In processing the Bill, the Committee invited comments from the public by placing advertisements in the Daily Nation on Friday 6th July, 2018 pursuant to Article 118 of the Constitution. The Committee has since adopted the stakeholders' amendments for introduction into the Bill during the Committee Stage of the Bill.

In considering the Bill, the Committee noted that the Bill seeks to establish the Kenya National Accreditation Service as an internationally recognized and effective accreditation system. The Bill shall establish the Service as the sole recognized body for accreditation in Kenya. The Bill shall also repeal the Kenyan Accreditation Service Order, 2009, which was made under the State Corporations Act (Cap. 466 of the Law of Kenya). The Bill gives powers to the responsible Cabinet Secretary to make regulations; however, it does not limit fundamentals rights and freedoms. The Bill does not concern county governments in terms of Articles 110(1)(a) of the Constitution. The Bill is a money Bill for the purposes of Article 114 of the Constitution and that the enactment of the Bill will occasion additional expenditure of public funds as it seeks to set an Authority. Yearly surveillance audits prompt these organizations to continuously improve, implement and maintain their QMS'

In the field of passenger vehicle body construction, the following benefits have been realized by the sector

1 Order and sanity in the sector;

Through accreditation, KABM has been designated by NTSA to work with licensed bodybuilders to ensure effective implementation of KS372 standard on passenger vehicle body construction. This has brought immense benefit to the industry

The process requires physical audit of a body builders' facilities to establish if they have requisite capacity to demonstrate ability to produce quality bus bodies that are safe and comfortable for the public. We evaluate their capacity in terms of space, equipment, personnel, systems and controls to ensure they are capable of supporting bodybuilding process to required quality levels. This has caused bodybuilders to invest adequately in capacity building for sustainable quality of bus bodies

2 Level playing field for sector players; with an accredited CAB overseeing operations of the sector, unfair and unethical practices by some players who could undercut their competition on price but lower quality of bus bodies by lowering quality of material has been eliminated. Every bus has to be inspected by the CAB to ensure set standards are observed. Elimination of these malpractices has seen an upsurge of heavy investment by credible players in the field. Several massive facilities have been put up in the last year with a couple of others in the pipeline

3 Safe and comfortable buses for passengers and the public

Through accreditation, the bodybuilding sector has a formal platform for implementation of KS372 standard on passenger bus body construction. The standard, developed by input from the industry, is a noble effort by the Government to ensure that buses produced for our markets and beyond meet set safety standards.

Implementation of this standard has been a crucial milestone for the industry, a feat achieved through accreditation process.

4 Sustainable growth

The sector is upbeat about prospects for growth. Our inspection process provides for impartiality, independence and objectivity. It provides the sector with a firm basis for sustainable innovation and creativity with focus on environment, comfort and safety for passengers and the general public.

Therefore on behalf of the automotive sector, and in particular the passenger vehicle body manufacturing, its import that;

- i. The establishment of the Kenya Accreditation Service by an Act of parliament will go a long way in bolstering the service to further accelerate stability and growth and trade in our sector and other manufacturing sectors.

MIN. NO.199/DC-N/2018

PRELIMINARIES

The Chairperson called the meeting to order at 10.00 am and proceeded to say the prayer.

MIN. NO.100/DC-N/2018

CONSIDERATION OF THE KENYA
ACCREDITATION SERVICE BILL, 2018

The Committee analyzed the proposed amendments clause by clause and observed the following, that:-

Under Clause 2

The phrase “scope of the accreditation” may be abused by the service to limit the functions of a “conformity assessment body”.

The proposed definition “conformity assessment body” is too broad and likely to affect numerous entities.

Under Clause 7 (1)

There was need to provide that the designated representative shall be appointed in writing and to make provision for the following amendment—

- (i) inserting the words “registered” immediately after the word “one” appearing in paragraph (ii);
 - (ii) inserting the words “registered” immediately after the word “one” appearing in paragraph (iv);
 - (iii) inserting the words “nominated by the National Environmental Management Authority” immediately after the words “environmental science” appearing in paragraph (v); and
 - (iv) inserting the words “nominated by the Kenya Association of Manufacturers” immediately after the words “trade or manufacturing” appearing in paragraph (v);
-

Under Clause 9 (2)

There was need to provide for appointment of members of the Accreditation Committee through a competitive process.

Under Clause 21 (6)

There was need to provide for publication of the status in the gazette and two newspapers of national circulation.

General Observation

Kenya Accreditation Service (KENAS) is the only national accreditation body for Kenya that gives formal recognition that Certification Bodies (CBs), Inspection Bodies (IBs) and Laboratories (testing and calibration, medical, veterinary, pharmaceuticals, proficiency testing scheme providers) are competent to carry out specific conformity assessment tasks.

Committee Resolution

The Committee resolved to:-

1. To hold a public hearing for the Bill. This was due to the fact that it received only one response following the advert for call of memoranda placed in the major dailies.
2. To meet with the Kenya Accreditation Service on account of the provisions of clause 22, particularly the Accreditation Committee and the Appeals Tribunal.
3. To meet the Kenya Accreditation Service prior to proposing any amendment to clauses 10 and 11.

MIN. NO.101/DC-N/2018

ANY OTHER BUSINESS

The Committee resolved to undertake a report writing retreat in Mombasa from 11th to 14th October, 2018. Members were urged to purpose to attend so as to deal with the pending business before the Committee.

MIN. NO.102/DC-N/2018

MEMORANDUM ON INPUT TO THE KENYA ACCREDITATION

TO BE DISCUSSED DURING THE MEETING WITH THE
DEPARTMENTAL COMMITTEE ON TRADE, INDUSTRY AND
COOPERATIVES COMMITTEE-NATIONAL ASSEMBLY

PART II: Establishment, Powers and Functions of the Service

To include registration of personnel performing conformity assessment in the country and regulate consultancy and trainers (Standardized trainings).

(13) An eligible candidate for appointment for the position of Chief Executive Officer could as well be from the pool of serving public officers since there are lots of investments in them on capacity building and have a wealth of experience.

PART III- Board of Management of the Kenya Accreditation Services

1. In Section 7, qualification for Board membership left out e.g., fulfilment of Chapter Six of The Kenya Constitution requirements, be in good standing with respective professional body, experience in senior management positions, must not be an employee of the accrediting body.
2. Reference to members of the Board being selected on basis of being experts is vague. There is no prescription of how 'expertise' shall be determined. The following can be proposed:
 - i. Holds a degree in the relevant field from a university recognized in Kenya; or
 - ii. Has knowledge and at least ten years' experience in matters relating to either: -
 - iii. Include an expert Registered in Medical Laboratory practice to safeguard the interests of health care facilities.

This applies *mutatis mutandis* to the CEO, Accrediting Committee Members and Appeals Committee Members.

Details should be provided on qualification, appointment process and revocation/disqualification process.

3. The Governance Structure for the Service is not well enumerated, particularly on the powers held by the Board vs the Accrediting Committee, Accrediting Committee vs CEO, e.g. Having an Accrediting Committee appointed by the CEO and at the same time delegating powers to the CEO will pose governance challenges.
4. There is no mention of the other key staff of the Service.
5. The Bill lacks provisions on monitoring Conformity Assessment Bodies (CABs). This should be done by the Service as one of its functions. The Bill should also contain some mention on the qualifications/eligibility criteria for Conformity Assessment Bodies & reporting requirements to the Service, general guiding principles for CAB's in their operations, monitoring by CAB's, accreditations issued, costing of their services etc.
 - (a). The Bill should state in general terms the mandatory requirements which CABs must meet for initial and continuing registration. Regular monitoring by KENAS to ensure they are meeting the minimum requirements. Suspension/ De-registration and Re-registration of Suspended or Deregistered CABs.
 - (b). The need for KENAS Board to come up with more detailed Guidelines and Regulations (that must be gazetted) to be used in overseeing the registration, working and other issues to do with the CABs
6. Offences section is severely watered down.

7. (16) Protection of personal Liability-Board members should not be cushioned from liabilities because they make critical decisions that could affect interests of the Service either way.

PART IV- Accreditation

8. This process should have defined timelines from assessment to when feedback is given to the Auditee for bodies conducting conformity assessment.
9. **Accreditation Committee**
- a. Committee secretary and their appointment procedure is not captured. Alternatively, Secretariat services can be provided by the Service.
 - b. Second Schedule Paragraph 4; Meetings of the Accreditation Committee are to be held at the headquarters, approval to hold it outside the headquarters should be done by a person other than the Secretary of the committee e.g. the CEO or the Board Chair. (Apply *mutatis mutandis* to the Board meeting outside the headquarters and approval to be done by Cabinet Secretary)

 Subject: SUBMISSION OF MEMORANDA-KENAS Bill no 17 of 2018

Dear Sir,
 Please allow me to submit the memorandum below

1. In the introduction it should read "a bill for Kenya Accreditation service as sole public accreditation body"

This is based on the current issues bedeviling Kenya bureau of standards about the sugar contamination.

2. Part III under board composition and management

Item 7 section (1) subsection (d) clause (iv) it should read "one expert in medical laboratory " because as things stand today and into the future medical laboratory practice in this era of evidence based medicine has, continues to have a great role to play on provision of Quality universal health care.

We are dealing with life as far as matters health are concerned..

KENYA BUREAU OF STANDARDS MEMORANDUM ON KENYA ACCREDITATION SERVICE BILL, 2018

No	KENYA ACCREDITATION SERVICE BILL, 2018	RECOMMENDATION	COMMENTS
1.	Clause 3(b)- Objects of this Act	Delete " <i>sole body responsible for carrying out the accreditation</i> "	The decision of Conformity Assessment Body (CAB) to be accredited is voluntary. Limiting CAB to the Kenya Accreditation Service (Service) will affect the business of the CAB specifically where the Service lacks requisite competency. This provision will also limit the operations of the Service to boundaries of Kenya
2.	Clause 6a -Functions of the Service	Amend to read " <i>To assess for competence and accredit conformity assessment bodies</i> "	Assessment of competency is undertaken before accreditation
3.	Clause 6P- Functions of the Service	Delete "standards"	The development of Standards is solely the responsibility of the National Standards Body (KEBS). compare IAF/ILAC and ISO operation model
4.	Clause 6q- Functions of the Service	Reword to read " <i>To Advise government on designation of Conformity Assessment Bodies</i> "	The first part of the sentence under Clause 6q was moved to 6a
5.	Clause 6u- Functions of the Service	Delete " <i>Publish in the gazette</i> "	It is not clear what the quarterly gazettment is intended to achieve and the implications thereof. For instance is the CABs accreditation effective upon gazettment? if this is

			<p>so then it will have serious consequences on the operations of the CAB</p> <p>Conflicts with the principles of IAF/ILAC</p>
6.	Clause 7 Establishment	Delete word: ex officio	The CEO should be a <i>bona fide</i> member of the board.
7.	Clause 8& 9 Committees and Accreditation committees	Delete Specialist technical committees under 9(2)	<p>There is very little information on the composition and membership of the Accreditation committee there is need for this information in the bill as the Committee makes critical decisions</p> <p>There is need to define specialist technical committee (is it a committee of the board ?) if it is a committee of the board they cannot be appointed by the CEO</p>
8.	Clause 10 (4)	Delete 10(4)	If the Accreditation Committee is appointed by the CEO under 9(2) it is unprocedural for
			the same committee to delegate functions to the CEO
9.	Clause 13	Delete 13(2) d	It is impractical to preclude Public officers from applying for the position of the CEO and limits career growth within the Service

10	Clause 18 2(c)	Replace " <i>Conformity Assessment Body</i> " with " <i>Accreditation Committee</i> "	The Conformity Assessment Body is misplaced and should be replaced with Accreditation Committee
11	Clause 14(2)	Delete <i>Salaries and Remuneration Commission (SRC)</i> and replace with " <i>State Corporations Advisory Committee</i> "(SCAC)	The mandate to advise State corporations on staffing lies with SCAC under the State Corporations Act and not SRC
12	Clause 20	Include the Penalty	The bill identifies misuse of logo by an accredited CABs as an offence but does not include an offence for unaccredited CABs misusing the mark
13	Clause 23-25-Appeals Committee		The Appeals Committee is quasi – judicial and is adjudicating on decisions of the Accreditation committee then it should be appointed by an independent body and not the CEO The focus on costs is misguided as the focus should be remedial action
14	CLAUSE 28(2) c	Delete " <i>investor education and securities industry development</i> "	The clause is misplaced and does not relate to the functions of the Service
15	Clause 31 -General offence and Penalty	Offences and sanction based on contravention of specific clauses	Offences and sanction based on contravention of specific clauses
16	3 rd Schedule	Delete Proviso on evidence Act

1.0 BACKGROUND

The Departmental Committee on Trade, Industry and Cooperatives vide its letter Ref: NA/DCS/TIC/2018/36 dated 9th November, 2018 invited KRA for a meeting to deliberate on the Kenya Accreditation Service Bill.

KRA submits herein a memorandum on the Bill for consideration by the Committee as follows:

2.0 BENEFITS OF ACCREDITATION – (INSPECTION AND TESTING CENTRE)

Background on the KRA Inspection and Testing Centre

The purpose of the KRA Inspection and Testing Centre is to provide testing and technical advisory services for the purpose of supporting informed decisions concerning revenue collection and compliance with tax and customs legislation (including border enforcement).

The Inspection and Testing Centre was accredited as a testing laboratory upon satisfying the requirements of ISO/IEC 17025:2005 general requirements for the competence of testing and calibration laboratories on 8th July 2016.

The laboratory is accredited for the follows tests:

1. Determination of alcoholic beverages/denatured spirits by distillation
2. Polarization of sugar by Polarimetry
3. Saponification value of Fats and Oils by Titrimetric Method
4. Free Fatty acids in Fats and Oils by Titrimetric Method
5. Iodine Value in Fats and Oils by Titrimetric Method
6. Manganese content in Carbon Steel by Spectrophotometry
7. Aluminium content in Aluminium and Aluminium based alloy by Spectrophotometry.

Benefits of accreditation

- Laboratory gains international recognition for its commitment to quality, competency and reliable results
- Accreditation signifies that the laboratory complies with internationally recognized standard, thus easing the global exchange of valuable information pertaining to Customs Classification of trade commodities.
- Accreditation is an objective way to assure customers that the lab has demonstrated technical competence to provide reliable and accurate results.
- Accreditation is objective because an independent, third party accreditation body performs annual assessments to verify whether the system is meeting all requirements of an International Standard. This independent evaluation is important to the customer, because it is an unbiased guarantee that the lab is performing at its highest level.
- Accreditation sets the lab apart from its competitors. International Standards are an ideal management system model for labs because it aims to control quality costs, improve measurement accuracy and guarantee consistency of results.

KENYA REVENUE AUTHORITY

ISO 9001:2015 CERTIFIED

- Accreditation ensures that required quality levels are met and that customers' needs are satisfied. This in turn is a powerful strategic tool.
- Any lab achieving accreditation to International Standards, is presented with a certificate of accreditation which can in turn be used in advertising, promotional literature and stationary to show current and potential customers that the lab is committed to quality and has demonstrated technical competency to perform services.

3.0 IMPLEMENTATION CHALLENGES

- The cost of accreditation is dependent on the number of tests the laboratory chooses to have accredited
- Maintenance of accreditation status requires payment of annual subscription to accreditation body (KENAS).
- Accredited laboratories are expected to demonstrate their competency in tests by participating in Proficiency Testing Schemes, this requires payment of participation fees.
- Planned consistent and progressive training of staff to demonstrate competency in running and operations of specialized equipment and application of test methods

4.0 COMMENTS ON THE PROPOSED KENYA ACCREDITATION SERVICE BILL

Part	Clause	Proposal	Rationale
Part II – Establishment, Power and Functions of the Service	Section 4 clause (3) d, states that the Service shall be capable of – “Borrowing and lending money” .	We propose that the words “lending of money” be expunged from clause (3) d and to read “Borrowing of money” .	The function of lending money is not a core activity of the Service. The function of the Service is to provide accreditation services and NOT lending of money which is a banking services.

5.0 CONCLUSION

Accreditation to International Standards is a valuable tool that is associated with an efficient management system, improved services, fewer customer complaints and a strong competitive edge.

With the amendment proposed above, KRA supports the Kenya Accreditation Services Bill, 2018.
