II. Key Bureau Information and Management

(a) Background information

Vision

To be a centre of excellence in production and management of quality statistics.

Mission

To develop, provide and promote quality statistical information for evidence-based decision-making.

Strategic Focus, Objectives and Strategies

To achieve its desired overall objective, KNBS has identified six key strategic areas to focus on, over the next five years, in its current strategic plan. These identified strategic areas are geared towards propelling the Bureau in its quest to be a centre of excellence in production and management of quality statistics.

Arising from the situational analysis, as well as the core functions, the Bureau will focus on the following areas:

- i. Address statistics data gaps.
- ii. Data quality.
- iii. Communication, dissemination and access to statistical information.
- iv. Mainstream statistics in Ministries, Departments and Agencies (MDAs) and, County Governments.
- v. Strengthen human and physical capital.
- vi. Undertake Institutional reforms and good governance.

Overview

KNBS is a Semi-Autonomous Government Agency established by an Act of Parliament – the Statistics Act, 2006.

The Nesstar Publisher is a data and metadata authoring tool that is used to prepare and publish survey data, tabular (cube) data and other materials, it allows one to document surveys, censuses and studies. The Nesstar Publisher contains many new advanced features which provide more flexibility to the user and streamline the survey and study documentation process. Alternatively it can also be used as a stand-alone data processing tool. Metadata, consistent with the DDI (Data Document Initiative), can also be produced without the need for familiarity with XML.

V. Chairman's Statement

It is with great pleasure that I present to you the Annual Report and Financial Statements for the Bureau for the year ended 30th June 2014. As always, this is an opportunity for you stakeholders to review the activities and performance of the Bureau. I wish to appreciate the previous Board whose term expired in the first six weeks of the financial year under reference. However, the Chairman of the previous Board remained in office until December 2013. Thus it is incumbent upon me, as the current Chairman of the KNBS Board, having assumed this responsibility on January 17th, 2014, to present this report.

During the period under review, the macroeconomic environment was stable, after peaceful elections were held and Kenyans celebrated 50 years of independence. KNBS has always endeavoured to provide users and policy-makers with timely and reliable statistics to facilitate decision-making. The Bureau will continue to place greater value on further strengthening its statistical management systems.

KNBS has established various forums for key producers, users, development partners and other stakeholders mandated to address statistical and other technical issues. Technical working group committees have also been established and meet on a quarterly basis. All these are aimed at harmonizing and improving the quality of statistics.

In line with the Constitution of Kenya, 2010, the Bureau has strengthened the National and County Statistics Offices in order to improve its service delivery. One of the challenges that the Bureau faces currently is that the headquarters staff are accommodated in three different locations which impacts negatively on service delivery. As Chairman of the KNBS Board, I wish to appeal for additional funding to not only to support the planned statistical activities but also to host the staff in a single office premises location.

I wish to recognize with appreciation, the continued technical and financial support we have received from our development partners over the years. I urge them to continue partnering with us in supporting statistical activities for the benefit of our nation.

Finally, I wish to record my thanks to the outgoing Board for handing on to us, their successors, a most challenging record of achievements for us to emulate and exceed if we can, while at the same time, congratulating the staff on the fine quality of their work despite all inconveniences.

Prof. Terry Ryan

VI. Report of the Chief Executive Officer

According to the Statistics Act 2006, the Kenya National Bureau of Statistics is the principal agency of the national government for the collection, compilation, analysis and dissemination of official statistics for planning, policy making and monitoring and evaluation. It is also mandated to ensure best standards and methods in the production of statistical across the National Statistical System (NSS).

This annual financial report, therefore, highlights achievements made by KNBS, during the FY 2013/14.

Preparation of the 2014 Annual Economic Survey:

The Report highlighted the sector specific performance of the economy in the year 2013 as well as key socio-economic indicators for the period 2009-2013. The 2014 Economic Survey Report was prepared by April 2014. The information availed is therefore an important input to the budget making process and is widely used by government, development partners, academicians, researchers, the media and non-governmental organizations amongst others. The report was also instrumental in the award of the Euro bond to the government.

Provision of Quarterly National Accounts (QNA):

Four reports providing a snapshot of economic developments for each quarter of the 2013/14 financial year were produced. The reports were availed on time for use by planners and policy makers as well as within the NSS.

Preparation of the 2013 Annual Statistical Abstract:

The Report presents a comprehensive collation of statistics over a ten year period for both macroeconomic and socio-economic indicators. The 2013 Abstract was prepared and availed during the period under review. It is a useful tool for researchers and academicians..

Provision of monthly Consumer Price Indices:

This is a key macroeconomic indicator for monitoring price movements and their effect on policy decisions. In the FY 2013/14, the Bureau produced on a timely basis twelve CPI reports using the geometric mean approach.

Harmonized CPI (HCPI):

The Bureau collected, analyzed and produced data on a monthly basis for use internally as well as by COMESA.

Monthly Leading Economic Indicators (LEI):

Twelve LEI reports covering a range of key indicators in the economy were prepared and released using the KNBS website.

Survey of Industrial Production (SIP):

The survey collected data on manufacturing, construction, water and sewerage as well as mining and quarrying activities in the country. The data are important in that the survey monitors the performance of key industrial activities and challenges faced in the manufacturing business.

Producer Price Indices (PPI):

The indices were published in all the four quarters and disseminated through the KNBS website.

Stakeholder meetings:

The Bureau continued to coordinate activities of the quarterly committees on Agriculture, Nutrition and

Environment Statistics (ANES) and Trade Facilitation Committee to improve the quality of statistics and that endeavours to harmonise and improve the quality of statistics produced by respective government institutions under ANES, as part of the National Statistical System (NSS).

In addition to the mentioned activities, the Bureau also embarked on the process of preparing the National Strategy for the Development of Statistics (NSDS).

The strategy is an important tool in the planning of systems that are engaged in statistics. This process adopts a holistic approach for integrating statistics within the national policy processes and also provides a platform for mobilizing and prioritising the use of resources to strengthen the National Statistical System (NSS).

To facilitate successful inception and implementation of the strategy in Kenya, KNBS sponsored seven officers in January 2014 to benchmark on NSDS from Uganda that had been identified in the region to have the best design of an NSDS and six officers to Rwanda that had the best implementation of the strategy.

Preliminary activities that include identification of sectors, development of a road map and setting up of the NSDS sector statistics assessment tools were accomplished. The Bureau also successfully held two internal workshops and three workshops with external stakeholders.

I laud the efforts of the Board, entire staff and other stakeholders for the support provided during the period that ensured the Bureau implemented majority of the planned activities. Sincere appreciation to our development partners who have been a milestone in the development of statistics not only at the Bureau but in the country as a whole. Particular gratitude goes to AfDB, CIDA, SIDA, UNICEF, UNDP, UNFPA and World Bank for both financial and technical support that facilitated KNBS conduct key surveys to bridge some of the existing data gaps.

The Bureau greatly recognises and appreciates the invaluable support and feedback by our data producers, suppliers and users that enabled the institution achieve its mandate.

OFFICE OF THE AUDITOR-GENERAL

REPORT OF THE AUDITOR-GENERAL ON KENYA NATIONAL BUREAU OF STATISTICS FOR THE YEAR ENDED 30 JUNE 2014

REPORT ON THE FINANCIAL STATEMENTS

I have audited the accompanying financial statements of Kenya National Bureau of Statistics (KNBS) set out on pages 21 to 44, which comprise the statement of financial position as at 30 June 2014, and the statement of financial performance, statement of changes in net assets and statement of cash flows for the year then ended, the statement of comparison of budget and actual amounts and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 14 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (IPSAS) Accrual Basis and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 14 of the Public Audit Act, 2003.

Auditor-General's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit and report in accordance with provisions of Section 15(2) of the Public Audit Act, 2003. The audit was conducted in accordance with International Standards on Auditing (ISA). Those standards require compliance with ethical requirements and that the audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the

Promoting Accountability in the Public Sector

auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bureau's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence obtained is sufficient and appropriate to provide a reasonable basis for my qualified audit opinion

Basis for Qualified Opinion

1.0 Fixed Assets Register

The KNBS assets were valued by Metrocosmo Limited in November 2010 though a fixed assets register has not been developed to date. The Bureau prepared a list of fixed assets which is updated with assets bought in the subsequent years. In the absence of a fixed assets register, it was not possible to confirm the ownership, existence, security and eventual use of the assets. No explanation has been provided for failure to develop the fixed assets register.

2.0 Cash and Bank Balances

The statement of financial position reflects cash and cash equivalents balance amounting to Kshs.1,480,571,288.00 as at 30 June 2014. However, the balance does not include cash and bank balances held in 46 Accounts in Kenya Commercial Bank (KCB) in each of the 47 counties except Nairobi.

Further, the bank reconciliation statements for the month of June 2014, board of survey report and cash book extracts as at 30 June 2014 for the 46 counties' bank accounts were not provided for audit review.

In the circumstances, it has not been possible to confirm the accuracy of the cash and cash equivalents balance of Kshs.1,480,571,288.00 as at 30 June 2014.

3.0 Property, Plant and Equipment

The property, plant and equipment balance of Kshs.117,707,404.00 as at 30 June 2014 includes a parcel of land measuring 0.16 ha with a building valued at Kshs 8,494,071.00 situated in Embu Town. As previously reported, the Bureau does not appear to hold any ownership documents for the property. In the circumstances therefore it was not possible to confirm that the property is safe and secure for the benefit of the Bureau.

4.0 Receivables

The receivables balance of Kshs.58,192,102.00 as at 30 June 2014 includes Kshs.5,282,212.00 relating to 2009 census exercise imprests which have remained outstanding from prior years. A review of the position revealed that out of the

outstanding imprests of Kshs.5,552,959.00 as at 30 June 2013, imprests of only Kshs.270,747.00 have since been accounted for through surrenders and recoveries. No explanation has been provided for failure to recover the balance of outstanding imprests of Kshs.5,282,212.00 contrary to existing regulations on surrender of imprests.

In the circumstances, it has not been possible to confirm the accuracy of the receivables balance of Kshs.58,192,102.00 as at 30 June 2014.

Qualified Opinion

In my opinion, except for the effects of the matters described in the Basis for Qualified opinion paragraph, the financial statements present fairly, in all material respects, the financial position of the Bureau as at 30 June 2014, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (IPSAS) Accrual Basis and comply with the Statistics Act, 2006 of the laws of Kenya.

Edward R. O. Ouko, CBS
AUDITOR-GENERAL

VII. Corporate Governance Statement

Objective

Corporate governance defines the process and structure used to direct and manage business affairs of the company with the aim of enhancing prosperity and corporate accountability.

In fulfilment of the requirements of the Statistical Act 2006, the previous KNBS Board of Directors expired on 18th August, 2013. However, the Board Chairman remained in office until 16th January, 2014, when a new Chairman took office. The other Board members were appointed in July 2014. Hence, the Board did not hold meetings in the year under review, apart from three special meetings.

The Board acknowledges that it is responsible for ensuring the transparency, accountability and integrity of the financial systems and internal system in the organization and hereby confirms that sufficient safeguards have been put in place and are reviewed on a regular basis.

The Board's principal responsibilities include:

- Approving the Bureau's strategy and ensuring that an effective management team and the necessary financial and human resources are in place for the Bureau to meet its objectives.
- Approving the Bureau's Budget.
- Approving the Bureau's Annual Report and reviewing its periodic financial reports.
- Evaluation of the Board's performance over the preceding year.
- Reviewing the Bureau's risk management and internal controls systems and governance framework and approving bureau policies.

Community Donations

The Bureau selected eighteen members of staff who visited the House of Peace and Springs of Hope children's homes on 15th November, 2013 in Machakos County. These are homes for children affected and/or infected with HIV and Aids. The main purpose for visiting the two homes was to commemorate and celebrate the then upcoming World Aids Day and the annual African Statistics Day.

The Bureau donated toys, foodstuffs and HIV/Aids supplements as a way of taking up the role of corporate social responsibility, showing kindness and mingling with the less fortunate in the society. The function also served to create awareness on the importance of statistics and the Bureau's mandate in national development.

Environmental Conservation

As part of our environmental conservation initiative, the Bureau team planted trees along Mombasa Road between Ole Sereni Hotel and Nyayo Stadium on 25th April, 2014. This was in collaboration with the Department of Environment of the County of Nairobi.

A total of over 1000 assorted seedlings were planted and this will go a long way in contributing to the improvement of the city's aesthetic quality and improve the environment generally.

IX. Report of the Directors

The Directors submit their report together with the financial statements for the year ended June 30, 2014 which show the state of the Bureau's affairs.

Principal activities

The Bureau is the principal agency of the Government for collecting, analysing and disseminating statistical data in Kenya and is the custodian of official statistical information.

Results

The results of the entity for the year ended June 30, 2014 are set out on page 25

Directors

The members of the Board of Directors who served during the year are shown on page 7. Their term expired on 17th August 2013.

Auditors

The Auditor General is responsible for the statutory audit of the Bureau in accordance with the Section 32 of the Public Finance Management (PFM) Act, 2012, which empowers the Auditor-General to nominate other auditors to carry out the audit on his behalf.

X. Statement of Directors' Responsibility

Section 81 of the Public Finance Management Act, 2012 and the Statistics Act, 2006, require the Directors to prepare financial statements in respect of the Bureau, which give its true and fair view of the state of affairs at the end of the financial year and its operating results for that year. The Directors are also required to ensure that the Bureau keeps proper accounting records which disclose with reasonable accuracy its financial position. The Directors are also responsible for safeguarding of the assets.

The Directors are responsible for the preparation and presentation of the Bureau's financial statements, which give a true and fair view of its state of affairs as at the end of the financial year ended on June 30, 2014.

This responsibility includes:

- (i) maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period;
- (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the entity;
- (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud;
- (iv) safeguarding the assets of the Bureau;
- (v) selecting and applying appropriate accounting policies; and
- (vi) making accounting estimates that are reasonable in the circumstances.

The Directors accept responsibility for the Bureau's financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act and the Statistics Act. The Directors are of the opinion that the Bureau's financial statements give a true and fair view of the state of its transactions during the financial year ended June 30, 2014, and of its financial position as at that date. The Directors further confirm the completeness of the accounting records maintained by the Bureau, which have been relied upon in the preparation of these financial statements as well as the adequacy of the systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Bureau will not remain a going concern for at least the next twelve months from the date of this statement.

Approval of the financial statements

The Bureau's financial statements were approved by the Board on 24th September, 2014 and signed on its behalf by:

XVI. Notes to the Financial Statements

For the Year Ended 30th June 2014

1. A. STATEMENT OF COMPLIANCE AND BASIS OF ACCOUNTING

The principal accounting policies adopted in the preparation of these financial statements are as stated below:

The Bureau's financial statements have been prepared in accordance with and comply with International Public Sector Accounting Standards (IPSAS). The financial statements are presented in Kenya shillings, which is the functional and reporting currency of the entity and all values are rounded to the nearest Shilling (Kshs.). The accounting policies have been consistently applied to all the years presented.

FIRST TIME ADOPTION OF IPSAS.

The Bureau has adopted the IPSAS for the first time in 2014.

The financial statements have been prepared on the basis of historical cost, unless stated otherwise. The cash flow statement is prepared using the indirect method. The financial statements are prepared on accrual basis.

B. SIGNIFICANT ACCOUNTING POLICIES

I. REVENUE RECOGNITION

i. Revenue from non-exchange transactions

- **Transfers from other government entities**

Revenues from non-exchange transactions with government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the entity and can be measured reliably.

- **Donor funds**

Grants received for specific purposes are treated as unutilised grants and credited to the statement of financial performance when the activities for which they were provided for have been undertaken. Any unutilised funds are carried forward as liabilities.

ii. Revenue from exchange transactions

Sale of goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods and when the amount of revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to the entity.

Interest income

Interest income is accrued using the straight line method, by estimating future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies to the principal outstanding to determine interest income for each period.

II. PROPERTY, PLANT AND EQUIPMENT

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items.

Under the Bureau's depreciation policy all items of Property, Plant and Equipment are recorded at cost less accumulated depreciation. Subsequent costs are also included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bureau and the cost of the item can be measured reliably.

Depreciation is calculated to write off the cost or valuation of each asset to its residual value where applicable, over the expected useful life of the asset in equal instalments using the straight line method. No depreciation is made in the year of purchase but a full year's depreciation is charged in the year of disposal. No depreciation is provided on freehold land.

Repairs and maintenance costs are charged to the income and expenditure statement during the period in which they are incurred.

The assets are categorized and depreciated on a straight line basis as follows:

Item	Rate
• Computer System	33.3%
• Furniture & Fittings, Equipment & Library Books	12.5%
• Motor Vehicles	20.0%
• Buildings	2.5%
• Plant and machinery	12.5%

All Assets surrendered to the Bureau by the Government through the Ministry of State for Planning, National Development and Vision 2030 were valued during the year 2009/2010 by M/s Metrocosmo Ltd, a registered firm of valuers and their new values incorporated in the statements during the same period.

Gains or losses arising from derecognition of an item of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the surplus or deficit when the asset is derecognized.

III. INTANGIBLE ASSETS

Intangible assets consist of various computer software purchased for use in the Bureau. The Bureau recognizes Intangible Assets acquired separately at cost less accumulated amortization.

Amortization is charged on a straight-line basis over their useful lives as estimated by management from time to time. The values indicated in these statements have been amended to include values of the Intangible assets transferred from the Government after their revaluation.

The rate of amortization has been set at 33.3% pa.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the surplus or deficit when the asset is derecognized.

IV. EMPLOYEE BENEFITS

i. Pension Scheme

The KNBS Retirement Benefits Scheme became operational from November 2011. The members of the scheme, who stood at 509 at the end of the period, contribute 10% of their basic pay, while the employer contributes 20%, to the scheme.

The Bureau also contributes to the National Social Security Fund (NSSF). This is a defined contribution scheme registered under the National Social Security Act. The Bureau's obligation under the scheme is limited to specific monthly contributions legislated from time to time and are currently fixed at Sh.200 per employee, per month.

The Bureau's contributions to the retirements benefit scheme and to the NSSF in respect of current service have been charged to the income and expenditure account in the year.

ii. Staff Gratuity

The Bureau has six Management Staff, employed on a 5-year contract basis, and are eligible to gratuity upon expiry of their respective contracts. The Bureau therefore operates a separate Gratuity Account for them, where amounts equivalent to 31% of the employee's monthly basic salary are remitted. Movements in this account are clearly tabulated and accounted for in the statements.

iii. Staff Annual Leave Accrual

Employee entitlements to annual leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by the employee up to the balance sheet date.

V. CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash on hand and cash at bank, deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above.

VI. INVENTORIES

All consumable stocks held for use in operations are expensed on purchase.

VII. PROVISIONS

Provisions are recognized when the Bureau has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Contingent liabilities

The Entity does not recognize a contingent liability, but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

VIII. LEASES – OPERATING

Operating leases are leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item to the Bureau. Leased premises are contracted for the periods of between one and five years, with renewal options available in certain instances.

Operating lease payments are the rental expenses, and are recognized as an operating expense in the statement of financial performance.

IX. FINANCIAL INSTRUMENTS

Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, or receivables, as appropriate. The Bureau determines the classification of its financial assets at initial recognition.

X. NATURE AND PURPOSE OF RESERVES

Revaluation Reserve

This represents the change in the values of assets after a revaluation undertaken during the year 2009/2010, by M/s. Metrocosmo Limited, Registered Valuers.

Capital Reserve

This represents the values of Assets previously owned by the former Central Bureau of Statistics (CBS) but transferred to the Bureau by the Ministry of State for Planning, National Development and Vision 2030, and assets bought through donor funded projects and donated to KNBS.

XI. CHANGES IN ACCOUNTING POLICIES

The Bureau recognizes the effects of changes in accounting policy. The effects of changes in accounting policy have been applied prospectively since retrospective application is impractical.

XII. RELATED PARTIES

The Bureau regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over it, or vice versa. Members of key management are regarded as related parties and comprise the Chairman to the Board, Director General and Heads.

XIII. SEGMENT REPORTING

The Bureau does not have any branches or reporting segments. All the operations of the Bureau are managed from the headquarters. The core business of the Bureau is as stipulated in the Statistics Act, 2006.

XIV. SIGNIFICANT ACCOUNTING JUDGEMENTS AND SOURCES OF ESTIMATION AND UNCERTAINTIES

The preparation of the Bureau's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgements

In the process of applying the Bureau's accounting policies, management has made judgments, which have the most significant effect on the amounts recognized in the financial statements.

Going concern

The Bureau's management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Bureau's ability to continue as a going concern. Therefore the financial statement continues to be prepared on the going concern basis.

XV. BUDGET INFORMATION

The annual budget is prepared on the accrual basis, that is, all planned costs and income are presented in a single statement to determine the needs of the Bureau. As a result of the adoption of the accrual basis for budgeting purposes, there are no basis, timing or entity differences that would require reconciliation between the actual comparable amounts and the amounts presented as a separate additional financial statement in the statement of comparison of budget and actual amounts.

XVI. COMPARATIVES

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

XVII. SUBSEQUENT EVENTS

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2014.

C. FINANCIAL RISK MANAGEMENT

The Bureau's activities expose it to a variety of financial risks including credit risk, liquidity risks, interest rate risk and operational risk. The Board of Directors has the overall responsibility for the establishment and oversight of the Bureau's risk management framework. The Bureau's overall risk management programme focuses on unpredictability of changes in the business environment and seeks to minimise the potential adverse effect of such risks on its performance by setting acceptable levels of risk.

Risk Management is carried out by the management under policies approved by the Board of Directors. Management identifies, evaluates and manages financial risk in close co-operation with various departmental heads. The board provides written principles for overall risk management, as well as written policies covering specific areas of operation.

Credit risk

Credit risk arises from trade receivables as well as cash and cash equivalents.

The company's credit risk is primarily attributable to its receivables. The credit risk on receivables is limited because the customers are staff members with whom it has contractual obligations, and these serve to give the Bureau the legal enforceable right for the recovery of the outstanding amounts.

The credit risk on liquid funds with financial institutions is low. This is because the bank balances are held with regulated financial institutions and are fully performing

The amount that best represents the company's maximum exposure to credit risk as at 30 June 2014 and 30 June 2013 is made up as follows:

	Fully Performing Kshs.	Past dues Kshs.	Impaired Kshs.	Total Kshs.
At 30 June 2014				
Cash and Cash Equivalents	180,571,288	-	-	180,571,288
Receivables	58,192,102	-	-	58,192,102
Total	238,763,390	-	-	238,763,390
At 30 June 2013				-
Cash and Cash Equivalents	117,646,684	-	-	117,646,684
Receivables	69,930,525	-	-	69,930,525
Total	187,577,209	-	-	187,577,209

Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash to meet Bureau obligations. Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the Bureau's short, medium and long-term funding and liquidity management requirements. The company manages liquidity risk by maintaining banking facilities through continuous monitoring of forecast and actual cash flows.

The table below analyses the company's financial liabilities that will be settled on a net basis into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table below are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

Interest rate risk

The interest rate risk exposure arises mainly from interest rate movements on the Bureau's cash balances. There has been no change to the Bureau's exposure to interest rate or the manner in which it manages and measures the risk.

At 30 June 2014, if the interest rates on the bank balances had decreased/increased by 5 percentage points with all other variables held constant, the impact on surplus for the year would have been Sh.5,922,323 (2013: Sh.6,039,717) higher/lower.

Operational risk

This is the risk of direct or indirect loss arising from a wide variety of causes associated with the Bureau's processes, personnel, technology and infrastructure and from external factors other than credit, interest and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all the Bureau's operations.

The Bureau's objective is to manage operational risk so as to balance the avoidance of financial losses and damages to the Bureau reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to management. This responsibility is supported by the development of overall Bureau standards for the management of operational risk in the following areas:

- Requirement for appropriate segregation of duties, including the independent authorisation of transactions.
- Requirement for the reconciliation and monitoring of transactions.
- Compliance with regulatory and other legal requirements.
- Documentation of controls and procedures.
- Requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified.
- Requirement for the reporting of operational losses and proposed remedial action.
- Development of contingency plans.
- Training and professional development
- Ethical and business standards.
- Risk mitigation, including insurance where this is effective.
