Subsequently, the Message from the President containing the names of seven (7) persons nominated to be appointed as Principal Secretaries together with their curriculum vitae was committed to the relevant Departmental Committees to conduct the vetting of the nominees. The respective Departmental Committees were expected to deliberate on the suitability or otherwise of the nominees and table their reports in the House for consideration.

Subsequent to this, the Clerk of the National Assembly released a schedule of vetting for the various nominees by the respective Departmental committees, notifying the general public that the respective Departmental Committees shall conduct the vetting of the persons for appointment to their respective positions. Pursuant to these provisions of the Constitution and the Standing Orders of the National Assembly the Committees were

required to receive views from members of the public and any other person interested in the matter before the committees.

Mr. Peter Tum, the nominee for the position of the Principal Secretary for the Ministry of Health was committed to the Departmental Committee on Health. He appeared before the Committee on Wednesday, 21st February 2018 at 12.00 noon for vetting as scheduled.

To fulfill its mandate and facilitate the vetting, Mr. Tum submitted relevant documentation and testimonials supporting his case.

In between, he held positions such as Principal at the Nakuru KMTC, Head of Department (medical engineering) and Head of Maintenance Unit at the Mbagathi Hospital. Mr. Tum exuded confidence that this steady experience as an informed insider positions him as the right person with the grasp and understanding of the operations and management of the Ministry of Health and the health sector in general.
5. To further expound his unique position as the right candidate for the position Mr. Tum responded that he possessed experience in resource mobilization institutional development, human resource management and building of strong and sustainable partnerships. He qualified these attributes by the fact that he introduced 21 new programmes into the curriculum of KMTC, expanded physical presence of the KMTC to 42 out of the 47 Counties with the latest college opening in Mandera County in March 2018. In addition to meet the local demand this particular college, he said, came as a result of a request from the leadership of Somalia and is expected to meet the training needs of the citizens of Somalia due to the proximity of Mandera County to that country. He added that he will avoid entering into situations where his actions might create a conflict, whether it's actual, potential or perceived, without disclosing the information. He added that in situations where there may be a reasonably perceived conflict of interest he will appoint an independent third party to oversee the integrity of the process

Knowledge of the Health Sector

Mr. Tum responded to various question under the health sector as follows:

i) Universal Health Coverage(UHC)

8. He expressed confidence that he will provide the leadership, managerial and technical stewardship to deliver 100% coverage for all households. He stated that for UHC to be successfully implemented, three important components must be decisively and comprehensively addressed: Human resource, accessibility and financing. He will strive to achieve by doing the following:
 - a) Assemble a competent and passionate team that will work closely under him to coordinate, guide and implement all the identified projects and programmes necessary to meet the objective.
 - b) Deliberately seek to broaden the engagement and collaboration between the Ministry, Parliament and the County Governments to move forward faster and together.
 - c) Carry out comprehensive skills audit especially of medical doctor so as to identify the existing skills gaps and optimize the existing pool of skills through an elaborate

and equitable distribution mechanisms to improve the current 0.9 doctors to 1000 patients ratio

- d) Initiate and accelerate the necessary reforms in NHIF so as to provide a strong foundation for the implementation of UHC by delivering a minimum package especially for the vulnerable, poor, the elderly and the young.
- e) Enhance the efficiency of commodity supplies by reforming and improving the capacity of the Kenya Medical Supplies Agency(KEMSA)
- f) Seek to enhance resource allocation to critical institutions like Kenya Medical Research Institute (KEMRI) so that it has both the human and financial capacity to deliver cut-edge research on emerging diseases. He added that there was need for KEMRI to be physically present in all the 47 counties.
- g) Work closely with donor organizations to maximize their support
- h) Leverage on Information Communication Technology (ICT) to ensure that the services delivery and disease surveillance are synchronized throughout the country. To do this, he stated that he will not reinvent the wheel but will borrow good practices from India, UK and Egypt that already have a working models

ii) Understanding of the Health Act

9. Mr. Tum stated that the Health Act 2017 has provided for a governance structure that assigned clear roles and responsibilities. The Act makes room for collapsing all the regulatory bodies into one so as to consolidate the numerous pieces of legislations that exist in the sector. Various regulations are under consideration to holistically operationalize the Act

iii) Human Resources for Health

10. He responded that having being at the helm of the Kenya Medical Training College, he understood this item comprehensively. He responded specifically stated that;
- a) The health function is majorly a devolved function. This invites the National and County governments to develop a mechanism of ensuring that there is structured communication
 - b) The Human Resources(HRH) should be a national government function, this is necessitated by the fact that training, skills matching, equitable distribution of

personnel and emerging health issues will be better handled and managed at a centralized and coordinated point. In addition commodity movement and health financing should be an exclusive function of the national government

- c) It has become clear that industrial action in the sector has become a national government problem although county governments exclusively employ doctors and nurses
- d) There must be honest conversation with county governments and come up with mitigating mechanisms to assuage their fears about re-assigning some of the health functions to the national government.
- e) The need to train and employ more community health worker. Experience has shown they fit very well within the communities they come.
- f) We need to give more incentive to nurses and motivate them.

iv) National Referral Hospitals

11. On the national referral hospitals, he stated as follows;

- a) The situation at Kenyatta National Hospital is dire and needs immediate attention. The solution is not only to enhance budgetary allocation to KNH but also involves making the peripheral health facilities equipped and functional to decongest KNH. This also applies to Moi Teaching and Referral Hospital.
- b) There is need to re-activate the oxygen and IV fluid plants at KNH for efficiency and as a cost saving measure.
- c) The ministry should explore the options for KNH to open satellite clinics.
- d) The recent events that happened in KNH were unfortunate and the Ministry shall ensure a proper investigation will be carried and appropriate measures will be put in place.

v) Medical Tourism

12. The Nominee responded as follows;

- a) That he had no evidence to back the allegation that some doctors were colluding with health facilities in India to refer Kenyans to that country, but he will investigate to find out the veracity of the allegation. He was however aware that there existed a Unit in the Ministry of Health that cleared all patients seeking referral to foreign countries for treatment.

- b) With the necessary investment, Kenya can attract patient from the region to be treated in our health facilities. The necessary set of skills exists.

vi) Health Manufacturing

13. He responded as follows;

- a) That he will promote the manufacturing of medical equipment and furniture within the country by providing the enabling environment for investors such as offering tax rebates and the necessary infrastructure
- b) That in addition to cost effectiveness of the products, the industry will also create jobs and contribute to the achievement of the agenda four items.

vii) Semi-Autonomous Government Agencies(SAGAS) under the Ministry

14. He responded as follows;

- a) There was need to consolidate overlapping roles of the SAGAs so as to maximize on efficiency and cost-effectiveness
- b) There was need for a paradigm shift in the management and operation of SAGAs under the ministry, for instance The National Aids Control Council because of their expertise in control of HIV/AIDs should escalate their services to handle the control and management of related diseases

Vision and Leadership

15. He stated that his main goal and vision is to deliver Universal Health Coverage within the next four years by closely working with the Ministry officials, the Health committee and the County Governments to ensure the delivered UHC packages are accessible at the lowest units of administration in our country. He aims to provide managerial and technical leadership at Afya house and get rid of the alleged cartels that exist there

MEMORANDUM OF THE THIRDWAY ALLIANCE KENYA TO THE VETTING COMMITTEE OF THE NATIONAL ASSEMBLY ON THE APPOINTMENT OF NATIONAL EXECUTIVE (CS, CAS, PS & AMBASSADORS) OUR PERSPECTIVE AND WHAT NATIONAL ASSEMBLY SHOULD CONSIDER BEFORE RECOMMENDING THEM FOR APPOINTMENT.

PREAMBLE

③

First, *Thirdway Alliance Kenya* (hereinafter "*Thirdway*"), a political party duly registered under our laws and which participated in the 2017 General Elections, welcomes the decision of President Uhuru Kenyatta to propose a Cabinet after such a long wait.

Secondly, we appreciate that Parliament is set to begin this long-awaited cabinet. Therefore, and pursuant to **Section 6(9)** of the *Public Appointments (Parliamentary Approval) Act 2011* and further to the provisions of **Article 119** of our 2010 Constitution, *Thirdway* shares below our party's perspective on the proposed nominees for Cabinet Secretaries (CSs), Permanent Secretaries (PSs), Ambassadors, and a newly created post of Chief Administrative Secretary (CAS). Even as we share our views herein, we, however, note that the Cabinet remains incomplete. We hope that Parliament would urge President Uhuru to finalize on his nominees. Any further delay, continues to create anxiety and delayed service delivery to Kenyans.

As Parliament now sits to vet these names, we provide our perspective as follows:

1. Role of the National Assembly

- a. We see the role of the National Assembly, as not just being about vetting the nominees, but also pointing the Executive to the right direction in as far as some national concerns are. We have documented those concerns in this memorandum. To this extent, parliament would be playing its oversight role over the Executive. We urge you not to look at party politics; rather what is in the best interest of Kenyans; it is the responsibility of the National Assembly to guide the president on the best public servants to serve Kenyans.

③ COMMITTEE CHECKS
 Pls bring to the attention of your respective committees

The need to observe chapter 6 of our Constitution & justification for appointments.

- a. Ch.6 of our Constitution speaks to "responsibilities of leadership", and that in selecting such State Officers, regard shall be had to their "competence and suitability", and in the particular instance, to perform a function as a CS, PS, and Ambassadors, amongst others.
- b. **On suitability & competence:** To use two examples in order to illustrate this issue, we do not see a clear justification for the transfer of a CS like Amb. Amina Mohammed to the Education Ministry. Her long, painstaking experience as CS Foreign Affairs will be a great loss to Kenya in terms of experience, skill and

resources. This is because she will have to learn how to manage a new Education docket. Assuming, the transfer was occasioned by her non-performance at the Foreign Affairs docket, why transfer her to the very crucial Education ministry where she has had no experience at all? Similarly, there is no clear justification for the appointment of Dr. Matiang'i as CS for Interior. This is because, he has arguably done an exemplary job as CS Education. At the same time, he has also received wide criticism both locally and internationally for his alleged contribution to the violation of human rights, including recent failure to obey court orders, and shutdown of media houses without compliance with **Article 24** of our Constitution.

- c. **Underperformance:** We urge your Committee to consider the performance, as well as underperformance by some CSs, PSs, who are now either transferred to a new docket or proposed for Ambassadorial appointment. You may want to interrogate the performance track record of each nominee. If on a balance of probability, a CS/PS never performed to expectation, you should reject such a name (*see also issue of integrity & corruption below*). We believe there are many Kenyans with skill, expertise, competence and who are suitable to serve in our public service.
- d. **On qualifications:** It is not clear what justification was used by the President to propose some nominees into Cabinet. Our proposal is that each of the nominees should produce before you, at least, a certified degree certificate from a recognized university. Kenya has so many learned and qualified individuals. We cannot appoint people into our public service, especially at such level as CS, PS and Ambassadors with questionable education credentials.
- e. **Integrity & corruption:** Our reading of the *Auditor General Reports* worryingly indicates that over 20 government departments could not account for public funds; neither could they demonstrate value for money. As you vet some of the returnee CSs and PSs, as well as those nominated for Ambassadorial appointments, it would be prudent to consider the findings of the *Auditor General* in the Ministries/departments they held prior to their now nomination for yet another appointment. For instance, the *Auditor General Reports* for the years 2013/14 and 2014/15 show that various ministries incurred unsupported Expenditure of **KES 66,782,697,987** and **KES 7,321,277,260** respectively. Additionally, various ministries incurred expenditure amounting to **KES 14,435,690,489** whose value for money could not be established. We insist that accounting of public money is paramount, and any nominee whose previous ministry or department could not account for funds must be rejected with recommendation that such individuals be investigated and prosecuted; and money to be recovered.

3. The Gender Rule.

- a. We have observed that President Uhuru Kenyatta overlooked the obligation in our Constitution to ensure the gender rule (1/3 or 2/3) in all key government appointments is met. So far, only 6 women have been appointed to CS positions out of the available 22 slots as well as Ambassadorial positions. This is below the threshold minimum of 30% required in our Constitution. This vetting Committee would agree that continued relegation of women in public appointments fuels inequality and disunity with a majority of Kenyan population who are women and

youth. A progressive government would ensure that it has equal representation of capable women and men for a more harmonious and balanced leadership. Continual denial of the rights of women is no longer tolerable. For the sake of Wanjiku and Atieno, *Thirdway* proposes that there be inclusion of many more capable women into the Cabinet and parliament using all resources under the government's power and control.

4. The Youth Factor.

- a. The obvious and rather glaring omission of the youth, 35 years old and below is unfortunate and unacceptable. It must be remembered that our population is more than 70% youth. Young people are excelling in various fields such as IT, communication, Sports, trade and others placing Kenya on the map in many areas including scientific inventions. The Jubilee government must create space for more young and brilliant minds to manage high level government portfolios with introduction of electronic and modern technology to improve public participation.

5. Special Interest Groups (SIG).

- a. It is our observation that SIGs (persons living with disabilities, extreme minorities, etc.) have been left out of the list of nominees. The obvious omission of people living with disability is a key area of concern as this group of people deserve to head one or two cabinet positions. We know that disability is not inability and many people are actually victims, for example, of health and transportation failures. Therefore, it would benefit this country to appoint them into cabinet and other sectors where they can contribute lasting solutions. Their continued under-representation is a culture we can no longer be proud of, as a country.

6. Observance of Art. 130 of the Constitution.

- a. The Cabinet, being the National Executive of our Republic, is required to meet the provisions of our Constitution in **Article 130** that "*the composition of the national executive shall reflect the regional and ethnic diversity of the people of Kenya*".
- b. The diversity and inclusivity clause in our Constitution has not been overlooked. At first glance, and without necessarily going into detail, it is clear that the list is ethnically imbalanced and overly generous to members of one or two communities whilst completely omitting and ignoring others. With the current political temperatures and divisive politics that is polarizing communities in our country (principally because of exclusion from government), it only good for our Country to ensure ethnic balancing is achieved in these appointments. We do not expect the government to increase the number of positions to fulfil this requirement; however, an effort must be evident to ensure inclusivity and representativeness of all groups of Kenyans as far as possible.
- c. ***Thirdway formula on ethnic and regional balancing.*** We propose that the President nominates his first 22 nominees for CS positions from 22 different ethnic groups of Kenya; then his second 22 nominees for PS positions from another 22 different ethnic groups of Kenya. That way, the President would have fulfilled both the ethnic and regional diversity of the people of Kenya. His Cabinet would be the true face of Kenya. We believe this would help President Kenyatta build a better legacy and good precedent for future presidents.

7. **“Recycling” of certain names in public service.**
 - a. “Recycling” or “rewinding” of personalities makes for a retrogressive society devoid of new ideas, ways of approaching important issues and problem-solving. We must make space for new faces and personalities who should be carefully selected based on their professional experience and less on their political influence, which is a role best left to MPs to deliver. If someone is today not deemed to have done a better job at Cabinet level, why transfer them to an ambassadorial position?

8. **Incomplete Cabinet list.**
 - a. We observe that the Cabinet remains incomplete. Our view is that this opens up space for unnecessary speculation and negative competition, which following a five-month long wait is clearly unhealthy for the country. All positions should be announced simultaneously and in good time, so as to minimize opportunities for canvassing and irregular appointments due to the need to pay political debts.

9. **Creation of Chief Administrative Secretary ignored need for transparency & a public consultation process.**
 - a. **Funding and void CAS is to fill:** We have asked ourselves these questions: which constitutional bodies gave their approval and advised the president to create the CAS category and for what specific reason? How does government plan to fund this role? Which void does the post of CAS fill in the current public service?

 - b. **Non-compliance with Procedure & consultation under Article 132:** While we appreciate that it is the right of the President in *Article 132* to create a new position in the public service, we also believe that the right and constitutional procedure in creating this new position was overlooked. This makes the position of CAS unconstitutional. The creation of the CAS post ought to have been preceded by a recommendation from the Public Service Commission (PSC). It is only then that the President can create a position in the public service.

 - c. **Public participation:** In addition to the foregoing, it also means that the principle of public participation was overlooked. The Kenyan general public ought to have been given the chance to give views whether this post is necessary under the circumstances; or not.

 - d. **Increased wage bill.** Kenyans are currently unhappy with the huge bill in our public sector including in devolved counties. We believe that the position of CAS is already going to come with another wage bill at a time when we are concerned about cost cutting.

 - e. **Replication of & conflict over duties:** In fact, we believe that the CAS position would replicate the Assistant Minister position that was scrapped in previous regimes. In fact, this post is already introducing an additional bureaucracy through yet another middle level/tier of management. We also see this post as a recipe for conflict between the CS and CAS on the one hand, and CAS and PS on the other. It is worth noting that efficient companies and governments around the world are currently obliterating the “middleman/woman” role due to high costs and

unnecessary bureaucracy, which affects service delivery. Our position is that it is an unnecessary addition to an already bloated government. Kenyans cannot sustainably carry this additional expense with our already highly indebted country. We are an already overburdened citizenry. The CAS positions must, therefore, be rejected with no additional names presented in this category until it is properly justified and resources identified to sustain it. Retaining this post will actually prompt high taxes on an already heavily taxed Kenyan worker.

10. Need for a Lean Government.

- a. Our party holds the view that a lean government in all its levels, is economically desirable for Kenya including, but not limited, to our current over representation in Parliament. A large government is a huge wage bill to the taxpayer. This huge wage bill robs Kenyans of development money (e.g., to ensure adequate water, healthcare, food, security, roads, education, electricity, etc.). Kenyans have expressed support for this view and we will continue to push for consultations and conversations with the Jubilee administration, as well as with Parliament at all levels, on how best to reduce the burden of government on Kenyans. Rather, government must work to create opportunities and support efforts of citizens while conserving funds for essential needs and releasing funds for development and for service provision to the Kenyan people guaranteeing our future prosperity and growth.

Conclusion: Lastly, we thank the Vetting Committee for the opportunity to share our party's views on this important national exercise. We remain optimistic that Parliament will take these views into consideration. We also take this early chance to urge parliament to steer the country towards constructive political conversation. Parliament may want to consider our proposed National Conversation with a 14-point agenda.
