**CHAIRS' FOREWORD**

On Tuesday, 29<sup>th</sup> November, 2016, pursuant to standing order 42 (1) of the National Assembly Standing Orders, the Speaker of the National Assembly communicated to the National Assembly a message from His Excellency the President, dated 18<sup>th</sup> November, 2016, regarding the appointment of Members of the National Climate Change Council. On the same note, the Speaker of the Senate on Thursday, 1<sup>st</sup> December, 2016 pursuant to Standing Order No.41 (1) of the Senate Standing Orders conveyed the same message to the Senate.

The Speakers of both Houses directed that the vetting of the nominees to the National Climate Change Council shall be conducted jointly by the respective Committees of the two Houses mandated to deal with matters of environment. The vetting process was therefore conducted by both the Standing Committee on Land and Natural Resources of the Senate and the Departmental Committee on Environment and Natural Resources of the National Assembly.

Section 8 of the Public Appointments (Parliamentary Approval) Act, 2011 provides that the relevant Committee should table its Report for consideration within fourteen (14) days from the date when the notification of nomination is conveyed to the House. The Committee's Report contains observations, findings and recommendation by the committee on the nominees.

The Committees conducted the joint vetting process for approval of the nominees with reference to the Constitution of Kenya 2010, Public Appointments (Parliamentary Approvals) Act, CAP 136 and Leadership and Integrity Act and other relevant provisions of the law.

On behalf of the Committee, we wish to thank the Offices of the Speakers and the Clerks of both Houses of Parliament for the support extended in the execution of its mandate.

Finally, pursuant to standing order 216 of the Senate Standing Orders and standing order 213 of the National Assembly Standing Orders, it is our pleasure and duty to present to the House, the Report on the Vetting of National Climate Change Council Members Nominees.

**Hon. Amina Abdalla, M.P**

**Sen. Lenny Kivuti, M.P**

**Date:**.....

## EXECUTIVE SUMMARY

The Climate Change Act 2016 provide for the establishment of the National Climate Change Council. The Council shall be appointed by the President, with the approval of Parliament.

After receiving the names of the nominees for the Council on 29<sup>th</sup> November and 1<sup>st</sup> December, 2016 the Speakers of the National Assembly and the senate respectively directed that the vetting of the nominees for appointment to the National Climate Council be conducted jointly by both Houses and in particular the Departmental Committee on Environment and Natural Resources of the National Assembly and Lands and Natural Resources of the Senate.

The Committees held a preliminary joint sitting on Tuesday, 13<sup>th</sup> December, 2016 to prepare for the vetting and consider memoranda from the members of the public.

The Committees complied with the Constitutional and legal requirements and established procedures for vetting. It ensured public participation and openness in carrying out the proceedings. Notifications inviting the public to submit memoranda were placed in the mainstream print media on Tuesday, 6<sup>th</sup> December, 2016 in tandem with the law.

The Committees jointly conducted the vetting exercise on 14<sup>th</sup> December, 2016. In conducting the vetting exercise, the joint Committee relied on the provisions of the Constitution, the Public Appointments (Parliamentary Approval) Act No. 33 of 2011), the Standing Orders of the respective Houses and Climate Change Act 2016.

The Committees jointly thank the Offices of the Speakers and the Clerks of both Houses of Parliament for the logistical support accorded to it during the vetting exercise. The Committee is also grateful to the media for their coverage of the proceedings of the Committee, thus enhancing accountability and transparency of the vetting exercise.

The Committees recommend to Houses to approve the appointments of Mr. Suresh Patel and Mr. John Kioli as members of the National Climate Change Council and to reject the appointments of Ms. Cynthia Wechabe and Dr. Jane Mutheu Mutune to the Council. Further, the Committees recommend that, the appointing authority submits nominees of the female gender representing the marginalized communities and Commission for University Education as prescribed under appointments (Parliamentary Approval) Act, CAP 136.

## MANDATE OF THE COMMITTEES

The Departmental Committee on Environment and Natural Resources is one of the Departmental Committees established under National Assembly Standing Order No.216 (1) while the Senate Standing Committee on Land and Natural Resources is established under Standing Order 208 of the Senate.

The Speakers of both the Senate and the National Assembly directed that the vetting of the nominees to the National Climate Change Council shall be conducted jointly by the Committees of the two Houses mandated to deal with matters environment. The vetting process was therefore jointly conducted by the Standing Committee on Land and Natural Resources of the Senate and the Departmental Committee on Environment and Natural Resources of the National Assembly.

Section 8 of the Public Appointments (Parliamentary Approval) Act, 2011 provides that the relevant Committee should table its Report for consideration within fourteen (14) days from the date when the notification of nomination is conveyed to the House. The Committee's Report contains observations, findings and recommendation by the Committee on the nominees.

## MEMBERS OF THE COMMITTEES

The Committee on Environment and Natural Resources of the National Assembly comprises the following members:

<b>Chairperson</b>	The Hon. Amina Abdalla, CBS, M.P
<b>Vice Chairperson</b>	The Hon. Alexander K. Kosgey, M.P
<b>Members</b>	The Hon. Alice Ng'ang'a, M.P
	The Hon. Samuel Ndiritu, M.P
	The Hon. Zuleikha Hassan Juma, M.P
	The Hon. Ejidius Njogu Barua, M.P
	The Hon. Jude Njomo, M.P
	Hon. Moitalel Ole Kenta, M.P
	The Hon. Kathuri Murungi, M.P
	The Hon. Sunjeev Birdi, M.P
	The Hon. Jackson K. Rop, M.P
	The Hon. Abdi Noor Ali, M.P
	The Hon. Joyce Emanikor, M.P
	The Hon. Abdulaziz Farah, M.P
	Hon. Ronald Tonui, M.P.
	The Hon. (Dr.) Reginalda Wanyonyi, M.P
	The Hon. Gideon Mwiti, M.P
	The Hon. Hassan Dukicha, M.P
	The Hon. Chachu Ganya, M.P
	The Hon. Richard Makenga, M.P

The Hon. Charles G. Mongare, M.P  
The Hon. Opiyo Wandayi, M.P  
The Hon. (Dr.) Wilber K. Ottichilo, M.P  
The Hon. George Ogalo, M.P  
The Hon. (Major) Muluvi Mutua, M.P  
The Hon. Mohamed, Diriye M.P  
The Hon, Peter Kinyua, MP  
The Hon. Shukran Hussein Gure, M.P  
The Hon. Joyce Lay, M.P  
The Hon. Zuleikha Hassan, M.P

The Committee on Land and Natural Resources of the Senate comprises the following members:

<b>Chairman</b>	Sen. Lenny Kivuti
<b>Vice-Chairperson</b>	Sen. George Khaniri
<b>Members</b>	Sen. Danson Mwazo Mwakulegwa
	Sen. Martha Wangari
	Sen. Melly Isaac
	Sen. Christopher Mogere Obure
	Sen. Boy Juma Boy
	Sen. Tirole Ndiema Henry
	Sen. Liza Chelule

Mr. Leonard Koech	<b>Legal Counsel (Senate)</b>
Mr. James Muguna	<b>Research Officer III</b>
Ms. Sarah Rukwaro	<b>Serjeant at Arms (Senate)</b>
Mr. Richard Sang'	<b>Serjeant at Arms (National Assembly)</b>

## 1.0 INTRODUCTION

The Departmental Committee on Environment and Natural Resources is one of the Departmental Committees established under National Assembly Standing Order No.216 (1) while the Senate Standing Committee on Land and Natural Resources is established under standing order 208 of the Senate Standing Orders.

The Committees were mandated to jointly consider for approval by Parliament, appointments of the National Climate Change Council members. The Climate Change Act, 2016 section 7 (4) the persons appointed shall be presented to the Parliament for approval.

The vetting process is guided by the Public Appointments (Parliamentary Approval) Act, 2011. Section 10 of the Act provides that;

*‘Where the nomination of a candidate is rejected by Parliament, the appointing authority may submit to the relevant House the name of another candidate, and the procedure for approval specified in this Act shall apply accordingly’.*

Section 7 of the Public Appointments (Parliamentary Approval) Act, 2011 provides that the issues for consideration by the relevant House in relation to any nomination shall be:-

- (a) The procedure used to arrive at the nominee;
- (b) Any constitutional or statutory requirements relating to the office in question; and
- (c) The suitability of the nominee for appointment proposed having regard to whether the nominee’s abilities, experience and qualities meet the needs of the body to which nomination is being made.

Pursuant to Section 6(9) of the Public Appointments (Parliamentary Approval) Act, 2011, the Committees, through the Clerks of both Houses of Parliament, invited submissions from the public on the suitability or otherwise of the nominee for appointment to the National Climate Change Council members.

Further, section 6(10) of the Public Appointments (Parliamentary Approval) Act, 2011 provides that a candidate may at any time, by notice in writing addressed to the Clerk withdraw from the approval process and his nomination shall thereupon lapse.

The Departmental Committee on Environment and Natural Resources of the National Assembly and the Standing Committee on Lands and Natural Resources of the Senate held a joint sitting for vetting and approval hearing of the nominee on Wednesday, 14<sup>th</sup> December, 2016.

In view of the foregoing and in accordance with the provisions of the Constitution, the Public Appointments (Parliamentary Approvals) Act and the Standing Orders of the National Assembly and of the Senate, the Committees resolved to proceed to undertake the approval hearing as required and scheduled.

## 2.0 APPROVAL HEARING OF THE NOMINEES TO THE NATIONAL CLIMATE CHANGE COUNCIL MEMBERS

In conducting the approval process, the Committees jointly examined the nominees against the following criteria, amongst others, in accordance with the Public Appointments (Parliament Approval) Act No.33 of 2011.

- (i) Academic qualifications
- (ii) Employment record
- (iii) Professional affiliations
- (iv) Potential conflict of interest
- (v) Knowledge of the relevant subject
- (vi) Overall suitability for the position
- (vii) Tax compliance
- (viii) Integrity and morality
- (ix) Vision and leadership
- (x) Expectations and key priorities

The Four Nominees appeared before the Committees on Thursday, 14<sup>th</sup> December, 2016 and were informed by the Chairperson that, pursuant to Section 6(9) of the Public Appointments (Parliamentary Approvals) Act, 2011, the Committees had invited submissions from the public on their suitability for appointment to the membership of the National Climate Change Council and by the deadline date of 13<sup>th</sup> December 2016, Parliament had received the following memoranda:-

- 1) Memorandum from Kenya Forest Working Group in of all the four nominees and in particular the nomination of women in the council which meets the threshold of two thirds gender rule.
- 2) Memorandum from the Kenya Industrial Research & Development Institute on Mr. Suresh Patel's suitability to serve as a member of the National Climate Change Council.
- 3) Memorandum from the Green Belt Movement raising their objection that they had submitted, through Pan African Climate Justice Alliance (PACJA), the names of Mr. Charles Mwangi from the Green Belt Movement to represent Civil Society and Ms. Cynthia Wechabe from the Indigenous Information Network to represent marginalized groups.

The Ministry when orally contacted on the objections from the Green Belt Movement responded by saying that PACJA was not a national outfit but a Pan African organization; and according to them the Kenya Climate Change Working Group was the most representative civil society organization working in the area of climate change. They however had taken Ms. Cynthia Wechabe of the Indigenous Information Network as a representative from Marginalised communities.

The Chairperson informed the nominees that in view of the foregoing and in accordance with the provisions of the Constitution, the Public Appointments (Parliamentary Approvals) Act and the provisions of the Standing Orders of both Houses, the Committee had resolved to proceed to undertake the approval hearing as required.

The nominees were orally interviewed by the Committees and responded to questions during the hearing as outlined in the next section.

## **2.1 MR. SURESH PATEL**

### **SUBMISSION OF MEMORANDA**

The Committees received memorandum from Kenya Forest Working Group and from the Kenya Industrial Research & Development Institute supporting Mr. Suresh Patel's suitability to serve as a member of the National Climate Change Council.

### **PETITIONS**

No petitions were received rejecting the nomination of Mr. Suresh Patel to the National Climate Change Council.

### **CLEARANCE REQUIREMENTS**

On 5<sup>th</sup> December, 2016 the Clerk of the Senate wrote to the Ethics and Anti-Corruption Commission (EACC), Kenya Revenue Authority (KRA), Directorate of Criminal Investigations (CID) and the Higher Education Loans Board (HELB) requesting for reports with respect to the nominee on-

- matters touching on integrity;
- tax compliance; and
- Loan repayments.

The Committees at the time of writing this report had not received a response from HELB but the nominee had clearance certificate from the Institution.

Kenya Revenue Authority confirmed vide a letter ref. CDT/HO/81 dated 13<sup>th</sup> December, 2016 that the nominee was not tax compliant.

The Committees at the time of writing this report had not received a response from EACC but the nominee had clearance certificate from the Institution.

The Committees at the time of writing this report had not received a response from CID but the nominee had clearance certificate from the Institution.

Mr. Patel was born in 1950 in India and relocated to Kenya in 1977. He is an engineer by profession and also an entrepreneur in the Manufacturing Sector in Kenya. He informed the Committee that he is the Chairperson of the Kenya Association of Manufacturers which is a member organization of the Kenya Private Sector Alliance (KEPSA). He had also served in many boards dealing in Environment and Climate Change matters such as the National Climate Change Response Strategy Advisory Committee and the Taskforce on Climate Change Policy and Climate Change Act development. He is the Managing Director of Elekea Limited.

Mr. Patel also informed the Members that he had significant experience in Climate Change legislation and management and was of the opinion that the Council will greatly benefit from a person from the Private Sector.

On Tax Compliance, the Committees noted the response from Kenya Revenue Authority (KRA) dated 13<sup>th</sup> November, 2016 which indicated that Mr. Patel was not compliant. Mr. Patel however, had a tax clearance certificate from the KRA dated the same day which showed that he had complied. Mr. Patel explained this was a result of manual to electronic transfer system in KRA. KRA, when contacted confirmed that Mr. Patel had fulfilled his obligations and had been cleared by the Authority.

Mr. Patel acknowledged that he had been nominated by KEPSA. He added that the nomination process was open and transparent as he came in through voting by various member organisations of KEPSA.

He further stated that insufficient Resources were the major obstacle that the National Climate Change Council faced and noted that Kenya was far behind in the adaptation process and access to funding and resource acquisition. He mentioned that this would greatly be affected by the changing political environments of the developed world.

He also informed the Committee that he would work with National Environment Management Authority (NEMA), the Chamber of Commerce and other organizations to enhance public awareness on climate change issues.

He further mentioned that increasing allocation/funding to the Sector and job creation would help mitigate the issue of human wildlife conflict. He was of the opinion that that Human wildlife conflict is largely due to agriculture and infrastructure.

On Climate Change Financing, he mentioned that Kenya has not been able to access Climate Change Fund and he said that more players should go in and request for the funds. He undertook to work with the already existing Directorate in charge of Climate Change and other organizations, tapping into the private sector to ensure that Kenya benefits from climate change meetings through networking with partners in the private sector.

Mr. Patel spoke of his vision of creating the African Private Sector Alliance.

On Devolution, he noted that though the Council is National, he will work across the board with counties - the County Executive Committee Member in charge of Environment and Climate Change matters because climate change issues have no boundaries.

## **2.2 MR. JOHN KIOLI**

### **SUBMISSION OF MEMORANDA**

The joint Committee received memorandum from Kenya Forest Working group in support of the nomination of Mr. John Kioli to serve as a member of the national climate change council.

### **PETITIONS**

The Committees received a petition from the Green Belt movement indicating that their representative to the Civil Society slot was Mr. John Mwangi. The Ministry of Environment and Natural Resources however confirmed that the most representative civil society organization working in the area of Climate Change was the Kenya Climate Change Working Group.

### **CLEARANCE REQUIREMENTS**

On 5<sup>th</sup> December, 2016 the Clerk of the Senate wrote to the Ethics and Anti-Corruption Commission (EACC), Kenya Revenue Authority (KRA), Directorate of Criminal Investigations (CID) and the Higher Education Loans Board (HELB) requesting reports with respect to the nominee on-

- matters touching on integrity;
- tax compliance; and
- Loan repayments.

The Committees at the time of writing this report had not received a response from HELB but the nominee had clearance certificate from the Institution.

Kenya Revenue Authority confirmed vide a letter ref. CDT/HO/81 dated 13<sup>th</sup> December, 2016 that the nominee was tax compliant.

The Committees at the time of writing this report had not received a response from EACC but the nominee had clearance certificate from the Institution.

The Committee at the time of writing this report had not received a response from CID but the nominee had clearance certificate from the Institution.

The nominee responded to questions from members of the committee as follows: -

Mr Kioli gave a brief background of himself stating that he is a candidate for Masters in Climate Change at the Kenyatta University awaiting graduation and has worked with many counties in areas of Climate Change. He also stated that he had been to all Conference of Parties regarding Climate Change since 2006.

Mr. Kioli also informed the members that he has significant experience in Climate Change legislation and management, having been part of the group that drafted the National Climate Change Action Plan. He is the Executive Director of Green Africa Foundation.

On Tax Compliance, the Committee noted the response from Kenya Revenue Authority (KRA) dated 13<sup>th</sup> November, 2016 which indicated that Mr. Kioli was compliant.

On the Process of Nomination and conflict of interest, Mr. Kioli said that he had been selected by the Kenya Climate Change Working Group. He also declared that there will be no conflict of interest in his work since most of his consultancies with the National and County Governments have lapsed.

Mr. Kioli cited lack of clear policy as the major obstacle facing the National Climate Change Council and added that Kenya is a signatory to the Global requirement to cut down emissions by 30%. He further mentioned that the Transport and Energy Sector are the biggest contributors to emissions and called for policies to regulate and manage this problem.

Mr. Kioli also stated that his background in advocacy in the Civil Society will greatly aid him to mainstream the policy agenda, and that he would work closely with County governments to achieve the effectiveness of the Council.

He further informed the Committee that, he would work with development partners to advocate for more funding and harmonize the Civil Society with Government efforts so as to have more coordinated positive outputs in Climate Change work.

He also undertook promised to involve the Private Sector especially industries and hotels in mitigation by giving incentives to get them to support climate change efforts and would also work closely with research organisations and the Ministry of Environment and Natural Resources.

On Devolution, Mr. Kioli undertook to help counties to mainstream climate change in their budgeting.

## 2.3 MS. CYNTHIA WACHABE

### **SUBMISSION OF MEMORANDA**

The Committee received memorandum from Kenya forest working group in support of the nomination of women in the council which meets the threshold of two thirds gender rule and statement of Mr. Cynthia Wechabe's suitability to serve as a member of the National Climate Change Council.

### **PETITIONS**

No petitions were received rejecting the nomination of Ms. Cynthia Wechabe to the National Climate Change Council.

### **CLEARANCE REQUIREMENTS**

On 5<sup>th</sup> December, 2016 the Clerk of the Senate wrote to the Ethics and Anti-Corruption Commission (EACC), Kenya Revenue Authority (KRA), Directorate of Criminal Investigations (CID) and the Higher Education Loans Board (HELB) requesting for reports with respect to the nominee on-

- matters touching on integrity;
- tax compliance; and
- Loan repayments.

The Committee at the time of writing this report had not received a response from HELB but the nominee had clearance certificate from the Institution.

Kenya Revenue Authority confirmed vide a letter ref. CDT/HO/81 dated 13<sup>th</sup> December, 2016 that the nominee was tax compliant.

The Committee at the time of writing this report had not received a response from EACC but the nominee had clearance certificate from the Institution.

The Committee at the time of writing this report had not received a response from CID but the nominee had clearance certificate from the Institution.

The Nominee responded to questions from Members as follows;-

She was currently a programme officer at the Indigenous Information Network and has worked with women and young girls in various capacities. She is currently undertaking a Masters in Sociology (Community Development and Project Management) at the Egerton University and also holds a Bachelor of Arts degree in Gender and Development Studies.

She informed the Committees that she had been nominated by a group that works with indigenous groups with the largest membership. There were several organizations and also

considered the categories of marginalized groups that included the pastoralists, the youth and women.

She further informed the Committees that the youth are the future and have regenerating ideas and with the use SMART technologies in combating climate change, the youth were bound to be more involved.

She further informed the Committees that the organization of Africa Youth has been involved in tree planting and knowledge sharing in institutions of higher learning. Through the organization, she had also been able to loop in development partners who had facilitated efforts in reaching out to the youth;

She informed the Committees that the capacity building had been done to the community in Narok County and the county government was also getting involved. There was need to recognize the resource within the communities and use the resources in environment conservation. She further added that she would work with development partners, and both the National and County governments to come up with solutions on how to conserve the forest.

She further informed the Committee that industrialization was among some of the major threats to climate change in Kenya. She further informed the Committee that the indigenous communities can be involved to combat climate Change by using their local knowledge that has worked before and integrate it with the current systems of combating climate change.

She also informed the Committee that she would use her position to represent the marginalized, carry out awareness to the communities on the opportunities in the climate change sector especially as regards available funds that they could access.

She informed the Committee that her vast experience in working with women and girls through grass root communities as well as students in both primary and secondary school would introduce a scheme which would be of great help. She would reward the students/pupils involved in combating climate change, through which, the knowledge would spill over to the people at home who were not going to school.

#### **2.4 DR. JANE MUTHEU MUTUNE**

##### **SUBMISSION OF MEMORANDA**

The Committee received memorandum from Kenya Forest Working Group in support of the nomination of women in the Council which meets the threshold of two thirds gender rule and statement of Dr. Jane Mutheu Mutune's suitability to serve as a member of the National Climate Change Council.

## PETITIONS

No petitions were received rejecting the nomination of Dr. Jane Mutune to the National Climate Change Council.

## CLEARANCE REQUIREMENTS

On 5<sup>th</sup> December, 2016 the Clerk of the Senate wrote to the Ethics and Anti-Corruption Commission, Kenya Revenue Authority (KRA) and the Higher Education Loans Board (HELB) requesting for reports with respect to the nominee on-

- matters touching on integrity;
- tax compliance; and
- Loan repayments.

The Committee at the time of writing this report had not received a response from HELB but the nominee had clearance certificate from the Institution.

Kenya Revenue Authority confirmed vide letter ref. CDT/HO/81 dated 13<sup>th</sup> December, 2016 that the nominee was tax compliant.

The Committee at the time of writing this report had not received a response from EACC but the nominee had clearance certificate from the Institution.

The Committee at the time of writing this report had not received a response from CID but the nominee had clearance certificate from the Institution.

The Nominee responded to questions from Members as follows:-

She had a PhD on Environmental Governance and Management, a Master of Science Degree in Agricultural Economics and a Bachelor of Science degree in Agriculture, all from the University of Nairobi.

She was currently working as a Tutorial Fellow in the University of Nairobi at the Wangari Maathai Institute for Peace and Environmental Studies and had been a part time lecturer in the Kenyatta University and Jomo Kenyatta University of Science and Technology that she was a Lecturer at the Wangari Maathai Institute for Peace and Environmental Studies. She further stated that she holds a Doctorate of Philosophy in Environmental Governance and Management. She also has a Master of Science in Agricultural Economics and a Bachelor of Science degree in Agriculture.

She informed the Committee that she had been called by the Vice-Chancellor of the University of Nairobi, Prof. Peter Mbithi who informed her of her nomination. She had not applied to be a nominee and was not aware of the other candidates that had been considered for the nomination.

She believed she had been considered because of her gender and her specialization in Environmental Governance and Management. She also believed her nomination would encourage the youth to be involved in climate change issues.

She informed the Committees one of the biggest challenges facing the Council is changing the people's values and attitude change. This would also involve change in cultural beliefs which would be a big challenge.

On how the Academia can be involved in combating Climate Change, Dr. Mutune informed the Committees that the Academia does not stand on its own, but it had the role of research capacity building and knowledge management. There was need for a multi-sectoral approach such as engaging the government in including climate change in curriculum development. The Academia also had a role in training of Environmental stewards.

She also informed the Committee that biggest challenges to environment were solid waste management and encroachment on public forests. This, she said, could be combated through research, development of policies and community involvement.

On Climate Change financing, she promised to pull synergies with other stakeholders and identify existing environmental needs and challenges then come up with proposals to convince both the local and international donors for funding.

On the strategy she would use to ensure public participation is mainstreamed at both the National and County government, she said she would engage through consultation at both levels of government since climate change affects the Country as a whole. There was also need for research at both levels of government.

### **3.0 COMMITTEES' OBSERVATIONS**

In exercise of its mandate under section 7 (4) of the climate change act, 2016 and after conducting the vetting exercise, the Committees made the following general observations-that,

1. Whereas organizations were supposed to nominate members in a transparent and competitive manner in the spirit of the Kenya Constitution, 2010 they had handpicked the nominees;
2. There are no regulations for nominating and appointing members to the National Climate Change Council;
3. On regional balance, two of the four nominees come from the same region.

### **OBSERVATIONS ON THE NOMINEES**

- 1) **MR. SURESH PATEL:** The Committees observed that Mr. Suresh Patel has both knowledge and experience on climate change issues having been involved in the development of climate change legislation.
- 2) **MR. JOHN KIOLI:** The Committees unanimously agreed on his suitability based on the assessment guidelines used to vet the nominees.
- 3) **MS. CYNTHIA WACHABE:** The Committees observed that, whereas the nominee was an employee of an organization serving marginalized communities, the Indigenous Information Network is not representative. Further, she did not have all the necessary requirements to fulfil and execute the National Climate Change Council mandate.
- 4) **DR. JANE MUTUNE MUTHEU:** The Committees observed that the integrity of the process of nomination was flawed and that, she was not duly nominated as the representative of the Commission for University Education in accordance with section 7 (2) (i) of the Climate Change Act, 2016.

#### 4.0 COMMITTEES' RECOMMENDATIONS

The Committees made the following recommendation:

1. The Committees recommend to the Houses to approve the appointments of Mr. Suresh Patel and Mr. John Kioli as members of the National Climate Change Council;
2. The Committees also recommend to the Houses to reject the appointments of Ms. Cynthia Wechabe and Dr. Jane Mutheu Mutune to the National Climate Change Council Members.
3. The Committees recommend that, the appointing authority submits nominees of the female gender representing the marginalized communities and Commission for University Education as prescribed under appointments (Parliamentary Approval) Act, CAP 136 and regional balance as prescribed in Kenya Constitution, 2010.
4. The Committees further recommend that the Cabinet Secretary for Ministry of Environment and Natural Resources develops regulations as prescribed in the Act, including those that would guide nominating agencies on identifying their representatives to the National Climate Change Council.

16. Hon. Joyce Emanikor, M.P. - Member

## **MINUTE JC - VETTING/NCCC/9/2016: PRELIMINARIES**

The Chairperson called the meeting to order at 9.30 a.m. and led a word of prayer.

## **MINUTE JC - VETTING/NCCC/10/2016: ADOPTION OF AGENDA**

The agenda of the meeting was adopted after being proposed by Hon. Hon. Moitalel Ole Kenta, M.P and seconded by Hon. Gideon Mwiti, M.P as follows;

Prayer

1. Preliminaries;
2. Adoption of the Agenda;
- 3. Confirmation of Minutes**
  - Minutes of the first sitting**
  - Minutes of the second sitting**
- 4. Consideration and Adoption of the Report on Vetting of the Presidential Nominees to the Climate Change Council**
5. Any Other Business & Adjournment.

## **MINUTE JC - VETTING/NCCC/11/2016: CONFIRMATION OF MINUTES OF THE PREVIOUS SITTINGS**

The Minutes of the 1<sup>st</sup> Sitting were confirmed as a true record of the deliberations after being proposed and seconded by Hon. Reginalda Wanyonyi, M.P and Sen. Liza Chelule.

The Minutes of the 2<sup>nd</sup> Sitting were confirmed as a true record of the deliberations after being proposed and seconded by Sen. Christopher Obure and Sen. Liza Chelule.

## **MINUTE JC - VETTING/NCCC/12/2016: ADOPTION OF THE REPORT ON VETTING OF THE PRESIDENTIAL NOMINEES TO THE CLIMATE CHANGE COUNCIL**

The Committee was informed of a Memorandum from the Green Belt Movement raising objection to the nominee from the Civil Society. They stated that they had submitted, through Pan African Climate Justice Alliance (PACJA), the names of Mr. Charles Mwangi from the Green Belt Movement to represent Civil Society and Ms. Cynthia Wechabe from the Indigenous Information Network to represent marginalized groups.

The Ministry of Environment and Natural Resources, when contacted on the objections from the Green Belt Movement, responded by saying that PACJA was not a national outfit but a Pan African organization; and according to them the Kenya Climate Change Working Group was the most representative civil society organization working in the area of climate change. They however had taken Ms. Cynthia Wechabe of the Indigenous Information Network as a representative from Marginalised communities.

The Committees proposed a new recommendation to be added stating that the Cabinet Secretary for the Ministry of Environment and Natural Resources should develop regulations to guide nominating agencies on the process of nominating their representatives to the National Climate Change Council.

The Report was adopted with the above amendments after being proposed by Hon. Reginalda Wanyonyi, M.P and seconded by Sen. Dan Mwazo.

**MINUTE JC - VETTING/NCCC/13/2016: AOB & ADJOURNEMENT**

There being no other business, the meeting was adjourned at 10.17 am.

**SIGNATURE.....**

**(CHAIRPERSON: SEN. LENNY KIVUTI, M.P.)**

**SIGNATURE.....**

**(CHAIRPERSON: HON. AMINA ABDALLA, M.P., CBS)**

**DATE.....**

**MINUTES OF THE 2<sup>ND</sup> SITTING OF THE JOINT COMMITTEE ON VETTING OF THE PRESIDENTIAL NOMINEES TO THE CLIMATE CHANGE COUNCIL HELD ON WEDNESDAY 14<sup>TH</sup> DECEMBER, 2016 IN COMMITTEE ROOM SEVEN, FIRST FLOOR- MAIN PARLIAMENT BUILDINGS FROM 10.00 AM.**

## MINUTE JC - VETTING/NCCC/5/2016: PRELIMINARIES

The Chairperson called the meeting to order at 10.30 a.m. and led a word of prayer. This was followed by introductions from all present.

## MINUTE JC - VETTING/NCCC/6/2016: ADOPTION OF AGENDA

The agenda of the meeting was adopted after being proposed by Hon. Ottichillo and seconded by Sen. George Khaniri as follows;

### Prayer

1. Preliminaries;
2. Adoption of the Agenda;
3. **Vetting of the Presidential Nominees to the Climate Change Council**
  - a) **Mr. Suresh Patel**
  - b) **Mr. John Kioko**
  - c) **Ms. Cynthia Wechabe**
  - d) **Dr. Jane Mutheu Mutune.**
4. Any Other Business & Adjournment.

## MINUTE JC - VETTING/NCCC/7/2016: VETTING OF THE PRESIDENTIAL NOMINEES TO THE CLIMATE CHANGE COUNCIL

### a) Mr. Suresh Patel

Mr Patel started by taking an oath. He then gave a brief background of himself stating that he was born in 1950 in India and that he is an engineer by profession and also an entrepreneur in the Manufacturer Sector. He informed the Committee that he is the Chairperson of the Kenya Association of Manufacturers which is a member organization of the Kenya Private Sector Alliance (KEPSA). He had also served in many boards dealing in Environment and Climate Change matters. He is the Managing Director of Elekea Limited.

Mr. Patel also informed the members that he has significant experience in Climate Change legislation and management and was of the opinion that the Council will greatly benefit from having a person from the Private Sector.

On Tax Compliance, the Committee noted the response from Kenya Revenue Authority (KRA) dated 13<sup>th</sup> November, 2016 which indicated that Mr. Patel was not compliant. Mr. Patel however, had a tax clearance certificate from the KRA dated the same day which

showed that he had complied. Mr. Patel explained this was a result of manual to electronic transfer system in KRA.

On the Process of Nomination, Mr. Patel acknowledged that he had been nominated by KEPSA. He added that the nomination process was open and transparent as he came in through voting by various member organisations of KEPSA.

Mr. Patel named Insufficient Resources as the major obstacle that the National Climate Change Council and added that Kenya was far behind in the adaptation process and access to funding and resource acquisition. He mentioned that this would greatly be affected by the changing political environments of the especially the developed world.

On Public Participation, Mr. Patel said that he will work with National Environment Management Authority (NEMA), the Chamber of Commerce and other organisations to enhance public awareness on Climate Change Issues.

He further mentioned that adding resources to the Sector and job creation will help mitigate on the issue of human wildlife conflict. He was of the opinion that that Human wildlife conflict is largely due to agriculture and infrastructure.

On Climate Change Financing, he mentioned that Kenya has not been able to access Climate Change Fund and he said that more players should go in and request for the funds. He promised to work with the already existing Directorate in charge of Climate Change and other organisations, tapping into the private sector to ensure that Kenya benefits from Climate Change meetings.

Mr. Patel talked of his vision of creating the African Private Sector Alliance.

On Devolution, he noted that though the Council is National, he will work across the board with counties - the County Executive Committee Member in Charge of Environment and Climate Change matters because climate change issues have no boundaries.

**b) Mr. John Kioli**

Mr Kioli gave a brief background of himself stating that he is a candidate for Masters in Climate Change at the Kenyatta University awaiting graduation and has worked with many counties in areas of Climate Change. He mentioned that he had been to all Conference of Parties regarding Climate Change since 2006.

Mr. Kioli also informed the members that he has significant experience in Climate Change legislation and management, having been part of the group that drafted the National Climate Change Action Plan. He is the Executive Director of Green Africa Foundation.

On Tax Compliance, the Committee noted the response from Kenya Revenue Authority (KRA) dated 13<sup>th</sup> November, 2016 which indicated that Mr. Kioli was compliant.

On the Process of Nomination and conflict of interest, Mr. Kioli said that he had been selected by the Kenya Forests Working Group. He also declared that there will be no conflict of interest in his work since most of his consultancies with the National and County Governments have lapsed.

Mr. Kioli named Lack of Clear Policy as the major obstacle that the National Climate Change Council and added that Kenya is a signatory to the Global requirement to cut down emissions by 30%. He further mentioned that the Transport and Energy Sector are the biggest contributors to emissions and called for policies to regulate and manage this problem.

On Public Participation, Mr. Kioli mentioned that his background in advocacy in the Civil Society will greatly aid him to mainstream the policy agenda, and that he will work closely with counties.

On Climate Change Financing, he mentioned that he will work with development partners to advocate for more funding and harmonise the Civil Society with Government efforts so as to have more coordinated positive outputs in Climate Change work.

On Implementation, he promised to involve the Private Sector especially industries and hotels in mitigation by giving incentives to get them to support climate change efforts. He also mentioned that he will work closely with research organisations and the Ministry of Environment and Natural Resources.

On Devolution, Mr. Kioli undertook to help counties to mainstream climate change in their budgeting.

**c) Ms. Cynthia Wechabe**

On her Background, Ms. Wechabe informed the Committee that she was currently a programme officer at the Indigenous Information Network and has worked with women and young girls in various capacities. She is currently undertaking a Masters in Sociology (Community Development and Project Management) at the Egerton University and also holds a Bachelor of Arts degree in Gender and Development Studies.

On her nomination, She informed the Committee that she had been nominated by a group that works with indigenous groups with the largest membership. There were several organizations and also considered the categories of marginalized groups that included the pastoralists, the youth and women.

On how the youth can be involved in Climate Change mitigation; She informed the Committee that The youth are the future and have regenerating ideas and with the push of SMART technologies in combating climate change the youth were bound to be more involved.

She further informed the Committee that the organization of Africa Youth has been involved in tree planting and knowledge sharing in institutions of higher learning. Through the organization, she had also been able to loop in development partners who had facilitated efforts in reaching out to the youth;

On her view on the destruction of the Environment in Narok County and specifically Mau forest and what can be done to reverse it, she informed the Committee that the capacity building had been done to the community in Narok County and the county government was also getting involved. There was need to recognize the resource within the communities and use the resources in environment conservation. She further added that she will work with development partners, and both the National and County governments to come up with solutions on how to conserve the forest.

On obstacles to Climate Change in Kenya, she informed the meeting that industrialization was among some of the major threats to climate change in Kenya. She further informed the Committee that the indigenous communities can be involved to combat climate by using their local knowledge that has worked before and integrate the indigenous knowledge into the current systems of combating climate change.

On how she would ensure that the issues of indigenous communities are represented; She informed the Committee that she would use her position to represent the marginalized, carry out awareness to the communities of the opportunities in the climate change sector especially as regards available funds that they could access.

On how she would involve the uneducated women and girls in combating climate change She informed the Committee that she had experience in working with women and girls through grassroot communities' involvement to promote equity. She has worked with students in both primary and secondary school efforts and by rewarding the students/pupils involved in combating climate change, through this, the knowledge had spilled over to the people at home who were not going to school.

**d) Dr. Jane Mutune**

On her background Information, Dr. Mutune informed the Committee that she was a Lecturer at the Wangari Maathai Institute for Peace and Environmental Studies. She further stated that she was a Doctor of Philosophy in Environmental Governance and Management. She also has a Master of Science in Agricultural Economics and a Bachelor of Science degree in Agriculture.

On the process of her nomination, she informed the Committee that she had been called by the Vice-Chancellor of the University of Nairobi, Prof. Peter Mbithi and informed of her nomination. She had not applied to be nominated and was not aware of the other candidates that had been considered for the nomination. She believed she had been considered because of her gender and her specialization in Environmental Governance and Management. She

also believed her nomination would encourage the youth to be involve in climate change issues.

On what she perceived as the biggest obstacle of the National Climate Change Council, she informed the Committee one of the biggest challenges is changing the people's values and attitude change. This would also involve change in cultural would be a big challenge.

On how the Academia can be involved in combating Climate Change, Dr. Mutune informed the Committee that the Academia does not stand on its own, but it had the role of research capacity building and knowledge management. There was need for a multi-sectoral approach such as engaging the government in including climate change in curriculum development. The Academia also has a role in training of Environmental stewards.

She informed the Committee solid waste management and encroachment on public forests was the biggest challenges to Environment in Kenya. This could be combated through research, development of policies and community involvement.

On Climate Change financing, she promised to pull synergies with other stakeholders and identify existing environmental needs and challenges then come up with proposals to convince both the local and international donors funding.

On the strategy she would use to ensure public participation is mainstreamed at both the national and county government, she said it would be done through consultation at both levels of government since climate change affects the country as a whole. There was also need for research at both levels of government.

## **COMMITTEE'S OBSERVATIONS**

In exercise of its mandate under section 7 (4) of the climate change act, 2016 and after conducting the vetting exercise, the Committee made the following general observations-that,

- 1) Whereas organizations were supposed to nominate members in a transparent and competitive manner in the spirit of the Kenyan Constitution, 2010 they had handpicked the nominees;
- 2) There are no regulations for nominating and appointing members to the National Climate Change Council; and
- 3) On regional balance, two of the four nominees come from the same community.

## **OBSERVATION ON THE NOMINEES**

### **MR. SURESH PATEL:**

- 1) Mr. Suresh Patel had knowledge and experience on climate change issues having being involved in the climate change legislation.
- 2) Although he presented a tax compliance dated 13th December, 2016 certificate, the committee also received a letter dated 13th December, 2016 indicating he was not compliant.

**MR. JOHN KIOLI**

- 1) The committee unanimously agreed on his suitability based on the assessment guidelines used to vet the nominees.

**MS. CYNTHIA WACHABE:**

The committee observed that,

- 1) Whereas the nominee was a representative of the marginalized community she was not from a marginalized community.
- 2) The committee felt that indigenous information network which nominated the candidate was not representative.
- 3) She did not have all the necessary requirement to fulfil and execute the climate change council mandate.

**DR. JANE MUTUNE MUTHEU:**

The committee observed that,

- 1) The integrity of the process of nomination and that, she was not duly nominated as the representative of the commission for university education in accordance with section 7 (2) (i) of the Climate Change Act, 2016.

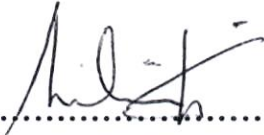

**RECOMMENDATIONS**

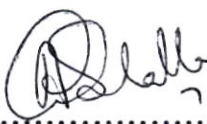

The Committee made the following recommendation:

- 1) The committee approves the appointments of Mr. Suresh Patel and Mr. John Kioli as members of the Climate Change Council;
- 2) The committee rejects the appointments of Ms. Cynthia Wechabe and Dr. Jane Mutheu Mutune to the National Climate Change Council Members.
- 3) The committee recommends that, the appointing authority submits nominees of the female gender representing the marginalized communities and commission for university education as prescribed under appointments (Parliamentary Approval) Act, CAP 136

**MINUTE JC - VETTING/NCCC/8/2016: AOB & ADJOURNEMENT**

There being no other business, the meeting was adjourned at 2.00pm and the next meeting was to be held on Thursday 15<sup>th</sup> December, 2016, from 2.00pm.

### **MINUTE JC - VETTING/NCCC/1/2016: PRELIMINARIES**

The meeting was called to order at 11.18 a.m. by the Chairperson, followed with a word of prayer. The Chair then allowed round of introductions from all present.

### **MINUTE JC - VETTING/NCCC/2/2016: ADOPTION OF AGENDA**

The agenda of the meeting was unanimously adopted as follows;

Prayer

1. Preliminaries;
2. Adoption of the Agenda;
3. **Setting the terms of reference and documents scrutiny**
4. Any Other Business & Adjournment.

### **MINUTE JC - VETTING/NCCC/3/2016: SETTING THE TERMS OF REFERENCE AND DOCUMENTS SCRUTINY**

The Chair welcomed all and highlighted the purpose of the Joint Committee was to vet the Presidential nominees to the National Climate Change Council. He further added that the sitting had to scrutinize any documents received from the public and decide on how the vetting was to be conducted. The four nominees had been selected as follows:

- 1) Mr. Suresh Patel by the Kenya Private Sector Alliance,
- 2) Mr. John Kioli by the Civil Society,
- 3) Ms. Cynthia Asafi Weshabe a representative of the Marginalised Community, and
- 4) Dr. Jane Mutheu Mutune – a representative of the Academia.

The Secretariat informed the Committee that a request for Submission of Memoranda and Notification for Vetting by the National Assembly's Departmental Committee on Environment and Natural Resources and the Senate Standing Committee on Land and Natural Resources had been put in the local dailies for Tuesday 6<sup>th</sup> December, 2016. The public had been notified that the Vetting will take place on Wednesday 14<sup>th</sup> December, 2016.

The Members were also informed that Parliament had written to the Ethics and Anti-Corruption Commission, the Kenya Revenue Authority, the Higher Education Loans Board and the Department of Criminal Investigations seeking clearance for the four nominees.

Members were informed that the Committee had received two memoranda as follows:

- 1) From the Kenya Forest Working Group which was expressing satisfaction of all the nominees and especially the two women which will allow the Council meet the two third gender rule threshold.
- 2) From the Kenya Private Sector Alliance which was expressing satisfaction in the nomination of Mr. Patel.

The Committee then deliberated on the questions to ask the nominees; and requested the secretariat to structure the questions to be more of a practical nature, questions regarding conflict of interest and on the nomination process as follows:-

### **1.1 General questions**

1. Briefly describe your educational and professional background.
2. Describe the nominating process, explaining how the nominating institutions reached you and whether you feel that the process was fair.
3. Do you consider yourself suitable for the position that you have been nominated to?

### **1.2 Policy and governance issues**

4. In your view, what are the biggest obstacles that the National Climate Council will face?
5. What strategy would you put in place to ensure that public participation will be mainstreamed by both national and county governments on matters climate change?
6. As evidenced by several petitions to Parliament on matters to do with human wildlife conflict due to climate change, how do you plan to deal with the issue?
7. How do you envision the relationship between the Council and the Directorate dealing with Climate Change?
8. How will you deal with County Governments and devolution as a whole?

### **1.3 Social-cultural aspects**

9. The expectations of Kenyans in dealing with the issue of the changing Climatic conditions are very high. Kenyans have expressed their concerns about the change in the weather patterns as evidenced by social media, media commentaries, and petitions to Parliament. How are you going to satisfy these expectations as the member of the Council?

### **1.4 Financial Management and Planning**

10. Kenya sends big delegation to international meetings that are not well coordinated and therefore the country fails to benefit from these meetings. As a member of the National Climate Change Council, how will you ensure that the country benefits from Climate Change meetings especially in accessing climate change funding?
11. How do you plan to improve Kenya's access to Climate Change Financing (both external and domestic) and how will you manage the Climate Change Fund in an accountable and fair manner?

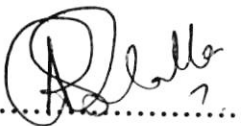

**1.5 Technology**

12. In your view, how do you plan to leverage on technology into combating technology to increase efficiency in reducing the impact of Climate change?

**MINUTE JC - VETTING/NCCC/4/2016: AOB & ADJOURNEMENT**

There being no other business, the meeting was adjourned at 12:15pm and the next meeting was to be held on Wednesday 14<sup>th</sup> December, 2016, from 10.00 am.

ELEVENTH PARLIAMENT (FOURTH SESSION)  
THE NATIONAL ASSEMBLY

MESSAGES

MESSAGE FROM THE PRESIDENT

(No. 9 of 2016)

ON THE APPOINTMENT OF MEMBERS  
OF THE NATIONAL CLIMATE CHANGE COUNCIL

---

**Honourable Members**, pursuant to the provisions of Standing Order No. 42(1) of the National Assembly Standing Orders, I wish to convey to the House a Message from His Excellency the President, asking Parliament to approve the following persons for appointment as members of the National Climate Change Council:

1. Mr. Suresh Patel;
2. Mr. John Kioli;
3. Ms. Cynthia Wechabe; and
4. Dr. Jane Mutheu Mutune.

In the Message, His Excellency the President conveys that, in exercise of powers vested in him under section 7 of the Climate Change Act, 2016, he has nominated the said persons from the entities listed in sub-section (2) paragraphs (f), (g), (h) and (i) of the Act, respectively. Further section 7(4) of the same Act provides that the names of persons nominated for appointment under subsection (2) paragraphs (f), (g), (h) and (i) shall be submitted to **Parliament** for approval before appointment. A plain reading of section 7(4) of the said Act implies that the approval process is to be considered by both Houses of Parliament.

**Honourable Members**, as you may be aware, it is a matter of public notoriety that the approval of appointment of persons to public office generally falls within the province

of the National Assembly. Nonetheless, there are exceptional instances where the Constitution or the applicable laws require a bi-cameral approval of public appointments. A precedent was already established last year during the appointment of the Inspector-General of Police, whose vetting was undertaken by both Houses of Parliament. In this regard, the vetting process for appointment of members of the National Climate Change Council will proceed in a manner similar to that of the Inspector-General of Police.

**Honourable Members**, for clarity, allow me to guide the House as follows:-

- (i) THAT, the vetting of the nominees for appointment as members of the National Climate Change Council shall be conducted by the Departmental Committee on Environment and Natural Resources, jointly sitting with the relevant Committee of the Senate;
- (ii) THAT, the quorum of the joint sittings will be the respective quorums of each of the committees as stipulated in the respective Standing Orders;
- (iii) THAT, as contemplated under Rule 9(6) of the Joint Rules unless a decision is reached by consensus, any vote to be taken in the joint sittings of the Committees shall be by separate Houses. This will ensure that the numerical difference of the individual Members representing the Houses in the joint sittings has no effect on the decisions of the joint sittings of the Committees;
- (iv) THAT, the joint Committees shall, having conducted the vetting hearings, submit a Joint Report to the respective Houses in the manner contemplated by Paragraph 7 of the Joint Rule No. 9; and
- (v) THAT, the approval process shall be conducted in accordance with the provisions of the Public Appointments (Parliamentary Approval) Act of 2011.

**Honourable Members**, section 8 of the Public Appointments (Parliamentary Approval) Act, 2011 provides that the relevant Committee should table its Report for consideration within fourteen (14) days from the date when the notification of nomination is conveyed to the House. The Act also requires that the public be given a seven (7) days notification for submission of views regarding the suitability of nominees

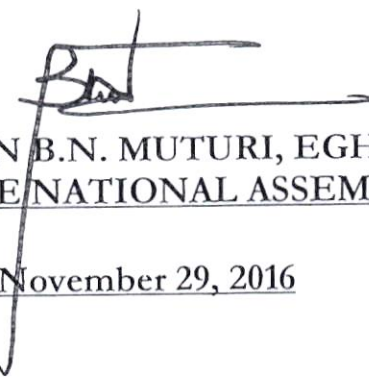

proposed for appointment to an office requiring approval of Parliament. In this regard, and in accordance with the provision of Article 259(5)(a) of the Constitution as read together with section 5 of the said Act, the counting of the seven (7) days' notification to the public shall start running on the day following the day when the notice is published in the dailies.

Further Section 9 of the said law provides thus:-

*“If after the expiry of the period for consideration specified in Section 8, Parliament has neither approved nor rejected a nomination of a candidate, the candidate shall be deemed to have been approved.”*

**Honourable Members**, it is therefore advisable that the concerned committees expeditiously proceed to jointly notify the nominees and the public. Thereafter, the two committees should commence the joint approval hearings and table a Joint Report in good time, to enable the Houses of Parliament to consider the Report. This Message, together with the resumes of the nominees stand committed to the Departmental Committee on Environment and Natural Resources, sitting jointly as earlier explained.

I thank you.

  
**THE HON. JUSTIN B.N. MUTURI, EGH, MP**  
**SPEAKER OF THE NATIONAL ASSEMBLY**

Tuesday, November 29, 2016

---

REPUBLIC OF KENYA

ELEVENTH PARLIAMENT-(FOURTH SESSION)

THE SENATE

COMMUNICATION FROM THE CHAIR

---

ON A MESSAGE FROM THE PRESIDENT SEEKING APPROVAL OF PARLIAMENT FOR APPOINTMENT OF MR. SURESH PATEL, MR. JOHN KIOLI, MS. CYNTHIA WECHABE AND DR. JANE MUTHEU MUTUNE TO THE NATIONAL CLIMATE CHANGE COUNCIL.

---

**Honourable Senators,**

Pursuant to the provisions of Standing Order No.41 (1) of the Senate, I wish to convey a Message from His Excellency the President asking Parliament to approve the following nominees to the National Climate Change Council.

- 1) Mr. Suresh Patel
- 2) Mr. John Kioli
- 3) Ms. Cynthia Wechabe and

4) Dr. Jane Mutheu Mutune

In the Message, His Excellency the President conveys that, in exercise of powers vested in him under section 7 of the Climate Change Act, 2016, he has nominated the said persons from the entities listed in sub-section (2) paragraphs (f), (g), (h) and (i) of the Act, respectively. Further section 7(4) of the same Act provides that the names of persons nominated for appointment under subsection (2) paragraphs (f), (g), (h) and (i) shall be submitted to **Parliament** for approval before appointment.

**Honourable Senators,**

I wish to inform you that this is the second time that the two Houses of Parliament are required to approve appointment of candidates to public offices. As you may recall, consultations were held between the Speakers of the Senate and the National Assembly when Parliament was required to approve the appointment of the Inspector General of Police. It was agreed that joint vetting be conducted by the relevant Standing Committees of the two Houses. Under the circumstance therefore, I direct as follows-

- (i) That, the vetting of the nominees to the National Climate Change Council shall be conducted jointly by the Committees of the two Houses mandated to deal with matters environment. The vetting process will, therefore, be conducted by the Standing Committee on Land and Natural Resources of the Senate and the relevant Departmental Committee of the National Assembly.
- (ii) That, the Chairpersons of the two Committees will co-chair the joint sittings and the secretariat will comprise officers of the two Houses.
- (iii) That the quorum of the joint sittings will be the respective quorum of each of the Committees as stipulated by the respective Standing Orders.
- (iv) That as contemplated under Rule 9 (6) of the joint rules, unless a decision is reached by consensus, any vote to be taken in the joint sitting of the Committee shall be by separate Houses. This will ensure that the numerical difference of the individual Members representing the Houses in the joint sittings has no effect on the decisions of the joint sittings of the Committees.

**Honourable Senators,**

Section 8 of the Public Appointments (Parliamentary Approval) Act, 2011 provides that the relevant Committee should table its Report for consideration within fourteen (14) days from the date when the notification of nomination is conveyed to the House. The Act also requires that the public be given a seven (7) days notification for submission of views regarding the suitability of nominees proposed for appointment to an office requiring approval of Parliament. In this regard, and in accordance with the provision of Article 259(5)(a) of the Constitution as read together with section 5 of the said Act, the counting of the seven (7) days' notification to the public shall start running on the day following the day when the notice is published in the dailies.

Further, Section 9 of the said law provides thus:-

*“If after the expiry of the period for consideration specified in Section 8, Parliament has neither approved nor rejected a nomination of a candidate, the candidate shall be deemed to have been approved.”*

**Honourable Senators,**

It is therefore advisable that the concerned committees expeditiously proceed to notify the nominees and the public. Thereafter, the two committees should commence the joint approval hearings and table a Joint Report in good time, to enable the Houses of Parliament to consider the Report.

This Message, together with the resumes of the nominees stand committed to the Standing Committee on Lands and Natural Resources, sitting jointly with the relevant Committee of the National Assembly as earlier explained.

**I thank you.**

**HON. SEN. DAVID EKWEE ETHURO, EGH**  
**SPEAKER OF THE SENATE**  
**1<sup>st</sup> December, 2016**

## FORM OF OATH OR AFFIRMATION

### OATH

"I, **Mr. Suresh Patel** swear by (according to religious belief) that the submissions I shall give before this Parliamentary joint committee shall be the truth the whole truth and nothing but the truth."

### AFFIRMATION

"I **Mr. Suresh Patel** do solemnly, sincerely and truly declare and affirm that the submissions I shall give before this Parliamentary joint committee shall be the truth the whole truth and nothing but the truth."

Signature.....

# RATING ANALYSIS

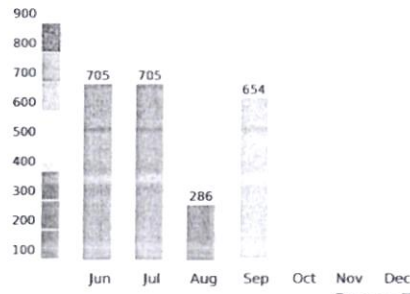

Metro-Score®

## 654

The Metro-Score ranges from 200 to 900 with higher scores indicating better credit quality than lower scores. A high score means that you can have favorable terms from your lender.

## Monthly Score Performance

Score Trend

STABLE

The Score has remained the same at in the current period compared to the last scoring period.

## Metro-Score® Comparatives

### Average Score

Last 3 Months	548
Last 6 Months	626
Last 12 Months	626

### Score Spread

Best Score	705
Worst Score	286
Standard Deviation	136.3

PPI<sup>o</sup>

M1

The PPI<sup>o</sup> ranges from M1 to M9 with lower digits indicating better payment performance.  
The PPI<sup>o</sup> indicates the average delays beyond terms in meeting payment obligations and is often used to determine terms.

The metropol PPI<sup>o</sup> of M1 indicates an average late payment of days beyond terms based on 18 credit experiences over the last 12 months.

**2015 May Member of Kenya Green Economy Strategy and Implementation Plan (GESIP) Committee**

The Government is developing a green economy strategy to support development efforts towards Addressing key challenges such as poverty, unemployment, inequality, environmental degradation, climate change and variability, infrastructure gaps and food insecurity. The Kenya Green Economy Assessment Report launched by UNEP in 2014 concluded that Kenya is already implementing various green economy approaches and policies, and that a transition to green economy has positive impacts in the medium and long term across all the sectors of the economy. By 2030, a green growth path results in faster growth, a cleaner environment and high productivity, relative to the 'business as usual' growth scenario. In the Medium Term Plan 2013 -2017, the Government committed to develop a green economy strategy.

**February 18-22 2013: Member Intergovernmental Committee of Experts (ICE) UNECA-Uganda: Enhancing Energy Access and Security in the Eastern Africa Sub-Region** Seventeenth Meeting of the Intergovernmental Committee of Experts (ICE) .Gave a paper on Biomass Energy in East Africa

**2013-2014: Non-Motorized Policy**

**2012-2014: Enhancing environmental sustainability and Climate Change Resilience through capacity building and Policy Advocacy-**

- Provided consultancy services for a process to conduct a baseline survey in Tharaka Nithi and Kitui on Sustainable Charcoal Production and Community and Media Capacity Building; a project Implemented by ACT under CRM facility and funded by Embassy of Sweden and UKAid
- Formation of Charcoal Producers Associations

**2012: Drafting SE4ALL Advocacy Strategy**

KCCWG Sustainable Energy for All Advocacy Strategy Development Drafting a national SE4ALL strategy for Civil Society

**April 2012 –To date: Ministry of Housing Member National Steering Committee Kenya**  
Member of Regional Committee Promoting Energy Efficiency Project In Green Building in East Africa

**June 2011-2013: Task Force Member National Climate Change Response Strategy Action Plan Kenya;**

Participated in drafting and specifically in chairing the Sub-Component 7 on Knowledge Management and Capacity Development. The plan was developed from 20 months of analysis and consultations; and addresses the options for a low-carbon climate resilient development pathway as Kenya adapts to climate impacts and mitigates growing emissions. The plan also addresses the enabling aspects of finance, policy and legislation, knowledge management, capacity development, technology requirements and monitoring and reporting.

#### **Experience in Cross Border Activities**

**Jan 2010- Dec 2011: (Kenya, Tanzania and Sudan in East Africa; Nepal, India, Bangladesh and Sri Lanka in South Asia and Philippines, Indonesia and Cambodia in South-East Asia).**

**Lead Consultant Strengthening Climate Resilience (SCR) through Climate Smart Disaster Risk Management' Institute of Development Studies- United Kingdom Kenya**

Strengthening Climate Resilience (SCR) through Climate Smart Disaster Risk Management' is a UK Department for International Development-funded programme that aims to enhance the ability of developing country governments and civil society organizations to build the resilience of communities to disasters and climate change. It is coordinated by the Institute of Development Studies (UK), Plan International and Christian Aid, who are working with a variety of organisations across ten countries (Kenya, Tanzania and Sudan in East Africa; Nepal, India, Bangladesh and Sri Lanka in South Asia and Philippines, Indonesia and Cambodia in South-East Asia). The programme included national consultations in each of the ten countries and three regional consultations on Climate Smart Disaster Risk Management (CSDRM). Reports, presentations and videos from each of these consultations can be found on the [www.csdrm.org](http://www.csdrm.org)

**2015 Dec – June 2016 Kenya,Uganda,Tanzania,Burundi,Rwanda**

**CONSULTANCY- REPORT ON IMPACT OF CLIMATE CHANGE ON ENERGY SECURITY IN E.AFRICA -UNITED NATIONS ECONOMIC COMMISSION FOR AFRICA**

This report focused on the impact of climate change on energy security in East Africa. East Africa's energy security, just like many other developing regions around the world, energy security has been adversely affected by changing climatic condition. It is necessary to map the

energy risk factors and determine their impacts on availability, affordability, and sustainability of various energy sources in the region.

**March 2013: Member of the council- Ethiopia**

Regional Workshop on Africa Mining Vision & Development-Based Minerals

## **Climate Change Negotiations and Energy**

### **2016 COP 22**

**Participation to The Marrakech Climate Change Conference 3-18 November 2016** The African Group preparatory meetings Small island developing States (SIDS) preparatory meetings and G-77 & China preparatory meetings

**Paris, France**

Participated in the Climate Change Negotiations Meeting for Kenya

**2015 May High-level Panel on Sustainable Energy for All Forum UN General Assembly Hall at UN Headquarters in New York**

Served as a Panellist during the 18-21 May 2015 United Nations Sustainable Energy for All Forum, in the 20 May High-level Panel on "Strengthening Global Cooperation on Energy" on the theme "From Sustainable Development Goals to COP21 and beyond. In the UN General Assembly Hall at UN Headquarters in New York

**2012-2014: Dissemination Coordinator -Climate Change in Kenya – Implications for governance and development Research**

**CDKN**

The study titled Climate change in Kenya – Implications for governance and development, conducted by the Institute of Development Studies (IDS) at the University of Nairobi and the Green Africa Foundation, asked ordinary Kenyans about their views on climate change. The results of the CDKN-funded survey have been released in three sessions, the first at the directed

at the media, the second at civil society, and the third at policymakers and public officials. The purpose of this project was to capture the level of awareness and understanding among the general public on climate change.

#### **2014: Green Economy Assessment Report, UNEP Technical Input**

This study was commissioned by the United Nations Environment Programme (UNEP), at the request of the Ministry of Environment, Water and Natural Resources, on behalf of the Government of the Republic of Kenya. It was conducted by the Kenya Institute for Public Policy Research and Analysis (KIPPRA), with the support of the Washington-based Millennium Institute and the valuable research input from International Institute for Sustainable Development (IISD). The study is the result of national stakeholder consultations held in February 2012 and September 2012, as well as regional stakeholder consultations held in April 2012 for communities in the coastal region, with funding from the World Wildlife Fund (WWF).

The results of this assessment will contribute not only to the realisation of Kenya's Vision 2030, but also to the ongoing debate on how the transition to a green economy can serve as an enabler of sustainable development, poverty alleviation and green job creation.

<http://www.unep.org/greeneconomy/portals/88/documents/KenyaGEassessment.pdf>

**March 18-19 2013: Post-2015 Environmental Sustainability Thematic Consultation- Costa Rica:** Member of a Leadership Meeting for the Post-2015 Environmental Sustainability Thematic Consultation ([www.worldwevanti2015.org/sustainability](http://www.worldwevanti2015.org/sustainability)) held in San Jose, Costa Rica on March 18-19, 2013

**March 2013: Member of the council- Ethiopia**

Regional Workshop on Africa Mining Vision & Development-Based Minerals

**2012-Date National Member 'Low Emission Capacity Building (LECB) Project Kenya**

Technically participated in formulation of national Low Emission Capacity Building (LECB) Project building capacities to develop a GHG national inventory system and nationally appropriate mitigation actions (NAMAs), with associated monitoring, reporting and verification (MRV) systems defined and financially support the National Climate Change Technology Action Plan (NCCTAP); It is aligned with the UN Development Assistance Framework (UNDAF) 2009-2013's focal sectors of energy; environment; education, science and technology; agricultural and rural development; land and housing; private sector (industry) development; roads and transportation; and urban, local government and decentralization. It has been funded by EU, through UNDP and hosted by the Ministry of Environment Water and Natural Resources

## Employment

Jan 2000- to date: The Executive Director of Green Africa Foundation- Kenya

Green Africa Foundation was founded in Kenya in 2000 with a focus of implementing practical hands-on community driven projects aimed at greening the African continent. It is articulated through the Green Africa village concept where communities undertake a series of activities that result to sustainable environmental conservation and natural resource management, assurance of food security, policy dialogue and advocacy and social integration through peace building, ethical and moral probity. [www.greenafricafoundation.org](http://www.greenafricafoundation.org)

- I Develop, implement and coordinates the Green Africa Foundation activities, I Advise the Board on pertinent issues and provides essential input for the Program's supervision, review and evaluation;
- In collaboration with the Fundraising team, actively fundraises for approved projects;
- Manages and advice on reports;
- Coordinates the implementation and management of Green Africa Foundation, and provides them with technical assistance. This includes performing on-site supervision to evaluate specific project progress, organizing and participating in meetings to help determine organisation priorities;
- I Ensures adequate and timely technical reporting internally and to relevant donors;

- I Follow established Green Africa Foundation guidelines, ensure that appropriate monitoring & evaluation systems are implemented;
- Ensures the revision and implementation of the Green Africa Foundation strategic plan.
- I oversee the staff recruitment and Human Resources matters in the organization
- I am the appointed spokesperson of the organisation

**Jan 1997 to Jan 2000: General Manager at Mines Department with Rockland (K) Ltd Kenya**

## **POLICY FORMULATION**

Participated in giving input to the Final Report, Kenya's Climate Public Expenditure and Budgeting processes and provide guidance to strengthen efficiency and effectiveness of climate finance in public financial management systems

**2015 May Member of Kenya Green Economy Strategy and Implementation Plan(GESIP) Committee**

The Government is developing a green economy strategy to support development efforts towards Addressing key challenges such as poverty, unemployment, inequality, environmental degradation, climate change and variability, infrastructure gaps and food insecurity. The Kenya Green Economy Assessment Report launched by UNEP in 2014 concluded that Kenya is already implementing various green economy approaches and policies, and that a transition to green economy has positive impacts in the medium and long term across all the sectors of the economy. By 2030, a green growth path results in faster growth, a cleaner environment and high productivity, relative to the 'business as usual' growth scenario. In the Medium Term Plan 2013-2017, the Government committed to develop a green economy strategy.

**Sept 2013 -2014: Drafting Climate Change ACT 2016**

Member of Steering Committee Representing Civil Society on Climate Change Policy and Bill which is mandated in drafting and coordinating the process of the Climate Change Bill and Policy Ministry of Environment, Water and Natural Resources- Kenya

**February 18-22 2013: Member Intergovernmental Committee of Experts (ICE) UNECA-Uganda: Enhancing Energy Access and Security in the Eastern Africa Sub-Region** Seventeenth Meeting of the Intergovernmental Committee of Experts (ICE) .Gave a paper on Biomass Energy in East Africa

**2013-2014: Non-Motorized Policy**

Lead Person-Enhancing bicycle transport through policy advocacy and infrastructural development in Nairobi County- UN HABITAT Kenya

**2012-2014: Enhancing environmental sustainability and Climate Change Resilience through capacity building and Policy Advocacy-**

- Provided consultancy services for a process to conduct a baseline survey in Tharaka Nithi and Kitui on Sustainable Charcoal Production and Community and Media Capacity Building; a project Implemented by ACT under CRM facility and funded by Embassy of Sweden and UKAid

This report focused on the impact of climate change on energy security in East Africa. East Africa's energy security, just like many other developing regions around the world, energy security has been adversely affected by changing climatic condition. It is necessary to map the energy risk factors and determine their impacts on availability, affordability, and sustainability of various energy sources in the region.

**March 2013: Member of the council- Ethiopia**  
Regional Workshop on Africa Mining Vision & Development-Based Minerals

## **Climate Change Negotiations and Energy**

### **2016 COP 22**

Participation to The Marrakech Climate Change Conference 3-18 November 2016  
The African Group preparatory meetings  
Small island developing States (SIDS) preparatory meetings  
and G-77 & China preparatory meetings

### **2016 May Delegate SBSTA and Pre Sessional Meeting in 9<sup>th</sup> -26<sup>th</sup> May 2016 Bonn, Germany**

Government Delegate in The forty-fourth sessions of the Subsidiary Body for Implementation (SBI 44) and Subsidiary Body for Scientific and Technological Advice (SBSTA 44) as well as the first session of the Ad-hoc Working Group on the Paris Agreement (APA 1) and Pre Sessional meetings, in Bonn, Germany.

**2015 DEC UNFCCC COP21** Paris, France  
Participated in the Climate Change Negotiations Meeting for Kenya

### **2015 May High-level Panel on Sustainable Energy for All Forum UN General Assembly Hall at UN Headquarters in New York**

Served as a Panellist during the 18-21 May 2015 United Nations Sustainable Energy for All Forum, in the 20 May High-level Panel on "Strengthening Global Cooperation on Energy" on the theme "From Sustainable Development Goals to COP21 and beyond. In the UN General Assembly Hall at UN Headquarters in New York

**2012-2014: Dissemination Coordinator -Climate Change in Kenya – Implications for governance and development Research** CDKN

The study titled Climate change in Kenya – Implications for governance and development, conducted by the Institute of Development Studies (IDS) at the University of Nairobi and the Green Africa Foundation, asked ordinary Kenyans about their views on climate change. The results of the CDKN-funded survey have been released in three sessions, the first at the directed at the media, the second at civil society, and the third at policymakers and public officials. The purpose of this project was to capture the level of awareness and understanding among the general public on climate change.

#### **2014: Green Economy Assessment Report, UNEP Technical Input**

This study was commissioned by the United Nations Environment Programme (UNEP), at the request of the Ministry of Environment, Water and Natural Resources, on behalf of the Government of the Republic of Kenya. It was conducted by the Kenya Institute for Public Policy Research and Analysis (KIPPRA), with the support of the Washington-based Millennium Institute and the valuable research input from International Institute for Sustainable Development (IISD). The study is the result of national stakeholder consultations held in February 2012 and September 2012, as well as regional stakeholder consultations held in April 2012 for communities in the coastal region, with funding from the World Wildlife Fund (WWF).

The results of this assessment will contribute not only to the realisation of Kenya's Vision 2030, but also to the ongoing debate on how the transition to a green economy can serve as an enabler of sustainable development, poverty alleviation and green job creation.

<http://www.unep.org/greeneconomy/portals/88/documents/KenyaGEassessment.pdf>

**March 18-19 2013: Post-2015 Environmental Sustainability Thematic Consultation- Costa Rica:** Member of a Leadership Meeting for the Post-2015 Environmental Sustainability Thematic Consultation ([www.worldwewant2015.org/sustainability](http://www.worldwewant2015.org/sustainability)) held in San Jose, Costa Rica on March 18-19, 2013

**March 2013: Member of the council- Ethiopia**  
Regional Workshop on Africa Mining Vision & Development-Based Minerals

#### **2012-Date National Member 'Low Emission Capacity Building (LECB) Project Kenya**

Technically participated in formulation of national Low Emission Capacity Building (LECB) Project building capacities to develop a GHG national inventory system and nationally appropriate mitigation actions (NAMAs), with associated monitoring, reporting and verification (MRV) systems defined and financially support the National Climate Change Technology Action Plan (NCCTAP); It is aligned with the UN Development Assistance Framework (UNDAF) 2009-2013's focal sectors of energy; environment; education, science and technology; agricultural and rural development; land and housing; private sector (industry) development; roads and transportation; and urban, local government and decentralization. It has been funded by EU, through UNDP and hosted by the Ministry of Environment Water and Natural Resources

**Nov 2011- April 2012: Trinity College Dublin- Ireland**

- Formation of Charcoal Producers Associations

**2012: Drafting SE4ALL Advocacy Strategy**

KCCWG Sustainable Energy for All Advocacy Strategy Development Drafting a national SE4ALL strategy for Civil Society

**April 2012 –To date: Ministry of Housing Member National Steering Committee Kenya**  
Member of Regional Committee Promoting Energy Efficiency Project In Green Building in East Africa

**June 2011-2013: Task Force Member National Climate Change Response Strategy Action Plan Kenya;**

Participated in drafting and specifically in chairing the Sub-Component 7 on Knowledge Management and Capacity Development. The plan was developed from 20 months of analysis and consultations; and addresses the options for a low-carbon climate resilient development pathway as Kenya adapts to climate impacts and mitigates growing emissions. The plan also addresses the enabling aspects of finance, policy and legislation, knowledge management, capacity development, technology requirements and monitoring and reporting.

**Experience in Cross Border Activities**

**Jan 2010- Dec 2011:(Kenya, Tanzania and Sudan in East Africa; Nepal, India, Bangladesh and Sri Lanka in South Asia and Philippines, Indonesia and Cambodia in South-East Asia).**

**Lead Consultant Strengthening Climate Resilience (SCR) through Climate Smart Disaster Risk Management' Institute of Development Studies- United KingdomKenya**

Strengthening Climate Resilience (SCR) through Climate Smart Disaster Risk Management' is a UK Department for International Development-funded programme that aims to enhance the ability of developing country governments and civil society organizations to build the resilience of communities to disasters and climate change. It is coordinated by the Institute of Development Studies (UK), Plan International and Christian Aid, who are working with a variety of organisations across ten countries (Kenya, Tanzania and Sudan in East Africa; Nepal, India, Bangladesh and Sri Lanka in South Asia and Philippines, Indonesia and Cambodia in South-East Asia). The programme included national consultations in each of the ten countries and three regional consultations on Climate Smart Disaster Risk Management (CSDRM). Reports, presentations and videos from each of these consultations can be found on the [www.csdrm.org](http://www.csdrm.org)

**2015 Dec – June 2016 Kenya,Uganda,Tanzania,Burundi,Rwanda**

**CONSULTANCY- REPORT ON IMPACT OF CLIMATE CHANGE ON ENERGY SECURITY IN E.AFRICA -UNITED NATIONS ECONOMIC COMMISSION FOR AFRICA**

Attended and participated in lectures on Climate Change

2011 DEC UNFCCC COP17

Durban, South Africa

Delegate in the Climate Change Negotiations Meeting for Kenya

2010 DEC UNFCCC COP16

Cancun Mexico

Participated in the Climate Change Negotiations Meeting for Kenya

2009 DEC UNFCCC COP15

Copenhagen Denmark

Participated in the Climate Change Negotiations Meeting for Kenya

**Oct 2009- To date: Chairman; Kenya Climate Change Working Group- Kenya**

The Kenya Climate Change Working Group was formed in April 2009, as a resolve by 400 members of various civil society organizations and donor partners in Kenya, to come together to form a united front in confronting the causes and effects of climate change in broad and specific terms in Kenya, Africa, and elsewhere where their contribution would be needed. [www.kccwg.org](http://www.kccwg.org)

**Jan 2009- To date: Member of National Biofuel Policy Committee- Kenya**

Offered technical expertise in Developing the Biofuel Policy within the Ministry of Energy

2006-2016 Participation of Conference of Parties UNFCCC meetings globally

2006 DEC UNFCCC COP12

Nairobi, Kenya

Participated in the Climate Change Negotiations Meeting for Kenya

### Membership

- Kenya Climate Change Working Group
- Kenya Forest Working Group
- Friends of Nairobi Arboretum

- Kenya Forest Society
- Kenya Bio-diesel Association
- Jatropha Practitioners Network for Eastern and Southern Association
- Member of Promoting Energy Efficiency Project In Building in East Africa
- National Climate Change Response strategy action plan

### Publications and Conferences

1. April 2010: African Academy of Science- Kenya Research Paper- Status of Jatropha Cultivation in Africa: Challenges and opportunities <http://www.interacademies.net/File.aspx?id=10706>

Mr. John Kioli  
Green Africa Foundation  
**Kajiado**

Dear *John,*

**RE: APPOINTMENT AS A MEMBER OF THE COUNTY ENVIRONMENT  
COMMITTEE**

---

In accordance with the Environmental Management and Coordination (Amendment) Act, 2015, I have constituted the County Environment Committee for Kajiado County through the Gazette notice number 1418.

The County Environment Committee for Kajiado shall perform the following functions.

- a. Be responsible for the proper management of the environment within the county
- b. Develop a County strategic environmental action plan every five years;
- c. Perform such additional functions as prescribed by the Act or as may be assigned from time to time.

This is therefore, to inform you that you have been appointed as a **Member** of the County Environment Committee for a period of 3 years.

I take this opportunity to congratulate you and wish you success as you serve in this committee.

Sincerely,

David K. Ole Nkedianye, PhD

**APPOINTMENT AS A MEMBER OF TECHNICAL COMMITTEE FOR THE  
REVIEW OF CHARCOAL RULES AND REGULATIONS (2009)**

A stakeholders meeting on the status of the Charcoal Rules and Regulations was held at Panafric Hotel on 23<sup>rd</sup> July, 2014. During this meeting, it was resolved that there is need to review and re-draft the Charcoal Rules and Regulations 2009 to align them with the Kenya Constitution, 2010 and the Draft Forest (Management and Conservation) Bill, 2014. The meeting further recommended that a Technical Committee spearheads reviewing and re-drafting process.

The purpose of this letter is to inform you that you have been appointed to be a member of this committee. The Technical Committee is scheduled to hold its first meeting on Friday 30<sup>th</sup> January, 2015 at Silver Springs Hotel at 8.30 a.m. Please confirm your acceptance of this appointment to Mr. Nelson Manyeki, Deputy Director Forest Conservation, Email - [mainamanyeki@yahoo.com](mailto:mainamanyeki@yahoo.com) on or before the first meeting.

*Cabinet Secretary for the National Treasury.*

## GAZETTE NOTICE NO. 1200

## THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

## TASKFORCE ON THE DEVELOPMENT OF A NATIONAL CLIMATE CHANGE POLICY AND LAW

## APPOINTMENT

IT IS notified for general information of the public that the Cabinet Secretary for Environment, Water and Natural Resources has appointed a task force to develop a National Climate Policy and Bill that will enhance the co-ordination and implementation of climate change resilient and low carbon development for the prosperity and sustainability development of Kenya.

1. The Taskforce shall comprise of the following members:

Richard Lesiyampe (Dr.)—(Chairman).

Martha Cheruto (Ms.)—(Vice-Chairperson).

Nicholas Oguge (Prof.).

Wilbur Otichilo (Dr.).

Alexander Alusa.

Sarah Muui.

Michael Obora.

Consolata Kiragu.

Gregory Munyao.

Adano Wario Guyo.

Judy Ndichu.

Esther Wangombe.

Suresh Patel.

John Kioli.

John Nyangena.

**Joint Secretaries:**

Fatuma M. Hussein  
Stephen King'uyu

2. The terms of reference of the Steering Committee shall be—
- Co-ordinate the process of the preparation of a National Climate Change Policy and Bill.
  - Formulate a realistic roadmap, strategy and plan to ensure delivery.
  - Review any existing legislation, policies and other relevant documents, including drafts availed by the Ministry so as to inform the policy and Bill.
  - Constitute relevant sub-committees as and when necessary.
  - Incorporate priorities as brought out in the National Climate Change Response Strategy 2010 and the National Climate Change Action plan 2013-2017.
  - Co-ordinate an inclusive stakeholder consultation process at all levels.
  - Spearhead a comprehensive related dialogue process and targeted advocacy at national and county levels to ensure stakeholder awareness and understanding of the implications of the policy and Bill.
  - Identify and co-opt technical experts or any other resource, provided that the co-opted members do not exceed one third of the steering committee.
  - With approval of the Principal Secretary, State Department of Environment and Natural Resources, engage the services of such consultants as may be found necessary for the execution of set terms of reference.
  - Ensure adherence to proper accountability, transparency, ethics and integrity in the dispensation of the work.
  - Ensure timely and quality delivery of the services by the Taskforce and the consultant.
  - Submit regular (and on demand) progress reports, and final draft policy and Bill to the Cabinet Secretary for Environment, Water and Natural Resources.
3. The Secretariat of the Task Force shall be based at the headquarters of the Ministry of Environment, Water and Natural Resource.
4. The term of the steering committee shall be six months from the date of the publication of this Gazette Notice.

Dated the 29th January, 2014.

JUDI W. WAKHUNGU,  
Cabinet Secretary,  
Ministry of Environment Water and Natural Resources.

## GAZETTE NOTICE NO. 1201

THE MOHAMMEDAN MARRIAGE AND DIVORCE  
REGISTRATION ACT

(Cap. 155)

APPOINTMENT

IN EXERCISE of the powers conferred by section 4 of the Mohammedan Marriage and Divorce Registration Act, as read with section 25 of the Kenya Citizens and Foreign Nationals Management Service Act, the Attorney-General appoints—

USTADH ZED ABDALLA GAYOLE

to be an Assistant Registrar of Islamic marriages and divorces in Dagoretti.

Dated the 21st February, 2014.

GITHU MUIGAI,  
Attorney-General.

## GAZETTE NOTICE NO. 1202

THE CENTRAL BANK OF KENYA ACT  
(Cap. 491)

REVOCAION OF FOREX BUREAU LICENCE

IT IS notified for the general information of the public that the Central Bank of Kenya has revoked the licence of the Forex Bureau named in the first column of the schedule, with effect from the date specified in the second column of the schedule.

SCHEDULE

First Column	Second Column
Vantage Forex Bureau Limited	31st January, 2014

Dated the 18th February, 2014.

NJUGUNA NDUNG'U,  
Governor, Central Bank of Kenya.

Convener Kenya Climate Change Working Group,  
P.O. Box 9164-00200,  
Nairobi, Kenya.

Dear Mr. John Kioli,

**Re: Appreciation for your participation in Climate Change Roundtable Forum**

Greetings from Act!

The purpose of this letter is to convey our heartfelt and most sincere appreciation to you for finding time to attend and grace the Round Table Discussions on 18th July 2013 at the Nairobi Safari Club. This forum culminated in participants setting priority areas to focus on in the climate change agenda in Kenya. Your coming to be part of the discussions, both in your individual capacity and on behalf of Green Africa Foundation and KCCWG was both an inspiration and challenge to us to continue and deepen our collaborative approach to development work in Kenya.

It is our hope and trust that you and both Green Africa Foundation and KCCWG will, in one way or another, continue being part of this collaborative initiative in shaping the priorities and agenda in the Environment and Natural Resources Sector.

Once again, we thank you for your participation and look forward to closer collaboration with KCCWG and Green Africa Foundation.

Enclosed please find a small token of appreciation, a summary of the round table outcome and a brochure with a summary of Act! interventions.

For more information on our work and ongoing initiatives, kindly visit our website at [www.act.or.ke](http://www.act.or.ke)

Sincerely,

Anthony Kariuki  
Chief Executive Officer

# IMPACT OF CLIMATE CHANGE ON ENERGY SECURITY

**DRAFT REPORT**  
**SUBMITTED TO: UNECA**  
**By: John Kioli**  
**December 28<sup>th</sup> December, 2015**  
**Nairobi, Kenya**

## Executive Summary

**T**his report focused on the impact of climate change on energy security in East Africa. East Africa's energy security, just like many other developing regions around the world, energy security has been adversely affected by changing climatic condition. It is necessary to map the energy risk factors and determine their impacts on availability, affordability, and sustainability of various energy sources in the region. The study was primarily based on the available data in books, journal articles, conferences reports, government publications, and newspaper reports, publications from relevant organisations such as UNEP, AMCEN, CAHOSCC, EALA, and EAC among others.

The study revealed that East African states are increasingly becoming energy insecure due to climate change. Prolonged drought is reducing the availability of biomass which is the primary energy source for families in this region. Drought is also reducing hydro-potential by reducing the volumes of the rivers and reservoirs used to produce hydro electric power. These countries are sometimes forced to use fossil oil to produce electricity to supplement the limited amount of energy produced at various hydro-plants. Frequent flash flood is another major climatic factor that is negatively affecting energy security in the region. It destroys energy production infrastructure and destroys road networks, making it difficult to deliver energy by roads.

Inasmuch as East African nations by themselves cannot change trends in climatic condition, they can take measures to manage these threats and use available resources to increase energy security. Alternative sources such as solar power and biogas have great potentials and can help improve energy security. The governments through their respective ministries, private firms, and non-governmental organisations should find ways of empowering the communities through capacity building so that they can embrace energy switch.

## 1.0 Introduction

### 1.1 Background

The use of energy is a prerequisite for virtually all economic activities, and it is crucial to be able to access sufficient amounts of energy at acceptable cost, which gives rise to the notion of energy security. Reliable sources of energy is particularly very important to developing nations in Africa which are yet to learn how to use scientific innovations to produce and use new alternative sources of energy. African economy is rapidly expanding, and this means that it should have energy security. However, scientists have confirmed that climate change is having adverse effect on energy security. The study of the impacts of climate change on national and international energy security has grown as a research field; particularly in the last five decades as the impact of climate change becomes more evident in many socio-economic and political spheres. There are multitudes of interrelated risks associated with climate change and energy security, many of which have been drastically felt in various parts of the world. If scientific consensus is to be believed, global warming is likely to increase the prevalence and severity with which such these risks will occur in the near future. In this report, the focus was to determine the impact of climate change on energy security among East African member states.

### 1.2 Objectives

Impact of climate change on energy security has become a global impact that has necessitated extensive research in various countries around the world. In this report, the researcher had specific objectives as stated below.

- Ø To identify the trends in energy security in East Africa.
- Ø To determine how energy security trend is affected by climate change in East Africa.
- Ø To come up with policy recommendations to East African states on how to deal with the emerging energy insecurity that is brought about by climate change

## 2.0 The Concept of Energy Security in the Context of Climate Change

Definitions of energy security in the literature can be grouped into two broad categories: the first focuses on economic principles and the second is more policy oriented. From an economic perspective, energy insecurity is the loss of welfare resulting from a change in the price or physical availability of energy. Policy oriented definitions typically highlight basic requirements of a secure energy system. Often these stress the need for accessibly to, and affordability of energy. Other examples include availability and acceptability. While perfectly sound in their-own right, neither definition is suitable to describe fully the effects of climate change policies on energy security. In defining a suitable framework for the purpose of this study, additional information is therefore needed. The dilemma is in finding a suitable middle ground between uncertain aggregate welfare estimates on the one hand and unstructured expert judgment on the other. To tackle this problem we used a bottom-up approach, starting from broad definitions of energy security and then looking at specific cases based on actual experience within states in East Africa. This experience was used to establish a simple classification of root causes of energy insecurity that are directly or indirectly related to climate change.

Recent studies show that there is a close relationship between energy security and climate change in East Africa. The changing climatic conditions have changed various environmental patterns which have adverse effect in production, supply, and use of various types of energy. Prolonged drought affects forests and other vegetative cover which impacts negatively on the sustainability of biomass. Flooding and landslides affect production and supply of hydro-potentials, especially due to the destruction of the infrastructure. Extreme weather conditions make oil explorations and extraction more complex and very expensive. These climatic effects bring about energy insecurity.

## 3.0 Mapping the Impact of Climate Change on the Energy Sector

### a. Kenya

#### i. Current state of energy in Kenya

A recent study of the current state of energy in Kenya shows that energy sector in country is largely dominated by petroleum and electricity, with wood fuel providing the basic energy needs of the rural communities, urban poor, and the informal sector. An analysis of the national energy shows heavy dependency on wood fuel and other biomass that account for 68% of the total energy consumption (petroleum 22%, electricity 9%, others account for 1%). Electricity access in Kenya is low despite the government's ambitious target to increase electricity connectivity from the current 15% to at least 65% by the year 2022.

#### ii. How climate change has impacted on sustainability of Hydro-Potentials of electricity supply

Kenya has huge hydro-potentials of electricity supply that is under threat due to climate change. Hydro-power generation stations largely rely on regular rainfall to ensure that the rivers and dams have the capacity needed for production of electricity. In the recent past, Kenya has experienced prolonged drought which has reduced the volumes of water in these rivers and dams, reducing their capacity. In 2010, the hydro-potential of the country was significantly reduced that Kenya Power and Lighting Company (KPLC) was forced to start rationing power. KenGen was forced to use fossil fuel to increase the supply of electricity to the national grid. This meant that Kenyans had to pay more for every unit of electricity that they used. Flood and flash floods, events which are directly linked to climate change, also have negative impact on sustainability and availability of hydro-power. Some of the infrastructures used in the production and supply of power would be destroyed, creating shortage in some parts of the country.

#### iii. How climate change has impacted on sustainability of biomass

A recent study about energy sources in Kenya found out that as of 2014, biomass energy, i.e. firewood, charcoal and agricultural wastes contributes up to 70% of Kenya's final energy demand and provides for almost 90% of rural household energy needs. Biomass comes from various forest formations such as closed forests, woodlands, bush lands, wooded grasslands, farms with natural vegetation and mixtures of native and exotic trees, industrial and fuel wood plantations, and residues from agricultural crops and wood-based industries. Sustainability of biomass, given its critical position as the leading source of energy in this country, is of critical importance. However, the sustainability heavily relies on regular rainfall throughout the year, something that is becoming uncommon in the country. Long periods of drought are becoming common in most parts of the country, especially in the Northern, Eastern, and North Eastern regions. Areas such as Mandera, Garisa, Kitui, Turkana, Wajir, and Samburu have recently witnessed prolonged drought that has greatly affected sustainability of biomass as a source of energy.

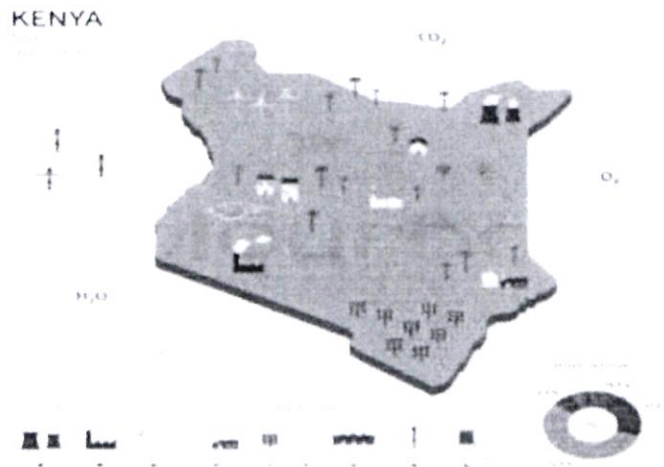

#### iv. How Climate Change has impacted oil and gas sectors

Kenyan economy heavily relies on oil and gas as the main source of energy that is used in the industrial sector and for domestic purposes for heating and lighting. Oil and gas will soon become an undesirable source of energy that cannot be relied upon in the country because of its impact on climate change and the need to go green. The negative impacts of climate change on oil and gas may soon force the country to find alternative energy sources other than oil and gas.

#### v. Mapping climate change risks in the entire energy sector of Kenya

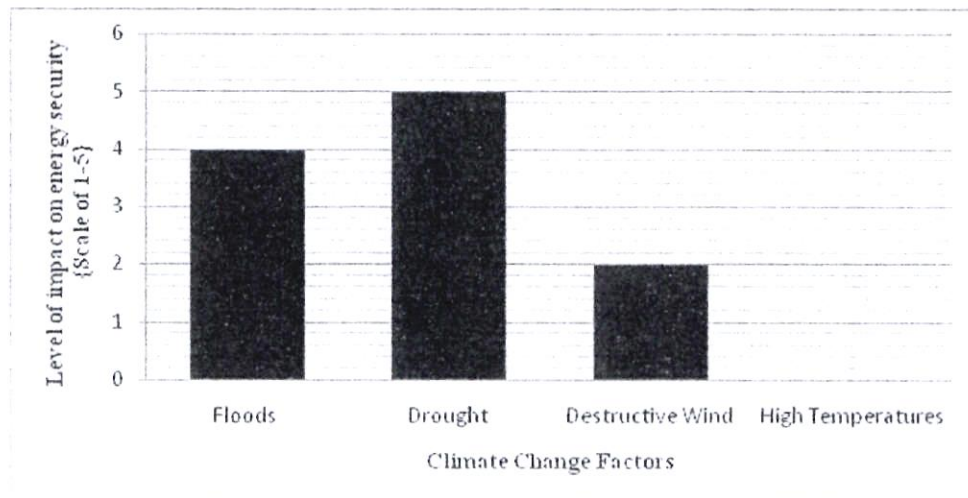

Climate change risks in the entire energy sector of Kenya can be summarised and presented diagrammatically as shown in the figure below.

Figure 2: Kenya's Energy Info-Graphic

The Northern, North Eastern, and parts of Eastern regions are largely affected by drought more than any other parts of the country. Parts of Western Kenya are also affected by adverse weather patterns which affect the sustainability of biomass, the primary source of energy in the rural areas. Cases of frequent flooding accompanied by landslides are affecting energy production in parts of Central Kenya and Rift Valley regions. These adverse weather patterns affect power generation and supply, leading to energy insecurity in the country. The graph below shows the level of impact of climate change on energy security in Kenya.

Graph 1: Level of Impact on Energy Security in Kenya

Source (Farah, 2015)

*b. Tanzania*

**i. Current state of energy in Tanzania**

Tanzania- which is East Africa's largest and most populous country- largely depends on biomass as the main energy supply. Since over 85% of the population is not connected to the electricity grid, the overwhelming majority (over 85%) of households use wood and charcoal for cooking. Unfortunately, this leads to the deforestation of 100,000ha per year, of which only about a quarter is reforested. Other energy sources are petroleum, which makes up 7.8% of total primary energy consumption, natural gas (2.4%), hydropower (1.2%) and coal/peat (0.3%). About 6.6 percent of hydro-energy needs to be imported, primarily from Uganda (8 MW) and Zambia (5 MW).

**ii. How climate change has impacted on sustainability of electricity supply**

Tanzania's hydro-electric production is still way below what the country demands. Recent studies of state of energy in the country reveal that electricity makes up only 0.6% of total energy consumption. The limited production capacity may be worsened by the continuing drought in the country. Most of the rivers used in the production of electricity rely on regular rainfall to supply the reservoirs sustainably. The continued drought in the country threatens sustainability of electricity supply.

**iii. How climate change has impacted on sustainability of biomass**

The vast majority of Tanzanians rely on biomass for energy consumption; mostly in the form of fuel wood or charcoal that is used for cooking and heating. The sustainability of biomass as a source of energy for Tanzanians is at stake due to prolonged drought. The country's forest cover is rapidly decreasing at a rate of 100,000 h per year due to drought and over-exploitation.

**iv. How Climate Change has impacted oil and gas sectors**

Tanzania does not have own oil reserves, and imports are currently only able to cover about 70% of the total demand. Climate change also has indirect impact on the cost of fuel. When cyclones and flood destroy oil extraction infrastructure, then the availability of this form of energy is compromised. Such events may have devastating impact on the country's energy security. A good example was the 2011 TAZAMA pipeline leakage in Malolo, which had caused adverse effect on the crops, water sources and environment as well. It also led to oil shortage in major towns in the country.

**v. Mapping climate change risks in the entire energy sector of Tanzania**

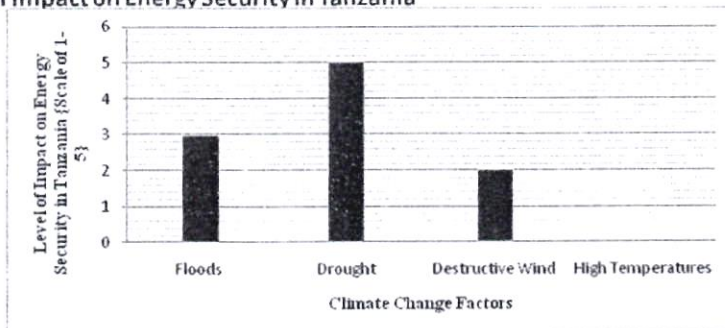

In 2012, Tanzania Electric Supply Company Limited (TANESCO) announced that the falling reservoir levels will force it to shut all of its hydroelectric power projects. This power generating and supply company has been struggling to meet the electricity demand in the country, but the falling water levels in the major rivers in the country and increasing international oil prices may make it impossible to achieve this aim. The map below identifies some of the power production plants worst hit by climate change.

Figure 2: Tanzania's Energy Info-Graphic

The graph below shows the level of impact of climate change on energy security in Tanzania.

**Graph 2: Level of Impact on Energy Security in Tanzania**

<sup>16</sup>[http://www.afdb.org/fileadmin/uploads/afdb/Documents/Generic-Documents/Renewable\\_Energy\\_in\\_Africa\\_-\\_Tanzania.pdf](http://www.afdb.org/fileadmin/uploads/afdb/Documents/Generic-Documents/Renewable_Energy_in_Africa_-_Tanzania.pdf)

<sup>18</sup>Thomson, E. (2010). *Energy conservation in East Asia: Towards greater energy security* Singapore: World Scientific.

<sup>11</sup>Ibid

**i. Current state of energy in Uganda**

Uganda is the third largest economy in East Africa after Kenya and Tanzania. Biomass is still the most important source of energy for the majority of the Ugandan population. About 90% of the total primary energy consumption is generated through biomass, which can be separated in firewood (78.6%), charcoal (5.6%) and crop residues (4.7%). Electricity is contributing only 1.4% to the national energy balance while oil products, which are mainly used for vehicles and thermal power plants, account for the remaining 9.7%.

**ii. How climate change has impacted on sustainability of electricity supply**

The electricity supply system in Uganda was developed during the 1950s and 1960s with the construction of the Owen Falls Hydropower Station. Climate change has direct negative impact on the volume of these rivers, hence their capacity to produce hydro power. Prolonged drought that has hit various parts of the country is limiting availability of electricity for both the industrial and domestic use. Recent studies have shown that Uganda is reverting to a fully-blown electricity supply crisis sooner than expected unless money is found to finance operations in the energy sector.

**iii. How climate change has impacted on sustainability of biomass**

Since 1990 the forested area decreased from 49,240 km<sup>2</sup> down to 29,880 km<sup>2</sup>. This means that from 1990 until 2010 more than 19,360 km<sup>2</sup>, equalling 39 % of the existing forest disappeared. Currently about 90,000 hectares (equals 900 km<sup>2</sup>) of forest cover are lost annually, which leads to fuel wood scarcity in rural areas and increasing price levels of charcoal and fuel wood. Studies have shown that the alarming rate at which this country is losing its forest cover is not only caused by overconsumption, but also unfavourable climatic conditions. Drought in the country has made it very challenging to reforest the country.

**iv. How Climate Change has impacted oil and gas sectors**

Uganda relies on imported petroleum energy for its domestic and industrial sectors. Oil has been detected in six sedimentary basins in Uganda. However, climate change may have serious negative impact on the exploration and subsequent extraction of oil in the country. Oil exploration and extraction is an expensive and complex process that Uganda cannot undertake without the support of international oil companies. These companies are losing interest in these ventures because of the dropping oil prices and pressure to reduce carbon emissions. Climate change is making oil unattractive as a source of energy, and this may discourage foreign investors trying to explore and extract petroleum in this country. Uganda currently relies on imported oil which is transported from the port of Mombasa through rail and roads. When floods render these roads impassable, the country's supply of oil is always affected to a great extent.

**v. Mapping climate change risks in the entire energy sector of Uganda**

Climate change is posing serious risks to energy security In Uganda. The prolonged droughts reduce the country's hydro potentials and biomass security. Frequent floods and flash floods is a serious threat to the electricity infrastructure. The need to reduce carbon emission is also making oil exploration in the country less desirable. More than 60 per cent of the Graben is not yet explored. Tullow Oil Uganda and its partners Total and CNOOC are already slowing down their exploration activities in the country due to the falling international oil prices and other climate change-related risks. These risks are summarized in the figure below.

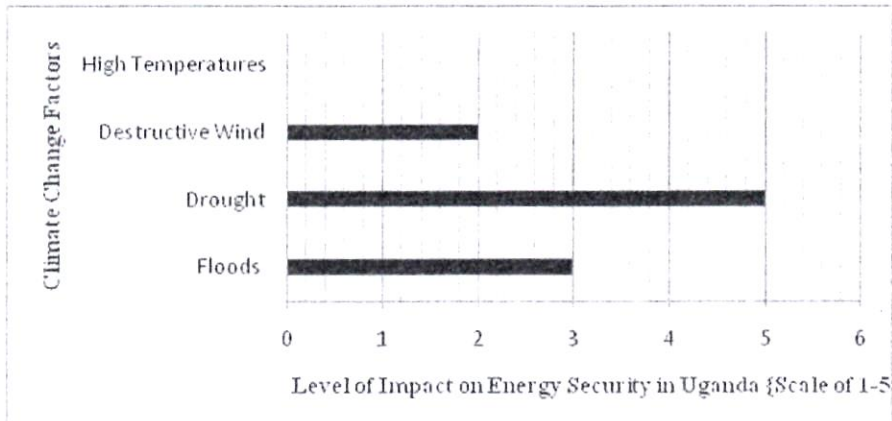

Figure 3: Uganda's Energy Info-Graphic

<sup>11</sup> Ibid  
<sup>12</sup> Ibid

The graph below shows the level of impact of climate change on energy security in Uganda.

Graph 3: Level of Impact on Energy Security in Uganda

d. **Rwanda**

i. **Current state of energy in Rwanda**

According to recent studies about Rwanda's energy supply, about 85% of its overall primary energy consumption is based on biomass. Studies show that until 2004, Rwanda depended on a single energy source, hydropower, whose limited capacity relied on a dilapidated network with technical and commercial losses of around 30%, much of which is attributed in part to climate change.

ii. **How climate change has impacted on sustainability of electricity supply**

Rwanda currently has about 57 MW installed hydropower generating capacity. Hydroelectric power is mainly from the northern and southern parts of the country mainly generated from run on water. The rivers are under threat due to the increasing cases of drought in the country. The water catchment areas in Northern part of Rwanda, which feeds most of these rivers, are also under threat due to deforestation, drought, and human activity. If the trend remains unchanged, then Rwanda will not have sustainable hydro power supply to meet its domestic and industrial demands.

iii. **How climate change has impacted on sustainability of biomass**

Biomass remains practically the only source for cooking for many years to come as electricity will remain too expensive in the medium future. According to a report by Kigali Institute of Science and Technology (KIST), Rwanda is already running a fuel wood deficit of approximately 4.5 million cubic meters per year partly due to drought. The average costs of biomass fuel escalated overtime Sustainability of biomass energy in Rwanda is at stake if the current climatic conditions continue.

iv. **How Climate Change has impacted oil and gas sectors**

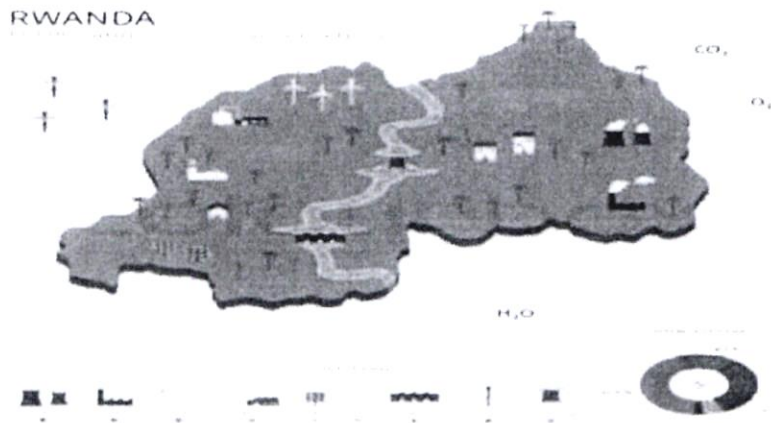

Rwanda's main fossil fuel resource is methane gas. It is estimated that there are 50 billion cubic meters of exploitable methane, which is the equivalent of 40 million tons of petrol lying at the bottom of the Lake Kivu under 250 meters of water. The country may likely fail to have energy security from its oil and gas sector due to the impact of climate change on environment. The world is moving away from heavy use of oil and gas as a source of energy due to climate change. This means that the oil reserves in the country may not be exploited because of the shrinking market for the product.

v. **Mapping climate change risks in the entire energy sector of Rwanda**

A report by Rwanda Environment Management Authority (REMA) maps climate change risks in the entire energy sector in Rwanda. According to the report, climate change effects on forest resources could result in more trees and woodlands are converted into agricultural lands, with the likely negative impact on biomass energy availability and access. Persistent drought will reduce water levels in major lakes and rivers and swamps and lead to lower power production. Rwanda has already experienced this crisis especially around 2003-2004. The info-graphic below maps these risks.

Figure 4: Rwanda's Energy Info-Graphic

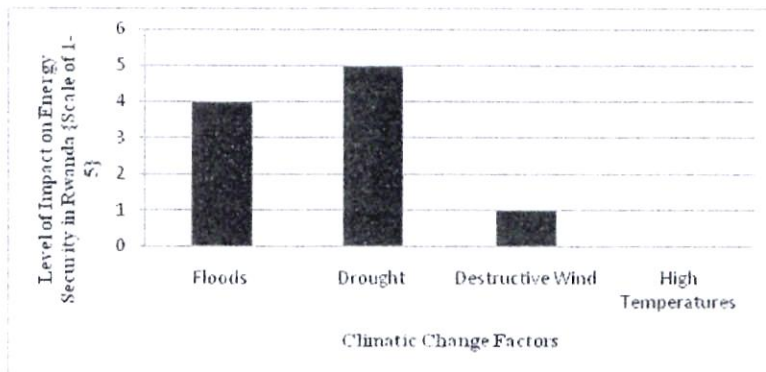

<sup>12</sup>ibid  
<sup>13</sup>ibid

Source (Farah, 2015)

The graph below shows the level of impact of climate change on energy security in Rwanda.

Graph 3: Level of Impact on Energy Security in Rwanda

*e. Burundi*

**i. Current state of energy in Burundi**

Burundi is a small, low income, densely-populated, landlocked country. Burundi`s energy consumption relies to a great extent on biomass. Households are the main consumers of energy in the country, accounting for 94% of total consumption. Their needs are almost exclusively met by traditional biomass (99%). Electricity (0.3%), and oil products (0.4%) play an insignificant role. If industry and transport is included, 94% of all energy consumption relies on biomass, which is composed by around 70% of fuel wood, 18% of agricultural residues, 6% of charcoal, and 1% of biogases.

**ii. How climate change has impacted on sustainability of electricity supply**

Hydropower is the most important technology for power generation in Burundi, representing 95% of the total national generation capacity. Burundi's hydro-potential is adversely affected by the frequent droughts which have become very common in East Africa. The reservoirs rely on regular rainfall to have the potential to produce the needed energy for domestic and industrial consumption. However, climate change is reducing this potential significantly.

**iii. How climate change has impacted on sustainability of biomass**

Use of wood remains by far the biggest energy source for both rural and urban households. However, climate change has negatively affected the forest cover in this country. It is estimated that only 6% of the country's total land area is forested. The annual deforestation rate in the country is about 2%, largely attributed to overconsumption of biomass and climate change in the region.

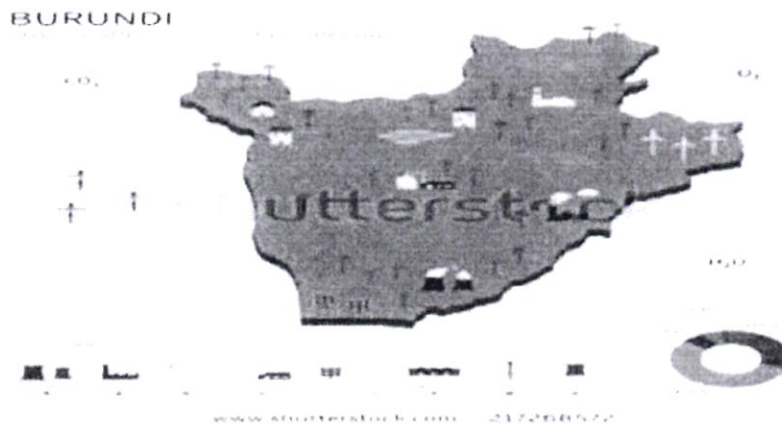

**iv. How Climate Change has impacted oil and gas sectors**

The available data shows that consumption of commercial energy in Burundi is very low with only 14 kg oil equivalent or 163 kWh per year and capita (2001), one of the lowest in the world. COP 21 which took place in Paris, France in December 2015 came up with a number of policies meant to reduce global reliance on oil energy. This means that the energy sector in the country may face more challenges in the future as some of the investors may consider other business opportunities away from oil and gas production as the world moves towards clean energy.

**v. Mapping climate change risks in the entire energy sector of Burundi**

The current state of the energy situation in Burundi and how they are affected by climate change can be summarised and presented in a map. The info-graphic below shows current energy sources and consumption sites in the country.

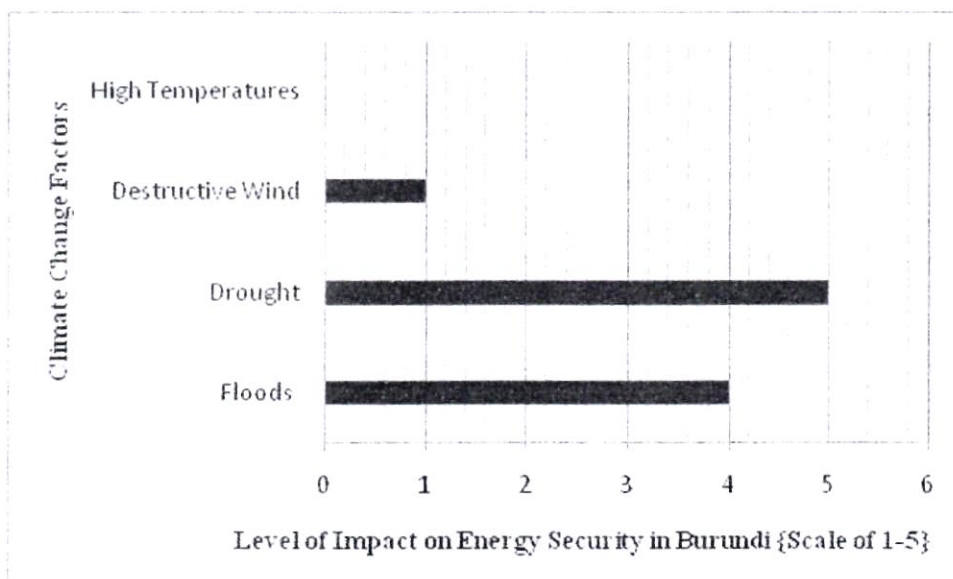

Figure 5: Burundi's Energy Info-Graphic

Source (Farah, 2015)

The graph below shows the level of impact of climate change on energy security in Uganda.

Graph 3: Level of Impact on Energy Security in Burundi

## 4.0 Opportunities, Challenges, and Guidelines to increasing Energy Security in EAC

East African states can increase energy security by tapping into the existing opportunities that have been ignored for a very long time. Studies have confirmed that solar potential is an opportunity that remains unexploited in all the five countries in East Africa. This alternative source does not require complex and expensive infrastructural development such as those used in generation and supply of hydro and thermal power. Solar energy can light homes in rural areas, reducing reliance of kerosene. Wind energy is another underexploited alternative source that these countries can tap. Areas such as Yatta Plateau have great potential of producing wind energy that can supplement the currently available sources in Kenya. Biogas is also another way of increasing energy security. Rural dwellers are in the best position to generate biogas from farm and animal wastes. This energy is very effective in cooking and lighting, the two primary uses of energy in rural areas. East African governments should also increase their investment in geothermal power production plants to support hydro and oil energy.

Tapping into the above opportunities may not be easy due to a number of challenges. The biggest challenge that may reduce the region's ability to increase its energy security is poverty. For the rural dwellers to tap and use solar energy, they will need purchase solar panels. They will also have to install the system in their houses. Majority of the rural dwellers in this region cannot afford to pay this cost. Illiteracy is another issue of concern that may limit ability to use alternative sources of energy. Most of the rural dwellers who are best placed to produce and use biogas lack knowledge and capacity to do so. The runaway corruption cases in the region, are another major challenge in increasing energy security in the region. Resources meant for energy infrastructure and capacity building in the rural areas always ends up in the pockets of individuals within the government.

To achieve energy security in East Africa, it is important to have clear guidelines that will help the relevant stakeholders to understand what should be done in various energy-subsectors. The governments, through their respective ministries of energy, should initiate capacity building programs among the rural dwellers to promote production and consumption of biogas. These ministries should also coordinate with the private sector, non-governmental organisations, and donors to help in making solar panels available and affordable to the rural dwellers. These governments should also increase their investments in geothermal and wind sub-sectors to increase energy output and reduce overreliance on fossil fuel.

## 5.0 Measurement, monitoring and management of climate change risks by sub-sector

### a. Measurement, monitoring and management of climate change risks in biomass sub-sector

Climate change risks in biomass subsector can be measured, monitored, and managed to avoid its adverse impact. The ministries of environment and that of energy should come up with a program to monitor how the forest cover in these five countries are affected by drought, floods, global warming, or any other climate change-related factors. Data should be provided that clearly states the rate at which biomass is being lost in the region. With this information, the relevant stakeholders can come up with monitoring and management policies to protect the biomass. This can be achieved if these government agencies work together with the private sector, non-governmental organisations, and the general public. Management strategies may involve regulating rates of consumption of the biomass, reforestation and afforestation, and promoting better ways of consuming biomass. This may not require complex systems. It can take simple programs run by the communities with the help of non-governmental organisations and a few government officials from the ministries of energy and environment. Law enforcement agencies should also be involved in such programs to ensure that individual members of the communities involved do not flout rules and regulations meant to protect forest cover.

### b. Measurement, monitoring and management of climate change risks in electricity sub-sector

Electricity subsector is also very important for the economic development of East African region. Measures can be put in place to monitor and manage risks of climate change in this sub sector. The region should take measures to protect all the water catchment areas such as Mau Forest in Kenya's Rift Valley and all the wetlands. This can be done through the ministries on environment in the five countries. Human activities in these areas should be reduced as much as possible. This measure will protect the rivers used in the production of hydro-power. It may also be necessary for these governments to have monitoring and management programs to protect reservoirs used in power generation. More investment into this energy sub-sector may be necessary to manage adverse effect of climate change.

<sup>13</sup> Brown, D. E. (2014). *Africa's booming oil and natural gas exploration and production: National. S.I.: Lulu Com.*

**c. Measurement, monitoring and management of climate change risks in oil and gas sub-sector**

Climate change is also posing a serious threat to sustainability of oil and gas subsectors in East Africa. Although the world is moving away from the use of fossil fuel, developing nations in East Africa cannot avoid using this form of energy in its industrial and even domestic sector. It is, therefore, prudent to find ways through which this product can be obtained cheaply. Explorations which were done in Uganda, Tanzania, and parts of Kenya show that the region has recoverable oil deposits which can be exploited. East African governments should take the initiative of funding the projects meant to explore and extract oil. Climate change and dropping oil prices in the international market has made this industry less desirable to the international investors. These regional governments have the capacity to fund and manage these projects because the expected benefits will outweigh the costs. It will reduce importation of oil from MENA region.

## 6.0 Policy Recommendations to EAC Member States

East Africa Community has the capacity to minimize and manage climate change risks in the energy sub-sectors discussed above. It is clear that the impact of climate change is expected to get worse in the near future. The only way to survive under such harsh environmental conditions is to know how to manage the threats of climate change. Based on the findings of this study, EAC member states should consider the following recommendations:

### **In Biomass Sub-Sector Recommendations**

Biomass still remains the primary sources of energy in region, both among the rural and urban dwellers. East African governments should come up with policies that will regulate harvesting and consumption of biomass. Charcoal harvesting in Eastern Kenya, Northern Uganda, and parts of South of Uganda should be regulated. Charcoal producers must embrace modern charcoal kilns that eliminate wastes of energy. Rwandan government should find a way in which its little forest cover can be protected from over exploitation. Burundi's forest may soon be depleted if government does not stop the ongoing loggings, especially in the war torn regions bordering Democratic Republic of Congo. Stopping misuse and overexploitation of the forests can only be achieved if the population is offered alternative sources of energy. The use of biogas, solar, and wind energies should be promoted through capacity building in the entire region.

### **In electricity sub-sector Recommendations**

The electricity subsector is playing a critical role in driving the industrial sector in the region. However, its sustainability is also under threat due to climate change. To counter this threat, these government start by protecting water catchments areas and wetlands from human activities. Kenya's Aberdare ranges, Mau Complex, Mount Kenya, and Mount Elgon; Tanzania's Mount Kilimanjaro, and Uluguru Mountains, Highland areas in Uganda, Burundi, and Rwanda should be protected at all costs because they are the primary sources of major rivers in the region. Corruption in East Africa is another major problem bedevilling this energy subsector. Money meant for development projects are always embezzled by the relevant officers. Such practices should be curbed to help promote development in this sector.

### **In oil and gas sub-sector Recommendations**

Uganda and Kenya have oil reserves which are recoverable according to the recent reports from the companies responsible for explorations. These two countries may need to be directly involved in the extraction of oil following the exit of some of the international companies involved in such projects. They should fund these projects and help in their management to reduce reliance on imported oil. Tanzania should also fund its oil exploration project. The region should consider reducing its overreliance on oil and gas by promoting the use of alternative sources.

SCHEDULE  
[Section 6(8).]

**CRITERIA FOR VETTING/APPROVAL OF NOMINEES FOR  
APPOINTMENT TO PUBLIC OFFICE BY PARLIAMENT QUESTIONNAIRE**

**Notes:**

- a) This questionnaire applies to appointments to public office arising by or under the Constitution or any other law where parliamentary approval is required.
- b) The questionnaire shall be used by the relevant parliamentary committee to vet a nominee appearing before the committee in the process of parliamentary approval.
- c) The questionnaire shall be filled and submitted by the nominee to the relevant parliamentary committee through the Clerk of the relevant House of Parliament on or before a date set by the committee.
- d) The submission of false information in the questionnaire is an offence and may result in prosecution.
- e) Any form of canvassing by a nominee shall lead to disqualification.
- f) The nominee must answer all the questions.

1. **Name:** (State full name)

*Cynthia Asafi Wechabe*  
.....

2. **Position:** (State office to which you have been nominated).

*Member, National Climate change council*  
.....

3. **Sex:**

*Female*

4. **Date of Birth:** (State year and place of birth)

*1987, Bungoma*

5. **Marital Status:**

*Single*

.....  
**6. Day time phone number:**

*0724961263*  
.....

**7. Mobile phone number:**

*0724961263*  
.....

**8. Email Address:**

*cwechabe@gmail.com*  
.....

**9. ID Number:**

*27482393*  
.....

**10. PIN Number:**

*A004907783R*  
.....

**11. Nationality:**

*Kenyan*  
.....

**12. Postal Address:**

*74908*

**13. Town/City:**

*Nairobi*

**14. Knowledge of Languages: (Specify Languages):**

*English and Kiswahili*

**15. Education:** (List, in reverse chronological order, each university, college, or any other institution of higher education attended and indicate, in respect of each, the dates of

attendance, academic award obtained, whether a degree was awarded, and the dates on which each such degree was awarded).

*2012- To date: Egerton University, Department of Peace, Security and Social Sciences  
Masters in Sociology (Community Development and Project Management)*

*2008 – 2011: University of Nairobi, Bachelor of Arts (Gender and Development Studies)*

**Employment Record:** (List in reverse chronological order all government agencies, business or professional corporations, companies, firms or other enterprises with which you have been affiliated as an officer, director, partner, proprietor, employee or consultant)

- *Indigenous Information Network-Programme Officer*
- *African Indigenous Women organizations –Coordinator*
- *Kenya Redcross society, Assistant Consultant*
- *Act transform-Kenya forest working and IIN –Techical Lead Officer*
- *Organization Of African Youths –Organizing secretary*
- *Neema Foundation –Assistant Programme fficer*

16. **Honours and Awards:** (List any scholarships, fellowships, honorary degrees, academic or professional honours, honorary society memberships, military awards and any other special recognition for outstanding service or achievement and in respect of each, state the date of award and the institution or organization that made the award).

17. **Professional Association** (where applicable): (List all professional associations of which you are or have a member and give any positions held and the respective dates when each such position was held).

Association of media women in Kenya

18. **Memberships:** (List all professional, business, fraternal, scholarly, civic, charitable or other organizations, (other than those listed in response to Question 16) to which you belong or have belonged).

- Member, National Civil Society Momentum Committee on UNFCCC
- Member, Kenya Forest Working Group,
- Member, AYICC-African Youth Initiative for climate change
- Member, Gender and Climate Change working Group
- Member, Organisation of African Youth (OAY) -Kenya chapter
- Member, Kenya Water and Sanitation network
- Member, Gender and Energy Network – Practical Action

19. **Published Writings:**

(a) List the titles, publishers and dates of books, articles, reports, letters to the editor, editorial pieces or other published materials you have authored or edited.

- *Indigenous information Network, Nomadic News, 2012*
- *Indigenous Information Network, Environmental News, 2011*

(b) Supply four (4) copies of any reports, memoranda or policy statements you prepared or contributed in the preparation of any bar association, committee, conference or organization of which you were a member.

20. **Public Office, Political Activities and Affiliations:**

(a) List chronologically any public offices you have held or are currently holding, including the terms of service and whether such positions were elected or appointed.

N/A

(b) List all memberships and offices held in and services rendered, whether compensated or not, to any political party or election committee. If you have ever held a position or played a role in a political campaign, identify the particulars of the campaign, including the candidate, dates of the campaign, your title and responsibilities. Also include any linkage you have to a political party at present.

N/A

(c) Have you ever been dismissed or otherwise removed from office for a contravention of the provisions of Article 75 of the Constitution?

No

(d) Have you ever been adversely associated with practices that depict bias, favouritism or nepotism in the discharge of public duties?

No

21. **Deferred Income/Future Benefits:** (List the sources, amounts and dates of all anticipated receipts from deferred income arrangements, stock, options, uncompleted contracts and other future benefits which you expect to derive from previous business relationships, professional services, firm memberships, etc).

N/A

22. **Outside commitment during service in office:** (Do you have any plans, commitments or agreements to pursue outside employment with or without compensation during your service in office? If so explain).

*Yes, I understand this is not a full-time appointment so I will continue to serve in my current organization as the Programme Officer*

23. **Sources of Income:** (List sources and amounts of all income received during the calendar year preceding your nomination and in the current calendar year).

2015: Act Change Transform! Changieni Rasli Mali Project: Gross 300,000 cumulative

2016: Indigenous Information Network: as Programme Officer; Gross 300,000 cumulative

24. **Tax Status:** (State whether you have fully complied with your tax obligations to the State up to the end of the financial year immediately preceding the nomination for appointment).

Yes, please find the certificate in the accompanying documents

25. **Statement of Net Worth:** (State you financial net worth).

*I earn a gross salary of Kshs. 25,000 and occasionally we raise funds through competitive bidding for Projects. Occasionally I represent IIN and other networks where I actively serve as a member in meetings where I earn some allowances.*

26. **Potential Conflicts of Interest:**

(a) Identify the family members or other persons, parties, categories obligation or financial arrangements that are likely to present potential conflicts-of-interest when you first assume the position to which you have been nominated. Explain how you would address any such conflict if it were to rise.

N/A

(b) Explain how you will resolve any potential conflict of interest, including the procedure you will follow in determining these areas of concern

N/A

.....  
27. **Pro-Bono/Charity Work/Donations to charity:** (Describe what you have done by way of pro bono or charity work, listing specific instances, the amount contributed and the amount of time devoted to each).

*First and foremost, the work I do at IIN cannot be described as employment. I consider myself a volunteer serving in the area I like most – working to uplift the livelihood of women, youth and the marginalized communities.*

*In addition to IIN, I also serve as the regional coordinator of the African Organisation of Indigenous Women (AIWO) which champions the interests of women from indigenous communities.*

*During my free time, I like visiting and identifying with the less fortunate in the society, like visiting and spending time in children's homes. I also have participated in activities to raise funds for the less fortunate.*

.....  
28. Have you ever been charged in a court or law in the last three years? If so, specify the nature of the charge, where the matter is ongoing, the present status of the matter, or where the matter is concluded, the judgment of the court, or otherwise, how the case was concluded.

No

.....  
29. Have you ever been adversely mentioned in an investigatory report of Parliament or any other Commission of inquiry in the last three years?

No

.....  
30. Have you any objection to the making of enquiries with your present employer/referees in the course of consideration of your nomination?

No

.....  
31. **References:** (List three persons who are not your relatives who are familiar with your character, qualification and work).

(b) Supply four (4) copies of any reports, memoranda or policy statements you prepared or contributed in the preparation of any bar association, committee, conference or organization of which you were a member.

**NOT APPLICABLE**

**21. Public Office, Political Activities and Affiliations:**

(a) List chronologically any public offices you have held or are currently holding, including the terms of service and whether such positions were elected or appointed.

**NOT APPLICABLE**

(b) List all memberships and offices held in and services rendered, whether compensated or not, to any political party or election committee. If you have ever held a position or played a role in a political campaign, identify the particulars of the campaign, including the candidate, dates of the campaign, your title and responsibilities. Also include any linkage you have to a political party at present.

**NOT APPLICABLE**

(b) Have you ever been dismissed or otherwise removed from office for a contravention of the provisions of Article 75 of the Constitution?

**NO**

(d) Have you ever been adversely associated with practices that depict bias, favouritism or nepotism in the discharge of public duties?

**NO**

22. **Deferred Income/Future Benefits:** (List the sources, amounts and dates of all anticipated receipts from deferred income arrangements, stock, options, uncompleted contracts and other future benefits which you expect to derive from previous business relationships, professional services, firm memberships, etc).

**DEFERRED INCOME FOR PROFESSIONAL SERVICES RENDERED ON THE POST-DOCTORAL PROGRAM AMOUNTING TO KSH TWO HUNDRED AND TEN THOUSANDS ONLY (210,000) ONLY**

23. **Outside commitment during service in office:** (Do you have any plans, commitments or agreements to pursue outside employment with or without compensation during your service in office? If so explain).

NO

24. **Sources of Income:** (List sources and amounts of all income received during the calendar year preceding your nomination and in the current calendar year).

TOTAL GROSS INCOME 2015	Ksh. 1,957,174
TOTAL GROSS INCOME 2016	Ksh. 1,920,000
POST-DOCTORAL 2016	Ksh. 570,000
CHUNA SACOO DIVIDENDS 2015	Ksh. 5,000

25. **Tax Status:** (State whether you have fully complied with your tax obligations to the State up to the end of the financial year immediately preceding the nomination for appointment).

**YES, I AM FULLY TAX COMPLIANT WITH MY TAX OBLIGATIONS TO THE STATE, PLEASE SEE MY KRA TAX COMPLIANCE CERTIFICATE**

26. **Statement of Net Worth:** (State your financial net worth).

A PERSONAL CAR WORTH	Ksh. 730,000
A 2 ACRES PIECE OF LAND IN RURAL KENYA	Ksh. 1,000,000

27. **Potential Conflicts of Interest:**

- (a) Identify the family members or other persons, parties, categories, obligations or financial arrangements that are likely to present potential conflicts-of-interest when you first assume the position to which you have been nominated. Explain how you would address any such conflict if it were to rise.

**In the event that a potential conflict occurs when first assume the position I would allow the complainant to table his allegation. I would give a chance for open discussion among myself and the parties. I would avoid personification i.e. negative feelings, attack, blame, defense, offence, misunderstandings, and distortions. I will try to apply negotiation (dialogue) and mediation by looking at both sides and wear a win-win attitude towards resolving the conflicts.**

(b) Explain how you will resolve any potential conflict of interest, including the procedure you will follow in determining these areas of concern:

I start by saying that conflicts are neither good nor bad but their constructive or destructive nature depends on how we tackle them. In the event of conflict, I would avoid;- yelling, refusing to change or compromise, refusing to work out the conflict, name calling, hitting, walking out and belittling. Instead would seek for dialogue, then negotiation to mediation and looking at both sides for a win-win situation. If the conflict persists I would seek for arbitration.

28. **Pro-Bono/Charity Work/Donations to charity:** (Describe what you have done by way of pro bono or charity work, listing specific instances, the amount contributed and the amount of time devoted to each).

**NOT APPLICABLE**

29. Have you ever been charged in a court or law in the last three years? If so, specify the nature of the charge, where the matter is ongoing, the present status of the matter, or where the matter is concluded, the judgment of the court, or otherwise, how the case was concluded.

**NO**

30. Have you ever been adversely mentioned in an investigatory report of Parliament or any other Commission of inquiry in the last three years?

**NO**

31. Have you any objection to the making of enquiries with your present employer/referees in the course of consideration of your nomination?

**NO OBJECTION**

32. **References:** (List three persons who are not your relatives who are familiar with your character, qualification and work).

**RE: MEMORANDUM ON PERSONS NOMINATED TO THE CLIMATE CHANGE COUNCIL**

Kenya Forests Working Group would like to convey its pleasure on the nomination of members to the Climate Change Council. This is in reference to our letter dated 15<sup>th</sup> November 2016, where we urged you to nominate women to the aforementioned Council in accordance with the Constitution of Kenya. The nomination meets the threshold of the two-thirds gender rule.

Pursuant to section 7 of the Climate Change Act, 2016. We thank H.E. Uhuru Kenyatta, President of the Republic of Kenya and the Cabinet Secretary, Judi Wakhungu for nominating the following suitable and qualified persons for appointment as Members of the Climate Change Council. This is *in reference to adverts appearing on Tuesday December 6, 2016 Nation (pg54) and Standard (Pg29) Newspapers:-*

1. Mr. Suresh Patel
2. Mr. John Kioli
3. Ms. Cynthia Wechabe
4. Dr. Jane Mutheu Mutune

On behalf of KFWG members in accordance with section 6(9) of the Public Appointments (Parliamentary Approval) Act, 2011. We therefore submit this as our statement on oath (Affidavit) to the two committees of Parliament to approve names of the above suitable and qualified person for appointment to the Climate Change Council.

- I. Departmental Committee on Environment & Natural Resources of the National Assembly.
- II. Standing Committee on Land & Natural Resources of the Senate

Once again, thank you, and we look forward to working with you in making our country a better place for every Kenyan.

Yours sincerely,

Jackson Bambo,  
National Coordinator,  
Kenya Forests Working Group (KFWG)

Dear Sir,

**REF: STATEMENT OF SURESH PATEL'S SUITABILITY TO SERVE AS A MEMBER OF THE CLIMATE CHANGE COUNCIL**

As a senior research scientist with the Environment Division of the Kenya Industrial Research and Development Institute (KIRDI), I am pleased to present to our national assembly a statement of Suresh Patel's suitability to serve as a member of the climate change council. As a representative of the private sector, Mr. Suresh Patel is a strong believer in the country's green growth agenda as spelled out in the Kenya Constitution 2010, the Climate Change Act (CCA) of 2016, the National Climate Change Action Plan (NCCAP) of 2013, the National Climate Change Response Strategy (NCCRS) of 2010, as well as the Green Economy Strategy and Implementation Plan (GESIP). He participated actively in the development of the above listed Government documents whose implementation will put the country on a green growth development trajectory that is characterized as being low carbon, resource efficient, and socially inclusive in terms of creating decent green jobs.

He is also a strong believer in the triple helix collaboration that seeks to strengthen University/ Research Institute - Industry - Government partnerships that are essential for promoting eco-innovations that will drive the country's green growth development pathway. Mr. Suresh Patel is well trained in contemporary tools of environmental management such as resource efficient cleaner production (RECP), energy efficiency and auditing, environmental auditing, greenhouse gas inventory development and sustainability reporting that will come in handy when offering policy advice to the country's green growth agenda.

Mr. Suresh Patel believes that the country's industrialization process as envisioned in Kenya Vision 2030 should embrace the adoption of green special economic zones (SEZs) and industrial parks (IPs). Such green industrial parks are those that embrace energy efficiency, water use efficiency, non-motorized and low carbon transport, waste minimization and management, as well as the adoption of renewable energy technologies such as solar, wind, and biomass. He believes that this can only happen if the country developed enabling rules and regulations that advance resource use efficiency. He is also a believer in voluntarism where for economic reasons, companies are motivated to meet and even exceed the set environmental standards. The success of voluntarism is based on business association development of voluntary codes of practice that member companies can subscribe to with technical support from a lead Government institution. His

contributions to how the climate change fund should be utilized will help strengthen the country's innovation ecosystem through enhanced triple helix collaboration.

With the aforesaid, I wish to strongly recommend the suitability of Mr. Suresh Patel to serve as a member of the Climate Change Council.

Thank You

Yours

#### MEMORANDUM ON THE NOMINATION OF MEMBERS OF THE CLIMATE CHANGE COUNCIL

Reference is made to the Public Notice appearing on page 54 of the Daily Nation dated Tuesday, 6<sup>th</sup> December, 2016 regarding the nomination of the members of the National Climate Change Council, Pursuant to Section 7 of the National Climate Change Act, 2016.

In the pursuit of their mandate and good practice exercised elsewhere where civil society representation is essential, various organisations actively engaged in climate change policy processes in Kenya conducted extensive consultations to discuss their role in National Climate Change Act 2016, after it was accented to by HE the President in May 2016. All through, the Cabinet Secretary for Environment and natural resources was duly updated on the process as the following chronology of events shows:

- (i) A meeting convened at PACJA bringing together key civil society organisations and coalitions actively engaged in the policy formulation processes met agreed to convene a larger meeting, which would deliberate and come up with criteria for nomination. This was also followed up by a letter of Notification on Civil Society Consultations to the Cabinet Secretary, Ministry of Environment and Natural Resources dated, 15<sup>th</sup> July, 2016 ( see the attachment).
- (ii) On 21<sup>st</sup> July, 2016, 34 Civil Society and Marginalized Groups representatives held a day-long meeting, which, among other things, elected a small committee to come up with criteria and also recommend nominees based on the criteria. The list of the committee that had representation from all sectors is attached.
- (iii) The committee concluded its mandate and two nominees were submitted to the Cabinet Secretary, Ministry of Environment and Natural Resources, who acknowledged receipt on 9<sup>th</sup> August, 2016
  - a. Mr. Charles Mwangi, Green Belt Movement to represent civil society
  - b. Ms. Cynthia Wechabe, from Indigenous Information Network to represent marginalized groups (youth, women, indigenous peoples and the disabled)
- (iv) The names of the two nominees were submitted to the Cabinet Secretary, Ministry of Environment and Natural Resources, who acknowledged receipt on 9<sup>th</sup> August, 2016.
- (v) On 6<sup>th</sup> December 2016, the Parliament of Kenya published four names of nominees to the National Climate Change Council, and invited interested members of the public representations by written statement that they may have on the suitability or otherwise of the said nominees.
- (vi) Following the acknowledgement of receipt of the mentioned documents by the Ministry of Environment on 9<sup>th</sup> August, 2016, and the very consultative process that selection was, we are surprised that the Civil Society nominee is missing from the list.

We therefore demand and submit that:-

(i) Failure to consider the Civil Society Nominee shall be in direct violation of Article 7 (2)g of the Climate Change Act 2016 establishing the Council. The letter and spirit of the Act is that the representative shall be from the most representative registered national umbrella organization working on climate change.

(ii) The process followed by Civil Society in determining the nominee was transparent, inclusive and verifiable, and we are convinced that it reflects the best possible level of representation of Civil Society that can be continually acceptable by the civil society constituency. We call upon the Committee to demand evidence of basis of nomination of the alternative nominee presented to it. To know what process was followed and who removed the name since we Civil Society did not advise the ministry on any changes of the submitted names and based on the fact that it's not the responsibility of the Ministry to select the Civil Society representatives in the Council

(iii) The spirit of the law is that the position of Civil Society representative is representative of a constituency with a degree of derivative and delegated accountability, and selection of an individual against the desires of the constituency will beat both the spirit and purpose of creation of the position.

We therefore call upon the National Assembly, and the Senate, through the departmental house committee to reject this nomination and demand that the letter and spirit of the law is abided by.

(iv) Parliamentary and Senate Committee working on this to stop the process and interrogate this issue.

**Signed on 6<sup>th</sup> December, 2016:**

5<sup>th</sup> August, 2016

Hon. Prof. Judi Wakhungu,  
Cabinet Secretary,  
Ministry of Environment & Natural Resources  
Nairobi  
Kenya

Received  
  
JANE - 4<sup>th</sup> Aug, 2016

Dear Prof. Wakhungu,

RE: Nomination of Civil Society and marginalized communities representatives to the National Climate Change Council under the Climate Change Act, 2016

With reference to our letter dated 15<sup>th</sup> July, 2016 on the nomination of civil society and marginalized communities representatives to the climate change council. we hereby inform you of the completion of the nomination process.

We have had a consultative and participatory process involving both civil society organizations and marginalized communities which commenced with a national CSO workshop on the 21<sup>st</sup> July, 2015. The national workshop constituted an 11 member committee to develop selection criteria and spearhead the nomination process. The committee developed a selection criteria guided by the Constitution of Kenya, 2010 and Article 7 (g) (h) of the Climate Change Act, 2016 and mapped out legible organizations.

National Civil Society Organizations met on 5<sup>th</sup> August, 2016 to finalize the process by selecting the two representatives. The meeting unanimously agreed on the following:

1. That Mr. Charles Mwangi from Green Belt Movement (GBM) represents CSOs in the Council in accordance with Article 7(g) of the Climate Change Act, 2016.
2. That Ms. Cynthia Wechabe from Indigenous Information Network (IIN) represents Marginalized Communities in accordance with Article 7(h) of the Climate Change Act, 2016.

Through this communication, we are anticipating that you will forward our duly selected nominees to the National Assembly for approval. Attached, kindly find documentation for the entire process.

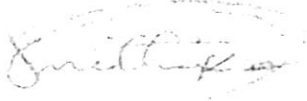

Yours Sincerely,

Samuel Kintu,

Executive Director

Mithika Mwendwa

Executive Director  
Pan-African Climate Justice Alliance

Julius Mbatia

Climate Change Coordinator  
Kenya Youth Climate Network

## **CSO REPRESENTATIVE SELECTION CRITERIA**

1. Civil Society Organization (CSO) representatives to the National Climate Change Council should be from established and legally registered, not-for-profit organizations working on climate change.
2. CSO organizations working on climate change issues for at least 5 years
3. Candidate organizations should demonstrate proven links with groups and networks at grassroots and national level
4. Individuals representing civil society organizations must demonstrate the capacity to communicate (in both English and Swahili) and negotiate effectively, ability to interact actively with CSO organizations and other stakeholders.
5. Individuals representing CSO organizations must be willing and committed to represent the concerns and interests of their constituency and report back on National Climate Change Council activities and programming.
6. Individuals who behold strong integrity standards, leadership abilities and high emotional intelligence as per Chapter 6 of the constitution.
7. Individuals with an expertise and experience in matters of climate change, economy, finance, law, environment and public administration and at least 10 years of experience in the relevant field

## 1.0 INTRODUCTION

In light of the Climate Change Act 2016 assented on 7<sup>th</sup> May 2016, Pan African Climate Justice Alliance (PACJA) in collaboration with Transparency International Kenya organized a national civil society workshop on 21<sup>st</sup> July 2016 at Panafric Hotel to discuss its implementation. The workshop brought together representatives of Civil Society Organizations with a bias towards climate change and related thematic areas of finance and governance, water, indigenous groups and agriculture.

The workshop sought to;

- Reflect on the Civil Society Organizations' contribution to the formulation of the national Climate Change Act 2016 and explore future opportunities to consolidate partnerships created during the process
- To deliberate the engagement in the implementation of the Climate Change Act 2016
- To discuss action agenda for the 22<sup>nd</sup> Conference of Parties to the United Nations Framework Convention on Climate Change (UNFCCC-COP 22)

## 2.0 WORKSHOP PROCEEDINGS

### 2.1 Introduction and opening remarks.

Mike Kittivo, Caritas – Kenya

The moderator, Mr. Mike Kittivo began by welcoming participants to the workshop. An opening prayer by Mr. Michael Asudi of Organization of African Youth marked the official commencement of the workshop. He recounted the journey by the CSOs lobbying for their inclusion in formulating the Climate Change Bill which began in 2009 and culminated into the signing of Climate Change Act 2016 officially gazetted as Climate Change Act number 11 Of 2016. After a round of introduction by participants, the moderator invited representatives of the Ministry of Environment and Natural Resources, Pan African Climate Justice Alliance and Transparency International Kenya to give their welcome remarks.

### 2.2 Welcome remarks from the civil society.

*Mithika Mwenda, Pan Africa Climate Justice Alliance*

As he welcomed the participants' for honouring the invitation to the workshop, he underscored the need for active participation in the implementation of the Act. He took the participants down the memory lane narrating how hectic the process that birthed the Act was.

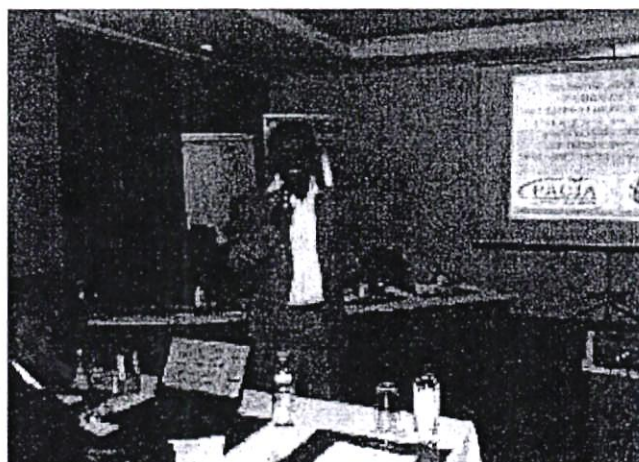

Figure 1 Mithika Mwenda giving opening remarks

He noted that the Civil Society played a catalytic role in delivery of the Act through commitment and working together adding that the role of PACJA was to bring all actors together.

Quoting some sections of the Act, he observed that there were opportunities for the civil society to be engaged in its implementation. He urged the participants to take advantage of the existing legal framework and push for a low carbon green economy in a consultative, inclusive and transparent manner.

## 2.3 Welcome remarks from Government

*Engineer Omedi, Ministry Of Environment and Natural Resources*

*Figure 2 Engineer Omedi giving opening remarks*

Engineer Omedi called for sobriety in identifying the representative of the CSOs to the National Council. Giving an example of his experience in a

similar situation elsewhere in the past, he opined that there is always room for all participants as the position will be rotational.

## 2.4 Welcome remarks from Transparency International Kenya

*Ms. Miriam Warui, Transparency International*

Ms Warui reiterated TI's commitment in the implementation of the Act and promised their continued support and collaboration with the civil society.

## 2.5 Overview of the national Climate Change Act, 2016

*Dr Joseph Kurauka, Lecturer Kenyatta University*

Before giving an overview of the Climate Change Act 2016, he made a brief introduction of the climate change phenomenon, its causes and effects.

He touched on greenhouse gases, greenhouse effect and effects of climate change giving relevant illustrations. He mentioned climate change was largely caused and driven by anthropogenic activities. These sources he added, were steel industries, power plants and vehicular emissions. Notable effects of

climate change, he observed, were compromised air quality particularly in industrial areas. Other impacts were felt on livelihoods due to prolonged drought, impacts on health and economy.

## 2.6 The National Climate Change Act 2016

According to the gazette notice, the Act was assented by the president on 6<sup>th</sup> May 2016 and commenced on 27<sup>th</sup> May 2016. He mentioned that the role of the Act is to provide for a legal and institutional framework for;

- Facilitating and enhancing response to climate change
- Guidance and measures to achieve low carbon climate resilience development
- Paving way for green and sustainable low carbon. This he observed had a potential to trigger a sustainable economic revolution.

He noted that the Act was important for both national and local governments. Subsection 2 of the Act touched on all sectors and opportunities for CSO engagement. This he elaborated as ;

- It provides incentives and obligations for low carbon development
- Build resilience and enhance capacities
- Mainstream climate change in planning and decision making and implementation
- Promote low carbon technologies
- Capacity development in terms of public participation, awareness creation, representation.
- Mobilize and transparently manage public funds for climate response.

Part II of the Act, details the membership of the council and duties of the directorate. The membership of the council comprises the president, his deputy, cabinet ministers in charge of national treasury, economic planning, environment and climate change matter, energy, representative of the council of governors, representatives from the academia, civil society, and marginalized groups.

The duties of the directorate include performing tasks set out in the Act including;

- a) Providing analytical support on climate change to the various sector ministries, agencies and county governments.
- b) Establishing and managing a national registry for appropriate mitigation actions by public and private entities.
- c) Serving as the national knowledge and information management centre for collating, verifying and refining and disseminating knowledge and information on climate change.

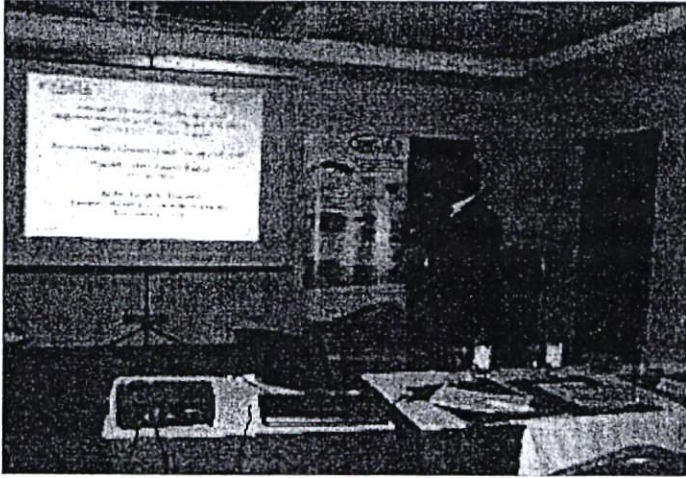

Figure 3 Dr Joseph Karauka presenting the Climate Change Act

Part III of the Act gives the climate change responses, measures and actions. In coming up with national climate change action plans, the Climate Change Act petitions the cabinet secretary in charge of environment to consult widely. He concluded that the council has a gigantic task of implementing the Act.

## 2.7 Plenary discussion1

Guided by the moderator, the plenary session presented an opportunity for participants to raise queries and concerns based on the presentation by Dr. Kurauka

### Questions raised were;

How harmonization of the Climate Change Act with other policy documents such as National Climate Change Response Strategy, National Action Plan, and Climate Smart Agriculture Framework will be put in place.

Another participant sought to know the timeline of putting the Act into perspective for meaningful engagement

Engagement of other groups other than those explicitly mentioned. There was emphasis on inclusion of persons with disability

Figure 5 participant taking part in discussion

Figure 4 A youth participant seeking clarification

## Responses

In addressing the queries above, Engineer Omedi said that there already efforts by the Ministry of Environment and Natural Resources to operationalize the Act. The national climate change action plan is being implemented. Most importantly, Vision 2030, Kenya's development blue print's medium term plan has incorporated climate change.

On timelines, The act will be updated every 5 years coincidentally same time frame as the action plan and Vision 2030 Medium Term Plan.

He reiterated that Kenya's priorities are clear on Adaptation and Energy, adding that the nationally determined contribution is ambitious in aiming at a reduction of greenhouse gas emissions by 30% compared to the business as usual option.

He concluded that there are time frames for implementation for the Act ,noting that preparations for the first council meeting due in august were underway.

## 2.8 SESSION 2

### 2.8.1 Discussion on civil society and indigenous groups representation in the Climate change council under the climate change act 2016

#### ***Cecilia Kibe, Kenya Women Climate Justice Champions***

She lent credence to the long held belief that women are affected by climate change disproportionately but they are not included in decision making.

Mrs Kibe noted that progress had been made in including women in decision making and in climate response programmes.

#### ***Nicholas Abuya, Christian Aid***

He commended the growth for PACJA as a leader in the voices of the vulnerable in matters relating to climate change. Stressing that Climate change is a defining issue of our time he lauded efforts to bring desirable changes in terms of policies. He observed that Part II of the Act details the structure to ensure operationalization of the Act, that is, the National council. He urged the CSO to seize the moment, organize themselves and act with urgency adding that it was an opportunity to influence decision making. Voicing his concern, he advised that the CSO should ensure whoever is nominated will truly represent the voices of the vulnerable.

Going forward, he said the CSO should have a clear action point on how to carry out our mandate. As he wound up he urged those present to read the Climate Change Act as it is written in a plain user friendly English language.

***Julius Karanja. Kenya Climate Youth Network***

Mr. Karanja gave perspective of young people. He noted that there are opportunities for the youth. These he observed were within Article 3 which touches on mainstreaming climate change responses which will in turn address unemployment, help in building resilience and capacity of the youth.

On the process of appointing a representative, he proposed a nomination criteria that encouraged a popular candidate which will be forwarded to the president for appointment and that the position should be rotational.

## 2.8.2 Selection criteria for CSO and indigenous groups' representation in the National Climate Change Council

### ***Cynthia Asafi, Indigenous Information Network***

Ms Asafi took the participants through the selection criteria. It had emerged that there had been a task force of volunteers charged with developing the selection criteria for the nominee to the national climate change council. Since the nominee will be in a leadership position, such traits were recommended in the draft guidelines; the individual should be Committed, Approachable and Represents the voices of the CSOs amongst other characteristics.

Within the criteria proposed and before referring to those provided for by the Act Cecilia observed that it was not clearly stated who nominates the representative. She said that those working on the Energy, water and climate change thematic groups should be consulted. Another factor to be considered in determining who is consulted is their contribution in the process of developing the Act, accredited and registered organizations.

The criteria set by the Act for the nominee was; the organizations that is most representative, a registered national umbrella organization and that works on climate change.

Mr Kioli of Kenya Climate Change Working Group opined that to avoid confusion on the extent of consultation with CSOs, CBOs and FBOs it should be limited to CSOs. He requested the Taskforce which had come up with the guidelines to nominate a representative to the National Climate Change Council.

### ***Charles Tonui, African Centre for Technology Studies***

Giving his general overview he asserted that the selected person must have a grasp of the pro-community initiatives, build on the strength of the existing network and have a management strategy.

There was a debate if the constitution of the committee to identify a CSO nominee to the council should be by interested parties. It was agreed that the Act was to be used for terms of reference and those not in the room should be consulted.

After deliberating whether the task force that produced the first draft should be disbanded or strengthened it was concluded that a new committee be formed. Those who served in the previous committee could also be co-opted into the new team. The following were proposed to sit into the committee that will look into the guidelines and nominate a representative to the council

No.	Organization	Thematic Area	Representative
1.	Kenya Climate Youth Network	Youth	Julius Karanja
2.	Kenya Climate Change Working Group	Climate Change	Jonah Marapash
3.	Pan African Climate Justice Alliance	Climate Change, Food Security	Robert Muthami
4.	Greenbelt Movement	Climate Change, Forests	Charles Mwangi
5.	Indigenous Information Network	Indigenous People	Cynthia Asafi

6.	Kenya Climate Governance and Finance Network	Climate Finance and Governance	Psamson Nzioki
7.	Climate Change Network of Kenya		Mike Kittivo
8.	Kenya Climate Justice Women Champions	Women	Mercy Kirigo
9.	Act Alliance	Faith Based Organizations	Nicholas Abuya
10.	Central Organization of Trade Unions	Trade Union	Rebecca Abongo
11.	Umande Trust	Farmers	Aidah Ibrahim

The team was promised logistical support to make their work easy in view of the urgency of the task at hand.

## 2.9 Closing remarks.

***Samson Ogallah, Pan African Climate Justice Alliance.***

Due to time constraints, “The road from Paris to Marrakech-strategy towards COP 22”, the last item on the agenda was not discussed. However, it was promised that another avenue will be sought to discuss the same.

As he gave his vote of thanks, Mr. Ogalla thanked all the participants for their invaluable inputs and making it to the workshop. He urged the committee to work in the best interest of Kenyans.

The workshop was concluded after a closing prayer.

**MINUTES OF THE CSO REPORT BACK AND CONSULTATIVE MEETING ON THE SELECTION OF CSOs AND MARGINALIZED GROUPS' REPRESENTATIVES IN THE NATIONAL CLIMATE CHANGE COUNCIL HELD AT THE PACJA SECRETARIAT BOARDROOM ON 5<sup>TH</sup> AUGUST 2016 AT 1057 AM.**

**MEMBERS PRESENT**

1. John samurai	Ogiek Peoples Development Programme (OPDP)
2. Lilian muchungi	Greenbelt Movement (GBM)
3. Brian Okoth	African Youth Initiative On Climate Change (AYICC)
4. Psamson Nzioki	Transparency International-Kenya (TI-K)
5. Robert Muthami	Pan African Climate Justice Alliance
6. Sabina Siankai	Indigenous Information Network
7. Michael Asudi	Organization of African Youth
8. Julius Karanja	Kenya Youth Climate Network
9. Dr. Nkule Laibuta	Umande Trust
10. Nicholas Abuya	Christian Aid
11. Michael Thiauri	Trocaire
12. Cynthia Wechabe	Indigenous Information Network

**AGENDA**

1. Introduction
2. Report back from the selection committee
3. Selection of the CSO and marginalized communities' nominee
4. Next action
5. AOB

**Preliminaries**

The meeting was chaired by Psamson Nzioki of Transparency International Kenya. An opening prayer by Dr. Nkule Laibuta marked the official opening of the meeting.

**Minute 1/05/08/2016: Introductions**

There was a round of introductions by members present after which the chair set the agenda of the meeting. He then invited members of the committee to give a report back of the select committee to nominate the CSO and marginalized communities' representatives to the Climate Change Council.

**Minute 2/05/08/2016: Report Back From the Selection Committee**

It was reported that the committee had two meetings, one on 26<sup>th</sup> July, 2016 and the next one on 28<sup>th</sup> July, 2016. In the first committee meeting, the TORs suggested at the previous meeting at

Panafrican Hotel were adopted, mapping of key organizations was conducted as informed by the Climate Change Act 2016 Article 7, 2 (g) and (h) as well as Article 7, 3., and the selection criteria developed; while in the second committee meeting the nominations were screened.

As part of the screening, it was reported that members had agreed to verify whether all the applicants met the initial qualifications which included; Legal registration with a proof of a registration Certificate, Years of Operation and Network members. Members had then summarized the information from the respective applications with respect to the minimal qualifications. More information can be found in Annex 1.

#### **Minute 3/05/08/2016: Selection of CSO and Marginalized Communities' Representatives**

It was reported that KCCWG withdrew from the selection committee to nominate a CSO representative. Based on the criteria formed by the committee and in relation to those set out in the Climate Change Act 2016, Greenbelt Movement represented by Mr. Charles Mwangi and Indigenous Information Network represented by Ms. Cynthia Wechabe were selected to represent CSOs and marginalized communities respectively in the National Climate Change Council. The two were unanimously endorsed.

#### **Minute 4/05/08/2016: Next Actions**

Members agreed that the next actions would be to send a letter to the Ministry of Environment and Natural Resources accompanied by documentation of the entire process in selecting civil society and marginalized communities in the National Climate Change Council

#### **Minute 5/05/08/2016: Any Other Business**

The meeting was also implored to keep the momentum even after the process is concluded. There being no any other business, the meeting was adjourned at 1220 PM.

15<sup>th</sup> July,2016

**Honourable Prof. Judi Wakhungu,  
Cabinet Secretary,  
Ministry of Environment,  
Natural Resources & Regional Authorities**

Dear Madam,

**RE: NATIONAL CIVIL SOCIETY REPRESENTATION IN THE NATIONAL CLIMATE CHANGE COUNCIL**

The Civil Society organisations working on various aspects of climate change in Kenya would like to express our appreciation to the ministry of Environment, Natural Resources and Regional Authorities in Kenya for the demonstrated partnership in the formulation of the Law to govern climate change responses.

Through this partnership, Kenya has been able to make tremendous progress in climate change policy formulation as well as development of national climate change response plans and programmes, including the Climate Change Act 2016, The National Climate Change Response Strategy, National Climate Change Action Plan, Draft National Climate Change Policy, Nationally Determined Contribution, as well as the Nation Adaptation Plan.

We wish also to express our profound gratitude to H.E Hon Uhuru Kenyatta, President of the Republic of Kenya, for signing into Law the Climate Change Act 2016, and affirming the government's commitment to integrate climate change into the National plans and strategies.

We are convinced that the continued partnership between the Government and the Civil Society accelerate the implementation of the climate change policies, plans and programmes hence enhancing the livelihoods of vulnerable communities in the ensuing transition to a low-carbon, climate resilient, green economy.

Taking cognizance of Articles 7(g) and (h) of the Climate Change Act, 2016 on the representation of civil society and indigenous peoples in the National Climate Change Council, we are pleased to inform you that we are in the process of consultation to agree on a suitable representative to the Council.

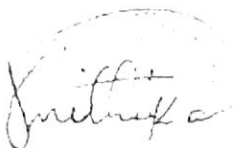

As part of this process, a consultative meeting bringing together CSOs and networks actively involved in climate change will be held on Thursday 21st July 2016, to, among other things, identify our role in the implementation and acceptable criteria for the selection of CSOs representatives.

The Secretariat of PACJA avails itself of this opportunity to renew to it the assurances of its highest consideration, and greatly appreciates your continued efforts to provide leadership in climate change discourses in Kenya and beyond.

We will keep you updated on the progress of our self-selection process, and definitely submit for consideration the CSOs representatives with the broadest mandate possible.

Thank-you very much for the continued cooperation.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'Mithika Mwenda', enclosed within a faint circular stamp or seal.

**Agenda**

- ❖ Adoption of the Previous Committee Meeting Minutes
- ❖ Matters arising from the Previous Meeting Minutes
- ❖ Screening the Applications for Nominations to the Climate Change Council
- ❖ Way forward
- ❖ AOB

**Min 1/28/07/2016: Adoption of the Previous Committee Meeting Minutes**

Members went through the minutes of the previous Committee meeting held at PACJA Secretariat offices on Tuesday, 26<sup>th</sup> July, 2016. The minutes were adopted without any amendments as confirmed by Ms. Cynthia Wechabe (IIN) and Seconded by Mr. Nkule Laibuta (Umande Trust)

**Min 2/28/07/2016: Matters arising from the Previous Meeting**

One of the committee members sought for clarifications on the definitions of a Network, Umbrella Network and Civil Society Organizations. Members provided clarifications on the different terminologies and the member was satisfied with the response. Without any other matter arising, members embarked on the Agenda of the day.

**Min 3/28/07/2016: Screening the Applications for Nominations to the Climate Change Council**

It was reported that 9 out of 15 organizations mapped out as potential nominees for CSO and Marginalized Groups representatives in the National Climate Change Council had already submitted their applications. Members agreed that the submitted number of the applications met the threshold for the committee to start the initial screening the applications with respect to its Terms of Reference. Members agreed to verify whether all the applicants met the initial qualifications which included; Legal registration with a prove of a registration Certificate, Years of Operation and Network members. Members then summarized the information from the respective applications with respect to the minimal qualifications. See Annex 1 for the summarized information with respect to the applications received by the committee from the mapped potential organizations for nominations.

**Min 4/28/07/2016: Way forward**

Members deliberated on the way forward as the next step of the committee was to report back to the rest of the CSO's as stipulated in the Terms of Reference for Committee, a mandate provided during the previous National CSO's workshop on the Implementation of the Climate Change Act, 2016 held at the Panafric Hotel on 21<sup>st</sup> July, 2016. A Representative from KCCWG pointed out that, the committee needed to submit the names to the Ministry of Environment and Natural Resources by Friday, 29<sup>th</sup> July, 2016 and therefore the Committee could go on with the selection of the CSO representative. Members rejected the proposal as they noted that the mandate of the committee was not to select a CSO representative but to report back to the rest of the CSO's for final selection as stipulated in the Terms of Reference.

KCCWG representatives noted that they were pulling out of the committee and they will convene their members to select a representative. Members did not agree on the next date for the CSO meeting to present the committee report

**Min 5/28/07/2016: AOB**

Without having any other business the meeting was adjourned at 13.30Hrs

**Agenda**

- ❖ Adoption of the Committees Terms of Reference (TOR)
- ❖ Development of Selection Criteria
- ❖ Mapping out CSO organizations for Nominations to the National Climate Change Council
- ❖ Way forward
- ❖ AOB

**Min 1/26/07/2016: Adoption of the Committees Terms of Reference (TOR)**

Members adopted a working TOR for the committee informed by the mandate of the committee as agreed during the National CSOs Workshop held on the 21<sup>st</sup> July, 2016 at the Panafric Hotel.

**Min 2/ 26/07/2016: Development of Selection Criteria**

Members developed and adopted selection criteria for CSO Selection in the National Climate Change Council informed by the Climate Change Act 2016 Article 7, 2 (g) and (h) as well as Article 7, 3.

**Min 3/26/07/2016: Mapping out CSO organizations for Nominations to the National Climate Change Council**

The committee mapped out CSOs that met the outlined conditions of the Climate Change Act as per section Article 7, 2 (g), a representative from the most representative registered national umbrella association Civil Society working on Climate change as well as Article 7,2(h) a representative of marginalized community. See Annex 1 for the Nominated Organizations

A list of CSOs meeting the above criteria was agreed upon. Additionally, committee members developed a template to be filled by the mapped out organizations requiring information on membership of the CSO, location, areas of work/thematic areas and nominee. Moreover, it was agreed that minutes in support of decision arriving at a particular nominee of the specific organizations should be provided to the committee with the filled template.

**Min 4/26/07/2016: Way forward**

An agreed road map to deliver on the committee's mandate was agreed upon. Members agreed that

- The selection criteria and CSOs template was to be shared out and feedback from CSOs received close of business 27<sup>th</sup> July 2016
- The next committee meeting was scheduled on the 28<sup>th</sup> July 2016 at PACJA offices starting at 10.00am to deliberate on the nominees from organizations based on the criteria; have names of legible nominees presented for voting at the National Climate Change Workshop to finalize the process.

**Min 5/26/07/2016: AOB**

Without having any other business the meeting was adjourned at 13.00Hrs

**Confirmed by: Cynthia Wechabe on 28<sup>th</sup> July, 2016**

**Seconded by: Nkule Laibuta on 28<sup>th</sup> July, 2016**

MEMORANDUM ON THE NOMINATION OF MEMBERS OF THE CLIMATE CHANGE COUNCIL

Reference is hereby made to the Public Notice published in the Daily Nation dated Tuesday, 6<sup>th</sup> December, 2016 calling for submission of memoranda on the nomination of the members of the National Climate Change Council, Pursuant to Section 7 of the National Climate Change Act, 2016.

Civil Society Organizations working on climate change issues in Kenya went through an elaborate process to identify their representative to the Council guided by the principles of transparency, accountability and participation articulated in the Constitution of Kenya, 2010 and the Climate Change Act. The process was well documented and the final outcome submitted to the Cabinet Secretary in the Ministry of Environment and Natural Resources being the Ministry in charge of climate change affairs for submission to the President for appointment and approval by the National Assembly. The two nominees from the process were:

1. Mr. Charles Mwangi from the Green Belt Movement representing the Civil Society and
2. Ms. Cynthia Wechabe from the Indigenous Information Network, representing the Marginalized Groups.

However, the names published in the notice do not reflect the outcome and wishes of the Civil Society Organizations. Civil Society Organizations working on climate change issues in Kenya were not consulted on the representative appearing in the published notice. Further, there is lack of clarity on the process through which the nominee was identified. Additionally, the organization from which the nominee appearing in the notice is affiliated with pulled out from the selection process spearheaded by CSOs.

Transparency International Kenya calls for a more transparent and participatory process in the selection of the CSO nominee to the Climate Change Council. Article 10 of the Constitution of Kenya, 2010 identifies the national values and principles of governance including transparency,

accountability and integrity. Part 5 of the Climate Change Act highlights the importance of public participation and consultation in decision making processes. These principles cannot be applied selectively. As a constituency and relevant stakeholder, Civil Society Organizations are best placed to identify who to represent them in the Council as envisaged in the Act.

We further call for disclosure on the process through which the civil society nominee appearing in the notice was arrived at and who was involved in the decision making process in the spirit of transparency and accountability. The reason for rejection and/or omission of the selected CSO representative presented to the Cabinet Secretary, Ministry of Environment and Natural resources should also be publicly disclosed.

Yours Sincerely,  
Samuel Kimeu

Executive Director  
Transparency International Kenya
