BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

CHAIRPERSON'S FOREWORD

On behalf of the Members of the Budget and Appropriations Committee and as mandated by Article 221 of the Constitution, section 39(2) of the Public Finance Management Act and Standing Orders 235(5); it is my pleasure to present to this House the Committee's report on the Estimates of Revenue and Expenditure for Financial Year 2021/2022 and the medium term - hereinafter referred to as the 2021/2022 budget estimates - for the National Government, Parliament and the Judiciary.

The 2021/2022 budget estimates were submitted to Parliament on Thursday 29th April 2021. Equally, the Parliamentary Service Commission and the Judiciary independently tabled their budget estimates in line with Article 127(6)(c) and 173(3) of the Constitution respectively. Pursuant to Article 221(4) of the Constitution, the 2021/2022 budget estimates were committed to the Budget and Appropriations committee (BAC) as well as the Departmental Committees of the National Assembly for review in line with their respective mandates. After reviewing the budgets of the various Ministries, Departments and Agencies within their purview, the Departmental Committee for consideration and inclusion in this report.

Examination of the Budget Estimates for Financial Year 2021/2022

In reviewing the 2021/2022 Budget Estimates, the Committee held fourteen (14) Sittings including two (2) meetings with the National Treasury where extensive deliberations were held. The committee also held discussions with the Parliamentary Service Commission and the Office of the Auditor General and critically reviewed their budgets. The outcome of these deliberations has informed the various recommendations which are contained in this report.

The committee also received submissions from the Departmental Committees highlighting significant policy and financial recommendations on the budgets of the various Ministries, Departments and Agencies within their purview. If approved by the House, these recommendations will form the basis for the passage of the Appropriation Bill for financial year 2021/2022. The consolidated report of the departmental committees as well as a summary of their observations and policy recommendations is contained in Annex I and II of this report.

Article 221(5) of the constitution requires the Budget and Appropriations Committee to seek the views of the public on the budget and take their recommendations into account

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

ii

when finalizing this report. Due to the ongoing COVID-19 pandemic and the need to limit in-person public gatherings, for the second year running, the committee held a virtual public participation exercise whereby the public were required to submit their views through written memoranda highlighting their areas of concern and key expenditure priorities.

In line with an already established tradition of addressing key expenditure priorities for twelve (12) select counties in each financial year, the committee specifically sought the views of the public on the key expenditure priorities for the following counties: Kilifi, Mandera, Meru, Machakos, Nyandarua, Kiambu, Elgeyo-Marakwet, Nandi, Baringo, Vihiga, Siaya and Nairobi City County. Notably, submissions were also received from the following: Mbugua, Mureithi & Co Advocates; and the Clean Cooking Association of Kenya highlighting various concerns on matters of public finance. The summary of public hearing submissions is in Annex III of this report.

Committee observations

Arising from these deliberations, the committee made the following observations:

- i. **Pending bills:** Despite the presidential directive in June 2019 that all pending bills by government agencies be cleared immediately, they continue to present a significant challenge in almost all sectors of the budget. It is noted that the veracity of some of these pending bills is in doubt.
- ii. **Stalled projects:** this has become a permanent feature of our budget. There is no adherence to the project guidelines issued by the National Treasury including the introduction of new projects before completion of existing ones despite the thin spread of resources. A policy must be implemented to ensure enforcement of PFM and Treasury guidelines. Sanctions should be instituted to MDAs that introduce new projects before completion of existing projects.
- iii. **Duplication of functions:** there is observed an overlap of functions between some spending agencies as well as between some programmes. Streamlining of functions will be crucial to eliminate duplication and reduce resource wastage.
- **iv. Failure of the MTEF process:** there appears to be very little focus on the medium term budget despite the MTEF process requiring budgeting to focus on a three year

rolling plan in order to ensure predictability of the budget. Poor performance of the MTEF is partly attributed to the failure to adapt to initially weak budget systems as well as limited institutional capacity especially in the National Treasury. The situation is made worse by inadequate support and agency buy-in for this mode of budgeting.

- v. Mainstreaming the (Sustainable Development Goals (SDGs) in the Budget process: there is no evidence that the Sustainable Development Goals (SDGs) have been mainstreamed in the budget process despite being instrumental in poverty reduction and sustainable economic development.
- vi. Transfer of functions between ministries: in the 2021/2022 budget, seemingly highly performing ministries are expected to implement certain key projects/programmes not necessarily under their purview. Notably, in the next financial year, the National Treasury will become an implementing agency for some infrastructure projects. The committee is concerned that the National Treasury may find it difficult to strike the balance between being the implementer of public finance and being a sectoral implementer of these infrastructure projects.
- vii. Policy on providing capitation for government sponsored students in private universities: This policy has not been managed well as government sponsored students enrolled in private universities do not receive adequate capitation. These students receive an average of Ksh. 40,000 per year. There is need therefore to critically re-look this policy in order to ensure that the policy's objective is adequately met.

Committee Recommendations

Having considered the above matters, the committee recommends as follows:

a. Policy Recommendations

- That, the National Treasury sets up a fund that may be financed through a longterm bond for the payment of the existing verified pending bills and court awards. The fund should be in place by 1st October, 2021.
- (ii) That, the State Department for University Education and the Ministry of Environment and Forestry under the Kenya Forest Service, should sign an MoU

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

iv

with the Kenya Revenue Authority on how the non-remitted tax dues will be paid. A report on this should be submitted to the National Assembly by 1st October, 2021.

- (iii) That, to facilitate the expansion of exports and facilitate growth, an export management office (EMO) be established which will have representation from all agencies that deal with the entire export value chain of Kenyan products. The office should be domiciled in the State Department for Trade. A status report on the establishment of the Office should be submitted to the National Assembly by 30th September, 2021.
- (iv) That, the State Department for Trade conducts a study on the need to establish trade offices or logistical centres in key existing and potential markets within the various regional economic blocks and countries which have established bilateral relationships with Kenya. This is in order to focus on international export opportunities that match Kenya's current/potential business capability. The study should be completed by 31st December, 2021.
- (v) That, the Ministry of Petroleum and Mining enhances its Monitoring and Evaluation Framework in oil and gas exploration and submits a report on it to the National Assembly by 1st October, 2021.
- (vi) That, the State Department for ICT and Innovation institutes a robust Monitoring and Evaluation framework on the maintenance and rehabilitation works of the existing ICT Infrastructure (NOFBI II Cable and Last Mile County Connectivity Networks). A report on the framework should be submitted to the National Assembly by 1st September, 2021.
- (vii) That, the government logistics be interlinked and provided for by government institutions such as Kenya Railways Corporation, Kenya Ports Authority, Posta Corporation and Kenya Airways. This should be in place by end of FY 2021/22 and managed by the seemingly efficient MDAs.
- (viii) That, the Ministry of Lands and Physical Planning commences the use of a cashless revenue collection system by 30th May, 2021.
- (ix) That, the National Treasury, the State Department for Social Protection and the State Department for ASAL consolidates all the existing cash transfer programs under one umbrella. A report on this exercise should be submitted to the National Assembly by 1st January, 2022.

V

- (x) That, the State Department for University Education and the University Funding Board completes the review of the University funding formula by 1st October, 2021, to ensure it supports recently established universities which seem to be disadvantaged with the current formula in place. The amended formula should also be applied in the allocation of infrastructure funds to various universities.
- (xi) That, the Ministry of Health the National Treasury, the Ministry of Labour and Social Protection, the Ministry of Education and NHIF actualizes the amalgamation of EduAfya Medical Insurance, Linda Mama, Health Insurance Subsidy Programme (HISP), Orphans and Vulnerable Children Cash Transfers (OVC-CT) to form one UHC scheme for the indigents through National Hospital Insurance Fund (NHIF). A report should be submitted to the National Assembly by 1st October, 2021.

b. Financial Recommendations: Committee Recommendations arising from the Public Hearings

After extensive deliberations, the Committee recommends that Ksh. 1.2 billion be set aside to fund projects arising from public hearings. This expenditure should be domiciled under the specific ministries.

c. Financial Recommendations: Committee Recommendations on the National Budget 2021/2022

The Budget and Appropriations Committee received substantial additional requests from Departmental Committees amounting to Ksh. 85.7 billion to meet various expenditure shortfalls. However, due to prevailing resource constraints and the need to contain the fiscal deficit within a certain limit, the Committee could not finance most of these requests.

The Committee therefore resolves as follows:

a) Reductions

That, the reduction of Ksh. 20,413,508,823 be effected from the votes and programmes as shown in Schedule I and II as per the justifications provided.

b) Additions

That, the amount of Ksh. Ksh. 24,076,168,823 be increased to the votes and programmes as shown in Schedule I and II as per the justifications provided.

c) Allocation for Parliament

That, the budget allocation for the Parliament for FY 2021/2022 be Ksh. 37,882,700,000.

d) Allocation for the Judiciary

That, the budget allocation for the Judiciary for FY 2021/2022 be Ksh. 17,833,200,000.

Further, the committee recommends that this House resolves to:

- **a.** Approve the Report and the recommendations of the Budget and Appropriations Committee on the Budget Estimates for the National Government, the Judiciary and Parliament for Financial Year 2021/2022.
- **b.** Approve that Schedule I and II attached to this report forms the basis of the Appropriation Bill 2021/2022.
- c. Approve that the National Treasury finalizes the required budget documents as per the Public Finance Management Act on the detailed estimates.

Acknowledgements

The Budget and Appropriations Committee is grateful to the Departmental Committees for their continuous oversight efforts over the Ministries, Departments and Agencies (MDAs) which has enabled the National Assembly to effectively execute its budgetary oversight role.

The Committee is also grateful to the members of the public and organizations who took their time to review the proposed budget and present submissions to the committee for inclusion in this report. In particular, the Committee would like to express its gratitude to the Mbugua, Mureithi & Co Advocates; the Clean Cooking Association of Kenya as well as the residents of **Kilifi, Mandera, Meru, Machakos, Nyandarua, Kiambu, Elgeyo-Marakwet, Nandi, Baringo, Vihiga, Siaya and Nairobi City** Counties for their contributions which have enabled the committee to realign the budget in a more responsive manner.

Lastly, the Committee is grateful to the Office of the Speaker of the National Assembly, the Office of the Clerk of the National Assembly, the Clerks to the Departmental Committees and the Parliamentary Budget Office for their invaluable support to the members of parliament as they discharged their mandate of reviewing the Budget Estimates for the Financial Year 2021/2022.

On behalf of the Budget and Appropriations Committee, and pursuant to Standing Order 235(5), it is my pleasant duty and privilege to table the Report on the Budget Estimates for FY 2021/2022 and recommended to the House for adoption.

1.0.PREFACE

1.1: Establishment and Mandate of the Committee

Article 221 (4 and 5) of the Constitution and Section 7 of the Public Finance Management Act, 2012 provide for the establishment of a Committee of the National Assembly whose main role is to take the lead in budgetary oversight. Pursuant to this constitutional provision, Standing Order 207 established the Budget and Appropriations Committee with specific mandates among which is to:

- i. Investigate, inquire into and report on all matters relating to coordination, control and monitoring of the national budget;
- ii. Discuss and review the Estimates and make recommendations to the House;
- iii. Examine the Budget Policy Statement, the Medium Term Debt Strategy Paper and the Division of Revenue Bill (DoRB) presented to the House;
- iv. Examine Bills related to the national budget, including the Appropriations Bill; and
- v. Evaluate tax estimates, economic and budgetary policies and programmes with direct budget outlays.

1.2. Membership of the Committee

Mr. Speaker, the Budget and Appropriations Committee as currently constituted comprises of the following Honourable Members of Parliament:

Member 1. Hon. Kanini Kega, CBS, M.P. – Chairperson 2. Hon. Benard Masaka Shinali, M.P. – Vice	Constituency Kieni Ikolomani	Party Jubilee Jubilee
 Chairperson Hon. CPA John Mbadi, EGH, CBS, M.P. Hon. Emmanuel Wangwe, CBS, M.P. Hon. Fatuma Gedi Ali, CBS, M.P. Hon. Wangari Mwaniki, OGW, M.P. Hon. CPA Moses K. Lessonet, CBS, M.P. Hon. Samwel Moroto, M.P. Hon. Millie Odhiambo, M.P. Hon. Richard Onyonka, M.P. Hon. Twalib Bady, M.P. Hon. Jude Njomo, M.P. Hon. Sarah Paulata Korere, M.P. Hon. Josephine Naisula Lesuuda, OGW, M.P. Hon. Alfred Kiptoo Keter, M.P. 27. Hon. Marselino Arbelle, M.P	Laisamis	Jubilee

1.3 Parliamentary Budget Office and Committee Secretariat

The Committee is facilitated by the following officers from the Parliamentary Budget Office:

1.	Ms. Phyllis Makau, OGW	Director, Parliamentary Budget Office
2.	Dr. Martin Masinde	Senior Deputy Director, Parliamentary Budget Office
5.	Ms. Millicent Makina	Fiscal Analyst I
7.	Dr. Abel Nyagwachi	Fiscal Analyst I
6.	Ms. Julie Mwithiga	Fiscal Analyst I
7.	Mr. Chacha Machage	Fiscal Analyst I

The Committee Secretariat comprises of the following officers:

1. Mr. Joseph Ndirangu	Fiscal Analyst I/ Clerk of the Budget and Appropriations
	Committee
2. Mr. Danson Kachumbo	Fiscal Analyst I/ Clerk of the Budget and Appropriations
	Committee
3. Ms. Winfred Kizia	Media Relations
4. Mr. Benard Omondi	Serjeant-at-arms
5. Mr. Stephen Nyakuti	Audio Officer
6. Mr. George Mbaluka	Office Assistant

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

2

2.0. INTRODUCTION

- 1. The 2021/2022 budget has been prepared against the background of significant resource constraints due to the adverse effects of the covid-19 pandemic on the economy. There is a limited resource envelope on account of economic underperformance and this has resulted in severe budget constraints. Now, more than ever, the country must tighten its belt and limit its spending to high priority areas in order to ensure that the citizen's most urgent needs are being met in an efficient and cost-effective manner.
- 2. In order to effectively manage its budget and correct its macroeconomic imbalances, the country has entered a 38-month IMF programme under the Extended Credit Facility (ECF) and Extended Fund Facility (EFF) arrangements for approximately US\$ 2.4 billion. Consequently, the country has to be in line with certain prescribed fiscal and monetary performance benchmarks including specific targets on the budget deficit, tax revenue, stock of central bank net international reserves and public debt. Furthermore, as part of the programme benchmarks, some reforms are expected under revenue administration, the government procurement process, containment of the public wage bill, restructuring of State Owned Enterprises (SoEs) and rationalization of public investment projects.
- 3. In terms of adherence to legal provisions, the 2021/2022 budget is broadly in line with expectations and has been submitted in both programme based format and itemized format with information provided on key performance indicators, targets as well as expected output and outcome. However, there are some gaps observed. Firstly, there is no review of KPI performance in the previous year, making it difficult to determine the status of ongoing projects/programmes and therefore, whether the resource allocations are adequate or being effectively utilized. Secondly, the Equalization fund estimates was not provided contrary to legal provisions (Constitution Article 216(4); PFM section 38(b)(ii). Thirdly, the Citizens budget was not availed to facilitate citizen participation (Constitution Article 201(a); PFM regulation 6(2)).

3.0. THE MACROECONOMIC FRAMEWORK UNDERPINNING THE 2021/2022 BUDGET

- 4. The proposed budget is anchored on a GDP growth projection of 6.3 percent in FY 2021/2022, and 6.1 percent over the medium term. The key drivers of this growth are: a stable macroeconomic environment; improved domestic consumption; and improved external demand. Further, export demand is expected to increase due to the reopening of economies globally as global vaccination continues to gain traction.
- 5. Even though this economic growth projection is plausible, the committee is concerned that some of the growth fundamentals are potentially weak. For instance, given the current economic conditions, private consumption has reduced considerably due to increased unemployment and income losses and this may persist through 2021. A prolonged pandemic will also delay the full recovery of tourism.
- 6. Further, there are concerns that budget allocations are not really addressing supply side constraints pertaining to exports and this has severely constrained the country's export earnings potential. Kenya's export quality has largely remained unchanged with the country exporting mostly raw, primary products as opposed to manufactured goods.
- 7. Other risks to the macroeconomic outlook include rising fuel prices, foreign exchange rate fluctuation, political uncertainty as the country approaches the general elections and the possibility of reintroduction of strict covid containment measures in the second quarter of 2021. If these risks materialize, then economic growth may be lower than projected and this will further constrain the resource envelope.

4.0. KEY HIGHLIGHTS OF THE 2021/2022 BUDGET

- 8. The overall budget for FY 2021/2022 is estimated at Ksh. 3.66 Trillion; with recurrent expenditure amounting to Ksh. 1.29 Trillion and development expenditure estimated at Ksh. 666.5 Billion. In terms of the budget for the three arms of Government; the budget for the Executive is estimated at Ksh. 1,895.14 Billion; Parliament at Ksh. 46.61 Billion and the Judiciary at Ksh.17.92 Billion.
- The committee observed that the overall budget estimates for FY 2021/2022 has exceeded the approved 2021/2022 Budget Policy Statement (BPS) ceiling by Ksh. 14.11 billion. This is mostly on account of increased Consolidated Fund Services (CFS)

spending by Ksh. 20.83 billion as well as the Parliament budget which is higher by Ksh. 8.7 billion from the BPS ceiling. For most of the sectors however, the net changes do not differ significantly from the approved BPS ceilings. This is a notable departure from the past whereby BPS ceilings were routinely flouted and the budget increased in total disregard of the approved budget framework. The committee commends the National Treasury for this effort.

- 10. With regard to the policy direction of the 2021/2022 budget, the committee noted that despite the government implementing a Post Covid-19 Economic Recovery Strategy (ERS), the key performance indicators and targets for the next financial year have not been clearly articulated and specified in the proposed 2021/2022 budget. This makes it difficult for the government to monitor the projects/programmes being implemented under the Post-Covid ERS.
- Indeed, there is no evidence that broad policy objectives particularly with regard to sustainable development goals (SDGs) have been factored into the budget. Implementation of the SDGs is crucial as they are designed to end poverty and enhance sustainable development.
- 12. Furthermore, this being the final year of implementation for the Big Four agenda under the current administration, the committee is concerned that the full benefits of the Big 4 agenda will not be achieved by 2022. It is therefore important for the strategies that will be implemented beyond 2022, notably the Fourth Medium Term Plan (MTP 4) of the Vision 2030, to include full completion of the programmes/projects under the Big 4 agenda.
- 13. It is observed that the format of presentation of the 2021/2022 budget and the medium term is such that there is no effective budget challenge function taking place. Specifically, the review of ongoing programmes/projects has not been provided thereby making the budget simply incremental. The committee notes that poor management of capital projects has led to some projects being permanent in the budget.
- 14. Pending bills and stalled projects continue to present a significant challenge in almost all sectors of the budget. For the most part, this is the outcome of poor planning, budget cuts and expenditure adjustments during the supplementary budget process. No clear road map has been provided by the National Treasury on how to effectively conclude these matters.

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

- 15. While the committee appreciates the need to place certain key projects/programmes under seemingly highly performing ministries, there is concern that the major problem is the flow of exchequer on a timely basis. It is noted that in the next financial year, the National Treasury will become an implementing agency for projects such as the Dongo-Kundu Special Economic Zone, SGR Nairobi- Naivasha Mombasa Port Development Project, LAPSSET Project and Kenya Mortgage Refinance Company (KMRC). The National Treasury will find it difficult to strike the balance between being the implementer of public finance and being a sectoral implementer of these infrastructure projects.
- 16. The Committee notes with concern that after tabling of the budget in Parliament, the National Treasury has formed a perpetual habit of submitting additional changes to a budget which is already under scrutiny by the legislature hence creating difficulties in arriving at the final budget. This raises serious capacity issues in the National Treasury and points to a laxity in preparing the budget. The net effect of the proposed changes to the 2021/2022 budget by the National Treasury has resulted in an overall reduction of the budget by Ksh. 8.9 billion.

5.0. FINANCING OF THE 2021/2022 BUDGET

- 17. The National Treasury projects a total revenue collection of Ksh. 2,039 billion in 2021/2022, an increase by approximately Ksh. 210 billion from the 2020/2021 level. Of this amount, ordinary revenue will constitute Ksh. 1,776 billion compared to Ksh. 1,574 billion in the current financial year. Income tax, which accounts for approximately 50 percent of tax revenue, is projected to increase by Ksh. 102 billion and amount to Ksh. 835 billion in FY 2021/2022. On the other hand, VAT is projected at Ksh. 473 billion, Excise Duty at Ksh. 241 billion and Import duty at Ksh. 119 billion; compared to Ksh. 395 billion, Ksh. 209 billion and Ksh.96 billion respectively in 2020/2021.
- 18. Though the revenue projections appear to be conservative and have complied with the IMF benchmarks, it should be noted that the expected revenue performance is based on sustained recovery in economic performance. Should the risks to the growth outlook highlighted in section 3.0 materialize, it may lead to significantly lower-than-projected tax revenue collection.

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

6

- 19. The committee notes with concern that the tax enhancement measures contained in the Budget Policy Statement (BPS) 2021 such as strengthening the audit function in the Domestic Tax Department, enhanced scanning, resolution of tax disputes through alternative dispute resolution and fast-tracking the conclusion of cases before the Tax Appeal Tribunal do not address the structural issues that have contributed to the decline in revenue as a share of economic activity. Further, the proposals contained in the Finance bill 2021 are unlikely to significantly contribute to an increase in revenue as a share of GDP. If revenue underperforms, it will lead to an expansion of the fiscal deficit and a likely increase in the public debt levels.
- 20. Going forward, the National Treasury projects a significantly higher growth in all the major revenue categories in FY 2022/23 and the medium-term. Consequently, the fiscal deficit as a share of GDP excluding grants (including grants) is expected to improve from -8.2 percent (-7.7 percent) in 2021/22 to -4.5 percent (-4.2 percent) in 2023/24. However, the committee notes that without a comprehensive strategy by the National Treasury to enhance revenue collection, it is unlikely that the fiscal deficit target for the medium-term will be attained. Notably, continuous expansion of the fiscal deficit has put the country off the trajectory towards the EAC convergence criteria which targets, among other criteria, a ceiling on fiscal deficit including grants of 3% of GDP by 2021.

6.0. CONSOLIDATED FUND SERVICES (CFS)

- 21. CFS expenditures will amount to Ksh. 1.33 trillion in FY 2021/2022. This is a 24% increase (by Ksh. 253.5 billion) from the FY 2020/21 level and is primarily on account of increased public debt service expenses which presently constitute approximately 88% of CFS expenses. By end of March 2021, the Public and Publicly Guaranteed Stock of debt amounted to Ksh. 7.34 trillion; representing 82% of the Ksh. 9 trillion national debt ceiling. The committee is concerned that FY 2021/22 budget may not be implementable if the debt ceiling is not adjusted.
- 22. The committee is concerned that the increase in CFS expenditure is contributing to growing budget inflexibility. In FY 2021/2022, it is estimated that the CFS will account for 43% of the total annual budget and 65% of total revenue collected with the fiscal constraint worsening in the outer years. Indeed, a five-year review indicates that by FY 2021/2022, the CFS will have increased by over 150%, in absolute terms, since FY

7

2016/2017. The annualized growth rate is 20%, which is much higher than the nominal GDP growth rate for the same period.

23. There is concern over the growing pension obligations which is attributed to many years of non-implementation of contributory pension plans. In FY 2021/2022, pension obligations are estimated at Ksh. 153.6 billion; a Ksh. 42.5 billion increase from the 2020/2021 level mostly due to new allocation for the Public Service Superannuation Scheme (PSSS). Furthermore, Salaries and Allowances (for Constitutional commissions and independent offices) and other expenditures such as Miscellaneous Services, Subscriptions to international organizations among others will amount to Ksh. 4.4 billion in FY 2021/2022. This is an increase by Ksh. 248 million from the 2020/2021 level.

7.0. SUBMISSIONS FROM DEPARTMENTAL COMMITTEES

24. This section highlights key observations from the departmental committees:

i. Defence and Foreign Relations

- 25. With regard to the state department for East African Community, it was observed that there were historical pending bills amounting to Ksh. 4.5 million which could not be settled due to lack of supportive documents. Further, the state department has not been allocated funds (Ksh. 150 million) for hosting of the 22nd summit of EAC Heads of State; a function that also appears to be duplicated by the Ministry of Foreign Affairs. The proposed budget has also not factored in Ksh. 36 million for facilitating members of EALA-Kenya chapter while in Nairobi.
- 26. For the state department for regional and northern corridor development, there are pending bills amounting to Ksh. 6.3 billion. This includes Ksh. 2.9 billion relating to the Lake Basin Development Authority mall which has accumulated interest amounting to Ksh. 1 billin as at the end of the third quarter of FY 2020/2021. Further, the state department has 24 stalled projects.
- 27. The Ministry of Defence has accumulated pending bills amounting to Ksh. 8.1 billion.

ii. Administration and National Security

- 28. Under the State department for Interior and Citizen Services, the committee observed that the state department had utilized more than 100% of its development expenditure under Kenya policing services due to budget cuts which were effected on expenditure that had already been incurred. Further, no resources have been allocated for the operationalization of sub-county headquarters.
- 29. For the state department for correctional services, the committee noted that the department had historical pending bill claims amounting to Ksh. 6.2 billion. Furthermore, of the verified and processed pending bill claims worth Ksh. 3.5 billion, only 1.7 billion had been paid.
- 30. With regard to the public service commission, it was observed that even though the commission had been allocated Ksh. 1 billion for the internship programme, there was no funding to cater for administrative costs for the recruitment of interns, induction and payroll management and monitoring and evaluation of the internship programme.

iii. Justice and Legal Affairs

- 31. With regard to the Judiciary and the Judicial Service Commission, it was noted that failure to operationalize the Judiciary Fund has compelled the Judiciary to surrender funds collected every year in terms of court fees and fines to the National Treasury. This is despite the Judiciary Fund Act, 2016 allowing for the Judiciary to retain monies that may accrue from investments, fees and levies.
- 32. For the Office of the Attorney General and Department of Justice, the committee observed that there are suits against the government with financial risks to the tune of Ksh. 1.2 trillion. In addition, the awards against the government pending payment stand at approximately Ksh. 160 million. These range from awards to victims of torture as well as business litigants against the state.
- 33. With regard to the Independent Electoral and Boundaries Commission, it was noted that the commission has pending bills amounting to Ksh. 2.9 billion of which non-legal suppliers account for Ksh. 1.2 billion whereas Ksh. 1.7 billion is on account of legal fees.
- 34. For the Registrar of Political Parties, it was observed that the allocation to the Political Parties Fund is not in compliance with the provision of the section 24 of the Registrar of Political Parties Act as well as the ruling of Justice Aburili on implementation of section 24 of the Act.
- 35. With regard to the Witness Protection Agency, the committee was concerned that the witness protection programme has been consistently unfunded despite its critical role in the protection of witnesses in crucial cases. This has hampered the ability of the

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

agency to protect witnesses under the programme. The programme is estimated to have a deficit of Ksh. 56.7 million.

iv. Parliamentary Service Commission

- 36. In its submission, the Parliamentary Service Commission requested the Budget and Appropriations Committee to approve the resource requirement of Ksh. 46.61 billion as presented in order to ensure completion of critical development projects and implementation of essential parliamentary programmes. Critical projects include completion of the Office block; completion of Integrated Security Management System for Parliament; Refurbishment of buildings and development of CPST; Compensation to employees on account of the expanded Parliament and the normal wage drift; and Capacity building for Members and Staff of Parliament.
- 37. Further, an additional allocation of KES. I billion was sought over and above the submitted estimates to be apportioned as follows: Ksh. 500 Million towards automation of parliamentary processes and Ksh. 500 Million being additional allocation for development of the Centre for Parliamentary Studies and Training (CPST).

v. Office of the Auditor General

38. The office of the Auditor General submitted that, adequate resourcing of the OAG is critical. Whereas the Auditor General should do more with little, the resources allocated to the office cannot be the same as in the previous years when the Office audited the National Government only. The Constitution of Kenya, 2010 created two levels of Government – one national and 47 county governments. All these consume public resources and are required to be audited as distinct units. To function effectively, the office therefore requires an additional allocation of Ksh. 2.4 Billion.

vi. Labour and Social Welfare

- 39. With regard to the state department for Labour, the committee observed that the construction of the occupational safety and health institute and the National Employment Promotion Centre had dragged on for more than eight financial years leading to high costs.
- 40. For the state department for social protection, it was noted that the consolidated Cash Transfer Programme was underfunded by Ksh. 4.7 billion and this will continue to disadvantage the 142,000 eligible Kenyans. Furthermore, the Intergrated Child and Family Centres in Bungoma, Joska, Muranga, Nanyuki and Isiolo under the Child

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

10

Welfare Society of Kenya have not been funded for the last two financial years yet they were almost complete. To finalize, Ksh. 1.5 billion is required.

- 41. With regard to the state department for gender, the committee observed that the National Treasury has not allocated counter-part funding of Ksh. 64 million to unlock Ksh. 320 million funding from the Finnish Government for the program strengthening prevention and response to Gender Based Violence in Kenya in the 2021/2022 Financial Year.
- 42. With regard to the state department for Arid and Semi-Arid Lands, it was noted that there is a duplication of functions between the Hunger Safety Net Programme in the state department and the National Safety Net Programme under the state department for Social Protection.
- 43. For the National Youth Service, it was observed that the Service owes suppliers over Ksh. 15 billion dating as far back as the 2010/2022 financial year.

vii. Sports, Culture and Tourism

- 44. The state department for Sports has two stalled projects; Kamariny and Wote Stadiums. It is noted that the State department has a recurrent pending bill of Ksh. 56.5 million whereas Sports Kenya has a recurrent pending bill of Ksh. 151.6 million. There are also development pending bills in the state department estimated at Ksh. 1.1 billion. The Kenya Academy of Sports also has development pending bills estimated at Ksh. 153 million.
- 45. Further, the National Treasury has failed to avail Ksh. 7 billion to the Sports, Arts and Social Development Fund given AiA underperformance. Out of these funds, Ksh. 2 billion was to cater for the construction of Constituency Academies.
- 46. Under the State Department of Culture and Heritage, verified and unpaid pending bills amount to Ksh. 3.45 million. It is further noted that the National Museums of Kenya's AiA collection has been adversely affected by the Covid-19 pandemic due to closure of museums to the public. The museum requires Ksh. 398.96 million to clear outstanding pending bills and other mandatory obligations that will be required in the next financial year.
- 47. The Institute of Primate Research which has been involved in covid testing and research has accumulated pending bills worth Ksh. 88.8 million related to suppliers and import taxes. The institute further requires an additional Ksh. 109.03 million for continued purchase of testing kits, reagents and vaccine cages. Phase II funding is estimated at Ksh. 250 million for covid-19 research and development of diagnostics.
- 48. For the State department of Tourism, it is estimated that there will be significant shortfall in AiA collection leading to a funding deficit. Also, the State Department for

Tourism has a pending bill amounting to Ksh. 82 million owed to Tele News Africa and Atlantic Region that dates back to 2004.

viii. Health

- 49. The committee noted that the UHC scheme identified to cover one million poor and vulnerable (indigents) households at a cost of Ksh. 6 billion annually has not been operationalized despite the National Assembly providing budgetary allocation in FY 2020/2021. This is because some counties have not submitted data of the identified households to the Ministry of Health. Furthermore, there is overlap of functions between the UHC scheme covering indigent households and the Linda Mama Programme, the Health Insurance Subsidy Programme (HISP) and Edu Afya.
- 50. The committee observed that the Ministry of Health has unpaid court awards amounting to Ksh. 39.5 billion. Also, the Kenyatta National Hospital and Moi Teaching and Referral Hospital have accumulated unpaid patient bills, mostly from indigents, amounting to Ksh. 8.6 billion and Ksh. 7.2 billion respectively.
- 51. With regard to the Mathari National Teaching and Referral Hospital, the committee expressed concern on the state of the hospital which is said to be dilapidated and lacking in essential facilities. Further, the hospital has accumulated a bill of Ksh. 849 million partly due to catering for a huge number of capital offenders/ remandees.
- 52. The National Hospital Insurance Fund has an outstanding medical reimbursement of Ksh. 190 million and Ksh. 308 million to the Mathari National Teaching and Referral Hospital and the Kenyatta National Hospital. This has significantly strained the two facilities.

ix. Education and Research

- 53. With regard to the state department for early learning and basic education, the committee was concerned that despite resource allocations for infrastructure improvement, infrastructural challenges still persist in public schools. Further, there is no allocation for the Competency Based Curriculum (CBC) schools based assessment for grades 4,5 and 6.
- 54. With regard to the state department for Vocational and Technical Training, the committee noted that funds are required for the equipping of 34 TVCs under construction and the 29 TVCs that did not get equipment under the GoK/ China project. The China project will end in June 30th 2021 and 63 institutions will not have training equipment.

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

12

55. For the State department for University Education and Research, it was observed that additional funding was required for university capitation; from the current Ksh. 41 billion to Ksh. 61 billion for public universities and from Ksh. 2.4 billion to Ksh. 5.6 billion for private universities. It was further noted that ongoing projects in the universities are at risk of stalling due to underfunding. Indeed, critical institutions such as the Commission for University Education, the National Research Fund, the University Funding Board and the Higher Education Loans Board are not well funded and this has crippled their operations.

x. Lands

- 56. With regard to the Ministry of Lands and Physical Planning, it was observed that there were pending bills amounting to Ksh. 7.2 billion arising from court and arbitration awards. It was noted however that these pending bills were not reflected in the previous financial years despite the cases dating back to 2005. This casts doubt on the authenticity of the pending bills and will necessitate thorough investigation.
- 57. It was further observed that the National Land Commission has not been allocated funds for the development expenditure despite presenting proposals including a proposal for vesting of land compulsorily acquired by government agencies for the development of infrastructural projects to safeguard the land from grabbing.

xi. Agriculture and Livestock

- 58. The committee observed that due to low budgetary allocations and frequent extensive budget cuts, the sector has accumulated numerous pending bills and stalled projects. Indeed, in the current financial year, as at end of the third quarter, the actual expenditure for the sector was above the revised 2020/2021 budget. This was occasioned by an extensive reduction of the budget during the supplementary budget process to below the actual commitments and expenditure already incurred. In the proposed budget for FY 2021/22, the sector is underfunded by approximately Ksh. 25.8 billion.
- 59. Under the state department for livestock, the committee observed that the project for the development of a Livestock Master Plan is allocated Ksh. 270 million in form of donor support but requires counterpart funding from the government for it to proceed. Additionally, the state department has accumulated pending bills amounting to Ksh. 114.64 million as well as historical pending bills worth Ksh. 4,025.9 million relating to Halal Meat Products Ltd (Ksh. 4 billion) and Associate Architects (Ksh. 25.9 Million).

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

60. Under the state department for crop development and agricultural research, the committee noted with concern that the E-voucher system which is expected to provide subsidized farm inputs to over 235,000 registered farmers has been allocated Ksh. 1.5 billion against a resource requirement of Ksh. 3.6 billion implying that only 50,000 farmers are likely to benefit from this programme.

xii. Environment and Natural Resources

- 61. With regard to the Ministry of Water, Sanitation and Irrigation, it is noted that the Ministry has accumulated pending bills worth Ksh. 7.08 billion. Most of these are historical pending bills mainly due to unremitted statutory deductions as a result of exchequer under-issues in the 2019/2020 financial year. Other pending bills have been occasioned by uncleared dues for supply of goods and services. It is further noted that that the Ministry has four stalled projects, namely: the Rongo Water Supply project, Itare Dam, Kiserian Sewerage Project and Awendo Water Supply project.
- 62. The committee further observed that most of the development projects under the Ministry of Water, Sanitation and Irrigation are donor funded and this has posed a big challenge to project implementation. This is because donors prefer to support water projects in more populous regions like urban areas and this has greatly disadvantaged rural areas.
- 63. With regard to the Ministry of Environment and Forestry, the Committee noted that there was a pending bill worth Ksh. 4.7 billion comprising of Ksh. 4 billion for recurrent expenditure by the Kenya Forest Service (KFS) due to unpaid tax arrears generated from the sale of mature trees; Ksh. 627 million in respect of court judgements issued against the Ministry; Ksh, 57.5 million for the development expenditure of Kenya Forest Research Institute (KEFRI); and Ksh. 36.8 million for the recurrent expenditures in the headquarters.

xiii. Energy

- 64. With regard to the State Department for Energy, it was observed that there exists huge pending bills within the SAGAs in the ministry. Further, the incidence of contract termination is high among the capital projects within this sub-sector. Indeed, the Auditor General's report for the financial year ending June 2020 raised audit queries on the terminated contracts due to the ensuing cost overruns and delays in service delivery.
- 65. With regard to the Ministry of Petroleum and Mining, the committee observed that projects within this sub-sector are implemented too slowly and are unlikely to be finalized within the stipulated timeframes. For instance, the early monetization of first

oil project whose planned period of execution was 2011 - 2022 is at 1% completion as at 31^{st} May 2021. Further, the sub-sector lacks a robust monitoring and evaluation framework for effective evaluation of projects.

xiv. Communication, Information and Innovation

- 66. With regard to the State Department for ICT and Innovation, it is noted that there is a historical pending bill amounting to Ksh. 771 million owed by ICTA to Oracle, Microsoft and IBM for supply and licenses of software for a World Bank project that was closed in 2016. Further, the committee observed that the status of some ongoing projects indicates a likelihood that they will not be completed within the stipulated timelines and this may lead to cost overruns.
- 67. For the State department for Broadcasting and Telecommunication, the committee was concerned that the Postal Corporation of Kenya (PCK) is struggling financially and reportedly requires Ksh. 1 billion to stay afloat. Notably, the State Department and other stakeholders including the National Treasury are working on the restructuring process of the PCK. It was noted however that these financial struggles are partly due to non-settlement of bills owed by other government entities such as the Ministry of Public Service to the Postal Corporation.
- 68. The committee further observed that the Kenya Broadcasting Cooperation is facing a lawsuit estimated at Ksh. 40 billion in London UK for termination of a contract it had with Amjan TV which later incorporated British Virgin Islands. Further, some targets and Key Performance Indicators for the KBC are noted to be neither realistic, nor pragmatic.

xv. Transport, Public Works and Housing

- 69. With regard to the state department for infrastructure, the committee observed that as at April 2021, the state department had accumulated pending bills worth Ksh. 99 billion, of which Ksh. 31 billion is for land compensation.
- 70. For the state department of Transport, the committee was concerned with an apparent policy bias in the application of airstrips in the country. It was noted that despite the state department having abandoned plans for construction and rehabilitation of some airstrips ostensibly due to the county governments not having provided land, there are plans to purchase land from a private owner for the construction of Angama airstrip.

ρ.,

xvi. Trade, Industry and Cooperatives

- 71. For the State Department for cooperatives, the committee observed that the key performers indicators and output do not correspond with the proposed financial allocations in the estimates. In particular, the completion of Luanda cooperative cotton ginnery has not been allocated resources even though there are allocations for the purchase of specialized plant, equipments and machinery for the same ginnery.
- 72. The State Department for Trade and Enterprise Developments is underfunded by approximately Ksh. 8,460.1 Million and may not be able to meet its priority objectives. It is noted that there has been no initiative(s) to support exporters who are incredibly important to the economy as they offer market for our products. Our export volumes have remained below potential mainly due to failure to meet the market phytosanitary requirements and quality standards.
- 73. The committee further observed that Kenya is unacceptably underrepresented in terms of trade representative offices in key existing and potential export markets. The proposal for the posting of twenty-two (22) trade attachés in our various missions abroad is not adequate. Indeed, Kenya is expected to take part in the Expo 2020 in Dubai from 1st October 2021 to 31st March, 2022 yet there is no budgetary allocation in the 2021/22 budget to facilitate the country's participation.
- 74. With regard to the state department for industrialization the committee observed that there is duplication of functions across various State Departments such as Cotton Industry Projects which are funded in State Departments for Agriculture, Cooperatives and Industrialization. Additionally, funds for infrastructure projects under the SEZ are under the State Departments for Industrialization, Infrastructure and The National Treasury. In addition, funds for Small and Medium Enterprises (SMEs) particularly for capacity building is funded in the State Departments for Industrialization, and Trade and Enterprise Development.

xvii. Finance and National Planning

75. For the State Department for Planning, the committee observed that the allocation of KSh. 41.714 to NG-CDF for the FY 2021/22 complies with the minimum of 2.5% required by NG-CDF Act. However, it is noted that there are other outstanding arrears of KSh. 4.97 billion owed to NG-CDF for Fiscal Years 2008/2009, 2009/2010 and 2010/2011.

- 76. For the State Department for devolution, it is observed that the World Bank disbursed KSh. 4.6 billion for the Kenya Devolution Support Programme Level II in May 2020. By this time, the County Allocation of Revenue Act (CARA) had already been prepared and the amount was therefore not captured in the CARA. If counterpart funding by the Government is not provided by September 2021, the World Bank will recall the funds.
- 77. The committee is also concerned that the Commission on Revenue Allocation (CRA) and the Controller of Budget (CoB) are grossly underfunded and may not be able to achieve their targets.

8.0. RESOLUTIONS FROM THE PUBLIC HEARINGS

- 78. As earlier indicated, pursuant to Article 221(5) of the constitution, the Budget and Appropriations Committee organized public participation virtually through submission of written memoranda, while still maintaining the previously adopted framework whereby a minimum of twelve (12) counties host public hearings in each financial year.
- 79. In this regard, the Budget and Appropriations Committee identified the following twelve (12) counties in which to carry out the public hearings exercise on the proposed 2021/2022 budget: Kilifi, Mandera, Meru, Machakos, Nyandarua, Kiambu, Elgeyo-Marakwet, Nandi, Baringo, Vihiga, Siaya and Nairobi City County. As at the time of finalization of this report, the committee had received submissions from four (4) counties on their key expenditure priorities. Submissions from the rest of the counties are awaited.
- 80. The submissions received from the public covered a broad range of concerns; from water issues and flooding to road infrastructure and the business environment. A detailed summary of public hearing submissions can be found in Annex III of this report.

9.0. COMMITTEE OBSERVATIONS

81. Arising from these deliberations, the committee made the following observations:

a. **Pending bills:** Despite the presidential directive in June 2019 that all pending bills by government agencies be cleared immediately, they continue to present a significant challenge in almost all sectors of the budget. It is noted that the veracity of some of these pending bills is in doubt.

- b. Stalled projects: this has become a permanent feature of our budget. There is no adherence to the project guidelines issued by the National Treasury including the introduction of new projects before completion of existing ones despite the thin spread of resources. A policy must be implemented to ensure enforcement of PFM and Treasury guidelines. Sanctions should be instituted to MDAs that introduce new projects before completion of existing projects.
- c. **Duplication of functions:** there is observed an overlap of functions between some spending agencies as well as between some programmes. Streamlining of functions will be crucial to eliminate duplication and reduce resource wastage.
- d. Failure of the MTEF process: there appears to be very little focus on the medium term budget despite the MTEF process requiring budgeting to focus on a three year rolling plan in order to ensure predictability of the budget. Poor performance of the MTEF is partly attributed to the failure to adapt to initially weak budget systems as well as limited institutional capacity especially in the National Treasury. The situation is made worse by inadequate support and agency buy-in for this mode of budgeting.
- e. Mainstreaming the (Sustainable Development Goals (SDGs) in the Budget process: there is no evidence that the Sustainable Development Goals (SDGs) have been mainstreamed in the budget process despite being instrumental in poverty reduction and sustainable economic development.
- f. Transfer of functions between ministries: in the 2021/2022 budget, seemingly highly performing ministries are expected to implement certain key projects/programmes not necessarily under their purview. Notably, in the next financial year, the National Treasury will become an implementing agency for some infrastructure projects. The committee is concerned that the National Treasury may find it difficult to strike the balance between being the implementer of public finance and being a sectoral implementer of these infrastructure projects.
- g. Policy on providing capitation for government sponsored students in private universities: This policy has not been managed well as government sponsored students enrolled in private universities do not receive adequate

BAC Report on the Estimates of Revenue and Expenditure for FY 2021-2022

18

capitation. These students receive an average of Ksh. 40,000 per year. There is need therefore to critically re-look this policy in order to ensure that the policy's objective is adequately met.

10.0. COMMITTEE RECOMMENDATIONS

82. Having considered the above matters, the committee recommends as follows:

a. Policy Recommendations

- i) That, the National Treasury sets up a fund that may be financed through a long-term bond for the payment of the existing verified pending bills and court awards. The fund should be in place by 1st October, 2021.
- ii) That, the State Department for University Education and the Ministry of Environment and Forestry under the Kenya Forest Service, should sign an MoU with the Kenya Revenue Authority on how the non-remitted tax dues will be paid. A report on this should be submitted to the National Assembly by 1st October, 2021.
- iii) That, to facilitate the expansion of exports and facilitate growth, an export management office (EMO) be established which will have representation from all agencies that deal with the entire export value chain of Kenyan products. The office should be domiciled in the State Department for Trade. A status report on the establishment of the Office should be submitted to the National Assembly by 30th September, 2021.
- iv) That, the State Department for Trade conducts a study on the need to establish trade offices or logistical centres in key existing and potential markets within the various regional economic blocks and countries which have established bilateral relationships with Kenya. This is in order to focus on international export opportunities that match Kenya's current/potential business capability. The study should be completed by 31st December, 2021.
- v) That, the Ministry of Petroleum and Mining enhances its Monitoring and Evaluation Framework in oil and gas exploration and submits a report on it to the National Assembly by 1st October, 2021.
- vi) That, the State Department for ICT and Innovation institutes a robust Monitoring and Evaluation framework on the maintenance and rehabilitation works of the existing ICT Infrastructure (NOFBI II Cable and Last Mile County Connectivity Networks). A report on the framework should be submitted to the National Assembly by 1st September, 2021.
- vii) That, the government logistics be interlinked and provided for by government institutions such as Kenya Railways Corporation, Kenya Ports Authority, Posta Corporation and Kenya Airways. This should be in place by end of FY 2021/22 and managed by the seemingly efficient MDAs.

- viii) That, the Ministry of Lands and Physical Planning commences the use of a cashless revenue collection system by 30th May, 2021.
- ix) That, the National Treasury, the State Department for Social Protection and the State Department for ASAL consolidates all the existing cash transfer programs under one umbrella. A report on this exercise should be submitted to the National Assembly by 1st January, 2022.
- x) That, the State Department for University Education and the University Funding Board completes the review of the University funding formula by 1st October, 2021, to ensure it supports recently established universities which seem to be disadvantaged with the current formula in place. The amended formula should also be applied in the allocation of infrastructure funds to various universities.
- xi) That, the Ministry of Health the National Treasury, the Ministry of Labour and Social Protection, the Ministry of Education and NHIF actualizes the amalgamation of EduAfya Medical Insurance, Linda Mama, Health Insurance Subsidy Programme (HISP), Orphans and Vulnerable Children Cash Transfers (OVC-CT) to form one UHC scheme for the indigents through National Hospital Insurance Fund (NHIF). A report should be submitted to the National Assembly by 1st October, 2021.

b. Financial Recommendations: Committee Recommendations arising from the Public Hearings

83. After extensive deliberations, the Committee recommends that Ksh. **1.2 billion** be set aside to fund projects arising from public hearings. This expenditure should be domiciled under the specific ministries.

c. Financial Recommendations: Committee Recommendations on the National Budget 2021/2022

84. The Budget and Appropriations Committee received substantial additional requests from Departmental Committees amounting to Ksh. 85.7 billion to meet various expenditure shortfalls. However, due to prevailing resource constraints and the need to contain the fiscal deficit within a certain limit, the Committee could not finance most of these requests.

85. The Committee therefore resolves as follows:

a) Reductions

That, the reduction of Ksh. 20,413,508,823 be effected from the votes and programmes as shown in Schedule I and II as per the justifications provided.

b) Additions

That, the amount of Ksh. 24,076,168,823 be increased to the votes and programmes as shown in Schedule I and II as per the justifications provided.

c) Allocation for Parliament

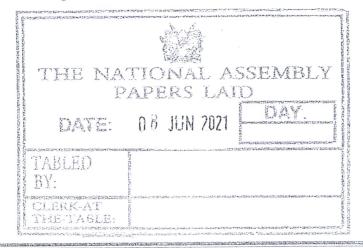

That, the budget allocation for the Parliament for FY 2021/2022 be Ksh. 37,882,700,000.

d) Allocation for the Judiciary

That, the budget allocation for the Judiciary for FY 2021/2022 be Ksh. 17,833,200,000.

86. Further, the committee recommends that this House resolves to:

- a) Approve the Report and the recommendations of the Budget and Appropriations Committee on the Budget Estimates for the National Executive, the Judiciary and Parliament for Financial Year 2021/2022.
- b) Approve that Schedule I and II attached to this report forms the basis of the Appropriation Bill, 2021
- c) Approve that the National Treasury finalizes the required budget documents as per the Public Finance Management Act, 2012 on the detailed estimates.
