MOI UNIVERSITY

ANNUAL REPORT AND FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

UNIVERSITY VISION AND MISSION STATEMENT

Moi University was established in 1984 as an institution of science and technology with a component of arts based programmes.

The current University vision and mission statements take into consideration the rapid changes in the external and internal environment since the inception of the University in 1984.

VISION

To be the University of choice in nurturing innovation and talent in science, technology and development.

MISSION

To preserve, create and disseminate knowledge and conserve and develop scientific, technological and cultural heritage through quality and relevant teaching and research; to create a conducive work and learning environment; and to work with government and private sector for the betterment of society.

CORE VALUES

At Moi University, we believe in:

- Promotion and defence of intellectual and academic freedom, scholarship and relentless search for the truth
- Fostering teamwork, collaboration, creativity and innovation, effective communication, tolerance, perseverance and a culture of peace
- Embracing excellence, openness, consultation and consensus building, efficiency and effectiveness
- Practicing professionalism, meritocracy, exemplary leadership, equality, integrity and social justice
- Maintaining a sense of self-respect, discipline, responsibility, institutional loyalty and national patriotism
- Continuous improvement of services in order to remain competitive

MOI UNIVERSITY

ANNUAL REPORT AND FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2011

REPORT OF THE CHAIRMAN

I am pleased to present this report for the year ended 30 June 2011. The focus of the University Council has been to ensure that the necessary infrastructure to facilitate learning is provided and to ensure quality training.

The University is currently constructing hangar and support facilities for our aircraft in addition to on going projects like the construction of the six storey building that will house the Schools of Public Health, Dentistry, Pharmacy and Nursing.

To advance research, the University continues to hold the Annual International Conference, as well as symposia, public and inaugural lectures. Our staff also engage in collaborative research with other institutions to solve real problems in society. For example, during the year, our proposal to improve food security in East Africa using multiple stress tolerant sorghum was approved by the McKnight Foundation to the tune of US \$224,000.

The University Council is pleased with the efforts of the University management and the bold strides that the University has undertaken to enhance the variety and quality of degree programmes offered by the University. This has seen an increase in the number of students graduating which reached 5,777 in 2010, the highest number in the history of the University.

I am happy to note that as a result of the quality of our programmes, our graduands are making a great impact in the various institutions that absorb them.

The University is still pursuing the acquisition of a suitable building in Nairobi to accommodate the over 3,000 students currently enrolled at the campus. In this regard, I appeal to the Government to assist us in this matter.

I thank all our partners, donors, collaborating institutions and students for their continued support and dedication and urge that we strive to achieve greater heights of excellence in the coming years.

.....
E. MWAI/CBS

CHAIRPERSON – MOI UNIVERSITY COUNCIL

MOI UNIVERSITY

ANNUAL REPORT AND FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2011

REPORT OF THE VICE- CHANCELLOR

I am pleased to present the report for the year ended 30 June 2011. This year witnessed major developments in the University that saw Chepkoilel and Karatina University Colleges being upgraded to be constituent colleges of Moi University.

The University now has five constituent colleges name: Narok, Kabianga, Karatina, Chepkoilel and Rongo.

The University currently has 13 Schools:

- Aerospace Sciences
- Arts and Social Sciences
- Dentistry
- Business and Economics
- Education
- Engineering
- Human Resource Development
- Information Sciences
- Law
- Medicine
- Public Health
- Biological and Physical Sciences
- Nursing

Our vision is to be the University of Choice in nurturing innovation, science, technology and development. To achieve this vision, we are in innovative activities like reviving Rivatex textile factory, making us the only university running a factory for teaching and production in the region.

The University also offers training in aerospace sciences, supported by fully owned and operated aircraft.

I am glad to report that the University has been granted approval by Kenya Civil Aviation Authority (KCAA) to train pilots at the level of Private and Commercial Pilot Licence as well as for Instrument Rating.

The University is also using one of its aircraft to take our staff to Nairobi Campus to teach thereby reducing the time taken to travel.

The University continues to be actively involved in forging linkages and partnerships with other institutions of higher learning and research both regionally and internationally.

Through the VLIR-UOS Projects, the University is undertaking many projects, among them the Demographic Surveillance System on health intervention which has been rated one of the best VLIR projects.

MOI UNIVERSITY
ANNUAL REPORT AND FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2011

REPORT OF THE VICE- CHANCELLOR (continued)

Moi University and Moi Teaching and Referral Hospital also have an agreement upon which the framework for sharing facilities for medical education and research between the two institutions is based. Apart from these partnerships, the University has also recently engaged in collaborative agreements with Indiana University Purdue University Indianapolis (IUPUI) and Suez Canal, Ismailia University on academic disciplines, students and staff exchange and research and extension activities.

Financial Performance Highlights

During the year, there was an increase in the revenue base of the University resulting in an increase in the overall income levels.

However, in spite of the gains made, the level of funding received by the University is still inadequate considering the number of students admitted at the University and the escalating costs occasioned by general price increases and the rise in the cost of teaching materials necessary to provide quality programmes. There has also been an increase in operations and maintenance expenses because the funding level has not kept pace with the increase in student numbers.

I appeal to the Government to increase the amount allocated to the University in the recurrent and capital budgets to enable us meet the costs and improve the learning infrastructure necessary for providing quality education

Appreciation

I extend my gratitude to the Government and our development partners and collaborators for the support and advice that they have extended to the University to enable us realize our objectives

I also thank the University Council for the commitment in mobilizing resources and the guidance they have provided to the University that has led to the remarkable achievements and growth of the University.

.....
PROF. RICHARD K. MIBEY, FWIF, EBS
VICE- CHANCELLOR

MOI UNIVERSITY

ANNUAL REPORT AND FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

STATEMENT OF COUNCIL MEMBERS' RESPONSIBILITIES

The Council Members are required to cause to be prepared financial statements for each financial year, which give a true and fair view of the financial affairs of the University as at the end of the financial year, and of its surplus or deficit for that year. The Council Members are required to ensure that the University maintains proper accounting records, which disclose, with reasonable accuracy, the financial position of the University. They are also responsible for safeguarding the assets of the University.

The Council Members accept responsibility for the financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Financial Reporting Standards and the requirements of the Exchequer and Audit Act. The Council Members are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the University as at 30 June 2011 and of its surplus for the year then ended. The Council Members further accept responsibility for the maintenance of accounting records that may be relied on in the preparation of the financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the Council Members to indicate that the University will not remain a going concern for at least twelve months from the date of this statement.

Signed on behalf of the Council by:

VICE-CHANCELLOR

KENYA NATIONAL AUDIT OFFICE

REPORT OF THE AUDITOR-GENERAL ON MOI UNIVERSITY FOR THE YEAR ENDED 30 JUNE 2011

REPORT ON THE FINANCIAL STATEMENTS

I have audited the accompanying financial statement of Moi University set out on pages 17 to 35, which comprise the statement of financial position as at 30 June 2011, and the statement of comprehensive income, statement of changes in reserves and statements of cash flows of the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provision of Article 229 of the Constitution of Kenya and Section 14 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The management is also responsible for the submission of the financial statements to the Auditor - General in accordance with the provision of Section 13 of the Public Audit Act, 2003.

Auditor - General's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit and report in accordance with the provisions of Section 15 of the Public Audit Act, 2003 and submit the audit report in compliance with Article 229(7) of the Constitution of Kenya. The audit was conducted in accordance with International Standards on Auditing. Those standards require compliance with ethical requirements and that the audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessments of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risks assessments, the auditor considers internal control relevant to the client's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the University's internal control. An audit also includes evaluating appropriateness of accounting policies used and the reasonableness of accounting estimate made by the management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence obtained is sufficient and appropriate to provide basis for my qualified audit opinion.

Basis for Qualified Opinion

1. Work - In - Progress

As previously reported, the work-in-progress balance of Kshs.857,303,000 as at 30 June 2011 excludes pending bills totalling Kshs.322,095,118 relating to various stalled projects which for various reasons stalled before completion, subject to the pending bills closing committee appointed by Ministry of Finance. In consequence, it has not been possible to ascertain accuracy of the carrying value of work-in-progress as at 30 June 2011.

2. Government of Kenya Loan - Ksh.250 Million

The Government granted the University a loan of Kshs. 250 Million in the year 2008 at an interest 2.5% per annum. The University requested for and was granted to start the loan repayment with effect from 31 December 2009. The purpose of the loan was to enable the University purchase a Tea Institute situated at Karatina in Nyeri County as part of its expansion programme and this was subsequently realized by starting Karatina Campus which is currently a constituent college.

The University had however not made any repayment of principal as at 30 June 2011. No proper explanations have been provided for contravening the terms of the loan.

3. Winding up of Moi University Holdings Limited (MUHL)

According to the University's 77th Council meeting of 15 February 2010, the Moi University Holdings Limited, a wholly owned subsidiary of the University, which evidently had ceased operations, was recommended for winding up. However, the procedure for winding up a company were not followed. The resolution of the shareholders was not obtained and a receiver/liquidator has not been appointed to prepare the statement of affairs of the company and finally liquidate it. The University has therefore continued to be in breach of the law.

4. Council Allowances

Included in the expenditure of Kshs. 46,349,000 on council and senate expenses disclosed in note 19 to financial statements is a figure of Kshs. 5,718,240 paid as sitting allowance to members of staff who were in attendance during council/committee meetings contrary to Section 10(1) of State Corporations Act, which requires that such allowance be paid to the Chairman and council members(except the chief executive) only .The university was therefore in breach of the Law.

5. Government Grant

The Government grants received in the year under review from Ministry of Higher Education Science and Technology comprises of recurrent grants of Kshs.2,843,826,000 and development grants of Kshs.249,762,000, all totalling Kshs.3,093,588,000. However, according to the records held at the Ministry, the amount is reflected at Kshs.3, 098,826,000, thereby giving rise to an unexplained difference of Kshs.5,238,000.

Qualified Opinion

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion paragraph, the financial statements presents fairly, in all material respects the financial position of the University as at 30 June 2011, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and comply with Moi University Act, Cap.210A of the Laws of Kenya.

Edward R.O. Ouko
AUDITOR-GENERAL

Nairobi

22 October 2012

MOI UNIVERSITY

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2011

1. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of these financial statements are set out below:

(a) Basis of preparation and form of presentation

The financial statements are prepared on a going concern basis in compliance with International Financial Reporting Standards (IFRS).

The measurement basis used is the historical cost basis of accounting modified by the revaluation of certain assets. The financial statements are presented in Kenya Shillings (Kshs), rounded to the nearest thousand, which is also the functional currency.

(b) Revenue recognition

Income from students is recognized as it accrues unless collectibility is in doubt.

Interest income is accrued on a time proportion basis.

Exchequer grants and other grants from the government are recognised as income in the period in which they relate.

(c) Fixed assets and depreciation

Fixed assets are stated at cost or valuation, less accumulated depreciation. Depreciation is calculated on the straight line basis, at annual rates estimated to write off carrying values of the assets over their expected useful lives. Assets acquired during the year are depreciated from the date of acquisition.

The annual depreciation rates in use are:

▪ Buildings	2%
▪ Furniture, plant and equipment	12.5%
▪ Motor vehicles	25%
▪ Computers	33.3%

Freehold land is not depreciated as it is deemed to have an infinite life. Leasehold land is amortised over the unexpired period of the lease.

(d) Stocks

Stocks are valued at the lower of cost and net realizable value. Cost comprises expenditure incurred in the normal course of operations, including direct material costs, labour and production overheads wherever necessary.

Net realizable value is the price at which the stock can be realized in the normal course of operations after allowing for the costs of realization and, where appropriate, the cost of conversion from its existing state to a realizable condition. Provision is made for obsolete, slow moving and defective stocks.

MOI UNIVERSITY
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2011

(e) Retirement benefit costs

The University operates a contributory pension scheme for eligible employees. The assets of the scheme are held in a separate trustee administered fund that is funded by both the university and the employees.

The University also contributes to a statutory contribution pension scheme, the National Social Security Fund (N.S.S.F.). Contributions are determined by local statute and are currently limited to Kshs. 200 per employee per month.

The university's contributions to the above schemes are charged to the income and expenditure account in the year to which they relate.

(f) Bad and doubtful debts

Specific provision is made for all known doubtful debts. Bad debts are written off when all reasonable steps to recover them have been taken without success.

(g) Provisions

Provisions are recognised when the University has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(h) Research and development

Research and development expenditure is charged to the Income and Expenditure Account in the year in which it is incurred.

(i) Agricultural assets

Biological assets are measured at fair values less estimated point of sale costs

(j) Cash and cash equivalents

Cash and cash equivalents are defined as cash on hand, bank balances, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and subject to insignificant risks of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents consist of cash and bank balances and short-term investments.

MOI UNIVERSITY

NOTES TO THE FINANCIAL STATEMENTS (continued) FOR THE YEAR ENDED 30 JUNE 2011

(k) Foreign Currencies

Transactions in currencies other than the Kenya Shilling are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates at the rates prevailing on the balance sheet date. Gains and losses arising on translation are included in the surplus or deficit for the period.

(l) Receivables

Receivables are stated at their nominal value as reduced by appropriate allowances for estimated doubtful debts.

(m) Payables

Payables are stated at their nominal value.

(n) Government recurrent grants

Government grants are recognised when there is reasonable assurance that the University will comply with conditions attached to them and that the grants will be received.

The grants are recognised as income in the period to which they relate and presented as a credit in the Income and Expenditure Account separately.

(o) Government capital grants

Government capital development grants are credited to the capital reserves and the related capital costs to the fixed assets that they finance are debited .

MOI UNIVERSITY

NOTES TO THE FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 30 JUNE 2011

29. CONTINGENCIES

a) Contingent liabilities

The university has a contingent liability in respect of car, housing and furniture loans granted to staff through the Kenya Commercial Bank. In the opinion of the University, no liability is expected to crystallise in respect of the guarantees.

b) Litigation

- i) In the ordinary course of operations, the University is a defendant in various litigations and claims. Although there are no assurances, the University believes, based on information currently available, that the ultimate resolution of these legal proceedings and claims is not likely to have a material adverse effect on the operations of the University.
- The cases are pending determination by the courts and it is not practicable to determine the timing and final amounts (if any).
- Due to nature of the cases, detailed disclosure has not been made for each case as this may be prejudicial to the position of the University.

ii) Pending bills

The University has various pending bills arising out of the stalled Government- financed capital projects. The projects stalled in 1990/1991 due to inadequate financing.

The Government has appointed a Pending Bills Closing Committee to verify the stock of pending bills and advice the Government on their settlement.

No provision has therefore been made in these financial statements for these pending bills as the determination and eventual settlement of the pending bills will be done by the government.

30. COMPARATIVES

Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

31. LEGAL STATUS

The University is a body corporate established in Kenya under the Moi University Act 1984.

0175 2014 9
