Resumé

DAVIS K. CHIRCHIR

P.O. Box 19200 - 00501, Nairobi, Kenya
dkchirchir@gmail.com

Davis Chirchir is a leader with demonstrated qualities in strategic leadership, management and information, communication and technology (ICT). His formative career was in the discipline of telecommunications and ICT where he harnessed the benefits of automation in management of various business operations. Mr. Chirchir gained broader leadership experience in managing challenges during liberalization of the telecommunication sub-sector of the Kenya economy at the advent of the now ubiquitous wireless networks. Thereafter, he gained a deeper understanding of the intricacies of business management whilst studying for an MBA in International Management.

He contributed to society as a member of the Interim Independent Electoral Commission (IIEC) that reformed the electoral processes which renewed the confidence of the Kenyan public after the 2007/2008 post-election violence that followed the presidential election which was marred by serious human rights violations. In a truly democratic voting system, the security of the ballot is one of the pillars for the effective exercise of citizenship. In order to guarantee this right, he oversaw the development and introduction of several ICT technologies in electoral management. Among them, the development and introduction of a voter identification system that processes the vote through biometrics. Through this system, Kenya now has, not only the most computerized voter identification system, but also the safest one, since there is no longer any doubt about the voter's identity. He spearheaded the introduction of modern ICT applications and reform initiatives in voter registration and results management that have significantly reformed electoral management in Kenya.

The other significant reform was the introduction of electronic transmission of results, which is perhaps one of the most popular technological integrations in electoral management in Kenya and which has now been adopted worldwide. Previously, the media announced unverified polling station election results long before the electoral body verified them, which caused anxiety among candidates and voters. In line with electoral commission mandate, Mr. Chirchir proactively provided leadership in ensuring that results were transmitted, collated and announced by the electoral commission before anybody else did, therefore ensuring only verified provisional results were released.

He was Cabinet Secretary for Energy and Petroleum between the year 2013 and 2015 where his role included aiding and advising the President on Energy and Petroleum matters to specifically advance resource sustainability to attain overall low-cost energy supplier leadership - from energy development, delivery and effective utilization, that would strategically position and differentiate Kenya as a low-cost destination for global firms seeking sustainable and cost competitive advantage. The major interventions during his tenor included:

1. Development and delivery of 280 MW of geothermal power to the national grid;
2. Development of 400 KV Mombasa Olkaria transmission infrastructure that reduced transmission losses that costed electricity consumers about US$17 million per year;
3. Improvement of the quality and reliability of electricity supply throughout the country;
4. Rural electrification and providing electricity to areas that were not supplied from the national grid;
5. Development and provision of links with neighboring countries in order to facilitate power exchange and develop electricity trade in the region;

6. Sustainable reduction of the cost of electricity to the consumer through government participation in geothermal risk mitigation and formative development. As a result, Kenya today is one of the top ten leading suppliers of green energy in geothermal development and utilization;
7. Restructuring KENGEN KShs.19.46 billion balance-sheet through debt-equity conversion of concessional government on-lent loans that facilitated equity raising through a Rights Issue. This enabled the electricity generator to concessionally fund planned capital projects of KShs 517 billion and subsequently discount US cents 3.8 per Kwhr to electricity users (an annual saving to the economy of Kshs 17.85 billion).

In early 2022, Mr. Chirchir was appointed Chief of Staff in the Office of the Deputy President. In this role, he coordinated policy analysis to support decision-making and managed the advisories on legal issues, legislative agendas, administrative proposals, and policy initiatives. He also facilitated the coordination of inter-governmental relations between the National Government and County Governments, as well as the Inter-Governmental Budget and Economic Council (IBEC). As Chief of Staff, Mr. Chirchir was appointed as a member of the Assumption of Office of the President Committee, pursuant to Article 141 of the Constitution and the Assumption of Office of the President Act (No. 21 of 2012). In this capacity, he played a significant role in ensuring the peaceful transfer of the Instruments of Power. He coordinated various time-sensitive responsibilities, including security, logistics, state events (communication and entertainment), hospitality, foreign delegations, and budgets, all while supporting the Office of the President-Elect.

In September 2022, Mr. Chirchir was nominated by the President to the position of Cabinet Secretary Energy and Petroleum and later confirmed by parliament. Upon this confirmation, in October 2022, he was sworn in as the Cabinet Secretary for Energy and Petroleum, a position he had previously held from 2013 to 2015. He served in this role from October 2022 to July 2024, overseeing the State Department for Energy and the State Department for Petroleum.

In this role as the Cabinet Secretary for Energy and Petroleum, Mr. Chirchir also provided strategic and policy direction for Semi-autonomous Government Agencies (SAGAs) in the Ministry that oversee and implement energy and petroleum functions including: Kenya Electricity Generating Company PLC (KenGen); The Kenya Power and Lighting Company PLC (KPLC); Rural Electrification and Renewable Energy Corporation (REREC); Kenya Electricity Transmission Company (KETRACO); Geothermal Development Company (GDC); Nuclear Power and Energy Agency (NuPEA); Independent Power Producers (IPPs); Energy and Petroleum Regulatory Authority (EPRA); Kenya Pipeline Company (KPC); National Oil Corporation of Kenya (NOCK); Kenya Petroleum Oil Refineries (KPRL).

OVERSIGHT OF THE STATE DEPARTMENT FOR ENERGY

Some of the key responsibilities included policy interventions that ensure universal access to affordable, reliable and modern clean energy which is key to the development of agriculture, business, communications, education, healthcare and transportation and advancing Kenya renewable energy footprint towards 100% by the year 2030. Development and administration of National Energy Policy, including Energy planning and energy security for the country; Last Mile Rural Electrification Program; Energy Regulation, Hydropower Development; Geothermal Exploration and Development and Promotion of Renewable energy.

Focusing on inclusive growth, creating jobs, bringing down the cost of living and ensuring universal access to affordable, reliable and modern clean energy to all, some of the key areas of focus and achievement in the policy interventions included realigning and fully unbundling energy services in energy generation, transmission and offtaker/market buyer and opening the power markets and facilitating transmission of power generated by new entrants to load centres. This entailed developing and publishing the various regulations in line with Energy Act 2019 that Widen options in the energy market.

8. **Energy (Electricity Market, Bulk Supply and Open Access) Regulations, 2024** seeks to end power/energy monopoly. The policy will facilitate private firms to enter the electricity distribution market, import power from neighboring countries, putting pressure on power producers to cut wholesale tariffs ultimately leading to cuts on the cost of power to consumers.

9. **Draft Energy Electric Power Undertaking Licensing Regulations, 2024** proposed license that will allow new entrants/firms
    - to import electricity for sale to consumers or those generating power locally to export to other countries in what will offer them a wider basket of buyers, a move that sets up Kenya Power for having to offer more competitive rates to power producers.
    - to build, operate and maintain systems meant to generate electricity,
    - to build, operate and maintain infrastructure to carry electricity at high voltage to load centres or connect with another transmission system including that of Kenya Power.
    - a retail supply to sell, bill and collect revenue.

10. **The Energy (Net-Metering) Regulations, 2024** to operationalize Section 162 of the Energy Act, 2019 (the Act). The Regulations provide for Net Energy Metering (NEM) arrangement that allows grid connected electricity consumers with on-site electricity generators (prosumers) to feed power into the national grid when they have excess and draw the power from the grid when their generation cannot meet their demand. A NEM arrangement enhances growth of renewable energy technologies (RETs) such as solar photovoltaic (PV), small hydropower, and biomass, that would otherwise have problems with storage.

11. **Draft Energy (Solar Water Heating) Regulations 2024.** The draft regulations provide a framework for promoting quality in the manufacture, design, installation, repair and maintenance of solar water heating systems to protect end users from sub standard products/systems.

12. **Draft Energy (Integrated National Energy Plan) Regulations, 2023**. Regulations to govern the management of the energy sector roles and functions as stipulated in the Energy Act (2019). The regulations apply to National Government and its entities, County Government and it entities, development partners, private sector entities, none governmental organizations and any other relevant stakeholder(s) that are involved in identification, implementation and financing of energy projects including provision of energy services.

13. Another major policy intervention that will be supported by the transmission unbundling is the promotion and allowing private firms under PPP framework to build transmission infrastructure.

Commissioner – Interim Independent Electoral Commission May 2009 – Nov 2011
As one of the eight Commissioners serving in the reform Interim Independent Electoral Commission (IIEC), Mr. Chirchir participated in strategy development, policy making, governance, advising on electoral reforms and legislation and oversight performance. He was Chair of the ICT committee, member of the Legal Committee and was also a member of the Finance Committee.

In a truly democratic voting system, the security of the balloting is one of the pillars for the effective exercise of citizenship. In order to guarantee this right, he oversaw the development and introduction of several ICT technologies. Among them, the development of biometric identification that processes the vote through the voter's biometric identification. Through this system, Kenya now has, not only the most computerized voter identification system, but also the safest one, since there is no longer any doubt about the voter's identity. He spearheaded the introduction of modern ICT applications and reform initiatives in voter registration and results management that have significantly reformed electoral management in Kenya.

The other significant reform was the introduction of electronic transmission of results, which is perhaps one of the most popular technological integrations in election management in Kenya today and the world at large. Previously in the 2007 General Elections, the media transmitted polling station election results long before the Electoral Commission verified them, which caused anxiety among candidates and voters. In line with IIEC mandate, Mr. Chirchir proactively provided leadership in finding ways and means of ensuring that results were transmitted, collated and announced by IIEC before anybody else did, therefore ensuring only verified provisional results were released.

In line with project road map, the IIEC technical team completed the design, development, and implementation of the application and carried out testing of the electoral results management system that allowed real time simultaneous transmission of results from the polling centers to the constituency, national tallying centers and the commission home page www.iiec.or.ke.

In addition to his ICT portfolio, Mr. Chirchir managed and coordinated deregulation and liberalization of telecommunications and postal infrastructure services in Kenya where positive results from sector reforms became evident in 1997 when the Postal and Telecommunications Policy Statement was issued and published. What followed was the splitting of the corporation into three separate entities namely Telkom Kenya, Postal Corporation of Kenya and the regulatory body the Communications Commission of Kenya. This responsibility was included in the Change Management and Strategic Planning portfolio that Mr. Chirchir managed in addition to the development, implementation and maintenance of ICT programs. The telecommunication & postal sector was, before then, managed under a monopoly (the now repealed cap 411 of the Laws of Kenya). This exercise involved developing the enabling legislative framework and unbundling of the corporation activities into the three legal entities namely Telkom Kenya, Postal Corporation of Kenya and the regulatory body the Communications Commission of Kenya while addressing the staff pension liability concern of over Kenya Shillings 14 billion in line with the Retirement Benefit Authority Act.

Family: Married with five children. He holds a lot of value in the family unit and continues to encourage and inspire his people to build their lives around their loved ones and maintain unity and togetherness.

Religion: He is a devoted Muslim and a large percentage of his constituents subscribe to the same faith. He has ensured that there are no divisions among his people on religious lines and therefore every person exercises freedom of worship in Dujis.

Education: North Eastern Province has in the past recorded very high illiteracy levels as compared to the rest of the country. This MP has made great strides towards ensuring that every child in Dujis goes to school and accesses opportunities to advance their education to the highest level possible.

Human Rights: He has been a front runner in protecting the rights of his people both in parliament and outside, which has made him one of the most popular MPs after only one term in the position.

My Vision: To uplift the socio-economic position of the people of Garissa and the larger North Eastern region and empower them to compete for equal opportunities with the rest of Kenya.

My Mission

To continually harness, manage and conserve the natural resources accessible to the people and channeling them to key sectors for sustainable socio-economic development.

Sept. 2022- Oct. 2023 - Cabinet Secretary for EAC, ASALs & Regional Development

Select Achievements

1. Championed elimination of Non-Tariff Barriers (NTBs) to Kenyan products in the EAC

A total of ten (10) Non-Tariff Barriers (NTBs) have been resolved at the EAC level, five (5) of which affected access of Kenya's products into the regional market. For example, NTBs were removed on cement, fruit juices, lubricating oils, Sinotruck Howo and Mercedes Benz Actros produced/assembled in Kenya and exported to the region.

2. **Strengthened Government to Government partnership and collaboration with EAC Partner States.**

The 5th Administration enjoys warmer trade ties with the EAC member countries. This has been enhanced through person-to-person engagements at the Ministerial level. This among others has led to proactive and timely resolution of non-tariff barriers to trade.

For instance, in June 2023, Tanzanian Authorities issued an instant notice banning exportation of maize, flour and rice. The ban impacted negatively on Kenyan traders who bought maize that were being transported by more than 200 trucks. The trucks were held up on the Tanzanian side of the border. The CS intervened through her counterpart to clear the consignments. The consignments were cleared and allowed to leave the Tanzanian territory.

3. **Revitalized the EAC cooperation under the Northern Corridor Integrated Projects (NCIP).**

The Northern Corridor Integration Projects (NCIP) is an arrangement that was launched on 25th June 2013 in Entebbe by the Heads of State of Kenya, Uganda and Rwanda with the main focus of addressing the long time it was taking to transport cargo to and from Mombasa. The NCIP aims to enhance regional interconnectivity; reduce cost of doing business and advance regional integration.

NCIP activities had stalled since 2018 due to strained geo-political relations among some of the members. The revival of the cooperation will support the integrated development of the Northern Corridor and make the northern corridor the transit corridor of choice. As a result of the revitalisation the key state parties of Kenya, Uganda and Rwanda have agreed to resume engagement in NCIP activities.

The following two regional meetings and two bilateral meeting between Kenya and Uganda have since been held.

a) The East African Tourism Visa meeting held in Entebbe Uganda to assess the possibility of coming up with a regional Single Tourist Visa.
b) The Standard Gauge Railway meeting to revive the extension of SGR line from Naivasha to Malaba to Uganda and Rwanda.
c) Under the Kenya- Uganda bilateral two meetings have been held where (a) the Joint Ministerial Committee has identified and is addressing the challenges facing the movement of cargo from the Standard Gauge Railway to the Metre Gauge Railway in Naivasha through a time bound mechanism and (b) Kenya and Uganda have agreed to jointly mobilize resources for the Naivasha- Malaba-Kampala phase.

4. **Concluded a month long national consultations on the EAC Political Confederation Constitution to support operationalisation of the fourth pillar of the EAC integration.**

In the journey towards the establishment of the EAC Political Federation, the 18th Ordinary Summit of EAC Heads of State adopted a Political Confederation as a Transition Model for the East African Political Federation and further directed the Council of Ministers to constitute a team of Constitutional Experts to draft the Constitution for the EAC Political Confederation and report to the 19th Summit.

The Summit at its 21st Ordinary Meeting received a progress report on the constitutional development of the East African Political Confederation and directed the Council to expedite the constitutional development process.

Pursuant to these directives the Constitutional Experts embarked on the process of Stakeholders' Consultations within the Partner States in order to solicit participation of EAC citizens and Government Authorities in drafting the Constitution.

In Kenya, the consultations were successfully undertaken from 8th-26th May 2023 across the 47 Counties. At the County level, the team of the EAC Constitutional Experts interacted with the representatives of County Administration, Business Community, Civil Society, youth, women, and people with disabilities, political leaders, religious leaders and academia amongst others.

At the national level the team received ideas and recommendations from the Parliament, the Judiciary, Constitutional bodies, political parties and various government ministries, departments and agencies..

The team also met the Head of State, H.E Dr William S. Ruto, CGH who requested the team of experts to fast-track the process and have the first draft of the constitution by end of June 2024. The President pledged a contribution of $1 million from the Government to help speed up the process. The stakeholders recommended some of the following areas for inclusion in the confederation:

a) Elimination of borders to allow complete free movement, presidency and trade.
b) Common EAC Identity to take priority in the Confederation.
c) Confederation to create structures to deal with cross border security and prevent crimes.
d) Common foreign policy- e.g. An EAC Ambassador for all foreign missions like the EU Ambassador.
e) Common currency to facilitate trade and deepen integration.
f) Clear levels of decision making for the Confederation and National Governments.

5. **Increased awareness on the benefits and opportunities in the EAC**
   a) Had engagements with the honourable members of Parliament to share perspectives on EAC policies, projects and programmes.
   b) Engaged the public through print and electronic media.

6. Oversaw emergency response efforts during Kenya's worst drought in 40 years by putting in place interventions in the provision of water and food mainly for pastoralist communities across the country.

- Provided strategic leadership to the County as the Chief Executive Officer and head of the county government and executed functions in accordance with the Constitution and appropriate legislation.

- Provided operational oversight of resource management that entailed allocating and efficiently using human, financial and physical resources.

- Performance management entailed setting vision performance standards, monitoring progress and evaluating policy implementation.

Some of the key components included:

1. Leadership and management

I set long-term goals and guided teams and multiple stakeholders at the County of Mombasa towards achieving them over the past ten years. This involved the ability to make informed, timely decisions that affect the overall direction and success of the County.

2. Good understanding of governance and bureaucracy

Having worked closely with the Mombasa County Assembly, National government and state departments and agencies, I have an in-depth knowledge of government operations, bureaucracy's complexities, and how to navigate them.

3. Policy formulation and implementation

I have formulated and initiated policies at both county and national levels. This is critical in a ministerial role that will involve formulating national guidelines on the blue economy and mining. Understanding the complex and practical aspects of policymaking at the county level gives me a strong foundation for handling national policies.

4. Crisis management ability

An example of effective crisis management was the public health crises like the COVID-19 pandemic, where Mombasa received an award for the best-managed healthcare in the country. We have also coordinated prompt responses during natural disasters and many others, including drownings at sea, which honed his crisis management skills, making them well-prepared to handle national emergencies and challenges that may arise in a ministerial position.

5. Public accountability and transparency, public participation and policy formulation

I was accountable to the public and maintained a high level of transparency and ethical conduct; this accountability will be crucial in the ministerial role where maintaining public trust, responsibility, and integrity is paramount.

6. Intergovernmental relations

Working with the National Government and serving on the Council of Governors helped me understand the intricacies of fostering good intergovernmental relations. It is a valuable experience for a Cabinet Secretary as it will involve coordinating with various levels of government and international entities.

7. Understanding of the budget management process

As a Governor overseeing the County budget, balancing revenues and expenditures while addressing the needs of the people of Mombasa helped me gain good experience in financial management, a crucial role for the Cabinet Secretary, which will involve overseeing significant budgets and ensuring fiscal responsibility.

8. Exceptional communication skills

As an effective communicator, I managed to influence actions by articulating policies and decisions to the public and the media. It is a skill which will be important in the Cabinet and necessary to communicate government policies clearly and persuasively to the Kenyan public.

9. Good political acumen

As Governor, I understood the political landscape, built coalitions, and worked with diverse stakeholders. This ability will be critical in the Cabinet, where he must deploy all the skills needed to enhance cooperation, coordination and collaboration in negotiating and persuading to advance policy agendas.

E. NOTABLE ACHIEVEMENTS

1. Attorney General

In October, 2022, I was appointed as the Attorney General of the Republic of Kenya. During my tenure as the principal adviser to the Government, I facilitated the implementation of various flagship projects such as the Green Ammonia/ Fertilizer Project, Sosian Menengai Geothermal Power Plant Project, the roll out of hustler fund, the Affordable Housing projects among others in support of the Government development agenda. In my advisory role I further issued and facilitated the issuance of several government loans such as Syndicated Loan and the Sovereign Bonds. Additionally, I oversaw the revival of the WAQF Commission.

In my role as the representative of the National Government in court, I led the Kenyan delegation in the defending the Government interest against a claim of USD 2 Billion in the arbitral proceedings at the London Court of Arbitration between the KU Railway Holdings Limited and the Rift Valley Railways Investment Limited; successfully reclaimed the land belonging to the Office of Attorney General situated at Valley Road. Further, under my leadership, for the period between September 2022 to September 2023, 1,498 cases filed against the Government were concluded.

I initiated various projects towards boosting staff morale such as-

- De linking of the Office of Attorney General from the Public Service to its autonomy;
- Spearheaded the decentralization of the Office of Attorney General from 13 Counties to 44 Counties;
- Spearheaded the digitalization and digitization in the Office of Attorney General;
- Refurbishing the Company Registry's Offices to Offices hosting the Attorney General and the Solicitor General. This has created more room to host staff at the Attorney General's

Chambers.

Further, during my tenure, I oversaw the launching of the 24th Annual Supplement of the Laws of Kenya after 29 years. I have also overseen development of various policies including the E-mobility Policy; the Community Participation Policy among others.

2. African Parliamentarians Network Against Corruption (APNAC) & GOPAC

In 2018, I was elected as the President of the Board of the African Parliamentarians Network Against Corruption (APNAC). I steered the organization in its advocacy for strong parliamentary oversight for the detection, exposure and prevention of corruption across the continent which was a key priority during his tenure. Through my leadership, the APNAC was able to exercise its objectives of fighting corruption and promoting good governance by, *inter alia* –

- *Capacity-building of parliamentarians to exercise oversight roles, especially on financial matters,*
- *information sharing on best anti-corruption strategies and practices, and*
- *conducting joint anti-corruption programmes with other civil society organizations.*

During the same period, I was the APNAC representative in the Global Organization of Parliamentarians Against Corruption (GOPAC) and served as the Vice Chairperson of GOPAC.

3. The Commonwealth Parliamentary Association (CPA),

In August 2018, I was unanimously elected as the Chairperson of the Executive Committee of the Commonwealth Parliamentary Association (Africa Region) during the regional conference held in Gaborone, Botswana. The CPA Africa Executive Committee is vested with the control and management of the activities and business of the Association. It ensures that the objectives of the Association are met effectively and efficiently. During my tenure, the Association effectively carried out its activities in furtherance of its mandate. Notably, it was during this period that the Africa Region hosted the 2021 Inaugural **Commonwealth Parliamentarians with Disabilities Conference** which sought to mainstream disability matters into the legislative business of parliaments.

Recognizing my great knowledge on constitutional and legislative affairs, I was nominated by the region as the Africa representative on the CPA International **Working Group on the Legal Status of the CPA**. The Working Group was a result of the push by the Africa Region for change of the legal status of the CPA from a charitable society to an international organisation. The report of the Working Group has greatly informed the ongoing discussions within the CPA fraternity.

I was also a member of the Standing Committee of the Conference of Speakers and Presiding Officers of the Commonwealth (CSPOC) representing East Africa.

4. Rulings

During my tenure, I issued key rulings and guidelines to the House that have shaped the operations of not just the legislature but the other arms of government. The rulings have ensured the smooth running of the National Assembly and full implementation of the constitutional mandate of the House. These rulings and guidelines included the following matters –

a) *The place if Independent Members of Parliament and Small Parties in Committees of the*

House;

b) *The Manner of considering Statutory Instruments;*
c) *On the relations between the Executive and the Legislature and the manner of considering censure motions against State Officers;*
d) *Financial Procedure including the place of recommendations of Departmental Committees in the Reports of Budget & Appropriations Committee on the National Budget Estimates;*
e) *On the consideration of Presidential Memoranda on Bills including joint-consideration with the Senate;*
f) *Manner of considering reports submitted to Parliament by Constitutional Commissions and Independent Offices.*

These rulings have continued to guide the House.

5. Paperless Parliament

Acknowledging the need to reduce the usage of paper which is not only budget-constraining but also environmentally unsustainable, I introduced paperless operations in the National Assembly. Through the eParl system, Members are now able to access, at the touch of a button, all legislative tools including Bills, Committee Reports, Order Papers, Legislative Trackers (Bills, Motions, Questions, etc). This has greatly reduced the use of printing paper in the National Assembly. Additionally, Members are now able to access all legislative tools from wherever they are without having to pick printed copies from the Assembly.

6. Infrastructure

During my tenure as Chairperson of the Parliamentary Service Commission, I oversaw the construction of additional facilities for use by Members and staff. The New Wing was completed in 2017 and availed offices for key House leaderships, Members with disabilities as well as staff from both the Senate and the National Assembly.

Additionally, a new Parliament building is on its final stage of completion. The building will provide state of the art committee meeting rooms as well as offices for both Members and staff. This is especially important noting the ever increasing manpower needed to support the increased composition of Parliament.

7. Increased Committee efficiency

I have been a key proponent for efficiency in the operations of Parliament, and especially in the oversight role as vested in the Constitution. Indeed, noting the importance of the committee system in oversight of the Executive, I oversaw the splitting of House Committees for greater specialization and efficiency. Some of the committees introduced include the splitting of the Public Investments Committee to three based on the sector positioning. This has led to the creation of Public Investments Committee on –

a) *Governance & Education;*
b) *Commercial Affairs & Energy; and*
c) *Social Services, Administration & Agriculture.*

Additionally, the following specialized committees were also created –

a) *Decentralized Funds Accounts Committee to specifically deal with NGCDF & NGAAF*

Funds;

b) *Public Debt & Privatization Committee to deal with oversight of public debt and guarantees;*
c) *Public Petitions Committee: In recognition of the right to petition under Article 37 & 119 of the Constitution and the backlog experience in Departmental committees with respect to public petitions;*
d) *Diaspora & Migrant Workers Committee to consider matters relating to policies and programmes for the protection of the rights and welfare of Kenyans in diaspora. This was an erstwhile overlooked area;*

Through the Commission, I ensured the appropriate resourcing of Committees including specialized manpower comprising of Clerk Assistants supported by dedicated Legal Counsels, Research Officers, Media Relations Officers as well as Hansard Reporters.

F. COMMUNITY RESPONSIBILITIES HELD

My greatest satisfaction in live is drawn from the positive impact I have created in my community of Embu and Kenya in general in terms directly helping the needy to find job, education opportunities and pushing for projects through donors, non-governmental organizations and government agencies. This is the strength behind my success in daily endeavors.

G. HOBBIES

Reading with passion for legal materials, swimming, listening to old school music, community service and watching sports.
