KENYA NATIONAL HIGHWAYS AUTHORITY
 Reports and Financial Statements for the year ended 30th June 2018
I. KEY AUTHORITY INFORMATION AND MANAGEMENT

(a) Background Information

The Authority was established vide the Kenya Roads Act, 2007. The Authority is under the State Department of Infrastructure in the Ministry of Transport, Infrastructure, Housing, Urban Development & Public Works for the general policy and strategic direction.

(b) Principal Activities

The principal activity/mission of the Authority is to manage, develop, rehabilitate and maintain the national road network.

(c) Key Management

The Authority's day-to-day management is under the Director General who is an *ex officio* member of the Board of Directors and Secretary to the Board.

(d) Fiduciary Oversight Arrangements

The Board of Directors exercise the oversight role on the Authority. The Board of Directors who held office during the financial year ended 30th June 2018 were:

No.	Designation	Name
1.	Chairman (<i>non-executive</i>)	Eng. Erastus K. Mwongera, CBS, FIEK, RCE (<i>Reappointed 18th April, 2018</i>)
2.	Director	Mrs. Marykaren C. Kigen-Sorobit
3.	Director	Dr. Lydia Muriuki; Alternate to Mr. Julius Korir, CBS. PS Infrastructure
4.	Director	Mr. Humphrey Muhu; Alternate to Mr. Henry Rotich, EGH. CS National Treasury
5.	Director	Mr. George Wanjau; Alternate to Prof. Arch. Paul Mwangi Maringa (Phd), CBS. PS Transport
6.	Director	Mr. Andrew C. Mitei (<i>Reappointed 17th September, 2017</i>)
7.	Director	Ms. Mary Gesare (<i>Reappointed 17th September, 2017</i>)
8.	Director	Charles Gathogo (<i>Appointed 18th September, 2017</i>)
9.	Director General/Board Secretary (<i>ex-officio member</i>)	Eng. Peter M. Mundinia

The Board of Directors constituted four Board Committees which included the Technical and Strategy Committee, the Finance, Human Resource and General Purpose Committee, the Audit, Risk and Governance Committee and the Procurement and Disposal Oversight Committee. The Finance, Human Resource and General Purpose Committee, and the Audit, Risk and Governance Committee are responsible for the fiduciary oversight of the Authority.

i) Finance, Human Resource and General Purpose Committee

This is a committee of the Board whose key responsibilities are to;

- Review, approve and/or recommend for Board's approval;
 - 1) Financial, Human Resources, ICT, Legal & Regulatory Affairs and Corporate Communications policies and procedures,
 - 2) Estimates of receipts and expenditures including their revisions,
 - 3) Re-allocation of funds between budget heads,
 - 4) Special funding proposals including borrowings and grants,
 - 5) Proposals for opening bank accounts,
 - 6) Proposals for investments and their returns,
 - 7) Annual Corporate Social Responsibility activities and
 - 8) Staff terms and conditions of service.
- Ensure that
 - 1) Proper books of accounts and records are maintained for the Authority's transactions,
 - 2) All expenditures are within the approved budget,
 - 3) Proper records are maintained on property and material liabilities.

ii) Audit, Risk and Governance Committee

This is a committee of the Board whose key responsibilities are to;

- Review, approve and/or recommend for Board's approval;
 - 1) The external auditor's management letter and management's response to the external auditor's findings and recommendations,
 - 2) The Authority's procedures for detecting fraud and to review the investigation and remediation of any alleged or suspected fraud;
 - 3) At least annually, the status of the enterprise risk management program and
 - 4) The annual internal audit work plan.
- Ensure that;
 - 1) Unsettled and unimplemented Public Investment Committees' (PIC) issues are resolved,
 - 2) Clarity of disclosure in financial reporting and the presentation of a balanced and understandable assessment of the Authority's financial position;
 - 3) Recommendations of the Auditor General are implemented.
 - 4) Integrity of the financial statements of the Authority is maintained at all times
 - 5) Disagreements between management and any auditor regarding the Authority's financial reporting are resolved
 - 6) Special audit/ investigation on any allegations, concerns and complaints regarding corruption, lack of accountability and transparency are conducted

iii) The other two Committees are the Technical and Strategy and the Procurement and Disposal Oversight Committees.

KENYA NATIONAL HIGHWAYS AUTHORITY

Reports and Financial Statements for the year ended 30th June 2018

iv) Office of the Auditor General

The Annual Report and Financial Statements of the Kenya National Highways Authority are audited in accordance with Article 229 *sub article 7* of the Constitution of Kenya and Section 35 of the Audit Act 2015

v) Development Partner Oversight Activities

This group constitutes Bi/Multi – lateral lenders to the Government of the Republic of Kenya for development projects under implementation of the Authority, whose key responsibilities include;

- 1) To examine the annual reports of the Auditor General on the financial statements of projects
- 2) To conduct financial management supervision and offer project implementation support
- 3) Review of quarterly Interim Financial Reports
- 4) Commission independent auditors to undertake financial and technical review of projects they have financed.

(vi) The Public Investments Committee

This is a Parliamentary Select Committee charged with the responsibility of examining the activities of state agencies. It receives audit reports from the Clerk of the National Assembly who in turn would have received them from the Authority.

Its key responsibilities as appertains to the Authority are to;

- 1) Examine the reports of the Auditor General on the financial statements of the Authority,
- 2) Examine, in the context of the autonomy and efficiency of the public investments, whether the affairs of the public investments, are being managed in accordance with sound financial or business principles and prudent commercial practices.
- 3) Within three months after receiving the PIC report, Parliament shall debate and consider the report and take appropriate action.

(e) Senior Management

The key management personnel who held office during the financial year ended 30th June 2018 and who had direct fiduciary responsibility were:

No.	Designation	Name
1.	Director General	Eng. Peter M. Mundinia
2.	Director, Highway Planning and Design and Acting Director, Policy, Strategy and Compliance	Eng. Samuel O. Omer
3.	Director, Development	Eng. David Muchilwa
4.	Director, Road Asset and Corridor Management	Eng. Njuguna Gatitu
5.	Director, Corporate Services	CPA James Bowen
6.	Director, Audit Services	CPA. William Masita
7.	Corporation Secretary/Deputy Director, Head Legal Services	Ms. Norah Odingo-Kajwang'
8.	Deputy Director, Head Supply Chain Management	Ms Levina Wanyonyi

II. THE BOARD OF DIRECTORS

Director	Brief Profile
 <p>1. Eng. Erastus K. Mwangera, CBS, FIEK, RCE Chairman of the Board of Directors</p>	<p>Date of Birth: 2nd December, 1949. Fellow of the Institution of Engineers of Kenya Registered Consulting Engineer BSc (Civil Engineering) HND. Construction Dip. Water Engineering Civil Engineering Consultant 43 years of Public Sector Administration and Management experience (Reappointed 18th April, 2018)</p>
 <p>2. Mrs. Marykaren C. Kigen-Sorobit Director</p>	<p>Date of Birth: 14th February, 1969 LL.B (Hons) PGD. KSL, CPS(K) Advocate of the High Court of Kenya Member, Law Society of Kenya 23 years' experience in legal and compliance management.</p>
 <p>3. Mr. Humphrey Muhu Director – Alt. to CS (National Treasury)</p>	<p>Date of Birth: 28th August, 1964. Economist and Financial advisor9 The National Treasury). BSc (Statistics and Mathematics) B. Phil Economics MA (Economics) Dip. Financial Management 25 years of Public Sector Management experience</p>
 <p>4. Mr. George Wanjau Director – Alt. to PS (Transport)</p>	<p>Date of Birth: 19th January, 1962, Economist and Urban Transport Planner. MSc (Project Planning & Financing) BA (Economics) 31 years of Public Sector Management experience</p>
 <p>5. Mr. Andrew C. Mitei Director</p>	<p>Date of Birth: 9th June 1956 Certified Public Accountant Bachelor of Commerce (Accounting) Member, Institute of Certified Public Accountants (K) 38 years of Private Sector Management experience (Reappointed 17th September, 2017)</p>

 <p>6. Mr. Charles R. Gathogo Director</p>	<p>Date of Birth: 24th February 1966 Licensed Land Surveyor and GIS Consultant Bsc. (Surveying and Photogrammetry). Master's Degree in Cadastral Application Member of ISK (MISK). 20 years of Private Sector Management experience in Engineering Survey, Cadastral Surveying and planning. <i>(Appointed 18th September, 2017)</i></p>
 <p>7. Ms. Mary Gesare Director</p>	<p>Date of Birth: 31st January 1968 Bachelor of Business Management Member, Infrastructure Committee and Devolution and Security Committee (KAM) Member, Institute of Human resource management (IHRM) 28 years` of management experience <i>(Reappointed 17th September, 2017)</i></p>
 <p>8. Dr. Lydia Muriuki, Director – Alt. to PS (Infrastructure)</p>	<p>Date of Birth 28th November, 1958 Director of Administration (MOTIHUD) Doctor of Philosophy (Strategic Management Option) Member, Kenya Institute of Management (KIM) MEMBER, Institute of Directors (Kenya) 28 years of Public Sector Management experience in Strategic leadership in Public Administration & Security Management</p>
 <p>9. Eng. Peter M. Mundinia Director General & Secretary to the Board</p>	<p>Date of Birth: 7th December, 1963, MBA (Business Management) BSc. (Civil Engineering) Diploma in Theology Member of Institute of Engineers of Kenya Registered Engineer with Engineers Board of Kenya and Member of Kenya Institute of Management (KIM) 28 years of management experience</p>

III. MANAGEMENT TEAM

Manager	Brief Profile
 1. Eng. Peter M. Mundinia Director General	Date of Birth: 7 th December, 1963, MBA (Business Management) BSc. (Civil Engineering) Diploma in Theology Member of Institute of Engineers of Kenya Registered Engineer with Engineers Board of Kenya and Member of Kenya Institute of Management (KIM) 29 years' of management experience
 2. Eng. Samuel O. Omer Director , Highway Planning & Design	Date of Birth: 17 th February 1962, MSc. (Civil Engineering) BSc. (Civil Engineering) Member of The Engineers Registration Board 31 years of management experience
 3. CPA James K. Bowen Director, Corporate Services	Date of Birth: 1 st January, 1973 MBA, BCom (Accounting) Certified Professional Credit Manager (CMP), Certified Public Secretaries (CPS K), Certified Public Accountant (CPAK) Member of, ICPAK, ICPSK 21 years management experience
 4. Eng. David Muchilwa Director, Development	Date of Birth: 28 th December 1964 BSc. (Civil Engineering) Member, Institution of Engineers of Kenya 29 years management experience
 5. Eng. Njuguna Gatitu Director, Road Asset and Corridor Management	Date of Birth: 1965. BSc (Civil Engineering) Post Graduate Diploma in Computer Science Member, Institution of Engineers of Kenya 29 years' management experience

 <p>6. CPA. William O. Masita Director, Audit Services</p>	<p>Date of Birth: 2nd February 1979 MBA, BA (Economics) Certified Information Systems Auditor (CISA) Certified Internal Auditor (CIA) Certified Public Accountant (CPA) Certified Public Secretary (CPS) Member of ICPAK, ISACA, IIA 14 years' Management Experience</p>
 <p>7. Ms. Norah Odingo-Kajwang Corporation Secretary/Deputy Director, Head Legal Services</p>	<p>Date of Birth: 27th April 1969 Degrees: MBA Bachelor of Laws Registered Advocate Member Law Society of Kenya Member Public Secretaries of Kenya 24 years' Management Experience.</p>
 <p>8. Ms Levina Wanyonyi Deputy Director, Head Supply Chain Management</p>	<p>Date of Birth: 13th February 1972 Degrees: MBA Bachelor of Science Member: Kenya Institute of Supplies Management , The Chartered Institute of Purchasing & Supply Institute for Management of Information Systems 22 years' of Management experience.</p>

IV. CHAIRMAN'S STATEMENT

On behalf of the Kenya National Highways Authority (KeNHA) Board of Directors, it gives me great pleasure to present this Annual Report and Financial Statements for the year ended 30th June 2018. The period under review marked the end of the Second Medium Term Plan as well as the Authority's 2013/2014 – 2017/2018 Strategic Plan. The Authority is finalizing its 2018/2019-2022/2023 Strategic Plan together with its corresponding Business Plan. Ambitious targets and innovative strategies have been included in the new Plan. The Plan has been aligned to key national and international policies while taking cognisance of the "Big Four" Development Agenda through provision of back-bone road infrastructure to support affordable housing, manufacturing, food security and access to universal health care facilities.

In the implementation of our mandate of development, maintenance and management of the national trunk road network, the Authority enhanced its efforts towards completion of ongoing projects and maintenance of existing roads in the year under review. Further, the Authority with guidance from the parent Ministry of Transport, Infrastructure, Housing, Urban Development and Public Works continued to deliver the Government's ambitious plan of investing in national road infrastructure network. The Authority is tasked with delivering high quality services for the public by ensuring that all our road network totalling 18,549 kilometres is motorable and in good condition. This results to enhanced service levels, reduced travel times and improved mobility.

The Board of Directors continued to provide oversight role to Management, to ensure that all projects were implemented as planned. To this end, the Board's Technical and Strategic Committee facilitated continuous inspection of the Authority's road projects under implementation throughout the Country. In the year under review, the Board inspected several road projects and identified specific areas that required improvement to facilitate smooth project implementation. The Board guided Management to take note of common challenges occurring across various projects, draw lessons learnt and avoid their future re-occurrences.

The Financial Year 2017/2018 was an ambitious one for the Authority in many ways. Following the Authority re-categorisation from Category 3A to Category 7A1, the Board of Directors approved and oversaw the implementation of the new Organisation Structure in line with the re-categorization. The new structure is expected to enable the Authority to deliver its mandate in a more effective and efficient manner. The process of ensuring that members of staff are suitably assigned responsibilities within the new structure is almost complete. This process depicts the Board's commitment in ensuring that the Authority has optimal staffing as well as adherence to the two-thirds (2/3) gender rule and regional balance as stipulated in the Constitution of Kenya, 2010 and the Executive Order No. 6 of 2015.

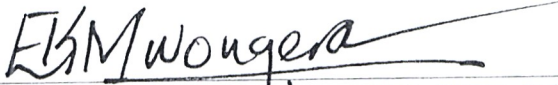

In the year under review, His Excellency the President Hon. Uhuru Kenyatta, CGH, defined his "Big Four" Transformation Agenda for the Nation which identified four priority initiatives namely Universal Healthcare for all, Manufacturing, Food Security and Affordable Housing to be implemented over the next five years 2018/2019 – 2022/2023. National Trunk Roads are a key enabler of this Big Four Transformation Agenda as well as a key component of communication and economic development of any nation. The Authority has aligned all its projects in support of the Big Four Transformation Agenda for the next five years.

Equally, the Board of Directors remained focused on efficient and timely delivery of major road projects to ensure that the public promptly derives benefits from these investments. This past year saw KeNHA engaging with the community at a number of events together and specifically on Resettlement Action Plans for Project Affected Persons and sensitization forums on illegal encroachment on road reserves. These were undertaken in cognizance of the Government's commitment on the delivery of infrastructure, as well as its continued commitment to improving the lives of Kenyan people. In general, the Authority continued to deliver its mandate by achieving its targets as set out in the Strategic Plan and Annual Performance Contract. The Authority also embarked on its Strategic Plan for the next five years 2018/2019 – 2022/2023.

The second phase of the Road Sector Investment Plan is ongoing and will inform the medium to long term prioritization of road development and maintenance needs in the sub-sector. The Strategic Plan and Business Plan have been programmed for heightened lane kilometres of roads to be upgraded, rehabilitated and maintained. The Plan envisages upgrading of the entire class "A" roads to bitumen standard subject to availability of funds. Various projects are under design for future improvement including Kenol– Muranga - Sagana Road, Marua - Nanyuki-Lewa Road, Nakuru - Loruk-Marichpass Road, Malindi – Madogo - Garissa Road and Isiolo -Nginyang - Lokichar Road section of the Lamu Port South Sudan Ethiopia Transport (LAPSSSET) Corridor.

On behalf of the Board, I wish to express our sincere gratitude to the Management and Staff Members of KeNHA for their dedicated team work that enabled the Authority deliver on its mandate during the 2017/2018 financial year. I also extend my sincere gratitude and thanks to my colleagues, Directors of the Board for their support, contribution and strategic guidance to senior management during the year. Finally, I wish to thank the Government through the State Department for Infrastructure, our customers, Development Partners and key stakeholders for the confidence and support they bestowed upon the Kenya National Highways Authority.

God bless the Kenya National Highways Authority; God bless Kenya.

Eng. Erastus K. Mwangera, CBS, FIEK, RCE
Chairman of the Board of Directors
24/09/2018

V. REPORT OF THE CHIEF EXECUTIVE OFFICER/ DIRECTOR GENERAL

This Report and Financial Statements for the year ended 30th June 2018 sets out what the Authority has achieved over the past year and highlights how funds allocated were utilized. It also gives an overview of the activities undertaken by the Authority during the Financial Year 2017/2018. In the period under review, the Authority experienced delays in receipts of Exchequer for development projects hence absorbed 70% of its total annual budget of Kshs. 73 billion. Development Partner funding, the Exchequer and the Road Maintenance Levy Funds & Transit Tolls components recorded absorption rates of 98%, 70% and 68% respectively. The inability to absorb 100% of the development budget was a result of budget cuts in the second revision of the development budget for FY 2017/2018 which saw some development projects with substantial pending bills lose significant allocations in their individual budget line items while retaining funds to projects that had slowed down due to payment delays. Under absorption of Road Maintenance and Axle Load funds was a result of the heavy rains across the country between the months of March and June 2018 which curtailed road maintenance activities during that period. To supplement government grants, Internally Generated Funds worth Kshs. One billion were collected during the year under review from Road User fees and Interest Income from bank deposits.

During the year, the Authority delivered key road infrastructure projects geared towards efficient movement of goods and services across the country and the region at large. In the year under review, the Authority completed various road projects and commenced new works towards opening up of new important corridors. Projects that were substantially completed by 30th June 2018 (some of which were commissioned by His Excellency the President of the Republic) include Merille River – Marsabit Road, Marsabit – Moyale Road, Mbita Causeway Bridge, Voi - Mwatate Road, Multinational Mwatate – Taveta Road, Port Reitz – Moi International Airport Road, Bachuma Gate – Maji ya Chumvi Road, Webuye – Kitale Road, Kangema-Gacharage Road, Kaloleni-Kilifi Road, Rumuruti-Maralal Road, Siaya-Ruambwa Road, Suna- Masara - Kehancha Road, KCC (Sotik)-Ndanai-Gorgor Road and Package I of Dongo Kundu (Miritini – Mwache – Kipevu Link Road)

The Authority continued to embrace Performance Based Maintenance Contracting (PBC) and Road Asset & Corridor Management of the road network. This aims at ensuring that efficient customer service is delivered through timely offering a road network of high quality and standards. The road works program has been successful with the continuous implementation of PBC on major roads which has since resulted in reduction of vehicle operating cost, risk sharing with contractors, achievement of a sustainable road management system, increased flexibility in

attending to emergency situations, determent of road encroachments hence improvement of road safety and curtailing of expensive relocation costs, to pave way for road expansion.

The Authority continued to oversee the implementation of ongoing construction of Nuno – Modogashe Road; Loichangamatak – Lodwar – Nadapal (A1) Road; Isebania – Kisii – Ahero (A1) Road, James Gichuru Junction – Rironi road, Second carriageway between Athi River – Machakos Turnoff Road, Kainuk Bridge, Garsen-Witu-Lamu Road; Narok-Masai Mara (Sekenani Gate) Road; Kisiriri-Mau Narok Road; Kapchorwa – Suam – Kitale Road; Eldoret Town Bypass; Busia –Malaba Road; Rumuruti Maralal Road; Ruiru Githunguri-Uplands Road, Kibwezi – Mutomo – Kitui Road Dualling of; Kisumu Boys – Mamboleo Road; Phase I of Mombasa-Mariakani (Mombasa – Kwa Jomvu) Road, Magongo Road among other road projects which are at various stages of completion.

The key challenges that impacted negatively on project delivery during the year included low development budget ceilings and development budget cuts during the financial year 2017/2018 which led to the growth of pending development bills. The Authority experienced destruction of its road network through fires lit by protesters during the General Election of 2017; destruction of the road network due to the countrywide heavy rains between the months of March and June 2018, vandalism of road furniture which compromises road safety; high cost and delays in land acquisitions and relocation of utilities and encroachment on road reserves which resulted into escalated costs and delays in project commencement, implementation and completion.

To augment the Exchequer and leverage on Private Sector Expertise and Finances, the Authority is engaging the Private Sector under the Public Private Partnerships (PPP) and the Annuity Framework. There are several road projects that are planned for construction and maintenance under the PPP and Annuity financing framework. During the concluded financial year under review, the Authority continued to work towards the Financial Close for Annuity Construction of 68 Kms between Modogashe and Samatar and 75 Kms between Rhamu and Mandera. The Authority also signed a Heads of Terms Agreement with the Lamu Road Consortium for the Design, Build, Finance, Maintain, Operate and transfer of the 530 Kilometres Lamu – Garissa – Isiolo Road which is a component of the LAPSSSET Development Corridor. The other priority project is the Dualling of Nairobi – Nakuru – Mau Summit Highway (A8) which was tendered and evaluation completed by the end of June 2018. The evaluation report has been submitted to the PPP Committee at the National Treasury for deliberation.

KENYA NATIONAL HIGHWAYS AUTHORITY

Reports and Financial Statements for the year ended 30th June 2018

I take this opportunity to assure all our stakeholders that the Authority remains steadfast in enabling the realization of the Kenya Vision 2030 and the “Big Four” Development Agenda. I wish to thank the Board of Directors for the support and guidance extended to the Management throughout the year. I also commend members of staff for working tirelessly to deliver our mandate. I also extend my gratitude to the Government through the parent Ministry of Transport, Infrastructure, Housing, Urban Development and Public Works and our various Development Partners for financing the ongoing projects and programmes. Last but not least, I wish to thank all other stakeholders for their invaluable contribution to the continuous improvement of the national trunk road network.

Eng. Peter M. Mundinia
Director General

24/09/2018

VI. CORPORATE GOVERNANCE STATEMENT

The Kenya National Highways Authority is committed to the values and principles of good corporate governance as an integral part of the corporate culture established at the Authority and guides the manner in which its directors, management and staff conduct the business of the organization. As a public sector organization dedicated to providing quality service to its stakeholders, the Authority's decisions are guided by the core tenets prescribed in the Public Officers Ethics Act, the Leadership and Integrity Act, the Authority's code of conduct, corporate governance guidelines and Board and Board Committee Charters. The Authority endeavors to develop, strengthen and sustain the trust that the Government, employees and the public have placed in it. The Board is committed to regularly evaluating national and international standards in responsible, transparent and efficient management with a view of enhancing corporate governance at the Authority and consistently delivering on its statutory mandate.

This report describes the Authority's corporate governance practices that were in place throughout the financial year ended 30th June 2018.

Role of the Board of Directors'

The primary function of the Board of Directors' (the Board) is to provide effective strategic leadership and direction to enhance the long-term value of the Authority to its stakeholders. The Board has the overall responsibility for overseeing the development and implementation of the strategic plan, performance objectives, financial plans, annual budget, key operational initiatives, major funding and investment proposals, financial performance reviews, and corporate governance practices. They are also responsible for instilling the appropriate culture, values and behaviour throughout the organization. The Board is therefore committed to maintaining very high standards of corporate governance and ethical conduct.

Membership of the Board

The KeNHA Board is constituted as per the provisions of the Roads Act, 2007 with membership drawn from both the public and private sector. The Board is composed of nine (9) Directors with six directors having a background or knowledge in the following areas:

- Business Industry;
- Highway engineering;
- Transport economics;
- Surveying;
- Accountancy
- Law.

Tenure of Directors

In line with the provisions of the Kenya Roads Act 2007, the Chairman and other members of Board, other than designated public officers, shall hold office for a period of three years from the date of appointment and may be eligible for re-appointment for one further term. The appointment of all members of the Board as first constituted and at every change in membership thereafter shall be by notice published in the Kenya Gazette. The Director General is appointed by the Board in consultation with the Cabinet Secretary in charge of roads following a competitive recruitment process.

Induction, Training and Development of Directors

New Directors are provided with extensive materials on the Authority and its operations, the procedures relating to the Board and its Committees and their duties and responsibilities as Directors.

Committees of the Board

The Board has established four permanent Committees to assist in the execution of its responsibilities. These are the Audit, Risk and Governance Committee, the Finance Human Resource and General Purpose Committee, Procurement and Disposal Oversight Committee and the Technical & Strategy Committee. Each of the permanent Committees operates pursuant to approved terms of reference delegated to them by the Board.

Meetings of the Board

The Board and each committee have scheduled meetings held in every quarter of the financial year. Special meetings are held as and when required. The Chairman of each Committee regularly reports to the full Board on the Committee's deliberations.

A schedule of individual board members, their position and number of meetings attended are is per schedule below.

No.	Name of Director	Board Position	No. of Meetings Attended
1	Eng.Erastus K.Mwongera, CBS, FIEK, RCE (Reappointed 17 th April,2018)	Chairman	23
2	Mrs.Marykaren C. Kigen-Sorobit	Member	22
3	Mr.Humphrey Muhu	Member	19
4	Mr.George Wanjau	Member	11
5	Mr.Andrew C.Mitei (Reappointed 17 th September,2017)	Member	20
6	Ms.Mary Gesare (Reappointed 17 th September,2017)	Member	20
7	Dr.Lydia Muriuki	Member	11
8	Charles Gathogo (Appointed 18 th September,2017)	Member	11

VII. MANAGEMENT DISCUSSION AND ANALYSIS

Mandate

To manage, develop, rehabilitate and maintain national roads.

SECTION A

The Entity's Operational and Financial Performance

Road Maintenance

The Authority is undertaking numerous road maintenance projects on our entire road network as summarized in the table below.

S/No.	Project Activity	Ongoing Projects Targeted Output(km)	Source of Funding		
1.	Periodic maintenance	3,083	Road Fund	Maintenance	Levy
2.	Routine maintenance	7,940	Road Fund	Maintenance	Levy
3.	Performance Based Contracts	7,092	Road Fund	Maintenance	Levy
	Total	18,115			

Development & Rehabilitation Projects

The Authority is implementing a number of development projects across the country on behalf of the Government. A number of these projects are co-funded with our key Development Partners such as IDA, AfDB, EU, TMEA, Spanish Kingdom, EXIM Bank.

S/No.	Project	Unit of Measure	Planned Output (Km Length of Road)	Actual Output (Cumulative Km length achieved June 2018)	Source of Funding
	Projects Financed by AfDB and GoK				
1	Mombasa-Mariakani Lot 1: Mombasa-Kwa Jomvu	Km	11.3	1.36	AfDB/GoK
2	Isebania-Kisii-Ahero Lot 1 Isebania-Kisii	Km	184	0	AfDB/GoK
3	Isebania-Kisii-Ahero Lot 2 Kisii-Ahero	Km	192	0.12	AfDB/GoK
4	Kitale-Endebess-Suam	Km	45	0	AfDB/GoK
5	Eldoret Town Bypass	Km	32	0	AfDB/GoK
	Projects Financed by BADEA and GoK				
6	Nuno-Modogashe	Km	135	41	BADEA/KUWAIT/GOK
	Projects Financed by China EXIM and GoK

SECTION B

Entity's compliance with statutory requirements

The Authority has complied with all statutory requirements which include: -

- 1) Accurate and timely remittance of monthly
 - i. National Hospital Insurance Fund contributions,
 - ii. National Social Security Fund contributions,
 - iii. Pay As You Earn recoveries
 - iv. Withholding Tax
 - v. Value Added Tax
 - vi. Training Levy

SECTION C

Key Projects and Investment Decisions the Entity is Implementing

The Authority is planning/ implementing 37 projects using funds from Development Partners and the Government of Kenya as summarized in Appendix 1.

SECTION D

Major risks facing the Authority

The following outlines what the Board and Management currently believe are the key risks that could impact KeNHA's operations and mandate. The risks highlighted below should not be considered a complete narration of all the risks and uncertainties that KeNHA may face.

No	Risk	Drivers	Mitigation
1	Road Reserve Encroachment	<ul style="list-style-type: none"> • Inadequate road reserve protection • Political interference • Inadequate funds for enforcement of road reserve mapping • Limited public awareness and sensitization on land encroachment 	<ul style="list-style-type: none"> • Mapping road reserve boundaries • Sensitize public • Provide funding for road reserve protection • Enforce law
2	Employee Risk	<ul style="list-style-type: none"> • Inadequate organization structure thus no upward mobility 	<ul style="list-style-type: none"> • Restructuring the organization • Increase funding for

Reports and Financial Statements for the year ended 30th June 2018

		<ul style="list-style-type: none"> • Inadequate funding for remuneration • Possible gaps in human resources procedures and policies • Inadequate funds for training and capacity building 	<ul style="list-style-type: none"> • training and capacity building • Review controls and procedures <ul style="list-style-type: none"> • Better remuneration
--	--	--	---

3	Contract Management	<ul style="list-style-type: none"> • Inadequate contract document preparation and review • Inadequate project cost estimation (Engineer's Estimate) • Possibility of bid rigging • Inadequate designs, necessitating unplanned reviews • Poor project implementation team selection • Inadequate project supervision • Possibility of Corruption • Inadequate project funding resulting in delays in payments of IPCs • Inadequate capacity to manage contracts • Delays in land acquisition, resulting in delayed project completion • Delays in relocation of utilities, resulting in delayed project completion 	<ul style="list-style-type: none"> • Review bid and contract documents and close gaps for claims • Review project costing to take cognize of all parameters • Take disciplinary action against staff confirmed to be involved in improprieties • Interrogate designs to minimize inadequacies • Take action against consultants and contractors who fail to perform • Employ adequate staff and build capacity • Ensure inclusion of all required skills in project implementation and supervision teams
4	Overloading (Axle Load Control)	<ul style="list-style-type: none"> • Integrity issues / corruption • Political interference • System weaknesses • Lack of awareness by some stakeholders 	<ul style="list-style-type: none"> • Take disciplinary action against staff confirmed to be involved in improprieties. • Enforce the law • Improve on the systems weaknesses at the weighbridge • Sensitize transporters

			and public
5	Access to Capital	<ul style="list-style-type: none"> • Inadequate budgetary allocation • Chronic delays in receipt of budgeted amounts. • Budget cuts after budgeting process • Lack of alternative sources of funds 	<ul style="list-style-type: none"> • Ask Treasury for more funds • Alternative sources of funding • Engage county government in maintenance of roads • Legislation on advertisement on road reserve

SECTION E

Material arrears in statutory/financial obligations

The Authority has pending development bills amounting to Kshs. 40.6 billion. This is made up of payment certificates and fee notes for certified development works amounting to Kshs.19.5billion and outstanding dues to Project Affected Persons amounting to Kshs.21.1 billion as a result of inadequate GOK Development Budget and delayed release of Exchequer funds. This has led to accumulation of interest on delayed payments and other contractual claims.

SECTION F

The Authority's Financial Probity and Serious Governance Issues

The Board of Directors takes overall responsibility for establishing systems of internal control and for reviewing and evaluating their effectiveness. The day-to-day responsibility for implementation of these systems and for ongoing monitoring of risk and the effectiveness of controls rests with senior management.

The systems, which have been in place throughout the financial year and up to the date of approval of these financial statements, include the following: -

- The Audit, Risk & Governance Committee of the Board provides oversight over the internal and external audit work and implementation of recommendations contained in audit reports.
- The Risk Management Committee comprising of senior management is responsible for ensuring that controls are in place to identify, evaluate and manage risk.
- Enterprise Risk Management Section documents risks and the responses to them, carry out risk assessments annually and report to the Risk Management Committee and the Audit, Risk & Governance Committee of the Board on how effectively risks have been managed during the year.
- Periodic reviews of performance and quality in road construction and maintenance are carried out by the Quality Assurance Section.
- Internal Audit Section reviews the effectiveness of the financial and operational systems and controls throughout the Authority and reports to the Audit, Risk & Governance Committee.
- External auditors comprising of the Office of the Auditor General, Office of the Internal Auditor General, Kenya Roads Board and Development Partners review the Authority's financial statements and effectiveness of systems of internal controls.

The Authority's systems of internal control and corporate governance arrangements in operation during the year were reviewed based on these institutional arrangements and found to be effective.

KENYA NATIONAL HIGHWAYS AUTHORITY
Reports and Financial Statements for the year ended 30th June 2018

Our internal control systems are designed to manage, rather than eliminate, the risk of failure to achieve corporate objectives or in the case of financial controls, the risk of material misstatement in our financial statements. Accordingly, they provide reasonable but not absolute assurance against such failure or material misstatement.

VIII. CORPORATE SOCIAL RESPONSIBILITY STATEMENT

“Working with communities for a sustainable economic development”

In line with our mission to construct and manage national trunk roads that enhance socio economic growth and prosperity, the Authority has always tried to integrate projects with community needs and aspirations. Indeed the Authority does not just build roads, but create development corridors that impact on livelihoods of Kenyans. While the roads facilitate development in a literal sense, our CSR initiatives promote inclusive growth and overall community development.

As a corporate citizen, the Authority remains committed to giving back to the community through Corporate Social Responsibility initiatives to secure socio – economic development of the Citizenry. To achieve this, we are guided by our Corporate Responsibility Policy and guidelines.

Pillars of CSR

Our Corporate Social Responsibility programmes focus on areas of:

- Education
- Health and Sanitation
- Security enhancement
- Youth and Women Empowerment
- Promoting sustainable livelihoods
- Improving access to social amenities.

In the year under review, the CSR activities carried out were drilling of boreholes and construction of water pans in arid and semiarid region, construction of classrooms, police stations, town roads and feeder roads to public institutions as well as charity donations.

IX. REPORT OF THE DIRECTORS

The Directors submit their report together with the un-audited financial statements for the year ended 30th June, 2018 which show the state of the Authority's affairs.

Principle Activities

The principal activities of the Authority are to manage, develop, rehabilitate and maintain national roads

Results

The results of the Authority for the year ended 30th June, 2018 are set out on page 1

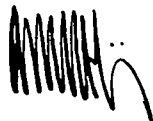

Directors

Directors of the Board who served during the year are shown on page *vi* and *vii*. During the year, Eng. Erastus Mwangera's tenure as Chairperson of the Board was renewed with effect from 18th April, 2018. Mr. Charles Gathogo was appointed with effect from 18th September, 2017 while CPA Andrew C. Mitei and Ms. Mary Gesare had their tenures renewed on 17th September, 2017 for a further three year term.

Auditors

The Auditor General is responsible for the statutory audit of the Authority in accordance with Article 229 of the Constitution of Kenya and the Public Audit Act 2015 for the year ended 30th June, 2018

By Order of the Board

Eng. Peter M. Mundinia
Director General and Secretary to the Board

Nairobi
24/09 September 2018

X. STATEMENT OF DIRECTORS' RESPONSIBILITIES

Section 81 of the Public Finance Management Act, 2012 and section 14 of the State Corporations Act, require the Board of Directors to prepare financial statements in respect of that Kenya National Highways Authority (herein after referred to as the Authority) which give a true and fair view of the state of affairs of the Authority at the end of the financial year/period and the operating results of the Authority for that year/period. The Board of Directors are also required to ensure that the Authority keeps proper accounting records which disclose with reasonable accuracy the financial position of the Authority. The Directors are also responsible for safeguarding the assets of the Authority.

The Board of Directors is responsible for the preparation and presentation of the Authority's financial statements, which give a true and fair view of the state of affairs of the Authority for and as at the end of the financial year (period) ended on 30th June, 2018. This responsibility includes:

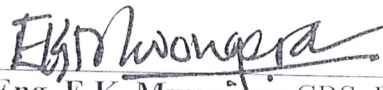

- (i) Maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period;
- (ii) Maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the Authority;
- (iii) Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud;
- (iv) Safeguarding the assets of Authority;
- (v) Selecting and applying appropriate accounting policies; and
- (vi) Making accounting estimates that are reasonable in the prevailing circumstances.

The Board of Directors accepts responsibility for the Authority's financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS) and in the manner required by the PFM Act and the State Corporations Act. The Directors are of the opinion that the Authority's financial statements give a true and fair view of the state of Authority's transactions during the financial year ended 30th June, 2018, and of the Authority's financial position as at that date. The Directors further confirm the completeness of the accounting records maintained for Authority, which have been relied upon in the preparation of the Authority's financial statements as well as the adequacy of the systems of internal financial control.

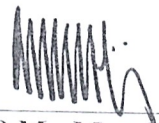

Nothing has come to the attention of the Directors to indicate that the Authority will not remain a going concern for at least the next twelve months from the date of this statement.

Approval of the financial statements

The Authority's financial statements were approved by the Board on 24th September 2018 and signed on its behalf by:

Eng. E.K. Mwangira CBS, FIEK, RCE
Chairman of the Board

CPA A.C. Mitei
Director

Eng. P.M. Mundinia

OFFICE OF THE AUDITOR-GENERAL

REPORT OF THE AUDITOR GENERAL ON KENYA NATIONAL HIGHWAYS AUTHORITY FOR THE YEAR ENDED 30 JUNE 2018

REPORT ON THE FINANCIAL STATEMENTS

Qualified Opinion

I have audited the accompanying financial statements of Kenya National Highways Authority for the year ended 30 June 2018, set out on pages 1 to 49 which comprise the statement of financial position as at 30 June 2018, and the statement of financial performance, the statement of cash flows, the statement of changes in net assets and the statement of comparison of budget and actual amount for the year then ended and a summary of significant accounting policies and other explanatory information in accordance with provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which to the best of my knowledge and belief were necessary for the purpose of the audit.

In my opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of Kenya National Highways Authority as at 30 June 2018, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with Kenya Roads Act, 2007.

Basis for Qualified Opinion

Property, Plant and Equipment-Undetermined Value of Rental Property

The statement of financial position reflects Property, Plant and Equipment balance of Kshs.372,411,102,018; (2017-Kshs-315,677,638,402) and as disclosed under Note 27 to the financial statements. Available information indicates that this balance excludes value of land and houses occupied by staff in the South Rift region. Their value has not been determined despite the Authority reporting an annual income of Kshs.1,211,500 during the year. The ownership documents were not made available for audit. Consequently, the accuracy and completeness of Property, Plant and Equipment balance of Kshs.372,411,102,018 as at 30 June 2018 could not be confirmed.

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of Kenya National Highways Authority

Report of the Auditor-General on Financial Statements of Kenya National Highways Authority for the year ended 30 June 2018

in accordance with ISSAI 30 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Emphasis of Matter

Negative Working Capital

The statement of financial position reflects current assets and liabilities balances of Kshs.40,845,296,104; (2017- Kshs.40,021,627,608) and Kshs.45,507,442,377; (2017- Kshs 26,625,629,243) respectively resulting into negative working capital of Kshs.4,662,146,273. Management has not satisfactorily explained measures being undertaken to reverse this trend which may affect the Authority's ability to meet its obligations as and when they fall due.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in the audit of the financial statements. I have determined that there are no Key Audit Matters to communicate in my report.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, I confirm that, except for the matters discussed in the Basis for Qualified Opinion section of my report, nothing has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7 (1) (a) of the Public Audit Act, 2015, based on the audit procedures performed, I confirm that, except for the matters discussed in the Basis for Qualified Opinion section of my report, nothing has come to my attention to

cause me to believe that internal controls, risk management and governance were not effective.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 1315 and ISSAI 1330. The standard requires that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control.

In preparing the financial statements, management is responsible for assessing the ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the applicable basis of accounting unless the management either intends to liquidate the or to cease operations, or have no realistic alternative but to do so.

The Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public money is applied in an effective manner.

Those charged with governance are responsible for overseeing the financial reporting process, reviewing the effectiveness of how the Authority monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit

report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and governance processes and systems in accordance with the provisions of Section 7 (1) (a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

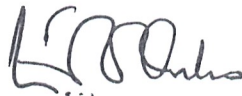

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern or to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the to cease to continue as a going concern or to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

FCPA Edward R. O. Ouko, CBS
AUDITOR-GENERAL

Nairobi

21 August 2019

KENYA NATIONAL HIGHWAYS AUTHORITY

Report and Financial Statements for the year ended 30th June 2018

NOTES ON MATERIAL VARIANCES BETWEEN BUDGETED & ACTUAL AMOUNTS.

Budget notes

- 1. Provide explanation of differences between actual and budgeted amounts (10% over/under) IPSAS 24.14*
- 2. Provide an explanation of changes between original and final budget indicating whether the difference is due to reallocations or other causes. (IPSAS 24.29)*
- 3. Where the total of actual on comparable basis does not tie to the statement of financial performance totals due to differences in accounting basis (budget is cash basis; statement of financial performance is accrual) provide a reconciliation.*

a) Road Maintenance Contributions

The variance was as a result of budget that was unutilised in the financial year. These funds will be rolled over as carry over budget upon approval of the carry overs in the FY 2018/2019

b) Fines, Penalties & Levies

The income from weighbridges was substantially above budget. Most of the income was overload fees and exemption permits. The Authority continued to sensitize transporters on the need to acquire the necessary exemption permits.

c) Finance Income

The favourable variance was as a result of increased interest mainly from the call deposit investments. The Authority endeavoured to negotiate the best rates in the market despite the interest rate capping. These rates ranged 9-12%

d) Other Income

The performance of these incomes was above the budgeted amount in the year due to the income realised from liquidated damages from road projects including Mbita causeway, Saba saba-Malindi, Kisumu-Busia and Thika-Kithimani.

e) Road Maintenance & Axle Load Expenses

The variance was as a result of slow uptake and delayed procurement of works.

f) Compensation of Employees

The variance is mainly due to the fact that the Authority operates below the approved staff compliment which was factored in the budget estimates. However recruitment process is underway to fill the key vacancies in the approved compliment. In addition, the variance was also contributed by phased implementation of the new structure upon recategorization from PC3A to PCA7A1 in October, 2016, non-payment of arrears as budgeted, and the fact that most employees were placed at entry level in the new structure.

g) Finance Costs

The Authority closed down the equity bank accounts at the regions offices bringing down the finance costs

h) Board Expenses

Board activities took place within the financial year as planned. Two directors who had served two full terms retired in June, 2017; one was replaced in September, 2017 while the other one is yet to be replaced

i) Repairs & Renewals

Repairs and maintenance activities were undertaken within the year as planned. The Authority strived to keep the costs to minimum

j) Depreciation

The depreciation charge is a non-cash item not budgeted for. These emanate to Capital items that are budgeted for in the operations budget but posted in the Statement of Financial position as per the accrual basis of accounting when bought with only depreciation appearing in the Statement of Financial performance.

k) General Expenses

The Authority strived to keep the costs to minimum by entering into framework contracts.

l) Loss on foreign exchange transactions

This relates to payments on invoices denominated in currencies.

m) Gain on foreign currency translations

The gain was as a result of the closing rate used for translation of bank balances at the reporting date.

n) Changes between Original and Final budget.

The changes between original and final budget were as a result of revision of the budget within the Financial Year and inclusion of the approved carry over budget from Financial Year 2016-2017

XVII. NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

The Authority is established by and derives its authority and accountability from Kenya Roads Act, 2007. The Authority is wholly owned by the Government of Kenya and is domiciled in Kenya. The entity's principal activity is the management, development, rehabilitation and maintenance of national roads

2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

The Authority's financial statements have been prepared in accordance with and comply with International Public Sector Accounting Standards (IPSAS). The financial statements are presented in Kenya shillings, which is the functional and reporting currency of the entity. The accounting policies have been consistently applied to all the years presented.

The financial statements have been prepared on the basis of historical cost, unless stated otherwise. The cash flow statement is prepared using the direct method. The financial statements are prepared on accrual basis.

3. ADOPTION OF NEW AND REVISED STANDARDS

i. Relevant new standards and amendments to published standards effective for the year ended 30th June 2018

Standard	Impact
IPSAS 33: First time adoption of Accrual Basis IPSAS	(Effective for annual periods beginning on or January 1, 2017) In January 2015, the IPSASB published IPSAS 33, First-time Adoption of Accrual Basis IPSASs. IPSAS 33 grants transitional exemptions to entities adopting accrual basis IPSASs for the first time, providing a major tool to help entities along their journey to implement IPSASs. It allows first-time adopters three years to recognize specified assets and liabilities. This provision allows sufficient time to develop reliable models for recognizing and measuring assets and liabilities during the transition period. <i>The Authority adopted IPSAS in the year ended 30 June 2014 and therefore provisions of first time adoption of accrual basis does not apply to the entity.</i>
IPSAS 34: Separate Financial Statements	(Effective for annual periods beginning on or January 1, 2017) In January 2015, the IPSASB published IPSAS 34, Separate Financial Statements. IPSAS 34 prescribes the accounting and disclosure requirements for investments in controlled entities, joint ventures and associates when an entity prepares separate financial statements. <i>The Authority does not have any subsidiaries, joint ventures or investments and therefore the standard does not apply</i>
IPSAS 35: Consolidated Financial Statements	(Effective for annual periods beginning on or January 1, 2017) In January 2015, the IPSASB published IPSAS 35, Consolidated Financial Statements. IPSAS 35 establishes principles for the preparation and disclosure of consolidated financial statements when an entity controls one or more entities. It requires an entity that controls one or more other entities to assess control over those entities based on the following: - Its power over the other entity

KENYA NATIONAL HIGHWAYS AUTHORITY
 Report and Financial Statements for the year ended 30th June 2018
 NOTES TO THE FINANCIAL STATEMENTS (Continued)

Standard	Impact
	<ul style="list-style-type: none"> - Its exposure or rights to variable benefits from involvement with the other entity - Its ability to control the nature, timing and amount of benefits from the other entity. <p>Once control is assessed the controlling entity is supposed to prepare consolidated financial statements unless it meets all the criteria under section 5 of IPSAS 35.</p> <p><i>The Authority does not have any subsidiaries, joint ventures or investments and therefore the standard does not apply.</i></p>
IPSAS 36: Investments in Associates and Joint Ventures	<p>(Effective for annual periods beginning on or January 1, 2017)</p> <p>In January 2015, the IPSASB published IPSAS 36, Investments in Associates and Joint Ventures. The Standard prescribes for the accounting for investments in associates and joint ventures and to set out requirements for the application of the equity method when accounting for investments in associates and joint ventures. The standard shall be applied by all entities with significant influence over, or joint control of, an investee where the investment leads to the holding of a quantifiable ownership interest.</p> <p><i>The Authority does not have investments in associates or joint ventures/ the entity holds investments in associates and joint ventures and the following is the impact of application of the new standard IPSAS 36:</i></p>
IPSAS 37: Joint Arrangements	<p>(Effective for annual periods beginning on or January 1, 2017)</p> <p>In January 2015, the IPSASB published IPSAS 37, Joint Arrangements. IPSAS 37 establishes principles for financial reporting by entities that have an interest in arrangements that are controlled jointly.</p> <p><i>The Authority does not have an interest in a joint arrangement and therefore the standard does not apply.</i></p>
IPSAS 38: Disclosure of Interests in Other Entities	<p>(Effective for annual periods beginning on or January 1, 2017)</p> <p>In January 2015, the IPSASB published IPSAS 38, Disclosure of Interests in Other Entities. IPSAS 38 requires an entity to disclose information that enables users of its financial statements to evaluate the nature of and risks associated with, its interests in controlled entities, joint arrangements and associates, and structured entities that are not consolidated; and the effects of those interests on its financial position, financial performance and cash flows.</p> <p><i>The Authority does not have an interest in other entities and therefore the standard does not apply.</i></p>

ii. New and amended standards and interpretations in issue but not yet effective in the year ended 30 June 2017

Standard	Effective date and impact:
IPSAS 39: Employee Benefits	<p>Applicable: 1st January 2018</p> <p>The objective to issue IPSAS 39 was to create convergence to changes in IAS 19 Employee benefits. The IPSASB needed to create convergence of IPSAS 25 to the amendments done to IAS 19. The main objective is to ensure accurate information relating to pension liabilities arising from the defined benefit scheme by doing away with the corridor approach.</p>

KENYA NATIONAL HIGHWAYS AUTHORITY
 Report and Financial Statements for the year ended 30th June 2018
 NOTES TO THE FINANCIAL STATEMENTS (Continued)

Standard	Effective date and impact:
IPSAS 40: Public Sector Combinations	Applicable: 1st January 2019: The standard covers public sector combinations arising from exchange transactions in which case they are treated similarly with IFRS 3 (applicable to acquisitions only) Business combinations and combinations arising from non-exchange transactions which are covered purely under Public Sector combinations as amalgamations.

iii. **Early adoption of standards**

The entity did not early – adopt any new or amended standards in year 2018.

4. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

a) **Revenue recognition**

i) **Revenue from non-exchange transactions**

Fines, penalties & Levies

The Authority recognizes revenues from fees, taxes and fines when the event occurs and the asset recognition criteria is met. To the extent that there is a related condition attached, that would give rise to a liability to repay the amount, deferred income is recognized instead of revenue. Other non-exchange revenues are recognized when it is probable that the future economic benefits or service potential associated with the asset will flow to the Authority and the fair value of the asset can be measured reliably.

Transfers from other government entities

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the Authority and can be measured reliably.

ii) **Revenue from exchange transactions**

a) **Interest and other incomes**

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period.

Other income relates to incomes that arise from miscellaneous activities that are not primarily aimed at raising revenue.

b) **Budget information**

The annual budget is prepared on the accrual basis where all planned costs and income are presented in a single statement to determine the needs of the Authority. As a result of the adoption of the accrual basis for budgeting purposes, there is no basis for timing differences on the Authority that would require reconciliation between the actual comparable amounts and the amounts presented as a separate additional financial statement in the statement of comparison of budget and actual amounts.

c) **Property, plant and equipment**

- All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. When significant parts of property, plant and equipment are required to be replaced at intervals, the Authority recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.
- Depreciation is calculated on straight line basis at annual rates estimated to write off the cost of the Asset over expected useful lives.

The annual depreciation rates in use are: -

(i) Computer Equipment & Accessories	33.3%
(i) ICT Infrastructure and Telephony	33.3%
(ii) Motor Vehicles	25.0%
(iii) Office Equipment and Furniture	12.5%
(iv) Office Partitioning and fixtures	16.7%
(v) Plant & Machinery	10.0%
(vi) Buildings	2.5%

- An item of property and equipment is de-recognised upon disposal. Any gain or losses on de-recognition of the asset is included in the Statement of Financial Performance in the year the asset is de-recognised.
- There are no restrictions on property, plant and equipment
- Contractual commitments for the acquisition of property, plant & equipment in the FY 2017/2018 amounted to Kshs. 171,744,638,958.97 [2016/2017 Kshs.82,664,568,739]
- There was no compensation from third parties for impaired, lost or given up items of PPE
- Assets that cost Kshs. 458m and Kshs. 372m were fully depreciated as at 30.06.2018 and 30.06.2017 respectively

d) Leases

Operating leases are leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item to the Authority. Operating lease payments are recognized as an operating expense in surplus or deficit on a straight-line basis over the lease term.

Non-cancellable operating lease rentals are payable as follows;

	<u>2018</u>	<u>2017</u>
	<u>Kshs</u>	<u>Kshs</u>
Not Later than one year	82,927,530	60,929,903
Later than one year and not later than three years	168,964,842	111,338,776
	<u>251,892,372</u>	<u>172,268,679</u>

The Authority leased head office premises under two operating lease. The leases typically run for 6 years with an option for renewal upon expiry on 30 November, 2017 and 30 March 2019 respectively.

Lease payments are increased according to the contract stipulations. The Board does not have an option to purchase the leased asset at the expiry of the lease period. There are no contingent rents recognised in the statement of financial performance.

e) Intangible assets

Intangible assets acquired separately are initially recognized at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange. Following initial recognition, intangible assets are carried at. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred. The only intangible assets in the Authority's books of accounts are computer software.

The useful life of these intangible assets is assessed as indefinite.

f) Research and development costs

The Authority expenses research costs as incurred.

g) Financial instruments

Financial Assets

Initial recognition and measurement

Financial assets within the scope of IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments or available-for-sale financial assets, as appropriate. The Authority determines the classification of its financial assets at initial recognition.

Impairment of financial assets

The Authority assesses at each reporting date whether there is objective evidence that a financial asset is impaired. A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset can be reliably estimated. Evidence of impairment may include the following indicators:

- The debtors of the Authority are experiencing significant financial difficulty
- Default or delinquency in interest or principal payments
- The probability that debtors will enter bankruptcy or other financial reorganization
- Observable data indicates a measurable decrease in estimated future cash flows (e.g. changes in arrears or economic conditions that correlate with defaults)

h) Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of IPSAS 29 are classified as financial liabilities at fair value through surplus or deficit or loans and borrowings, as appropriate. The Authority determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, plus directly attributable transaction costs.

Loans and borrowing

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in surplus or

deficit when the liabilities are derecognized as well as through the effective interest method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

i) Financial Risk Management

The Authority has initiated and facilitated the process that will see the enhancement of risk management. The Authority has an integrated risk management framework/strategy. The Authority's approach to risk management is based on risk governance structures, risk management policies, risk identification, measurement, monitoring and reporting. The risk management policies and systems are reviewed regularly to ensure they are in tandem with the micro and macro environment, regulatory guidelines, industry practice, market conditions as well as the services offered.

The following risks arise in regard to financial instruments such as payables, receivables and cash and cash equivalents held by the Authority;

a) Liquidity Risk

Liquidity risk is the risk that the Authority will not have sufficient financial resources to meet its obligations when they fall due or will have to do so at excessive costs. This risk can arise from mismatches in the timing of cash flows from revenue and capital/ operational outflows, assets and liabilities according to their maturity profiles and can occur where cash flow streams have been discontinued, etc. Funding risk arises when the necessary liquidity to fund illiquid asset positions cannot be met at expected terms and when required.

The objective of the liquidity and funding management is to ensure that all foreseeable operational, capital and loan commitment expenditure can be met under both normal and stressed conditions and the mismatch is controlled in line with allowable risk levels.

Below are the undiscounted cash flows on the Authority's financial assets and liabilities on the earliest possible contractual/maturity date. The liquidity ratio is 0.90 (FY 2016/2017: 1.50)

	Note	2017-2018 Kshs	2016-2017 Kshs
Financial Assets			
Cash and cash equivalents	23	8,750,326,227	11,732,046,105
Receivables from non- exchange transactions	24	18,486,568,238	18,430,754,231
Receivables from exchange transactions	25	13,604,169,625	9,853,873,353
Total financial assets		40,841,064,090	40,016,673,689
Financial Liabilities			
Trade other payables from exchange transactions	29	45,306,993,242	26,550,595,252
Refundable deposits from customers	30	150,505,960	67,210,651
Total financial liabilities		45,457,499,202	26,617,805,903
NET LIQUIDITY		(4,616,435,112)	13,398,867,786
LIQUIDITY RATIO		0.90	1.50

The primary sources of revenue for the Authority are receipts from fuel levy fund and government exchequer. Other sources include fines and penalties as approved by the subsidiary legislation through legal notice no 86 of 2013.

b) Market Risk

Market risk is the risk that the fair value of future cash flows of financial instruments will fluctuate because of changes in foreign exchange rates, prices and interest rates. The objective of market risk management policy is to protect and enhance the Statements of Financial Position and performance by managing and controlling market risk exposures within acceptable parameters, and to optimize the funding of business operations and facilitate capital expansion. The Authority is exposed to the following market risks: -

(i) Currency Risk

Currency risk arises primarily from purchasing imported goods and services from overseas or indirectly via local supplies. The currency risk is minimal as cash and cash equivalents held with banks are dominated in Kenya Shillings and there are minimal dealings in foreign currency.

(ii) Interest Rate Risk

The Authority is exposed to various risks associated with effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest margin may increase as a result of such changes but may reduce losses in the event that unexpected movement arises.

The Authority closely monitors interest rate movements and seeks to limit its exposure by managing the interest rate and maturity structure of assets and liabilities on the statement of financial position. The interest rates on call deposits held in financial institutions are fixed and agreed upon on monthly basis. The management is in regular contact with the approved banks in a bid to obtain the best interest rates and therefore able to plan for the resulting income.

The interest rate risk is minimal as the Authority does not have any borrowings.

c) Operational Risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Authority's processes, personnel, technology and infrastructure and from external factors other than credit, market and liquidity risks such as legal and regulatory requirements and generally acceptable standards of corporate behaviour.

The Authority seeks to ensure that key operational risks are managed in a timely and effective manner through a framework of policies, procedures and tools to identify, assess, monitor and report such risks.

The Authority's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Authority's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management. The responsibility is supported by the development of overall standards for the management of operational risk in the following areas: -

- Requirements for appropriate segregation of duties, including the independent authorization of transactions.
- Requirements for the reconciliation and monitoring of financial transactions
- Compliance with regulatory and legal requirements
- Documentation of controls and procedures
- Requirements for the yearly assessment of operational risks faced and the adequacy of controls and procedures to address the risks identified
- Development of Business Contingency Plans
- Training and professional development
- Ethical and business standards
- Risk mitigation, including insurance where it is effective.

Operational risks are documented in the 'Enterprise Risk Management' and are managed by the Enterprise Risk Management Section established to spearhead and coordinate risk management activities. The measures taken include proactively identifying, analysing and mitigating risks in all facets of the business.

d) Compliance and Regulatory Risk

Compliance and regulatory risk includes the risk of non-compliance with regulatory requirements. The Authority has complied with all externally imposed requirements throughout the year.

e) Legal Risk

Legal risks are the risk of unexpected loss, including reputational loss, arising from defective transactions or contracts, claims being made or some other event resulting in a liability or the loss for the Authority, failure to protect the title to and liability to control the rights to assets of the Authority (including intellectual property right), changes in law, or jurisdictional risk.

The Authority manages legal risk through the 'Audit Risk & Governance Committee', legal function, legal risk policies and procedures and the effective use of internal controls and external lawyers.

f) Inventories

Inventory is measured at cost upon initial recognition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

Costs incurred in bringing each product to its present location and condition is accounted for. After initial recognition, inventory is measured at the lower of cost and current replacement cost. However, to the extent that a class of inventory is distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower of cost and current replacement cost. Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Authority.

g) Provisions

Provisions are recognized when the Authority has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or

service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the Authority expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain.

The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

Contingent liabilities

The Authority does not recognize a contingent liability, but discloses details of any contingencies in the notes to the financial statements, where the possibility of an outflow of resources embodying economic benefits or service potential is probable.

Contingent assets

The Authority does not recognize a contingent asset, but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Authority in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

h) Nature and purpose of reserves

The Authority creates and maintains reserves in terms of specific requirements. The Authority maintains grants and surplus reserves. The grant reserves are exchequer and donor funds received from the Government and Development Partners for development of roads. The surplus reserve represents the surplus or deficit of Road maintenance contributions and other internally generated funds against road maintenance and operation expenses.

The exchequer and Development partner funds are capitalized in the statement of financial position whereas Road maintenance contributions are expensed in the statement of financial performance. However, the portion of exchequer funds spent on non-capital items or project expenses is transferred to recurrent transfers and treated as recurrent government grants and expenditures accordingly.

i) Changes in accounting policies and estimates

The Authority recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

j) Employee benefits

Retirement benefit plans

The Authority provides retirement benefits for its employees. Defined contribution plans are post-employment benefit plans under which the Authority pays fixed contributions into a separate fund account, and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable.

k) Foreign currency transactions

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported at the statement of financial position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognized as income or expenses in the period in which they arise.

l) Related parties

The Authority regards a related party as a person with the ability to exert control individually or jointly, or to exercise significant influence over the Authority, or vice versa. Members of key management are regarded as related parties and comprise the Board and senior managers.

m) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at various commercial banks at the end of the financial year.

n) Comparative figures

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

o) Significant judgments and sources of estimation uncertainty

The preparation of the Authority's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period.

However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Authority based its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Authority. Such changes are reflected in the assumptions when they occur as per IPSAS 1.140

Useful lives and residual values

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- The condition of the asset based on the assessment of experts employed by the Authority
- The nature of the asset, its susceptibility and adaptability to changes in technology and processes
- The nature of the processes in which the asset is deployed
- Availability of funding to replace the asset
- Changes in the market in relation to the asset

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions is included in Note 24.

Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value where the effect is material.

p) Subsequent events

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2018.

q) Capital Commitments

All capital commitments contracted for/authorised at the reporting period end have been recognised in the financial statements.

5. Road maintenance contributions

	2018	2017
	Kshs	Kshs
Road Maintenance Funds	16,899,999,999	15,186,600,000

Motor Vehicles	62,955,824	71,203,593
Plant & Machinery	101,114,598	76,607,086
Buildings	4,222,047	1,217,050
Total depreciation and amortization	217,048,858	217,423,614

15. Repairs and maintenance

	2018 Kshs	2017 Kshs
Repairs property, plant and equipment	3,114,978	2,757,648
Vehicles	67,211,656	74,743,180
Renewals	18,807,648	11,554,662
Total repairs and maintenance	89,134,282	89,055,490

* Motor Vehicle expenses include insurance, parking fees, fuel & oil, tyres & tubes and parts, service & maintenance. The Authority entered into a framework contract with Toyota Kenya ensuring costs were kept at minimum. In addition the Authority purchased five new motor vehicles at the beginning of the financial year.

16. General expenses

The following are included in general expenses:

	2018 Kshs	2017 Kshs
Postage & courier services	1,424,135	1,411,649
Reference material	69,395	124,180
Telephone & Wide Area Network connectivity	13,326,413	15,030,585
Newspapers & magazines	2,925,850	2,893,230
Drinking water	1,324,251	1,272,826
Printing & photocopy	645,267	1,013,019
Hire of transport	2,404,972	3,382,559
Kitchen utensils	284,252	179,850
General insurance	1,631,882	987,016
Stationery & consumables	21,917,714	17,810,248
Cleaning & sanitation	10,345,952	8,657,917
Security expenses	33,240,739	30,597,261
Professional fees	74,869,289	46,515,524
Conference & seminars	35,309,840	39,754,222
Advertising, Publicity & Corporate Social Responsibility	25,931,534	28,243,128
Anti-Corruption & Integrity Issues	7,515,164	4,536,975

XVIII PROGRESS ON FOLLOW UP OF AUDITOR RECOMMENDATIONS

The following is the summary of issues raised by the external auditor, and management comments that were provided to the auditor. We have nominated focal persons to resolve the various issues as shown below with the associated time frame within which we expect the issues to be resolved.

Reference No. on the external audit Report	Issue / Observations from Auditor	Management comments
1	<p>Property ,Plant and Equipment</p> <p>1.1 Undetermined value of Rental Property</p> <p>The Property, Plant and Equipment balance of Ksh.315, 677,638,402 as at 30 June 2017 excluded undetermined value of land and houses occupied by staff in South Rift Region from which the Authority earned an income of Ksh. 1,076,000.00 during the year under audit. As such, the accuracy and correctness of Property Plant and Equipment balance of Ksh. 315,677,638,402 as at 30 June 2017 could not be confirmed</p>	<p>We agree with the audit observation that the value of land and houses occupied by some KeNHA staff at the South Rift Region is not included under the Property, Plant and Equipment whose value as at 30th June, 2017 was Kshs. 315 billion. This amount of Kshs. 315 billion represents Government's Development Expenditure through KeNHA for the eight year period from financial year 2009/2010 to end of financial year 2016/2017 on 30th June, 2017. The houses where a few of KeNHA staff reside and rent collected amounting to Kshs. 1,173,500 during the financial year were built as Resident Engineer's premises under then Lanet- Nakuru - Njoro Turnoff road construction contract. The contract was managed by the Parent Ministry. The undetermined value of land and houses therefore relates to land previously acquired by the Government and payments made to the Contractor prior to the establishment of the Authority. These values alongside the development expenditures met by the Government over the years up to FY 2009/2010 in all trunk roads were not made available to the Authority.</p> <p>Management is currently developing a mechanism of obtaining ownership documents for all the land, structures and developments on the road, road reserves or former camps that are under the jurisdiction of KeNHA. Upon obtaining such title deeds, the Authority will proceed to the next stage of professionally establishing the values of its</p>

2	<p>Kenya Transport Sector Support Programme IDA credit No. 4926 Projects Rehabilitation of Kisumu -Kakamega Road Section (Lot1)</p> <p>As reported in the previous year, the contract awarded to M/s China Overseas Engineering Group Co. Ltd at contract sum of Kshs.4,452,053,438..28 for a period of two years .The Project commenced on 5th January 2013 and was originally scheduled to be completed in October 2015</p>	<p>We concur with the Auditors observation that progress was behind schedule. We wish however to state as follows:</p> <ul style="list-style-type: none"> • The Contractor's progress was slowed down due to various circumstances beyond the control of the parties such as adverse weather (unseasonably heavy rain), delay in availability of exchequer releases and delays in compulsory acquisition of parcels of land essential to the project. These circumstances entitled the contractor to extensions of time in the programme, as per contractual provisions. • Arising from the project being behind the schedule, the contractor was instructed to work extra hours in order to recover the lost time. He was further instructed to deploy additional road works equipment to facilitate completion of the pending works as per the program of works earlier approved. Currently, the contractor has achieved 95% physical progress of work which is expected to be completed by end of August 2018.

KENYA NATIONAL HIGHWAYS AUTHORITY
 Report and Financial Statements for the year ended 30th June 2018

<p>after an extension of time was awarded to the contractor revising the completion date 10 October 2016. The project was behind schedule .Review of the Progress in the year under audit revealed that Monthly progress report No.41 of June 2017 shows that the percentage of time elapsed was 115% while the physical works completed were at 64% an indication of slow progress in project implementation.</p>	<p>In regard to the change in the contract sum for the project road, the detailed clarifications are as given in the subheadings below:</p> <p>(a) <u>Overview of the Kenya Transport Sector Support Project (KTSSP)</u> The Kenya Transport Sector Support Project is a development initiative formulated by the Government(GOK) and the World Bank(WB) in accordance with the priorities outlined in the Country Assistance Strategy. As with other GOK/WB projects, this project is implemented under stringent technical, administrative and governance conditions. The General Conditions, describe the legal agreement between the parties and the remedies applicable in case of non-compliance. The remedies include suspension or cancellation of the financing. The implementing entities assigned to implement various project components therefore strive to ensure consistent compliance and application of best practices so as to maintain continued sector access to the concessionary development financing. The implementing agencies for KTSSP include Kenya National Highways Authority, Kenya Airports Authority, Kenya Civil Aviation Authority and the Ministry of Transport and Infrastructure.</p> <p>(b) <u>Explanation of KTSSP Credits</u> The World Bank development financing framework provides that a project can be financed by one or more loans ("Credit"). In the case of the Kenya Transport Sector Support Project, the original Credit, having the reference number Credit 49260 was approved in April 2011. In 2014 following a fire event at Kenya's main airport as well as financing gaps in various KTSSP components, a second Credit having reference number Credit 54100 was approved in March 2014.</p> <p>(c) <u>Credit 49260 for XDR 190,800,000 (equivalent to USD 300,000,000)</u> Credit IDA49260 was the original credit which was approved by the World Bank Board on 21st April 2011 and thereafter became effective on 22nd August 2011. The credit will close on 31st December 2018. The total amount of this credit was XDR 190,800,000 equivalent to USD 300,000,000. The amount allocated to works under KeNHA was XDR 124,700,000.</p> <p>(d) <u>Credit 54100 for XDR 123,600,000 (equivalent to USD 203,500,000)</u> Credit IDA54100 was an additional credit which was approved by the World Bank Board on 26th March 2014 and thereafter became effective on 20th June 2014. The credit will close on 31st December 2018. The total amount of this credit was XDR 123,600,000 equivalent to USD 203,500,000. The amount allocated to works under KeNHA in this Credit was XDR 80,211,000. Once the additional funding was available, the various implementing agencies were able to proceed with procurement processes in the manner approved in the financing agreements.</p> <p>(e) <u>Need for additional funding on the Kisumu – Kakamega road</u></p>
<p>In addition, the contract sum was revised by an additional Kshs. 3,509,473,923 to Kshs.7,961,527,361.84 a Variation of 78.8% contrary to the Public Procurement Disposal Act,2005 thereby contravening the law.</p>	

	<p>The additional funding for the Kisumu – Kakamega road provided resources towards construction of grade-separated interchanges, improvement of existing bridges and completion of dual sections at the southern and northern ends of the project roads.</p> <p>(f) <u>Compliance with the Public Procurement and Disposal Act</u></p> <p>The variation in the contract for the Kisumu – Kakamega road under KTSSP was implemented in compliance with the Public Procurement and Disposal Act as follows: The Financing Agreement of 2014 negotiated between GOK and the World Bank for KTSSP specifically provides that all goods ,works, consulting services and non consulting services under the project shall be procured in accordance with the WB procurement guidelines. The applicable clauses from the Agreement include:</p> <ul style="list-style-type: none"> • The Public Procurement and Asset Disposal Act Section 6 provides that where negotiated grants or loans are in effect, they take precedence over the PPDA <p>The coming into effect of the Financing Agreements for KTSSP was conditional upon an affirmative legal opinion from the Attorney General. The Agreements, including the clauses specifying that all procurement should follow WB Guidelines, were therefore submitted to the Attorney General for legal opinion and subsequently received the Attorney General’s approval as being valid and legitimate. World Bank Procurement Guidelines, require that addendums be subject to prior review.</p> <ul style="list-style-type: none"> • The Government and World Bank agreed to implement KTSSP using World Bank procurement procedures, an agreement ratified and endorsed by the Attorney General. • World Bank procurement procedures were correctly applied in processing the addition to the contract price. • The PPDA anticipates and explicitly authorises use of development partner procurement procedures, in this case World Bank procurement procedures. • Stringent reviews and approval procedures are applicable to the KTSSP financing agreements and significant sector-wide remedies are applicable in the event of non-compliance. The implementing agencies are well aware of this. <p>In summary, the variation to the contract for the Kisumu – Kakamega road was fully compliant with the</p>

5	<p>Rehabilitation of Kakamega-Webuye road</p> <p>The Project was awarded on 18 January 2012 to a construction company at a contract sum of Kshs 2. 505.924.536.66. The works commenced on 1 April, 2013 for period of 24 months with a completion date 31 March 2015 The project is financed by World Bank and the Government of Kenya at 75% and 25% respectively.</p> <p>Evidence available indicated that notice of termination of the contract was issued on 8 May 2014 due to contractor's non-performance .However the contractor obtained a court injunction stopping KeNHA from removing equipment from the site .The contractor later formally</p>	<p>We concur with the Audit observations that KeNHA was dissatisfied with contractual performance and proceeded to issue a notice of termination, the matter was contested in court by the contractor, a settlement was reached to enable the termination to take effect and a replacement contractor was subsequently engaged. We wish to state as follows: -</p> <ul style="list-style-type: none"> • The original contractor, upon going to court after KeNHA issued a notice of termination in May 2014, was able to secure an injunction against KeNHA that prevented termination of the contract, expulsion of the contractor from site and encashment of advance payment and performance guarantees. • Between May 2014 and June 2015 KeNHA pleaded its case in court as it sought to overturn the court injunction and demonstrate the public interest in the matter. During this time, little work was undertaken on site and KeNHA was still enjoined against taking corrective action. • However the court ruling on 12th June 2015 directed the parties to commence an arbitration process and did not set aside the prevailing injunction against KeNHA. • Given that the designated arbitrators under this contract were to be appointed by the Permanent Court of Arbitration in the Hague and the arbitration process is known to have a duration of many months or years, it was clear that upon expiry of the project financing agreement in December 2018, the matter would likely still be under arbitration and the road would not be constructed. The Authority therefore determined, with legal advice that the best option for service delivery in

KENYA NATIONAL HIGHWAYS AUTHORITY
 Report and Financial Statements for the year ended 30th June 2018

<p>proposed to the employer a negotiated settlement to the dispute which resulted into a Deed of Settlement and Release. In view of the development it was not clear when the project would be completed.</p>	<p>accordance with its mandate would be to settle the matter to enable timely appointment of a replacement contractor. The contract was eventually terminated and the advance payment guarantees recovered in full. The Authority received the full sum advanced to the Contractor at its NIC Bank Ltd accounts no. 1001936677 and 1110001524 on 24th June 2016, 28th June, 2016 and finally on 29th June, 2016. The works were awarded to a new contractor whose progress of works is satisfactory and has so far achieved 45% physical progress of works. The contractual completion date is end of November 2018.</p>
<p>Review of the project in the year under audit revealed that negotiated contract was awarded on 26 August 2016 to M/s Jiangvi Zhongmei Eng to complete the works at a contract sum of Kshs. 4,168,686,096.23 for a period of 24 months ending 30 November 2018. Progress report no.6 of May 2017 shows that the percentage of time elapsed was 24.56% while the physical works completed were at 7.1% an indication of slow progress in project implementation which may further lead to escalation of project costs.</p>

6	<p>Consultancy Services for Management Contracts of weighbridge Stations across the National Road Network</p> <p>Kenya National Highway Authority (KeNHA) has privatized the management and operations of all overloading control centers also known as weighbridges on major trunks roads. The objective of this is to attain a sustainable and safe road network by ensuring that axle loads applied to road pavements are not exceeded. The weighbridge stations were divide into five clusters for purposes of these management consultant contracts.</p> <p>6.1 Requests for Expression of Interest and Request for Proposals.</p> <p>Interested firms were invited for expression of interest after which selected four consultancy firms were shortlisted. The Shortlist was approved by the Tender Committee in their meeting held on 21 June 2012. Request for Proposal; (RFP) were issued to the shortlisted firms on 25 July 2012.</p>	<p>The procurement process had commenced with calling for Expression of Interest (EOI) which was evaluated, and the shortlisted bidders invited for RFP. The RFP bid document required the bidders to bid for the weighbridge management, operation and maintenance components, but also propose and provision (in form of Provisional Sums) for weighbridge improvements and automation, in order to remove discretion (which, had hitherto, tended to promote corrupt tendencies) at the weighbridges. At the RFP tender submission date, the Engineer was required to come up with an Engineering estimate based on the human capital required for weighbridge management activities during the life of the contract. This figure was to be used to compare the bids and for conducting sensitivity analysis of the bids but was not for use as bases for tender award. It was expected that the RFP bids would excite good response to allow for picking of the lowest responsive and evaluated bidder. But at the end only one bidder reached the financial evaluation of the two-envelope evaluation process.</p>
	<p>6.2 Proposal Response and Evaluations</p> <p>The firms return the RFP depending on the cluster for evaluation and as detailed in the table below (4.4). However, only one firm was found to be responsive upon preliminary evaluation in all clusters and was awarded the contracts after technical and financial evaluations. The reasons for the rest being non-responsive were having provided bid bonds valid for 120 days instead of 150 days.</p> <p>6.3 Tender Committee, Award and Negotiations</p> <p>The Tender Committee in their meeting No.92 held on 22 November 2012 approved the award of the five contracts to M/s SGS Kenya Limited being the only evaluated tenderer. The consultant was notified of the award on 22 November 2012. This was followed by negotiations between the KeNHA and consultants on 11 December</p>	<p>From the foregoing, Engineers Estimate was for weighbridge management component, and did not include the cost of improvements of the</p>

No	Weighbridge station cluster	Engineer's estimate	Contractor's tender sum	Variance
1.	Webuye, Malaba and Eldoret cluster plus adjacent road network	263,978,880	519,321,725.85	255,342,845.83
2.	Gilgil and Mai mahiu cluster plus adjacent road network	287,508,320	508,704,606.32	221,196,286.32
3.	Mariakani and Mtwapa cluster plus adjacent road network	361,605,640	532,728,641.29	171,123,001.29
4.	Athi River, Thika Road and Isinya Cluster plus adjacent road network	340,277,300	650,869,902.86	310,592,602.86
5.	Busia, Isebania and Kisumu cluster plus adjacent roads network	233,354,880	452,205,301.23	218,850,421.23
	Total	1,486,725,020	2,663,830,177.53	1,177,105,157.53

2012. The contracts were later signed between the two parties on 04 February 2013 and order to commence given on the same date for period of three (3) years ending 04 February 2016.

6.4 Tender Sums Visa Vis Engineer's Estimates
 Examination of records documents relating to these consultancy contracts revealed that tender sums may not have been competitive and consequently exceeded the engineers estimates by a total of Kshs.1,177,105,157.53 as follows:-

weighbridge. The improvements and weighbridge automation, as per RFP document, was to be proposed and appropriate cost provisioned (in Provisional Sums) by the bidders. However, the tender sum (by bidders) as per Request for Proposal relates to weighbridge management component, improvement and automation costs. The Engineers estimate was used for sensitivity analysis i.e. to determine whether contractors were frontloading or had submitted imbalanced bids. The Engineers estimate could have not been the basis for disqualifying a bidder, as this was provided for in Public Procurement and Disposal Act 2005. The Engineers Estimate, as illustrated in the request to Director General (DG) for authority for the Evaluation Committee to proceed with Negotiations (before procedural award), for the weighbridge management only was KSh 1,486,725,020.00 while the successful bidder had KSh 1,810,638,585.00 for the same. For Capex (Provisional Sums), the provisional capital expenditure was KSh 869,269,192.70. The Contract, therefore was for continuation of operation, management and maintenance of the thirteen weighbridges at KSh 1,810,638,585 with a provision of expending the KSh 869,269,193 if Kenya National Highways Authority were to source for these extra funds. The Authority thereafter approached the Kenya Roads Board with a view of requesting for allocation from the Minister's 10% of Fuel Levy Funds. KRB agreed to KeNHA's request and an allocation of KSh 200 Million was promised for 2013/2014, 2014/2015 and 2015/2016 Financial Years

KENYA NATIONAL HIGHWAYS AUTHORITY

Report and Financial Statements for the year ended 30th June 2018

No	Weighbridge Station Cluster	Item Description	Pc No	Amount in Contract Kshs.	Amount Paid Kshs.	Excess Paid Kshs.
<p>6.5 Exhaustion of contract sums It was observed that three (3) year contracts period ended on 31 December 2015 and as at the end of contract period, the consultant had been paid in excess of the contract amounts in some items as shown below:-</p>						
1	Webuye Malaba and Eldoret cluster plus adjacent road network	Engineer's superintendence	34	30,500,000	58,028,748	27,528,748
2	Gilgil and Mai mahu cluster plus adjacent road network	Engineer's superintendence	34	25,250,000	62,214,275	36,964,275
3	Mariakani and Mtvapa cluster plus adjacent road network	Engineer's superintendence	33	41,000,000	71,390,898	30,390,898
-	Athi River, Thika road and Isinya Cluster plus adjacent road network	Management and operation Engineer's superintendence	31 31	137,005,163 41,000,000	293,064,158 85,056,500	156,058,995 44,056,500

respectively, adding up to KSh 600 Million. The Authority was then to provision for KSh 269 Million. Consequently, the Contractor was instructed to proceed with the Provisional Capex amounts of the KSh 869 Million which included high speed weigh in motion scales at four weighbridges along the Northern Corridor (Mariakani, Athi River, Gilgil and Webuye) with their automated weighbridge and traffic control as well as weighbridge traffic control systems at all the 9 weighbridges.

I. This approval was given after the assurance that the Authority would provide enough budgets for the 3-year projects period to take care of the management, operation and maintenance component of the contracts.

a) The first three years contract for Management, Operation and Maintenance for the five (5) Weighbridge Stations Clusters ended on 31st December 2015 while the current three year contract commenced on 1st January 2016. Therefore, there was never any need to vary the previous contracts. b) Payment of consultants in excess of contract sum: Projects appraisals were carried out and approved by the tender committee in September, 2015. The appraisal resulted increase of the contract sums .
