MOI UNIVERSITY

ANNUAL REPORT AND FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2013

UNIVERSITY VISION AND MISSION STATEMENT

Moi University was established in 1984 as an institution of science and technology with a component of arts based programmes.

The current University vision and mission statement take into consideration the rapid changes in the external and internal environment since the inception of the University in 1984.

VISION

To be the University of choice in nurturing innovation and talent in science, technology and development.

MISSION

To preserve, create and disseminate knowledge and conserve and develop scientific, technological and cultural heritage through quality and relevant teaching and research; to create a conducive work and learning environment; and to work with government and private sector for the betterment of society.

CORE VALUES

At Moi University, we believe in:

- Promotion and defence of intellectual and academic freedom, scholarship and relentless search for the truth
- Fostering teamwork, collaboration, creativity and innovation, effective communication, tolerance, perseverance and a culture of peace
- Embracing excellence, openness, consultation and consensus building, efficiency and effectiveness
- Practicing professionalism, meritocracy, exemplary leadership, equality, integrity and social justice
- Maintaining a sense of self-respect, discipline, responsibility, institutional loyalty and national patriotism
- Continuous improvement of services in order to remain competitive

MOI UNIVERSITY
ANNUAL REPORT AND FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

REPORT OF THE CHAIRMAN

I am pleased to present this report for the year ended 30 June 2013. Higher education is one of the components that will enable our country to achieve Vision 2030. This is because it has spiral effects on all the pillars that are aimed at the successful attainment of Vision 2030. Moi University is focused on this pivotal role that higher education plays by providing globally competitive and quality education, training and research for sustainable development as well as being a regional centre for research and development in new technologies.

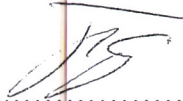

The University has made great contributions not only in meeting its core mandate of teaching, research and outreach but also in innovations. This includes the innovation of the natural dye for the textile industry that was recognized and honoured with the prestigious award that was won by the Vice Chancellor as the best innovator during the exhibition organized by the Africa Forum for Science, Technology and Innovation for Youth Employment and Capital Development.

The University assures our students and other stakeholders that we will continue to strengthen the quality of our teaching and research programmes that will enable our graduates to effectively compete both nationally and internationally. The University has also made links with partners and industries where our students are exposed to hands-on learning skills that enables them to get absorbed easily to the job market upon graduation because of the practical experience that they have.

The University Council appreciates the efforts of the high calibre academic and administrative staff that have ensured that the University services maintain a consistent high standard. Their dedication has ensured that the University continues to produce highly trained and skilled manpower capable of making effective contributions to the development of our country.

The University has acquired a plot in Nairobi using internally generated funds that will be the future permanent home of our Nairobi Campus. In this regard, I appeal to the Government for financial assistance to enable us put up the building that will serve the ever growing number of students in this campus.

I thank all our partners, donors, collaborating institutions and students for their continued support and dedication and urge that we strive to achieve greater heights of excellence in the coming years. I wish to particularly mention institutions like Indiana, Oklahoma and Alexandria universities that have made great contributions in our academic programmes and in postgraduate training of our staff through exchange programmes.

.....
PROF. JENASIO KINYAMARIO, OGW
CHAIRPERSON – MOI UNIVERSITY COUNCIL

MOI UNIVERSITY
ANNUAL REPORT AND FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

REPORT OF THE VICE- CHANCELLOR

I am pleased to present the report for the year ended 30 June 2013. The University has made great strides in the achievement of its vision and mission that has enabled us to maintain a leadership role in teaching, research and service to humanity.

During the year, the University continued to reposition itself to effectively respond to emerging challenges in higher education. The University got the ISO 9001:2008 re-certification which shows our continued commitment to quality management systems. I commend the management and staff for tireless efforts in this regard.

In order to increase access to higher education, and in line with Government policy, the University has continued to operate campuses in Eldoret, Nairobi, Mombasa, Kitale, Kericho and Yala. This year the University admitted the highest number of government sponsored students among all the public universities. The increase in the number of students and the diversity of the programmes offered at the University has therefore necessitated the expansion of the University infrastructure. In this regard, the University was able to acquire a plot in Nairobi that will be used to construct a permanent home of our Nairobi Campus.

The University also takes cognisance of its corporate social responsibility. In the course of the year, the University organized a Peace Race to foster peace and integration within our country. The University intends to establish a television station that will go a long way in discharging its corporate social responsibility of dissemination of knowledge to the wider community. The University has already established a milling plant that is engaged in value addition through the production of maize flour and animal feeds.

The University continues to forge partnerships and linkages with other institutions. In the health sector, the University has strong partnerships with Indiana University (USA) and Alexandria University (Egypt). We are in the process of establishing a state of the art ophthalmology centre in collaboration with Alexandria University that will benefit the community directly through the provision of free eye clinics.

Financial Performance Highlights

The University's funding requirements have grown considerably due to the increase in the number of students and the need to improve the learning infrastructure in order to continue offering quality education. The funding to the University has not kept pace with its requirements thereby creating an imbalance between the financial requirements and the resources available.

MOI UNIVERSITY
ANNUAL REPORT AND FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

REPORT OF THE VICE- CHANCELLOR (continued)

The University is currently facing challenges in raising funds to finance the construction of students' hostels, the library at the School of Law and the PDN building that houses the schools

of Public Health, Dentistry and Nursing. I am therefore appealing to the Government, development partners and other well wishers to assist us in completing these projects.

During the year, there was an increase in the revenue base of the University resulting in a 21% increase in the overall income levels. There was a 19% increase in the overall expenditure mainly because of escalating costs occasioned by general price increases, the rise in the cost of teaching materials necessary to provide quality programmes and increase in the number of students that resulted in an increase in operations and maintenance expenses. Government funding level has not kept pace with the increase in the number of government sponsored students. The University therefore requests for an enhancement of recurrent capitation to bridge this gap.

There has been considerable pressure on the University's wage bill. The public universities have been engaged in negotiations at the national level with the unions representing staff and we sincerely hope that amicable solutions will be found in order to maintain good industrial relations in the public universities and colleges.

I appeal to the Government to increase the amount allocated to the University in the recurrent and capital budgets to enable us meet the costs and improve the learning infrastructure necessary for providing quality education.

Appreciation

I would like to take this opportunity to thank the Government, our development partners, stakeholders and other well wishers who have continued to support us.

I would also like thank the University Council for its commitment in mobilizing resources and the guidance they have provided to the University that has led to the growth of the University, and our staff and students who have worked closely to ensure that the University achieves its objectives.

.....
PROF. RICHARD K. MIBEY, FWIF, EBS
VICE- CHANCELLOR

MOI UNIVERSITY
ANNUAL REPORT AND FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

STATEMENT OF COUNCIL MEMBERS' RESPONSIBILITIES

The Council Members are required to cause to be prepared financial statements for each financial year, which give a true and fair view of the financial affairs of the University as at the end of the financial year, and of its surplus or deficit for that year. The Council Members are required to ensure that the University maintains proper accounting records, which disclose, with reasonable accuracy, the financial position of the University. They are also responsible for safeguarding the assets of the University.

The Council Members accept responsibility for the financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Financial Reporting Standards and the requirements of the Exchequer and Audit Act. The Council Members are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the University as at 30 June 2013 and of its surplus for the year then ended. The Council Members further accept responsibility for the maintenance of accounting records that may be relied on in the preparation of the financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the Council Members to indicate that the University will not remain a going concern for at least twelve months from the date of this statement.

Signed on behalf of the Council by:

KENYA NATIONAL AUDIT OFFICE

REPORT OF THE AUDITOR-GENERAL ON MOI UNIVERSITY FOR THE YEAR ENDED 30 JUNE 2013

REPORT ON THE FINANCIAL STATEMENTS

I have audited the accompanying financial statements of Moi University set out on pages 12 to 27, which comprise the statement of financial position as at 30 June 2013, and the statement of comprehensive income, statement of changes in reserves and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 14 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 13 of the Public Audit Act, 2003.

Auditor-General's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit and report in accordance with the provisions of Section 15 (2) of the Public Audit Act, 2003 and submit the audit report in compliance with Article 229(7) of the Constitution of Kenya. The audit was conducted in accordance with International Standards of Auditing. Those standards require compliance with ethical requirements and that the audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amount and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. An audit also includes evaluating the appropriateness of

accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my qualified audit opinion.

Basis for Qualified Opinion

1. Handing-over of assets and liabilities between Moi University and University of Eldoret

According to the handing over report that was signed on 29 January 2013 between the Council Chairman of Moi University and University of Eldoret, a number of issues were classified as contentious and remain unresolved as shown below:

- i) Research funds amounting to Kshs.20,000,000.00,
- ii) Tuition fees of Kshs.146,296,287.00 collected by Moi University,
- iii) Salary top ups of Kshs.170,972,166.00 paid by Moi University to staff of University of Eldoret between August 2010 and June 2011,
- iv) Outstanding medical bills of Kshs.2,866,544.00 owed to Moi Teaching and Referral Hospital,
- v) Public Investment Committee (PIC) findings on misappropriation of funds amounting to Kshs.909,712.00
- vi) Pending Court cases involving former staff of Moi University at University of Eldoret
- vii) Malindi land measuring 35 hectares on L.R.No.8000,
- viii) Homa Hills land measuring 18.72 hectares on L.R.No.22712, and
- ix) Bank accounts balances as at 29 January 2013.

The communication between the two universities officials vide letter reference MST/ADM/2/32 Vol II reflects that the hand-over issues had not be resolved by 1 November 2013.

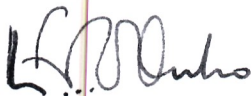

Consequently, the delay in handing over of assets and liabilities has hampered the assigning of assets and liabilities to respective institutions.

2. Winding up of Moi University Holdings Ltd (MUHL)

As previously reported, Moi University Holdings Ltd. a wholly owned subsidiary of the University ceased its operations and was recommended for winding up. The University during the year paid outstanding liabilities totalling Kshs.5,131,941.00 in preparation for the formal process of winding up. However, no formal resolution to wind up the company has been obtained thus in breach of Sec. 226 of the Company's Act Cap 486.

Qualified Opinion

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion paragraph, the financial statements present fairly, in all material respects, the financial position of Moi University as at 30 June 2013, and of its financial performance and its cash flows for the period then ended, in accordance with International Financial Reporting Standards and comply with Moi University Act, Cap 210A of Laws of the Kenya.

Edward R.O .Ouko, CBS
AUDITOR-GENERAL

Nairobi

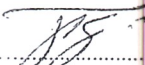

15 May 2014

MOI UNIVERSITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2013

1. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of these financial statements are set out below:

(a) **Basis of preparation and form of presentation**

The financial statements are prepared on a going concern basis in compliance with International Financial Reporting Standards (IFRS).

The measurement basis used is the historical cost basis of accounting modified by the revaluation of certain assets. The financial statements are presented in Kenya Shillings (Kshs), rounded to the nearest thousand, which is also the functional currency.

(b) **Revenue recognition**

Income from students is recognized as it accrues unless collectibility is in doubt.

Interest income is accrued on a time proportion basis.

Exchequer grants and other grants from the government are recognised as income in the period in which they relate.

(c) **Fixed assets and depreciation**

Fixed assets are stated at cost or valuation, less accumulated depreciation. Depreciation is calculated on the straight line basis, at annual rates estimated to write off carrying values of the assets over their expected useful lives. Assets acquired during the year are depreciated from the date of acquisition.

The annual depreciation rates in use are:

Buildings	2%
Furniture, plant and equipment	12.5%
Motor vehicles	25%
Computers	33.3%

Freehold land is not depreciated as it is deemed to have an infinite life. Leasehold land is amortised over the unexpired period of the lease.

(d) **Stocks**

Stocks are valued at the lower of cost and net realizable value. Cost comprises expenditure incurred in the normal course of operations, including direct material costs, labour and production overheads wherever necessary.

Net realizable value is the price at which the stock can be realized in the normal course of operations after allowing for the costs of realization and, where appropriate, the cost of conversion from its existing state to a realizable condition. Provision is made for obsolete, slow moving and defective stocks.

(e) **Retirement benefit costs**

The University operates a contributory pension scheme for eligible employees.

The assets of the scheme are held in a separate trustee administered fund that is funded by both the university and the employees.

The University also contributes to a statutory contribution pension scheme, the National Social Security Fund (N.S.S.F.). Contributions are determined by local statute and are currently limited to Kshs. 200 per employee per month.

The university's contributions to the above schemes are charged to the income and expenditure account in the year to which they relate.

(f) **Bad and doubtful debts**

Specific provision is made for all known doubtful debts. Bad debts are written off when all reasonable steps to recover them have been taken without success.

MOI UNIVERSITY
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2013

- (g) Provisions
Provisions are recognised when the University has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.
- (h) Research and development
Research and development expenditure is charged to the Income and Expenditure Account in the year in which it is incurred.
- (i) Agricultural assets
Biological assets are measured at fair values less estimated point of sale costs
- (j) Cash and cash equivalents
Cash and cash equivalents are defined as cash on hand, bank balances, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and subject to insignificant risks of changes in value.
For the purposes of the cash flow statement, cash and cash equivalents consist of cash and bank balances and short-term investments.
- (k) Foreign Currencies
Transactions in currencies other than the Kenya Shilling are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing on the balance sheet date. Gains and losses arising on translation are included in the surplus or deficit for the period.
- (l) Receivables
Receivables are stated at their nominal value as reduced by appropriate allowances for estimated doubtful debts.
- (m) Payables
Payables are stated at their nominal value.
- (n) Government recurrent grants
Government grants are recognised when there is reasonable assurance that the University will comply with conditions attached to them and that the grants will be received.
The grants are recognised as income in the period to which they relate and presented as a credit in the Income and Expenditure Account separately.
- (o) Government capital grants
Government capital development grants are credited to the capital reserves and the related capital costs are debited to the fixed assets that they finance.

MOI UNIVERSITY
 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2013

27. CASH AND CASH EQUIVALENTS

The cash and cash equivalents in the cash flow statements is composed of the following amounts:

	2013 Kshs (000)	2012 Kshs (000)
Short term deposits	-	16,100
Bank and cash balances	306,618	363,767
Bank overdraft	(159,833)	(51,804)
	<u>146,785</u>	<u>328,063</u>

28. CONTINGENCIES

a) Contingent liabilities

The university has a contingent liability in respect of car, housing and furniture loans granted to staff through the Kenya Commercial Bank. In the opinion of the University, no liability is expected to crystallise in respect of the guarantees.

b) Litigation

i) In the ordinary course of operations, the University is a defendant in various litigations and claims. Although there are no assurances, the University believes, based on information currently available, that the ultimate resolution of these legal proceedings and claims is not likely to have a material adverse effect on the operations of the University.

The cases are pending determination by the courts and it is not practicable to determine the timing and final amounts (if any).

Due to nature of the cases, detailed disclosure has not been made for each case as this may be prejudicial to the position of the University.

ii) Pending bills

The University has various pending bills arising out of the stalled government- financed capital projects.

The government has appointed a Pending Bills Closing Committee to verify the stock of pending bills and advice the government on their settlement.

No material liability will arise to the University for these pending bills as the determination and eventual settlement of the pending bills will be done by the government. No provision has therefore been made for the bills.

29. LEGAL STATUS

The University is a body corporate established in Kenya under the Moi University Charter 2013
