The nomination was conveyed to the Speaker of the National Assembly through a letter Ref. No. OP/CAB.1/40A and dated 1st March, 2019. The nominee's Curriculum Vitae and Testimonials were enclosed in the letter.

On 5th March, 2019 and pursuant to Standing Order 42(1), the Speaker of the National Assembly conveyed the Message from H.E. the President to the House. Pursuant to section 4 of the Act and Standing Order 204(4), the matter was referred to the Committee on Appointments for vetting and reporting to the House within fourteen (14) days.

In compliance with section 6(9) of the Act, the Clerk of the National Assembly placed an advertisement in the print media on Thursday, 7th March, 2019, inviting the public to submit memoranda by way of written statements on oath (*affidavit*) on the suitability or otherwise of the nominee. The advertisement indicated that the submissions were to be received by Wednesday, 13th March, 2019 at 5.00 pm. By close of the submission deadline, the Committee had not received any submission on the suitability of the nominee or otherwise for appointment as Cabinet Secretary for Education.

Further, in fulfilment of the provisions of Article 118 of the Constitution, section 6(4) of the Act and Standing Order 45(3), the Clerk of the National Assembly on Thursday, 7th March, 2019 notified the public through the print media, the intention of the Committee on Appointments to conduct the approval hearing of the nominee on Thursday, 14th March, 2019 from 09.30 a.m.

Section 6(7) of the Act provides that that the approval hearing should focus on a **candidate's academic credentials, professional training and experience, personal integrity and background**. To fulfil the requirement on personal integrity, the Clerk wrote to the Kenya Revenue Authority, the Ethics and Anti-Corruption Commission, the Registrar of Political Parties, and the Higher Education Loans Board to ascertain the nominee's good standing with the said government institutions. The nominee was also required to submit clearance from the said institutions, which he did.

The nominee appeared before the Committee on Thursday, 14th March 2019 for approval hearing in accordance with the provisions of the Constitution, the Public Appointments (Parliamentary Approval) Act, 2011 and the National Assembly Standing Orders on his suitability or otherwise for appointment to the position of Cabinet Secretary for Education.

Having considered the nominee's curriculum vitae, filled Questionnaire pursuant to the Schedule to the Public Appointments (Parliamentary Approval) Act (No. 33 of 2011) and the oral submissions during the approval hearing, the Committee made the following findings and observations –

- 1) THAT, in accordance with Article 78(1) and (2) of the Constitution, he is a Kenyan citizen born in Siaya County and does not hold dual citizenship.

His academic credentials, professional training and experience thus comply with section 6 (7) of the Public Appointments (Parliamentary Approval) Act, No. 33 of 2011.
- 4) THAT, he meets the requirements of Chapter 6 of the Constitution on leadership and integrity, having been issued with clearance certificates by various government agencies such as EACC, KRA, DCI and HELB.

- 7) THAT, he does not hold office in any political party and hence satisfies the provisions of Article 77(2) of the Constitution. This was confirmed by the Registrar of Political Parties vide letter RPP/ORG/34 VOL.III (32) dated 8th March, 2019.
- 8) THAT, he has never been dismissed from office under Article 75 of the Constitution for contravention of the provisions of Articles 75(1) (conflict of interest), Article 76 (financial probity), Article 77 (restriction on activities of State Officers) and Article 78(2) (dual citizenship) of the Constitution and is therefore fit to hold office as Cabinet Secretary.
- 9) THAT, no memoranda were presented to the Committee contesting the suitability or otherwise of the nominee for appointment as Cabinet Secretary for Education.

May I take this opportunity to thank all the Members of the Committee for their input and valuable contributions and time during the approval hearing and deliberations during the writing of this report. 2.6 Issues for Consideration during the Approval Hearing

14. In determining the suitability of the nominee for appointment, the Committee was guided by section 6 (7) of the Act which places focus on a candidate's academic credentials, professional training and experience, personal integrity and background.
15. In addition, the Committee is required to take into consideration the following issues in accordance with section 7 of the Public Appointments (Parliamentary Approval) Act, 2011 –
 - (a) the procedure used to arrive at the nominee;
 - (b) any constitutional or statutory requirements relating to the office in question; and
 - (c) the suitability of the nominee for appointment proposed having regard to whether the

nominee's abilities, experience and qualities meet the needs of the body to which nomination is being made.

(a) Procedure for Nomination

16. The procedure for appointment of a Cabinet Secretary is outlined in the Constitution. A close reading of Articles 132 (2) and 152(2) of the Constitution reveals that nomination of Cabinet Secretaries is a constitutional prerogative of the President as there is no further procedure prescribed in the Constitution or statute law.

(b) Constitutional and Statutory Requirements

17. The Constitution in addition gives guidelines on how to appoint persons to public office which include -

(i) Two-third Gender Rule

18. Article 27 (8) of the Constitution provides that *'the State shall take legislative and other measures to implement the principle that not more than two-thirds of the members of elective or appointive bodies shall be of the same gender.'* If the nominee is approved, the Cabinet will comprise of six (6) women and eighteen (18) men. The rest of the members of Cabinet, being the President, Deputy President and Attorney-General are all men.
19. In order to ensure compliance with the Constitution, not more than two thirds of members of Cabinet should be of the same gender.

(ii) Representation of regional and ethnic diversity

20. Article 130 (2) of the Constitution provides that the composition of the national executive shall reflect the regional and ethnic diversity of the people of Kenya. It is worth noting that Article 152 (1) (d) of the Constitution limits the number of Cabinet Secretaries to twenty-two and therefore there cannot be representation from each county.

(iii) Persons with Disability

21. Article 232 (1) (i) of the Constitution provides that the values and principles of public service includes affording adequate and equal opportunities for appointment, training and advancement, at all levels of the public service, of—
- a) men and women;
 - b) the members of all ethnic groups; and
 - c) persons with disabilities.
22. Further Article 54(2) mandates the State to ensure the progressive realization of the principle that at least five per cent (5%) of members of the public in appointive bodies are persons with disabilities.

(iv) Youth

23. Article 55 mandates the State to take measures, including affirmative action to ensure that the youth have opportunities to associate, be represented and participate in political, social and economic spheres of life.

(v) Leadership and Integrity

24. The Committee, in determining the suitability of the nominee, was also guided by the provisions on leadership and integrity as outlined under Chapter Six of the Constitution. In particular, Article 73 (2) provides that the guiding principles of leadership and integrity includes –

- (a) selection on the basis of personal integrity, competence and suitability, or election in free and fair elections;
- (b) objectivity and impartiality in decision making, and in ensuring that decisions are not influenced by nepotism, favouritism, other improper motives or corrupt practices;
- (c) selfless service based solely on the public interest, demonstrated by —
 - (i) honesty in the execution of public duties; and
 - (ii) the declaration of any personal interest that may conflict with public duties;
- (d) accountability to the public for decisions and actions; and
- (e) discipline and commitment in service to the people.

25. Of importance, is Article 77(5) that requires a State Officer, whether in public or private life to behave in a manner that avoids conflict between personal interest and public official duties. This Article further prohibits a State Officer who has been removed from office under it from holding any other State Office.

26. Article 77(1) prohibits a full time State Officer from participating in any other gainful employment.

27. Article 77(2) prohibits an appointed State officer from holding office in a political party. Article 78 disqualifies persons who are not Kenyan Citizens from appointment as State Officers. Further, a State Officer is barred from holding dual citizenship.

28. In addition, the Committee considered section 10 of the Leadership and Integrity Act, 2012 in particular which provides that –

A State officer shall, to the best of their ability—

- (a) carry out the duties of the office efficiently and honestly;*
- (b) carry out the duties in a transparent and accountable manner;*
- (c) keep accurate records and documents relating to the functions of the office;*
- and*

(d) report truthfully on all matters of the organization which they represent.

29. The Committee observed that the Cabinet as defined in Article 152(1) of the Constitution fails to meet the constitutional threshold on gender, persons with disabilities, youth and regional balance. However, as the Committee had only been presented with one nominee, it would not possible to satisfy all these requirements.

c) Suitability of the nominee for the appointment proposed having regard to whether the nominee's abilities, experience and qualities meet the needs of the body to which the nomination is being made

30. The suitability of the nominee was gauged in a wholistic manner after scrutiny of the nominee's credentials, experience, background and qualities as well as the performance of the nominee during the approval hearing.

2.7 Memoranda from Members of the Public

31. In fulfilment of the provisions of Article 118 of the Constitution, section 6(4) of the Act and Standing Order 45(3), the Clerk of the National Assembly on Thursday, 7th March, 2019 notified the public through the print media, the intention of the Committee on Appointments to conduct the approval hearing of the nominee on Thursday, 14th March, 2019 from 09.30am.

Public Office, Political Activities and Affiliations

52. He holds or has held positions in various public offices in addition to those highlighted under the section on work and professional experiences. Prior to his nomination, the nominee served as the Chairperson of the Kenya National Examinations Council (KNEC) since 2016. Other public offices held by the nominee include - Chairperson MPDB since 2009; chairperson of the African Network of Scientific and Technological Institutions (ANSTI) since 2010; and Chairperson of the Board of Governors at St. Mary's School, Yala since 2016.

Potential Conflict of Interest

53. He has no immediate associations that are likely to present potential conflict of interest when he assumes the position. However, the Committee noted that he serves as chairperson of various school and association boards. He is also a Professor of Surgery at UoN. As such, if appointed to the position of Cabinet Secretary he undertook to take Leave of Absence from the University and further relinquishing his roles as chairperson of these organizations.

Sources of Income and Net-worth

54. His sources of income during the calendar year preceding his nomination and the current calendar year comprise of continuous annual income from treasury bills, fixed cash deposit, rent, income from Safaricom mast and royalties from continual sale of his autobiography. He estimated his financial net worth at two hundred and fifty million shillings (Kshs. 250 million).

55. While clarifying on his sources of income and statement of net worth, the nominee informed the Committee that variations in his sources of income between 2018 and 2019 could be attributed to annual reviews on lease agreements on property owned and the leasing of a property which had been vacant. Further the nominee clarified his approximate net worth of Kshs 250 million by sharing with the Committee a breakdown of his assets and liabilities as presented to the Commission for University Education every two years through his Wealth Declaration Forms, a statutory requirement for all State and Public officers.

Integrity

56. The nominee has not been dismissed or otherwise removed from office for contravening the provisions of Article 75 of the Constitution. He has also not been adversely associated with practices that depict bias, favouritism or nepotism in the discharge of public duties. He has fully complied with the tax obligations to the State for the financial year immediately preceding his nomination for the appointment. He has not been charged in a court of law in the past three years or been adversely been mentioned in an investigatory report of Parliament or any other Commission of inquiry in the last three years.

OTHER EDUCATION SPECIFIC ISSUES

The nominee also responded to several questions during the vetting as follows:

Suitability for the Position of Cabinet Secretary for Education

57. On his suitability for appointment as Cabinet Secretary for Education, the nominee reiterated his progressive academic achievements beginning from his formative years at the Starehe Boys Centre between 1967 and 1970, which the nominee severally indicated, formed the basis of his goal setting orientation and positive attitude towards service delivery.
58. He affirmed that he is well suited to lead the Ministry of Education, having held various administrative positions in the public service, including the Education sector where he rose from a lecturer to Associate Professor and eventually to Vice Chancellor at the University of Nairobi. As Vice Chancellor, he listed various achievements including completion of various stalled buildings. He also prides himself for ensuring that the UoN Tower was completed within the shortest time, at a cost of Kshs 2.4 billion without Exchequer funding or loan. Of significance, however, was his ability to competitively participate in a programme that resulted in his successful win of 241 million Canadian dollars' worth of support on behalf of Kenyatta National Hospital (KNH) Research for Fever Initiative. While summing up how his experience is likely to shape his tenure at the Ministry, the nominee emphasized on the need to *'empower people, lead from the front and back and by example'*.

Consultations and Constructive Engagement

59. The nominee denied the claims that throughout his tenure as a leader both at UoN and KNEC he adopted a mechanical and dictatorial style of leadership in the management of people and achievement of tasks. He reiterated his firmness to ensure set goals are achieved at all costs. He, however, alluded to his style of leadership as one that incorporates the following key tenets: -
- (a) appreciate the problem including studying the area. This he indicated involves the use of personal soft skills to consult and engage;
 - (b) stay focused on the goal and approaching the goal backwards;
 - (c) engage the various stakeholders so as to reach reasonable consensus; and
 - (d) empower teams to work independently.
60. The nominee noted that many of the policies being implemented by the Ministry, in addition to the emerging challenges will require continuous consultation and engagement with the various stakeholders to guarantee successful implementation. Some of the challenges he cited are the directive to ensure candidates submit birth certificates prior to registrations for exams; review in fees by secondary school teachers and universities; and enforcing credibility and integrity on examinations as some of the initiatives that will require consistent consultation.
61. The nominee also emphasized on the need for stakeholder engagement in addressing issues of gender-based violence, teenage pregnancies and introduction of sex education in schools. While he emphasized that the introduction of sex education in school goes against his church beliefs, his personal opinion was that such efforts are timely, urgent and necessary. The reason being that the youth need to be equipped with skills and knowledge useful in appreciating and understanding themselves.

Ministry of Education and Financial Malpractice

62. As regards the misapplication of public resources allotted to implement education programmes, the nominee assured the Committee that he will not allow such vices to continue under his leadership. Even then, the nominee noted that education is the engine to spur the actualization of the Big Four Agenda but cautioned that financial impropriety may derail its potential realization. He also urged each and every Kenyan including leaders, to play their role in curbing corruption including ‘accepting payment for only that which one is entitled to’.

Conflict of Interest

63. On how he intends to address conflict of interest, the nominee assured the Committee that this will not compromise his work as output and performance is always his ultimate goal.

Competency Based Curriculum

64. On the issue of curriculum reforms, the nominee lauded the efforts by government to review the current curriculum and shift policy towards competency-based teaching and learning. According to him several countries in Africa like Rwanda and South Sudan have made milestones with the adoption of the said curriculum. He indicated that this will ensure that skills development respond to the demands in the job market which is considered dynamic and versatile. He however noted the following areas are key to ensuring the successful implementation of the curriculum and which requires the support of Parliament:-

- (a) timely financing and resourcing of the curriculum; and
- (b) speedy training of teachers on the curriculum.

Youth and Technical Education

65. On the place of technical training and youth empowerment, the nominee acknowledged the risk posed by high rates of unemployment among the youth. He blamed the rising numbers of unemployment to the clamour to pursue university education at the expense of acquiring skills relevant for the demands of the job market. He, however, added that in the long term, the ongoing reforms on the curriculum, that is, the adoption of a competency-based curriculum is expected to address this issue. The nominee also alluded that technical education will cater for and accommodate the high numbers of learners incapable of meeting the minimum university entry grade.

Universities and University Education

66. On the challenges facing universities and university education, the nominee acknowledged that the proliferation of universities in the country has greatly contributed to this problem. He attributed the uncontrolled expansion of universities to existing loopholes and gaps in the regulatory framework. He called on leaders to change the current perception that every region requires an established university. He also alluded to the need for right sizing and rationalization of the university system in Kenya by consolidating existing universities. As regards the outcry by university student on possible increment of university fees, the nominee was of the opinion that an increase in university tuition fees is inevitable given the high cost of living and change in times. However, he advised on the possibility to negotiate and dialogue with students for consensus building. Similarly, he cautioned against the clamour for a University Service Commission, further advising that the proposal will not automatically solve the existing challenges in universities and the universities should focus on addressing other strategic issues.

The Role of MPDB in Licensing of Dr. Sumira Soni

67. On the issue before Parliament on the irregular recognition of Dr. Sumira Soni, the nominee acknowledged that he is the current Chairperson of the MPDB since 2009.

Further, that he participated in the decision by the Board to recognise and licence Dr. Soni as an ophthalmologist. He also accepted responsibility on behalf of the Board, regarding the matter. He acknowledged that proper due diligence was not undertaken but reiterated that a review process is ongoing to determine and finalize on the matter including the reassessment of the said doctor.

Teacher Service Commission and Performance Contracting

68. While acknowledging his own resistance to adopt performance contracting following its introduction at the university, the nominee lauded the efforts by TSC to institutionalize Results-Based Management for quality education. He also noted the role performance contracting plays in target setting and accomplishment of tasks. He, however, called for dialogue between TSC, teachers and teachers' unions for appreciation and understanding. He further urged for change in packaging of the same implying that resistance by teachers to adopt the approach could be attributed to the manner in which the performance contracting message is packaged to the recipients.

Education Inequality

69. On issues of inequality in education, the nominee reiterated that access to education is a constitutional right in line with Article 43(1) (f) of the Constitution. He noted that there exist disparities in access to education as regards learners from less privileged households, Persons with Disability (PWDs) and learners in Arid and Semi-Arid Lands (ASALs). The nominee, however, assured the Committee that if appointed, he will ensure that equity prevails. He alluded to the following among other measures that he is likely to adopt: assessing the registration of schools on a case by case basis, reviewing the formulae used in placement of learners in national schools to ensure equity and fairness, affirmative action where necessary, enforcement of the regulation on buildings to ensure PWDs access schools and classes with ease.

One hundred per cent (100%) Transition Policy

70. The nominee informed the Committee that the one hundred per cent (100%) transition policy is geared towards ensuring all students graduating from primary level have an opportunity to pursue secondary education. He also acknowledged that despite its implementation, challenges persist especially in terms adequate infrastructure to cater for the high numbers of admission at secondary level. He, however, indicated the need to ascertain value for money while implementing the policy.

Regular Reports to Parliament

71. In conclusion, the nominee was advised to take note of Article 153(4) (b) of the Constitution which compels him if appointed as a Cabinet Secretary to provide Parliament with regular reports concerning matters under his sector and Article 32(3) which protects the rights of persons to access institutions, employment or facilities irrespective of their

beliefs or religion. He also committed that during his tenure at the helm of the Ministry if appointed; he shall not condone sexual abuse of learners and will strive to deliver on the results as is expected of him by the appointing authority.

ANALYSIS

Lent is a period of prayer, fasting and charity

BY LAWRENCE NJORGE

Ash Wednesday marks the beginning of the 40-day Lenten season, during which Christians seek a deeper union with the divine by doing good and avoiding evil. It is a pivotal day in the calendar of the Catholic Church, whose members gather in churches and shrines to participate in a liturgy that invites them to believe in the gospel and urges them to mend their ways.

The Ash Wednesday liturgy is one of the most solemn, popular and poignant for all Catholics. Attendance is often comparable to ordinary Sundays and major feast days, yet Ash Wednesday falls on a normal working day. Even in countries where Christianity has declined, a considerable number of faithful still participate in this liturgy.

Lent has precedents in the Old Testament and is firmly grounded on Jesus's fasting for 40 days and nights. It is inspired by his teaching on helping the needy, and the call to prayer and fasting without making a show of it (Matt 6: 1-18).

The Code of Canon Law guides Catholics on how and when to fast profitably. Canon 1251 says: "Abstinence from eating meat or another food according to the prescriptions of the Conference of Bishops is to be observed on Fridays throughout the year, unless they are solemnities; abstinence and fast are to be observed on Ash Wednesday and Good Friday."

The ash mark is an indicator that the individual has the fundamental option of seeking greater union with God and will avoid corruption."

In Kenya, the norm for Catholics is not to eat meat on the Fridays during Lent, as determined by the Conference of Bishops (See Canon 1253).

The practice of abstaining from

certain pleasures is found in several religious traditions, including Hinduism, Islam and Judaism. African scholars Bolaji Idowu and John S. Mbiti have accounts of indigenous religious personages required to abstain from certain foods or acts, such as sexual intercourse, for a specified period before they perform key religious rites.

The Ash Wednesday liturgy is symbolic and replete with meaning. A symbol is a sign where an item or act stands in for, or represents, another. The act of marking with ash, with roots in Hebrew practice, is an indicator that the individual

that person, but others as well. So, a fruitful Lent benefits the individual and the community.

Some cultures have a curious take on Lent. They have an interesting argument: "Since we'll be fasting for 40 days, let's prepare for Lent by eating, drinking and having a good time." And, voila, they have Mardi Gras, literally Fat Tuesday, on the eve of Ash Wednesday, famous for its huge, nightlong carnivals with revelry and provocative dancing.

The story is told of a man who was accosted by brigands as he took an evening walk on Ash Wednesday. To defuse the situation, he offered the lead robber a cigarette, saying: "Let's talk." The brigand shot back: "No way. Away with your cigarettes. It's money I want. I don't smoke during Lent!"

Lent is a season during which the faithful deny themselves some material goods or pleasures in order to experience spiritual or holistic growth. There is a need for an honest correlation between the material things sacrificed and the spiritual good sought.

Dioceses in Kenya are now launching Lenten Campaigns whose objective is to support those in need using the proceeds saved through fasting. This is an opportune time to ask oneself: "What am I giving up? Why?"

PERSONAL STATEMENT

Professionally, I am a top grade Professor of Urological and Transplant Surgery since 2000 at the University of Nairobi trained in Nigeria, Ghana, Ireland and United Kingdom. I am further trained in Executive Management at Stanford University. My cutting edge original research on prostate, penile, and testicular cancer, erectile dysfunction and circumcision among others continue to positively impact on my international colleagues and Global thematic area.

Administratively, I am a firm hands on and results oriented transformative leader practicing professionalism, team work and team spirit rather than command and control. I have ten years' experience as Vice Chancellor University of Nairobi having been the very first public servant to be competitively appointed in January 2005 in Kenya. I formed a synergistic team based entirely on merit and ability to produce results completely devoid of ethnic considerations. As team leader we formulated the first ever strategic plan for the University of Nairobi which was revised twice during my tenure. This formed the basis of complete reorganization of all University systems commencing with prudent computerized financial management, right sizing of units, staff, students, ISO certification, Rapid Result Initiatives (RRI), Performance Contracting, formulation and implementation of various University policies and the mainstreaming of Research and Innovation and Student Affairs among many others. Strict financial, staff, and student discipline together with various operational strategies resulted in the smooth running of the University for ten years of my stewardship without loss of time for the first time in history. At national level as chairman of Vice Chancellors

Committee I dealt with national academic and staff labour issues through Inter University Councils Consultative Forum (IPUCCF) of the Federation of Kenya Employers. Professionally I have been a member of the Medical practitioners and Dentists Board since 1999 and Chairman since 2009 to date.

During this period I established extensive international Academic and Management Linkages and Networks having visited over one hundred Universities during the ten years as Vice Chancellor. This Transformative leadership resulted in the increased visibility and ~~internationalization of the university which has been top in the region for~~ several years and was number 7 in Africa and 855 in the world according to Webometrics Rankings of January 2015 at the completion of my term as Vice Chancellor.

Internationally my leadership qualities were recognized by the Association of African Universities (AAU) where I have been the longest serving member of the Governing Board in history 2005 to 2017, Vice President and President, member of the Global Council of Confucius Institute representing Africa in Beijing China where again am the longest serving member, Chairman of African Network for Scientific and Technological Institutions (ANSTI) Governing Board from 2010 to present and President of the Association of Medical Councils of Africa (AMCOA) from 2013 to date.

I am an avid fund raiser with a direct individual track record of over 500 million Shillings towards infrastructure development of the College of Health Sciences and Main Campus, and collectively several billions with other colleagues for research at the College of Health Sciences. I also hold several Presidential, Medical Professional, Academic & International Honors and Awards

Prior to being appointed the Vice Chancellor of the University of Nairobi, I served as Chairman of the academic Department of Surgery, and Dean of the Faculty of Medicine. During this period, I fundraised internationally to construct and furnish the current Dean's Office, and the Principal's Office including the College Committee room. The funds were also used to refurbish and furnish the College boardroom and Registry at the College of Health Sciences. I also later served as Principal of the College and Deputy Vice Chancellor in charge of Administration and Finance.

OTHER EDUCATION SPECIFIC ISSUES

Suitability for the Position of Cabinet Secretary for Education

21. On his suitability for appointment as Cabinet Secretary for Education, the nominee reiterated his progressive academic achievements beginning from his formative years at the Starehe Boys Centre between 1967 and 1970, which the nominee severally indicated, formed the basis of his goal setting orientation and positive attitude towards service delivery.
22. He affirmed that he is well suited to lead the Ministry of Education, having held various administrative positions in the public service, including the Education sector where he rose from a lecturer to Associate Professor and eventually to Vice Chancellor at the University of Nairobi. As Vice Chancellor, he listed various achievements including completion of various stalled buildings. He also prides himself for ensuring that the UoN Tower was completed within the shortest time, at a cost of Kshs 2.4 billion without Exchequer funding or loan. Of significance, however, was his ability to competitively participate in a programme that resulted in his successful win of 241 million Canadian dollars' worth of support on behalf of Kenyatta National Hospital (KNH) Research for Fever Initiative. While summing up how his experience is likely to shape his tenure at the Ministry, the nominee emphasized on the need to '*empower people, lead from the front and back and by example*'.

Consultations and Constructive Engagement

23. The nominee denied the claims that throughout his tenure as a leader both at UoN and KNEC he adopted a mechanical and dictatorial style of leadership in the management of people and achievement of tasks. He reiterated his firmness to ensure set goals are achieved at all costs. He, however, alluded to his style of leadership as one that incorporates the following key tenets:
 - (a) appreciating the problem including studying the area. This he indicated involves the use of personal soft skills to consult and engage;
 - (b) staying focused on the goal and approaching the goal backwards;
 - (c) engaging the various stakeholders so as to reach reasonable consensus; and
 - (d) empowering teams to work independently.

24. The nominee noted that many of the policies being implemented by the Ministry, in addition to the emerging challenges will require continuous consultation and engagement with the various stakeholders to guarantee successful implementation. Some of the challenges he cited are the directive to ensure candidates submit birth certificates prior to registrations for exams; review in fees by secondary school teachers and universities; and enforcing credibility and integrity on examinations as some of the initiatives that will require consistent consultation.
25. The nominee also emphasized on the need for stakeholder engagement in addressing issues of gender-based violence, teenage pregnancies and introduction of sex education in schools. While he emphasized that the introduction of sex education in school goes against his church beliefs, his personal opinion was that such efforts are timely, urgent and necessary. The reason being that the youth need to be equipped with skills and knowledge useful in appreciating and understanding themselves.

Ministry of Education and Financial Malpractice

26. As regards the misapplication of public resources allotted to implement education programmes, the nominee assured the Committee that he will not allow such vices to continue under his leadership. Even then, the nominee noted that education is the engine to spur the actualization of the Big Four Agenda but cautioned that financial impropriety may derail its potential realization. He also urged each and every Kenyan including leaders, to play their role in curbing corruption including ‘accepting payment for only that which one is entitled to’.

Conflict of Interest

27. On how he intends to address conflict of interest, the nominee assured the Committee that this will not compromise his work as output and performance is always his ultimate goal.

Competency Based Curriculum

28. On the issue of curriculum reforms, the nominee lauded the efforts by government to review the current curriculum and shift policy towards competency-based teaching and learning. According to him several countries in Africa like Rwanda and South Sudan have made milestones with the adoption of the said curriculum. He indicated that this will ensure that skills development respond to the demands in the job market which is considered dynamic and versatile. He however noted the following areas are key to

ensuring the successful implementation of the curriculum and which requires the support of Parliament -

- (a) timely financing and resourcing of the curriculum; and
- (b) speedy training of teachers on the curriculum.

Youth and Technical Education

29. On the place of technical training and youth empowerment, the nominee acknowledged the risk posed by high rates of unemployment among the youth. He blamed the rising numbers of unemployment to the clamour to pursue university education at the expense of acquiring skills relevant for the demands of the job market. He, however, added that in the long term, the ongoing reforms on the curriculum, that is, the adoption of a competency-based curriculum is expected to address this issue. The nominee also alluded that technical education will cater for and accommodate the high numbers of learners incapable of meeting the minimum university entry grade.

Universities and University Education

30. On the challenges facing universities and university education, the nominee acknowledged that the proliferation of universities in the country has greatly contributed to this problem. He attributed the uncontrolled expansion of universities to existing loopholes and gaps in the regulatory framework. He called on leaders to change the current perception that every region requires an established university. He also alluded to the need for right sizing and rationalization of the university system in Kenya by consolidating existing universities. As regards the outcry by university student on possible increment of university fees, the nominee was of the opinion that an increase in university tuition fees is inevitable given the high cost of living and change in times. However, he advised on the possibility to negotiate and dialogue with students for consensus building. Similarly, he cautioned against the clamour for a University Service Commission, further advising that the proposal will not automatically solve the existing challenges in universities and the universities should focus on addressing other strategic issues.

The Role of KMPDB in Licensing of Dr. Sumira Soni

31. The nominee acknowledged that he is the current Chairperson of the KMPDB since 2009, therefore participated in licensing of Dr. Soni during his tenure. He further accepted responsibility on behalf of the Board, regarding the matter of Dr. Soni, an eye surgeon,

who is accused of malpractice and incompetence following several botched surgeries that have resulted in loss of sight of patients under her care. He acknowledged that proper due diligence was not undertaken but reiterated that a review process is ongoing to determine and finalize on the matter including the reassessment of the said doctor.

Teacher Service Commission and Performance Contracting

32. While acknowledging his own resistance to adopt performance contracting following its introduction at the university, the nominee lauded the efforts by TSC to institutionalize Results-Based Management for quality education. He also noted the role performance contracting plays in target setting and accomplishment of tasks. He, however, called for dialogue between TSC, teachers and teachers' unions for appreciation and understanding. He further urged for change in packaging of the same implying that resistance by teachers to adopt the approach could be attributed to the manner in which the performance contracting message is packaged to the recipients.

Education Inequality

33. On issues of inequality in education, the nominee reiterated that access to education is a constitutional right in line with Article 43(1) (f) of the Constitution. He noted that there exist disparities in access to education as regards learners from less privileged households, Persons with Disability (PWDs) and learners in Arid and Semi-Arid Lands (ASALs). The nominee, however, assured the Committee that if appointed, he will ensure that equity prevails. He alluded to the following among other measures that he is likely to adopt: assessing the registration of schools on a case by case basis, reviewing the formulae used in placement of learners in national schools to ensure equity and fairness, affirmative action where necessary, enforcement of the regulation on buildings to ensure PWDs access schools and classes with ease.

100% Transition Policy

34. The nominee informed the Committee that the one hundred per cent (100%) transition policy is geared towards ensuring all students graduating from primary level have an opportunity to pursue secondary education. He also acknowledged that despite its implementation, challenges persist especially in terms adequate infrastructure to cater for the high numbers of admission at secondary level. He, however, indicated the need to ascertain value for money while implementing the policy.

Regular Reports to Parliament

35. In conclusion, the nominee was advised to take note of Article 153(4) (b) of the Constitution which compels him if appointed as a Cabinet Secretary to provide Parliament with regular reports concerning matters under his sector and Article 32(3) which protects the rights of persons to access institutions, employment or facilities irrespective of their beliefs or religion. He also committed that during his tenure at the helm of the Ministry if appointed; he shall not condone sexual abuse of learners and will strive to deliver on the results as is expected of him by the appointing authority.

QUESTIONS TO PUT TO THE NOMINEE

In preparation for the approval hearing, the Committee resolved to conduct a thorough scrutiny/critique of the nominee in compliance with section 6(7) of the Public Appointments (Parliamentary Approval) Act guides that the approval hearing should focus on a candidate's academic credentials, professional training and experience, personal integrity and background. Specifically, the Committee raised the following matters –

- i. **PhD status:** it was clarified that the nominee is a professor by virtue of his medical achievements and not a PhD graduate. This is a common practice in the medical field.
- ii. **Nominee's tenure at the Kenya Medical Practitioners and Dentists Board (KMPDU):** the Committee expressed concern on the nominee's role at the KMPDU

and in particular the matter of licensing of Dr. Sumira Soni who has been accused of malpractice and incompetence. The matter is currently before the House.

- iii. **Net worth:** the nominee ought to have specified his assets and liability to explain his net worth of Kshs. 250 million, for clarity purposes.
- iv. It was noted that the nominee holds various public offices, e.g., Chairpersons of the Board of St. Mary's School Yala, Kenya Medical Practitioners and Dentists Board and a Trustee of the University of Nairobi Pension Scheme and the KNEC Pension Scheme. In accordance with Article 77(1) of the Constitution, the nominee will be required to resign from the other public offices.
- v. The nominee will also be questioned on his thoughts on the high number of secondary school leavers with grade D-minus and below, being the current Chair of KNEC and nominee for Education.
- vi. Members were encouraged to field other questions to the nominee.
