LEGAL BASIS FOR THE QUARTERLY ECONOMIC AND BUDGETARY REVIEW

The Quarterly Economic and Budgetary Review Report is Published in accordance with Section 83 of the Public Finance Management Act, 2012. It states as follows:

83. (1) An accounting officer for a national government entity shall prepare a report for each quarter of the financial year in respect of the entity.

(2) In preparing a quarterly report for a national government entity, the accounting officer shall ensure that the report—

- (a) Contains information on the financial and non-financial performance of the entity; and
- (b) Is in a form that complies with the standards prescribed and published by the Accounting Standards Board from time to time.

(3) Not later than fifteen days after the end of each quarter, the accounting officer shall submit the quarterly report to the Cabinet Secretary responsible for the entity and the National Treasury.

(4) The Cabinet Secretary responsible for an entity shall forward a copy of the report to the Cabinet Secretary and Controller of Budget.

(5) Not later than forty five days after the end of each quarter, the National Treasury shall—

(*a*) consolidate the quarterly reports and submit them to the National Assembly and a copy of the reports to the Controller of Budget, Auditor-General and the Commission on Revenue Allocation; and

(b) Publish and publicize the reports.

(6) In the case of an entity that is a state corporation, the accounting officer for the corporation shall submit the quarterly report to the Cabinet Secretary responsible for the corporation who shall, upon approving it, forward a copy to the Cabinet Secretary.

HIGHLIGHTS OF THE 2018/19 THIRD QUARTERLY ECONOMIC AND BUDGETARY REVIEW

1. Economic growth

The Kenyan Economy recovered in 2018 and grew by 6.3 percent up from a growth of 4.9 percent in 2017. This strong growth was supported by increased agricultural production, accelerated manufacturing activities, sustained growth in transportation and vibrant service sector activities. Agricultural activities benefited from sufficient rains that were well spread throughout the country. Similarly, the increased precipitation was a significant boost to electricity generation and consequently favourable to growth.

2. Stable prices

The macroeconomic environment remained stable with low and stable interest rates and a competitive exchange rate to support exports. Month-on-month overall inflation increased slightly to 4.4 percent in March from 4.1 percent in February on account of rising prices of some food crops following dry weather conditions experienced in the first quarter of the year. Fuel inflation continued to decline in line with trends in energy prices.

3. Balance of Payments

The overall balance of payments position was at a surplus of US\$ 721 million (0.7 percent of GDP) in the year to March 2019 from a deficit of US\$ 1,041.4 million (1.2 percent of GDP) in the year to March 2018. The overall balance was supported by an improvement in the current and capital account despite the decline in the financial account. The current account balance narrowed by 17.2 percent to a deficit of US\$ 3,969.2 million (4.0 percent of GDP) in the year to March 2019 compared to a deficit of US\$ 4,796.0 million (5.5 percent of GDP) in the year to March 2018.

4. Foreign Exchange Reserves

The banking system's foreign exchange holding remained strong at US\$ 11,772 million in March 2019 from US\$ 11,856 million in March 2018. The official foreign exchange reserves held by the Central Bank was at US\$ 8,468 million (5.4 months of import cover) in March 2019 compared with US\$ 9,362 million (6.3 months of import cover) in March 2018. Commercial banks holdings was at US\$ 3,304 million in 2019 from US\$ 2,494 million in 2018.

5. Money and Credit

Broad money supply, M3, improved to a growth of 11.6 percent in the year to March 2019 compared to a growth of 4.3 percent in the year to March 2018. The primary source of the growth in M3 in the year to March 2019 was the increase in the net domestic assets (NDA) of the banking sector despite a slowdown in the growth of net foreign assets (NFA) of the banking system. The increase in growth in NDA was largely reflected in the increase in net domestic credit to government.

6. Capital Markets

Activity in the capital market slowed down with equity share prices declining as shown by the NSE 20 Share Index. The NSE 20 Share Index was at 2,846 points by end-March 2019 from 3,845 points in March 2018. The depressed share prices resulted to lower market capitalization of KSh. 2,361 billion from KSh. 2,790

billion over the same period.

7. Total Revenue Collection

The National Government cumulative revenue collection including A-I-A for the July 2018 to March 2019 period amounted to KSh. 1,180.2 billion (equivalent to 12.4 per cent of GDP) against a target of KSh. 1,289.8 billion (13.6 per cent of GDP). This represented an underperformance of KSh. 109.6 billion (1.2 per cent of GDP) mainly due to shortfalls in Income Tax, Import Duty, Excise Duty, VAT, IDF and Other revenue.

8. Government Expenditure and Net Lending

The total cumulative expenditure and net lending inclusive of transfers to County Governments for the period ending 31st March, 2019 amounted to KSh. 1,745.7 billion. This was KSh. 67.6 billion below the target of KSh. 1813.3 billion and was largely attributed to low absorption levels in recurrent spending including pension and domestic interest for the National Government. The transfers to the County Governments was also below the programmed target.

9. Guaranteed Loans

Between July 2018 and March 2019, the National Government paid a total of KSh. 993.4 million on behalf of state corporations with liquidity challenges against the projected debt service of KSh. 1,333.5 million.

10. Overall Fiscal Balance

The cumulative fiscal balance, on a commitment basis (i.e. excluding grants), amounted to a deficit of KSh. 565.5 billion (equivalent to 5.9 per cent of GDP), as at end-March 2019.

11. External Financing

Between July 2018 and March 2019, external financing amounted to a net borrowing of KSh. 178.9 billion.

12. Net Domestic Borrowing

Net domestic financing amounted to a net borrowing of KSh. 315.6 billion (equivalent to 3.3 per cent of GDP) in the period ending 31st March 2019.

13. Domestic Debt

Total gross domestic debt stock increased by 14 per cent from KSh. 2,371.6 billion as at end-March 2018 to KSh. 2,704 billion by end-March 2019.

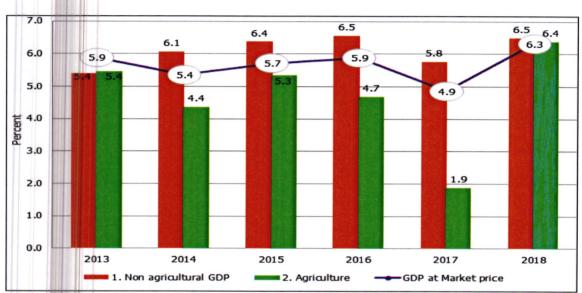

14. External Debt

The total external debt stock stood at KSh. 2,721.6 billion for the period ending March 2019. The external debt stock comprised of 34.6 per cent Commercial debt, 33.7 per cent bilateral debt, 31.1 per cent multilateral debt, and 0.6 per cent Suppliers Credit.

1.0 RECENT ECONOMIC DEVELOPMENTS

1.1 Economic Growth

1. In 2018, the economy recovered and grew by 6.3 percent up from a growth of 4.9 percent in 2017 (Chart 1). This strong growth was supported by increased agricultural production, accelerated manufacturing activities, sustained growth in transportation and vibrant service sector activities. Agricultural activities benefited from sufficient rains that were well spread throughout the country. Similarly, the increased precipitation was a significant boost to electricity generation and consequently favourable to growth.

Source: National Treasury; Data: Kenya National Bureau of Statistics

2. Agriculture sector greatly recovered and recorded a growth of 6.4 percent in 2018 compared to a growth of 1.9 percent in 2017. The recovery in growth was supported by improved weather conditions which increased crop and animal production. There was a significant increase in the production of tea, coffee and sugarcane; the volume of milk delivered to processing plants also increased supported by availability of fodder and pasture after the long rains. Despite a slowdown in horticultural output, the volumes of cut flowers and fruits exported rose in comparison to 2017. The contribution of Agricultural sector to overall GDP growth was at 1.4 percentage points in 2018, an improvement from the 0.4 percentage points in 2017.

3. The Non-agricultural sector (service and industry) remained robust in 2018 growing by 6.5 percent which was higher than the 5.8 percent growth in 2017. The sector contributed 4.4 percentage points to real GDP growth recording an improvement from the 3.8 percent contribution in 2017. (Table 1).

4. Services remained the main source of growth and expanded by 6.7 percent in 2018 compared to a growth of 6.0 percent in 2017. The services sector was supported by improved growths in the main drivers of the sector. Accommodation and restaurant grew by 16.6 percent in 2018 up from a growth of 14.3 percent in 2017 mainly supported by the improvement in tourism sub sector which is partially attributed to stable political environment, withdrawal of travel advisories, improved security and investor confidence in the country. Information and communication grew by 11.4 percent in 2018 from a growth of 11.0 percent in 2017 driven by growth in the digital economy. Financial and insurance sector improved to a growth of 5.6 percent in 2018 from a growth of 2.8 percent in 2017 mainly supported by considerable improvements in financial activities in spite of

a deceleration in the growth of insurance activities. In 2018, growths in transport and storage (8.8 percent) and wholesale and retail trade (6.3 percent) improved and remained strong. Growth of activities in real estate (4.1 percent) remained vibrant despite the slowdown relative to 2017.

5. Services contributed 3.4 percentage points to real GDP growth in 2018 largely supported by transport and storage (0.6 percentage points), wholesale and retail (0.5 percentage points) and information and communication (0.5 percentage points).

Table 1: Annual Sectoral GDP Performance (2015-2018)

Source: National Treasury; Data: Kenya National Bureau of Statistics

6. The performance of Industry improved to a growth of 5.5 percent in 2018 compared to a growth of 3.8 percent in 2017 following increased activities in the manufacturing and electricity and water supply sectors. However, the construction sector recorded a relatively slower growth than in 2017. The recovery of the manufacturing sector was attributable to agro-processing activities, production of beverages and manufacture of non-food products.

7. The industry sector contributed 1.0 percentage points to growth in 2018, largely driven by the construction and manufacturing sectors with each contributing 0.4 percentage points to real GDP growth.

1.2 Inflation

8. Overall month-on-month inflation remained stable at 4.4 percent in March 2019 rising from 4.1 percent in February 2019, which is within the 5.0 ($+/_2.5$) percent target. The increased inflation in March is attributable to increased food prices owing to delayed long rains which slowed food production. However, overall annual inflation declined from 6.9 percent in March 2018 to 4.7 percent in March 2019 on account of relatively lower fuel inflation in line with trends in energy prices (Chart 2a).

Chart 2a: Inflation

9. Kenya's rate of inflation compares favorably with the rest of sub-Saharan African countries and especially its peers such as Nigeria and Ghana whose inflation rates were 11.3 percent and 9.3 percent, respectively in March 2019 (Chart 2b).

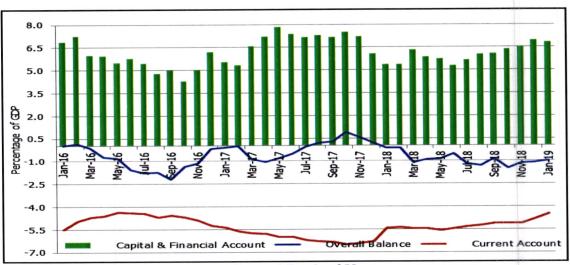

Source: National Treasury; Data: National Central Banks

1.3 Balance of Payments

10. The overall balance of payments position was at a surplus of US\$ 721 million (0.7 percent of GDP) in the year to March 2019 from a deficit of US\$ 1,041.4 million (1.2 percent of GDP) in the year to March 2018 (Chart 3). The overall balance was supported by an improvement in the current and capital account despite the decline in the financial account.

Source: National Treasury Data: Central Bank of Kenya

11. The current account balance narrowed by 17.2 percent to a deficit of US\$ 3,969.2 million (4.0 percent of GDP) in the year to March 2019 compared to a deficit of US\$ 4,796.0 million (5.5 percent of GDP) in the year to March 2018. This improvement reflects strong growth in diaspora remittances and tourism receipts, higher tea and horticultural exports and slower growth in imports due to lower food and SGR-related equipment imports. The current account deficit is expected to narrow to 4.8 percent in 2019 (Chart 4).

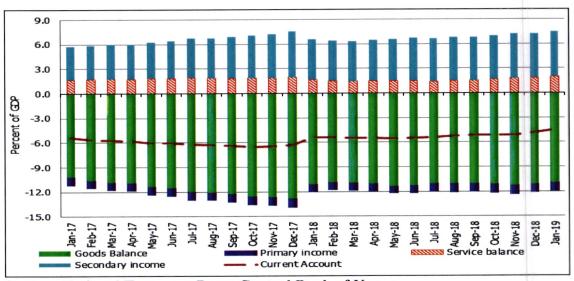

Chart 4: Balance on Current Account (Percent of GDP)

Source: National Treasury; Data: Central Bank of Kenya.

12. The deficit in the merchandise account widened by US\$ 28.1 million to US\$ 10,220 million in the year to January 2019 reflecting an increase in payments for import of oil on account of the rebound in international oil prices despite an increase in merchandise exports. Net services recorded an improvement of 20.3 percent in the year to January 2019 mainly on account of higher receipts from transport and travels.

13. The capital account recorded an improvement of US\$ 76.1 million to US\$ 237.6 million in the year to January 2019, reflecting an increase in project grants. Flows in the Financial Account also improved to US\$ 6,116.3 million in January 2019 compared with

US\$ 4,724.5 million in January 2018. The financial inflows were mainly in the form of other investments, direct investments and portfolio investments which stood at US\$ 4,589.7 million, US\$ 901.8 million and US\$ 624.8 million, respectively in January 2019. Other investment inflows mainly include foreign financing for Government infrastructure projects.

1.4 Foreign Exchange Reserves

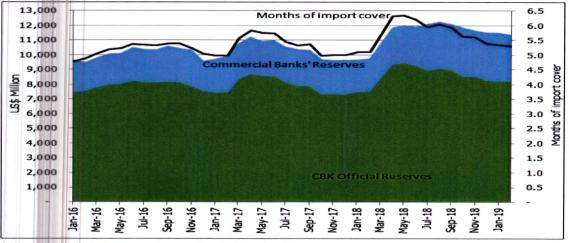

14. The banking system's foreign exchange holding remained strong at US\$ 11,387 million in January 2019 from US\$ 9,678 million in January 2018 (**Table 2 and Chart 5**). The official foreign exchange reserves held by the Central Bank improved to US\$ 8,242 million (5.3 months of import cover) in January 2019 compared with US\$ 7,514 million (5.1 months of import cover) in January 2018. Commercial banks holdings was at US\$ 3,146 million in 2019 from US\$ 2,164 million in 2018.

1.5 Exchange Rates

15. The Kenya Shilling exchange rate remained broadly stable and competitive against major international currencies. Against the dollar, the exchange rate was relatively less volatile exchanging at KSh. 100.4 in March 2019 from KSh. 101.2 in March 2018. Against the Euro and the Sterling pound, the Shilling also strengthened to KSh. 113.5 and KSh. 132.3 in March 2019 from KSh. 124.7 and KSh. 141.2 in March 2018, respectively (Chart 6a).

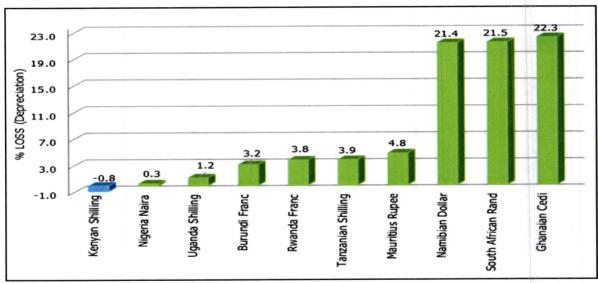

Chart 6a: Kenya Shilling Exchange Rate

Source: National Treasury, Data: Central Bank of Kenya

16. The Kenya Shilling exchange rate has continued to display relatively less volatility compared to most Sub-Saharan Africa Currencies (Chart 6b). This stability reflected strong inflows from tea and horticulture exports, resilient diaspora remittances, and improved receipts from services particularly tourism.

Source: National Treasury, Data: National Central Banks

1.6 Money and Credit

17. Broad money supply, M3, improved to a growth of 11.6 percent in the year to March 2019 compared to a growth of 4.3 percent in the year to March 2018 (Table 2). The pickup in growth reflects an improvement in the growth of time and savings deposit, the foreign currency deposits and the rate of demand deposits despite a decline in currency outside banks. Other deposits at the Central Bank declined in the year to March 2019.

				Absolut	e Change	percent	t change

Table 3: Money and Credit Developments, KSh. billion

Source: National Treasury, Data: Central Bank of Kenya

18. The primary source of the growth in M3 in the year to March 2019 was the increase in the net domestic assets (NDA) of the banking system, largely reflecting an increase in net credit to government and the private sector. The growth in M3 was partly offset by a slowdown in the growth of net foreign assets (NFA) of the banking sector.

19. Net Foreign Assets (NFA) of the banking system in the year to March 2019 grew by 3.1 percent, a decline compared to a growth of 16.0 percent in the year to March 2018 (Chart 7). The reduction in NFA of the central bank partly reflected servicing of government external debt. On the other hand, the NFA of commercial banks increased in the year to March 2019, reflecting an increase in growth of commercial banks deposit holdings with non-resident banks alongside increased borrowings from non-residents.

20. The Net Domestic Assets (NDA) rose to a growth of 15.3 percent in the year to March 2019 from a growth of 3.2 percent over a similar period in 2018. This largely reflects increased net credit flows to government and the private sector despite a slowdown of credit flows to other public sector.

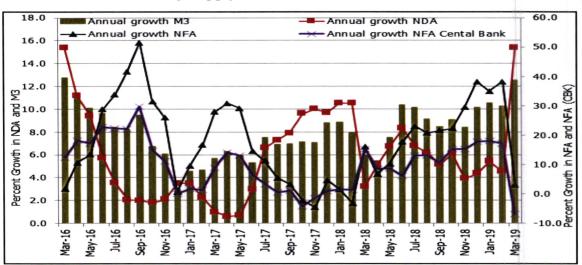

Chart 7: Growth in Money Supply and Its Sources

Source: National Treasury, Data: Central Bank of Kenya

21. Annual growth of credit to the private sector grew by 4.6 percent in the year to March 2019, compared to a growth of 2.1 percent in the year to March 2018. In particular, lending to finance and insurance, consumer durables, trade, private households and manufacturing sectors grew by 17.1 percent, 13.9 percent, 8.7 percent, 8.0 percent and 7.2 percent, respectively. Growth in private sector credit is expected to pick up gradually with the continued recovery of the economy.

1.7 Interest Rates

22. Short-term interest rates have remained fairly low and stable. The Central Bank Rate (CBR) was reduced to 9.0 percent on 30th July 2018 from 9.5 percent in March 2018 in order to support economic activity. The CBR continues to be retained at 9.0 percent as inflation expectations remained well anchored within the target range and the economy is operating close to potential. The interbank rate remained low at 3.4 percent in March 2019 from 4.9 percent in March 2018 due to ample liquidity in the money market (Chart 8).

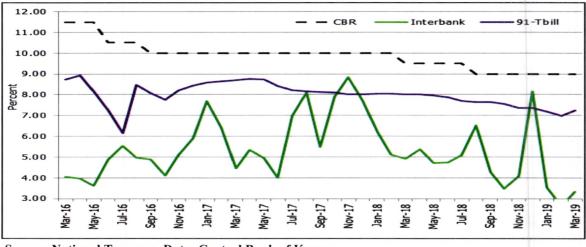

Chart 8: Short-Term Interest Rates

23. The interest rates for Government securities declined indicating that the implementation of Government domestic borrowing program supported market stability. The 91-day Treasury bill rate declined to 7.2 percent in March 2019 compared to 8.0

Source: National Treasury, Data: Central Bank of Kenya

percent in March 2018 while over the same period, the 182 day and the 364-day Treasury bills declined to 8.3 percent and 9.4 percent from 10.4 percent and 10.1 percent, respectively.

1.8 Capital Markets

24. Activity in the capital market slowed down with equity share prices declining as shown by the NSE 20 Share Index. The NSE 20 Share Index was at 2,846 points by end-March, 2019 compared to 3,845 points by end March, 2018. The depressed share prices resulted in lower market capitalization of KSh. 2,361 billion from KSh. 2,790 billion over the same period (Chart 9). The decline reflects trends in the global equities markets as investors shift to bond markets in expectation for a further hike in the U.S. interest rates on strong jobs and economic data.

2.0 FISCAL DEVELOPMENTS

2.1 Revenue

25. By the end of March 2019, total cumulative revenue including A-I-A collected amounted to KSh. 1,180.2 billion against a target of KSh. 1,289.8 billion (**Table 4**). This performance was below the target by KSh. 109.6 billion. Ordinary revenue collection was KSh. 1,064.3 billion against a target of KSh. 1,160.3 billion an under performance of KSh. 96 billion. The Railway Development Levy collection amounted to KSh. 15.8 billion against a target of KSh. 18.3 billion. Cumulative ministerial A-I-A recorded an under performance of KSh. 13.6 billion for the period under review, reflecting under reporting by the Ministries in their expenditure return for the period under review. However, compared to the 2017/18 FY, the total revenue collection increased by 13.8 per cent. The revenue performance is also presented in Government Finance Statistics Manual 2014 (GFSM 2014) format in **Annex II**.

26. As a proportion of GDP, the total cumulative revenue and grants in the period under review amounted to 12.6 per cent compared to 12.0 per cent in the corresponding period of the FY 2017/18. External grants amounted to KSh. 16.8 billion against a target of KSh. 37.2 billion, representing an under performance of KSh. 20.3 billion. Individual tax head contribution to total revenue is shown in **Chart 10** below.

Source: National Treasury

2.2 Expenditure

27. The total expenditure and net lending for the period under review amounted to KSh. 1,745.7 billion, against a target of KSh. 1,813.3 billion (**Table 5**). The shortfall of KSh. 67.6 billion was attributed to lower absorption recorded in recurrent expenditures by the National Government and in both recurrent and development expenditures by the County Governments. Recurrent expenditure for National Government amounted to KSh. 1,058.5 billion (excl. KSh. 31.8 billion by Parliament and Judiciary), against a target of KSh. 1,104.8 billion (excl. KSh. 34.2 billion by Parliament and Judiciary), which is an underperformance mainly recorded in O & M, Domestic Interest payment and pension with KSh. 20.9 billion, KSh. 31.4 billion and KSh. 16.3 billion underperformance respectively. The expenditure performance using GFSM 2014 format is shown in **Annexes V and VI**.

28. Foreign interest payments amounted to KSh. 80.1 billion, compared to KSh. 54.6 billion in the same period in the FY 2017/18. The domestic interest payments totalled KSh. 193.3 billion, which was higher than KSh. 164.6 billion paid in the corresponding period of the previous financial year but was lower than the target of KSh. 224.7 billion **(Chart 11)**.

Chart 11: Expenditure and Net Lending

Source: National Treasury

29. The total cumulative ministerial and other public agencies expenditure was Ksh 1,122.1 billion against a target of Ksh 1,290.1 billion (**Table 6**). Recurrent expenditure was 699.9 billion against a target of Ksh 803.6 billion, while development expenditure was Ksh 422.9 billion against a target of Ksh 486.5 billion. The percentage of total expenditures to the target was 87 per cent, while the percentage of total expenditures to the target of the target for recurrent and development were 87 per cent and 89.9 per cent respectively, as at the end of the period under review. Out of the Total expenditure recurrent was 62.3 per cent and Development was 37.6 per cent. As indicated earlier, the discrepancy between actual and target expenditures partly reflect the non-capture of the sub-National expenditures and hence under reporting by Ministries. These ministerial expenditures are therefore, provisional.

30. As at the end of 31st March, 2018, expenditures by the State Department for Early Learning and Basic Education, State Department for University Education; Teachers Service Commission and Ministry of Health (key players in the Social Sector) accounted for 45.3 per cent of total recurrent expenditure. The State Department for Interior and Ministry of Defence accounted for 11.8 per cent and 11.2 per cent of total recurrent expenditure respectively.

31. According to development outlay analysis, the State Department for Transport accounted for the largest share of the total development expenditures (27.2 per cent), followed by the State Department for Infrastructure (16.4 per cent), State Department for Energy (10.2 per cent) and the Ministry of Water and Sanitation (4.7 per cent).

2.2.1 Pending Bills

32. The total pending bills in the last FY 2017/18 amounted to KSh. 29.3 billions. The Government has prioritized clearance of all the pending bills during the current FY. MDAs have been directed therefore, to settle pending bills as a first charge in the FY 2018/19. The FY 2018/19 pending bills will be explicitly known at the end of the year because of the on-going clearance as directed.

2.2.2 Guaranteed Loans to Parastatals Payments

33. Cumulative principal and interest payments of guaranteed loans to parastatals with liquidity problems amounted to KSh. 993.4 million against a payment target of KSh. 999.3 million (**Table 7**) for period ending 31st March, 2019. The payments comprised of KSh. 957.1 million principal payment and KSh. 36.3 million interest payment.

Table 7: Schedule and actual payments on Guaranteed Debt for the period ending 31st March, 2019 (KSh. million)

2.3 Fiscal Outturn

34. Between July 1, 2018 and March 31, 2019, cumulative fiscal balance (on a commitment basis and excluding grants), amounted to KSh. 565.5 billion (equivalent to 5.9 per cent of GDP) against a targeted deficit of KSh. 523.5 billion (equivalent to 5.5 per cent of GDP) (Chart 12 and Table 8).

Source: National Treasury

35. Including grants, the overall fiscal balance (on a commitment basis) deficit stood at 5.8 per cent of GDP against a targeted deficit of 5.1 per cent of GDP. Over the same period in 2018, the fiscal deficit stood at KSh. 404 billion (equivalent to 4.6 per cent of GDP). The fiscal outturns for the past years is show in **Annex I** and in **Annexes III and IV** using the 2014 GFSM format (GFSM 2014).

2.4 Financing

2.4.1 External Financing

36. Cumulative external financing for the period between July 1st 2018 and March 31st 2019 amounted to a net borrowing of KSh. 178.9 billion (**Table 9**). Total disbursements (inflows) amounted to KSh. 327.8 billion for the period ending 31st March, 2019 against a target of KSh. 368.2 billion. The actual disbursement amount included KSh. 30.6 billion Project cash loans, KSh. 160.7 billion project loans A.I.A.(incl. KSh. 80.7 billion for the SGR), KSh. 2.3 billion Programme loans and KSh. 134.2 billion Commercial Financing.

External repayments (outflows) of principal debt amounted to KSh. 148.9 billion. The amount comprised of principal repayments to bilateral debt, multilateral debt and Commercial debt amounting to KSh. 20.4 billion, KSh. 13.7 billion and KSh. 114.7 billion, respectively.

2.4.2 Domestic Financing

37. By the end of March 2019, net domestic borrowing amounted to KSh. 315.6 billion against a target borrowing of KSh. 207.4 billion (**Table 8**). The borrowing comprised of KSh. 111.6 billion from Non-Bank Financial Institutions, KSh. 0.2 billion from Non Residents, KSh. 104.1 billion from the Commercial Banks and a net borrowing of KSh. 99.7 billion from the Central Bank of Kenya (**Table 10**). Comparatively, for the same period in 2018, the net domestic borrowing amounted to KSh. 125.6 billion, comprising of KSh. 77.5 billion from commercial banks, KSh. 3.2 billion from Non Residents, KSh. 125.1 billion from Non-Banks and a net repayment of 80.2 billion to the Central Bank of Kenya, (**Chart 13**).

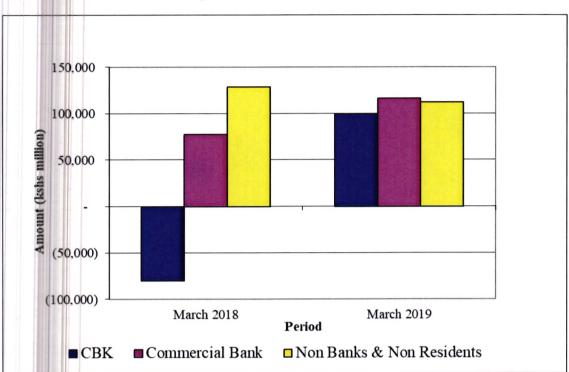

Chart 13: Domestic Financing

Source: Central Bank of Kenya

38. The stock of Treasury Bills held by Non-Banks and Non-Residents recorded net decline of KSh. 37.6 billion, and KSh. 2.7 billion respectively, while the stock of Treasury Bills held by Non-Banks increased by KSh. 38.2 billion. The stock of Fixed Rate Bonds held by Non-Banks recorded a net increase of KSh. 50.1 billion while those held by Commercial Banks and Non-Residents recorded a net decrease of KSh. 32.3 billion and KSh. 0.4 billion respectively.

3.0 PUBLIC DEBT

3.1 Overall Debt Position

39. The gross public debt increased by KSh. 541.5 billion, from KSh. 4,884.1 billion as at end of March 2018 to KSh. 5,425.6 billion by 31st March 2019 comprising of 50.2 per cent external debt and 49.8 per cent domestic debt. The overall increase is attributed to increased domestic debt incurred and increase in external disbursements during the period. Net public debt increased by KSh. 717.2 billion, from KSh. 4,304.5 billion as at end of March 2018 to KSh. 5,021.7 billion by end of the period under review (**Table 11**).

3.3 External Public Debt Stock

42. In dollar terms, external public debt stock increased by US \$ 2,100.1 million from US\$ 24,913.2 million in March 2018 to US\$ 27,013.4 million by end of March 2019 (Table 13). The debt stock comprised 33.7 per cent, 31.1 per cent, 34.6 per cent and 0.6 per cent of total debt owed to bilateral sources, multilateral institutions, Commercial Banks and Suppliers' Credit respectively. The increase is attributed to disbursements during the period.
