## **CHAIRPERSON'S STATEMENT**

The financial year 2019/2020 marked the first year of the implementation of the Commission's second Strategic Plan 2019-24, which coincided with the implementation of the government's Big Four Agenda and the Third Medium Term Plan of the Vision 2030.

I am pleased to note that the activities for this financial year were in line with our Key Result Areas of fiscal sustainability of the public wage bill, remuneration and benefits management, policy and legal framework, collaboration and partnerships, and institutional capacity.

One of the top most milestones worth mentioning for the year was the hosting of the National Wage Bill Conference themed, "Transforming Kenya's Economy through a Fiscally Sustainable Public Sector Wage Bill," held in November 2019. The conference focused on strategies for the government to adopt so as to improve spending efficiencies on the wage bill, which would in turn ensure availability of resources to support service delivery under the Big Four Agenda.

The conference adopted fifteen resolutions to be implemented by various State actors in order to transform Kenya's economy through a fiscally sustainable public wage bill. The Commission committed to play an overall role of coordination in the implementation of the resolutions, while the Ministry of Public Service, Gender, and Youth, and the Council of Governors shall spearhead the national and county governments in implementing the resolutions, respectively.

During the year, the Commission undertook a study on allowances and benefits in the public service, with a view to rationalize and streamline management and administration of allowances and benefits to ensure the fiscal sustainability of the public sector wage bill.

All advisories and circulars are continuously prepared and uploaded on SRC's website for ease of access by all stakeholders. The Commission continued to engage stakeholders through several channels to ensure compliance with all advisories.

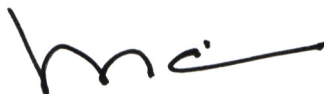

Sadly, the early part of the year 2020 greeted Kenya and all other nations of the world with the news of the Covid-19 pandemic, which negatively impacted global economies. In adhering to government directives to mitigate the impact of the disease, the Commission instituted work-from-home measures and ensured business continuity through virtual and online platforms.

Though this was unprecedented and difficult time for the nation, the Commission shall continue to undertake to deliver much more in the coming financial year.

I acknowledge our stakeholders who have continued to journey with the Commission as it fulfills its mandate. On behalf of the Commission, I assure all the stakeholders of our continued

engagement and support for the successful realization of a fair remuneration for all employees in the public sector.

Lastly, I extend my sincere gratitude to the Members of the Commission and the Secretariat staff for working tirelessly and diligently to achieve our goals.

## **REPORT OF THE COMMISSION SECRETARY/CHIEF EXECUTIVE OFFICER**

The Commission kicked-off the implementation of its second strategic plan with several key activities undertaken during the financial year 2019/2020.

A key activity to note was the convening of the National Wage Bill Conference under the theme, "Transforming Kenya's Economy through a Fiscally Sustainable Public Sector Wage Bill," held from 26 to 28 November 2019. The conference brought together key stakeholders from the national and county governments, private sector, civil society organisations and non-State actors. Experiences from national and international experts enabled meaningful discussions on the public sector wage bill, leading to fifteen resolutions that were adopted for implementation.

Pursuant to its constitutional mandate, SRC revised the Collective Bargaining Negotiations guidelines applicable in the public service in an endeavour to foster industrial harmony. It is our hope that stakeholders will adhere to these guidelines.

Kenya lacks a robust framework for measuring public service productivity at institutional, sectoral and national levels, yet public sector labour productivity has great relevance to economic growth, because an efficient and effective public sector provides an enabling environment for private sector to thrive. The Commission commenced the preparation of a framework for rewarding performance and productivity in the public sector, and the development of a draft national performance management policy for the public service.

In the year under review, the Commission undertook research activities aimed at facilitating the achievement of affordable, competitive and fiscally sustainable remuneration and benefits regime, as well as provision of real-time data for decision-making.

Specifically, the Commission embarked on the development of guidelines for the review of the Public Sector Remuneration and Benefits Policy to align it with the Commission's strategies, together with identifying policy gaps and proposing policy interventions; and a public sector remuneration and benefits policy, 2020, which will facilitate the rewarding of productivity and stronger wage bill control, while ensuring wages are competitive, equitable and transparent.

The Commission also embarked on conducting a study on the attraction and retention of critical and rare skills in the public service, to collect data and information, to establish gaps in critical and rare skills in key professions and sectors in the public service, and come up with strategies to fill them to ensure consistent public service delivery countrywide.

Similarly, a concept paper on the development of a data warehouse for harnessing and managing wage bill data for decision-making was developed. The data warehouse will have the capacity to access, store, analyze and update data and also serve as a reservoir of data received, retrieved, analyzed and used by the Commission, for prompt decision-making.

In the spirit of promoting close collaboration with stakeholders, the Commission held consultative meetings with its key stakeholders in the national and county governments. To

keep stakeholders and partners abreast on SRC's policies and activities, SRC launched a new website (<https://src.go.ke/>). The website is now more dynamic, easy to navigate, and a tool through which stakeholders can access all kinds of pertinent information.

The year witnessed the world, including Kenya, grapple with the negative impact of the Coronavirus (Covid-19) pandemic. This pandemic affected the implementation of some of SRC's planned activities. Despite the challenge posed by the pandemic in terms of working from home and re-adjusting the usual *modus operandi*, SRC remained committed to working with its stakeholders. The Commission, for example, issued an advisory on the Covid-19 Medical Emergency Allowance and Benefits for Frontline Healthcare Workers in the county governments.

In understanding new ways of ensuring business continuity, in spite of the pandemic, the Commission was versatile and moved towards working virtually so as to achieve its planned activities, while serving Kenyans. The Commission shall strive to implement more of its activities in the coming year.

I thank our stakeholders for their continued support and collaboration throughout the year. More so, I acknowledge the Chairperson, Members of the Commission and the Secretariat for their collective effort in propelling SRC to achieve its mandate.

This engagement included, issuing media advisories, press releases, holding media interviews, and responding to media enquiries/queries.

To keep stakeholders and partners abreast on SRC's policies and activities, SRC launched a new website (<https://src.go.ke>). The website is now more dynamic, easy to navigate, and a tool through which stakeholders can access all kinds of pertinent information. Further, the Commission also developed a website for the NWBC ([www.wagebillconference.go.ke](http://www.wagebillconference.go.ke)). The website was a one-stop shop where guests easily accessed all conference information such as, the programme, key actors, location, speakers' profiles, the conference presentations and resolutions.

The Commission is required to comply with various laws and constitutional provisions, which include the Constitution, the SRC Act of 2011, the PFM Act, Income Tax Act, NSSF Act and the National Hospital Insurance Fund (NHIF) Act, among others.

Article 230(5a-d) of the Constitution requires that the Commission, while carrying out its mandate, takes into account the principles of fiscal sustainability, attraction and retention of skills required to execute functions, recognition of performance and productivity, transparency and fairness. These principles were incorporated in the Commission's second Strategic Plan 2019/2020 – 2023/2024 in form of KRAs, and hence, guided all the decisions of the Commission.

Further, provisions of Article 254(1) of the Constitution and the SRC Act, Article 21, requires that the Commission to prepare, publish and publicize annual report and financial statements, which should be submitted to the president and parliament.

The Commission prepared the annual report relating to the FY 2018/2019 and is awaiting the Audit Certificate. ## **CORPORATE SOCIAL RESPONSIBILITY STATEMENT/SUSTAINABILITY REPORTING**

The Commission was established by the Constitution to set and regularly review the remuneration and benefits of State officers and advising the public service on the same. This is SRC's purpose; the driving force behind everything that the Commission does. It is what guides the Commission to deliver on its strategy, which is founded on six core values: Fairness, Accountability, Collaboration, Integrity, Innovation and Transparency. Below is a brief highlight of SRC's achievements in the following four sustainability pillars:

### **1. Sustainability strategy and profile**

The Commission deployed resources in the implementation of Enterprise Risk Management programmes, which ensures that risk management is effectively carried out by senior management with appropriate oversight. The implementation of business continuity programmes are continuous and will be enhanced in the FY 2020/2021 to ensure the Commission's sustainability. Further, during the Covid-19 period, the Commission continued with the effective and efficient utilization of available resources.

### **2. Environmental performance**

The Commission initiated programmes to ensure that its environmental activities remain sustainable in the long run. This effort is demonstrated by policies relating to disposal of electronic waste, pooling of water dispenser units, sharing of printer services, preference to soft copies of documents as opposed to hard copies, just in time replenishment of store items (minimizes storage of large stocks), and printing on both sides of paper documents. In addition, the Commission is in the process of digitizing its work processes by setting up an intranet system, which shall substantially reduce the use of paper-based processes.

### **3. Employee welfare**

The Commission has a clear HR policy, which subscribes to the tenets of Public Service Values and Principles in the recruitment of staff, as provided in Article 232 of the Constitution. Staff are subjected to a fair performance appraisal system whose output, amongst other aspects, is the identification of areas of improvement and training. The Commission offices are a certified registered place of work with the Ministry of Labour, and thus, it is in conformity with the requirements of the Occupational Safety and Health Act of 2007, (OSHA, 2007).

### **4. Community Engagements**

The Commission undertook activities that assisted vulnerable members of the community. When the Covid-19 was declared a national emergency by His Excellency the President, the Commission and staff moved to mobilize donations to assist those most affected across the country. The Commission will continue to participate in designated activities in corporate social responsibility.

## **REPORT OF THE AUDITOR-GENERAL ON SALARIES AND REMUNERATION COMMISSION FOR THE YEAR ENDED 30 JUNE, 2020**

---

### **REPORT ON THE FINANCIAL STATEMENTS**

#### **Opinion**

I have audited the accompanying financial statements of Salaries and Remuneration Commission set out on pages 1 to 20, which comprise the statement of financial position as at 30 June, 2020, and the statement of financial performance, statement of changes in net assets, statement of cash flows and statement of comparison of budget and actual amounts for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, the financial statements present fairly, in all material respects, the financial position of Salaries and Remuneration Commission as at 30 June, 2020, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with the Public Finance Management Act, 2012 and Salaries and Remuneration Commission Act, 2011.

#### **Basis for Opinion**

The audit was conducted in accordance with the International Standards of Supreme Audit Institutions (ISSAIs). I am independent of Salaries and Remuneration Commission Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in my professional judgement, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review.

## REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

### **Conclusion**

As required by Article 229(6) of the Constitution, based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

### **Basis for Conclusion**

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

## REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

### **Conclusion**

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, except for the matter described in the Basis for Conclusion on Effectiveness of Internal Controls, Risk Management and Governance section of my report, I confirm that, nothing else has come to my attention to cause me to believe that internal controls, risk management and overall governance were not effective.

### **Basis for Conclusion**

#### **Lack of Offsite Back Up and Disaster Recovery Centre**

The Commission is the custodian of all remuneration information for Public and State Officers in the Country. However, it does not maintain an offsite backup for this critical information. Although Management has commenced engagements with the Management of the Kenya Revenue Authority (KRA) with the objective of securing an offsite backup and data recovery site, no formal agreement had been signed as at 30 June, 2020.

Consequently, the Commission is at risk of information loss in the event of a disaster at its premises.

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and overall governance were operating effectively, in all material respects. I believe that the audit

evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

### **Responsibilities of Management and those Charged with Governance**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and overall governance.

In preparing the financial statements, Management is responsible for assessing the Commission's ability to continue to sustain services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of intention to abolish the Commission or to cease operations

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015. In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the financial reporting process, reviewing the effectiveness of how the Commission monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to overall governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

### **Auditor-General's Responsibilities for the Audit**

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in

compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Commission's ability to continue to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Commission to cease to continue to sustain its services.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Commission to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

## 1. Explanation to the Material Variances

- (a) **Miscellaneous receipts:** The Commission raised **Ksh 177,013** from charging commission on check off remittances and proceeds on disposal, which was not budgeted for in the financial year under review.
- (b) **Personnel Emoluments, 3.12 per cent:** This is attributable to salaries and allowances for new employees whose recruitment process was concluded towards the end of the fourth quarter.
- (c) **Goods and Services, 23.02 per cent:** The variance is as a result of low absorption in the fourth quarter due to the effects of Covid-19 on the Commission's activities, mainly in communication, printing and publishing, training expenses and insurance costs.
- (d) **Rent, 7.71 per cent:** The under absorption resulted from non-payment of rent for the office space, which was expected to take effect from the month of May 2020, but whose effective date was moved forward by two months.

## 2. Explanation for changes between original budget and final budget

The changes between the original budget and revised budget was due to reallocations made in the year.

3. The total actual on comparable amounts in this statement and the statement of financial Performance amounts for all the expenditure items do not tie due to differences in accounting basis. The budget is prepared and implemented on cash basis, while the financial statements are prepared on accrual basis. The differences are majorly caused by the accrued expenses, provisions and prepayments. The differences are reconciled below:

## **NOTES TO THE FINANCIAL STATEMENTS**

### **1. General Information**

SRC is established by and derives its authority and accountability from Article 230 of the Constitution, and was operationalized by the SRC Act of 2011. The Commission is wholly owned by GoK and is domiciled in Kenya. The Commission's principal activity is to set and regularly review the remuneration and benefits of all State officers and to advise the national and county governments on the remuneration and benefits of all public officers.

### **2. Statement of compliance and basis of preparation**

The Commission's financial statements have been prepared in accordance with the PFM Act, SRC Act and IPSAS. The financial statements are presented in Kenya Shillings (Ksh), which is the functional and reporting currency of the Commission and all values are rounded to the nearest Shilling. The accounting policies have been consistently applied.

The financial statements have been prepared on a historical cost basis, except where otherwise stated in the statement of accounting policies below. The Cash Flow Statement is prepared using the direct method.

### **3. Summary of Significant Accounting Policies**

#### **a) Revenue Recognition**

##### **(i) Revenue from non-exchange transactions-IPSAS 23**

###### **• Exchequer allocations**

The Commission recognizes revenue from exchequer allocation when the monies are received and asset recognition criteria are met. To the extent that there is a related condition attached that would give rise to a liability to repay the amount, deferred income is recognized instead of revenue. Other non-exchange revenues are recognized when it is probable that the future economic benefits or service potential associated with the asset will flow to the Commission and fair value of the asset can be measured reliably.

###### **• Transfers from other Government entities**

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the Commission and can be measured reliably.

##### **(ii) Revenue from exchange transactions-IPSAS 9**

###### **• Sale of tender and Commission revenue**

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods and when the

amount of revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to the Commission. There was no tender sales revenue for the year under review.

**b) Budget Information - IPSAS 24**

The annual budget is prepared on a cash basis, that is, all planned costs and income are presented as per the economic line classification to determine the needs of the Commission. As a result of the adoption of the cash basis for budgeting purposes, there are timing differences to include in the reconciliation between the actual comparable amounts and the amounts presented as separate additional financial information in the comparison of budget and actual amounts.

**c) Intangible Assets - IPSAS 31**

Intangible assets acquired separately are initially recognized at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange. Following initial recognition, intangible assets are carried at cost, less any accumulated amortization and accumulated impairment losses. Internally, generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred.

**d) Provisions - IPSAS 19**

Provisions are recognized when the Commission has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Commission expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

**e) Contingent liabilities**

Contingent liabilities are possible obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Commission; or a present obligation that arises from past events, but is not recognized because:

- (i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- (ii) The amount of the obligation cannot be measured with sufficient reliability.

The Commission does not recognize a contingent liability, but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

The Commission does not recognize a contingent asset, but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Commission in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

**f) Changes in accounting policies and estimates - IPSAS 3**

The Commission recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

**g) Employee Benefits - IPSAS 25**

• **Retirement Benefits Plans**

The Commission operates a retirement benefit scheme for all its permanent and pensionable employees. Further, an amount equivalent to 31 per cent of basic salary has been set aside as gratuity for all employees on contract. The Commission's contribution towards employee pension scheme and staff gratuity for employees on contract are charged to the statement of financial performance in the year to which the employees rendered their services to the Commission.

**h) Related Parties - IPSAS 20**

The Commission regards a related party as a person or an authority with the ability to exert control individually or jointly, or to exercise significant influence over the Commission, or vice versa. Members of key management are regarded as related parties and comprise the directors, including the Commission Secretary.

The following transactions were carried out with related parties:

<b>Description</b>	<b>June 2020</b>	<b>June 2019</b>
	<b>Ksh</b>	<b>Ksh</b>
<b>Key Management Compensations</b>		
Salaries and other short term employment benefits	21,563,365	21,889,200
<b>Board Remuneration</b>

<b>Grants From Related Parties</b>		
Grants from GoK	450,360,000	548,458,618

**k) Leases**

Leases under which the lessor effectively retains the risks and rewards of ownership are classified as operating leases. Obligations incurred under operating leases are charged against income in equal instalments over the period of the lease.

### **l) Cash and Cash equivalents**

Cash and cash equivalents comprise cash-on-hand and cash-at-bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at Central Bank of Kenya at the end of the financial year.

### **m) Significant judgments and sources of estimation uncertainty – IPSAS 1**

In preparing the financial statements in conformity with IPSAS, management makes estimates and assumptions that affect the amounts of revenues, expenses, assets and liabilities, and the related disclosures, presented in the financial statements at the end of the reporting period. Use of available information and the application of judgment is inherent in the formation of estimates.

Actual results in the future could differ from these estimates, which may be material to the annual financial statements. Significant judgments include: Leave provision, useful lives and depreciation methods and asset impairment. Notes relating to the subject are included under the affected areas of the financial statements.

### **n) Estimates and Assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

The Commission based its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Commission. Such changes are reflected in the assumptions when they occur (IPSAS 3).

### **o) Useful lives and residual values of non-current assets**

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- (i) The condition of the asset based on the assessment of experts employed by the Commission;
- (ii) The nature of the asset, its susceptibility and adaptability to changes of technology and processes;
- (iii) The nature of the processes in which the asset is deployed;
- (iv) Availability of funding to replace the asset; and
- (v) Changes in the market in relation to the asset

The various classes of assets, their useful lives and depreciation rate is indicated below: The method of depreciation and amortization used is reducing balance.

<b>Asset class</b>	<b>Useful life (Years)</b>	<b>Depreciation rate (%)</b>
Motor vehicle	4	25.0
Office equipment	3	33.3
Computer equipment	3	33.3
Furniture and fittings	8	12.5
Intangible asset	3	33.3

#### **p) Provisions**

Provisions were raised and management determined an estimate based on the information available. Provisions are measured by the management's best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value where the effect is material.

<b>Description</b>	<b>2019/2020</b>	<b>2018/2019</b>
	<b>Ksh</b>	<b>Ksh</b>
Leave provision	3,754,826	4,107,114
Gratuity provision	13,686,695	10,440,527
Legal fees provision	5,099,841	5,099,841
<b>Total</b>	<b>22,541,362</b>	<b>19,647,481</b>

Provisions are recognized when;

- (i) A reliable estimate can be made of the obligation.
- (ii) It is probable that an outflow of resources embodying economic benefits of service.
- (iii) Potential that the Commission will be required to settle the obligation.
- (iv) The Commission has a present obligation resulting from a past event.

The provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate or reversed if it is no longer probable and that an outflow of resources embodying economic benefits or services potential will be required to settle the obligation. Employees' entitlement to annual leave is recognized when it accrues. A provision is made on the estimated liability for annual leave as a result of services rendered by the employees up to the amount of obligation.

The legal suit provision relates to the amount the court awarded to the former CEO in the FY 2016/17 for wrongful dismissal. The former CEO has since appealed against the ruling. The gratuity amount relates to gratuity for the Commission's staff on contractual terms.

### 19. Contingent Liability

The Commission has an ongoing dispute between AON Kenya Insurance Brokers and two others for an alleged unlawful termination of two contracts in respect of tenders for job evaluation. The claimants are claiming **Ksh 85,219,575** for the termination of the contracts, damages and costs. Should the arbitrator rule in their favor, the Commission will bear the liability. The arbitration process is ongoing.

## 20. Financial Risk Management

The Commission's activities exposes it to a variety of credit and liquidity risks. The overall risk management programme focuses on the unpredictability of the market and seeks to minimize potential adverse effects on its operations.

The Commission regularly reviews its risk management policies and systems to reflect changes in markets and emerging best practices. Risk management is carried out by the management under the direct supervision of the Commission.

The Commission provides policies for overall risk management, as well as policies covering specific areas such as interest rate risk, credit risk and liquidity risk.

### a) Credit Risk Management

Credit risk refers to the risk that a counterparty will default on its contractual obligation resulting in financial loss to the Commission.

Credit risk arises from bank balances, receivables and amounts due from related parties. Although this risk is unlikely to occur in the short term, it is mitigated as follows:

- (i) Cash and short-term deposits are placed with well-established financial institutions of high quality and credit standing and also approved by the NT;
- (ii) Funds are invested in short-term facilities; and
- (iii) The Commission does not raise trade receivables in its ordinary course of business.

Credit risk with respect to accounts receivable is limited due to the nature of the Commission's business and its reliance on government grant as the main source of funding. Market risk is the risk that the value of an investment will decrease due to changes in market factors. The above stated mitigating factors apply to market risk as well.

The amount that best describes the Commission's exposure to credit risk at the end of the financial year is as follows:

<b>Description</b>	<b>2019/2020</b>	<b>2018/2019</b>
	<b>Ksh</b>	<b>Ksh</b>
Cash at bank	31,927,623	2,594,571
Prepayments	25,657,645	26,337,568
Staff travel imprests	-	109,200
Salary advances	433,225	98,164
<b>Total credit risk</b>	<b>58,018,493</b>	<b>29,139,503</b>

### b) Liquidity Risk Management

Liquidity risk is the risk that the Commission will not be able to meet its financial obligations when they fall due. The Commission's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or at the risk of damaging the Commission's reputation.

The Commission ensures that it has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted. All liquidity policies and procedures are subject to review and approval by the Commission.

The amounts that best describes the Commission's exposure to liquidity risk at the end of the quarter is made up as follows:

<b>Description</b>	<b>2019/2020</b>	<b>2018-2019</b>
	<b>Ksh</b>	<b>Ksh</b>
Contractors retention	-	390,583
Withholding tax payable	-	-
