a) Justice shall be done to all irrespective of status;
b) Justice shall not be delayed;
c) Alternative forms of dispute resolution including reconciliations, mediation, arbitration and traditional dispute mechanism shall be promoted;
d) Justice shall be administered without undue regard to procedural technicalities; and

C.2 Expenditure Trends for the 2017/18 – 2019/20 Budget

The Judiciary budget allocations in FY 2017/18 was Kshs. 14.652 Billion which increased by 11% to Kshs. 16.289 Billion in FY 2018/19 and rose again by 4% to Kshs. 16.963 Billion in FY 2019/20. The absorption rate remained at 94% in FY 2017/18 and FY 2018/19 but improved to 95% in FY 2019/20.

Analysis of Recurrent Expenditure

Breakdown of the recurrent expenditure by economic classification is shown in Table 2.2, which shows that the recurrent budget allocation increased by 3% in FY 2018/19 and then rose by 5% in FY 2019/20. The share of compensation to employees over the total recurrent budget increased slightly from 58% in FY 2018/19 to 59% in FY 2019/20 which may be attributed to the harmonization of salary structure following

implementation of the new organisation structure. Consequently, the share of other recurrent declined from 42% in FY 2018/19 to 41% in FY 2019/20.

The expenditure attained under the recurrent vote averaged at 97% in the three FYs. Absorption under compensation to employees was at 96% in FY 2017/18 rising to 100% in both FY 2018/19 and FY 2019/20. There were allocation to Grants and Transfers in the year because all tribunals and NCAJ were classified as spending units under the Judiciary.

Analysis of Recurrent Budget for Semi-Autonomous Government Agencies (SAGAs) in Kshs. Millions

There was no budget allocation under the classification of Transfers to SAGAs in the FY 2019/20. Previously the budget allocations for the Tribunals and the National Council on Administration of Justice (NCAJ) was classified under Transfers to SAGAs until FY 2018/2019. This was the case from the time the Tribunals's budget a;;pcatopms were moved from respective ministries to the Judiciary and for NCAJ from the date of establishment. Tribunals and the NCAJ are spending units within Judiciary and their budgets are now classified the same way as court budgets. The budgets allocated to Tribunals and NCAJ was Kshs 934 million in 2017/18 and declined to Kshs 593 million in 2018/19. The Judiciary may continue to receive more Tribunals as they are transited from Ministries.

Achievements in the FY 2018/19

- Two High Court Divisions were established in Kisumu and Mombasa to deal with anti-corruption and Economic Crimes matters. In addition, the Admiralty Division was established in Mombasa to deal with maritime related matters. Two (2) new Magistrates Courts were established at Msambweni and Ruiru.
- To strengthen human resource capacity, 49 magistrates were appointed and 87 staff were recruited and deployed to serve in various stations.
- The Judiciary facilitated appointment of board members and operationalized Tribunals that have transited by coordinating implementation of their programs and activities. The Tribunals are expected to provide specialized mechanism for expedient dispute resolution. The focus in 2018/19 was largely on capacity building, creating public awareness, development of rules of procedure and automation of court processes.
- In the year under review, 484,349 matters were filed in courts across the country and 469,359 cases were resolved hence a Case Clearance Rate (CCR) of 96%. This is a remarkable improvement from 93% in the previous period given the substantial increase in the number of filed matters. The high CCR was partly as a result of the sustained rapid results initiatives such as *justice@last* and service weeks, mobile courts/circuits and improvement in operational efficiency. The High Court undertook service weeks in 12 stations that had huge case backlog. A total of 7,472 cases that were more than 5 years old were resolved in the High Court. ELRC conducted service weeks in Nairobi and Kisumu where 2,364 matters were concluded. ELC conducted service weeks in seven (7) court stations where 1,133 cases were determined and as a result the case clearance rate for the court rose to a remarkable 158% in FY 2018/19.
- Improvement of physical access to courts remained a key priority and as such refurbishment and construction of court buildings were undertaken. The works included shelving of registries, installation of water tanks, construction of

ablution blocks, customer care, waiting bays and installations of solar system. This was done in 15 High Court buildings at Milimani, Kisumu, Makueni, Bomet, Kisii, Voi, Vihiga Thika, Nyeri, Meru, Marsabit, Naivasha, Narok, Lodwar, and Kitui and 42 Magistrate court buildings at Kaloleni, Sirisia, Winam, Mavoko, Baricho, Bondo, Bungoma, Butali, Eldama Ravine, Githunguri, Hamisi, Homabay, Kabarnet, Nairobi Kadhis' Court, Kajiado, Kandara, Kangu'ndo, Kapsabet, Kehancha, Kisumu (Old building), Keroka, Kerugoya, Kikuyu, Kilifi, Kitale, Kyuso, Lamu, Mariakani, Marimanti, Maua, Mbita, Migori, Moyale, Mumias, Mutomo, Ndhiwa, Ngong, Siakago, Ukwala, Mombasa, Kaloleni and Ogembo; and at the National Civil Aviation and Administrative Review Tribunal's premises.

- Further, a total of 276 implementing units including 4 tribunals implemented their Performance Management and Measurement understanding (PMMUs), which were later evaluated and exemplary performers rewarded.
- As part of the digital strategy, an additional six (6) court stations were connected with internet to bring the total to 128 (86%) court stations. This has eased

connectivity and facilitated other services such as e-filing and Case Management System.

- Court recording and transcription equipment were installed in six courtrooms in the Commercial and Tax Division at the Milimani Commercial Courts. This equipment has reduced the time taken to type court proceedings and also waiting time for the judgement.
- The electronic filing (E-filing) system implemented at the Commercial and Tax Division at the Milimani Commercial Courts has reduced time taken to file cases from an average five hours to about 30 minutes, besides eliminating the cost of transport to and from the court registries. C.4 Constraints and challenges in budget implementation and how they will be addressed

During the period under review, the Judiciary experienced the following challenges which have continued to compromise the delivery of service to its' customers. The challenges include: -

i. Delay in the Appointment of Judges

Inordinate delays in appointment of judges recommended by the Judicial Service Commission, which is in contravention of Article 259 (8) of the Constitution, has adversely affected court operations. For instance, Court of Appeal has had to recall judges serving in stations outside Nairobi where they couldn't constitute benches as required.

ii. Insufficient Funding

The Judiciary has continued to receive inadequate funding over the years. This has hampered establishment and construction of courts in counties and sub-counties. Key programmes such as constitution of special benches, operationalization of small claims courts, court annexed mediation, AJS, service weeks, pro bono, mobile courts and circuits have been scaled down due to lack of adequate resources. The insufficient funding has also affected court operations, automation and recruitment of judicial officers and staff.

iii. Lack of Legal Framework for Transition of Tribunals

The transition of the Tribunals to the Judiciary as part of the court system has faced challenges due to lack of legal framework that provides for standardized procedure for appointment of chairpersons, members and staff as well as funding of their operations. The Tribunal's bill prepared to address some of these challenges is still pending at the office of the Attorney General.

iv. Lack of infrastructure for Tribunals

Tribunals are currently operating in disparate buildings most of which are not ideal for court business. Some of these facilities are not well maintained posing occupational and health risks to staff.

v. Lack of Re-sentencing Guidelines

In Petition No 15 & 16 of 2015, Francis Karioko Muruatetu vs. Republic & 3 Others, the Supreme Court declared the mandatory nature of the death penalty unconstitutional. This decision essentially allowed a person sentenced under a minimum mandatory sentence to apply for re-sentencing where mitigation of sentence was feasible. The lack of the re-sentencing guidelines has resulted in case backlog and non-uniformity in the manner in which the petitions are made.

vi. Limitations of the IFMIS operations

The National Treasury loads the budget on a quarterly basis without reference to the Judiciary cash flow requirements as expected under sections 44 and 45 of the PFM Regulations. This disrupts the implementation of the activities as some are projected for implementation within a given quarter and not over the whole financial year. In addition, there are frequent downtimes with the system and this affects the timely procurement and payments for works done and services rendered

vii. Security

The Judiciary remains vulnerable to attacks on its physical facilities and personnel. This poses a great threat to the well-being of judges, judicial officers and staff as well as litigants and other court users thus impacting on the dispensation of justice. Sufficient funding is required to enhance the security of judiciary infrastructure and its personnel. This includes security awareness training, self-defence training, purchase of security equipment, and the provision of security guards across the institution.

viii. Delays in processing title documents for Land belonging to Judiciary

Most courts lack land ownership documents occasioned by the historical aspect of courts being housed in government quarters. This has delayed implementation of some infrastructure projects that are funded by development partners who require Judiciary to have proof of land ownership.

Recommendations on how to address the challenges

In order to sustain and build on the successes that have already been attained, the Judiciary recommends the following measures be undertaken during the coming MTEF period: -

i. There is need to review, harmonize, and adopt statutes governing adoption of ICT in court procedures.
ii. There is need to speed up the finalization of rules to guide the re-sentencing hearings and ensure the completion of the pending petitions.
iii. A legal framework to govern the use of ADR in courts to be expedited.
iv. Fast track the enactment of the Tribunals Bill into law to provide a legal framework for transitioning and management of the Tribunals.
v. Increase resource allocation to Judiciary to facilitate, recruitment, expansion and completion of court infrastructure and to support digitisation of court processes and automation of registry operations; court programmes such as mobile courts, ADR, AJS and the operationalization of Small Claims Courts including recruitment and facilitation of adjudicators.
vi. Adopt multi-stakeholder capacity building and sensitization on the challenges introduced by emerging legal frontiers.
vii. Requests for exchequer releases should be responded to promptly and predictably to enable the Judiciary implement the approved cash flow plan as provided for in the PFM Regulations, 2015 44(2)).
viii. Operationalize the Judiciary Fund to improve on financial autonomy as envisaged in the Constitution.
ix. The National Land Commission and Ministry of Lands to assist the Judiciary in acquiring land titles where the courts are situated.
x. The payment of pauper brief fees should be borne by the National Legal Aid Service.
xi. Other agencies dealing with witnesses attending cases in court should be funded to meet part of their cost/expenses.
xii. Continued partnerships with stakeholders will be strengthened especially for provision of court premises and land for construction.

C.5 Major services/outputs to be provided in MTEF period 2020/21 - 2023/24

- Improve access to courts and reduction of average distance to courts
- Increased accessibility to court services and Judicial Services
- Enhanced access to justice through transport facilitation

Part D: Strategic Objectives

Programme: The Judiciary's mandate is implemented through one Programme; **"Dispensation of Justice".**

Strategic Objective

The overriding objective for the Judiciary is to provide equitable access to and expeditious delivery of justice. Under the Judiciary Strategic Plan (2019 - 2023), the strategic objectives are phrased as key result areas as below. These are to:

SECTION 1: DELIVERY OF PLANNED OUTPUTS

1.1 Review of Performance

The following are the key achievements during the review period:

1.1.1 Achievements in the FY 2017/18

- In a bid to enhance access to justice the Judiciary established the following courts and sub-registries:
  - ✓ A high court at Kiambu bringing the total number of counties with high court stations to thirty-eight (38).
  - ✓ Thika and Kwale High Court sub-registries.
  - ✓ Eight (8) Environment and Land Courts (ELC) in Narok, Makueni, Nyahururu, Thika, Garissa, Chuka, Kajiado, and Migori bringing the total to 26 ELC courts across the country.
  - ✓ ELC sub-registries in Naivasha, Kilgoris and Engineer Courts.
  - ✓ Eleven (11) Khadhis' Courts at Mbalambala, Daadab, Ijaara, Elwak, Takaba, Garbatulla, Merti, Burte, Faza, Msambweni and Eldas.
  - ✓ The Anti-corruption and Economic Crimes Division of the High Court at Milimani Law Courts and its practice directions were gazetted with a view to expedite resolution of the corruption cases.
  - ✓ The Case Clearance Rate (CCR) improved to 93 per cent. This was attributed to various initiatives such as justice @last, service weeks, mobile courts/circuits, increased number of judicial officers and staff and commitment to meet statutory timelines in election petitions among others. For example, a total of 300 election petitions filed were heard and determined within the stipulated time frames, the Political Parties Disputes Tribunal heard and determined 306 disputes arising from party primaries and 234 disputes from party lists of nominations.
  - ✓ To reduce distance travelled to court facilities, an additional 48 mobile magistrate courts were facilitated at Modogashe, Zombe, Alale, Faza Island,

Songhor, Kisanana, Kasigau, Rumuruti, Kiambere, Nyatike, Etago, Murua Dikirr (Trans Mara East), Kathangacini, Kuresoi, Ngobit, Olokurto, Bute, Elwak, Rhamu, Borabu, Migwani, Kikima, Kendu Bay, Navakholo, Maguga, Ol'Kalou, Khwisero, Sololo, Kachibora, Magharini, Mikinduri, Kabiyet, Gaitu, Wamunyu, Marafa, Malaba, Kipkelion, Magadi, Mtito-Andei, Kitise, Timau, Kishushe, Butula and Mutuati .

- To improve physical access to justice,

SECTION 5: BUDGET IMPLEMENTATION IN FY 2017/18

Analysis of Expenditure Trends

The Judiciary budget allocations in FY 2017/18 was Kshs. 14.652 Billion which increased by 11% to Kshs. 16.289 Billion in FY 2018/19 and rose by 4% to Kshs. 16.963 Billion in FY 2019/20. The absorption rate remained 94% in FY 2017/18, and FY 2018/19 and improved slightly to 95% in FY 2019/20.

Analysis of Recurrent Expenditure

Breakdown of the recurrent expenditure by economic classification is shown in Table 2.2. Analysis shows that the recurrent budget allocation increased by 3% in FY 2018/19 and then rose by 5% in FY 2019/20. The share of compensation to employees over the total recurrent budget increased slightly from 58% in FY 2018/19 to 59% in FY 2019/20 which may be attributed to the harmonization of salary structure following implementation of the new organization structure. The share of other recurrent declined from 42% in FY 2018/19 to 41% in FY 2019/20.

The expenditure attained under the recurrent vote averaged at 97% in the three FYs. Absorption under compensation to employees was at 96% in FY 2017/18 but rose to 100% in both FY 2018/19 and FY 2019/20. There were no transfers in the year because all tribunals and NCAJ were classified as spending units under the Judiciary.

SECTION 7: REVIEW OF PENDING BILLS

Total pending bills for the FY 2018/19 amounted to **Kshs. 788.6** Million representing a 8% decrease from **KShs 856** Million FY 2018/19. Most of these pending bills arose due to lack of exchequer to pay commitments amounting to **Kshs 356.6** million while bills of **Kshs 432** million were not paid due to closure of financial period. This was compounded by delays in presentation of invoices and certificates by suppliers culminating to some payments not being processed.

The recurrent pending bills amounted to **Kshs. 711.1 million,** while development pending bills amounted to **KShs 76.6**.

The following measures will be taken to settle the pending bills: -

1. The pending bills will form the first charge on the respective items in the preceding FY.
2. The Judiciary will endeavor to plan and undertake procurement early in the FY.
3. For bills arising towards the end of the FY under existing contracts, the Judiciary will request the National Treasury for special consideration to process the bills in the IFMIS.

EXECUTIVE SUMMARY

The Judiciary is an independent state organ of government whose mandate is to administer justice in a manner that protects the Constitution and upholds the rule of law. This mandate is discharged through development of jurisprudence and providing independent, accessible, fair and responsive fora for dispute resolution. Operations of the Judiciary are primarily financed from the Consolidated Fund as appropriated by National Assembly.

The Judiciary's budget process is anchored on Article 173 (3) of the Constitution that requires the Chief Registrar of the Judiciary (CRJ) to prepare estimates of expenditure each financial year. Public Finance Management (PFM) Act, 2012, Judicial Service Act, 2011, Judiciary Fund Act, 2016 and Judiciary Fund Regulations, 2019 guide the budgeting process including providing budget format and specific timelines to be adhered to. The process is highly consultative and participatory as required in Article 201 of the Constitution and Section 37(5)(a) of the PFM Act, 2012.

This Judiciary MTEF Budget Report presents the context of Judiciary's current operations and undertakes a review of programme performance for the MTEF period 2017/18 to 2019/20 and the planned outputs for the medium term 2021/22 – 2023/24. It also outlines priority areas, stakeholder linkages, challenges and recommendations.

A review of the FY 2019/20 indicates that a total of **337,510** matters were filed in courts across the country and **289,728** were resolved hence a Case Clearance Rate (CCR) of 86%. Case Clearance Rate in all tribunals under the Judiciary stood at 72 per cent. In the period under review **5,944** matters were filed and **4,274** matters were resolved. New magistrate mobile courts were established and conducted in Butula (Busia), Mutuati (Maua), Endau (Kitui), Konoin (Sotik) and Sereolipi (Isiolo) bringing the total number of operational mobile courts to sixty (60).

Access to Justice was enhanced through the establishment of two (2) Magistrate Courts at Kahawa and Dadaab to bring the total number of court stations to 127. Three (3) Kadhi Courts were also established at Bura/Fafi, Witu and Modogashe to bring to 47 the total number of Kadhi Court Stations. Supreme Court reviewed its Rules and Practice Directions to address gaps in case management and the conduct of proceedings. The Rules provide for the administration of the Court, case management, conduct of proceedings, petition on declaration of state of emergency, contempt of court pleadings and applicable court fees and costs. Alternative forms of dispute resolutions were entrenched through establishment of fourteen (14) mediation sub-registries. Court of Appeal Rules were revised to introduce ADR mechanisms in the court among others. ELRC adopted use of Court Annexed Mediation in Nairobi, Kericho, Mombasa and Kisumu.

Significant progress in the implementation of the Digital Strategy was realised through expansion of ICT infrastructure. In support of the court operations, the Judiciary adopted the use of virtual courts to continue offering court services during the COVID-19 pandemic period. To facilitate use of digital and virtual technology in court, the Chief Justice gazetted practice directions on electronic case management on 4th March 2020. In the period of March - June 2020 when the courts had limited physical access, 27,111 cases were resolved by use of virtual technology. Case management and e-filing system modules was completed and integrated with the e-receipting modules under JFMIS forming the new Case Tracking System (CTS). The CTS was rolled out to fifty-nine (59) of the court stations and Tribunals across the country. This System provides e-filing, e-case search, e-diary, e-payment and e-receipting, e-signature, e-stamping, e-assessment and generation of court orders.

Emerging issues in the medium term include the need for the Judiciary to prepare for the upcoming General Elections in 2022 where an influx of cases arising from party elections, nomination of candidates and petitions is expected. The Judiciary through its committee on election will embark on *inter alia*; review of rules of procedure, capacity building programmes and facilitation of courts. Further, COVID-19 pandemic, which has continued to affect the operations of courts, demands that additional investment in ICT is prioritised. New legal frontiers such as social media, constitutional issues, global changes among others call for enhanced capacity building of Judges, Judicial Officers and Staff.

The medium term priorities identified in this Report are drawn from the Judiciary Strategic Plan 2019-2023. These are presented under the Judiciary's programme of Dispensation of Justice, which has two sub programmes namely: Access to Justice and Administration and Support Services. The priority areas identified for funding in the FY 2021/22 include adoption of ICT and automation; expansion of Court Annexed Mediation; undertaking of rapid results initiatives targeting case backlog; facilitation of *pro bono*; entrenchment of Alternative Dispute Resolution (ADR) initiatives such as arbitration and traditional justice systems; construction and rehabilitation of court buildings and facilities to improve access to justice; establishment of new and facilitation of existing mobile courts in marginalized and far-flung areas; recruitment of Judges, Judicial Officers and staff to enhance capacity for improved service delivery. The estimated resource requirement for the FY 2021/22 is **Kshs. 35.38 Billion.**

This report is arranged in six thematic chapters: Chapter One provides information on the Judiciary's background, vision, mission, core mandate and the role of key stakeholders; Chapter Two documents performance review for the last three financial years, an analysis of budget utilization and status of pending bills; Chapter Three proposes targeted outputs and required resources in the period FY 2021/22 –

2023/24; Chapter Four outlines the emerging issues and challenges facing the Judiciary. Chapter Five presents the conclusions and Chapter Six sets forth recommendations to be considered during the MTEF period.

CHAPTER ONE

INTRODUCTION

Article 1 of the Constitution provides that sovereign authority vests in the people of Kenya, and has been delegated to the various State organs including the Judiciary. Being an independent custodian of justice, as established under Article 159 of the Constitution, the Judiciary draws its authority from the people of Kenya and exercises it through Courts and Tribunals. It is mandated to administer justice and promote the rule of law.

The Judiciary discharges this mandate by developing jurisprudence and providing independent, accessible, fair and responsive fora for dispute resolution. Through interpretation of the Constitution, the Judiciary promotes the rule of law by shaping public policy and ensuring access to justice. The operations of the Judiciary are primarily financed from the Consolidated Fund as appropriated by National Assembly from time to time.

2.2. Expenditure Analysis (2017/18 – 2019/20)

The Judiciary budget allocations in FY 2017/18 was Kshs. 14.652 Billion which increased by 11% to Kshs. 16.289 Billion in FY 2018/19 and rose by 4% to Kshs. 16.963 Billion in FY 2019/20. The absorption rate remained 94% in FY 2017/18, and FY 2018/19 and improved slightly to 95% in FY 2019/20.

Analysis of Recurrent Expenditure

Breakdown of the recurrent expenditure by economic classification is shown in Table 2.2. Analysis shows that the recurrent budget allocation increased by 3% in FY 2018/19 and then rose by 5% in FY 2019/20. The share of compensation to employees over the total recurrent budget increased slightly from 58% in FY 2018/19 to 59% in FY 2019/20 which may be attributed to the harmonization of salary structure following implementation of the new organisation structure. The share of other recurrent declined from 42% in FY 2018/19 to 41% in FY 2019/20.

The expenditure attained under the recurrent vote averaged at 97% in the three FYs. Absorption under compensation to employees was at 96% in FY 2017/18 but rose to 100% in both FY 2018/19 and FY 2019/20. There were no transfers in the year because all tribunals and NCAJ were classified as spending units under the Judiciary.

Analysis of Recurrent Budget for Semi-Autonomous Government Agencies (SAGAs)

There was no budget allocation classified as Transfers to SAGAs in the FY 2019/20. Previously the budget allocations for the Tribunals and the National Council on Administration of Justice (NCAJ) was under Transfers to SAGAs until FY 2018/2019. This was an oversight on the part of the National Treasury from the time the Tribunals were moved from the ministries to the Judiciary and from the time NCAJ was established. Tribunals and NCAJ are spending units within Judiciary and their budgets are now classified same way court budgets are classified. The budgets allocated to Tribunals and NCAJ was Kshs 934 million in 2017/18 and declined to Kshs 593 million in 2018/19. The Judiciary continue to receive more Tribunals as they are transited from Ministries.

2.2.3 Analysis of Capital Projects by Programme

The Judiciary has been implementing capital projects including constructions, rehabilitations and refurbishments of court buildings and Tribunal premises. Most of the GOK funded projects have however stalled at different stages of implementation due to severe budget cuts and/or lack of allocation.

2.3. Review of Pending Bills

Total pending bills for the FY 2018/19 amounted to **Kshs. 788.6** Million representing a 8% decrease from **KShs 856** Million FY 2018/19. Most of these pending bills arose due to lack of exchequer to pay commitments amounting to **Kshs 356.6** million while bills of **Kshs 432** million were not paid due to closure of financial period. This was compounded by delays in presentation of invoices and certificates by suppliers culminating to some payments not being processed.

The recurrent pending bills amounted to **Kshs. 711.1 million,** while development pending bills amounted to **KShs 76.6**.

The following measures will be taken to settle the pending bills: -

1. The pending bills will form the first charge on the respective items in the preceding FY.
2. The Judiciary will endeavor to plan and undertake procurement early in the FY.
3. For bills arising towards the end of the FY under existing contracts, the Judiciary will request the National Treasury for special consideration to process the bills in the IFMIS.

3.2 Analysis of Resource Requirement Versus Allocation

The Judiciary's budget allocation for FY 2020/21 is Kshs. 17.42 Billion of which Kshs. 14.72 Billion was for the recurrent vote and at Kshs. 2.70 Billion for the development vote. The total resource requirement for FY 2021/22 stands at Kshs. 35.38 Billion. Kshs. 28.29 Billion is the requirement for recurrent while Kshs. 7.09 Billion is required for the Development vote.

3.2.1 Recurrent and Development

Table 3.2.1 shows the analysis of recurrent resource requirements by economic classification. For the outer years, the same has been grown by 5% to cater for normal promotions of staff. The increase in other recurrent is expected to cater for the increase in operational cost as a result of establishment of new courts and hiring of additional Judges and Judicial Officers.

3.2.3 Programmes and Sub-Programmes by Economic Classification

Table 3.12 provides an analysis of programme expenditure requirements versus allocation by economic classification. Compensation to employees takes the largest share at 40% of resource requirements followed by use of goods and services at 33% due to the Judiciary's nature of operations which is largely service based. The remaining 27% of the resource requirements is shared among social benefits, other expenses and acquisition of non-financial assets.

CHAPTER FOUR

CROSS SECTOR LINKAGES AND EMERGING ISSUES/CHALLENGES

4.1 Cross Sector Linkages

The inter-linkages among the three arms of government are essential to the effective implementation of the constitution and upholding the rule of law. The executive is charged with implementation of policy and enforcement of law and order, while Parliament offers representation, oversight and legislation.

In the justice chain, National Council on the Administration of Justice (NCAJ) established under Section 34 of the Judicial Service Act ensures a coordinated, efficient, effective and consultative approach in the administration and reform of justice system. The NCAJ, which comprises of state and non-state actors, also facilitates establishment of Court Users Committees (CUC) at the County and Court levels.

These cross-sector linkages may positively or negatively affect the administration of justice. The Judiciary will continue to put in place mechanisms for harnessing synergies with each sector to ensure strong and successful partnerships in order to achieve its core mandate and also contribute to the achievement of the broad national objectives.

4.2 Emerging Issues

i. Upcoming General Elections in 2022

In the run up to the 2022 general elections, an influx of cases arising from party elections, nomination of candidates and constitutional petitions is highly expected. It is anticipated that the Courts and Political Parties Disputes Tribunal (PPDT) will receive an upsurge of election related cases. As part of its preparedness, the Judiciary through its committee on election will embark on *inter alia*; review of rules of procedure, capacity building programmes and facilitation of courts.

ii. COVID-19 Pandemic

Following declaration of COVID-19 pandemic as a national crisis in March 2020 and subsequent Government measures to curb the spread the disease, the Judiciary scaled down its operations. During the period when services were scaled down, presentation of prisoners and remandees to court was halted. Further, execution proceedings, all appeals, hearings and mentions of criminal and civil cases in all courts were suspended except handling of certificates of urgency and plea taking in serious cases. Courts were tasked to undertake decongestion of holding and detention facilities. Concomitantly, all foreign travel, conferences, workshops,

colloquia and training programmes were suspended until further notice. This significantly disrupted various projects and activities towards enhancing access to justice.

In support of the court operations, the Judiciary adopted the use of virtual courts to continue offering court services to our customers during the COVID-19 pandemic period. The Chief Justice gazetted practice directions on electronic case management on 4th March 2020.

iii. New Legal Frontiers

Disputes arising from the discovery and utilisation natural resources, data protection, social media, financial crimes, cyber-crimes, terrorism, international organised crime, use of performance enhancing drugs in sports, constitutional and global changes in the legal environment, ethics and governance, socio-economic rights, among many others have continued to be a challenge. To address these challenges, the Judiciary needs to invest and provide opportunities for training and research in-order to build capacity of the Judges, Judicial Officers and Staff in resolution of disputes in those areas.

4.3 Challenges

i. Delay in the Appointment of Judges

Inordinate delays in appointment of judges recommended by the Judicial Service Commission, which is in contravention of Article 259 (8) of the Constitution, has adversely affected court operations. For instance, Court of Appeal has had to recall judges serving in stations outside Nairobi where they couldn't constitute benches as required.

ii. Insufficient Funding

The Judiciary has continued to receive inadequate funding over the years. This has hampered establishment and construction of courts in counties and sub-counties. Key programmes such as constitution of special benches, operationalization of small claims courts, court annexed mediation, AJS, service weeks, pro bono, mobile courts and circuits have been scaled down due to lack of adequate resources. The insufficient funding has also affected court operations, automation and recruitment of judicial officers and staff.

iii. Lack of Legal Framework for Transition of Tribunals

The transition of the Tribunals to the Judiciary as part of the court system has faced challenges due to lack of legal framework that provides for standardized procedure for appointment of chairpersons, members and staff as well as funding of their operations. The Tribunal's bill prepared to address some of these challenges is still pending at the office of the Attorney General.

iv. Lack of infrastructure for Tribunals

Tribunals are currently operating in disparate buildings most of which are not ideal for court business. Some of these facilities are not well maintained posing occupational and health risks to staff.

v. Lack of Re-sentencing Guidelines

In Petition No 15 & 16 of 2015, Francis Karioko Muruatetu vs. Republic & 3 Others, the Supreme Court declared the mandatory nature of the death penalty unconstitutional. This decision essentially allowed a person sentenced under a minimum mandatory sentence to apply for re-sentencing where mitigation of sentence was feasible. The lack of the re-sentencing guidelines has resulted in case backlog and non-uniformity in the manner in which the petitions are made.

vi. Limitations of the IFMIS operations

The National Treasury loads the budget on a quarterly basis without reference to the Judiciary cash flow requirements as expected under sections 44 and 45 of the PFM Regulations. This disrupts the implementation of the activities as some are projected for implementation within a given quarter and not over the whole financial year. In addition, there are frequent downtimes with the system and this affects the timely procurement and payments for works done and services rendered

vii. Security

The Judiciary remains vulnerable to attacks on its physical facilities and personnel. This poses a great threat to the well-being of judges, judicial officers and staff as well as litigants and other court users thus impacting on the dispensation of justice. Sufficient funding is required to enhance the security of judiciary infrastructure and its personnel. This includes security awareness training, self-defence training, purchase of security equipment, and the provision of security guards across the institution.

viii. Delays in processing title documents for Land belonging to Judiciary

Most courts lack land ownership documents occasioned by the historical aspect of courts being housed in government quarters. This has delayed implementation of some infrastructure projects that are funded by development partners who require Judiciary to have proof of land ownership.

CHAPTER FIVE

CONCLUSION

Over the years the Judiciary has continued to experience challenges in funding. Nevertheless, tremendous strides in implementation of the mandate of Justice Dispensation have been achieved. For instance, backlog of cases that are 5 years and above which stood at 170,186 in January 2017 reduced to 35,359 as at June 2020.

A case clearance rate of 86% was achieved in FY 2019/20 which was a slight drop from the previous FY 2018/19 which was 96%. This was occasioned by the interruptions caused in the court operations due to the scale down measures adopted at the onset of the COVID -19 pandemic period.

In order to expedite hearing of anti-corruption matters, the Judiciary refurbished Forodha house to create room for 8 courtrooms and 7 chambers for 9 magistrates serving in the Anti-Corruption and Economic Crimes Courts. Access to justice was further enhanced through establishment of 2 magistrate courts and 3 Kadhi's courts as well as construction and rehabilitation of court buildings across the country. ADR was also enhanced with establishment of 14 mediation sub-registries and Court Annexed Mediation in Nairobi, Kericho, Mombasa and Kisumu.

The Judiciary continued to make significant progress in the implementation of the Digital Strategy. In support of the court operations, the use of virtual courts was adopted to continue offering court services during the COVID-19 pandemic period. The Courts and stakeholders embraced the use of ICT tools including Microsoft Teams, Skype and Zoom in the hearing and determination of cases.

The Judiciary has identified the following key priority areas for funding in the FY 2021/22: Continuous adoption of Information Communication Technology (ICT) which is focused on digitisation of court processes, support functions and automation of registry operation; expansion of Court Annexed Mediation through payment of mediators and creation of registries; undertaking of service weeks for backlog reduction as a rapid results initiative targeting to resolve all the cases aged 5 or more years; facilitation of *pro bono* to ease the cost of justice for the poor; provision for witness expenses to ensure speedy conclusion of matters; entrenchment of Alternative Dispute Resolution (ADR) initiatives such as arbitration and traditional justice systems; construction and rehabilitation of court buildings and facilities to improve access to justice; establishment of new and facilitation of existing mobile courts in marginalized and far-flung areas; recruitment of Judges, Judicial Officers and staff to enhance capacity for improved service delivery.

The estimated resource requirement for the FY 2021/22 is **Kshs. 35.38 Billion.**

CHAPTER SIX

RECOMMENDATIONS

In order to sustain and build on the successes that have already been attained, the Judiciary recommends the following measures be undertaken during the coming MTEF period: -

i. There is need to review, harmonize, and adopt statutes governing adoption of ICT in court procedures.
ii. There is need to speed up the finalization of rules to guide the re-sentencing hearings and ensure the completion of the pending petitions.
iii. A legal framework to govern the use of ADR in courts to be expedited.
iv. Fast track the enactment of the Tribunals Bill into law to provide a legal framework for transitioning and management of the Tribunals.
v. Increase resource allocation to Judiciary to facilitate, recruitment, expansion and completion of court infrastructure and to support digitisation of court processes and automation of registry operations; court programmes such as mobile courts, ADR, AJS and the operationalization of Small Claims Courts including recruitment and facilitation of adjudicators.
vi. Adopt multi-stakeholder capacity building and sensitization on the challenges introduced by emerging legal frontiers.
vii. Requests for exchequer releases should be responded to promptly and predictably to enable the Judiciary implement the approved cash flow plan as provided for in the PFM Regulations, 2015 44(2)).
viii. Operationalize the Judiciary Fund to improve on financial autonomy as envisaged in the Constitution.
ix. The National Land Commission and Ministry of Lands to assist the Judiciary in acquiring land titles where the courts are situated.
x. The payment of pauper brief fees should be borne by the National Legal Aid Service.
xi. Other agencies dealing with witnesses attending cases in court should be funded to meet part of their cost/expenses.
xii. Continued partnerships with stakeholders will be strengthened especially for provision of court premises and land for construction.
