#### **CHAIRMAN'S STATEMENT**

As Uwezo Fund marks its fifth year of operation, I am proud of the progress made this far. The Fund has recorded tremendous strides in realizing economic empowerment for groups that would otherwise not benefit accordingly in the mainstream banking spheres.

As a Board, the oversight role that we play has largely been enriched by numerous lessons and interactions with various stakeholders. This interaction and lessons learnt have informed our continuous review of the guidelines & policies for improved management of the Fund. To this end, the Board has recorded tremendous improvement in the overall management of the Fund. The review has mainly been informed by the feedback from the constituencies, interaction with stakeholders as well as guidance from the Ministry of Public Service, Youth and Gender.

The Board has propagated the Governments' agenda of the "Big Four" by prioritizing funding of activities directly contributing into the Agenda. To this end, the Board is committed to increased funding towards Food security, manufacturing and affordable housing related activities as key pillars in the Government's 'Big Four' economic agenda.

I am proud of the achievements that were made during the 2018/19 FY. To this end I would like to recognize the role played by the Board members in offering valuable guidance into the management of the Fund. This was achieved against a backdrop of a myriad of governance challenges that affected the Fund in the year under review. These challenges ranged from slow pace of nomination of Constituency Uwezo Fund management Committees (CUFMCs) members by the respective patrons for gazettelement to lack of quorum for the Oversight Board. The CUFMCs basically undertakes the implementation of the Fund to the constituency level, and therefore their role is critical in the implementation of the Fund's mandate. Further, the quorum hitch in the Board impeded the optimal operations the Fund.

Nevertheless, the Board was able to guide the operations of the Fund accordingly through its technical committees. The FY 2018/19 provided a new opportunity to address the challenges and lessons learnt from the initial years of the Fund's operations.

The Board appreciates the guidance and support offered by the State Department of Gender and Ministry of Public Ministry of Public Service, Youth & Gender in the implementation of the Fund. This enriched the Board's decision-making ability as we endeavored to deliver our mandate.

I wish to thank and greatly appreciate the contribution of my fellow members of the Board whose valued deliberations has produced great resolutions that have steered the Fund to greater levels.

Finally, the efforts of the Management team would not go unmentioned, as they dedicated hours of hard work and diligence into the realization of the Fund's mandate. It is the contribution of all team members that made the Fund realize the progress recorded in the FY 2018/19.

**REPORT OF THE HEAD OF SECRETARIAT**

It is a great honour to present the Financial Report for Uwezo Fund Oversight Board. This report highlights the milestones achieved by the Fund during the Financial Year 2018/2019.

One of the key mandates of the Fund is to expand access to finances for promotion of enterprises owned by youth, Women and Persons with Disabilities for economic empowerment. Towards this end, the Fund has so far disbursed a total of Kshs. 6,299,400,004 to the 290 constituencies as loan Fund. Since inception, the Fund has loaned Kshs. 6.059 billion to 65,169 groups comprising 40,772 women groups, 22,585 youth groups and 1,910 PWD groups. Out of this, Kshs. 1.9 billion has been repaid by groups across the constituencies. Further, the Fund has been able to realize revolving of Kshs. 0.6 billion from the repaid amounts for further re-lending.

To-date, over 85,000 applications have been received across the country. This is a clear indication of the insatiable demand of the funds across the constituencies. Irrefutably increased funding would indeed go a long way in bridging the funding gap that the demand for the fund has revealed.

In addition to funding the Uwezo Fund prioritizes capacity building of the beneficiary groups across the country. This ensures that these groups enhance their entrepreneurial skills and prepares them to take advantage of Government initiatives such as AGPO. Through the trainings, the Fund has promoted the concept of table banking which has not only enhanced the saving culture among the beneficiary groups, but also played an important role in advancement of cohesion amongst the groups.

To address the repayment challenge, the Fund engaged in training and engagement of key stakeholders in the constituencies. This was mainly to develop and oversee the implementation of localized loan recovery strategies. This intervention witnessed an increase on overall repayment by Kshs. 200 Million across the constituencies from the previous year.

Despite the significant strides attained so far, the Fund has encountered challenges. The main challenge being the overwhelming number of applications received at Constituency level vis-a-vis the Funds allocated to Constituencies. I believe that increased Funding would sufficiently address these challenges.

Secondly, the Fund was faced by a governance gap occasioned by quorum hitch in the Fund's oversight Board. This affected the efficiency and effectiveness of the delivery of the Fund's mandate. However, I wish to appreciate the Fund administrator's efforts and guidance which ensured that the effects of this challenge were contained.

In the same breadth, I wish note that delayed gazettement of Constituency Uwezo Fund Management Committees (CUFMCs) affected the operations of the Fund in the constituencies. Throughout the year under review, the Fund continued to fast-track the gazettement of these committees in liaison with the relevant offices and by 30<sup>th</sup> June, 2019 only Sixteen (16) constituency committees had not been gazetted.

Low repayment rates recorded across some constituencies is also a key challenge affecting the Fund. This limits the funds available for re-lending groups. The low repayment has largely been occasioned by misinformation among the public regarding the repayment of the Fund. In the year under review, the Fund spearheaded several public sensitization forums to clear this misinformation. Further, the Fund engaged various stakeholders to reach out to the defaulters.

The staffing challenge continues to impede on the Fund's optimal performance. This is compounded by the largely manual operations of the Fund as well as the structure of the Fund's management which domiciles its operations in the constituencies. This has convoluted the timeliness and accuracy of the reports to low levels of precision.

Nevertheless, I wish to recognize the efforts made by the limited staff deployed to the Fund from the various MDAs. It is their commitment to the mandate of the Fund that has steered hope amidst the challenges that have faced us in our endeavour to deliver. Similarly, I appreciate members of Constituency Secretariat for the support they give to the Fund over and above their main duties in the constituencies. It is the selflessness of this team that has made the achievements aforementioned a reality.

The impressive performance of the 2018/2019 would not have been made possible without the continued commitment and dedication of the secretariat team who are deployed to the Board. I therefore wish to thank them for their loyalty and hard work.

Finally, I wish to thank the Board of Directors for their valued counsel, timely guidance and decision making that enabled us to deliver the impressive results.

#### Succession Planning

Succession planning is an integral part of the continuity of an organization. The Fund has achieved this by staggering and varying appointments of Directors of the Board to ensure that the activities of the Board are not interrupted. However, in the year under review the operations of the Board were affected by a Quorum hitch occasioned by instructions from the Head of Public Service vide Circular No. OP.CAB/14/21A dated 29<sup>th</sup> December, 2017 on merger of Kenya Industrial Estates (KIE), Development Bank of Kenya, Uwezo Fund, Youth Enterprise Development Fund and Women Enterprise Fund into a Development Institution. Further appointments of the Board members during the merger process were restricted.

#### Induction and Training

The Fund inducted and trained Board members on corporate governance and also trained the Audit and Risk Management Committee of the Board on corporate governance to equip them with the requisite skills and competences on board operations and governance issues.

### MANAGEMENT DISCUSSION AND ANALYSIS

The printed estimate budgetary allocation for the Fund is Kshs.300 Million for Development and Ksh. 173,777,500 for recurrent totaling Ksh. 473,777,500. However, the Fund has a shortfall of Ksh. 78,475,550 occasioned by non-funding of the last quarter of development allocation and a cut of Ksh. 3,475,550 due to austerity measures. The Fund therefore received exchequers of Kshs. 225 Million and Kshs. 170,301,950 development and recurrent respectively totaling to Ksh. 395,301,950 against the expected total annual budgetary allocation of Kshs. 470,301,950.

**Quarterly Budgetary Allocations & Exchequer Receipts 2017/2018**

The two charts above represent annual budgetary allocation in relation to exchequer receipts for two financial years 2018/19 and 2017/2018. It may be observed from the representation the funding is skewed towards the fourth quarter which is the end of the financial year. As a result, the Fund's activities may not be spread evenly as per the work plan and therefore may not be achieved in the proposed period.

---

As demonstrated in the chart above, the Fund has continued to have a reduction of budgetary allocation from Kshs. 682,777,500 in the FY 2017/18 to Kshs. 470,301,950 in FY 2018/19. This reduction was further worsened by austerity measures reduction and non-funding of the fourth quarter development fund. This has impacted negatively on the projected performance based on the previous budgetary allocations and funding.

**Sustainability of the Fund**

The budgetary allocation for the financial year 2018/2019 continued to focus on enhancing accessibility to affordable credit and sustainability of the Fund through revolving. The Fund capacity built the Constituencies Uwezo Fund Management Committees (CUFMCs) and engaged their services to undertake loan recovery, vetting & training of new applicants and public sensitization programmes. The head office continued to provide oversight role to the constituencies for the achievement of its mandates

**The Big Four related activities**

The Board realigned the economic activities of the loan beneficiaries to the big four agenda

**1. Food security**

The Fund has encouraged the loan beneficiaries to focus on the food security and nutrition. The groups promote food security through horticultural, maize, vegetables and or mixed farming some keep cattle for sale. ## **REPORT OF THE AUDITOR-GENERAL ON UWEZO FUND FOR THE YEAR ENDED 30 JUNE, 2019**

---

### **REPORT ON THE FINANCIAL STATEMENTS**

#### **Disclaimer of Opinion**

I have audited the accompanying financial statements of Uwezo Fund set out on pages 1 to 22, which comprise the statement of financial position as at 30 June, 2019, and the statement of financial performance, the statement of changes in net assets, the statement of cash flows and statement of comparison of budget and actual amounts for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015.

I do not express an opinion on the accompanying financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of my report, I have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

#### **Basis for Disclaimer of Opinion**

##### **1. Presentation and Inaccuracy of the Financial Statements**

The statement of comparison of budget and actual amounts did not reflect the budget and actual amounts for revenue as required by the reporting format prescribed by the Public Sector Accounting Standards Board (PSASB) and The National Treasury. In addition, the statement reflects total expenses amounting to Kshs.243,584,574 while the statement of financial performance reflects total expenditure of Kshs.240,605,113. The variance of Kshs.2,979,461 has not been explained or reconciled.

Under the circumstances, it has not been possible to confirm the completeness and accuracy of the financial statements for the year ended 30 June, 2019.

##### **2. Unsupported Constituencies Administration Costs**

The statement of financial performance and Note 16 to the financial statements reflects an amount of Kshs.115,568,891 as Constituencies' administration costs which were not supported with the relevant documentary evidence in form of comprehensive expenditure returns.

Under the circumstances, the accuracy of the Constituencies administration costs of Kshs.115,568,891 could not be confirmed.

### 3. Cash and Cash Equivalents

The statement of financial position and Note 17 to the financial statements indicate an amount of Kshs.2,881,305,135 in respect of cash and cash equivalents. As reported in the previous year, the Fund maintained three (3) bank accounts for each of the 290 Constituencies in Kenya distributed over nine (9) Commercial Banks which had a total bank balance of Kshs.2,333,718,282 as at 30 June, 2019. However, the following issues were noted in respect of the balance:

- (i) Management has availed the documents in support of the reported balances in form of bank reconciliation statements, bank balance confirmation certificates, Board of Survey reports and copies of cash books, for each of the three (3) bank accounts for only seventy-one (71) Constituencies representing Kshs.573,877,689 or about 25%. However, for ninety-two (92) Constituencies there was partial submission of supporting documentation and for one hundred and twenty-seven (127) Constituencies, there were no documents submitted in support of the reported balances.
- (ii) The Constituencies' reported bank balances were not based on the Fund's accounting records since they comprised the unreconciled bank balances as reflected in the respective bank balance confirmation certificates, instead of the reconciled cashbook balances. Further, the bank balances confirmation certificates and/or the bank statements for one hundred and twenty-seven (127) Constituencies as noted above were not availed for audit purposes.
- (iii) The bank reconciliation statements for the bank accounts for nine (9) Constituencies as shown below had stale unrepresented cheques of Kshs.1,801,139 as at 30 June, 2019. The Management had not initiated the process of reversing the cheques and no explanation has been provided for the non-reversal.

| No. | Constituency | Account          |                      |                      | Total Kshs.      |

|     | <b>Total</b> | <b>1,012,500</b> | <b>22,000</b>        | <b>766,639</b>       | <b>1,801,139</b> |

- (iv) The reported bank balance of Kshs.7,548,545 for Marakwet West Constituency Loan Account included an amount of Kshs.1,522,395 appearing in the bank reconciliation statement as receipts in bank statement but not recorded in the cashbook that has been appearing in the reconciliation statements for this account since the year 2015. Management did not explain the sources of the receipts and why they have not been cleared for over five (5) years. In the absence of such determination, the accuracy of the reported bank balance of Kshs.7,548,545 for Marakwet West Constituency Loan account could not be confirmed.

Under the circumstances, it has not been possible to ascertain the existence, accuracy, completeness and validity of the cash and the bank balance of Kshs.2,881,305,135 as at 30 June, 2019.

#### **4. Loans to Groups**

The statement of financial position as at 30 June, 2019 and Note 19 to the financial statements reflects an amount of Kshs.3,992,873,484 as outstanding loans to groups. The reported balance has been derived by taking the initial National Government capital grants amount of Kshs.5,854,400,004 and adding Kshs.445,000,000 transferred to the loan fund account and from the resultant total of Kshs.6,299,400,004 deducting the amount of monies held in; CBK Bank Account - Kshs.29,133,230, the Loan Repayment Accounts - Kshs.1,318,113,323 and the Main Account - Kshs.959,279,966 all of which were not supported.

Further, there were no debtors' ledgers detailing loans issued by the Fund since inception and the repayments made over the years on account of any loan recovery nor were there comprehensive loan listings and/or aging analysis in support of the outstanding loans. In addition, no records of the loans advanced to groups including the evaluation and authority to issue loans were availed for audit review.

Consequently, the existence, accuracy, completeness, validity and recoverability of the loans to groups balance of Kshs.3,992,873,484 as at 30 June, 2019 could not be confirmed.

#### **5. Work-in-Progress**

As reported in the previous year, the statement of financial position reflects a balance of Kshs.19,522,765 under work-in-progress representing 40% part payment in respect of an Enterprise Resource Planning (ERP) software procured and contracted for in the financial year 2015/2016. The supply, installation and commissioning of the application is yet to be made even though the 40% part payment was made over four years ago and recognized in the statements. Information available for audit, and as observed in the previous years' audit indicates that the implementation of the ERP which was contracted at a sum of Kshs.48,806,912 has been called off even though there is a valid contract between the Fund and the supplier. Further, the recoverability and utilization of the part payment of Kshs.19,522,765 is doubtful given that the Fund appears to have stopped the implementation of the software. The value for money received by the Fund in respect of the software could not therefore, be ascertained.

In the circumstances, the validity, existence and accuracy of work-in-progress balance of Kshs.19,522,765 could not be confirmed.

## **6. Unsupported Balances**

The following balances reported in the statement of financial position, statement of cash flows and respective notes to the financial statements were not supported and no documents were provided for audit verification:

**4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**a) Revenue recognition**

**Revenue from non-exchange transactions**

**Transfers from other government entities**

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the entity and can be measured reliably. Recurrent grants are recognized in the statement of comprehensive income. Development grants are recognized in the statement of financial position and realised in the statement of comprehensive income over the useful life of the assets that has been acquired using such funds.

**b) Budget information**

The original budget for financial year 2018-2019 was approved by the Board on 19<sup>th</sup> October, 2018. There were no subsequent revisions or additional appropriations made to the approved budget.

The entity's budget is prepared on a different basis to the actual income and expenditure disclosed in the financial statements. The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on a cash basis. The amounts in the financial statements were recast from the accrual basis to the cash basis and reclassified by presentation to be on the same basis as the approved budget. A comparison of budget and actual amounts, prepared on a comparable basis to the approved budget, is then presented in the statement of comparison of budget and actual amounts.

In addition to the Basis difference, adjustments to amounts in the financial statements are also made for differences in the formats and classification schemes adopted for the presentation of the financial statements and the approved budget.

A statement to reconcile the actual amounts on a comparable basis included in the statement of comparison of budget and actual amounts and the actuals as per the statement of financial performance has been presented under section five of these financial statements.

**c) Taxes**

The Fund is tax exempt as provided for under income Tax Act CAP 470 section 10

#### **NOTES TO THE FINANCIAL STATEMENTS (Continued)**

#### **4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

##### **d) Property, plant and equipment**

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. When significant parts of property, plant and equipment are required to be replaced at intervals, the entity recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.

##### **e) Depreciation and impairment of property, plant and equipment**

Depreciation on property, plant and equipment is recognised in the income statement on straight-line basis to write down the cost of each asset or the re-valued amount to its residual value over its estimated useful life. The annual rates in use are:

|                                          |         |
|------------------------------------------|---------|
| Motor vehicles, including motor cycles   | 4 years |
| Computers and related equipment          | 3 years |
| Office equipment, furniture and fittings | 8 years |

A full year's depreciation charge is recognised both in the year of asset purchase and in the year of asset disposal.

##### **f) Contingent liabilities**

The Entity does not recognize a contingent liability but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

##### **g) Contingent assets**

The Entity does not recognize a contingent asset but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

**4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**i) Nature and purpose of reserves**

The Entity creates and maintains reserves in terms of specific requirements. Entity to state the reserves maintained and appropriate policies adopted.

**j) Changes in accounting policies and estimates**

The Entity recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

**k) Related parties**

The Entity regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the Entity, or vice versa. Members of key management are regarded as related parties and comprise the directors, the head of secretariat and senior managers.

**l) Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents also include short term cash imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

**m) Comparative figures**

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

**n) Subsequent events**

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2019.

**5 SIGNIFICANT JUDGMENTS AND SOURCES OF ESTIMATION UNCERTAINTY**

The preparation of the Entity's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods. The Fund derive amounts reported as outstanding loan fund and administrative costs from bank balances. In the event the cash book balances are obtained from the 290 constituencies and applied the amounts will change significantly.

**Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Entity based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Entity. Such changes are reflected in the assumptions when they occur. IPSAS 1.140
