CORPORATE INFORMATION

ESTABLISHMENT

Legal Status

Chepkoilel University College was established as a Constituent College of Moi University through the Chepkoilel University College Order, 2010 on 13th August 2010 by His Excellency the President of the Republic of Kenya .The Gazettement was made under Legal Notice No. 125 in the Kenya Gazette Supplement No. 51 (Legislative Supplement No. 35).

Registered Office

The registered office of the institution is at Chepkoilel University College which is the main campus of the institution. It is situated 9 kilometers from Eldoret Town along the Eldoret - Ziwa Road, off Iten Road

Bankers

1. National Bank of Kenya Ltd.
2. Kenya Commercial Bank Ltd.
3. Standard Chartered Bank Ltd.
4. Equity Bank Ltd.
5. Co-operative Bank of Kenya Ltd

Independent Auditors

Auditor General,
Kenya National Audit Office,
P. O. Box 30084-00100,
Nairobi.

VISION

To be a premier University in knowledge generation and technological innovations for sustainable development.

MISSION

To develop high quality graduates and professionals that are capable of driving change through education, training, networking, partnerships and industry linkages.

CORE VALUES

At Chepkoilel University College, we are committed to:

- 1) Leadership and responsibility;
- 2) Transparency and integrity;
- 3) Service delivery and customer satisfaction;
- 4) Visibility and competitiveness; and
- 5) Gender equity and responsiveness.

OBJECTIVES AND FUNCTIONS

- 1) To excel in teaching, research consultancy and outreach;
- 2) To acquire, maintain, preserve and organize the collection of library resources for learning;
- 3) To provide students with secure accommodation, adequate health services and recreational facilities for holistic development;
- 4) To advance in science, technology and innovation for sustainable development
- 5) To acquire, develop and maintain quality infrastructure for academic excellence;
- 6) To attract, recruit, develop and retain high quality staff of both gender;
- 7) To ensure revenue growth through effective management of costs and resource mobilization to facilitate meeting of financial obligations;
- 8) To initiate and mainstream environmentally sound management systems; and
- 9) To establish and strengthen networks, partnerships and linkages.

QUALITY ASSURANCE STATEMENT

Chepkoilel University College is committed to providing quality education and services that meet the needs of its customers and other stakeholders through quality and relevant teaching, research consultancy and outreach.

REPORT OF THE CHAIRMAN

I am delighted to present this financial report for the year ended 30th June, 2012.

The University College prepared the annual report and accounts for financial year 2010/11, and presented them for verification but on the advice of Kenya National Audit Office, these financial statements were eventually consolidated with those of Moi University. This report therefore serves as the first one being presented by the institution as a separate legal entity.

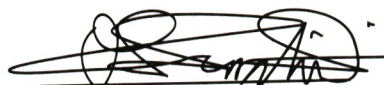

During the financial year, the University College received funding directly from the Exchequer that enabled it to run its operations including payment of staff remuneration. On behalf of the Council, Management, staff and students, I wish to sincerely thank the government and in particular, His Excellency, the President of the Republic of Kenya and Commander in Chief of the Kenya Defence Forces, Hon. Mwai Kibaki for upgrading the institution into a University College. In the same vein, I also wish to thank the government for appointing the first Council of the University headed by myself.

As a team we undertake and commit ourselves to provide unparalleled leadership to this institution so that the aspirations of the Government in elevating this institution may be attained. To achieve these aspirations, we have now developed the College's Strategic Plan for the next five years-2012/2013 to 2015/2017 which is to be launched before the end of this year. With a student population of over 8,000, Chepkoilel University College is now the largest Constituent College in this country and being a young institution, the University College needs a lot of financial and material support from the Government and other stakeholders in order to realize its academic and physical development aspirations.

Indeed, Chepkoilel University College has come into being at a critical time when the demand for higher education in this country is way above the existing placement opportunities. It is believed that the number of students qualifying to join Universities has been increasing tremendously in recent years mainly because of the free primary education program that was introduced by the Government in 2003 to expand basic education opportunities to all Kenyan children. In addition, the secondary school fees subsidy that was introduced in 2008 has similarly contributed to a high retention of students from poor backgrounds in schools up to completion of their studies.

The ongoing accelerated university students' intake demands that the University College has to increase and improve all the requisite infrastructure including learning, administrative and accommodation facilities in order to cater for the increasing number of students and staff. Bearing this in mind these challenges, the University College is currently constructing new teaching and learning facilities that will ensure that all the students continue enjoying ample learning environment.

I take this opportunity once again to thank the Government for the support extended to Chepkoilel University College during the year under review. I also appreciate our donors and other stakeholders who chose to partner with us in different ways during this year. The unwavering patience and understanding exercised by our staff and students during our transition phase with the many challenges along the way is highly appreciated by Council. It gives us hope and courage to face the future with confidence as we look forward to another successful year.

PROF. SARONE OLE SENA
CHAIRMAN OF COUNCIL

DATE: 25th September 2012

REPORT OF THE PRINCIPAL

The financial year ended 30 June, 2012 has been a very unique one because it is during the year that the institution transited fully from being a campus of Moi University to a constituent College status after receiving its full exchequer allocation for operations. It is important to note that during the financial year 2010/11, the University College continued enjoying salary payments from Moi University, having been gazette in the middle of the financial year. It was precisely on 13th August, 2010 that Chepkoilel University College was officially gazetted as a University College by H.E. Mwai Kibaki, President and Commander in Chief of the Kenya Defence Forces under the Chepkoilel University College Order, 2010.

The institution has continued to consolidate its gains in order to take advantage of the new opportunities that have emerged while facing the many challenges that have also come up along the way. As an institution of higher learning, Chepkoilel University College offers mainly science, agriculture and technology based degree programs hence it is well placed to provide cutting-edge knowledge to its graduates that will enable them to contribute towards the attainment of our country's Vision 2030 strategic objectives. In furtherance of our mandate therefore, we have committed ourselves to consistently and regularly review and improve our academic programs in several ways that will ensure their competitiveness in terms of quality and service delivery to the students

In the period under review, the University College worked hard in setting up structures aimed at improving its revenue base while ensuring prudent financial management and control practices. The College Management Board has set itself to be in the forefront in ensuring that financial resources are utilized efficiently and effectively for optimum output.

The University College has continued discharging its mandate albeit with meager resources as compared with the challenges resulting from the increasing number of students admitted through the accelerated students' intake program. Initially, it was anticipated that the Government would release funding for the extra number of students admitted by JAB under the double intake program, but this did not materialized. The University College therefore had to stretch its resources to accommodate all the needs of the students, staff and for running operations and maintenance program.

The main source of funding for the operations and maintenance was therefore the internally generated revenue in terms of fees paid by both the Government Sponsored (GSSP) and Privately Sponsored Students (PSSP). The amounts raised from these sources stood at Kshs.512.1 million during the year. In addition, the University College received a sum of Kshs.120.5 million from IGA; Kshs.118.5 million from its research activities and programs; and Kshs 31.9 million from other tuition related incomes. The College received a total of Kshs.502 million from Exchequer for recurrent expenditure. In a nutshell, the University College generated a sum of Kshs.1.285 billion from both the Exchequer and in form of A-I-A

from various sources during the year. With a recurrent expenditure of Kshs.1.327 billion, the University College closed the year with a deficit of Kshs.42.442 million in terms of revenue over expenditure. This is the deficit for the financial year under review (2011/2012).The University College received a total of Kshs.38.23 million for Capital Development from Exchequer. This amount was expended in the on-going Capital projects namely; Lecture Halls' project, Library project, and Hospitality Teaching Lab project. I wish to report that these projects are progressing well and are expected to be handed over to the University College on schedule.

Chepkoilel University College being a new institution plans to enhance its visibility, performance, and competitiveness in the higher education sector in the face of stiff competition. To do so, however it requires a lot of support from the government and other well wishers in these initial years of operations in terms of funding, material support and other contributions in kind. With anticipated sufficient funding, the University College has the capacity to consolidate and expand the academic and teaching programs in order to admit more students in the long term.

On behalf of the University College Management, I take this opportunity to thank the Government for its equivocal support during the year under review. I also appreciate the financial, material and moral support of our collaborators, partners and friends during the year. It is because of the understanding and cooperation of the Council, Management team, all staff and our students that we ended the year within an environment of peace and stability. I wish to register my gratitude to them all.

I look forward to their continued support in the new financial year and the years ahead.

PROF. ELIJAH K. BIAMAH
PRINCIPAL

DATE: 25th September 2012

COUNCIL MEMBERS' RESPONSIBILITIES

Council is required to prepare financial statements for each financial year which give a true and fair view of the financial affairs of the University College as at the end of the financial year and of its surplus or deficit for that year. Council is also required to ensure that the University College maintains proper books of accounts and accounting records which disclose, with reasonable accuracy, the financial position of the University College.

Council Members accepts the responsibility for these financial statements which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates in conformity with International Financial Reporting Standards (IFRS) and the requirements of the Exchequer and Audit Act (2003).

Council is of the opinion that the financial statements so prepared give a true and fair view of the state of the financial position of the University College as at 30th June 2012 and of its deficit for the year then ended. Council further accepts responsibility for the maintenance of accounting records that may be relied on in the preparation of the financial statements as well as adequate systems of internal financial control.

Nothing has come to the attention of Council to indicate that the University College will not remain in a going concern for at least the next period of 12 months from the date of this statement.

Website: www.kenao.go.ke

P.O. Box 30084-00100
Nairobi

KENYA NATIONAL AUDIT OFFICE

REPORT OF THE AUDITOR-GENERAL ON CHEPKOILEL UNIVERSITY COLLEGE FOR THE YEAR ENDED 30 JUNE 2012

REPORT ON THE FINANCIAL STATEMENTS

I have audited the accompanying financial statements of Chepkoilel University College set out on pages 13 to 27, which comprise the statement of financial position as at 30 June 2012, and the statement of comprehensive income, statement of changes in accumulated funds and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 14 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 13 of the Public Audit Act, 2003.

Auditor-General's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit and report in accordance with the provisions of Section 15(2) of the Public Audit Act, 2003 and submit the audit report in compliance with Article 229(7) of the Constitution of Kenya. The audit was conducted in accordance with International Standards on Auditing. Those standards require compliance with ethical

requirements and that the audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my qualified audit opinion.

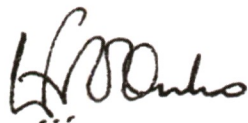

Basis for Qualified Opinion

Handing Over of Assets and Liabilities by Moi University

The statement of financial position as at 30 June 2012 excludes assets and liabilities that were to be handed over by Moi University as per the Legal Notice No.125 of 13 August 2010 creating the University College. Consequently, it was not possible to confirm that the statement of financial position as at 30 June 2012 is fairly stated.

Qualified Opinion

In my opinion, except for the effects of the matter described in the Basis For Qualified Opinion paragraph, the financial statements present fairly, in all material respects, the financial position of the College as at 30 June 2012, and of its financial performance and its cash flows for the year then ended, in accordance with International Financial Reporting Standards and comply with Chepkoilel University College Order, 2010.

Edward R. O. Ouko, CBS
AUDITOR-GENERAL

Nairobi

27 May 2013

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation and form of presentation

The financial statements are prepared in accordance with the International Financial Reporting Standards (IFRS). The financial statements are prepared on the historical cost basis of accounting modified by the revaluation of certain assets. The financial statements are presented in Kenya Shillings (Kshs).

(b) Revenue recognition

Income from students is recognized as it accrues unless collectability is in doubt. Interest income is accrued on a time proportion basis while Exchequer grants and other grants from the government are recognized as income in the period in which they relate.

(c) Fixed assets and depreciation

Fixed assets are stated at cost or valuation, less accumulated depreciation. Depreciation is calculated on the straight line basis, at annual rates estimated to write off carrying values of the assets over their expected useful lives. Assets acquired during the year are depreciated from the date of acquisition.

The annual depreciation rates of assets in use are as follows:-

<u>Assets</u>	<u>Rate (p.a)</u>
a. Buildings	2%
b. Furniture, plant and equipment	12.5%
c. Motor vehicles	25 %
d. Computers	33.3 %

Freehold land is not depreciated as it is deemed to have an infinite life.

Annexure 1 provides a list of all the assets that are yet to be handed over by Moi University

(d) **Biological Assets**

As at 30th June 2011, the University College had several biological assets which included cattle (livestock), pigs, maize and wheat among others. These assets were yet to be handed over by Moi University. **Annexure 2** is a list of all the biological assets.

(e) **Stocks**

Stocks are valued at the lower of cost and net realizable value. Cost comprises expenditure incurred in the normal course of operations, including direct material costs, labour and production overheads wherever necessary. Net realizable value is the price at which the stock can be realized in the normal course of operations after allowing for the costs of realization and where appropriate the cost of conversion from its existing state to a realizable condition. Provision is made for obsolete, slow moving and defective stocks.

(f) **Retirement Benefit Costs**

The University College does not operate a separate pension scheme for eligible employees since the employees are still members of the Moi University Pension Scheme.

The assets of Moi University Pension Scheme are held in a separate trustee administered fund that is funded jointly by Moi University, the University College and the employees. The University College also contributes statutory contributions to the National Social Security Fund. (NSSF) Contribution rates are determined by local statutes. The University College's contributions to the above schemes are charged to the income and expenditure account in the year to which they relate.

(g) Bad and doubtful debts

Specific provision is made for all known doubtful debts. Bad debts are written off when all reasonable steps to recover have been taken without success. A provision of 5% has been made on students' debtors.

(h) Provisions

Provisions are recognized when the University College has a present obligation (legal or contingent) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(i) Research and Development Costs

Research and development expenditure is charged to the Income and Expenditure Account in the year in which it is incurred.

(j) Cash and Cash Equivalent

Cash and cash equivalents are defined as cash in hand, bank balances, demand deposits, short term deposits and highly liquid investments readily convertible to known amounts of cash and subject to insignificant risks of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents consist of cash and bank balances.

(k) Trade and Other Receivables

Trade and other receivables are stated at their nominal value as reduced by appropriate allowances for estimated doubtful debts.

(l) Trade and Other Payables

Trade and other payables are stated at their nominal value.

(m) Government Grants

Government grants are recognized when there is reasonable assurance that the University College will comply with conditions attached to them and that the grants will be received. The grants are recognized as income in the period to which they relate and presented as a credit in the Income and Expenditure Account separately.
