HIGH COURT OF KENYA

CHRISTMAS RECESS, 2021

PURSUANT to Article 165 (1) of the Constitution of Kenya and section 10 (1) (2) (a) of the High Court (Organization and Administration) Act, 2015, notice is given as follows—

The Christmas Recess of the High Court and Courts of Equal Status shall commence on the 21st December, 2021 and terminate on 13th January, 2022, both days inclusive.

For avoidance of doubt, Recess Duty Judges shall be appointed to hear and try matters arising during Recess in accordance with the High Court (Practice and Procedure) Rules as follows—

- (a) In respect of High Court Stations and Divisions, by the Presiding Judges at the respective Stations and Divisions;
- (b) In respect of the Employment and Labour Court, by the Principal Judge of that Court;
- (c) In respect of the Environment and Land Court, by the Presiding Judge of that Court;
- (d) In court stations with a single Judge, the matters emanating therefrom will be handled in the nearest High Court station where a Recess Duty Judge is sitting which shall be indicated on the Station's Notice Board by the Presiding Judge of such single Judge Station.

During the Recess the offices of the aforesaid courts, including Registries, shall be open to the public from 8.00 a.m. to 5.00 p.m. on all weekdays other than the public holidays.

Dated the 8th October, 2021.

LADY JUSTICE LYDIA ACHODE,
Principal Judge.

CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, KIRDI Research, Technology and Innovation Techno Centre, proposes to put up a Nanotechnology laboratory in Basement four (4) of its center, consisting of the installation and operation of an incinerator, a boiler, a waste water treatment plant, an underground oil storage and an LPG Bulk storage in the KIRDI Research, Technology and Innovation Center in South B, OFF Dunga Road in Nairobi County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Mitigation Measures
High X-ray radiation levels at the Laboratory	<ul style="list-style-type: none"> Install appropriate x-ray containment around the x-ray machine. Install the X-ray machine in compliance with the radiation protection Act Cap 243.
Steam boiler installation	<ul style="list-style-type: none"> Install in compliance with the Occupational Safety and Health Act, 2007.
X-ray radiation levels at the nanotechnology Laboratory	<ul style="list-style-type: none"> Maintain appropriate x-ray containment around the x-ray machine. Maintain the X-ray machine in compliance with the radiation Protection Act Cap. 243.
Emissions due to Steam boiler operation	<ul style="list-style-type: none"> Maintain boiler in compliance with the occupational safety and health Act 2007. Monitor and control emissions in compliance with the Environmental Management and Co-ordination (Air Quality) Regulations 2014.
Emissions from Hazardous waste incinerator	<ul style="list-style-type: none"> Install Incinerator in compliance with EMCA. Install a scrubber to capture toxic emissions from the incinerator. Install an online emissions monitoring instrument.
Effluent from Grey water recycling plant	<ul style="list-style-type: none"> Treat to ensure effluent to the sewer is in compliance with the water quality regulations 2006.
Gas leakage from the LPG Bulk storage tanks	<ul style="list-style-type: none"> Install LPG leak detection sensors and an alarm to communicate to the building management system. Install a fire suppression system at the bulk storage tank location. Comply with LPG Regulations, 2019.
Diesel fuel spillage and amp; Leakage from underground tanks	<ul style="list-style-type: none"> Provide a spill response kit. Allow for construction of a spill containment facility.
Solid waste	<ul style="list-style-type: none"> Provide trash bins that promote separation at source. Contract a private waste handler who is registered with both NEMA and the County Government of Nairobi and proper records kept for collection and disposal. Generally solid wastes will be managed in line with Legal Notice No. 121 of 2006.
Effluent generation	<ul style="list-style-type: none"> Sewage/waste-water will be managed by decontamination at the laboratory as per NEMA Guidelines. Proponent will conduct regular inspections for decontamination facility, sewage pipe blockages or damages and fix appropriately.
Possible pollution of streams or groundwater	<ul style="list-style-type: none"> A water quality monitoring program will be in place to detect any contamination that may be linked with the KIRDI waste water treatment plant.

Possible Impacts Mitigation Measures

- Immediately institute appropriate mitigation measures if contamination is discovered.
- A groundwater quality monitoring program will be put in place to detect any contamination that may be linked with the treatment plant.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED FLOATING RESTAURANT ON MTWAPA CREEK, KILIFI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Jambo Cruise Adventures Limited, proposes to develop a Floating Restaurant which will provide recreational and catering facilities for both local and international tourists on Mtwapa Creek in Kilifi County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impacts	Mitigation Measures
Impacts on fisheries activities	<ul style="list-style-type: none"> The Proponent will work hand in hand with the affected fishermen. The Beach Management Unit will form a Memorandum of Understanding with the Proponent to ensure mutual benefit. Community participation in solving insecurity issues through Mtwapa Beach management unit (BMU).
Interference with movement of goods and people along Mtwapa creek	<ul style="list-style-type: none"> Only a portion of the creek will be occupied by the floating restaurant leaving adequate space

	for normal flow of transport vessels.		on waste handling for different waste categories.
	<ul style="list-style-type: none"> Working in liaison with Mtwapa Beach Management Unit. 		<ul style="list-style-type: none"> Conduct annual audit of the site to ensure solid waste is well managed.
Loss of vegetation at the landing site	<ul style="list-style-type: none"> Small area will be involved in assemblage of the floating restaurant and landing of visitors and staff. Mangrove trees to be lost: Replant mangroves to cover equivalent surface area degraded sites. This will compensate for habitat use and tree replacements of the numbers to be cleared. 		<ul style="list-style-type: none"> Litter bins will be placed at strategic location within the restaurant before being collected by licensed waste handlers. The proponent should work hand in hand with the County Government of Kilifi to facilitate waste handling, and disposal from the site.
Increased incidences of HIV/AIDS and other STIs spread of Covid - 19	<ul style="list-style-type: none"> Contractor to maximise use of local casual labour to reduce the need for immigrant workers. In line with the HIV/AIDS prevention act, the Proponent should ensure that prevention and management of sexually transmitted diseases as a result of social interaction between immigrant workers and local populations to reduce the risk of the transfer of HIV virus between and among the Proponent's personnel and the local community. Both workers and local communities must be sensitized on Covid 19 prevention measures in line with the government directives and workers provided with the requisite PPEs and sanitizers at their work station. Proponent to abide by WHO and MOH Covid -19 prevention and control guidelines. 		<ul style="list-style-type: none"> The materials should be properly segregated and separated to encourage recycling of some of wastes.
		Fire hazards	<ul style="list-style-type: none"> A fire alarm system comprising of break glass call points, fire detectors, sirens and a control indicator panel will be installed within the premises. All LPG cylinders should be stores outside the kitchen and connected through the wall to the gas cookers. Portable firefighting equipment in compliance with the current standards and requirements of the relevant authorities will be provided at conspicuous locations viz a viz, kitchen (if any), etc. Evacuation signs (exit) and fire escape signs will be placed at strategic locations in the restaurant. Procedures to follow in case of fire will be displayed within the restaurant to ensure safe and speedy evacuation of personnel and visitors. All guidelines, norms, specifications and conditions likely to be imposed by the Government will be strictly complied with.
Water contamination/degradation of water quality	<ul style="list-style-type: none"> Strict adherence to waste water regulations. There will be a storage tank for all waste water and sewage within the floating restaurant before final disposal in a sewage treatment plant. Cleanliness of the facility. Provision of reliable water supply. Ensure all waste water will be handled as required by the NEMA Waste Management guidelines. Long term monitoring programs for water quality, sediment. 		<ul style="list-style-type: none"> Proper sensitization and creation of ownership. Install navigational markers and lights. Include position of the restaurant on navigational charts. Ongoing consultation with user groups, especially fishermen in Mtwapa beach to keep them informed of the new development.
Impact on the benthos	<ul style="list-style-type: none"> Anchoring will be done in a specific localized area and therefore recovery of the community apparently begins soon after the anchoring activity ceases. 	User conflict	
Discharge of garbage and litter	<ul style="list-style-type: none"> Develop guidelines on visitors/clients conduct and provide facilities to solid waste management collection and sorting. Adhere to all NEMA guidelines 	Occupational health and safety	<ul style="list-style-type: none"> Provide lifejackets at all times for use in case of emergency. Train personnel in safety of floating structures, including procedures for supervision of personnel. Appropriate signage and warnings in potential risk areas shall be provided.

Possible Impacts

Mitigation Measures

- Appropriate Personnel Protective Equipment (PPE) shall be provided to the workers where applicable.
- The Proponent shall develop and implement detailed and site specific emergency response plans.
- The Proponent shall endeavor to create health and safety awareness among the area residents.

The full report of the proposed project is available for inspection during working hours at:

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED PROJECT OIL KENYA UPSTREAM

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent Tullow Kenya B.V. is proposing to develop six oilfields: Agete, Amosing, Ekales, Etom, Ngamia and Twiga that will have multiple well pads for oil. The well pads will be connected to a central processing facility adjacent to the Ngamia oilfield, via a network of buried flowlines. This area will also include waste management facilities, an engineered landfill and workers accommodation basecamps. The production water will be sourced from Turkwel Dam via a pipeline that is at design level for separate approval. Other associated project infrastructure will include access roads and overhead electrical transmission lines between the oilfields.

Once processed, the oil will be transported to Lamu for export via a separately permitted and operated underground pipeline known as the Lokichar to Lamu Crude Oil Export Pipeline (LLCOP). The initial development will focus on the Amosing, Ngamia and Twiga oilfields with first oil from these fields produced three years after project FID. Ekales, Agete and Etom will be developed over the next five to seven years. The central facilities area and central processing facility are required at first oil and will be constructed by year three. Operations are expected to last approximately 22 years.

The following are the anticipated impacts and proposed mitigation measures:

Negative Impacts

Proposed Mitigation Measures

- Air quality emissions**
 - Detailed air dispersion modelling will be carried out during the detailed design process. The fence line will then incorporate any areas where the Process Contribution (emissions from the Project) is predicted to exceed 25% of the air quality standards to ensure that public access will be restricted.
- Air quality dust**
 - Local stakeholders to be informed of the construction activity dates.
 - Daily visual dust monitoring will be carried out.
 - Signage will be put in place to inform people where, when and for how long temporary dust generating works are taking place.
 - Project speed limits to be established and complied with by all Project vehicles.
 - Night-time driving will be prohibited unless specifically authorised and off-road driving will be prohibited.
 - Grievances will be monitored and remediated through the Grievance Management Procedure. Any complaints will be investigated and followed up.
- Air quality odour**
 - Records of monitoring in response to complaints will be undertaken including any investigative and remedial actions.
- Construction noise**
 - At locations where construction noise will temporarily exceed statutory limits, NEMA will be notified.
 - The areas (which are located within the gazetted areas) will be demarcated as areas to be avoided. Local stakeholders will be informed of the demarcated areas and signage will be installed.
 - Monitoring over a 24-hour period will be undertaken at about 75m from the perimeter of the construction works areas.
- CFA and well pad operations on transient human receptors noise impacts**
 - A procedure will be prepared to define the actions to be taken and the timeframes in which those actions will be taken, e.g. review and maintenance of noise source equipment and review of noise abatement measures, should exceedances of the Project Standard (WBG EHS Guidelines) be observed.
- Water quality/quantity**
 - Construction-phase water demand will be minimised as part of the detailed design process.
- Abstraction of groundwater, leading to a reduction in base flow due to lowered groundwater levels**
 - A hydraulic testing plan will be prepared and a further hydrogeological investigation undertaken to evaluate existing data for community and project abstraction wells within the potentially affected areas prior to commencement.
 - Prior to construction, a network of shallow groundwater monitoring wells will be installed to monitor water levels and quality.

<i>Negative Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Negative Impacts</i>	<i>Proposed Mitigation Measures</i>
Impact on soil - topsoil disturbance.	<ul style="list-style-type: none"> • Soil management protocols will be prepared including. • Salvage topsoil in areas where it occurs in the direct soil disturbance footprint of the CFA, well pads, landfill, roads and camps. • Procedures for rehabilitation and revegetation. 	grazing/browsing for livestock	<ul style="list-style-type: none"> • Design a RLRP with the objective of improving pastureland quality to mitigate the impacts caused by overgrazing.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DECENTRALISED SEWAGE TREATMENT FACILITY AT MOKOWE, LAMU COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Lamu Water and Sewerage Company, proposes to construct and rehabilitate facilities of Mokowe Sewage Waste Treatment Decentralised Plant whose activities will include the construction of septic tanks, rehabilitation of existing lagoons, space for trucks to siphon waste to septic tanks, parking bay for track and associated amenities and facilities in Mokowe Town, Lamu County.

The following are the anticipated impacts and proposed mitigation

measures:

Aspect

1. Air / Ambient environment

Potential -VE impact Mitigation

- Emission of dust during transport of building materials and construction activities.
- Water rough road to construction site periodically during construction period.
- Re-vegetate the site as appropriate after construction.
- Hoard site to curb dust from spreading to the neighborhood.
- Provide workers with PPE (dust masks).
- Trucks hauling dirt and debris to and from site, should be covered to reduce spillage.
- Stockpiles of sand and soil should be covered or surrounded with wind breaks.
- Expedite construction so that it can take the shortest time possible.
- Construction should be carried out only during daytime. 0800-1700hrs
- Provide workers with PPE if working in noisy section.
- Hoard site to reduce noise from noisy equipment.
- Machinery should be well maintained to reduce noise resulting from friction.
- Limit unnecessary hooting.
- Provide relevant signage at the construction site on construction activity and timings.
- The number of construction equipment operating simultaneously shall be minimized through efficient management practices.
- Vehicle idling time shall be minimized.
- Proper servicing of machinery as per the manufacture's specifications to reduce emissions.
- Incinerator chimney stack will be at of minimum 4 metres height.
- The incinerator must always be maintained to ensure complete combustion, less pollution.
- Increased noise during transport of building materials and construction activities.

Aspect	Potential -VE impact	Mitigation	Aspect	Potential -VE impact	Mitigation
	• Odour from faecal sludge in DTF.	• Ensure efficiency and optimal operation of all units. • Provide relevant PPE to DTF staff.		fauna.	demarcation and delineation of the project area to be affected by construction works.
2. Soil	• Soil erosion during construction. • Soil compaction from vehicles and machinery.	• Temporary dykes to prevent surface runoff. • Use designated route to site. • Designate vehicle / machinery parking area. • Control construction activities especially during rainy conditions. • Re-surface open areas after completion of the project and introduce appropriate vegetation. • Provide suitable storm water drainage channels to effectively discharge water to safe areas.			• Designate access routes and parking within the site. • Preserve individual trees within the site that do not fall on the actual construction area. • The area will be restored to its original state after construction.
	• Soil contamination from vehicles and machinery oil.	• Designate areas for parking vehicles and machinery.			• Appropriate landscaping after end of construction to maintain a green environment.
	• Soil contamination from bottom ash from incinerator.	• Ensure incinerator waste (ash) is disposed of in designated areas • Line disposal pit with right plastic gauge.	5. Health and Safety	• Solid waste generated from transportation and storage of building materials.	• Provide waste bins strategically within the construction site. • Cover bins to prevent access by vermin, and minimise odour and dust.
3. Water	• Increased use of water to reduce dust and in construction. • Reduced water quality in nearby river.	• Educate workers on water conservation and waste management. • Temporary dykes to prevent surface runoff, especially if construction coincides with rainy season.		• Human waste disposal (to prevent poor hygiene related issues).	• Provide temporary sanitary facilities for construction workers. • Provide clean water for workers. • Conduct EHS education for site workers.
	• Increased use of water in AR and VFCW	• Educate workers on water conservation and waste management.		• Accidents and injuries.	• Provide workers with relevant PPE depending on task (ear muffs, gloves, mask, boots, helmets, overalls). • First-aid kit should be provided within the site plus at least 2 first aiders.
	• Release of treated water to the environment.	• Only effluent with mandatory BOD/COD levels will be released to the environment. • Community education on proper use of water released from DTF.			• Food handlers preparing food the workers at the site should be controlled and monitored to ensure that food is hygienically prepared.
	• Contamination of water sources.	• Only effluent with mandatory BOD/COD levels will be released to the environment.		• Bad odour and danger of infection from faecal sludge during operation phase.	• Appropriate PPE will be provided to DTF workers.
	• Breeding ground for disease vectors (mosquitoes).	• Mosquito bio-control (e.g. fish like minnow, tadpoles-frogs, etc.).		• Bottom ash from incinerator disposal at operation phase.	• Dispose of in properly designated and properly lined pit.
4. Biodiversity	• Loss of flora and	• Ensure proper

THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.
