

MATRIX ON DRAFT CIVIL AVIATION (INSTRUMENTS & EQUIPMENT) REGULATIONS 2022

| NO. | CURRENT REGULATION | GAP                                                | PROPOSED TEXT                                                                                                                                                                                                                                                                                                                                                           | REMARKS                                                        |
|-----|--------------------|----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|
| 1.  | NEW                | Requirements of Annex 6 part I chapter 1.1 not met | “Aerial work” means an aircraft operation in which an aircraft is used for specialized services such as agriculture, construction, photography, surveying, observation, patrol, aerial advertisement, search and rescue;                                                                                                                                                | New-to transpose the provisions of Annex 6 part I :chapter 1.1 |
| 2.  | NEW                | Requirements of Annex 6 part I chapter 1.1 not met | “Agreement summary” means, when an aircraft is operating under an Article 83 bis agreement between the State of Registry and another State, the document transmitted with the Article 83 bis Agreement registered with the ICAO Council that identifies succinctly and clearly which functions and duties are transferred by the State of Registry to that other State. | New-to transpose the provisions of Annex 6 part I :chapter 1.1 |
| 3.  | NEW                | Requirements of Annex 6 part I chapter 1.1 not met | “Aircraft operating manual” means a manual, acceptable to the State of the Operator, containing normal, abnormal and emergency procedures, checklists, limitations, performance information, details of the aircraft systems and other material relevant to the operation of the aircraft and the aircraft operating manual is part of the operations manual;           | New-to transpose the provisions of Annex 6 part I :chapter 1.1 |
| 4.  | NEW                | Requirements of Annex 6 part I chapter 1.1 not met | “Air traffic service(ATS)” means a generic term meaning variously, flight information service, alerting service, air traffic advisory service, air traffic control service (area control service, approach control service or aerodrome control service);                                                                                                               | New-to transpose the provisions of Annex 6 part I :chapter 1.1 |

| NO. | CURRENT REGULATION | GAP                                                | PROPOSED TEXT                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | REMARKS                                                        |

| 5.  | NEW                | Requirements of Annex 6 part I chapter 1.1 not met | “Altimetry system error (ASE)” means the difference between the altitude indicated by the altimeter display, assuming a correct altimeter barometric setting, and the pressure altitude corresponding to the undisturbed ambient pressure;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | New-to transpose the provisions of Annex 6 part I :chapter 1.1 |
| 6.  | NEW                | Requirements of Annex 6 part I chapter 1.1 not met | <p>“Alternate aerodrome” means an aerodrome to which an aircraft may proceed when it becomes either impossible or inadvisable to proceed to or to land at the aerodrome of intended landing where the necessary services and facilities are available, where aircraft performance requirements can be met and which is operational at the expected time of use. Alternate aerodromes include the following:</p> <p>(a) “Take-off alternate” Means an alternate aerodrome at which an aircraft would be able to land should this become necessary shortly after take-off and it is not possible to use the aerodrome of departure;</p> <p>(b) “En-route alternate” means an alternate aerodrome at which an aircraft would be able to land in the event that a diversion becomes necessary while en route; and</p> <p>(c) “Destination alternate” Means an alternate aerodrome at which an aircraft would be able to land should it become</p> | New-to transpose the provisions of Annex 6 part I :chapter 1.1 |

| NO. | CURRENT REGULATION | GAP                                                | PROPOSED TEXT                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | REMARKS                                                        |
