project			Green Climate Fund; and the Ministry of Environment
			and Forestry, the Line ministry of the Accredited Entity,
			NEMA.
Project number			KEN-PPF-010

Annual Report and Financial Statements for the financial year ended June 30, 2023

Strategic goals of the project	The Project Preparation Support from the GCF aims to develop a funding proposal of the concept note titled 'devolved climate change governance to strengthen resilience of communities in target counties: Tharaka Nithi. Isiolo, Baringo and Narok."  The proposed project seeks to build community resilience to climate shocks by enabling direct access to climate finance at the local level. To enhance the resilience and adaptive capacity of vulnerable communities to climate shocks in targeted Counties, under a devolved governance structure.
Specific goals of the project	1. Build community resilience to climate shocks in
project	Tharaka , Isiolo , Baringo and Narok
	2. Enable Community access climate finance at the local level
Summary of overall project performance	• The Project was initially for a duration of one year from 26 <sup>th</sup> June 2019 to 26 <sup>th</sup> October 2020 with an approved budget of USD <b>371,200</b> equivalent to Kshs. 36,841,207. In 2019/2020 the authority spent Kshs 733,609 at an absorption rate of 2.11%. The low absorption rate was occasioned by the emergence of COVID 19. In 202/2021, the authority spent Kshs 2,877,553 against a budget of Kshs 34,265,538 with an absorption rate of 8.4%. In 2021/22 Financial Year the authority spent Kshs 4,647,291 agains a budget of Kshs 31,387,985 with

Annual Report and Financial Statements for the financial year ended June 30, 2023

31,387,985 with an absorption rate of 14.8% while in 2022/23 Financial year, the authority spent Kshs 1,540,000 against a budget of Kshs 26,740,694 with an absorption rate 5.8% Cumulatively the Authority has spent 9,798,453 representing absorption rate of 28% overally

The Project Preparation support is aimed at developing the concept note further into a full proposal and also in undertaking the various studies /activities required in finalization of the proposal that include:

- i. Identification and selection of priority adaptation investments in targeted counties through extensive stakeholder consultations
- ii. Undertaking the required engineering studies and technical assessments to design the identified adaptation investments
- iii. Identification and capacity assessment of potential implementing partners at the local-level
- iv. Undertaking the required studies and plans for the Funding Proposal including a feasibility study; environmental and Social impact assessment (ESIA) and associated Environmental Management Plan (EMP), gender analysis and gender action plan; and financial model and economic analysis
- v. Submission of the full proposal and associated annexes to GCF

Physical progress based on outputs, outcomes and impacts since project commencement

Activity 1
Stakeholder consultations (needed to scope adaptation investments and narrow geographic targets): workshops at National, county, and community level

Annual Report and Financial Statements for the financial year ended June 30, 2023

- 4 stakeholders' meetings held in Narok, Baringo, Isiolo and Tharaka Nithi to identify adaptation investments to be supported by the project per county
- Follow up joint meeting held with County technical teams to prioritize the adaptation assets identified by stakeholders. Preliminary proposed Adaptation investments and sites prioritised

# Activity 2

Comprehensive feasibility study of the project drafted—including financial model and economic analysis.

- Contract entered between NEMA and MA to undertake feasibility studies. Contract issues arose and contract expired on its own.
- NEMA entered into partnership with Jomo Kenyatta University of Agriculture and Technology (JKUAT) to provide technical expertise in the development of the highly technical feasibility study
- Preliminary proposed Adaptation investments and potential sites prioritised upon which feasibility studies shall be based.
- Inception report submitted by JKUAT and approved for the consultancy to Undertake Project Feasibility Studies in line with GCF Requirements

# Activity 3

Due-diligence and capacity assessment of potential implementing entities

- Contract awarded to Earth care Itd
- Preliminary Report on Due Diligence and Capacity Assessment of Potential Implementing Entities; and Development of Mechanism for Partnering with Local NGOs, Civil Society, and County Governments, submitted for review and approved

Annual Report and Financial Statements for the financial year ended June 30, 2023

- Further consultations pending identification of actual sites to be informed by the feasibility studies

# Activity 4

# Development of mechanism for partnering with local NGOs, Civil Society, and County Governments

- Preliminary Report on Due Diligence and Capacity Assessment of Potential Implementing Entities; and Development of Mechanism for Partnering with Local NGOs, Civil Society, and County Governments, submitted for review and approved
- Further consultations pending identification of actual sites to be informed by the feasibility studies

# Activity 5

Environmental, social, and gender studies Subactivity 5: Preparation of Environmental Social Impact Assessment (ESIA) and associated Environmental and Social management plan including Hydrological Survey

- Draft Environmental and Social Management Framework (ESMF) submitted for review and approved
- Further consultations pending identification of actual sites to be informed by the feasibility studies

#### Activity 6

# Preparation of Gender Analysis and associated Gender Action Plan

- Draft Gender Analysis and Action Plan submitted for review and approved

#### Activity 7

#### Draft funding proposal and associated annexes

- 1st Draft of the funding proposal submitted based on the information so far collected and analysis done; submitted for review

Annual Report and Financial Statements for the financial year ended June 30, 2023

Pending

- Further stakeholder consultations on the funding proposal
- Incorporation of the feasibility study findings in the funding proposal
- Validation of the funding proposal

During the reporting period (2022-2023 FY) the KEN-PPF-010 -NEMA - "Devolved climate change governance to strengthen resilience of communities' in target counties", achieved the following:

- The 4<sup>th</sup> No Cost Extension was granted in March 2023, the amended project completion date is 25 November 2024.
- Three consultancies contracted, and with ongoing assignment as below;
  - Development of Environmental and Social Management Framework; Gender Analysis and Associated Gender Action Plan
  - Due Diligence and Capacity Assessment of Potential Implementing Entities; And Development of Mechanism for Partnering with Local NGOs, Civil Society, and County Governments.
  - Development A Green Climate Funding Proposal in line with GCF Requirements
- NEMA has entered into a partnership with Jomo Kenyatta University of Agriculture and Technology (JKUAT) through a government-to-government engagement process to provide technical expertise in the Undertaking of Project Feasibility Studies in line with GCF Requirements
- JKUAT have submitted the draft inception report review.

Annual Report and Financial Statements for the financial year ended June 30, 2023

# Implementation Challenges

- 1. The project has had significant delays in the implementation of project activities due to the long process of approval of the requested No Cost Extension that was initiated in May 2022 and approved in March 2023.
- 2. The Consultancy on feasibility studies has had a time lag due to some contract administration issues between NEMA and the Consultant. The said contract with MA consultants has since expired. The matter has been addressed by establishing a partnership with Jomo Kenyatta University of Agriculture and Technology (JKUAT) to provide technical expertise in the development of the feasibility study within the provided timelines.

# Other important background information of the project

NEMA as a Direct Access Entity is responsible to lead the implementation of the PPF grant. NEMA will be responsible for the overall management and supervision of each of the funded activity areas in line with its own internal rules, policies and procedures. Specifically, NEMA will be responsible for the administration of the grant in accordance with GCF's Operational Polices and Guidelines as well as NEMA's own standards and procedures

NEMA will also manage the day-to-day execution of the activities outlined in the PPF. This includes developing all relevant terms of reference, procuring the services required, selecting appropriate firms and/or consultants, supervising and monitoring the contracting of firms and consultants, providing inputs and support to firms and consultants to ensure quality results and the completion of all activities in a timely manner.

The project will focus on interventions in the water sector through targeted investments. The Preparation support will be used to finance:

(i) The identification and selection of priority

Annual Report and Financial Statements for the financial year ended June 30, 2023

	adaptation investments in targeted counties through extensive stakeholder consultations;  (ii) The required engineering studies and technical assessments to design the identified adaptation investments;  (iii) The identification and capacity assessment of potential implementing partners at the local-level; and  (iv) The required studies and plans for the Funding Proposal including – a feasibility study; environmental and impact assessment (ESIA) and associated Environmental Management Plan (EMP), gender analysis and gender action plan; and financial model and economic analysis.
Areas that the project was formed to intervene	The adverse impacts of climate change have led Kenya to enact an overarching Climate Change Act (2016), which puts into place structures to coordinate climate change activities from the national to the county levels. County governments remain key agents in bringing transformation of communities to enhance their resilience and ensure sustainable development. Still, vulnerability to climate change is quite high and will require a systematic process to reduce the impacts of climate change. This project develops a proposal for the target counties aimed at building community resilience to climate shocks by enabling direct access to climate finance at the sub-national level (county).
Project duration	The Project was initially for a duration of one year from 26th June 2019 to 26th October 2020 with an approved budget of USD 371,200 equivalent to Kshs. 36,841,207.

Annual Report and Financial Statements for the financial year ended June 30, 2023

However, due to COVID-19 pandemic, the donor granted a no cost extension to February 2022. An additional no cost extension of 14 months to February 2024 was sought

Annual Report and Financial Statements for the financial year ended June 30, 2023

#### Project information and overall performance (continued)

### 2.8 | Summary of Overall Project Performance:

- i) Budget performance against actual amounts for year and for cumulative to date

  The Project was initially for a duration of one year from 26<sup>th</sup> June 2019 to 26<sup>th</sup>

  October 2020 with an approved budget of USD 371,200 equivalent to Kshs.

  36,841,207. In 2019/2020 the authority spent Kshs 733,609 at an absorption rate of 2.11%. The low absorption rate was occasioned by the emergence of COVID 19. In 202/2021, the authority spent Kshs 2,877,553 against a budget of Kshs 34,265,538 with an absorption rate of 8.4%. In 2021/22 Financial Year the authority spent Kshs 4,647,291 agains a budget of Kshs 31,387,985 with an absorption rate of 14.8% while in 2022/23 Financial year, the authority spent Kshs 1,540,000 against a budget of Kshs 26,740,694 with an absorption rate 5.8% Cumulatively the Authority has spent 9,798,453 representing absorption rate of 28% overally
- ii) Physical progress on outputs, outcomes, and impacts since project commencement.

#### Output1

Stakeholder consultations (needed to scope adaptation investments and narrow geographic targets): workshops at National, county, and community level

- 4 stakeholders' meetings held in Narok, Baringo, Isiolo and Tharaka Nithi to identify adaptation investments to be supported by the project per county
- Follow up joint meeting held with County technical teams to prioritize the adaptation assets identified by stakeholders. Preliminary proposed Adaptation investments and sites prioritised

#### Output 2

Comprehensive feasibility study of the project drafted—including financial model and economic analysis.

- Contract entered between NEMA and MA to undertake feasibility studies. Contract issues arose and contract expired on its own.
- NEMA entered into partnership with Jomo Kenyatta University of Agriculture and Technology (JKUAT) to provide technical expertise in the development of the highly technical feasibility study
- Preliminary proposed Adaptation investments and potential sites prioritised upon which feasibility studies shall be based.

Annual Report and Financial Statements for the financial year ended June 30, 2023

 Inception report submitted by JKUAT and approved for the consultancy to Undertake Project Feasibility Studies in line with GCF Requirements

#### Output 3

Due-diligence and capacity assessment of potential implementing entities

- Contract awarded to Earth care ltd
- Preliminary Report on Due Diligence and Capacity Assessment of Potential Implementing Entities; and Development of Mechanism for Partnering with Local NGOs, Civil Society, and County Governments, submitted for review and approved
- Further consultations pending identification of actual sites to be informed by the feasibility studies

#### Output 4

Development of mechanism for partnering with local NGOs, Civil Society, and County Governments

- Preliminary Report on Due Diligence and Capacity Assessment of Potential Implementing Entities; and Development of Mechanism for Partnering with Local NGOs, Civil Society, and County Governments, submitted for review and approved
- Further consultations pending identification of actual sites to be informed by the feasibility studies

#### Output 5

Environmental, social, and gender studies Sub-activity 5: Preparation of Environmental Social Impact Assessment (ESIA) and associated Environmental and Social management plan including Hydrological Survey

- Draft Environmental and Social Management Framework (ESMF) submitted for review and approved
- Further consultations pending identification of actual sites to be informed by the feasibility studies

#### Output 6

Preparation of Gender Analysis and associated Gender Action Plan

- Draft Gender Analysis and Action Plan submitted for review and approved

#### Output 7

Draft funding proposal and associated annexes

- lst Draft of the funding proposal submitted based on the information so far collected and analysis done; submitted for review Pending
- Further stakeholder consultations on the funding proposal

Annual Report and Financial Statements for the financial year ended June 30, 2023

- Incorporation of the feasibility study findings in the funding proposal
   Validation of the funding proposal
- During the reporting period (2022-2023 FY) the KEN-PPF-010 -NEMA "Devolved climate change governance to strengthen resilience of communities" in target counties", achieved the following:
  - The 4<sup>th</sup> No Cost Extension was granted in March 2023, the amended project completion date is 25 November 2024.
  - Three consultancies contracted, and with ongoing assignment as below;
    - Development of Environmental and Social Management Framework;
       Gender Analysis and Associated Gender Action Plan
    - Due Diligence and Capacity Assessment of Potential Implementing Entities; And Development of Mechanism for Partnering with Local NGOs, Civil Society, and County Governments.
    - Development A Green Climate Funding Proposal in line with GCF Requirements
  - NEMA has entered into a partnership with Jomo Kenyatta University of Agriculture and Technology (JKUAT) through a government-to-government engagement process to provide technical expertise in the Undertaking of Project Feasibility Studies in line with GCF Requirements
  - IKUAT have submitted the draft inception report review.
  - 1 stakeholder workshop conducted for the prioritization of the proposed adaptation investments for the GCF proposal for the 4 target counties in May 2023 i.e., Narok, Tharaka Nithi, Baringo and Isiolo
- iii) Absorption rate for each year since the commencement of the project
- . In 2019/2020 the authority spent Kshs 733,609 at an absorption rate of 2.11%. The low absorption rate was occasioned by the emergence of COVID 19. In 202/2021, the authority spent Kshs 2,877,553 against a budget of Kshs 34,265,538 with an absorption rate of 8.4%. In 2021/22 Financial Year the authority spent Kshs 4,647,291 agains a budget of Kshs 31,387,985 with an absorption rate of 14.8% while in 2022/23

Annual Report and Financial Statements for the financial year ended June 30, 2023

Financial year, the authority spent Kshs 1,540,000 against a budget of Kshs 26,740,694 with an absorption rate 5.8%

iv)Implementation challenges

The formalization of the government to government partnership between Jomo Kenyatta University of Agriculture and Technology (JKUAT) to provide technical expertise in the Undertaking of Project Feasibility Studies in line with GCF Requirements is under approval process. The lengthy process has delayed commencement of field activities. The process is now completed and the field studies are due to commence in September 2023.

Stakeholder
consultations (needed
to
scope adaptation
investments and
narrow
geographic targets):
workshops at
National, county,
and community level

- Initial Consultations with the proposed executing entity, the National Drought Management Authority (NDMA) have been held.
- Identification and Mobilization of relevant stakeholders has been done for the 4 Counties.
- Four stakeholder workshops have been conducted in the target counties between the period of May and June 2021.
- Preliminary Adaptation investment priorities and sites have been identified during the stakeholder workshops and consultations i.e. Water resources management, Livelihoods (pastoralism, Agriculture, food security)

Further stakeholder engagements will take place during the data collection stage.

es. A national workshop is scheduled to take place on completion of the draft final reports.

### a. Challenges

• The formalization of the government to government partnership between Jomo Kenyatta University of Agriculture and Technology (JKUAT) to provide technical expertise in the Undertaking of Project Feasibility Studies in line with GCF Requirements is under approval process. The lengthy process has delayed commencement of field activities. The process is now completed and the field studies are due to commence in September 2023.

#### b. Reporting

NEMA has since submitted 3 interim project progress reports on the 26
January 2020, 15<sup>th</sup> December 2020 and 25 July 2021 respectively. The next
report is due in August 2023. The gap in the reporting was due to the delayed

Nema-GCF Project Preparation Facility: "Devolved Climate Change Governance to Strengthen Resilience of Communities' in Target Counties"

Annual Report and Financial Statements for the financial year ended June 30, 2023

### c. Mitigation

 To avoid further loss of time, NEMA engaged Jomo Kenyatta University of Agriculture and Technology (JKUAT) to undertake the assignment on Feasibility study of the project through a government to government procurement process.

# 2.9 Summary of Project Compliance:

The GCF bank account was not been opened when the project started. This necessitated into using Adaptation Fund project bank account.

This also led to comingling of the donor funds with other project funds

The National Treasury has since granted the authority to open a GCF Bank account
with Kenya Commercial Bank, Gateway Branch

# 3. Statement of Performance against Project's Predetermined Objectives Introduction

The GCF Project Preparation Facility: "Devolved Climate Change Governance to Strengthen Resilience of Communities' in Target Counties" key distinct development objective is to build a devolved governance structure for Kenya to enable vulnerable communities' greater ownership and access to climate finance for adaptation investments to build resilience and adaptive capacity to climate change.

# Progress on attainment of strategic development objectives

For purposes of implementing and cascading the above development objectives to specific sectors, all the development objectives were made specific, measurable, achievable, realistic and time-bound (SMART) and converted into

Nema-GCF Project Preparation Facility: "Devolved Climate Change Governance to Strengthen Resilience of Communities' in Target Counties"

Annual Report and Financial Statements for the financial year ended June 30, 2023

development outcomes. Attendant indicators were identified for reasons of tracking progress and performance measurement.

Nema-GCF Project Preparation Facility: "Devolved Climate Change Governance to Strengthen Resilience of

Communities' in Target Counties"

Annual Report and Financial Statements for the financial year ended June 30, 2023

Below we provide the progress on attaining the stated objectives:

Project	Objective	Outcome	Indicator	Performance
GCF Project Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties	1. To build a devolved governance structure for Kenya to enable vulnerable communities' greater ownership and access to climate finance for adaptation investments to build resilience and adaptive capacity to climate change. Annual Report and Financial Statements for the financial year ended June 30, 2023

### 4. Environmental and Sustainability reporting

The National Environment Management Authority (NEMA) is the principal instrument of Government for the implementation of all policies relating to environment. Below is an outline of the organisation's policies and activities that promote sustainability.

# 1. Sustainability strategy and profile

The Constitution of Republic of Kenya has elevated right to clean environment as a basic human right. Delivery of Environment services is the core mandate of NEMA, and more so efficient and effective delivery of Environmental services. NEMA operates within the environmental principles as enshrined in EMCA No.8 of 1999, such as the principles of Environmental sustainability, precautionary principle, polluter pay principle and the Principle of public participation. The Authority, in its Sustainability Policy has identified twelve key sectors within and external to the Authority that requires major focus in order to attain mainstreaming of environmental sustainability in NEMA operations. The sectors includes: Transport sector, Procurement and tender of services, Procurement of equipment, Disposal of NEMA assets, Energy supply and use, Water supply and use, Waste Disposal, Climate change and carbon footprints, Guidelines and regulations, ISO Standard operating procedures, Management systems and Staff attitude, both for NEMA staff and regulated organizations.

#### 2. Environmental performance

The Authority has an Environmental Sustainability Policy that informs mainstreaming of Environmental and Climate Change in NEMA operations, internally as well as externally with its client.

#### **Policy Objectives**

Guide NEMA in mainstreaming Environmental sustainability into its operations

Annual Report and Financial Statements for the financial year ended June 30, 2023

- Customize internal operation of the Authority in order to reduce its Carbon footprints and to contribute to greening NEMA.
- Assist NEMA to mobilize its departments to review their ISO standards operating procedures (SOP), tools and instruments and introduce elements that enhances environmental sustainability and climate change compliant
- Assist NEMA to examine their tools, instruments of engagement with the partners, stakeholders and regulated constituencies in order to integrate aspects that demonstrate environmental sustainability and climate change compliance

The Kenya National Environmental Performance Index (KEPI) is one of the Authority's success stories in environmental sustainability. KEPI is a new environmental management frontier championed by the National Environment Management Authority (NEMA) to lead to further creation of opportunities in environmental management knowledge, skills and experience at National and County levels. This report presents the baseline results for the KEPI and County EPIs'. The report was developed in close consultation with the line ministries, government departments, government agencies, County officers and private sector institutions.

#### Purpose and Objectives of the KEPI

The EPI provides a tool for continually assessing progress towards established targets for priority setting and potentially for resource allocation. This tool assists the MDAs and line ministries to lobby decision makers for appropriate resource allocation in underperforming areas. Other objectives of the EPI are to:

- 1. Be part of a knowledge management system aimed to inform future policy and programming, thereby contributing to the promotion of policy dialogue
- 2. Acts as a tool for enhancing compliance and enforcement

Annual Report and Financial Statements for the financial year ended June 30, 2023

- Assist in building collaborative partnerships between the public and the private sector
- 4. Act as a supportive tool for capacity development

The KEPI also evaluated all the 47 counties based on County indicators agreed upon with stakeholders.

Other milestones the Authority has made in environmental sustainability include;

- Reviewing of EMCA, 1999 so as to strengthen the regulatory framework for Environmental Management,
- 2. Implementation on the Ban of single use plastic bag
- 3. Green points design and construction incorporated aspects such as rainwater harvesting, wastewater recycling technologies, low energy consumption, among other features in order to practically interpret the green economy concept in our context here in Kenya.
- 4. Development of environmental sustainability curriculum for internal and external clients training
- 5. Implementation of the pollution control strategy for Nairobi River Basin

#### Challenges

Issues of environmental management in Kenya such as air pollution, climate change impacts, water pollution, biodiversity loss, poor waste management, invasive species, deforestation, encroachment of riparian reserves and wetland ecosystems, poor land use planning and limited knowledge on environmental protection continue to pose a big challenge to the authority's mandate. Nationally, resource allocation for environment sector is a key inhibiting factor for effective management of environment.

Annual Report and Financial Statements for the financial year ended June 30, 2023

### 3. Employee welfare

NEMA has human resource policies and procedures manual which guides on the recruitment process from vacancy identification to new hire induction. The policy takes into account the gender, women and disability considerations. On careers, we have a progressive career guideline. Annual staff performance appraisals are conducted and rewards and sanctions determined. Capacity building of staff is through formal and on job trainings. NEMA is working on safety policy which will be in compliance with Occupational Safety and Health Act of 2007, (OSHA)

### 4. Market place practices-

### a) Responsible Supply chain and supplier relations-

The project ensures all procurement activities are carried out in accordance with the Government of Kenya public procurement law and regulations. The Authority (NEMA) adheres to the Presidential directive on Access to Government Procurement Opportunities (AGPO) which ensures youth, women and people living with disabilities as individuals or in organized groups benefit. The Authority also submitted to PPRA a summary of procurements allocated to the target group in the format provided in the PPRA website, www.tenders.go.ke and also submitted to National Council for Persons with Disabilities (NCPWD) a summary of procurement opportunities allocated to Persons with Disabilities (PWD).

All suppliers are paid within reasonable time after executing their contractual obligations.

#### b) Responsible ethical practices

The project is guided by NEMA anti-corruption policy. Adherence to NEMA core values ensures ethical and responsible political involvement.

Annual Report and Financial Statements for the financial year ended June 30, 2023

#### c) Regulatory impact assessment

The project is committed to promoting transparency and accountability this ensures citizen and stakeholder's rights are safeguarded.

# 5. Community Engagements

The Authority's CSR program is focused on creating and maintaining a strong bind with the community and its stakeholders. To this end, the Authority's CSR initiatives provide communities with opportunities for engagement that touch on the three (Environmental, Economic and Social) broad CSR pillars.

During the financial year, the Authority undertook the following CSR activities;

- Donation of a10,000 litres water tank to Emborogo Children's home in Kisii County and capacity building on climate change, waste management and tree planting in two schools in Murayu primary in Kakamega and Mikayu primary in Bungoma.
- Planted 2,500 seedlings at Gambela and fenced 40% of Lake Kisima.
- Donated food items to a children's home in Homabay County, 17 tanks,
   105 beehives and 8 improved goats to communities in Mwingi during
   WED & WDDD 2023

Annual Report and Financial Statements for the financial year ended June 30, 2023

#### 5. Statement of Project Management responsibilities

The Director General and the Project Coordinator for GCF Project Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties" are responsible for the preparation and presentation of the Project's financial statements, which give a true and fair view of the state of affairs of the Project for and as at the end of the financial year ended on June 30, 2023.

This responsibility includes (i) Maintaining adequate financial management arrangement and ensuring that these continue to be effective throughout the reporting period, (ii)Maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the project, (iii)Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statement, and ensuring that they are free from material misstatements, whether due to error or fraud,(iv) safeguarding the assets of the project, (v)Selecting and applying appropriate accounting policies and (v)Making accounting estimates that are reasonable in the circumstances.

The Director General and the Project Coordinator for GCF Project Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties" accept responsibility for the Project's financial statements, which have been prepared on the Cash Basis Method of Financial Reporting, using appropriate accounting policies in accordance with International Public Sector Accounting Standards.

The Director General and the Project Coordinator for GCF Project Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties" are of the opinion that the Project's financial statements give a true and fair view of the state of Project's transactions during the financial year ended June 30, 2023, and of the Project's financial position as at that date. The Director General and the Project Coordinator for GCF Project

Annual Report and Financial Statements for the financial year ended June 30, 2023

Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties" further confirm the completeness of the accounting records maintained for the Project, which have been relied upon in the preparation of the Project financial statements as well as the adequacy of the systems of internal financial control.

The Director General and the Project Coordinator for GCF Project Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties" confirm that the Project has complied fully with applicable Government Regulations and the terms of external financing covenants, and that Project funds received during the financial year under audit were used for the eligible purposes for which they were intended and were properly accounted for.

#### Approval of the Project Financial Statements

The Project financial statements were approved by the Director General and the Project Coordinator for GCF Project Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties"

REPORT OF THE AUDITOR-GENERAL ON GCF PROJECT PREPARATION FACILITY: "DEVOLVED CLIMATE CHANGE GOVERNANCE TO STRENGTHEN RESILIENCE OF COMMUNITIES IN TARGET COUNTIES" (PROJECT NO: KEN-PPF-010) FOR THE YEAR ENDED 30 JUNE, 2023 - NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

#### PREAMBLE

I draw your attention to the contents of my report which is in three parts:

- A. Report on the Financial Statements that considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the financial statements;
- B. Report on Lawfulness and Effectiveness in Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure the Government achieves value for money and that such funds are applied for the intended purpose.
- C. Report on the Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, risk management environment and internal controls, developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

An unmodified opinion does not necessarily mean that an entity has complied with all relevant laws and regulations and that its internal controls, risk management and governance systems are properly designed and were working effectively in the financial year under review.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012 and the Public Audit Act, 2015. The three parts of the report when read together constitute the report of the Auditor-General.

#### REPORT ON THE FINANCIAL STATEMENTS

# **Qualified Opinion**

I have audited the accompanying financial statements of Devolved Climate Change Governance to Strengthen Resilience of Communities in Target Counties set out on pages 1 to 29, which comprise of the statement of financial assets as at 30 June, 2023 and the statement of receipts and payments, statement of cash flows and statement of comparison of budget and actual amounts for the year then ended and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of Devolved Climate Change Governance to Strengthen Resilience of Communities in Target Counties as at 30 June, 2023 and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Cash Basis) and comply with the Project Cooperation Agreement No. KEN-PPF-010 dated 21 May, 2019 between the Government of Kenya and the United Nations Office for Project Services (UNOPS), and the Public Finance Management Act, 2012.

#### **Basis for Qualified Opinion**

# **Unsupported Cash and Cash Equivalents**

The statement of financial assets reflects cash and cash equivalents balance of Kshs.25,200,693, as disclosed in Note 3A to the financial statements. However, the balance was not supported by a cash book, bank statements, bank reconciliation statements and or board of survey report.

In the circumstances, the accuracy and completeness of the cash and bank balance of Kshs.25,200,693 could not be confirmed.

The audit was conducted in accordance with the International Standards for Supreme Audit Institutions (ISSAIs). I am independent of the Devolved Climate Change Governance to Strengthen Resilience of Communities in Target Counties Management in accordance with ISSAI 130 on the Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audit of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

#### Other Matter

#### **Budgetary Control and Performance**

The statement of comparison of budget and actual amounts reflects final income budget and actual amounts on comparable basis of Kshs.26,740,694 and Kshs.1,540,000 respectively, resulting to under collection of Kshs.25,200,694 or 94% of the budget. The variance of Kshs.25,200,694 was not explained. Similarly, the Project spent Kshs.1,540,000 against an approved budgeted of Kshs.26,740,694, resulting to a budget under-absorption of Kshs.25,200,694 or 94% of the budget.

In view of the budget implementation gaps described above, the budget under-absorption may have resulted in unimplemented planned activities which may have affected provision of services to the public. In addition, the Project might not absorb all the funds as projected by the end of the contract period, thus denying services to the intended beneficiaries of the Project.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

#### Conclusion

As required by Article 229(6) of the Constitution and based on the audit procedures performed, I confirm that nothing else has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

#### **Basis for Conclusion**

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

#### Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and governance were not effective.

#### **Basis for Conclusion**

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and overall governance were

Report of the Auditor-General on GCF Project Preparation Facility: "Devolved Climate Change Governance to Strengthen Resilience of Communities in Target Counties" (Project No: KEN-PPF-010) for the year ended 30 June, 2023 - National Environment Management Authority

operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

#### Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Cash Basis) and for maintaining effective internal controls as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal controls, risk management and overall governance.

In preparing the financial statements, Management is responsible for assessing the Project's ability to sustain its services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminate the Project or to cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the Project's financial reporting process, reviewing the effectiveness of how Management monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

#### Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Report of the Auditor-General on GCF Project Preparation Facility: "Devolved Climate Change Governance to Strengthen Resilience of Communities in Target Counties" (Project No: KEN-PPF-010) for the year ended 30 June, 2023 - National Environment Management Authority

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and review of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Project's ability to continue to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit

report. However, future events or conditions may cause the Project to cease to continue to sustain its services.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Project to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and where applicable, related safeguards.

FCPA Naney Gathungu, CBS AUDITOR-GENERAL

Nairobi

#### 11. Significant Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below:

# a) Statement of compliance and basis of preparation

The financial statements have been prepared in accordance with Cash-basis IPSAS financial reporting under the cash basis of accounting, as prescribed by the PSASB and set out in the accounting policy note below. This cash basis of accounting has been supplemented with accounting for; a) receivables that include imprests and salary advances and b) payables that include deposits and retentions. The financial statements comply with and conform to the form of presentation prescribed by the PSASB.

The accounting policies adopted have been consistently applied to all the years presented.

#### b) Reporting entity

The financial statements are for GCF Project Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties". The financial statements are for the reporting entity as required by Section 81 of the PFM Act, 2012.

# c) Reporting currency

The financial statements are presented in Kenya Shillings (Kshs), which is the functional and reporting currency of the Project and all values are rounded to the nearest Kenya Shilling.

Annual Report and Financial Statements for the financial year ended June 30, 2023

#### d) Recognition of receipts

The GCF Project Preparation Facility: "Devolved climate change governance to strengthen resilience of communities' in target counties" recognises all receipts from the various sources when the event occurs, and the related cash has been received.

#### i) Transfers from the Exchequer

Transfer from Exchequer is recognized in the books of accounts when cash is received. Cash is considered as received when payment instruction is issued to the bank and notified to the receiving entity.

#### ii) External Assistance

External assistance is monies received through grants and loans from multilateral and bilateral development partners.

#### iii) Other receipts

These include Appropriation-in-Aid and relates to receipts such as proceeds from disposal of assets and sale of tender documents. These are recognized in the financial statements at the time associated cash is received.

#### iv) Donations and grants

Grants and donations shall be recognized in the books of accounts when cash is received. Cash is considered as received when a payment advice is received by the recipient entity or by the beneficiary. In case of grant/donation in kind, such grants are recorded upon receipt of the grant item and upon determination of the value. The date of the transaction is the value date indicated on the payment advice.

Annual Report and Financial Statements for the financial year ended June 30, 2023

#### Significant Accounting Policies (continued)

#### v) Proceeds from borrowing.

Borrowing includes external loans acquired by the Project or any other debt the Project may take and will be treated on cash basis and recognized as a receipt during the year they were received.

#### vi) Undrawn external assistance

These are loans and grants at reporting date as specified in a binding agreement and relate to funding for the Project currently under development where conditions have been satisfied or their ongoing satisfaction is highly likely and the project is anticipated to continue to completion. An analysis of the Project's undrawn external assistance is shown in the funding summary.

#### e) Recognition of payments

The Project recognises all payments when the event occurs, and the related cash has been paid out by the Project.

#### i) Compensation to employees

Salaries and Wages, Allowances, Statutory Contribution for employees are recognized in the period when the compensation is paid.

#### ii) Use of goods and services

Goods and services are recognized as payments in the period when the goods/services are consumed and paid for. If not paid for during the period where goods/services are consumed, they shall be disclosed as pending bills.

Annual Report and Financial Statements for the financial year ended June 30, 2023

Significant Accounting Policies (continued)

#### iii) Interest on borrowing

Borrowing costs that include interest are recognized as payment in the period in which they incur and paid for.

#### iv) Repayment of borrowing (principal amount)

The repayment of principal amount of borrowing is recognized as payment in the period in which the repayment is made. The stock of debt is disclosed as an annexure to the consolidated financial statements.

#### v) Acquisition of fixed assets

The payment on acquisition of property plant and equipment items is not capitalized. The cost of acquisition and proceeds from disposal of these items are treated as payments and receipts items respectively. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration and the fair value of the asset can be reliably established, a contra transaction is recorded as receipt and as a payment. A fixed asset register is maintained by each public entity and a summary provided for purposes of consolidation. This summary is disclosed as an annexure to the consolidated financial statements.

#### f) In-kind donations

In-kind contributions are donations that are made to the Project in the form of actual goods and/or services rather than in money or cash terms. These donations may include vehicles, equipment or personnel services. Where the financial value received for in-kind contributions can be reliably determined, the Project includes such value in the statement of receipts and payments both as receipts and as payments in equal and opposite amounts; otherwise, the contribution is not recorded.

Annual Report and Financial Statements for the financial year ended June 30, 2023

#### Significant Accounting Policies (continued)

#### g) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents also include short term cash imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

#### h) Restriction on cash

Restricted cash represents amounts that are limited/restricted from being used to settle a liability for at least twelve months after the reporting period. This cash is limited for direct use as required by stipulation. Amounts maintained in deposit bank accounts are restricted for use in refunding third part deposits.

#### i) Imprests and Advances

For the purposes of these financial statements, imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year is treated as receivables. This is in recognition of the government practice where the imprest payments are recognized as payments when fully accounted for by the imprest or AIE holders. This is an enhancement to the cash accounting policy. Other accounts receivables are disclosed in the financial statements.

Annual Report and Financial Statements for the financial year ended June 30, 2023

#### Significant Accounting Policies (Continued)

#### j) Contingent Liabilities

A contingent liability is:

- a) A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) A present obligation that arises from past events but is not recognised because:
  - i) It is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; or
  - ii) The amount of the obligation cannot be measured with sufficient reliability.

Some of contingent liabilities may arise from: litigation in progress, guarantees, indemnities. Letters of comfort/ support, insurance, Public Private Partnerships,

The Entity does not recognize a contingent liability but discloses details of any contingencies in the notes to the financial statements unless the possibility of an outflow of resources embodying economic benefits or service potential is remote. **Annex 6** of this financial statement is a register of the contingent liabilities in the year.

Annual Report and Financial Statements for the financial year ended June 30, 2023

Significant Accounting Policies (Continued)

#### k) Contingent Assets

(The Entity) does not recognize a contingent asset, but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of (the Entity) in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

#### Pending bills

Pending bills consist of unpaid liabilities at the end of the financial year arising from contracted goods or services during the year or in past years. As pending bills do not involve the payment of cash in the reporting period, they recorded as 'memorandum' or 'off-balance' When the pending bills are finally settled, such payments are included in the statement of receipts and payments in the year in which the payments are made.

#### m) Budget

The budget is developed on a comparable accounting basis (cash basis), the same accounts classification basis (except for accounts receivable - outstanding imprest and clearance accounts and accounts payable - deposits, which are accounted for on an accrual basis), and for the same period as the financial statements. The Project's budget was approved as required by Law and National Treasury Regulations, as well as by the participating development partners, as detailed in the Government of Kenya Budget Printed Estimates for

Annual Report and Financial Statements for the financial year ended June 30, 2023

#### Significant Accounting Policies (Continued)

the year. The Development Projects are budgeted for under the MDAs but receive budgeted funds as transfers and account for them separately. These transfers are recognised as inter-entity transfers and are eliminated upon consolidation. A high-level assessment of the Project's actual performance against the comparable budget for the financial year/period under review has been included in an annex to these financial statements.

#### n) Third party payments

Included in the receipts and payments, are payments made on its behalf by to third parties in form of loans and grants. These payments do not constitute cash receipts and payments.

and are disclosed in the payment to third parties' column in the statement of receipts and payments.

#### o) Exchange rate differences

The accounting records are maintained in the functional currency of the primary economic environment in which the Project operates (Kenya Shillings). Transactions in foreign currencies during the year/period are converted into the functional currency using the exchange rates prevailing at the dates of the transactions. Any foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statements of receipts and payments.

#### p) Comparative figures

Where necessary comparative figures for the previous financial year/period have been amended or reconfigured to conform to the required changes in financial statement presentation.
