COMPANY INFORMATION

Incorporation

Kenya Airports Authority is a body corporate in Kenya formed under the Kenya Airports Authority Act Cap 395, and is domiciled in Kenya.

Principal Activities

The principal activities of Kenya Airports Authority are:

- To construct, operate and maintain aerodromes and other related facilities;
- To construct or maintain aerodromes on an agency basis on the request of any Government department;
- To provide such other amenities or facilities for passengers and other persons making use of the services or the facilities provided by the Authority
- Construct any other necessary or desirable works required for the purposes of the Authority;
- Control the construction and use of prescribed aerodromes;
- Carry on any business that may be necessary or desirable for the purposes of the Authority and act as an agent for the Government in the provision of any agreed functions;
- Acquire, construct, manufacture, maintain or repair any works, plants or apparatus necessary or desirable for the purposes of the Authority;
- Determine, impose and levy rates, charges, dues or fees for any services performed by the Authority, or for use by any person of the facilities provided by the Authority, or for the grant to any person of a licence, permit or certificate.

KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013

CHAIRMAN'S STATEMENT

During the year ending June 2013, we operated in a business environment adversely impacted on by a number of factors. Among them were the high oil prices and the persistence of the Euro zone crisis that watered down the financial fortunes of its major clients, the airlines. There were also negative travel advisories on Kenya as a result of the Al-Shabaab threats and anxiety and uncertainty related to the March 2013 general elections.

Notwithstanding these harsh economic circumstances, the Authority was able to grow its pre-tax profits to Kshs.5.3 billion mainly through prudent management of its expenditures and enhancement of revenue.

Major progress was made towards the business process automation. To this end, we implemented Enterprise Resource Planning system in financial management, human capital management and procurement and logistics processes. Automation process is still underway in other back office business processes. With respect to airport operation, we also installed an Airport Operational Database.

The Authority remains committed to delivering world class airport experience through improvement of airport facilities and customer service. During the year, a number of infrastructure projects were at various stages of implementation. These included construction of Unit 4 at JKIA and upgrading of Isiolo Airstrip, pavement strengthening and cargo apron works at Kisumu International Airport and terminal facilities at Malindi and Manda.

The Authority continued with its activities of sound environmental stewardship by way of environmental impact analysis of various aviation projects at Homa Bay, Manda and Lokichoggio and waste audit for Kisumu and Eldoret International Airports. Noise mapping was also done for Jomo Kenyatta and Moi International Airports. 6,500 trees were planted in the same year. Besides, tree planting, we extended financial support to several needy causes under our Corporate Social Responsibility Program.

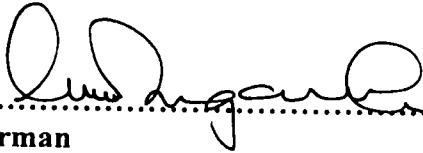

The year also witnessed the renewal of our Quality Management System 9001- under 2008 standards after rigorous preparatory work. Within the next 5 years, we will be moving to certification under aviation specific standard. We also plan to acquire Environmental Management Certification within the same time frame.

We also embarked on an all encompassing exercise of reviewing our Strategic Plan to guide our business for the next 5 years. We will steward the implementation for the good of all our stakeholders and the Country and the East Africa region at large.

These preceding achievements could not have been possible had it not have been for the dedication of staff and management beyond the call of duty, prudent partnership with our stakeholders and policy guidance by the Government and subsequent oversight by the Board of Directors.

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

I would therefore like to take this opportunity to thank all the parties aforementioned for a job well done and encourage you to soldier on as the journey is still long.

.....
Chairman

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

MANAGING DIRECTOR'S REPORT

The performance of the global and domestic aviation industry last year was constrained, arising from a number of adverse factors. The global economy grew by about 2.5% last year which was lower than the 3.8% growth experienced in 2012. The main factors shaping this situation were rise in oil prices in the international markets, the Euro-zone crisis and implementation of austerity measures in many leading industrial economies.

In the domestic scene, Kenya's economic growth was estimated to have stood at about 4.3% last year, slightly lower than the 4.4% figure attained in 2012. The main factors shaping the performance of the economy were high oil prices, the Alshabaab threats, the Euro-zone crisis and high lending rates in the financial market.

It is expected however, that with the measures put in place to contain the Euro-zone crisis, improvement in the performance of the major industrial economies and a stable domestic economy following the peaceful elections, the aviation industry in the country will gradually pick-up in the near future.

Operational Performance

In the backdrop of a constrained operating environment, passengers handled through the country's airports dropped by 5% to 8.39 million in 2012/2013 from 8.85 million in 2011/2012. Movements scaled down to 257,930 from 273,270 over the same period. Cargo throughput dropped by a bigger margin of 10.8% to stand at 275.9 million kilograms.

This notwithstanding, the Authority was able to post a pre-tax profit of Kshs.5.3 billion in 2012/2013, a 55% rise from the previous year's level. This was mainly on account of passenger service charge. Total operating revenue rose by 31.3% to Kshs.11.1 billion while the operating expenditure grew by a smaller margin of 14.6% to Kshs.5.88 billion. A provision for tax of KShs.1.81 billion was made for the year.

Assets and Liabilities

The Authority recorded a significant increase in total assets mainly on account of work-in-progress on the facilities upgrade and expansion and cash obtained from the Government for the improvement/maintenance works of county airstrips. Total assets rose by 20.6% to Kshs.37.29 billion.

Liabilities, on the other hand, increased by 50% from Kshs.5.91 billion to Kshs 8.89 billion arising mainly from disbursement of Agence Francaise De Development (AFD) Loan and trade and other payables, particularly provision for tax.

Infrastructure Capacity Improvements

Focused emphasis was directed towards infrastructure expansion and upgrade for purposes of improving service delivery to our customers and enhance share holder value. Consequently the Authority implemented several airport infrastructure and capacity enhancement projects to improve on service delivery. The notable projects were as follows:

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

JKIA Modernization and Upgrading Projects

Unit 4 Building and Parking Garage (Package 2)

At the close of the year, works on Package II involving construction of terminal 4 building, parking garage, grade parking and associated works were progressed to over 90% completion.

Aircraft pavement rehabilitation and runway capacity

Commencement of works on aircraft pavements rehabilitation and runway capacity were staggered to commence at a later date awaiting re-organization of packages financing in consultation with the financiers.

Aircraft remote stands

A total of 16 new stands complete with fuel hydrant system are being created to enhance aircraft parking capacity at JKIA. By the end of the year overall progress of works stood at 66% with some challenges being experienced relating to relocation of existing services and additional earthworks not anticipated earlier.

Redevelopment of Kisumu Airport

Additional works involving construction of a parallel taxiway, cargo apron and widening and strengthening of runway that had commenced in March 2012 were progressed to 50%. Progress of works was affected by a number of factors, among them financial constraints; delays in procuring/importing bitumen from Iran due to trade embargo and anxiety occasioned by the March 2013 general election.

Pavements rehabilitation at MIA

Significant progress was achieved where tendering and contract award was finalized; runway remedial works completed and taxiway and remedial works were substantially done. At the close of the year, project progress was at 95%.

Rehabilitation of Public Airstrips

The Authority rehabilitated/maintained 14 airstrips during the year. These were Embu, Homa Bay, Kakamega, Eldoret, Nakuru, Tseikuru, Isiolo, Suneka, Kitale, Nyeri, Lodwar, Garissa, Wanguru and Mitunguu. An overall works completion rate of 45% was achieved by the close of the year.

Automation

The Authority continues to place a lot of emphasis on business automation to improve on operations and delivery of services to customers. During the year, Phase 1 of the Enterprise Resource Planning (ERP) project involving automation of Finance, Procurement and Human Resources processes was completed in March, 2013 and formally went live on 1st April, 2013.

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

Security and Safety

During the year, various activities were undertaken to enhance safety and security. Key among these were training of 833 airline and ground handling staff on airside safety: purchase of 8 vehicles to facilitate patrol at the airports and development of a bird and wildlife management plan to improve the safety of our airports.

ISO 9001-2008 Certification

The Authority was certified under QMS 9001-2008 standards during the year following a pre-certification audit and a certification audit. Five lead auditors were trained to enhance the Authority's capacity for carrying out audits. As part of the maintenance program, one Internal Quality Management System (QMS) audit and one external QMS audit were conducted.

Gender and Disability Mainstreaming

Gender and disability mainstreaming constitute key issues for entrenchment in the Authority's working ethos. During the year, KAA continued to implement the Authority's Gender and Disability Mainstreaming Policies with a view to fully achieving the goals stated in those policies.

Competency Development

KAA recognizes the value of its staff as the drivers of business. Concerted effort was made towards enhancing the staff performance capacity through training. During the year, skills inventory and competency needs survey was concluded which returned a competency index of 74%. Various trainings were also conducted such as training on safety management, leadership development skills, AVSEC screening, basic fire fighting skills, customer service and sign language, among others.

Closing Remarks

Good performance was achieved despite the very challenging operating environment defined by global recession, thanks to the commitment of the staff and support from our business partners and stakeholders. I cannot take this for granted and wish to take this early opportunity to thank all involved.

We expect that with easing off of the global economic slowdown, continued support from our business partners and stakeholders and commitment by our staff, the Authority will continue to scale the heights to business prosperity in the future.

..... 2013.

By order of the Board

Chairman

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

STATEMENT OF DIRECTORS' RESPONSIBILITIES

In accordance to the Kenya State Corporations Act Cap 446, the Directors are required to prepare Financial Statements for each financial year which gives a true and fair view of the state of affairs of the Authority as at the end of the financial year and of its operating results for that year. It also requires the Directors to ensure the Authority keeps proper accounting records, which disclose with reasonable accuracy, the financial position of the Authority. They are also responsible for safeguarding the assets of the Authority.

The Directors accept responsibility for the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error. They accept responsibility for:

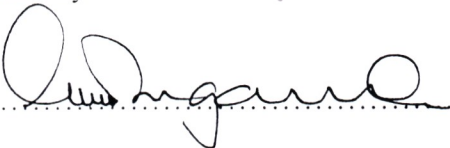

- i. Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements:
- ii. Selecting and applying appropriate accounting policies and
- iii. Making accounting estimates and judgments that are reasonable in the prevailing circumstances.

The Directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Authority as at 30th June 2013 and its profit/loss and cash flows for the year then ended in accordance with International Financial Reporting Standards and in the manner required by the State Corporations Act Cap 446.

The Directors further accept responsibility for the maintenance of accounting records, which may be relied upon in the preparation of Financial Statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Authority will not remain a going concern for at least twelve months from the date of this statement.

Approved by the Board of Directors on24.09.....2013 and signed on its behalf by:

KENYA NATIONAL AUDIT OFFICE

REPORT OF THE AUDITOR-GENERAL ON KENYA AIRPORTS AUTHORITY FOR THE YEAR ENDED 30 JUNE 2013

REPORT ON THE FINANCIAL STATEMENTS

I have audited the accompanying financial statements of Kenya Airports Authority set out on pages 16 to 38, which comprise the statement of financial position as at 30 June 2013, and the statement comprehensive income, the statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 14 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial reporting standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 13 of the Public Audit Act, 2003.

Auditor-General's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit and report in accordance with the provisions of Section 15(2) of the Public Audit Act, 2003 and submit the audit report in compliance with Article 229(7) of the Constitution of Kenya. The audit was conducted in accordance with International Standards on Auditing. Those standards require compliance with ethical requirements and that the audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of

material misstatement of the financial statements whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my qualified audit opinion.

Basis for Qualified Opinion

1. Operating lease

As similarly reported in the previous year, the non-current assets balance of Kshs.29,699,428,000 as at 30 June 2013 includes an amount of Kshs.5,799,624,000 described as operating lease. The operating lease amount, however, excludes plot LR 9042/668 measuring 3.29 acres in Embakasi village which had not been valued for inclusion in the financial statements as at 30 June 2013, as its ownership is apparently in dispute. A further examination of the lease balance revealed the following other unsatisfactory observations.

- (i) An unregistered parcel of land under Ref. KAA-D1-D4 measuring 0.867 acres and valued at Kshs.4,335,000 was, as similarly in the previous year, excluded from the operating lease balance of Kshs.5,799,624,000.
- (ii) An undetermined value of land at Likochoggio Airport was also excluded from the balance.
- (iii) The figure of Kshs.5,799,624,000 includes two parcels of land under plots Nos. LR.13512 and 14231 at Jomo Kenyatta International Airport both of which have been allocated to third parties.
- (iv) Wilson Airport Land LR 209/144443 of undetermined size and value was registered in favour of the Authority on 29 July 2003. However, two plaintiffs filed a civil case in the High Court of Kenya claiming ownership of the land. On 25 October 2006, the High Court ruled in favour of the Authority. The Court ruled that this was Public land, belonging to the Authority, and was irregularly allocated to one of the plaintiffs. However, despite the Court ruling, no efforts have been made to retake possession of the land.
- (v) The figure of Kshs.5,869,334,000 further includes a portion of Malindi Airport land under LR No.7669 and measuring 0.8925 hectares, allocated

to a church organization, but on the other hand, excludes land LR No.8540 measuring 5912.5sq.ft at the Airport, allocated to a petroleum company.

Under the circumstances, the Authority's land is at risk and it has not been possible to confirm that the non-current assets balance of Kshs.23,897,495,000 is fairly stated as at 30 June 2013.

2. Stalled Projects

The following projects were noted to have stalled:

Project	Value (Kshs)	Year
Embakasi Estate Fencing	24.5m	2009
Ukunda Air Strip Fencing	24.8m	2006

As similarly reported in the previous year, it was further observed that the contract for Ukunda air strip fencing which took too long at tender committee was terminated and the contractor has placed a claim of Kshs.8.9 million as compensation which the management had deferred apparently awaiting some clarification from the Project Engineer. No further correspondence was availed for audit verification.

In addition, the Embakasi Estate fencing works have never started and the contract has never been terminated and no reasons were given for this anomaly. As a result of the foregoing, the Authority risks payment of damages should the contractors proceed to court.

3. Disputed Land

The property, plant and equipment balance of Kshs.23,897,495 includes freehold land balance of Kshs.249,265,000 as at 30 June 2013. As similarly reported in the previous year, this figure includes land LR. No.21919 measuring 4,674.60 Hectares in Nairobi where Jomo Kenyatta International Airport is situated. This land was compulsory acquired by the Government of Kenya on 26 April 1971 vide legal Notice No. 1105/1106 for development of the Airport currently known as Jomo Kenyatta International Airport. Kenya Airports Authority acquired title deed for the land on 26 July 1996.

As previously reported, around year 2002, Kenya Airports Authority discovered that a group of people had purportedly obtained title documents for the above mentioned land.

The Authority moved to court and instituted two cases against the groups vide HCCC No.206 of 2004 and HCCC 489 of 2004 respectively, where it got temporary court orders to restrain defendants from dealing with the said piece of land. But despite the court orders to maintain status quo, the defendants continued to sell, sub-divide and develop the land falling under the contentious area.

In November 2011, the Kenya Airport Authority demolished houses belonging to private developers on the disputed land. The private developers have sued the Authority and both the Authority's and the private developer's cases are yet to be determined. As at the time of completing the audit, no valuation report had been availed for audit verification and the Authority had not made any provision for any contingent liabilities likely to arise from these disputes.

In the circumstances, it has not been possible to confirm that the Authority's freehold land balance of Kshs.249,265,000 as at 30 June 2013 is fairly stated.

4. Trans-Global Centre Limited lease with Kenya Airports Authority

- (i) On 1 August 2008, the Tender Committee awarded a 20 years lease to Trans-Global Cargo Centre Limited on a build, operate and transfer basis. On 12 September 2008, the technical oversight committee of the Board endorsed the award. On 12 September 2008, the then Managing Director vide letter KAA/II/02/460 wrote a letter of offer of the lease for a period of 20 years on Build Operate and Transfer basis (B.O.T). It was, however, noted that at the time of drawing the contract, the contract period was changed by the management from 20 years to 40 years i.e. the signed lease was for 20 years with an automatic renewal term of another 20 years upon expiry of the initial term. In addition, the client was given an option of renewing the lease for a further 20 years on application contrary to the approval granted by the tender committee and the tender oversight committee of the Board thus contravening provisions of the Public Procurement and Disposal Act, 2005.
- (ii) After the lease agreement was signed, Trans-Global Cargo Centre Limited sought for a credit facility from Standard Chartered Bank of Kshs.510 million. Subsequently, a debenture was signed between Trans-Global Cargo Centre Limited and Standard Chartered Bank on 8 April 2010. On 27 April 2010, a charge for Kshs.510 million was executed between Trans-Global Centre Limited and the Bank but there was no evidence the same was discussed and approved by the Board. The charge was later registered by the Ministry of Lands on 4 February 2011. However, the provisions of Section 195 (5) of the Kenya Airports Authority Act Cap 395 which prohibits the Authority from charging any of its property by way of securing any loan unless with the concurrence of the Minister for Finance was contravened.

- (iii) Further, audit evidence revealed that Transglobal Cargo Centre Ltd. was on 4 February 2011 allocated I.R. No. 127800/1 by the Commissioner of Lands. Although management has explained that the Authority has sought clarification from the Commissioner of Lands on the effect of the I.R number issued, as at the time of completing the audit, no response had been received.

5. Construction of Terminal 4 Building, Parking Garage, Grade Parking and Other Associated Works – Kshs.4,147,677,412.88

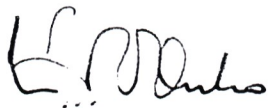

The contract for construction of Terminal 4 Building, parking garage, Grade parking and other works was awarded to a contractor at a contract sum of Kshs.4,147,677,412.88 exclusive of VAT. The contract was signed on 24 May 2010 with the commencement date of 31 August 2010 for a period of twenty one (21) months with expected completion date of 31 May 2012.

However, as at 31 August 2013, the parking garage and Terminal 4 building had not been completed.

In addition, the original contract sum was revised from Kshs.4,147,677,412.88 to Kshs.6,197,968,106.40 and later to Kshs.7,223,666,713.68 resulting to a variation of Kshs.3,075,989,300.80 representing 74% over and above the original contract sum. Further, there is no evidence to show that the extension of contract period and variation of the contract sum were approved by the Tender Committee of the Authority contrary to the Public Procurement and Disposal Act, 2005.

Qualified Opinion

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion paragraph, the financial statements present fairly, in all material respects, the financial position of the Authority as at 30 June 2013, and of its financial performance and its cash flows for the year then ended, in accordance with International Financial Reporting Standards and comply with the Kenya Airports Authority Act, Cap.395 of the Laws of Kenya.

Edward R.O. Ouko, CBS
Auditor-General

Nairobi

28 April 2014

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

NOTES

1. Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below:

(a) Basis of preparation

The financial statements are prepared on a going concern basis in compliance with International Financial Reporting Standards (IFRS). The measurement basis used is the historical cost basis except where otherwise stated in the accounting policies below. The financial statements are presented in Kenya Shillings (Kshs), rounded to the nearest thousand (KShs'000) which is also the functional currency.

(b) Foreign Exchange Transactions

Transactions during the year are converted into Kenya shilling at exchange rates ruling at the transaction dates. Monetary assets and liabilities, which are expressed in foreign currencies, are translated into Kenya shillings at exchange rates ruling at the balance sheet date. Revenue and Expense items in other currencies are translated into Kenya Shillings using the rate ruling at the transaction date. The resulting differences from conversion and translation are dealt with in the profit and loss account in the year in which they arise.

(c) Offsetting

Financial assets and liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

(d) Revenue Recognition

This includes both aeronautical and non-aeronautical revenues, but excludes investment income, and exchange gains on exchange rate fluctuations. The revenue is recognized when existing airport services such as landing and parking are utilized. Others such as concession and rent are recognized when they fall due.

e) Property, Plant and Equipment

Freehold land is not depreciated as it is deemed to have an indefinite life.

All categories of Property, Plant and Equipment are initially recognized at cost. Cost includes expenditure directly attributable to the acquisition of the assets. Computer software, including the operating system, which is an integral part of the related hardware is capitalized as part of the computer equipment. Freehold land/buildings/plant and machinery/furniture and equipment/computers, copiers and faxes/motor vehicles are

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

NOTES (CONTINUED)

subsequently carried at cost or a revalued amount whenever valuation is carried out by an external independent valuer, less accumulated depreciation and accumulated impairment losses. All other items of property, plant and equipment are subsequently carried at cost less accumulated depreciation and accumulated impairment losses.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Authority and the cost of the item can be measured reliably. Repairs and maintenance expenses are charged to the profit and loss account in the year in which they are incurred.

Depreciation on fixed assets is calculated using the straight-line method so as to write off the cost or valuation of the assets over their estimated useful lives using the following annual rates:

	<u>Rate</u>
Freehold Land	Nil
Leasehold Land	99 years
Pavements (Runways, aprons, taxiways and roads)	4.0%
Permanent buildings	2.5%
Emergency Service Vehicles	10.0%
Other Motor vehicles	25.0%
Electrical -Mechanical Equipment	5.0%
Other Machinery	10.0%
Office Equipment, Furniture and Fixtures	20.0%
Computer and accessories	33.3%

As no parts of items of Property, Plant and Equipment have a cost that is significant in relation to the total cost of the item, the same rate of depreciation is applied to the whole item.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit. On disposal of revalued assets, amounts in the revaluation surplus reserve relating to that asset are transferred to retained earnings.

Capital Works In Progress is not depreciated until such time as the asset is brought into use.

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

NOTES (CONTINUED)

f) Intangible assets

Software license costs and computer software that is not an integral part of the related hardware are initially recognized at cost, and subsequently carried at cost less accumulated amortization and accumulated impairment losses. Costs that are directly attributable to the production of identifiable computer software products controlled by the Authority are recognized as intangible assets. Amortization is calculated using the straight line method to write down the cost of each license or item of software to its residual value over its estimated useful life using an annual rate of 33.3%.

g) Inventories

Inventories are stated at cost or net realizable value for items whose costs cannot be established. Costs of issues are calculated using first-in-first out valuation method.

h) Retirement benefit obligations

Defined Benefit Scheme

The Authority operates a defined benefit scheme for all its employees, funded by contribution from employees. The scheme defines the benefits an employee will receive on retirement. The assets of the scheme are held in a separate trustee administered scheme. The Authority's contributions are charged to the profit and loss account in the year to which they relate.

The Authority changed to Defined Contribution scheme from Defined Benefit scheme with effect from 1/7/2011 in accordance with the Treasury circular no. 18/2010 dated 24th November 2010.

The Authority and the employees also contribute to the National Social Security Fund (NSSF), a national defined contribution scheme. Contributions are determined by local statute and the Authority's contributions are charged to the profit and loss account in the year to which they relate.

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

NOTES (CONTINUED)

i) Employee entitlements

The estimated monetary liability for employees' accrued annual leave entitlement at the balance sheet date is recognized as an employment cost accrual.

(j) Accounting for Leases

Prepaid Leasehold Land is recorded as lease rental and amortized over the term of the lease in accordance with IAS 17.

(k) Income taxes

Income tax expense is the aggregate amount charged/(credited) in respect of current tax and deferred tax in determining the profit or loss for the year. Tax is recognized in the profit and loss account except when it relates to items recognized in other comprehensive income, in which case it is also recognized in other comprehensive income, or to items recognized directly in equity, in which case it is also recognized directly in equity.

Current tax

Current income tax is the amount of income tax payable on the taxable profit for the year, and any adjustment to tax payable in respect of prior years, determined in accordance with the Kenyan Income Tax Act.

Deferred income tax

Deferred income tax is provided in full on all temporary differences except those arising on the initial recognition of an asset or liability, other than a business combination, that at the time of the transaction affects neither the accounting nor taxable profit nor loss. Deferred income tax is determined using the liability method on all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes, using tax rates and laws enacted or substantively enacted at the balance sheet date and expected to apply when the related deferred income tax asset is realized or the deferred tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilized. Recognized and unrecognized deferred tax assets are reassessed at the end of each reporting period and, if appropriate, the recognized amount is adjusted to reflect the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

NOTES (CONTINUED)

(l) Provision for liabilities and charges

Provisions are recognized when the Authority has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

(m) Cash and cash equivalents

Cash and cash equivalents include cash in hand and demand and term deposits, with maturities of three months or less from the date of acquisition, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, net of bank overdrafts.

(n) Grants

Grants towards capital are deferred and brought into income on a basis consistent with the amortization of the related capital assets. This is in compliance with IAS 20.

(o) Biological Assets

Biological Assets have been disclosed at fair values based on market values. Market values is the estimated amount for which the Assets could be exchanged on the date of valuation. This is in compliance with IAS 41.

2. Significant judgments and key sources of estimation uncertainty

In the process of applying the accounting policies adopted by the Authority, the directors make certain judgments and estimates that may affect the carrying values of assets and liabilities in the next financial period. Such judgments and estimates are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the current circumstances. The directors evaluate these at each financial reporting date to ensure that they are still reasonable under the prevailing circumstances based on the information available.

The judgments made by the directors in the process of applying the Authority's accounting policies that have the most significant effect on the amounts recognized in the financial statements include:

Whether it is probable that that future taxable profit will be available against which temporary differences can be utilized.

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

NOTES (CONTINUED)

3. Risk management objectives and policies

a) Financial risk management

The Authority's activities expose it to a variety of financial risks including credit, liquidity and market risks. The Authority's overall risk management policies are set out by the Board and implemented by the management, and focuses on the unpredictability of changes in the business environment and seek to minimize the potential adverse effects of such risks on the Authority's performance by setting acceptable levels of risk..

i) Credit Risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in a financial loss to the Authority.

The credit risk exposures are classified in three categories;

- Fully performing
- Past due
- Impaired

Credit risk on Fixed, Call and Reserves with banking institutions is managed by dealing with institutions with good credit ratings

Credit risk on Trade Receivables is managed by ensuring that credit is extended to customers with an established credit history. The credit history is determined by taking into account the financial position, past experience and other relevant factors. Credit is managed by setting the credit limit and credit period for each customer.

**KENYA AIRPORTS AUTHORITY
FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2013**

NOTES (CONTINUED)

Note

(a) The freehold land was revalued in the financial year 2004/2005 by B. Kavivya, a registered valuer. In the year 2011/2012, assets under the classes of Motor vehicles, machinery and equipment and office equipment, furniture and fittings were valued by Chapter Property Ltd, who are registered valuers. A loss on Revaluation due to impairment of Kshs. 796,509,710 has been w/off to the reserves. Assets of Kshs. 414,514,340 had been fully depreciated as at the close of the year. These assets are however still being used by the Authority. Capital works in progress relates to construction works on the expansion of JKIA Terminal 4 and Car Parking Garage, Aircraft remort stands, Kisumu airport apron, taxi ways, parking, roads and terminal buildings, Malindi and Manda Terminal buildings etc

(b) The Biological assets comprise trees that were planted at Eldoret International Airport and are expected to reach maturity in 2014. The assets were valued at fair value by Mr. Daniel Mbugua, Manager Environment as per IAS 41. The total value of these biological assets is Kshs. 430M

(C) Fire Incident at Jomo Kenyatta International Airport

On 7 August 2013, there was a fire incident at International arrivals. The estimated cost of affected assets is currently under review with the insurers.
