B. Definition of Key Terms

Fiduciary Management - Members of Management directly entrusted with the entity's financial resources.

Comparative Year- Means the prior period.

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

2. Key Entity Information and Management

(a) Background information

Molo Technical and Vocational College was established under the TVET Act on 21st July 2021. The entity is domiciled in Kenya and has no branches. The institute is under the Ministry of Education, State Department of Technical and Vocational Training. The institution has nine academic departments namely: Electrical & Electronics, Mechanical Engineering, Automotive Engineering, Building and Technology, ICT and Media Studies, Liberal Studies, Cosmetology & Fashion & Design, Agriculture and Business studies. In addition, it has other administrative departments headed by: The Deputy Principal, The Registrar, Dean of Students, Finance Officer and Procurement officer.

(b) Principal Activities

The principal activity of Molo Technical and Vocational College is to be a centre of excellence in technological training and to be a Competence Based Education and Training (CBET) focused institution.

(c) Key Management

The entity's day-to-day management is under the following key organs:

- Board of Governors/ Council/ Management etc.
- Accounting officer/ Principal
- Fiduciary Management

(d) Fiduciary Management

The key management personnel who held office during the financial year ended 30th June 2024 and who had direct fiduciary responsibility were:

SN.	Designation	Name
1.	Principal	F.P.K. Tanui
3	Deputy Principal	Dennis Kundu
4	Registrar (s)	Peter Kigen
5	Dean of Students	Faith Bor
6	Head of Finance	CPA Moses. M. Mbuki

Key Entity Information and Management (Continued)

(e) Fiduciary Oversight Arrangements

Molo Technical and Vocational College has in place three major fiduciary oversight committees that act as enablers of the institution

i. Finance, Administration and Human Resource Committee:

This committee sets up viable policies that dictate how the college's assets and funds are managed. It set up and advices on college human resource policy, college budgeting, financial reporting and is always available for consultation on financial matters affecting the college.

It is chaired by John Samorai and its members include Mrs. Millicent Lukasire, the principal and Judith Okore.

ii. Education, Training and Project Committee

The committee looks into and supports all academic matters of the college providing guidance on training methods and practices, courses and their uptake as well as advising management on education matters. The committee also advices the management on resource mobilization methods.

It's chaired by Hon. Florence Njoroge and its members include Mrs. Judith Okore, Mr. John Samorai.

iii. Audit, Risk Management and Governance Committee

The committee looks into risk and internal control measures established by the institution for risk mitigation and control.

It's chaired by CPA Mr. Emmanuel Momanyi and its member include Hon. Florence Njoroge, Mrs. Ivy Chepkoech.

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

4. Chairman's Statement

It is my pleasure to present to you the Annual Report and financial statements of Molo Technical and Vocational College for the 12 months' period ended June 2024. Nearly three years and half down the road I am happy to report that we are now in full operation despite the numerous challenges that we have been encountering as we setting up the institutional structures and frameworks. As an institution we are now ready to take up our position in this region in helping our youths nurture their potentials.

The importance of TVET and Its Contribution to Sustainable Development.

The history of Technical and Vocational Education and Training (T.V.E.T) in Kenya is as old as the formal education. The British government used this type to produce critical human resources needed to develop the then Kenya colony. TVET dates to 1967 with the registration of the Kenya polytechnic as a post-secondary education institution. Its principal mandate was to offer training largely in the technical fields.

Over the years the quality of TVET and its programs have been negatively profiled. Most young people disregarded taking up training in these institutions as they viewed them as set aside for low academic performers and basically failures. They also said to lack clear frameworks of education advancement. To change these social perspectives and unlock the potential of technical and vocational training in the country, the ministry of Education State Department of Technical and Vocational Training has embarked on some sector reforms and frequent campaigns to turn around the potential learners' perspectives. It is true that these efforts are yielding bouquet of fruits as our youths have now come to embrace training in these institutions. In 2021, about 1,500 students who had been placed to undertake various degree programs in universities opted to enrol in TVET.

Technical and Vocational education and training (TVET) is steadily gaining popularity at the global debates and government priorities for education and national development agendas. The vision 2030 has however placed special demands on TVET as the leading engine that the economy must essentially rely upon to produce adequate levels of the middle level manpower needed to drive the economy towards the attainment of the vision.

Tertiary education is set to undergo tremendous changes that appear to favour TVET institutions. There is a deliberate effort by the government to expand training at TVET institutions country wide driven by the need to align the sector with development ambitions of the country. This, coupled with pursuit by the government of the Big 4 Agenda and the Kenya Vision 2030, has made it necessary to expand TVET in Kenya.

The two development strategies call for technical skills in large numbers which cannot be realized under the current set up.

Kenya has the largest unemployment rate in East Africa at 39%. The expectation is that technical and vocational training will help reduce the acute youth unemployment burden as most of the youth lack employability skills.

Key Achievements during the 12 Months period

The year 2023/2024 will remain remarkable as the year that Molo TVC received its second KUCCPS placement which was under the new financing model. After the inauguration of the Board of Governors, critical decisions had to be made in order to prepare for the second intake in September 2024 and subsequent intakes. Since then, we feel the challenge is to continue pressing on and on.

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

i. Enrolment and Courses Commencement

The institution so far has a student population of **549** and the demand is growing by day. The students are undertaking different courses that we have managed to introduce to fit the demand market, ranging from diploma, certificates and craft certificates. The courses already undertaken in the institution include;

Course	Level(s)
ICT	Diploma, Certificate
Building & Technology	Diploma, Craft, Artisan
Electrical Engineering	Diploma, Certificate, Artisan
Mechanical Engineering	Diploma, Certificate, Artisan
Agriculture	Craft, Artis
Social Work	Diploma, Craft Certificate
Cosmetology, Fashion and Design	Diploma, Craft Certificate
Mass Communication	Diploma, Craft Certificate
Business	Diploma, Craft Certificate

Challenges

i. Handing over of the college premises.

It is worth reporting at this time that the college premises have never been handed to the BOG for easier management. The BOG has been in force since April 2022 and this has limited the management in making the required and urgent changes pertaining to the current design of the college.

ii. Shortage of Trainers

The first last one year of our operation was characterized shortage of trainers. This resulted to the BOG hiring quite a number of the required trainers to ensure smooth learning and is translated to incurring high wage bills. However, the government has attached nine (9) public service trainers and it's our hope that we get more allocation of public service trainers in the current ongoing recruitment of 2,000 trainers in public TVET thus reducing the wage bill.

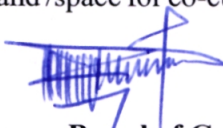

iii. Inadequate Facilities

The current enrolment stands at **549** students with only 8 standard classrooms. As we desire to expand, we are severely faced with both classrooms and workshops bearing in mind we are just about to receive a lot of new students from September this year.

It is also our desire that if we can have boarding facilities, we will be able to attract many students from outside the Molo Constituency.

Way Forward

As a board of management, we're looking forward to improve on the college infrastructure, get more land /space for co-curricular activities as well as procuring an MIS for efficiency in operation.

Chairman, Board of Governors

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

6. Report of the Chief Principal

It is worth noting that Molo Technical and Vocational College is a new Technical under the State Department of Vocational and Technical Training in the Ministry of Education. It was constructed at a total cost of Ksh.57,570,912.55. The construction of the facility was completed in late 2020 but it was not until 2021 March, that the institution admitted its first students due to some challenges.

The institution sits on a five-acre piece of land at Elburgon area, off Elburgon-Molo Road within Molo constituency. It was among the over two hundred Technical and Vocational Colleges which were constructed by the government of Kenya to fulfill its promise of constructing and equipping at least one Technical and Vocational College in every constituency.

Achievements/success

i. Trainers

The government through the Public Service Commission has embarked on recruitment exercise of vocational trainers and Molo Technical and Vocational College is earmarked to benefit from the same. Already it has eleven (11) trainers hired by the public Service Commission with another allocation of nine (9) from the 2023/2024 financial year recruitment.

ii. Computer lab

Through our limited resources the institution has managed to set up a modern computer lab, well-served with a decent Internet connection, though with limited number of computers. Apart from serving Information and Communication Technology students, it cuts across departments because it is a requirement that all students enrolled in our institution should learn ICT basic skills.

iii. Enrolment

Since the institution opened its doors three and half years ago, it has witnessed a steady increase in terms of student enrolment. Currently the student population stands at seven hundred and ninety-five (795). Considering the fact that we opened our doors for the first students in March 2021, this figure is quite encouraging. This can be attributed partly to the school's location which is situated around the vicinity of Elburgon town which in turn attracts a lot of prospective students. The Kenya Universities and Colleges Central Placement Service placed 122 students in May 2024, but only 20 students who turned up for admission with majority opting for September 2024 intake.

iv. Community Support/Partnership

Bearing in mind that the institution is new and has no boarding facilities, the community has stepped in to bridge that gap. The institution in partnership with the community, there are private hostels for the students who normally come from far. The community has taken up the challenge and come up with nice and affordable hostels/rental premises around the institution which accommodates our students. Being a cosmopolitan, Molo TVC attracts students from all over the county. i.e., from the forty-seven (47) counties, thus the need for accommodation facilities.

v. Permanent Source of Water

The college is yet to be self-sufficient in terms of having a permanent source of water which can only be achieved by drilling its own borehole for steady supply of water. We currently depend on Kasarani Water Project which is a community project and whose supply isn't steady hence not sustainable. However, through Molo NgCDF, the college has drilled its own bore hole which will address the issue of water shortages once the installation is fully done.

vi. Internet facility

Despite some challenges, especially the distance from town, the institution has managed to install an internet connection which is supposed to enable students access learning materials online.

vii. Suppliers

Beginning this financial year 2023/2024, the institution advertised for pre-qualification of supplies and now it has a list of pre-qualified suppliers. This is a step forward because now the institution will be able to acquire its items through competitive tendering at fair prices.

viii. Ablution Block

Due to an increase in enrolment, the Management committee deemed fit to construct an ablution block which is yet to start to cater for the large number of students.

Challenges

Despite the fact that the College has made great strides in terms of successes, there are also a number of challenges that have held it back since its inception. Some of these challenges are:

- i. **Handing over the facility.** Since the facility was completed in 2020, the contractor is still to hand over the building to the management despite the numerous requests to do so. We are operating on a facility which has not been officially handed over by the mentor institution. It has been a real challenge because there are some things we cannot do without the handing over report. An example, for instance, is that we are not able to get a completion certificate of the institution without the report which the mentor institution has retained to date, which was also one of the Auditor general queries during the previous audit.
- ii. **Work Shops.** Lack of well-equipped workshops in other disciplines to cater for the large numbers of trainees who are eager to pursue these courses. The notable courses lacking equipment include Automotive Engineering, Electrical Engineering, Building and Technology, Civil Engineering, Land Survey, Agriculture (Green House Technology) Carpentry and Joinery and Mass media.
- iii. **Lecture rooms and chairs.** There are no enough lecture rooms and chairs to cater for the large number of students joining the college. There is need to construct more lecture rooms and acquire more chairs for the classrooms. Am happy to report that toward the end of last financial 2023/2024, the college acquired four (4) new classrooms courtesy of Molo NgCDF which are expected to be completed by July 2024

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

- iv. **Library and books.** Currently the institution lacks a well-equipped library. It is our desire to have a modern library which should be equipped with books/learning materials as well as computers so that students could access materials online.
- v. **Staffroom and offices.** At the moment, the staffroom used by the trainers is very small. It can only accommodate ten (10) trainers comfortably, not any more than that. There is also need for offices because HODs do not have offices. Most of the still share the small staffroom with other trainers.
- vi. **Lack of Dining Hall.** there is need for a place where students can sit and have their meals from as well as a kitchen to prepare food for them.
- vii. **No hostels.** There is need for hostels to cater for students who are coming from afar. We are still having cases where students are declining to join Molo TVC citing lack of hostels/accommodation facilities within the institutions.
- viii. **Playing fields.** The current fields lack the capacity to accommodate all the discipline/sports and there's need for expansion. This will enable students to participate in extra curriculum activities. Some will want to explore their talents in sport but there are no playing fields.
- ix. **Lack of transportation.** There is a challenge when it comes to college transportation. The institution needs a college van for official operations and emergencies, like in cases when a student is sick and the nearest government health facility, Elburgpon Sub-County (Nyayo Ward), is over 3 kilometers away from the college.
- x. **Inadequate sewerage system.** since there is no sewerage line nearby, we are using septic tank. This tank, however, is small in size and its location is not ideal. In future, it will have to be moved back than where it currently is, in the middle of the field.
- xi. **Staff development programs.** In order to properly implement CBET Curriculum, it is our desire that our trainers get equipped with the relevant skills especially with the help of our development partners. If they can be trained in industry-standard practices, it will go a long way in elevating the students' learning experience.

High level financial performance

During the 2023/2024 financial year the college managed to receive kshs.14,813,088 from rendering of services, kshs.12,839,308 from non-exchange transactions totalling to a revenue of kshs.27,652,396 against total expenditure of kshs.27,550,078 with receivables from exchange transactions and payables being kshs.6,645,966 and kshs.3,147,484 respectively. Due to delay in government remittances, reduced remittance per student by 50%(from ksh.7,500 to ksh.ksh.3,500),delayed release of scholarship under the new financing model, the institution hasn't been able to perform at the highest financial performance level expected thus affecting service delivery negatively.

Principal/ Secretary to the Board

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

6. Statement of Performance against Predetermined Objectives

The following are the strategic objectives progress status for Molo Technical and Vocational College.

Strategic objectives	Strategies	Progress Status
1. To build the human resource capacity of the Institution to produce top quality graduates in the areas of specialization.	1. Review and rationalize college human Resource requirements for growth and Development. 2. Attract and retain effective and efficient Staff. 3. Establish institutional staff training and Development programmes in order to Improve the effectiveness and efficiency Of the institution.	The institution has now Improved on the welfare of Staff thus reducing high Staff turnover rate. There's increased staff Development programmes With several training be organized for staff Different departments
2. To upgrade infrastructure including processes Systems, and facilities to standards that guarantee effective institutional management, first class training	1. Develop and implement a development Plan. 2. Improve institutional equipment, and And service delivery. Transport facilities and systems	Work in progress
3. To increase financial resources to support the Institution's structures and operations.	1. Lobby the ministry and other Funding agencies to increase budgetary Allocations to the college. 2. Broaden the framework for raising Appropriation in aid (a-in-a) from College activities.	A stable solution is yet to be Realised.

Molo Technical Vocational College develops its annual work plans based on the above *guidelines*. Assessment of the board's performance against its annual work plan is done on a quarterly basis.

7. Corporate Governance Statement

The Board of Governors of Molo Technical and Vocational College have been meeting on quarterly basis over the course of the year for both general meetings and committee meetings with high attendance levels by the members. During the financial year 2023/2024, the board had two full board meeting with each of the three executive committees meeting twice during the year. The roles of the board are oversight and management of the college activities. Members have been able to provide any and every assistance that has been asked of them by the management team and are also able to advice on policies and growth strategies for the betterment of the institution.

In June 2022, members of the Board took part in an induction exercise organized by the Kenya Association of Technical Training Institutes (KATTI) where they were able to undergo proper training in the areas of policy making, oversight roles and their expected contribution to the growth of the Institution. The induction was a success as it brought about a change in accountability measures especially where management of the institution's funds are concerned. In April 2024, the board of governance had a two days retreat at RVIST National Polytechnic to discuss various management documents including the Strategic management plan, Human resource management policy, financial management policy and the academic policy which were adopted with amendments.

The board is also keen on enhancing the growth of the college and through meetings several strategies were passed which included marketing the college extensively via media sources as well as introducing various courses in the institution and enabling funding to buy equipment for these courses to be able to thrive and attract more students especially technical courses that are in demand from the myriads of inquiries that were recorded at the college. So far there have been no cases of conflict of interest or ethical misconduct as the board remains united in delivering its mandate of ensuring Molo Technical and Vocational College grows to be one of the leading Technical Institutions in the country.

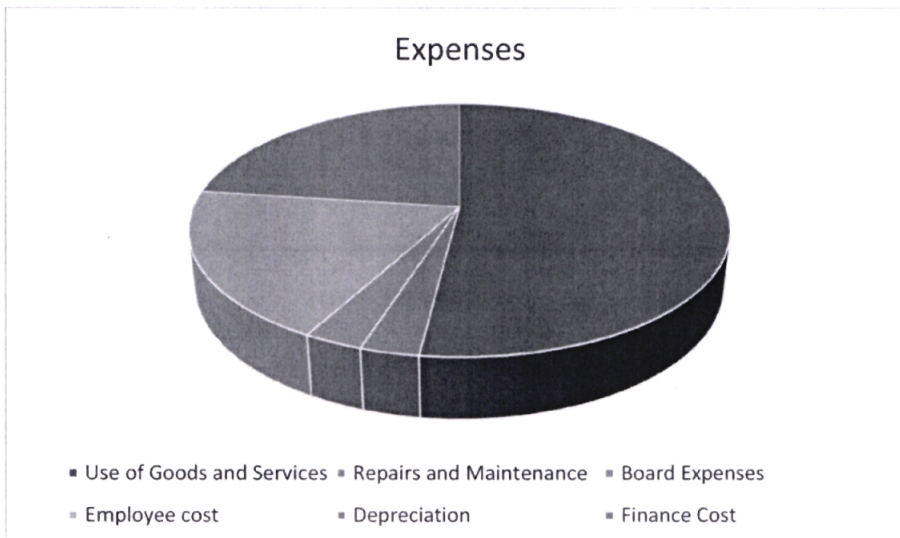

The following are the Roles and functions of the Board of Governors

- i. Strategy formulation including the vision, mission and values and ensuring that there are adequate policies, systems and structures to successfully implement the strategies,
- ii. Reviewing and approval of strategic plans and annual budgets, including policies for capital expenditure,
- iii. Monitoring the performance against strategic plans and objectives on an ongoing basis, as well as through quarterly meetings, Selection, appointment and appraisal of staff who are qualified and competent to manage the affairs of the board effectively
- iv. Ensuring adequate structures and systems to identify, measure and monitor and manage risks,
- v. Facilitate a Council self-evaluation program and follow-up action to deal with issues arising and arrange for Directors to attend development programs as the Council judges appropriate
- vi. Ensuring highest standards of integrity, responsibility and professionalism within the Council by elaborating duties of care, loyalty and confidentiality, viii. Approval for publication of annual and half yearly financial statements.

8. Management Discussion and Analysis

The institution is fully operational. For the period ending June,2024 the college earned revenue from exchange transactions of Kshs.14,813,088 which is a full recognition of the earnings for the financial 2023/2024, Capitation grant of ksh.8,885,000 and Scholarship of Ksh.3,984,308. Registering an under performance in cashflow majorly caused by under disbursement of Capitation grants.

The portion of revenues and expenses are as represented below:

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

Revenue categories based on the two financing models i.e The old model (Capitation based) and the new financing model (Scholarship based).

Old Financing Model (Capitation Based)

Number of Students	Fess Payable Per Year
447	Kshs.26,420

New Financing Model (Scholarship Based)

Band Category	Number of Students	Fees Per Year
Band 1	39	Kshs.20,156.7
Band 2	24	Kshs.26,875.6
Band 3	14	Kshs.33,594.5
Band 4	23	Kshs.40,313.4
Band 5	2	Kshs.47,032.3
Total	102	

Molo Technical and vocational college is compliant with NSSF, KRA, and NHIF . During the 2023-2024 financial year, the college couldn't achieve full potential in its operations and financial performance due to reduced and delayed remittance of funding from the government that's putting the college at the risk of not meeting its financial obligations and meeting its budgetary needs.

There was no key projects or decisions undertaken implemented during the financial year (2023-2024).

9. Environmental And Sustainability Reporting Statement

Environmental performance

With the guidance of National Environment policy 2013, Molo Technical and Vocational College seek to reduce negative environmental impact caused by improper way of living in several ways such as:

1. Encouraging proper disposal of non-decomposing items.
2. Continuous planting of tree.
3. Water harvesting so as to ensure that there is clean water for consumption in case of drought.
4. Participating in World Environmental Day in June 2024 and planted over 500 tree seedlings.

Employee welfare

Non-discrimination in employment

This is a clause that is found in section B subsection 2.12 of the MTVC human resource manual. This subsection has part b and part “a” states that Molo TVC Shall promote equal opportunity in employment and will not discriminate directly or indirectly against an employee on any ground including race, gender, pregnancy, marital status, health status, ethnicity or social origin. Colour, age, disability religion belief or culture.

Part B states that MOLO –TVC will end over to have a gender balance staff by gradually ensuring that not more than 2/3 of position in its establishment are filled by either gender.

POSITION	MALE GENDER	FEMALE GENDER	TOTAL STAFF	RATIO
Trainers	17	18	35	0.49:0.51
Essential staff	2	2	4	0.5:0.5
Grounds persons	2	4	6	0.3:0.7
Security officer	3	1	4	0.75:0.25
TOTAL STAFF	25	24	49	0.5:0.49

Following the above statistic, the institution has observed gender balance as stated in the policy. training programs section H sub section 8.3 The manual states that training programs shall comply both short- and long-term courses in specific professions that are intended to impact required knowledge, skills and attitude to enhance staff performance.

The trainings shall be tailored to the need after training need-based assessment.

The purpose of training shall be to ascertain the availability of:

- i) professionally qualification and experienced trainers
- ii) training programs that are cost effective
- iii) effective feedback system to assess impact of the training

the following officers have been facelifited to undergo training specific to their professions.

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

OFFICE	TRAINING	INSTITUTION	DURATION
Principal	Management practice	Kstvet	2 weeks
Deputy principal	CBET implementation	Kstvet	2 weeks
Accountant	End year Closing procedures	The National Treasury	2 weeks
Procurement	Procurement management	Kistvet	2 weeks
Registrar	Record management cbet implementation	Kstvet	4 weeks
I.L.O	Industrial linkages	Kstvet	2 weeks

The capacity building and enhance trainings is a continuous process.

3. Performance management section I subsection.

The human resource manual states that system for enhancement of efficiency and effectiveness of services delivery. The institution has developed the following performance management systems.

i) Staff Performance Appraisal system (PAS) in this system the supervisors together with their supervises sit and set quarterly and annual appraisal is conducted according the performance appraisal and eventually annual appraisal is conducted according the pro-set target and expected results to be achieved.

ii) Performance Contracting

this involves the institution management where the augment is entered between the board/ministry and the institution management .it involves

1. Target setting
2. Work planning
3. Implementation
4. Review and evaluate

This is done on yearly basis.

iii) Monitoring Evaluations and Reporting.

This is done on continues basis when spas are reported half-yearly while PC is reported on monthly basis.

Rewards and enations

The overall goals and rewards and sanctions is to establish a basis for rewarding employer performance and administering sanction for poor performance. The human resource manual addresses this in Section I Sub-Section 9.6

A) Rewards.

1. Preparing a party after general good performance
2. Proration of commendation centres and certificates.
3. Monitoring appreciation in terms of airtime
4. Public recognition during staff meeting

5. Making a tea appointment with the board top management.
6. Field trip for well performing department.

B) Sanctions

1. Recommend for guiding and counselling
2. Recommend for training
3. Recommend for improvement program
4. Working environment, health and safety

The manual outlines the procedure and processes to be observed to ensure prevention and protection of office against accidents and occupational hazards arising at the work place the manual in section G sub section 7.1 to 7.15 addresses all the aspects of health safety and environment and welfare of the staff. The following measures have been taken to ensure compliance on the above matters.

Emergency Preparedness

Several drills done to create awareness on what to do in case of an emergency

Fire Prevention.

Several firefighting equipment's are installed, well labelled fire exits as well as creation of fire assembly point.

Medical Examination

The institution facilitates the staff to contract periodic medical examination and were necessary help the staff seek appropriate medical attention.

Provision of Protective Equipment (PPE)

Employees are provided with appropriate PPE according to the serving of the job

Reporting of Accident

Any injuries accident or illness at work place are reported immediately to the immediate supervisor and escalated fraction Incase the immediate supervisor is overwhelmed. It is the responsibility of the institution to facilitate for first aid in case of injury at work the institution has adapted and is implemented **OSHA 2007**.

Market Place Practices-

In regard to market place practices, Molo TVC strive to enhance the following:

- a) Responsible competition practice.
Molo TVC has strived and enhanced a corruption free zone thus fostering an anti-corruption environment, being a nonpartisan in any political affiliations as way of responsible political involvement. Molo TVC believe in fair competition and respect for competitors.
- b) Responsible Supply chain and supplier relations- Despite the financial constraints, Molo TVC have managed to maintain good business practices, by treating its own suppliers responsibly by honouring contracts and respecting payment practices.
- c) Responsible marketing and advertisement-All marketing activities of Molo TVC observe all ethical marketing practices.
- d) Product stewardship- Molo TVC observes high levels of professionalism in safeguarding consumer rights and interests.

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

Corporate Social Responsibility / Community Engagements

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

11. Statement of Board of Governors Responsibilities

Section 81 of the Public Finance Management Act, 2012 and (section 14 of the State Corporations Act, and section 29 of schedule 2 of the Technical and Vocational Education and Training Act, 2013) require the council members to prepare financial statements in respect of Molo Technical and Vocational College, which give a true and fair view of the state of affairs of Molo Technical and Vocational College at the end of the financial year/period and the operating results of Molo Technical and Vocational College for that year/period. The Board members are also required to ensure that the Molo Technical and Vocational College keeps proper accounting records which disclose with reasonable accuracy the financial position of the Molo Technical and Vocational College. The council members are also responsible for safeguarding the assets of the Molo Technical and Vocational College.

The Board members are responsible for the preparation and presentation of Molo Technical and Vocational College financial statements, which give a true and fair view of the state of affairs of the Molo Technical and Vocational College for and as at the end of the financial year (period) ended on June 30, 2024. This responsibility includes: (i) maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period, (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of Molo Technical and Vocational College, (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud, (iv) safeguarding the assets of Molo Technical and Vocational College, (v) selecting and applying appropriate accounting policies, and (vi) making accounting estimates that are reasonable in the circumstances.

The Board members accept responsibility for Molo Technical and Vocational College financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act, 2012 and the State Corporations Act, and the TVET Act. The council members are of the opinion that Molo Technical and Vocational College financial statements give a true and fair view of the state of Molo Technical and Vocational College transactions during the financial year ended June 30, 2024, and of the Molo Technical and Vocational College financial position as at that date. The board members further confirm the completeness of the accounting records maintained for Molo Technical and Vocational college, which have been relied upon in the preparation of the Molo Technical and Vocational College financial statements as well as the adequacy of the systems of internal financial control.

In preparing the financial statements, the Principal has assessed Molo TVC ability to continue as a going concern. Nothing has come to the attention of the Council members to indicate that Molo

Molo Technical and Vocational College
Annual Reports and Financial Statements for the year Ended 30th June 2024

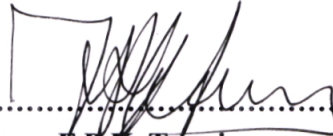

TVC will not remain a going concern for at least the next twelve months from the date of this statement.

Approval of the financial statements

The Molo Technical and Vocational College financial statements were approved by the Board on **27/09/2024** and signed on its behalf by:

.....

OFFICE OF THE AUDITOR-GENERAL

Enhancing Accountability

HEADQUARTERS
Anniversary Towers
Monrovia Street
P.O Box 30084-00100
NAIROBI

REPORT OF THE AUDITOR-GENERAL ON MOLO TECHNICAL AND VOCATIONAL COLLEGE FOR THE YEAR ENDED 30 JUNE, 2024

PREAMBLE

I draw your attention to the contents of my report which is in three parts:

- A. Report on Financial Statements that considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the financial statements;
- B. Report on Lawfulness and Effectiveness in the Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure the Government achieves value for money and that such funds are applied for the intended purpose; and,
- C. Report on Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, risk management environment and internal controls, developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

A Qualified Opinion is issued when the Auditor-General concludes that, except for material misstatements noted, the financial statements are fairly presented in accordance with the applicable financial reporting framework. The Report on Financial Statements should be read together with the Report on Lawfulness and Effectiveness in the Use of Public Resources, and the Report on Effectiveness of Internal Controls, Risk Management and Governance.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012, and the Public Audit Act, 2015. The three parts of the report when read together constitute the report of the Auditor-General.

REPORT ON THE FINANCIAL STATEMENTS

Qualified Opinion

I have audited the accompanying financial statements of Molo Technical and Vocational College set out on pages 1 to 55, which comprise the statement of financial position as

at 30 June, 2024, and the statement of financial performance, statement of changes in net assets, statement of cash flows and statement of comparison of budget and actual amounts for the year then ended and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of Molo Technical and Vocational College as at 30 June, 2024 and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with the Technical and Vocational Education and Training Act, 2013 and the Public Finance Management Act, 2012.

Basis for Qualified Opinion

1. Inaccuracies in the Comparative figures

The financial statements reflect comparative figures that differ with the prior year audited financial statements figures as shown below:

Component Description	Reference	Financial Statements 2023/2024 (Kshs)	Audited Financial Statements 2022/2023 (Kshs)	Variance (Kshs)
Rendering of services – fees from students	Cash flows	13,134,897	11,583,737	1,551,160
Total receipts	Cash flows	20,116,897	18,565,737	1,551,160
Board expenses	Cash flows	218,000	218,600	600
Total use of goods and services	Note 15	11,004,213	11,245,310	241,097
Board expenses	Note 17	218,000	218,600	600

In the circumstances, the accuracy and completeness of the comparative figures could not be confirmed.

2. Inaccuracy of Cash and Cash Equivalents

The statement of financial position reflects cash and cash equivalents totalling Kshs.180,208. However, the amount differs with the negative cash equivalents totalling Kshs.282,256 reflected in Note 26 to the financial statements resulting to unexplained variances of Kshs.462,464.

In the circumstances, the accuracy and completeness of cash and cash equivalents totalling Kshs.180,208 could not be confirmed.

3. Inaccuracy of Current Portion of Receivables from Exchange Transactions

The statement of financial position reflects current portion of receivables from exchange transactions totalling Kshs.6,645,966 as further disclosed in Note 27(a) to the financial statements. However, the amount includes receivables totalling Kshs.1,935,225 as disclosed in Note 27(c) to the financial statements which have been outstanding for more than one year and ought to be disclosed as long-term receivables from exchange transactions.

Further, no provision has been made for impairments and Management has not instituted measure to recover these long outstanding receivables.

In the circumstances, the accuracy, completeness and recoverability of current portion of receivables from exchange transactions totalling Kshs.6,645,966 could not be confirmed.

4. Inaccuracy of Property, Plant and Equipment

The statement of financial position reflects property, plant and equipment balance totaling Kshs.71,798,246. The amount includes land amounting to Kshs.17,500,000 as disclosed in Note 32 to the financial statement in respect of five (5) acre parcel of land occupied by the College. However, valuation and title deed in support of land was not provided.

Further, Note 32 to the financial statement reflects buildings amounting to Kshs.52,175,196. However, valuation report in support of the buildings was not provided.

In the circumstances, the accuracy, completeness and ownership of property, plant and equipment totalling Kshs.71,798,246 could not be confirmed.

5. Unsupported Trade and Other Payables from Exchange Transactions

The statement of financial position reflects trade and other payables from exchange transactions totalling Kshs.3,147,484. The amount includes trade payables and salary deductions totaling Kshs.2,639,112 and Kshs.508,372, respectively, as disclosed in Note 36 to the financial statements. However, creditors ledger and ageing analysis in support of the payables were not provided for audit review.

In the circumstances, the accuracy, completeness and existence of trade and other payables from exchange transactions totalling Kshs.3,147,484 could not be confirmed.

6. Unsupported Non-Current Borrowings

The statement of financial position reflects non-current borrowings amounting to Kshs.2,600,000 as further disclosed in Note 43 to the financial statements. The amount relates to a loan obtained from Ol'lessos Technical Training Institute in the year 2021. However, approval by the Board of Governors, loan statement, loan agreement with details of when the loan was taken, the principal amount and the interest rate applicable

and approval by the Cabinet Secretary were not provided for audit. This was contrary to Section 51 (2) of the Public Finance Management Act, 2012 which states that a National Government entity shall obtain the approval of the Cabinet Secretary for its intended program of borrowing, refinancing and repayment of loans.

Further, the loan has been outstanding for more than three (3) years without any repayment.

In the circumstances, the accuracy, completeness and existence of non-current borrowings totalling Kshs.2,600,000 could not be confirmed.

7. Inaccuracy of Capital Fund

The statement of financial position reflects capital fund totalling Kshs.79,096,190 as further reflected in the statement of changes in net asset. However, the amount differs with the recomputed capital fund totalling Kshs.83,356,780 resulting to an unexplained variance of Kshs.4,260,590.

In the circumstances, the accuracy and completeness of capital grants/ fund balance of Kshs.79,096,190 could not be confirmed.

8. Inaccuracies in the Statement of Cash flows

The statement of cash flows reflects rendering services fees from students amounting to Kshs.8,167,954 which differs with the rendering services fees from students amounting to Kshs.14,813,088 reflected in the statement of financial performance resulting to unreconciled variance of Kshs.6,645,134.

Further, the statement reflects cash and cash equivalents at 1 July, 2023 totalling Kshs.1,156,908. However, the amount differs with the prior audited cash and cash equivalents amounting to Kshs.1,201,908 resulting to an unexplained variance of Kshs.45,000.

In addition, the statement reflects negative cash and cash equivalents at 30 June, 2024 totalling Kshs.282,256 which differs with cash and cash equivalents totalling Kshs.180,208 reflected in the statement of financial position resulting to an unreconciled variance of Kshs.462,464.

In the circumstances, the accuracy and completeness of the statement of cash flows could not be confirmed.

The audit was conducted in accordance with International Standards for Supreme Audit Institutions (ISSAIs). I am independent of the Molo Technical and Vocational College Management in accordance with ISSAI 130 on the Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe

that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, are of most significance in the audit of the financial statements. Except for the matters described in the Basis for Qualified Opinion, I have determined that there are no other key audit matters to communicate in my report.

Other Information

Management is responsible for the other Information set out on page iii to xxx which comprise of Key Entity Information and Management, the Board of Governors, the Management Team, Chairman's Statement, Report of the Principal, Statement of Performance Against Predetermined Objectives, Corporate Governance Statement, Management Discussion and Analysis, Environmental and Sustainability Reporting Statement, Report of the Board of Governors , and Statement of Board of Governor's Responsibilities. The Other Information does not include the financial statements and my audit report thereon.

In connection with my audit on the College's financial statements, my responsibility is to read the Other Information and in doing so, consider whether the Other Information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If based on the work I have performed, I conclude that there is a material misstatement of this Other Information, I am required to report that fact. I have nothing to report in this regard.

My opinion on the financial statements does not cover the Other Information and accordingly, I do not express an audit opinion or any form of assurance conclusion thereon.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN THE USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, I confirm that nothing has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 3000 and 4000. The standards require that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements comply in all material respects, with the authorities that govern them.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, except for the effect of the matters described in the Basis for Conclusion on Effectiveness of Internal Controls, Risk Management and Governance section of my report, I confirm that nothing else has come to my attention to cause me to believe that internal controls, risk management and governance were not effective.

Basis for Conclusion

1. Lack of Approved Human Resource Manuals and Policies

Review of the Human Resource records revealed that the College had no approved staff establishment, customized scheme of service, career progression guidelines, casuals' engagement policy and HR development policy.

In the circumstances, it was not possible to confirm whether the College operated with an optimal number of staff.

2. Lack of Internal Audit Function

The College had not established an internal audit function for oversight of the operations of Management. This was contrary to Section 73 (1) (a) of the Public Finance Management Act, 2012 which states that a National Government entity shall ensure that it has appropriate arrangements for conducting internal audit according to the guidelines issued by the Accounting Standards Board.

In the circumstances, the oversight on effectiveness of internal controls, risk management and overall governance could not be confirmed.

3. Lack of Imprest Register

Review of the effectiveness of internal controls on imprest management revealed that during the year under review, Management did not maintain an imprest register. This is contrary to Regulation 93(4)(c) of the Public Finance Management (National Government) Regulations, 2015 which requires the Accounting Officer to ensure that details of applicants including the amount applied for are recorded in the imprest register before issuing temporary imprests.

In the circumstances, controls on issuance of imprests are not effective.

The audit was conducted in accordance with ISSAI 2315 and 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective

processes and systems of internal controls, risk Management and overall governance were operating effectively in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and the Board of Governors

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal controls as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal controls, risk management and governance.

In preparing the financial statements, Management is responsible for assessing the College's ability to continue as a going concern disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management is aware of the intention to cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements comply with the authorities which govern them and that public resources are applied in an effective way.

The Board of Governors is responsible for overseeing the College's financial reporting process, reviewing the effectiveness of how Management monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

My responsibility is to conduct an audit of the financial statements in accordance with Article 229(4) of the Constitution, Section 35 of the Public Audit Act, 2015 and the International Standards for Supreme Audit Institutions (ISSAIs). The standards require that, in conducting the audit, I obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error and to issue an auditor's report that includes my opinion in accordance with Section 48 of the Public Audit Act, 2015. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with IFPP will always detect a

material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In conducting the audit, Article 229(6) of the Constitution also requires that I express a conclusion on whether or not in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way. In addition, I consider the entity's control environment in order to give an assurance on the effectiveness of internal controls, risk management and governance processes and systems in accordance with the provisions of Section 7 (1) (a) of the Public Audit Act, 2015.

Further, I am required to submit the audit report in accordance with Article 229(7) of the Constitution.

Detailed description of my responsibilities for the audit is located at the Office of the Auditor-General's website at: <https://www.oagkenya.go.ke/auditor-generals-responsibilities-for-audit/>. This description forms part of my auditor's report.

Capital Expenditure	987,500	000	987,500	1,019,000	(31,500)	3.2%

(Budget notes)

Budget notes

- a. Kshs. 15,060,692 deficit transfers from government entities: Movement is due less fund received from the government.
- b. Kshs. 11,531,912 deficits in fee from rendering of services. Movement is due to large number of students out off session delayed to resume during the just concluded financial year as well as implementation of the new financing model.
- c. Kshs. 29,159,200 savings on use of goods and services. Movement is due to adoption of effective cost cutting measures and reduced number of students.
- d. Kshs. 2,199,019 savings on employee costs. Movement is due to proper utilization of available human resources.
- e. Kshs. 483,600 savings on board expenses. Movement is due to adoption of virtual meetings for B.o.G and scarce resources.
- f. Kshs. 1,136,285 decreases in RMI expenses. Movement is due to reduced repairs and maintenance activities.
- g. Kshs. **31,500** increases in capital expenditure. Movement is due to additions of assets (computers, furniture's, generator, grass cutter, public address system and biological assets)

18. Notes to the Financial Statements

1. General Information

Molo Technical and Vocational College is established by and derives its authority and accountability from TVET Act NO. 29 of 2013. The entity is wholly owned by the Government of Kenya and is domiciled in Kenya. The entity's principal activity is offering Technical and Vocational Education to the Kenyan public.

2. Statement of Compliance and Basis of Preparation

The financial statements have been prepared on a historical cost. The preparation of financial statements in conformity with International Public Sector Accounting Standards (IPSAS) allows the use of estimates and assumptions. It also requires management to exercise judgment in the process of applying Molo Technical and Vocational College accounting policies. The areas involving a higher degree of judgment or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note xx. The financial statements have been prepared and presented in Kenya Shillings, which is the functional and reporting currency of Molo Technical and Vocational College. The values are rounded off to the nearest shilling. The financial statements have been prepared in accordance with the PFM Act, the State Corporations Act, the TVET Act, and International Public Sector Accounting Standards (IPSAS). The accounting policies adopted have been consistently applied to all the years presented.

Molo Technical and Vocational College
Annual Report and Financial Statements for the year ended 30th June 2024

3. Adoption of New and Revised Standards

i. New and amended standards and interpretations in issue effective in the year ended 30 June 2024.

There are no new standards in the year ended 30th June 2024

ii. New and amended standards and interpretations in issue but not yet effective in the year ended 30 June 2024.

Standard	Effective date and impact:
IPSAS 43: Leases	<i>Applicable 1st January 2025</i> The standard sets out the principles for the recognition, measurement, presentation, and disclosure of leases. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cashflows of an Entity. The new standard requires entities to recognise, measure and present information on right of use assets and lease liabilities.
IPSAS 44: Non- Current Assets Held for Sale and Discontinued Operations	<i>Applicable 1st January 2025</i> The Standard requires, Assets that meet the criteria to be classified as held for sale to be measured at the lower of carrying amount and fair value less costs to sell and the depreciation of such assets to cease and: Assets that meet the criteria to be classified as held for sale to be presented separately in the statement of financial position and the results of discontinued operations to be presented separately in the statement of financial performance.
IPSAS 45: Property Plant and Equipment	<i>Applicable 1st January 2025</i> The standard supersedes IPSAS 17 on Property, Plant and Equipment. IPSAS 45 has additional guidance/ new guidance for heritage assets, infrastructure assets and measurement. Heritage assets were previously excluded from the scope of IPSAS 17 in IPSAS 45, heritage assets that satisfy the definition of PPE shall be recognised as assets if they meet the criteria in the standard. IPSAS 45 has an additional application guidance for infrastructure assets, implementation guidance and illustrative examples. The standard has clarified existing principles e.g. valuation of land over or under the infrastructure assets, under- maintenance of assets and distinguishing significant parts of infrastructure assets.
IPSAS 46: Measurement	<i>Applicable 1st January 2025</i> The objective of this standard was to improve measurement guidance across IPSAS by: i. Providing further detailed guidance on the implementation of commonly used measurement bases and the circumstances under which they should be used.

Molo Technical and Vocational College
Annual Report and Financial Statements for the year ended 30th June 2024

	<p>ii. Clarifying transaction costs guidance to enhance consistency across IPSAS.</p> <p>iii. Amending where appropriate guidance across IPSAS related to measurement at recognition, subsequent measurement and measurement related disclosures.</p> <p>The standard also introduces a public sector specific measurement bases called the current operational value.</p>
IPSAS 47: Revenue	<p><i>Applicable 1st January 2026</i></p> <p>This standard supersedes IPSAS 9- Revenue from exchange transactions, IPSAS 11 Construction contracts and IPSAS 23 Revenue from non- exchange transactions. This standard brings all the guidance of accounting for revenue under one standard. The objective of the standard is to establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flow arising from revenue transactions.</p>
IPSAS 48: Transfer Expenses	<p><i>Applicable 1st January 2026</i></p> <p>The objective of the standard is to establish the principles that a transfer provider shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of expenses and cash flow arising from transfer expense transactions. This is a new standard for public sector entities geared to provide guidance to entities that provide transfers on accounting for such transfers.</p>
IPSAS 49: Retirement Benefit Plans	<p><i>Applicable 1st January 2026</i></p> <p>The objective is to prescribe the accounting and reporting requirements for the public sector retirement benefit plans which provide retirement to public sector employees and other eligible participants. The standard sets the financial statements that should be presented by a retirement benefit plan.</p>

iii. Early adoption of standards

Molo Technical and Vocational College did not early adopt any new or amended standards in year 2023/2024.

4. Summary of Significant Accounting Policies

a) Revenue recognition

i) Revenue from non-exchange transactions

Transfers from other government entities

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the entity and can be measured reliably. To the extent that there is a related condition attached that would give rise to a liability to repay the amount, the amount is recorded in the statement of financial position and realised in the statement of financial performance over the useful life of the assets that have been acquired using such funds.

ii) Revenue from exchange transactions

Rendering of services

The entity recognizes revenue from rendering of services by reference to the stage of completion when the outcome of the transaction can be estimated reliably. The stage of completion is measured by reference to labour hours incurred to date as a percentage of total estimated labour hours. Where the contract outcome cannot be measured reliably, revenue is recognized only to the extent that the expenses incurred are recoverable.

Sale of goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods and when the amount of revenue can be measured reliably, and it is probable that the economic benefits or service potential associated with the transaction will flow to the entity. However, Molo Technical and Vocational College didn't realise such revenue during the financial year 2023/2024.

Interest income

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period. However, Molo Technical and Vocational College didn't realise such revenue during the financial year 2023/2024.

Rental income

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and included in revenue. However, Molo Technical and Vocational College didn't realise such revenue during the financial year 2023/2024.

b) Budget information

The original budget for FY 2023/2024 was approved by the Council or Board 28/04/2023. Subsequent revisions or additional appropriations were made to the approved budget in accordance with specific approvals from the appropriate authorities. The additional appropriations are added to the original budget by the entity upon receiving the respective approvals to conclude the final budget. The entity's budget is prepared on a different basis to the actual income and expenditure disclosed in the financial statements. The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on cash basis. The amounts in the financial statements were recast from the accrual basis to the cash basis and reclassified by presentation to be on the same basis as the approved budget. A comparison of budget and actual amounts, prepared on a comparable basis to the approved budget, is then presented in the statement of comparison of budget and actual amounts. In addition to the Basis difference, adjustments to amounts in the financial statements are also made for differences in the formats and classification schemes adopted for the presentation of the financial statements and the approved budget. A statement to reconcile the actual amounts on a comparable basis included in the statement of comparison of budget and actual amounts and the actuals as per the statement of financial performance has been presented on page **1** under section **one** of these financial statements.

c) Taxes

Current income tax

The entity is exempt from paying taxes as per schedule *1* of the *income* Act.

Sales tax/ Value Added Tax

Expenses and assets are recognized net of the amount of sales tax, except:

- When the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of sales tax included.

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

d) Investment property

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the replacement cost of components of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day maintenance of an investment property. Investment property acquired through a non-exchange transaction is measured at its fair value at the date of acquisition. Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit or service potential is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the surplus or deficit in the period of de-recognition. Transfers are made to or from investment property only when there is a change in use.

e) Property, plant and equipment

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition or construction of the item of property appropriately according to the acronyms you use in your financial statements plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the entity recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in surplus, or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.

f) Leases

Finance leases are leases that transfer substantially the entire risks and benefits incidental to ownership of the leased item to the Entity. Assets held under a finance lease are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the future minimum lease payments. The Entity also recognizes the associated lease liability at the inception of the lease. The liability recognized is measured as the present value of the future minimum lease payments at initial recognition. Subsequent to initial recognition, lease payments are apportioned between finance charges and reduction of the lease liability to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in surplus or deficit. An asset held under a finance lease is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Entity will obtain ownership of the asset by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term. Operating leases are leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item to the Entity. Operating lease payments are recognized as an operating expense in surplus or deficit on a straight-line basis over the lease term.

g) Intangible assets

Intangible assets acquired separately are initially recognized at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred. The useful life of the intangible assets is assessed as either finite or indefinite. Intangible assets with an indefinite useful life are assessed for impairment at each reporting date.

h) Research and development costs

The Entity expenses research costs as incurred. Development costs on an individual project are recognized as intangible assets when the Entity can demonstrate:

- The technical feasibility of completing the asset so that the asset will be available for use or sale.
- Its intention to complete and its ability to use or sell the asset.
- How the asset will generate future economic benefits or service potential
- The availability of resources to complete the asset.
- The ability to measure reliably the expenditure during development.

Following initial recognition of an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete, and the asset is available for use. It is amortized over the period of expected future benefit. During the period of development, the asset is tested for impairment annually with any impairment losses recognized immediately in surplus or deficit.

i) Financial instruments

IPSAS 41 addresses the classification, measurement and de-recognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets. The entity does not have any hedge relationships and therefore the new hedge accounting rules have no impact on the Company's financial statements. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. At initial recognition, the entity measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through surplus or deficit, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Financial assets

Classification

The entity classifies its financial assets as subsequently measured at amortised cost, fair value through net assets/ equity, or fair value through surplus and deficit on the basis of both the entity's management model for financial assets and the contractual cash flow characteristics of the financial asset. A financial asset is measured at amortized cost when the financial asset is held within a management model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding. A financial asset is measured at fair value through net assets/ equity if it is held within the management model whose objective is achieved by both collecting contractual cashflows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. A financial asset shall be measured at fair value through surplus or deficit unless it is measured at amortized cost or fair value through net assets/ equity unless an entity has made an irrevocable election at initial recognition for particular investments in equity instruments.

Subsequent measurement

Based on the business model and the cash flow characteristics, the entity classifies its financial assets into amortized cost or fair value categories for financial instruments. Movements in fair value are presented in either surplus or deficit or through net assets/ equity subject to certain criteria being met.

Amortized cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, and that are not designated at fair value through surplus or deficit, are measured at amortized cost. A gain or loss on an instrument that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is de-recognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through net assets/ equity

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through net assets/ equity. Movements in the carrying amount are taken through net assets, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in surplus/deficit. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through surplus or deficit

Financial assets that do not meet the criteria for amortized cost or fair value through net assets/equity are measured at fair value through surplus or deficit. A business model where the entity manages financial assets with the objective of realizing cash flows through solely the sale of the assets would result in a fair value through surplus or deficit model.

Trade and other receivables

Trade and other receivables are recognized at fair values less allowances for any uncollectible amounts. Trade and other receivables are assessed for impairment on a continuing basis. An estimate is made of doubtful receivables based on a review of all outstanding amounts at the year-end.

Impairment

The entity assesses, on a forward-looking basis, the expected credit loss ('ECL') associated with its financial assets carried at amortized cost and fair value through net assets/equity. The entity recognizes a loss allowance for such losses at each reporting date. Critical estimates and significant judgments made by management in determining the expected credit loss (ECL) are set out in *Note 25*.

Financial liabilities

Classification

The entity classifies its liabilities as subsequently measured at amortized cost except for financial liabilities measured through profit or loss.

j) Inventories

Inventory is measured at cost upon initial recognition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

Costs incurred in bringing each product to its present location and conditions are accounted for, as follows:

- Raw materials: purchase cost using the weighted average cost method.
- Finished goods and work in progress: cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs.

After initial recognition, inventory is measured at the lower of cost and net realizable value. However, to the extent that a class of inventory is distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower of cost and current replacement cost.

Inventories (Continued)

Net realizable value is the estimated selling price in the ordinary course of operations, less the estimated costs of completion and the estimated costs necessary to make the sale, exchange, or distribution. Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Molo Technical and Vocational College.

k) Provisions

Provisions are recognized when Molo Technical and Vocational College has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Molo Technical and Vocational College expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

Contingent liabilities

Molo Technical and Vocational College does not recognize a contingent liability but discloses details of any contingencies in the notes to the financial statements unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

Contingent assets

Molo Technical and Vocational College does not recognize a contingent asset but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of Molo Technical and Vocational College in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

l) Social Benefits

Social benefits are cash transfers provided to i) specific individuals and/or households that meet the eligibility criteria, ii) mitigate the effects of social risks and iii) Address the need of society as a whole. The entity recognises a social benefit as an expense for the social benefits scheme at the same time that it recognises a liability. The liability for the social benefit scheme is measured at the best estimate of the cost (the social benefit payments) that the entity will incur in fulfilling the present obligations represented by the liability.

m) Nature and purpose of reserves

Molo Technical and Vocational College doesn't create nor maintains reserves.

Changes in accounting policies and estimates

Molo Technical and Vocational College recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

n) Employee benefits

Retirement benefit plans

Molo Technical and Vocational College doesn't provide retirement benefits for its employees and directors. Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable. Defined benefit plans are post-employment benefit plans other than defined-contribution plans. The defined benefit funds are actuarially valued tri-annually on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on proportional basis to all participating employers. The contributions and lump sum payments reduce the post-employment benefit obligation.

o) Foreign currency transactions

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported at the statement of financial position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognized as income or expenses in the period in which they arise. Molo Technical and Vocational College didn't engage in any form of foreign transactions.

p) Borrowing costs

Borrowing costs are capitalized against qualifying assets as part of property, plant and equipment. Such borrowing costs are capitalized over the period during which the asset is being acquired or constructed and borrowings have been incurred. Capitalization ceases when construction of the asset is complete. Further borrowing costs are charged to the statement of financial performance.

q) Related parties

Molo Technical and Vocational College regards a related party as a person or an entity with the ability to exert control individually or jointly or to exercise significant influence over the Entity, or vice versa. Members of key management are regarded as related parties and comprise the directors, the principal and senior managers.

r) Service concession arrangements

Molo TVC analyses all aspects of service concession arrangements that it enters into in determining the appropriate accounting treatment and disclosure requirements. In particular, where a private party contributes an asset to the arrangement, Molo TVC recognizes that asset when, and only when, it controls or regulates the services. The operator must provide together with the asset, to whom it must provide them, and at what price. In the case of assets other than 'whole-of-life' assets, it controls, through ownership, beneficial entitlement or otherwise – any significant residual interest in the asset at the end of the arrangement. Any assets so recognized are measured at their fair value. To the extent that an asset has been recognized, Molo TVC also recognizes a corresponding liability, adjusted by a cash consideration paid or received.

s) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents also include short-term cash imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

t) Comparative figures

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

u) Subsequent events

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2024.

5. Significant Judgments and Sources of Estimation Uncertainty

The preparation of Molo TVC financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Entity based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Entity. Such changes are reflected in the assumptions when they occur. IPSAS 1.140

Useful lives and residual values

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- The condition of the asset based on the assessment of experts employed by Molo TVC.
- The nature of the asset, its susceptibility and adaptability to changes in technology and processes.
- The nature of the processes in which the asset is deployed.
- Availability of funding to replace the asset.
- Changes in the market in relation to the asset

Provisions

No provisions raised by the management during the financial (2023/2024).

48. Financial Risk Management

The entity's activities expose it to a variety of financial risks including credit and liquidity risks and effects of changes in foreign currency. The company's overall risk management programme focuses on unpredictability of changes in the business environment and seeks to minimise the potential adverse effect of such risks on its performance by setting acceptable levels of risk. The company does not hedge any risks and has in place policies to ensure that credit is only extended to customers with an established credit history.

The entity's financial risk management objectives and policies are detailed below:

(i) Credit risk

The entity has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk arises from cash and cash equivalents, and deposits with banks, as well as trade and other receivables and available-for-sale financial investments.

Management assesses the credit quality of each customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external assessment in accordance with limits set by the directors. The amounts presented in the statement of financial position are net of allowances for doubtful receivables, estimated by the company's management based on prior experience and their assessment of the current economic environment.

The carrying amount of financial assets recorded in the financial statements representing the entity's maximum exposure to credit risk without taking account of the value of any collateral obtained is made up as follows:

Description	Total amount Kshs	Fully performing Kshs	Past due Kshs	Impaired Kshs
At 30 June 2023				
Receivables from exchange transactions	2,572,863	2,572,863	000	000
Receivables from non-exchange transactions	000	000	000	000
Bank balances	1,315,430	1,315,430	000	000
Total	3,88,293	3,88,293	000	000
At 30 June 2024				
Receivables from exchange transactions	6,645,966	6,645,174	000	000
Receivables from non-exchange transactions	000	000	000	000
Bank balances	180,208	180,208	000	000
Total	6,826,174	6,826,174	000	000

Molo Technical and Vocational College
Annual Report and Financial Statements for the year ended 30th June 2024

Financial risk management (continued)

The customers under the fully performing category are paying their debts as they continue trading. The credit risk associated with these receivables is minimal and the allowance for uncollectible amounts that the company has recognised in the financial statements is considered adequate to cover any potentially irrecoverable amounts.

The board of directors sets the company's credit policies and objectives and lays down parameters within which the various aspects of credit risk management are operated.

(ii) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the entity's directors, who have built an appropriate liquidity risk management framework for the management of the entity's short, medium and long-term funding and liquidity management requirements. The entity manages liquidity risk through continuous monitoring of forecasts and actual cash flows.

The table below represents cash flows payable by the company under non-derivative financial liabilities by their remaining contractual maturities at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

Description	Less than 1 month	Between 1- 3 months	Over 5 months	Total
	Kshs	Kshs	Kshs	Kshs

Total	000	000	5,747,484	5,747,484

Molo Technical and Vocational College
Annual Report and Financial Statements for the year ended 30th June 2024

(iii) Market risk

The entity has put in place an internal audit function to assist it in assessing the risk faced by the entity on an ongoing basis, evaluate and test the design and effectiveness of its internal accounting and operational controls.

Market risk is the risk arising from changes in market prices, such as interest rate, equity prices and foreign exchange rates which will affect the entity's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Overall responsibility for managing market risk rests with the Audit and Risk Management Committee.

The entity's Finance Department is responsible for the development of detailed risk management policies (subject to review and approval by Audit and Risk Management Committee) and for the day-to-day implementation of those policies.

There has been no change to the entity's exposure to market risks or the manner in which it manages and measures the risk.

a) Foreign currency risk

The entity has transactional currency exposures. Such exposure arises through purchases of goods and services that are done in currencies other than the local currency. Invoices denominated in foreign currencies are paid after 30 days from the date of the invoice and conversion at the time of payment is done using the prevailing exchange rate. The carrying amount of the entity's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Description	In Kshs	Other currencies	Total
	Kshs	Kshs	Kshs
At 30 June 2024			
Financial Assets (Investments, Cash, Debtors)	000	000	000
Liabilities			
Trade and Other Payables	000	000	000
Borrowings	000	000	000
Net Foreign Currency Asset/(Liability)	000	000	000

The entity manages foreign exchange risk from future commercial transactions and recognised assets and liabilities by projecting for expected sales proceeds and matching the same with expected payments.

Molo Technical and Vocational College
Annual Report and Financial Statements for the year ended 30th June 2024

Foreign currency sensitivity analysis

The following table demonstrates the effect on the company's statement of comprehensive income on applying the sensitivity for a reasonable possible change in the exchange rate of the three main transaction currencies, with all other variables held constant. The reverse would also occur if the Kenya Shilling appreciated with all other variables held constant.

	Change in currency rate	Effect on Profit before tax	Effect on equity
	Kshs	Kshs	Kshs
2024			
Euro	10%	000	000
Usd	10%	000	000
2024			
Euro	10%	000	000
Usd	10%	000	000

b) Interest rate risk

Interest rate risk is the risk that the entity's financial condition may be adversely affected as a result of changes in interest rate levels. The company's interest rate risk arises from bank deposits. This exposes the company to cash flow interest rate risk. The interest rate risk exposure arises mainly from interest rate movements on the company's deposits.

Management of interest rate risk

To manage the interest rate risk, management has endeavoured to bank with institutions that offer favourable interest rates.

Sensitivity analysis

The entity analyses its interest rate exposure on a dynamic basis by conducting a sensitivity analysis. This involves determining the impact on profit or loss of defined rate shifts. The sensitivity analysis for interest rate risk assumes that all other variables, in particular foreign exchange rates, remain constant. The analysis has been performed on the same basis as the prior year.
