the land registrar to safeguard government interest after acquisition. These areas include parts of | Kenya National Highway Authority has furnished the commission with properly identified land parcels for |

**MIN/ SCRT/240/2019:** **ADOPTION OF THE AGENDA**

The agenda of the meeting was adopted after having been proposed by Sen. Enoch Wambua, MP, and Seconded by Sen. (Prof.) Malachy Ekal Imana, MP, as follows;

1. Preliminaries
    a. *Prayer*
    b. *Remarks by the Chairperson*
2. Adoption of Agenda

4. Updates on the County Visits

**MIN/ SCRT/241/2019: CONSIDERATION AND ADOPTION OF COMMITTEE REPORTS FOR TABLING TO THE SENATE**

The Chairperson the Committee to submit their views on the amended report on the inspection visit of the Kibwezi-Athi-Mutomo-Kitui Road project in Kitui County.He stated that during the previous meeting, the Committee had adopted two reports for Tabling in the Senate. He invited the Secretariat to read through the amendedments that had been proposed as follows-

1. There was delay in compensation to the Project Affected Persons (PAPs) by Kenya National Highways Authority (KeNHA) and National Land Commission (NLC) undertaking land acquisition for the road project;

2. Lack of fair compensation for cracked structures by the blasting activities. 98 persons were undercompensated as a result of the explosions done at the quarry. Whereas the contractor has referred about 44 house quarry claims to the insurance, the loss adjuster to the site and the evaluation report has not been released to the affected persons;

3. Dust and pollution activities from the quarry operated by the contractor have negatively affected the community. A young girl by the name Joyce Kiema was reported to have developed hearing problems arising from the blasting.

4. Persons affected by the blasting activities had not been accorded fair compensation for cracked structures due to blasting activities. 98 persons were undercompensated as a result of the explosions done at the quarry and cases referred to the insurance company were yet to be acted on; and

**Summary of the Committee's recommendations**

Arising from the observations, the Committee recommends that:-

1. Investigations should be carried out to ascertain the origin of the directive given to the Contractor to carry out early entry into private land before valuation and assessment of the land had taken place;

2. the Contractor settles all compensation claims of the structures damaged without further delay in liaison with the representatives of the PAPs;

3. National Lands Commission and the Kenya National Highways Authority promptly compensate land owners affected by the project (PAPs) along the Kibwezi-Mutomo-Kitu-Kibati-Migwani road;

4. Noting that the project as conceptualized does not have a provision for corporate social responsibility (CSR). Going forward, EPC/Turnkey Projects should have

corporate social responsibility (CSR) component to be aligned with the community needs;

5. there should be no revision of land valuation downwards for those persons who have been given awards;
6. the road contractor engages and hires local residents for labour on the road project for both skilled and unskilled jobs;
7. The project contractor adheres to the terms of the NEMA license whilst constructing the road;
8. The Kenya National Highways Authority (KeNHA) should give a full disclosure of the total cost of the project and the full distance covered. This arose from information made available to the Committee by both KeNHA and the contractor that an additional 50 kilometers was included to the initial project from Kitui town to Migwani apparently at no extra cost.

**Adoption of the Draft Report:**

The Committee unanimously adopted the draft report draft report on the Kibwezi-Athi-Mutomo-Kitui Road project in Kitui County after having been proposed by Sen. Enoch Wambua and Seconded by Sen. Sylvia Kasanga.

**MIN/ SCRT/242/2019:** **ANY OTHER BUSINESS**

**LAND ACQUISITION - REQUEST FOR EARLY ENTRY INTO GAZETTED LAND**

Kindly refer to our letter Ref. KeNHA/05.B/EPC/1469/Vol.10/3484 and dated 20th August, 2018 *(copy enclosed)* in which we have requested early entry to affected land parcels in order to expedite works. As requested, we have now attached a schedule indicating land parcel registration number, registered owner and status of acquisition.

We note that the compilation of the Compensation Schedule by the Commission is underway and as stated earlier, we will prioritize compensation of the Project Affected Persons (PAPs). We reiterate our request for Notices of Taking Possession for the listed Land Parcels for works to proceed. We further confirm that the early entry into the listed parcels will be preceded by prior engagement with the PAPs.

WHEREAS Koki Ngao (deceased), is registered as proprietor of that piece of land containing 101.0 hectares or thereabout, known as Matinyani/Kalindilo/420, situate in the district of Kitui, and whereas the chief magistrate's court at Kitui in succession cause No. 154 of 2015, has issued grant of letters of administration to Cyrus Musyimi Ngao and (2) Robert Nzomo Mutulu, and whereas sufficient evidence has been adduced to show that the title deed issued earlier to the said Koki Ngao (deceased) is lost, notice is given that after the expiration of thirty (30) days from the date hereof, provided no valid objection has been received within that period, I intend to dispense with the production of the said land title deed and proceed with registration of the said instrument of administration and succession and upon such registration the land title deed issued earlier to the said Koki Ngao (deceased) shall be deemed to be cancelled and of no effect.

Attention: Mr Xia

Dear Sirs,

RE: THIRD PARTY PROPERTY DAMAGE CLAIMS IN MUTOMO AREA

Reference is made to the above subject matter. We would wish to confirm that we appointed a loss adjuster, Ms. Safety Surveyors to review the various third party claims instituted by residents of Mutomo area in connection with blasting activities conducted by your organization.

The initial findings are that indeed there was damage to various residential properties, schools and a mission hospital at various distances from the site of blasting activities. In light of this the loss adjuster in conjunction with engineering experts engaged are in the process of establishing whether all the damage being claimed for is attributable to the blasting activities or not and are compiling a final detailed report quantifying the extent of damage and the associated costs. Given the level of thoroughness required in this exercise and the number of claimants especially the institutional claimants where damage was extensive, it is imperative that this exercise is given sufficient time.

In this regard, the Loss adjuster has indicated that they will have submitted a final report on or before 11th December 2018. We would ask you indulgence in allowing them to complete their work and also that you accord them the necessary co-operation especially in respect of the documents required. On our part we will continue to engage them and press upon them the need to expedite the process without compromising on the quality of the outcome.

Yours faithfully,
For and on behalf of

**Challenges**

i. Delayed valuations from National Lands Commission

ii. Budgetary constraints

**v) Brief about Environmental Status of Rironi Yard / Campsite and measures taken to address complaints by residents of Rironi in Kiambu County.**

**Introduction**

*a) The Senate Standing Committee on Roads and Transportation Visit to James Gichuru – Rironi Road Project on 11th April 2019.*

The Senate Standing Committee on Roads and Transportation visited the project and met with the Project Affected Persons (PAPs) at various stop overs.
In one of the stop overs, outside the Rironi Yard / Campsite at Km 41+500, the Senate Committee received verbal Grievance from the neighbourhood around the Rironi Campsite about Emission from the Hot Mix Asphalt (HMA) Plant.

*b) Layout of Rironi Yard / Campsite*

Rironi Yard / Campsite is on a 16 acres piece of leased land at Rironi along the Right-Hand Side of the Project Road at km 41+500 and there are the following establishments in the Rironi Yard Campsite:

- ✓ Concrete Batching Plant
- ✓ GCS Batch Plant
- ✓ Mechanical Workshop
- ✓ Hot Mix Asphalt (HMA) Plant
- ✓ Reinforcement Fabrication Yard
- ✓ Pre-Cast Yard for Concrete
- ✓ Fuel Storage Tanks and Refuelling Points
- ✓ Storage for Coarse / Fine Aggregate

*c) Previous Hot Mix Asphalt (HMA) Plant Operations*

1. Feeding of the aggregates into feeder bins.
2. Transfer of aggregates to the drying drum and heat dried producing dust and vapour
3. The dust and vapour emitted was transferred to two chamber series scrubbers using water sprays that wet and agglomerate the dust particles collected as slurry in a series of ponds. **(i.e. Wet Dust Control System)**

4. Some Part of the residue was exhausted through the cyclone into the atmosphere.

*d) Hot Mix Asphalt Plant Emissions*

Following routine maintenance of the HMAP, emissions were observed, and it was immediately decided to acquire a **Dry Dust Collecting System** to substitute the existing **Wet Dust Collecting System.** The dry dust collecting system consist of filter chamber containing filter bags that can be cleaned, reused and replaced after wearing out therefore improving the efficiency. The **Dry Dust Collecting System** has since been acquired, installed and commenced operations on **31st May, 2019.**

**On 16th May, 2019** the PAPs Chairman Mr. Njuki and Mr. Njoroge a Community representative visited the Rironi Camp/Yard where they were accompanied by the Project Team on site.

The site team demonstrated how the Hot Mixing Asphalt Plant works, the mitigation measures to curb the emissions and how the new **Dry dust collecting system** will aid in improving the current system in place.

The visiting team was satisfied with the mitigation measures, and plans for installation of the dry dust collecting system.

On 22nd May 2019 National Environment Management Authority **(NEMA)** Acting County Director Kiambu County and two Environment Officers visited Rironi campsite to inspect the progress towards installation of the acquired **Dry Dust Collecting system**, the temporal measures implemented to curb the air pollution and the implementation of the Short - term and Long term directives they had issued during their previous inspection on **25th February 2019.**

*e) NEMA Directives during their Inspection visit on 25th February, 2019*

On 25th February, 2019 National Environment Management Authority (NEMA) visited the Rironi Yard/ campsite following grievances from community members and gave the following short-term and long-term directives: -

1. Mounting of additional anti-Dust nets along the fences bordering the school and the residential area.

*This was implemented within the stipulated 14 days.*

2. Positioning of the mist cannon on higher ground blowing mist against the emission from the stack.

*This was implemented with an additional mist cannon launched during Hot Mix Asphalt Plant Operations.*

3. Community sensitization, to notify the community of the ongoing activities in the campsite and the temporal and permanent measures in place to mitigate any impacts.

*This was implemented on 19th March, 2019.*

4. Conduct Air Quality assessment to ascertain that the components of the emissions were not hazardous to both the Environment and Human Health.

The air quality assessment was conducted by a NEMA licensed laboratory (Polucon Kenya Services Ltd.) on 18th April 2019. The Test Results of the Air Quality was found to be within EMC Limits.

National Environment Management Authority (NEMA) was also appraised of the Compliance implementation status vide two progress reports on 13th March and 29th April 2019.

The NEMA team appreciated the progress and recommended continuous endeavour to maintain a clean environment.

*f) Conclusions*

i. The Air Quality Assessment Report was submitted to NEMA Headquarters on **27th May 2019.**

ii. The **Dry Dust Collecting System** was acquired, installed and commenced operations **on 31st May 2019.**

iii. There are no notable emissions from the Hot Mix Asphalt Plant since the installation of the new Dry Dust Collecting System.
