GAZETTE NOTICE NO. 1737

HIGH COURT OF KENYA

EASTER RECESS, 2020

PURSUANT to Article 165 (1) of the Constitution of Kenya and section 10 (2) (b) of the High Court (Organization and Administration) Act, 2015, notice is given as follows:

The Easter Recess of the High Court and Courts of Equal Status shall commence on 2nd April, 2020 and terminate on 14th April, 2020, both days inclusive.

For avoidance of doubt, Recess Duty Judges shall be appointed to hear and try matters arising during recess in accordance with the High Court (Practice and Procedure) Rules as follows:

- In respect of High Court Stations and Divisions, by the Presiding Judges at the respective Stations and Divisions;
- In respect of the Employment and Labour Relations Court, by the Principal Judge of that Court;
- In respect of the Environment and Land Court, by the Presiding Judge of that Court;

In court stations with a single Judge, the matters emanating therefrom will be handled in the nearest High Court station where a Recess Duty Judge is sitting which shall be indicated in the Station's Notice Board by the Presiding Judge of such single Judge Station.

During the Recess, the offices of the aforesaid courts, including registries, shall be open to the public from 8.00 a.m. to 5.00 p.m. on all weekdays other than the public holidays.

Dated the 6th February, 2020.

LADY JUSTICE LYDIA ACHODE,
Principal Judge, High Court.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SPECIAL ECONOMIC ZONE INDUSTRIAL PARK AT PLATEAU AREA, KESSES SUB-COUNTY, UASIN GISHU COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, African Economic Zone Limited is proposing to step up a special Economic Zone Industrial Park at Plateau Area, Kesses Sub-county, Uasin Gishu County, on L.R. No. 6170/63 Original No. 6170/60/3 measuring 692 acres. The Africa Economic Zones Limited intends to initiate implementation of projects that will be undertaken in phases to drive economic growth through industrial investments, socio-economic though employments, as well as development in Uasin Gishu County and the country at large. The phased project — dubbed AEZ Pearl River — Guangdong New South Group Limited, will supervise the construction of an industrial park within the said land parcel. This will consist of establishment of various industries including agro-processing, energy, machinery, engineering, construction, electronic, ICT, chemical and pharmaceuticals. It is also anticipated that the proposed developments at the site will also incorporate establishing a science and technology hub at the parcel. Which will accommodate a technology park, a university, an IT hub and an incubator to support ICT graduates to develop and commercialize new technology. It will further consist of a convention center, administrative, residential, recreational and green zones, administration zone, schools and a social hall, a public library, administration offices, public square and gardens. A wildlife conservancy, film industry, entertainment and tourism are some of the zones in the long-term intentions of the project.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Destruction of physical environment	<ul style="list-style-type: none"> Develop soil erosion control measures which should include silt management structures. Limit the circulation of heavy machinery to minimal areas to reduce soil compaction and vegetation clearance. Rehabilitate material excavated sites. Avoid burning vegetative elements on private/productive land. Use cleaner and environmental friendly methods in bitumen handling. 		<ul style="list-style-type: none"> Insulate noisy machines when working near animal habitats. Maintain vehicle and machinery in good condition in order to minimize gas emissions and noise. Avoid bitumen melting activities in open spaces. Avoid noisy operations in the night.
Increased water demand/supply and water quality	<ul style="list-style-type: none"> Observe the Water Act, 2002 and the 30% water reserve rights for downstream users. Develop and implement a water management plan to include measures on conservation and controlled usage of the resource such as rain water harvesting. Observe the Water Resource Management Rules of 2007 and its subsequent guidelines, the Water Allocation Guidelines in regards to ground water abstraction, surface water (rivers, spring and lake) abstraction. Obtain a water abstraction permit from WRMA and use metering methods to ensure water is abstracted to recommended limit. Do not dispose any form of waste in water bodies. Keep natural water channels free from obstruction. Consult with community members when identifying water sources to avoid conflicts and abstract water according to conditions of acquired permits taking into consideration the quantified reserve for the water body in question. Avoid water contamination and pollution activities at wetlands and riparian areas. Implement appropriate construction site management practices like excavating areas to be worked on only, control flow of excavated materials, cover areas once work is complete. 	Encroachment, displacement and resettlement of project affected persons	<ul style="list-style-type: none"> Appropriate definition of road reserve. Development of structures to deter encroachment. Communicate with community members early enough before commencement of works. Locate areas for relocating PAP's to avoid interfering with their livelihoods. Observe WB requirements on Involuntary Resettlement (OP 4.12).
Destruction of flora and fauna	<ul style="list-style-type: none"> All trees uprooted to pave way for road expansion and access construction should be replanted with indigenous trees. Use alternative sources of fuel. Promote the development of community nurseries. Environmental conservation measures should be instituted as part of the project. 	Occupational health and safety	<ul style="list-style-type: none"> Provide road safety facilities including road signs, speed breaks, footpaths, foot bridges. Provide workers with PPE&C's. Conduct social awareness campaign in project areas. Recruit locals as laborers as much as possible to reduce influx of immigrants to communities. Provide housing and appropriate sanitation facilities for workers including mobile toilets. Provide neutralizing and detoxification foods like milk to workers handling chemicals. Comply with work place legal requirements. Employ competent work force or conduct training and induction courses to workers. Institute Safety drills, disaster preparedness and management programmes. Implement HIV/AIDS and communicable diseases programmes in conjunction with relevant ministries.
Inappropriate drainage	<ul style="list-style-type: none"> Install appropriate drainage structures culverts, mitre drains. Avoid loading rivers, dams with silt. 	Social concerns	<ul style="list-style-type: none"> Accord local community employment and business opportunity as a priority. Identify areas of cultural importance to avoid interference with them when excavating materials. Establish labour camps at reasonable distance from shopping areas and other local social places. Where possible offer women equal employment opportunities to men. Contractor in collaboration with proponent should develop corporate social responsibility programmes (CSR). Contractor should hold continuous site meetings with workers and community members. Develop programmes that can promote peace and harmony such as market area cleanups and riparian area rehabilitation. Rehabilitate infrastructure damaged due project road activities. Compensate land owners appropriately on acquired materials.
Oil spill contamination	<ul style="list-style-type: none"> Provide an oil spill kit at construction site. Avoid melting, spilling and burying tar in productive land. Use cleaner production mechanisms and environmental management systems where appropriate. Avoid spilling oil and other waste into water bodies. 		
Air/noise pollution	<ul style="list-style-type: none"> Operate equipment with air pollution control/environmental management systems. 		

The full report of the proposed project is available for inspection during working hours at:

- (a) Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- (b) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (c) County Director of Environment, Uasin Gishu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.

MAMO B. MAMO,
Ag. Director-General,
National Environment Management Authority.

MR/0786579

GAZETTE NOTICE No. 1765

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED NAIROBI EXPRESSWAY PROJECT IN
NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, China Roads and Bridge Corporation in partnership with Kenya National Highway Authority is proposing a Build Operate Transfer (BOT) model in Kenya. The project entails construction of expressway starting from Mlolongo through JKIA and terminating at James Gichuru roundabout. The project is expected to alleviate traffic congestion along the route. The project is designed as an access controlled dual carriageway to run along the central reserve of the A8 road starting from Mlolongo all the way to James Gichuru. A four-lane dual carriageway with class A standard and a design speed of 80 KPH will be constructed along the medial strip of the A8 National Trunk Road. The total length of the project is approximately 27km, including 15.7km at grade and 11km elevated with 10 interchanges. Tolling will be implemented once the road is put into service.

This project is proposed to be developed in Public Private Partnership ("PPP") mode with 30-year concession period, including 3-year construction period and 27-year operation period.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Employment opportunities	<ul style="list-style-type: none"> • The workforce shall as much as possible, be recruited locally and deliberate measures put to enhance local uptake of employment. • The proponent and his sub-contractors will develop and adhere to a code of conduct, which shall constitute the contract document. • The proponent will abide by Kenyan law, and the ratified labour conventions. • The proponent shall put in place mechanisms to ensure no employee or applicant is discriminated against on the basis of his or her gender, marital status, nationality, ethnicity, age, religion or sexual orientation. • All workers will, as part of their induction, be

Impacts

Proposed Mitigation Measures

Increase in economic activities	<ul style="list-style-type: none"> sensitized on worker rights and responsibilities in line with Kenyan legislation to ensure that positive benefits around labour issues are enhanced. • The proponent will put in place a grievance redress mechanism that will be accessible to all workers, whether permanent or temporary, directly or indirectly employed. • KeNHA and respective Government agencies will undertake surveillance to ensure that no children or forced labour is employed directly, by the proponent, and to the extent possible by third parties related to the project. • Local sources of supplies and services shall be prioritized, as far as feasible, as a way of boosting local economy and building capacity of local businesses.
Capacity enhancement of workforce	<ul style="list-style-type: none"> • KeNHA shall make deliberate effort in ensuring CRBC enhances local work force during the construction period. Specifically, this includes long-term benefits from on-the-job and formal training opportunities for individual workers (direct), and the possibility for capacity enhancements for local and national companies who would have won tenders for work on components of the Expressway.
Traffic congestion	<ul style="list-style-type: none"> • Provision and maintenance of alternative routes in areas where accesses have been disrupted. Such diversion routes shall consider road safety. • Plans for short diversion routes shall be well maintained by regular sprinkling to reduce dust. Adhere to road reserve if possible. • The proponent shall provide and maintain clear traffic signage's of ongoing construction works, regulate speed limits and diversion signage to notify approaching traffic. • In urban areas, delivery of materials to the sites will be scheduled during periods of light traffic. • Project vehicle shall only use designated parking areas. • Workers and area residents will be sensitized on the importance of exercising care in the project area in as far as traffic movement and other safety issues are concerned. • Permission shall be obtained from inhabitants and the County Governments of Machakos and Nairobi respectively, if diversion routes go beyond the Right of Way. • Diversion routes (and old tracks) will be reinstated to original condition. • The contractor will institute a traffic management plan incorporating adequate temporary signages and flagmen as necessary. • The contractor shall institute and implement grievance management system throughout the construction period. • The contractor will undertake repair works at damaged sections of local road used for transportation. • Additional road signs will be installed. • KeNHA, county government, traffic police and other stakeholders will be engaged on the issue of traffic movement during construction and development of additional measures if required.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> • U turns will be installed in accordance with operation of the existing A8. • A Project Specific Grievance Mechanism will be used to record and solve the relevant incidents results. 		<ul style="list-style-type: none"> • All records on dust-related complaints shall be submitted to Resident Engineer for appropriate action. • Demolition of existing structures shall be done in a manner that the dust from demolitions can be controlled. • The contractor will undertake regular air quality (dust level) monitoring and conduct corrective adjustments where necessary.
Land acquisition	<ul style="list-style-type: none"> • Project RAP Study Report will be implemented to guide the compensation and resettlement process. • Compensation for all affected properties shall be done before construction commences. • KeNHA will liaise with the County Governments of Machakos and Nairobi, respectively, in re-establishing affected markets along the road while ensuring safety of traders in the new locations. • Continuous complaints and grievance management system shall be maintained throughout the project implementation phase as proposed in the RAP report. All pertinent stakeholders should be involved in the compensation and grievance redress mechanism during implementation of RAP. • All utilities along the corridor, including but not limited to water pipe, sewer, electric wire and pole, optical cable, will be duly relocated. 	Disruption of public utilities	<ul style="list-style-type: none"> • Adequate notification will be provided to affected customers for planned disruptions.
Blockage of access to properties fronting the Road	<ul style="list-style-type: none"> • The contractor will be required to inform the property owners prior to commencement of works in places where entrance may be blocked. In consultation with property owners the contractor will provide temporary entrance to the affected properties. 	Spread of STI and or HIV/AIDS	<ul style="list-style-type: none"> • KeNHA/CRBC shall, in liaison with approved local organizations, provide awareness training to staff and the locals and periodically monitor the efficacy of the awareness created during the project implementation period. • The workers shall be sensitized on the services on offer in the County e.g. testing, counselling and moonlight VCT for those who fear stigma. • Workers will be sensitized on the need to refrain from risky behaviors. • Condoms will be provided for both male and female in the sanitary facilities and other strategic locations within the project area. • As part of labor influx and management plan, the unskilled workers shall, as far as feasible, be recruited from among the local residents of the project area and its immediate neighbourhood.
Footbridges and crossing points	<ul style="list-style-type: none"> • The project shall provide adequate and safe pedestrian crossing points as per consultation with the stakeholders based on their need where humanly possible in reference to the Project's Final Design. 	Sexual exploitation and abuse SEA/GBV	<ul style="list-style-type: none"> • KeNHA and CRBC, will set up grievance mechanisms under the supervision of KeNHA to document and resolve issues by both the communities and the local labour force. • CRBC employees will be required to sign a code of conduct that prohibits employees from engaging in discrimination, or abusing the authority of their position. • Signing of code of conduct by all project staff will be initiated.
Air pollution	<ul style="list-style-type: none"> • Dust suppression measures shall be provided to enhance visibility at construction sites for oncoming traffic and road users. • Unnecessary vegetation clearance will be avoided through clear demarcation of construction areas. • Where practicable, disturbed areas will be re-vegetated to minimize ground exposure. • Water will be sprinkled (at least twice a day) on the accesses and excavated surfaces during the construction period to suppress dust generation. • The speeds of construction vehicles will be limited (maximum speed limit 40 kph/25 mph) on earth road. • Appropriate protective personal equipment shall be provided including respirators and dustcoats to exposed workers. • The proponent will ensure that the location of material stockpiles are away from human settlements and business premises. • Loaded trucks shall be covered during the transportation of material. • Vehicles and machinery will be maintained in accordance with the equipment specifications and manufacturer's standards. • Workers will be sensitized on best practice, management of air pollution from vehicles and machinery. 	Noise and vibration	<ul style="list-style-type: none"> • The contractor and KeNHA will monitor environmental and occupational noise levels as per the NEMA Environmental Management and Co-ordination (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009 and OSHA, 2007 requirements respectively. • The noise emission characteristics shall be considered during selection and mobilization of construction equipment by the contractor. • Where feasible, equipment with rock mufflers, sound insulations, silencers will be fitted to lower the levels of noise emission. • Construction workers will be sensitized to switch off machinery and vehicles when not in use. • Staff on active project sites with continuous exposure shall be provided and encouraged to fit in their Personal Protective Equipment (PPEs). • Noisy operations like batching plant will be located away from the densely settled areas. • Where noisy activities must be undertaken near sensitive receptors, the neighboring occupants shall be informed in advance and works limited to day time only.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Community road safety and health	<ul style="list-style-type: none"> The proponent will develop and implement construction safety management plan that covers both site and off-site construction activities. The proponent will develop and implement construction traffic management plan incorporating traffic safety. The proponent will establish and maintain continuous liaison with the host communities including sensitization on safety and health issues on construction sites. The proponent will Install and maintain appropriate safety and warning signage along road sections where works are undergoing. The proponent will ensure that dangerous work areas have controlled access limited to authorized persons only. The proponent will maintain a system of receiving and responding to any safety concerns by the communities. The proponent will undertake general and third-party insurance liability covers as appropriate. 		<ul style="list-style-type: none"> speed, and loading, especially banning all carriage of staff, workers and passengers except in seats. The contractor will provide emergency medical care for all staff as necessary as allowed in the Kenyan Law including securing a worker insurance cover as required under WIBA. The contractor will implement road safety campaigns addressing construction zone dangers and encourage motorists to exercise caution when driving through work zones. The contractor will conduct toolbox and monthly safety meetings. The contractor will undertake routine safety inspections. The contractor will have an elaborate medical emergency response plan, inclusive of well-equipped and manned site clinic and reliable evacuation from site to established medical facilities as necessary.
Occupational health and safety	<ul style="list-style-type: none"> The proponent will use OSHA 2007 requirements to set the requirements. The proponent will set up a comprehensive Project Construction Health and Safety Plan will be established and implemented throughout the construction period in line with OSHA requirements. The proponent will obtain a registration of workplace certificate from DOSHS and comply with the subsequent requirements of the Health and Safety Committee Rules, 2004 of the OSHA Act. The contractor will ensure adherence to Health and Safety Policy during construction activities. The contractor will establish an emergency response procedure and display on all work areas. The Contractor will ensure provision of a standard first aid kit at active construction sites at all times and a designate qualified first-aider as per the OSHA requirements. Contractor will maintain an accident register; carry out accident and incidents investigations and implement corrective actions. The contractor will undertake staff and visitor safety induction. The contractor will establish a health and safety committee for the project construction team as per the Health and Safety Committee Rules, 2004 of the OSHA Act. The contractor will engage a qualified Health and Safety auditor to conduct routine and annual Health and Safety (H&S). The contractor will provide appropriate and adequate Personal Protective Equipment (PPE) to workers. The contractor will abide by standard best practice health and safety provisions in the construction contract. The contractor will establish and enforce a strict code of conduct for all project drivers including outside suppliers delivering materials. The code shall focus on safety, especially 	Population influx	<ul style="list-style-type: none"> The contractor will establish a community liaison system to handle complaints from the community. This system will include establishment of a community liaison desk that is easily accessible by the community representatives and their leaders. The contractor will ensure there is adequate security and reasonable controlled access to project offices and residential quarters of immigrant staff. The contracts for project employees will detail codes of conduct with regard to interaction with the local community, use of public and social amenities in the locality, handling of complaints from the local community. contractor will establish a grievance management system to handle internal and external complaints throughout the implementation period. The proponent will develop a labour influx management plan.
		Flora	<ul style="list-style-type: none"> The clearance of the site for construction purposes shall be kept to a minimum. The contractor will utilize existing cleared areas for the site facilities including contractor's camp and stockpiling. The contractor will identify appropriate areas offsite and carry out ex-situ propagation and compensatory planting for ground cover permanently lost to the Nairobi Expressway. As much as possible, existing vegetation will be retained particularly mature trees along the highway. The proponent will avoid or minimize damage to identified trees inhabited by birdlife at Nyayo Stadium and Westlands roundabout The proponent will collaborate with private parties and State Agencies to offset the loss of vegetation by planting trees in areas such as Nairobi National Park, Uhuru Park, City Park and Arboretum, public schools and other public land along the corridor. Afforestation: The other activity the proponent can support is compensatory tree planting to offset the ground cover that will be permanently lost to Nairobi Expressway. It is proposed that tree cover double the acreage

Drainage structures shall be inspected and unclogged if blocked to ensure uninhibited movement of storm water.

- Disused borrow pits and quarries should be appropriately rehabilitated and NEMA invited for inspection prior to handing back the site to the owner.

The full report of the proposed project is available for inspection during working hours at:

- (a) Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
 - (b) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
 - (c) County Director of Environment, Nairobi City County.
 - (d) County Director of Environment, Machakos County.
- The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.

 MR/0786784

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT
 (No. 8 of 1999)

THE NATIONAL ENVIRONMENTAL MANAGEMENT AUTHORITY FOR THE PROPOSED REVITALIZATION OF KISUMU PORT INFRASTRUCTURE IN KISUMU COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Ports Authority, is proposing to revitalize the Kisumu Port infrastructure which currently occupies 17.5 hectares and land out of which 6 ha. are currently occupied by old and dilapidated infrastructure that includes 262m quay, a rail-wagon ferry pier, including 90 meters of berthing space alongside the pier almost perpendicular to the main quay, a warehouse measuring 50m by 16m on the main quay, a 3,000m² paved storage area directly behind the warehouse designed to accommodate a throughput of 15,000 Twenty-foot Equivalent Units (TEUs) per annum and offices for the harbor master, customs, and police department in Kisumu County.

Proposed Mitigation Measures

- Scale down the area proposed for dredging from 837ha to 150ha.
- Procure and deploy silt curtains during dredging.
- Determine the acceptable critical limits for water quality as per baseline and EMMP.
- Develop and implement a Water Quality Monitoring Plan in collaboration with NEMA Lead Experts.

Visual Impact

- The proponent will practice progressive rehabilitation of quarries and borrow pits as work progresses and as per site specific material sites rehabilitation plan.
- The design shall factor east-west orientation of elevated structures so as to avoid the possibility of creating a shadow-effect on buildings abutting the road.
- Rise in temperatures may not have a direct bearing on the expressway, however associated extreme weather events such as heavier than usual rainfall could impact on the project area through flooding and intensified soil erosion. The design has adopted a 50 year flood return period which potentially factors extreme weather events experienced within that time span and provides for adequate structures to accommodate any eventualities.
- Construction materials including sand, stones and borrow materials shall be sourced from duly approved sources only: For example, hardstone will be obtained from licensed quarries.
- Materials haulage routes shall be pre-determined to avoid off road driving.
- The contractor shall develop a system of tracking materials received *vis a vis* utilization to ensure proper materials management to avoid wastage.
- Material borrow sites owned by the contractor shall have approved environmental, social and safety management plans incorporating rehabilitation procedures upon decommissioning.
- With improved roads, diverse people will stream into the project area.
- KenHA in consultation with the county government shall enforce development control by not allowing for any development approvals on the road reserve to ward off potential encroachers and to allow for easy implementation of future road maintenance or expansion plans.
- Install and maintain road reserve boundary posts at appropriate intervals.
- Conduct awareness talks and presentations about the road reserve.
- Relevant authorities such as NTSA and Traffic Police should enforce traffic regulations to enhance road safety. Further, authorities can record and monitor traffic incidents with a view of investigating root causes and implementing remedial actions to prevent or minimize chance of recurrence.
- Closely liaise with stakeholders during defects notification period to identify strategic locations for additional safety interventions to minimize road accidents.

Impact

Climate change

- The proponent shall prepare quarry and borrow pit management and rehabilitation plans.
- The proponent will practice progressive rehabilitation of quarries and borrow pits as work progresses and as per site specific material sites rehabilitation plan.
- The design shall factor east-west orientation of elevated structures so as to avoid the possibility of creating a shadow-effect on buildings abutting the road.
- Rise in temperatures may not have a direct bearing on the expressway, however associated extreme weather events such as heavier than usual rainfall could impact on the project area through flooding and intensified soil erosion. The design has adopted a 50 year flood return period which potentially factors extreme weather events experienced within that time span and provides for adequate structures to accommodate any eventualities.
- Construction materials including sand, stones and borrow materials shall be sourced from duly approved sources only: For example, hardstone will be obtained from licensed quarries.
- Materials haulage routes shall be pre-determined to avoid off road driving.
- The contractor shall develop a system of tracking materials received *vis a vis* utilization to ensure proper materials management to avoid wastage.

- Closely liaise with stakeholders during defects notification period to identify strategic locations for additional safety interventions to minimize road accidents.

Road safety

- The proponent shall prepare quarry and borrow pit management and rehabilitation plans.
- The proponent will practice progressive rehabilitation of quarries and borrow pits as work progresses and as per site specific material sites rehabilitation plan.
- The design shall factor east-west orientation of elevated structures so as to avoid the possibility of creating a shadow-effect on buildings abutting the road.
- Rise in temperatures may not have a direct bearing on the expressway, however associated extreme weather events such as heavier than usual rainfall could impact on the project area through flooding and intensified soil erosion. The design has adopted a 50 year flood return period which potentially factors extreme weather events experienced within that time span and provides for adequate structures to accommodate any eventualities.
- Construction materials including sand, stones and borrow materials shall be sourced from duly approved sources only: For example, hardstone will be obtained from licensed quarries.
- Materials haulage routes shall be pre-determined to avoid off road driving.
- The contractor shall develop a system of tracking materials received *vis a vis* utilization to ensure proper materials management to avoid wastage.
- Material borrow sites owned by the contractor shall have approved environmental, social and safety management plans incorporating rehabilitation procedures upon decommissioning.
- With improved roads, diverse people will stream into the project area.
- KenHA in consultation with the county government shall enforce development control by not allowing for any development approvals on the road reserve to ward off potential encroachers and to allow for easy implementation of future road maintenance or expansion plans.
- Install and maintain road reserve boundary posts at appropriate intervals.
- Conduct awareness talks and presentations about the road reserve.
- Relevant authorities such as NTSA and Traffic Police should enforce traffic regulations to enhance road safety. Further, authorities can record and monitor traffic incidents with a view of investigating root causes and implementing remedial actions to prevent or minimize chance of recurrence.
- Closely liaise with stakeholders during defects notification period to identify strategic locations for additional safety interventions to minimize road accidents.

- The proponent will maintain a buffer zone along the Nairobi River and Ngong River.
- Discharges to River Nairobi and Ngong River should be carried out only by relevant...
- The contractor shall prevent sediment-laden run-off and other suspended materials from the site/working areas from discharging into Nairobi River and Ngong River.
- The capacity of all drainage structures shall be informed by hydrological studies to be able to manage peak runoff.
- Drainage outfalls shall not be directed into adjacent land or premises.
- The proponent will ensure stability and protection of soil adjacent to the constructed drains to ensure integrity of structure.
- The drainage outfalls shall follow proper levels for construction to reduce the intensity of erosion from surface run-off.
- The proponent will identify existing extraction wells within the zone of influence pre-construction.
- The proponent will undertake water sampling pre-construction and conduct periodic monitoring of groundwater during construction and operation.
- The size and duration of exposure of areas of open ground will be kept to the minimum.
- The proponent will regularly maintain the project equipment as per the manufacturer's instruction to prevent possibility of spillage and subsequent contamination of ground water.
- Areas for handling fuel and bitumen shall be bunded, concrete or underlain with impervious sheet to minimize chances of ground water contamination from spillage.
- Equipment maintenance activity shall not be undertaken near a water source.
- The proponent will minimize project activities at river crossing points and only carry out work on necessary sites which will be isolated to prevent silt propagating downstream.
- Camp sites, waste disposal and spoil dumping areas shall be located away from the surface water sources.
- Water containing pollutants such as bitumen, cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site where applicable.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> Share results of the water quality monitoring plan with stakeholders. 		<ul style="list-style-type: none"> Re-use and recycle construction materials where practical.
Bioavailability of heavy metals from dredging	<ul style="list-style-type: none"> Procure and deploy silt curtains during dredging. Develop and implement a sediment and fish quality monitoring plans focusing on heavy metals. Share results of sediment and fish quality monitoring plans with stakeholders. Notification to proponent, NEMA and stakeholders if high levels of heavy metal concentrations are reported. 	Destruction of the physical environment	<ul style="list-style-type: none"> Obtaining permits to fell trees from KFS and County Government. Retain tree cover in areas that will not be revitalized. Landscaping by planting grass and flowers. Compacting loose soils to prevent erosion during revitalization.
Impact of dredging on biodiversity	<ul style="list-style-type: none"> Procure and deploy silt curtains during dredging. Develop and implement a biodiversity monitoring plan for both the areas to be dredged. Share results of sediment quality monitoring plan with stakeholders. 	Solid waste generation and management	<ul style="list-style-type: none"> Use of overburden in backfilling and landscaping. Sensitize construction workers on the process of solid waste collection, segregation and proper disposal. Procure adequate solid waste collection bins with capacity for segregation. Procure the services of a NEMA licensed waste handler to dispose solid wastes from revitalized areas and the dredger. Comply with the Waste Management Regulations, 2006.
Impact of dumping of dredged material	<ul style="list-style-type: none"> Do not dump within the lake ecosystem. Scaling down the size of the area to be dredged. Dumping onshore at the port, leveling and compacting of the area for potential future expansion of port. Construction of a retaining wall or gabions and rock boulders. Afforestation of the levelled area by planting grass and fast maturing trees. 	Noise pollution	<ul style="list-style-type: none"> Limit revitalization works to day time hours only. Locate machinery that are likely to produce noise as far as practical from neighboring properties. Procure and provide adequate earmuffs to workers and visitors to the site and enforce their use. Use of serviceable machinery and equipment. Sensitize truck drivers to avoid unnecessary hooting and running of vehicle engines.
Human-wildlife conflicts	<ul style="list-style-type: none"> Revised dredging area has provided buffer zones for hippo habitat of more than 500m. Fencing the fridges of hippo grass habitats. Setting up a hotline in collaboration with KWS for reporting of sightings of hippos and sharing the same with stakeholders. 	Air pollution	<ul style="list-style-type: none"> Install appropriate and adequate dust screens around the Revitalization areas. Sprinkle water at the excavation areas. Cover stock piles of construction materials. Procure, provide and enforce the use of dust masks. Use of serviceable machinery/equipment and trucks. Monitor fugitive emissions to ensure compliance. Comply with Air Quality Regulations, 2014.
Oil spills and bioaccumulation of polycyclic aromatic hydrocarbons (PAHs) from dredging activities	<ul style="list-style-type: none"> Prevent oil spills from occurring through effective maintenance of the dredger and precautionary measures. Ensure that the dredger is serviceable and licensed to operate by IMO and KMA. Procure an oil spill response boom, equipment and train personnel on its use in the event of oil spills. Use of degreasers to dissolve localized oil spills during ship/equipment maintenance. Waste oil from the ship to be collected and disposed by NEMA licensed contractors only. Comply with the provisions of the Marpol Convention, EMCA and KMA Acts. 	Safety and health risks	<ul style="list-style-type: none"> Ensure the dredger is licensed by the IMO and KMA. Create awareness among lake users and required safety measures. Dredger should have an early warning system for local fishermen within the Bay. Hire qualified and well-trained personnel for the dredging and construction works. Obtain insurance cover for all employees and the construction site. Provide Personal Protective Equipment (PPE). Recruit qualified and experienced EHS officers. Install safety signages and boards at all construction zones.
Impacts of dredging on fisheries	<ul style="list-style-type: none"> Procure and use silt curtains. Establish a liaison committee between the proponent, contractor and the local Beach Management Units. Develop and implement a grievance redress mechanism. Compensation for local fishermen for restricted or loss of access to traditional fishing grounds. 		
Sourcing of raw materials	<ul style="list-style-type: none"> Procure materials in line with the Bill of Quantities. Source raw materials from sites that are EMCA Compliant. 		

Impacts**Proposed Mitigation Measures**

- Comply with the Merchant Shipping Act, 2009.
- Comply with the Occupational Safety and Health Act, 2007.
- All accidents should be reported, investigated and corrective action taken to prevent reoccurrence.

The full report of the proposed project is available for inspection during working hours at:

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement, etc.*:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.

SUBSCRIPTION AND ADVERTISEMENT CHARGES

With effect from 1st July, 2012, subscription and advertisement fee for the *Kenya Gazette* are as follows:

SUBSCRIPTION CHARGES:

	<i>KSh. cts.</i>
Annual Subscription (excluding postage in Kenya)	13,920 00

KARIMENU II DAM WATER SUPPLY PROJECT

INTENTION TO ACQUIRE LAND

IN PURSUANCE of Land Act, 2012, Part VIII, and further to Gazette Notice No. 3970, 5265 and 5267 of 2018. The National Land Commission on behalf of Athi Water Works Development Agency intends to add parcels of land listed below for construction of Karimenu II Dam Water Supply project in Kiambu County for public purpose.

SCHEDULE

Addendum

Land Parcel Number	Registered Owner/s	Area Acquired (Ha.)
Chania/Kanyoni/107	Kaiyaka Wangonya	0.180
Chania/Kanyoni/108	Anthony Macharia Kariuki, Joseph Njoroge Ndungu, Peter Nyutu Ndungu, Moses Njuguna Ndungu, Peter Ndungu Muthee	0.022
Chania/Kanyoni/115	James Kariuki Wanganju	1.368

Land Parcel Number	Registered Owner/s	Area Acquired (Ha.)
Chania /Kanyoni/133	Peter Murigi Ngugi	0.177
Chania/Kanyoni/340	Mwangi Kamau	0.120
Chania/Kanyoni/342	Benson Thumbi Mwangi, Henry Muiruri Mwangi	0.060
Chania/Kanyoni/354	Mwangi Mbutia	0.922
Chania/Kanyoni/360	Muiruri Kabaru	0.179
Chania/Kanyoni/364	Irungu kamau	0.485
Chania/Kanyoni/397	Mbugwa Gakau	3.653
Chania/Kanyoni/405	Roise Wambui Kagiri	0.370
Chania/Kanyoni/406	Patrick Gachanja Nganga, Mary Wairimu Nganga	0.020
Chania/Kanyoni/415	Gichiru Mukuria	0.410
Chania/Kanyoni/416	Gichiru Mukuria	0.280
Chania/Kanyoni/417	John Ndegwa Kaganjo	0.810
Chania/Kanyoni/420	Kamau Kimani	0.630
Chania/Kanyoni/426	Andrew Njoroge Wangombe	0.260
Chania/Kanyoni/428	Johana Njoroge	0.370
Chania/Kanyoni/431	Michael Peter Gateri s/o Simeon Mwareri	0.210
Chania/Kanyoni/437	Ziporah Wangui Maina	0.270
Chania/Kanyoni/438	Charles Mwangi Nduati, Simon Maina Nduati, Francis Kagiri Nduati, Samuel Gichia Nduati	0.400
Chania/Kanyoni/455	Kagwathi Waiti	1.460
Chania/Kanyoni/457	Gicheha Njau, John Njoroge Ng'ang'a	0.110
Chania/Kanyoni/484	Ndungu Kimemia	0.020
Chania/Kanyoni/486	Kimani Mwangi, John Muikia Kimani	0.660
Chania/Kanyoni/489	John Mwangi Kimuhu and J. Sammy Mugo Kimuhu	1.900
Chania/Kanyoni/492	Kamoi Gakuya	0.230
Chania/Kanyoni/493	Joseph Kariuki Muiruri, James Karanja Muiruri, Paul Muiruri	0.550
Chania/Kanyoni/503	Samuel Nganga Mugo, Kimenwa Karanja, Salome Muthoni Kigo	0.570
Chania/Kanyoni/505	Ngugi Karanja	0.910
Chania/Kanyoni/506	Kabui Muguima	0.670
Chania/Kanyoni/508	Macharia Muguima	0.940
Chania/Kanyoni/509	Gachau Kagui	0.910
Chania/Kanyoni/511	David Mwangi Muiru	0.180
Chania/Kanyoni/514	Joseph Ndungu Gicharu	0.780
Chania/Kanyoni/532	Simon Kuria Kanyori	0.040
Chania/Kanyoni/534	Josephat Njoroge Chege	0.110
Chania/Kanyoni/535	Chege Kamau	0.070
Chania/Kanyoni/544	Ng'ang'a Njoroge	0.230

GAZETTE NOTICE NO. 1737

HIGH COURT OF KENYA

EASTER RECESS, 2020

PURSUANT to Article 165 (1) of the Constitution of Kenya and section 10 (2) (b) of the High Court (Organization and Administration) Act, 2015, notice is given as follows:

The Easter Recess of the High Court and Courts of Equal Status shall commence on 2nd April, 2020 and terminate on 14th April, 2020, both days inclusive.

For avoidance of doubt, Recess Duty Judges shall be appointed to hear and try matters arising during recess in accordance with the High Court (Practice and Procedure) Rules as follows:

- In respect of High Court Stations and Divisions, by the Presiding Judges at the respective Stations and Divisions;
- In respect of the Employment and Labour Relations Court, by the Principal Judge of that Court;
- In respect of the Environment and Land Court, by the Presiding Judge of that Court;

In court stations with a single Judge, the matters emanating therefrom will be handled in the nearest High Court station where a Recess Duty Judge is sitting which shall be indicated in the Station's Notice Board by the Presiding Judge of such single Judge Station.

During the Recess, the offices of the aforesaid courts, including registries, shall be open to the public from 8.00 a.m. to 5.00 p.m. on all weekdays other than the public holidays.

Dated the 6th February, 2020.

LADY JUSTICE LYDIA ACHODE,
Principal Judge, High Court.

GAZETTE NOTICE NO. 1764

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED SPECIAL ECONOMIC ZONE INDUSTRIAL PARK AT PLATEAU AREA, KESSES SUB-COUNTY, UASIN GISHU COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, African Economic Zone Limited is proposing to step up a special Economic Zone Industrial Park at Plateau Area, Kesses Sub-county, Uasin Gishu County, on L.R. No. 6170/63 Original No. 6170/60/3 measuring 692 acres. The Africa Economic Zones Limited intends to initiate implementation of projects that will be undertaken in phases to drive economic growth through industrial investments, socio-economic though employments, as well as development in Uasin Gishu County and the country at large. The phased project — dubbed AEZ Pearl River — Guangdong New South Group Limited, will supervise the construction of an industrial park within the said land parcel. This will consist of establishment of various industries including agro-processing, energy, machinery, engineering, construction, electronic, ICT, chemical and pharmaceuticals. It is also anticipated that the proposed developments at the site will also incorporate establishing a science and technology hub at the parcel. Which will accommodate a technology park, a university, an IT hub and an incubator to support ICT graduates to develop and commercialize new technology. It will further consist of a convention center, administrative, residential, recreational and green zones, administration zone, schools and a social hall, a public library, administration offices, public square and gardens. A wildlife conservancy, film industry, entertainment and tourism are some of the zones in the long-term intentions of the project.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Destruction of physical environment	<ul style="list-style-type: none"> • Develop soil erosion control measures which should include silt management structures. • Limit the circulation of heavy machinery to minimal areas to reduce soil compaction and vegetation clearance. • Rehabilitate material excavated sites. • Avoid burning vegetative elements on private/productive land. • Use cleaner and environmental friendly methods in bitumen handling. 		<ul style="list-style-type: none"> • Insulate noisy machines when working near animal habitats. • Maintain vehicle and machinery in good condition in order to minimize gas emissions and noise. • Avoid bitumen melting activities in open spaces. • Avoid noisy operations in the night.
Increased water demand/supply and water quality	<ul style="list-style-type: none"> • Observe the Water Act, 2002 and the 30% water reserve rights for downstream users. • Develop and implement a water management plan to include measures on conservation and controlled usage of the resource such as rain water harvesting. • Observe the Water Resource Management Rules of 2007 and its subsequent guidelines, the Water Allocation Guidelines in regards to ground water abstraction, surface water (rivers, spring and lake) abstraction. • Obtain a water abstraction permit from WRMA and use metering methods to ensure water is abstracted to recommended limit. • Do not dispose any form of waste in water bodies. • Keep natural water channels free from obstruction. • Consult with community members when identifying water sources to avoid conflicts and abstract water according to conditions of acquired permits taking into consideration the quantified reserve for the water body in question. • Avoid water contamination and pollution activities at wetlands and riparian areas. • Implement appropriate construction site management practices like excavating areas to be worked on only, control flow of excavated materials, cover areas once work is complete. 	Encroachment, displacement and resettlement of project affected persons	<ul style="list-style-type: none"> • Appropriate definition of road reserve. • Development of structures to deter encroachment. • Communicate with community members early enough before commencement of works. • Locate areas for relocating PAP's to avoid interfering with their livelihoods. • Observe WB requirements on Involuntary Resettlement (OP 4.12).
Destruction of flora and fauna	<ul style="list-style-type: none"> • All trees uprooted to pave way for road expansion and access construction should be replanted with indigenous trees. • Use alternative sources of fuel. • Promote the development of community nurseries. • Environmental conservation measures should be instituted as part of the project. 	Occupational health and safety	<ul style="list-style-type: none"> • Provide road safety facilities including road signs, speed breaks, footpaths, foot bridges. • Provide workers with PPE&C's. • Conduct social awareness campaign in project areas. • Recruit locals as laborers as much as possible to reduce influx of immigrants to communities. • Provide housing and appropriate sanitation facilities for workers including mobile toilets. • Provide neutralizing and detoxification foods like milk to workers handling chemicals. • Comply with work place legal requirements. • Employ competent work force or conduct training and induction courses to workers. • Institute Safety drills, disaster preparedness and management programmes. • Implement HIV/AIDS and communicable diseases programmes in conjunction with relevant ministries.
Inappropriate drainage	<ul style="list-style-type: none"> • Install appropriate drainage structures culverts, mitre drains. • Avoid loading rivers, dams with silt. 	Social concerns	<ul style="list-style-type: none"> • Accord local community employment and business opportunity as a priority. • Identify areas of cultural importance to avoid interference with them when excavating materials. • Establish labour camps at reasonable distance from shopping areas and other local social places. • Where possible offer women equal employment opportunities to men. • Contractor in collaboration with proponent should develop corporate social responsibility programmes (CSR). • Contractor should hold continuous site meetings with workers and community members. • Develop programmes that can promote peace and harmony such as market area cleanups and riparian area rehabilitation. • Rehabilitate infrastructure damaged due project road activities. • Compensate land owners appropriately on acquired materials.
Oil spill contamination	<ul style="list-style-type: none"> • Provide an oil spill kit at construction site. • Avoid melting, spilling and burying tar in productive land. • Use cleaner production mechanisms and environmental management systems where appropriate. • Avoid spilling oil and other waste into water bodies. 		
Air/noise pollution	<ul style="list-style-type: none"> • Operate equipment with air pollution control/environmental management systems. 		

The full report of the proposed project is available for inspection during working hours at:

- (a) Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- (b) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (c) County Director of Environment, Uasin Gishu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.

MAMO B. MAMO,
Ag. Director-General,

MR/0786579

National Environment Management Authority.

GAZETTE NOTICE No. 1765

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED NAIROBI EXPRESSWAY PROJECT IN
NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, China Roads and Bridge Corporation in partnership with Kenya National Highway Authority is proposing a Build Operate Transfer (BOT) model in Kenya. The project entails construction of expressway starting from Mlolongo through JKIA and terminating at James Gichuru roundabout. The project is expected to alleviate traffic congestion along the route. The project is designed as an access controlled dual carriageway to run along the central reserve of the A8 road starting from Mlolongo all the way to James Gichuru. A four-lane dual carriageway with class A standard and a design speed of 80 KPH will be constructed along the medial strip of the A8 National Trunk Road. The total length of the project is approximately 27km, including 15.7km at grade and 11km elevated with 10 interchanges. Tolling will be implemented once the road is put into service.

This project is proposed to be developed in Public Private Partnership ("PPP") mode with 30-year concession period, including 3-year construction period and 27-year operation period.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Employment opportunities	<ul style="list-style-type: none"> • The workforce shall as much as possible, be recruited locally and deliberate measures put to enhance local uptake of employment. • The proponent and his sub-contractors will develop and adhere to a code of conduct, which shall constitute the contract document. • The proponent will abide by Kenyan law, and the ratified labour conventions. • The proponent shall put in place mechanisms to ensure no employee or applicant is discriminated against on the basis of his or her gender, marital status, nationality, ethnicity, age, religion or sexual orientation. • All workers will, as part of their induction, be

Impacts

Proposed Mitigation Measures

	<ul style="list-style-type: none"> sensitized on worker rights and responsibilities in line with Kenyan legislation to ensure that positive benefits around labour issues are enhanced. • The proponent will put in place a grievance redress mechanism that will be accessible to all workers, whether permanent or temporary, directly or indirectly employed. • KeNHA and respective Government agencies will undertake surveillance to ensure that no children or forced labour is employed directly, by the proponent, and to the extent possible by third parties related to the project.
Increase in economic activities	<ul style="list-style-type: none"> • Local sources of supplies and services shall be prioritized, as far as feasible, as a way of boosting local economy and building capacity of local businesses.
Capacity enhancement of workforce	<ul style="list-style-type: none"> • KeNHA shall make deliberate effort in ensuring CRBC enhances local work force during the construction period. Specifically, this includes long-term benefits from on-the-job and formal training opportunities for individual workers (direct), and the possibility for capacity enhancements for local and national companies who would have won tenders for work on components of the Expressway.
Traffic congestion	<ul style="list-style-type: none"> • Provision and maintenance of alternative routes in areas where accesses have been disrupted. Such diversion routes shall consider road safety. • Plans for short diversion routes shall be well maintained by regular sprinkling to reduce dust. Adhere to road reserve if possible. • The proponent shall provide and maintain clear traffic signage's of ongoing construction works, regulate speed limits and diversion signage to notify approaching traffic. • In urban areas, delivery of materials to the sites will be scheduled during periods of light traffic. • Project vehicle shall only use designated parking areas. • Workers and area residents will be sensitized on the importance of exercising care in the project area in as far as traffic movement and other safety issues are concerned. • Permission shall be obtained from inhabitants and the County Governments of Machakos and Nairobi respectively, if diversion routes go beyond the Right of Way. • Diversion routes (and old tracks) will be reinstated to original condition. • The contractor will institute a traffic management plan incorporating adequate temporary signages and flagmen as necessary. • The contractor shall institute and implement grievance management system throughout the construction period. • The contractor will undertake repair works at damaged sections of local road used for transportation. • Additional road signs will be installed. • KeNHA, county government, traffic police and other stakeholders will be engaged on the issue of traffic movement during construction and development of additional measures if required.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> • U turns will be installed in accordance with operation of the existing A8. • A Project Specific Grievance Mechanism will be used to record and solve the relevant incidents results. 		<ul style="list-style-type: none"> • All records on dust-related complaints shall be submitted to Resident Engineer for appropriate action. • Demolition of existing structures shall be done in a manner that the dust from demolitions can be controlled.
Land acquisition	<ul style="list-style-type: none"> • Project RAP Study Report will be implemented to guide the compensation and resettlement process. • Compensation for all affected properties shall be done before construction commences. • KeNHA will liaise with the County Governments of Machakos and Nairobi, respectively, in re-establishing affected markets along the road while ensuring safety of traders in the new locations. • Continuous complaints and grievance management system shall be maintained throughout the project implementation phase as proposed in the RAP report. All pertinent stakeholders should be involved in the compensation and grievance redress mechanism during implementation of RAP. • All utilities along the corridor, including but not limited to water pipe, sewer, electric wire and pole, optical cable, will be duly relocated. 		<ul style="list-style-type: none"> • The contractor will undertake regular air quality (dust level) monitoring and conduct corrective adjustments where necessary.
Blockage of access to properties fronting the Road	<ul style="list-style-type: none"> • The contractor will be required to inform the property owners prior to commencement of works in places where entrance may be blocked. In consultation with property owners the contractor will provide temporary entrance to the affected properties. 	Disruption of public utilities	<ul style="list-style-type: none"> • Adequate notification will be provided to affected customers for planned disruptions.
Footbridges and crossing points	<ul style="list-style-type: none"> • The project shall provide adequate and safe pedestrian crossing points as per consultation with the stakeholders based on their need where humanly possible in reference to the Project's Final Design. 	Spread of STI and or HIV/AIDS	<ul style="list-style-type: none"> • KeNHA/CRBC shall, in liaison with approved local organizations, provide awareness training to staff and the locals and periodically monitor the efficacy of the awareness created during the project implementation period. • The workers shall be sensitized on the services on offer in the County e.g. testing, counselling and moonlight VCT for those who fear stigma. • Workers will be sensitized on the need to refrain from risky behaviors. • Condoms will be provided for both male and female in the sanitary facilities and other strategic locations within the project area. • As part of labor influx and management plan, the unskilled workers shall, as far as feasible, be recruited from among the local residents of the project area and its immediate neighbourhood.
Air pollution	<ul style="list-style-type: none"> • Dust suppression measures shall be provided to enhance visibility at construction sites for oncoming traffic and road users. • Unnecessary vegetation clearance will be avoided through clear demarcation of construction areas. • Where practicable, disturbed areas will be re-vegetated to minimize ground exposure. • Water will be sprinkled (at least twice a day) on the accesses and excavated surfaces during the construction period to suppress dust generation. • The speeds of construction vehicles will be limited (maximum speed limit 40 kph/25 mph) on earth road. • Appropriate protective personal equipment shall be provided including respirators and dustcoats to exposed workers. • The proponent will ensure that the location of material stockpiles are away from human settlements and business premises. • Loaded trucks shall be covered during the transportation of material. • Vehicles and machinery will be maintained in accordance with the equipment specifications and manufacturer's standards. • Workers will be sensitized on best practice, management of air pollution from vehicles and machinery. 	Sexual exploitation and abuse SEA/GBV	<ul style="list-style-type: none"> • KeNHA and CRBC, will set up grievance mechanisms under the supervision of KeNHA to document and resolve issues by both the communities and the local labour force. • CRBC employees will be required to sign a code of conduct that prohibits employees from engaging in discrimination, or abusing the authority of their position. • Signing of code of conduct by all project staff will be initiated.
		Noise and vibration	<ul style="list-style-type: none"> • The contractor and KeNHA will monitor environmental and occupational noise levels as per the NEMA Environmental Management and Co-ordination (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009 and OSHA, 2007 requirements respectively. • The noise emission characteristics shall be considered during selection and mobilization of construction equipment by the contractor. • Where feasible, equipment with rock mufflers, sound insulations, silencers will be fitted to lower the levels of noise emission. • Construction workers will be sensitized to switch off machinery and vehicles when not in use. • Staff on active project sites with continuous exposure shall be provided and encouraged to fit in their Personal Protective Equipment (PPEs). • Noisy operations like batching plant will be located away from the densely settled areas. • Where noisy activities must be undertaken near sensitive receptors, the neighboring occupants shall be informed in advance and works limited to day time only.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Community road safety and health	<ul style="list-style-type: none"> • The proponent will develop and implement construction safety management plan that covers both site and off-site construction activities. • The proponent will develop and implement construction traffic management plan incorporating traffic safety. • The proponent will establish and maintain continuous liaison with the host communities including sensitization on safety and health issues on construction sites. • The proponent will Install and maintain appropriate safety and warning signage along road sections where works are undergoing. • The proponent will ensure that dangerous work areas have controlled access limited to authorized persons only. • The proponent will maintain a system of receiving and responding to any safety concerns by the communities. • The proponent will undertake general and third-party insurance liability covers as appropriate. 		<ul style="list-style-type: none"> speed, and loading, especially banning all carriage of staff, workers and passengers except in seats. • The contractor will provide emergency medical care for all staff as necessary as allowed in the Kenyan Law including securing a worker insurance cover as required under WIBA. • The contractor will implement road safety campaigns addressing construction zone dangers and encourage motorists to exercise caution when driving through work zones. • The contractor will conduct toolbox and monthly safety meetings. • The contractor will undertake routine safety inspections. • The contractor will have an elaborate medical emergency response plan, inclusive of well-equipped and manned site clinic and reliable evacuation from site to established medical facilities as necessary.
Occupational health and safety	<ul style="list-style-type: none"> • The proponent will use OSHA 2007 requirements to set the requirements. • The proponent will set up a comprehensive Project Construction Health and Safety Plan will be established and implemented throughout the construction period in line with OSHA requirements. • The proponent will obtain a registration of workplace certificate from DOSHS and comply with the subsequent requirements of the Health and Safety Committee Rules, 2004 of the OSHA Act. • The contractor will ensure adherence to Health and Safety Policy during construction activities. • The contractor will establish an emergency response procedure and display on all work areas. • The Contractor will ensure provision of a standard first aid kit at active construction sites at all times and a designate qualified first-aider as per the OSHA requirements. • Contractor will maintain an accident register; carry out accident and incidents investigations and implement corrective actions. • The contractor will undertake staff and visitor safety induction. • The contractor will establish a health and safety committee for the project construction team as per the Health and Safety Committee Rules, 2004 of the OSHA Act. • The contractor will engage a qualified Health and Safety auditor to conduct routine and annual Health and Safety (H&S). • The contractor will provide appropriate and adequate Personal Protective Equipment (PPE) to workers. • The contractor will abide by standard best practice health and safety provisions in the construction contract. • The contractor will establish and enforce a strict code of conduct for all project drivers including outside suppliers delivering materials. The code shall focus on safety, especially 	Population influx	<ul style="list-style-type: none"> • The contractor will establish a community liaison system to handle complaints from the community. This system will include establishment of a community liaison desk that is easily accessible by the community representatives and their leaders. • The contractor will ensure there is adequate security and reasonable controlled access to project offices and residential quarters of immigrant staff. • The contracts for project employees will detail codes of conduct with regard to interaction with the local community, use of public and social amenities in the locality, handling of complaints from the local community. • contractor will establish a grievance management system to handle internal and external complaints throughout the implementation period. • The proponent will develop a labour influx management plan.
		Flora	<ul style="list-style-type: none"> • The clearance of the site for construction purposes shall be kept to a minimum. • The contractor will utilize existing cleared areas for the site facilities including contractor's camp and stockpiling. • The contractor will identify appropriate areas offsite and carry out ex-situ propagation and compensatory planting for ground cover permanently lost to the Nairobi Expressway. • As much as possible, existing vegetation will be retained particularly mature trees along the highway. • The proponent will avoid or minimize damage to identified trees inhabited by birdlife at Nyayo Stadium and Westlands roundabout • The proponent will collaborate with private parties and State Agencies to offset the loss of vegetation by planting trees in areas such as Nairobi National Park, Uhuru Park, City Park and Arboretum, public schools and other public land along the corridor. • Afforestation: The other activity the proponent can support is compensatory tree planting to offset the ground cover that will be permanently lost to Nairobi Expressway. It is proposed that tree cover double the acreage

Impacts	Proposed Mitigation Measures
	<ul style="list-style-type: none"> The contractor shall prevent sediment-laden run-off and other suspended materials from the site/working areas from discharging into Nairobi River and Ngong River. Discharges to River Nairobi and Ngong will only be carried out under consent of the relevant regulatory bodies.
Visual impact	<ul style="list-style-type: none"> The proponent shall prepare quarry and borrow pit management and rehabilitation plans; The proponent will practice progressive rehabilitation of quarries and borrow pits as work progresses and as per site specific material sites rehabilitation plan. The design shall factor east-west orientation of the sun when determining the height of the elevated structures so as to avoid the possibility of creating a shadow-effect on buildings abutting the road.
Climate change	<ul style="list-style-type: none"> Rise in temperatures may not have a direct bearing on the expressway, however associated extreme weather events such as heavier than usual rainfall could impact on the project area through flooding and intensified soil erosion. The design has adopted a 50 year flood return period which potentially factors extreme weather events experienced within that time span and provides for adequate structures to accommodate any eventualities.
Impacts on natural resources materials sites	<ul style="list-style-type: none"> Construction materials including sand, stones and borrow materials shall be sourced from duly approved sources only: For example, hardstone will be obtained from licensed quarries. Materials haulage routes shall be pre-determined to avoid off road driving. The contractor shall develop a system of tracking materials received <i>vis a vis</i> utilization to ensure proper materials management to avoid wastage. Material borrow sites owned by the contractor shall have approved environmental, social and safety management plans incorporating rehabilitation procedures upon decommissioning.
Population influx	<ul style="list-style-type: none"> With improved roads, diverse people will stream into the project area.
Encroachment along the project road	<ul style="list-style-type: none"> KeNHA in consultation with the county governments shall enforce development control by not allowing for any development approvals on the road reserve to ward off potential encroachers and to allow for easy implementation of future road maintenance or expansion plans. Install and maintain road reserve boundary posts at appropriate intervals. Conduct awareness talks and presentations about the road reserve.
Road safety	<ul style="list-style-type: none"> Relevant authorities such as NTSA and Traffic Police should enforce traffic regulations to enhance road safety. Further, authorities can record and monitor traffic incidents with a view of investigating root causes and implementing remedial actions to prevent or minimize chance of recurrence. Closely liaise with stakeholders during defects notification period to identify strategic locations for additional safety interventions to minimize road accidents.

Impacts	Proposed Mitigation Measures
Hydrological flow patterns	<ul style="list-style-type: none"> Permanent anti-erosion features at river crossings should be regularly inspected and maintained during operation. Drainage structures shall be inspected and unclogged if blocked to ensure uninhibited movement of storm water.
Visual impact	<ul style="list-style-type: none"> Disused borrow pits and quarries should be appropriately rehabilitated and NEMA invited for inspection prior to handing back the site to the owner.

The full report of the proposed project is available for inspection during working hours at:

- Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- County Director of Environment, Nairobi City County.
- County Director of Environment, Machakos County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.

MAMO B. MAMO,
Ag. Director-General,
National Environment Management Authority.

MR/0786784

GAZETTE NOTICE No. 1766

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED REVITALIZATION OF KISUMU PORT
INFRASTRUCTURE IN KISUMU COUNTY

INVITATION OF PUBLIC COMMENTS

Pursuant to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Ports Authority, is proposing to revitalize the Kisumu Port infrastructure which currently occupies 17.5 hectares of land out of which 6 ha. are currently occupied by old and dilapidated infrastructure that includes 262m quay, a rail-wagon ferry pier, including 90 meters of berthing space alongside the pier almost perpendicular to the main quay, a warehouse measuring 50m by 16m on the main quay, a 3,000m² paved storage area directly behind the warehouse designed to accommodate a throughput of 15,000 Twenty-foot Equivalent units (TEUs) per annum and offices for the harbor master, customs, and police department in Kisumu County.

Impacts	Proposed Mitigation Measures
Impact of dredging on water quality	<ul style="list-style-type: none"> Scale down the area proposed for dredging from 837ha to 150ha. Procure and deploy silt curtains during dredging. Determine the acceptable critical limits for water quality as per baseline and EMMP. Develop and implement a Water Quality Monitoring Plan in collaboration with NEMA Lead Experts.

Impacts	Proposed Mitigation Measures	Impacts	Proposed Mitigation Measures
	<p>should be planted on Nairobi National Park, Uhuru and City parks/Aboretum, public schools and other government land. The tree nurseries support proposed could also be used in this regard. To achieve this, it is recommended that the proponent supports the establishment of tree nurseries in the areas that are traversed by the road.</p> <ul style="list-style-type: none"> River cleanup: The Rivers Nairobi and Ngong crossing the proposed Nairobi Expressway are heavily polluted with domestic, industrial and solid waste. The proponent will take the incentive to help clean up the rivers with organized collaboration with Nairobi City County. 	Soil erosion	<ul style="list-style-type: none"> The road design will be optimized to limit the gradient of the access roads to reduce runoff-induced erosion, and provide adequate road drainage based on road width, surface material, compaction and maintenance. To prevent waterlogging of the roadbed by surface water and possible water-induced erosion, the design provides for surface water drainage, including water drainage from the sole of the embankment with ditches. Culvert outfall shall be lined for an appropriate distance to protect soils adjoining the drainage structure. Scour checks shall be constructed alongside drains on steep slopes to prevent scouring. The loss exposed soils will be stabilized and compact to minimize susceptibility to erosion.
Fauna	<ul style="list-style-type: none"> The proponent will maintain a buffer strip of existing vegetation alongside Nyayo Stadium. Where this buffer zone is necessarily breached by the road design, the construction will be environmentally sympathetic. If interference of bird habitat in Nyayo Stadium and Westlands roundabout is unavoidable, clearance shall be done in two stages; clearance of adjacent non-habitat trees prior to clearing habitat trees. Trees cleared during two-stage process shall be left on site for several days to provide temporary habitat for the displaced birds and allow time for free escape for any remaining birds. Safety barrier will be installed on both sides of the road and along the median strip to minimize chances of road kill. 	Drainage interruption	<ul style="list-style-type: none"> The proponent will ensure storm water drainage aligns to the natural drainage system as much as possible. The proponent will harmonize drainage with all point sources of surface run-off such as existing A8 road, and the neighbouring properties. The capacity of all drainage structures shall be informed by hydrological studies to be able to manage peak runoff. Drainage outfalls shall not be directed into adjacent land or premises. The proponent will ensure stability and protection of soil adjacent to the constructed drains to ensure integrity of structure. The drainage outfalls shall follow proper levels for construction to reduce the intensity of erosion from surface run-off.
Impact on geological processes	<ul style="list-style-type: none"> To prevent the development of unfavorable geological processes, the project provides for the strengthening of the roadbed, depending on the height of the mound and the angle of slope, followed by sowing of herbs. To prevent waterlogging of the roadbed by surface water and possible water erosion, the project provides for a system of surface drainage, including water drainage from the sole of the embankment with ditches. Culverts for streams with slopes exceeding 2% are designed according to the off-the-shelf solution: construction of gullies and dampers to prevent erosion on the inlet and outlet pipe sections. The project provides for grass seeding. The Project design will consider the relevant national regulatory requirements related to seismic design and risk assessment and also the findings of the site specific geological/geotechnical investigation study. 	Ground water quality	<ul style="list-style-type: none"> The proponent will identify existing extraction wells) within the zone of influence pre-construction. The proponent will undertake water sampling pre-construction and conduct periodic monitoring of groundwater during construction and operation. The size and duration of exposure of areas of open ground will be kept to the minimum. The proponent will regularly maintain the project equipment as per the manufacturer's instruction to prevent possibility of spillage and subsequent contamination of ground water. Areas for handling fuel and bitumen shall be bunded, concreted or underlain with impervious sheet to minimize chances of ground water contamination from spillage.
Soil degradation due to removal of soil-vegetation layer	<ul style="list-style-type: none"> Where possible, land withdrawal will be minimized during the design stage; adherence to allocated land boundaries during construction. It is proposed a layer-by-layer removal of topsoil, avoiding of mixing with underlying infertile horizons and construction waste. Land restoration will be carried out in two stages: technical (land planning and application of topsoil) and biological. 	Surface water quality	<ul style="list-style-type: none"> Equipment maintenance activity shall not be undertaken near a water source. The proponent will minimize project activities at river crossing points and only carry out work on necessary sites which will be isolated to prevent silt propagating downstream. Camp sites, waste disposal and spoil dumping areas shall be located away from the surface water sources. Water containing pollutants such as bitumen, cements, concrete, lime, chemicals and fuels shall be discharged into a conservancy tank for removal from site where applicable.
Change of water regime of soils	<ul style="list-style-type: none"> The proponent will construct culverts and bridges crossing permanent watercourses. The proponent will undertake land restoration. 		

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	<ul style="list-style-type: none"> Share results of the water quality monitoring plan with stakeholders. 		<ul style="list-style-type: none"> Re-use and recycle construction materials where practical.
Bioavailability of heavy metals from dredging	<ul style="list-style-type: none"> Procure and deploy silt curtains during dredging. Develop and implement a sediment and fish quality monitoring plans focusing on heavy metals. Share results of sediment and fish quality monitoring plans with stakeholders. Notification to proponent, NEMA and stakeholders if high levels of heavy metal concentrations are reported. 	Destruction of the physical environment	<ul style="list-style-type: none"> Obtaining permits to fell trees from KFS and County Government. Retain tree cover in areas that will not be revitalized. Landscaping by planting grass and flowers. Compacting loose soils to prevent erosion during revitalization.
Impact of dredging on biodiversity	<ul style="list-style-type: none"> Procure and deploy silt curtains during dredging. Develop and implement a biodiversity monitoring plan for both the areas to be dredged. Share results of sediment quality monitoring plan with stakeholders. 	Solid waste generation and management	<ul style="list-style-type: none"> Use of overburden in backfilling and landscaping. Sensitize construction workers on the process of solid waste collection, segregation and proper disposal. Procure adequate solid waste collection bins with capacity for segregation. Procure the services of a NEMA licensed waste handler to dispose solid wastes from revitalized areas and the dredger. Comply with the Waste Management Regulations, 2006.
Impact of dumping of dredged material	<ul style="list-style-type: none"> Do not dump within the lake ecosystem. Scaling down the size of the area to be dredged. Dumping onshore at the port, leveling and compacting of the area for potential future expansion of port. Construction of a retaining wall or gabions and rock boulders. Afforestation of the levelled area by planting grass and fast maturing trees. 	Noise pollution	<ul style="list-style-type: none"> Limit revitalization works to day time hours only. Locate machinery that are likely to produce noise as far as practical from neighboring properties. Procure and provide adequate earmuffs to workers and visitors to the site and enforce their use. Use of serviceable machinery and equipment. Sensitize truck drivers to avoid unnecessary hooting and running of vehicle engines.
Human-wildlife conflicts	<ul style="list-style-type: none"> Revised dredging area has provided buffer zones for hippo habitat of more than 500m. Fencing the fridges of hippo grass habitats. Setting up a hotline in collaboration with KWS for reporting of sightings of hippos and sharing the same with stakeholders. 	Air pollution	<ul style="list-style-type: none"> Install appropriate and adequate dust screens around the Revitalization areas. Sprinkle water at the excavation areas. Cover stock piles of construction materials. Procure, provide and enforce the use of dust masks. Use of serviceable machinery/equipment and trucks. Monitor fugitive emissions to ensure compliance. Comply with Air Quality Regulations, 2014.
Oil spills and bioaccumulation of polycyclic aromatic hydrocarbons (PAHs) from dredging activities	<ul style="list-style-type: none"> Prevent oil spills from occurring through effective maintenance of the dredger and precautionary measures. Ensure that the dredger is serviceable and licensed to operate by IMO and KMA. Procure an oil spill response boom, equipment and train personnel on its use in the event of oil spills. Use of degreasers to dissolve localized oil spills during ship/equipment maintenance. Waste oil from the ship to be collected and disposed by NEMA licensed contractors only. Comply with the provisions of the Marpol Convention, EMCA and KMA Acts. 	Safety and health risks	<ul style="list-style-type: none"> Ensure the dredger is licensed by the IMO and KMA. Create awareness among lake users and required safety measures. Dredger should have an early warning system for local fishermen within the Bay. Hire qualified and well-trained personnel for the dredging and construction works. Obtain insurance cover for all employees and the construction site. Provide Personal Protective Equipment (PPE). Recruit qualified and experienced EHS officers. Install safety signages and boards at all construction zones.
Impacts of dredging on fisheries	<ul style="list-style-type: none"> Procure and use silt curtains. Establish a liaison committee between the proponent, contractor and the local Beach Management Units. Develop and implement a grievance redress mechanism. Compensation for local fishermen for restricted or loss of access to traditional fishing grounds. 		
Sourcing of raw materials	<ul style="list-style-type: none"> Procure materials in line with the Bill of Quantities. Source raw materials from sites that are EMCA Compliant. 		

Impacts**Proposed Mitigation Measures**

- Comply with the Merchant Shipping Act, 2009.
- Comply with the Occupational Safety and Health Act, 2007.
- All accidents should be reported, investigated and corrective action taken to prevent reoccurrence.

The full report of the proposed project is available for inspection during working hours at:

- (c) Principal Secretary, Ministry of Environment and Forestry, NHIF Building, Community, P.O. Box 30126-00100, Nairobi.
- (d) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- (c) County Director of Environment, Kisumu County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process regarding this plan.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement, etc.*:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the *Gazette*.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
