Lucy Ngulukyo	Head of administration Head of Nursing
	Management Dr. Daniel Katua Benjamin Katola Geoffrey Keli Richard Yotta Lucy Ngulukyo

4. Chairman's Statement

The hospital did not have an active board of management in the year under review

5. Report of The Chief Executive Officer

We are gradually improving in our financial performance. The Universal Health Coverage roll out through National Social Health Insurance Fund will significantly improve our revenue collections because we envision all community members will have an NSHIF (NHIF) card and all hospital bills will be re-imbursed through this card.

Our performance currently is facing several challenges:- most of the hospital clients or patients have no NHIF card, commodities (pharmaceuticals, non-pharmaceuticals, laboratory reagents, radiological consumables and dental supplies) shortages, human resources shortages (especially medical officers, clinical officers, nurses, laboratory technologists, radiographers/sonographers, health information and records officers, etc), inadequate infrastructure, lack of integrated biometrically automated health records and information management system, and inefficient service delivery processes.

Going forward we will continually engage within the department of health and emergency services and the county government aiming to improve and overcome some of the above challenges. Resources will be prioritized to critical and emergency areas as well as areas with potential of giving us maximum outcomes on key performance indicators.

Our focus still remains on infectious disease like diarrhea, respiratory infections, road traffic accidents, HIV/AIDS, Tuberculosis, helminths and other common infections affecting our catchment community. The non-communicable component of our morbidity burden is also quite huge and significant and substantial focus and resources will continue being prioritized on tackling these diseases like diabetes, hypertension, cancer, COPD, heart and kidney diseases, asthma, road traffic e accidents, drugs and substance abuse, and others. Preventive promotive and rehabilitate health has been lagging behind in our priorities and will be a big game changer in health in the future. We have to invest in primary Health Care for us to reap the benefits and dividend which accrue from prevention of diseases.

The financial performance need of the hospital needs investment in areas like biometric automation of the facility improvement fund collection system, additional efficient hardware (computers), additional human

resources and training of the revenue clerks to realize full potential. We also need a law passed through the county assembly to amend the public finance management act 2012 allowing the resources generated by hospitals to be 100% ploughed back to these generating hospitals to improve health services.

The future looks bright for the hospital and we look forward to better performance in the subsequent quarters and years.

,

Dr. Katua, K. D. Medical Superintendent Kangundo Level 4 Hospital

6. Statement of Performance Against Predetermined Objectives

Section 164 Subsection 2 (f) of the Public Finance Management Act, 2012 requires the accounting officer to include in the financial statement, a statement of the County Government entity's performance against predetermined objectives.

Kangundo Level 4 Hospital has *X* (provide the strategic pillars) strategic pillars/ themes/issues and objectives within the current Strategic Plan for the FY 2021/2022. These strategic pillars/ themes/ issues are as follows;

Pillar /theme/issue 1:

Pillar/theme/issue 2:

Kangundo Level 4 Hospital develops its annual work plans based on the above X pillars/Themes/Issues. Assessment of the Board's performance against its annual work plan is done on a quarterly basis. The Kangundo Level 4 Hospital achieved its performance targets set for the FY 2021/2022 period for its 2021/2022 strategic pillars, as indicated in the diagram below:

Strategic Pillar/Theme/Issues	Objective	Key Performance Indicators	Activities	Achievements
Pillar/ theme/ issue 1:		- Carolis	ACCUMULATION AND AND AND AND AND AND AND AND AND AN	
Pillar/ theme/ issue 1:				

7. Corporate Governance Statement

The hospital does not have a board of management therefore no board meetings were held during the year ended June 30, 2022

8. Management Discussion and Analysis

The management should make use of tables, graphs, pie charts and other descriptive tools to make the information as understandable as possible. The information should show a trend for the last there years. Some of the details to be included under this section are:

Clinical/operational performance

- Bed capacity of the hospital.
- Overall patient attendance during the year for both inpatient and outpatient.
- Accident and Emergency attendance
- Specialised clinic attendance
- Average length of stay for in patient

Kangundo Level 4 Hospital (Machakos County Government) Annual Report and Financial Statements for The Year Ended 30th June 2022

- Bed occupancy rate
- Mortality rate
- Surgical theatre utilisation (number of operations over a period of time)
- Sponsorships and partnerships

Financial performance that includes

- revenue sources,
- utilisation of funds etc

(The management discussion and analysis should be signed by the Chief Executive Officer/Medical Superintendent)

9. Environmental and Sustainability Reporting Two-to-three pages)

Kangundo Level 4 Hospital exists to transform lives. It's what guides us to deliver our strategy, putting the client/Citizen first, delivering health services, and improving operational excellence. Below is an outline of the organisation's policies and activities that promote sustainability.

i) Sustainability strategy and profile

The top management especially the accounting officer should make reference to sustainable efforts, broad trends in political and macroeconomic affecting sustainability priorities, reference to international best practices and key achievements and failure.

ii) Environmental performance

Outline clearly, environmental policy guiding the organisation, provide evidence of the policy. Outline successes, shortcomings, efforts to manage biodiversity, waste management policy and efforts to reduce environmental impact of the organisation's products.

iii) Employee welfare

Give account of the policies guiding the hiring process and whether they take into account the gender ratio, whether they take in stakeholder engagements and how often they are improved. Explain efforts made in improving skills and managing careers, appraisal and reward systems. The organisation should also disclose their policy on safety and compliance with Occupational Safety and Health Act of 2007, (OSHA.)

iv) Market place practices-

The organisation should outline its efforts to:

a) Responsible competition practice.

Explain how the organisation ensures responsible competition practices with issues like anti-corruption, responsible political involvement, fair competition, and respect for competitors.

b) Responsible Supply chain and supplier relations

Explain how the organisation maintains good business practices, and treats its own suppliers responsibly by honouring contracts and respecting payment practices.

c) Responsible marketing and advertisement

Outline efforts to maintain ethical marketing practices.

d) Product stewardship

Outline efforts to safeguard consumer rights and interests.

v) Corporate Social Responsibility / Community Engagements

The organisation gives details of CSR activities carried out in the year and the impact to the society. Give evidence of community engagement including charitable giving (cash and material), Corporate Social Investment and other forms of community engagements.

10. Report of The Board of Management

The Hospital did not have an active management board in the year under review.

11. Statement of Board of Management's Responsibilities

The Hospital did not have an active management board in the year under review.

REPORT OF THE AUDITOR-GENERAL ON KANGUNDO LEVEL 4 HOSPITAL FOR THE YEAR ENDED 30 JUNE, 2022 - COUNTY GOVERNMENT OF MACHAKOS

PREAMBLE

I draw your attention to the contents of my report which is in three parts:

- A. Report on the Financial Statements that considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the financial statements.
- B. Report on Lawfulness and Effectiveness in Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure Government achieves value for money and that such funds are applied for the intended purpose.
- C. Report on Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, the risk management environment, and the internal controls, developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

An unmodified opinion does not necessarily mean that an entity has complied with all relevant laws and regulations and that its internal controls, risk management and governance systems are properly designed and were working effectively in the financial year under review.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012 and the Public Audit Act, 2015. The three parts of the report, when read together constitute the report of the Auditor-General.

REPORT ON THE FINANCIAL STATEMENTS

Qualified Opinion

I have audited the accompanying financial statements of Kangundo Level 4 Hospital – County Government of Machakos set out on pages 1 to 51, which comprise of the

statement of financial position as at 30 June, 2022 and the statement of financial performance, statement of changes in net assets, statement of cash flows and statement of comparison of budget and actual amounts for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of Kangundo Level 4 Hospital - County Government of Machakos as at 30 June, 2022, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with the Health Act, 2017, Public Finance Management Act, 2012, County Governments Act, 2012 and the Machakos County Services Act, 2021.

Basis for Qualified Opinion

1. Unsupported Trade and Other Payables

The statement of financial position and as disclosed in Note 34 to the financial statements reflects trade and other payables balance of Kshs.33,736,690. However, included in the balance was Kshs.16,938,258 whose supporting schedules were not provided for audit. Further, documents provided indicated that the payables were long overdue, some dating back to February 2014 contrary to Regulation 42(2) of the Public Finance Management (County Governments) Regulations, 2015 which requires the payables/pending bills to be a first-charge in the subsequent budget of an entity. In addition, the Management did not provide the measures which had been put in-place to settle these long outstanding bills.

In the circumstances, the accuracy and completeness of trade and other payables balance could not be confirmed.

2. Non-Disclosure of Property, Plant and Equipment

The statement of financial position reflects Nil property, plant and equipment balance. However, review of Hospital records and physical inspection revealed various assets including land, buildings, motor vehicles, furniture, computers and equipment which were not disclosed in the financial statements. Further, the ownership documents for land were not provided for audit.

In the circumstances, the accuracy, completeness and ownership of property, plant and equipment balance could not be confirmed.

3. Unconfirmed Inventories Balance

The statements of financial position reflect Nil inventories balance as disclosed in Note 30 to the financial statements. However, there was no evidence of conducting the annual

stock take to confirm the quantities, value and status of closing inventory balances as at 30 June, 2022

In the circumstances, the accuracy, completeness and valuation of the inventories balance could not be confirmed.

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of Kangundo Level 4 Hospital Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, except for the matters described in the Basis for Conclusion on Lawfulness and Effectiveness in Use of Public Resources section of my report, I confirm that, nothing else has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

1. Late Submission of Financial Statements

The annual report and financial statements for period ended 30 June, 2022 were submitted on 03 March, 2023 five (5) months after statutory deadline. This was contrary to Section 47(1) of the Public Audit Act, 2015 which states that the financial statements required under the Constitution, the Public Finance Management Act, 2012 section 84(3) and any other legislation, shall be submitted to the Auditor-General within three (3) months after the end of the fiscal year to which the accounts relate. In the circumstances, Management was in breach of the law.

2. Identification, Collection and Accounting of Own Generated Revenue

The statement of financial performance reflects rendering of services- medical service income of Kshs.29,051,890 as disclosed in Note 11 to the financial statements. However, the following unsatisfactory matters were noted:-

2.1 Failure to Transfer Revenue to the County Revenue Fund Account

The Hospital did not transfer the generated own source revenue to the County Revenue Fund Account for approval by the Controller of Budget before withdrawal. This was contrary to Regulation 81(1-3) of the Public Finance Management (County Governments) Regulations, 2015 which states that a receiver of revenue shall promptly deposit into the County exchequer account all receipts due to the County Revenue Fund.

2.2 Failure to prepare Quarterly Revenue Reports

During the year under review, the Hospital did not provide evidence to show that the reports were prepared and submitted to the County Treasury with a copy to the Auditor General as per the requirement of Regulations 64(1) of the Public Finance Management (County Governments) Regulations, 2015 which requires the Accounting Officer or receiver of revenue or collector of revenue to prepare a quarterly report not later than the 15th day after the end of the quarter.

2.3 Revenue Safeguards and Controls

During the year under review, there was limited segregation of duties over revenue collection process as one person received revenue, issued receipts and carried out the banking of revenue. This was contrary to Regulation 63(1(a)) of the Public Finance Management (County Governments) Regulations, 2015 which states that an Accounting Officer and a receiver of revenue are personally responsible for ensuring that— (a) adequate safeguards exist and are applied for the prompt collection and proper accounting for, all county government revenue and other public moneys relating to their county departments or agencies.

In the circumstances, Management was in breach of the law.

3. Deficiencies in Implementation of Universal Health Coverage

Review of Hospital records and interviews on verification of services offered, equipment used and medical specialists in the Hospital at the time of audit in April, 2024 revealed that the Hospital did not meet the requirements of Kenya Quality Model for Health Policy Guidelines due to deficits in some of the staff cadres in the authorized establishment.

Staff Requirements	Level 4 standard	Numberin Hospital	Variance	Percentage %
Medical officers	16	9	7	44
Anesthesiologists	2	1	1	50
General surgeons	2	3	(1)	(50)
Gynecologists	2	2	0	0
Pediatrics	2	1	1	50
Radiologists	2	3	(1)	(50)
Registered community	75	102	(27)	(36)
health nurses				
Totals	101	121	(20)	(20)

Report of the Auditor-General on Kangundo Level 4 Hospital for the year ended 30 June, 2022 - County Government of Machakos

In addition, the Hospital lacked the necessary equipment and machines outlined in the Health Policy Guidelines as detailed below;

Equipment and Machines	Level 4 Hospital Standard	Actuals in the Hospital	Variance	Percentage %
Beds	150	201	(51)	(34)
Resuscitaire (2 in labor & 1 in theatre)	2	1	1	50
New born unit incubators	5	0	5	(100)
New born unit cots	5	15	(10)	(200)
Functional ICU beds	6	6	0	0
High Dependency Unit (HDU) Beds	6	0	6	100
Renal Unit with at least 5 dialysis machines	5	0	5	100
Two Functional operational theatres-Maternity & General	2	1	1	50

These deficiencies contravene the First Schedule of Health Act, 2017 and imply that accessing the highest attainable standard of health, which includes the right to health care services, including reproductive health care as required by Article 43(1) of the Constitution of Kenya, 2010 may not be achieved.

In the circumstances, the Hospital will not be able to deliver on its mandate.

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, except for the matters described in the Basis for Conclusion on Effectiveness of Internal Controls, Risk Management and Governance section of my report, I confirm that, nothing else has come to my attention to cause me to believe that internal controls, risk management and overall governance were not effective.

Basis for Conclusion

1. Unregistered Pharmacy and Expired Pharmaceutical Supplies in Store

Review of the records maintained at the Hospital revealed that the facility had in store expired pharmaceutical products of undetermined value. Further, the Hospitals' pharmacy was not registered with the Pharmacy and Poisons Board.

In the circumstances, the effectiveness on internal controls over pharmaceutical supplies could not be confirmed.

2. Lack of Risk Management Policy

During the year under review, the Hospital did not have a risk management policy in place. This was contrary to Regulation 158(1) of the Public Finance Management (County Governments) Regulations, 2015 which states that the Accounting Officer shall ensure that (a) the county government entity develops risk management strategies, which include fraud prevention mechanism; and (b) the county government entity develops a system of risk management and internal control that builds robust business operations.

In the circumstances, the internal controls and risk management of the Hospital may not be effective.

3. Lack of Internal Audit function and Committee

During the year under review, it was noted that the Hospital did not have an internal audit function to perform risk assessment processes and evaluation of operational effectiveness of the Hospital through reviews of the internal controls in the Hospital, thus risks may not have been identified and mitigated. In addition, there was no Audit Committee in place.

In the circumstances, the internal controls, risk management and governance of the Hospital may not be effective.

4. Lack of Hospital Management Board

The statement of financial performance reflects Nil Board of Management expenses as disclosed in Note 17 to the financial statements. However, the Board of Management that is supposed to direct the Hospital in achieving its strategic objectives was not constituted.

In the circumstances, the Hospital may not achieve its strategic objectives.

5. Failure to Maintain Fixed Assets Register

The statement of financial position reflects Nil balances in respect of property, plant and equipment as disclosed in Note 31 to the financial statements. However, it was noted that

the Hospital does not maintain fixed asset register to control its assets. This was contrary to Regulation 136(1) of the Public Finance Management (County Governments) Regulations, 2015 which states that the Accounting Officer shall be responsible for maintaining a register of assets under his or her control or possession as prescribed by the relevant laws. In addition, there was no evidence to show that the Hospital has ever valued its assets to ascertain the correct market values.

In the circumstances, the existence of an effective mechanism to safeguard assets could not be confirmed.

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal controls, risk management and governance.

In preparing the financial statements, Management is responsible for assessing the Hospital's ability to sustain its services, disclosing, as applicable, matters related to sustainability of services unless the Management is aware of the intention to terminate the Hospital or to cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those Charged with Governance are responsible for overseeing the Hospital's financial reporting process, reviewing the effectiveness of how the Hospital monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to overall governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the Hospital's policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of appropriate basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Hospital's ability to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Hospital to cease to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Hospital to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and where applicable, related safeguards.

FCPA wancy Gathungs, CBS AUDITOR-GENERAL

Nairobi

25 June, 2024

Kangundo Level 4 Hospital (Machakos County Government) Annual Report and Financial Statements for The Year Ended 30th June 2022

17. Notes To the Financial Statements

1. General Information

Kangundo Level 4 Hospital is established by and derives its authority and accountability from the Kenya Gazzette notice of January 27th, 1989. The entity is wholly owned by the County Government of Machakos and is domiciled in Kenya. The entity's principal activity is to provide quality healthcare to the people of Kangundo Sub County and its environs by preventing, controlling and eradicating disease. Further, the facility is tasked to rehabilitate and promote healthy living by ensuring quick accessibility of efficient, equitable, affordable and sustainable health services.

2. Statement Of Compliance And Basis Of Preparation

The financial statements have been prepared on a historical cost basis except for the measurement at re-valued amounts of certain items of property, plant, and equipment, marketable securities and financial instruments at fair value, impaired assets at their estimated recoverable amounts and actuarially determined liabilities at their present value. The preparation of financial statements in conformity with International Public Sector Accounting Standards (IPSAS) allows the use of estimates and assumptions. It also requires management to exercise judgement in the process of applying the *Machakos County Government* accounting policies. The areas involving a higher degree of judgment or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note xx The financial statements have been prepared and presented in Kenya Shillings, which is the functional and reporting currency of the *entity*. The financial statements have been prepared in accordance with the PFM Act, and and International

The financial statements have been prepared in accordance with the PFM Act, and and International Public Sector Accounting Standards (IPSAS). The accounting policies adopted have been consistently applied to all the years presented.

3. Adoption of New and Revised Standards

IPSASB deferred the application date of standards from 1st January 2022 owing to Covid 19. This was done to provide entities with time to effectively apply the standards. The deferral was set for 1st January 2023.

Kangundo Level 4 Hospital (Machakos County Government) Annual Report and Financial Statements for The Year Ended 30th June 2022

Notes to the Financial Statements (Continued)

i. New and amended standards and interpretations in issue but not yet effective in the year ended 30 June 2022.

30 June 2022	
Standard	Effective date and impact:
IPSAS 41:	Applicable: 1st January 2023:
Financial	The objective of IPSAS 41 is to establish principles for the financial reporting of
Instruments	financial assets and liabilities that will present relevant and useful information to
	users of financial statements for their assessment of the amounts, timing and
	uncertainty of an Entity's future cash flows.
	IPSAS 41 provides users of financial statements with more useful information than
	IPSAS 29, by:
	 Applying a single classification and measurement model for financial assets
	that considers the characteristics of the asset's cash flows and the objective
	for which the asset is held;
	 Applying a single forward-looking expected credit loss model that is
	applicable to all financial instruments subject to impairment testing; and
	2,
	Applying an improved hedge accounting model that broadens the hedging
	arrangements in scope of the guidance. The model develops a strong link
	between an Entity's risk management strategies and the accounting treatment
	for instruments held as part of the risk management strategy.
IPSAS 42:	Applicable: 1st January 2023
Social Benefits	The objective of this Standard is to improve the relevance, faithful representativeness
	and comparability of the information that a reporting Entity provides in its financial
	statements about social benefits. The information provided should help users of the
	financial statements and general-purpose financial reports assess:
	(a) The nature of such social benefits provided by the Entity;
	(b) The key features of the operation of those social benefit schemes; and

	(c) The impact of such social benefits provided on the Entity's financial performance financial position and cash flows.
Amendments to	Applicable: 1st January 2023:
Other IPSAS	a) Amendments to IPSAS 5, to update the guidance related to the component
resulting from	of borrowing costs which were inadvertently omitted when IPSAS 41 was
IPSAS 41,	issued.
Financial	b) Amendments to IPSAS 30, regarding illustrative examples on hedging and
Instruments	credit risk which were inadvertently omitted when IPSAS 41 was issued.
	c) Amendments to IPSAS 30, to update the guidance for accounting for
	financial guarantee contracts which were inadvertently omitted when
	IPSAS 41 was issued.
	Amendments to IPSAS 33, to update the guidance on classifying financia
	instruments on initial adoption of accrual basis IPSAS which were inadvertently
	omitted when IPSAS 41 was issued.
Other	Applicable 1st January 2023
mprovements to	IPSAS 22 Disclosure of Financial Information about the General Government
PSAS	Sector.
	Amendments to refer to the latest System of National Accounts (SNA 2008).
	• IPSAS 39: Employee Benefits
	Now deletes the term composite social security benefits as it is no longer defined in
	IPSAS.
	IPSAS 29: Financial instruments: Recognition and Measurement
	Standard no longer included in the 2021 IPSAS handbook as it is now superseded by
	IPSAS 41 which is applicable from 1st January 2023.
SAS 43	
	Applicable 1st January 2025
	The standard sets out the principles for the recognition, measurement, presentation,
1 .	and disclosure of leases. The objective is to ensure that lessees and lessors provide
1	clevant information in a manner that faithfully represents those transactions. This
1	information gives a basis for users of financial statements to assess the effect that

	leases have on the financial position, financial performance and cashflows of an Entity. The new standard requires entities to recognise, measure and present information on right of use assets and lease liabilities.
IPSAS 44: Non-	Applicable 1st January 2025
Current Assets	The Standard requires,
Held for Sale	Assets that meet the criteria to be classified as held for sale to be measured at the
and	lower of carrying amount and fair value less costs to sell and the depreciation of such
Discontinued	assets to cease and:
Operations	Assets that meet the criteria to be classified as held for sale to be presented separately
	in the statement of financial position and the results of discontinued operations to be
	presented separately in the statement of financial performance.

ii. Early adoption of standards

The entity did not early - adopt any new or amended standards in the year June 30, 2022

4. Summary Of Significant Accounting Policies

a) Revenue recognition

i) Revenue from non-exchange transactions

Transfers from other Government entities

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services, and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the entity and can be measured reliably.

Notes to the Financial Statements (Continued)

Revenue from exchange transactions Rendering of services

The entity recognizes revenue from rendering of services by reference to the stage of completion when the outcome of the transaction can be estimated reliably. The stage of completion is measured by reference to labour hours incurred to date as a percentage of total estimated labour hours. Where the contract outcome cannot be measured reliably, revenue is recognized only to the extent that the expenses incurred are recoverable.

Sale of goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery

of the goods and when the amount of revenue can be measured reliably, and it is probable that the economic benefits or service potential associated with the transaction will flow to the entity. Interest income

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income for each period. Dividends

Dividends or similar distributions must be recognized when the shareholder's or the entity's right to receive payments is established. Rental income

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and included in revenue.

Notes to the Financial Statements (Continued)

b) Budget information

The original budget for FY 2021/2022 was approved by Board on 30 September 2020. Subsequent revisions or additional appropriations were made to the approved budget in accordance with specific approvals from the appropriate authorities. The additional appropriations are added to the original budget by the entity upon receiving the respective approvals in order to conclude the final budget. Accordingly, the entity recorded additional appropriations of *nil* on the FY 2021/2022 budget following the Board's approval. The entity's budget is prepared on a different basis to the actual income and expenditure disclosed in the financial statements. The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on a cash basis. The amounts in the financial statements were recast from the accrual basis to the cash basis and reclassified by presentation to be on the same basis as the approved budget.

A comparison of budget and actual amounts, prepared on a comparable basis to the approved budget, is then presented in the statement of comparison of budget and actual amounts. In addition to the Basis difference, adjustments to amounts in the financial statements are also made for differences in the formats and classification schemes adopted for the presentation of the financial statements and the approved budget. A statement to reconcile the actual amounts on a comparable basis included in the statement of comparison of budget and actual amounts and the actuals as per the statement of financial performance has been presented under section *XVI* of these financial statements.

Notes to the Financial Statements (Continued)

c) Taxes

Sales tax/ Value Added Tax

Expenses and assets are recognized net of the amount of sales tax, except:

- When the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of sales tax included. The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

d) Investment property

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the replacement cost of components of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day maintenance of an investment property.

Investment property acquired through a non-exchange transaction is measured at its fair value at the date of acquisition. Subsequent to initial recognition, investment properties are measured using the cost model and are depreciated over a period of xxx years. Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit or service potential is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the surplus or deficit in the period of derecognition. Transfers are made to or from investment property only when there is a change in use.

e) Property, plant and equipment

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. When significant parts of property, plant and equipment are required to be replaced at intervals, the entity recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.

Notes to the Financial Statements (Continued)

f) Leases

Finance leases are leases that transfer substantially the entire risks and benefits incidental to ownership of the leased item to the Entity. Assets held under a finance lease are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the future minimum lease payments. The Entity also recognizes the associated lease liability at the inception of the lease. The liability recognized is measured as the present value of the future minimum lease payments at initial recognition.

Subsequent to initial recognition, lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in surplus or deficit.

An asset held under a finance lease is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Entity will obtain ownership of the asset by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating leases are leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item to the Entity. Operating lease payments are recognized as an operating expense in surplus or deficit on a straight-line basis over the lease term.

g) Intangible assets

Intangible assets acquired separately are initially recognized at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the

date of the exchange. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred. The useful life of the intangible assets is assessed as either finite or indefinite

Notes to the Financial Statements (Continued)

h) Research and development costs

The Entity expenses research costs as incurred. Development costs on an individual project are recognized as intangible assets when the Entity can demonstrate:

- ➤ The technical feasibility of completing the asset so that the asset will be available for use or sale
- ➤ Its intention to complete and its ability to use or sell the asset
- The asset will generate future economic benefits or service potential
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development.

Following initial recognition of an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit. During the period of development, the asset is tested for impairment annually with any impairment losses recognized immediately in surplus or deficit.

i) Financial instruments

Financial assets

Initial recognition and measurement

Financial assets within the scope of IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments

or available-for-sale financial assets, as appropriate. The Entity determines the classification of its financial assets at initial recognition.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. Losses arising from impairment are recognized in the surplus or deficit.

Notes to the Financial Statements (Continued)

Held-to-maturity

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held to maturity when the Entity has the positive

intention and ability to hold it to maturity. After initial measurement, held-to-maturity investments are measured at amortized cost using the effective interest method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The losses arising from impairment are recognized in surplus or deficit.

Impairment of financial assets

The Entity assesses at each reporting date whether there is objective evidence that a financial asset or an entity of financial assets is impaired. A financial asset or an entity of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the entity of financial assets that can be reliably estimated. Evidence of impairment may include the following indicators:

- > The debtors or an entity of debtors are experiencing significant financial difficulty
- Default or delinquency in interest or principal payments
- > The probability that debtors will enter bankruptcy or other financial reorganization
- Observable data indicates a measurable decrease in estimated future cash flows (e.g. changes in arrears or economic conditions that correlate with defaults)

Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of IPSAS 29 are classified as financial liabilities at fair value through surplus or deficit or loans and borrowings, as appropriate. The Entity determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, plus directly attributable transaction costs.

Notes to the Financial Statements (Continued)

Loans and borrowing

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in surplus or deficit when the liabilities are derecognized as well as through the effective interest method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

i) Inventories

Inventory is measured at cost upon initial recognition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

Costs incurred in bringing each product to its present location and conditions are accounted for as follows:

- ► Raw materials: purchase cost using the weighted average cost method
- Finished goods and work in progress: cost of direct materials and labour, and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs

After initial recognition, inventory is measured at the lower cost and net realizable value. However, to the extent that a class of inventory is distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower cost and the current replacement cost. Net realizable value is the estimated selling price in the ordinary course of operations, less the estimated costs of completion and the estimated costs necessary to make the sale, exchange, or distribution. Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Entity.

j) Provisions

Provisions are recognized when the Entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Entity expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain.

Notes to the Financial Statements (Continued)

The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

Contingent liabilities

The Entity does not recognize a contingent liability, but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

Contingent assets

The Entity does not recognize a contingent asset, but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

k) Nature and purpose of reserves

The Entity creates and maintains reserves in terms of specific requirements. (Entity to state the reserves maintained and appropriate policies adopted.)

l) Changes in accounting policies and estimates

The Entity recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

m) Employee benefits

Retirement benefit plans

The Entity provides retirement benefits for its employees and directors. Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable. Defined benefit plans are post-employment benefit plans other than defined-contribution plans. The defined benefit funds are actuarially valued tri-annually on the projected unit credit method basis. Deficits identified are recovered through lump-sum payments or increased future contributions on a proportional basis to all participating employers. The contributions and lump sum payments reduce the post-employment benefit obligation.

Notes to the Financial Statements (Continued)

n) Foreign currency transactions

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported at the statement of financial position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognized as income or expenses in the period in which they arise.

o) Borrowing costs

Borrowing costs are capitalized against qualifying assets as part of property, plant and equipment. Such borrowing costs are capitalized over the period during which the asset is being acquired or constructed and borrowings have been incurred. Capitalization ceases when construction of the asset is complete. Further borrowing costs are charged to the statement of financial performance.

p) Related parties

The Entity regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the Entity, or vice versa. Members of key management are regarded as related parties and comprise the directors, the CEO/principal and senior managers.

q) Service concession arrangements

The Entity analyses all aspects of service concession arrangements that it enters into in determining the appropriate accounting treatment and disclosure requirements. In particular, where a private party contributes an asset to the arrangement, the Entity recognizes that asset when, and only when, it controls or regulates the services. The operator must provide together with the asset, to whom it must provide them, and at what price. In the case of assets other than 'whole-of-life' assets, it controls, through ownership, beneficial entitlement or otherwise — any significant residual interest in the asset at the end of the arrangement. Any assets so recognized are measured at their fair value. To the extent that an asset has been recognized, the Entity also recognizes a corresponding liability, adjusted by a cash consideration paid or received.

Notes to the Financial Statements (Continued)

r) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents also include short term cash imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

s) Comparative figures

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

t) Subsequent events

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2022.

5. Significant Judgments and Sources of Estimation Uncertainty

The preparation of the Entity's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Entity based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Entity. Such changes are reflected in the assumptions when they occur.(IPSAS 1.140)

Notes to the Financial Statements (Continued)

Useful lives and residual values

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- > The condition of the asset based on the assessment of experts employed by the Entity.
- ➤ The nature of the asset, its susceptibility and adaptability to changes in technology and processes.
- > The nature of the processes in which the asset is deployed.
- > Availability of funding to replace the asset.
- Changes in the market in relation to the asset.

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions is included in Note xxx.

Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date and are discounted to present value where the effect is material.

(Include provisions applicable for your organisation e.g provision for bad debts, provisions of obsolete stocks and how management estimates these provisions).

Notes to the Financial Statements (Continued)

42. Financial Risk Management

The entity's activities expose it to a variety of financial risks including credit and liquidity risks and effects of changes in foreign currency. The company's overall risk management programme focuses on the unpredictability of changes in the business environment and seeks to minimise the potential adverse effect of such risks on its performance by setting acceptable levels of risk. The company does not hedge any risks and has in place policies to ensure that credit is only extended to customers with an established credit history.

The entity's financial risk management objectives and policies are detailed below:

(i) Credit risk

The entity has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk arises from cash and cash equivalents, and deposits with banks, as well as trade and other receivables and available-for-sale financial investments. Management assesses the credit quality of each customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external assessment in accordance with limits set by the directors. The amounts presented in the statement of financial position are net of allowances for doubtful receivables, estimated by the company's management based on prior experience and their assessment of the current economic environment. The carrying amount of financial assets recorded in the financial statements representing the entity's maximum exposure to credit risk without taking account of the value of any collateral obtained is made up as follows:

Notes to the Financial Statements (Continued)

Description	Total amount	Fully performing	Past due	Impaired
	Kshs	Kshs	Kshs	Kshs
At 30 June 2020	The same of the same	A 10.0 以 10.0 Mac A Mac		TESTIS

Receivables from –non-exchange transactions	-	-	-	-
Bank balances	-	-	-	_
Total	-	-	-	_
At 30 June 2022	-	-	-	_
Receivables from exchange transactions	-	-	-	
Receivables from –non-exchange transactions	-	-	-	-
Bank balances	1,449,332.00	-	_	
Total	1,449,332.00	-	_	

(NB: The totals column should tie to the individual elements of credit risk disclosed in the entity's statement of financial position)

The customers under the fully performing category are paying their debts as they continue trading. The credit risk associated with these receivables is minimal and the allowance for uncollectible amounts that the company has recognised in the financial statements is considered adequate to cover any potentially irrecoverable amounts. The entity has significant concentration of credit risk on amounts due from xxxx

The board of management sets the company's credit policies and objectives and lays down parameters within which the various aspects of credit risk management are operated.

(ii) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the hospital's board of management who have built an appropriate liquidity risk management framework for the management of the entity's short, medium and long-term funding and liquidity management requirements. The entity manages liquidity risk through continuous monitoring of forecasts and actual cash flows.

The table below represents cash flows payable by the company under non-derivative financial liabilities by their remaining contractual maturities at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

Total	-	-	-	-

(iii) Market risk

The hospital has put in place an internal audit function to assist it in assessing the risk faced by the entity on an ongoing basis, evaluate and test the design and effectiveness of its internal accounting and operational controls. Market risk is the risk arising from changes in market prices, such as interest rate, equity prices and foreign exchange rates which will affect the entity's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Overall responsibility for managing market risk rests with the Audit and Risk Management Committee.

Notes to the Financial Statements (Continued)

The company's Finance Department is responsible for the development of detailed risk management policies (subject to review and approval by Audit and Risk Management Committee) and for the day-to-day implementation of those policies. There has been no change to the entity's exposure to market risks or the way it manages and measures the risk.

a) Foreign currency risk

The entity has transactional currency exposures. Such exposure arises through purchases of goods and services that are done in currencies other than the local currency. Invoices denominated in foreign currencies are paid after 30 days from the date of the invoice and conversion at the time of payment is done using the prevailing exchange rate. The carrying amount of the entity's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

At 30 June 2022	KShs Kshs	Other currencies Kshs	Total Kshs
Financial assets (investments, cash, debtors)			
Liabilities Liabilities	-	-	-
	-	-	-
Trade and other payables	-	-	-
Borrowings	-	-	-
Net foreign currency asset/(liability)	-	-	-

The entity manages foreign exchange risk from future commercial transactions and recognised assets and liabilities by projecting expected sales proceeds and matching the same with expected payments.

1	KShs	Other currencies	Total
The state of the s	Kshs	Kshs	Kshs
At 30 June 2022			
Financial assets (investments, cash, debtors)	-	-	
Liabilities			
Trade and other payables	-	-	
Borrowings	-	_	
Net foreign currency asset/(liability)	-	_	

Notes to the Financial Statements (Continued)

Foreign currency sensitivity analysis

The following table demonstrates the effect on the company's statement of financial performance on applying the sensitivity for a reasonable possible change in the exchange rate of the three main transaction currencies, with all other variables held constant. The reverse would also occur if the Kenya Shilling appreciated with all other variables held constant.

	Change in currency rate Kshs	Effect on Profit before tax Kshs	Effect on equity Kshs	
2021			240440	
Euro	-	-		
USD	-	-	-	
2022				
Euro	-	-	_	
USD	-	_	_	

Interest rate risk

Interest rate risk is the risk that the entity's financial condition may be adversely affected as a result of changes in interest rate levels. The company's interest rate risk arises from bank deposits. This exposes the company to cash flow interest rate risk. The interest rate risk exposure arises mainly from interest rate movements on the company's deposits.

Management of interest rate risk

To manage the interest rate risk, management has endeavoured to bank with institutions that offer favourable interest rates.

Sensitivity analysis

The entity analyses its interest rate exposure on a dynamic basis by conducting a sensitivity analysis. This involves determining the impact on profit or loss of defined rate shifts. The sensitivity analysis for interest rate risk assumes that all other variables, in particular foreign exchange rates, remain constant. The analysis has been performed on the same basis as the prior year.

Notes to the Financial Statements (Continued)

Using the end of the year figures, the sensitivity analysis indicates the impact on the statement of financial performance if current floating interest rates increase/decrease by one percentage point as a decrease/increase of KShs xxx (20xx: KShs xxx). A rate increase/decrease of 5% would result in a decrease/increase in surplus of KShs xxx (20xx – KShs xxx).

iv) Capital Risk Management

The objective of the entity's capital risk management is to safeguard the Hospital's ability to continue as a going concern. The entity capital structure comprises of the following funds:

	2021/22	2020/21
	Kshs	Kshs
Revaluation reserve	-	-
Retained earnings	-	-
Capital reserve	-	_
Total funds	-	-
Total borrowings	-	-
Less: cash and bank balances	-	-
Net debt/ (excess cash and cash equivalents)	-	-
Gearing	-	

43. Related Party Balances

Nature of related party relationships

Entities and other parties related to the entity include those parties who have the ability to exercise control or exercise significant influence over its operating and financial decisions. Related parties include management personnel, their associates, and close family members.

Government of Kenya

The Government of Kenya is the principal shareholder of the *entity*, holding 100% of the *entity*'s equity interest. The Government of Kenya has provided full guarantees to all long-term lenders of the entity, both domestic and external. Other related parties include:

(NB: Capital commitments are commitments to be carried out in the next financial year and are disclosed in accordance with IPSAS 17. Capital commitments may be those that have been authorised by the board but at the end of the year had not been contracted or those already contracted for and ongoing)

47. Events After The Reporting Period

There were no material adjusting and non-adjusting events after the reporting period.

48. Ultimate And Holding Entity

The entity is a State Corporation/ or a Semi- Autonomous Government Agency under the Ministry of xxx. Its ultimate parent is the Government of Kenya.

49. Currency

The financial statements are presented in Kenya Shillings (Kshs).

18. Appendices

Appendix 1: Progress on Follow Up Of Auditor Recommendations

The following is the summary of issues raised by the external auditor, and management comments that were provided to the auditor. We have nominated focal persons to resolve the various issues as shown below with the associated time frame within which we expect the issues to be

Timeframe: (Put a date when you expect the issue to be resolved)	
Status: (Resolved / Not Resolved)	
Management comments	
Issue / Observations from Auditor	
Reference No. on the Issue / Observation exfernal audit Report Auditor	

Guidance Notes:

- (i) Use the same reference numbers as contained in the external audit report.
- Obtain the "Issue/Observation" and "management comments", required above, from the final external audit report that is signed by Ξ
- Before approving the report, discuss the timeframe with the appointed Focal Point persons within your entity responsible the for implementation of each issue. (III)
- (iv) Indicate the status of "Resolved" or "Not Resolved" by the date of submitting this report to National Treasury.

Accounting Officer

(To be signed by the accounting officer of the Hospital)

APPENDIX II: Projects Implemented by The Entity
