## KENYA NATIONAL AUDIT OFFICE

### REPORT OF THE AUDITOR-GENERAL ON THE MINISTRY OF ENERGY AND PETROLEUM FOR THE YEAR ENDED 30 JUNE 2014

---

#### REPORT ON THE FINANCIAL STATEMENTS

I have audited the accompanying financial statements of the Ministry of Energy and Petroleum set out on pages 14 to 33, which comprise the statement of assets and liabilities as at June 30 2014, and statement of receipts and payments, statement of cash flow, summary statement of appropriation for the Recurrent, Development and Deposits for year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 8 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

#### **Management's Responsibility for the Financial Statements**

The Accounting Officer is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Accounting Officer is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 4 and 6 of the Public Audit Act, 2003.

#### **Auditor-General's Responsibility**

My responsibility is to express an opinion on these financial statements based on the audit and report in accordance with the provisions of Section 9 of the Public Audit Act, 2003. The audit was conducted in accordance with International Standards on Auditing. Those standards require compliance with ethical requirements and that the audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial

statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the ministry's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Accounting Officer, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my qualified audit opinion.

### **Basis of Qualified Opinion**

#### **1. Supply, Installation, Testing and Commissioning of 5No., 100m Wind Masts and Data Loggers**

The Ministry, during the year under review, commissioned a 20 weeks project for supply, install, test and commission five (5) 100m wind masts and data in Garissa, Wajir, Malindi, Narok and Baragoi at a cost of Kshs.38,336,039 commencing from 20 January 2014 and to be completed and handed over by 31 May, 2014.

The following irregularities were noted:

- (a) The contract price of Kshs.38,336,039 exceeded the Kshs.30,000,000 allocated in the 2013/2014 development budget for purchase of the instrumentation and calibration equipment by Kshs.8,336,039, contrary to the provisions of section 26 (3) (a) of the Public Procurement and Disposal Act, 2005.
- (b) Available information indicates that as on 7 April 2014 the contractor had not commenced works. The contractor on 8 May 2014 requested for extension of the contract period by 12 weeks, which was granted by the Ministerial Tender Committee (MTC) on 24 June, 2014, bringing the revised contract period to 32 weeks, up to 31 August 2014. By that time the contractor had been paid a total of Kshs.3,960,749, representing 10.3% of the contract sum. It is however unlikely that the contractor would have completed the work by 22 August, given that 91% (29 weeks) of the contract period had already elapsed, while majority of the wind masts and data loggers had not been installed.

#### **2. Employer Contribution to Compulsory Health Insurance Scheme**

Included in the statement of receipts and payments compensation of employees expenditure of Kshs.240,077,389 and as disclosed in Note 9 to the financial statements is an Employer Contribution to Compulsory Health Insurance Scheme credit balance of Kshs.2,569,449. Under the normal circumstances, expenditure items should reflect debit balances. No documentary evidence has been availed to support this credit balance

hence, I am unable to confirm accuracy of the compensation of the employees balance of Kshs.240,077,389.

### **3. Proceeds from Foreign Grants and Borrowings**

The Statement of Receipts and Payments reflects Proceeds from Domestic and Foreign Grants receipts of Kshs.25,680,865,252 which is explained in Note 2 as having been received from various listed multilateral donors. The Statement also reflects Proceeds from Borrowings figure of Kshs.2,315,867,414. However, the completeness and validity of these income items could not be ascertained in the absence of relevant grant, loan agreements and other relevant documentations.

### **4. Transfers to Other Government Units**

- (i) The Statement of Receipts and Payments also reflects a Kshs.21,058,145,189 payment figure described as Transfers to Other Government Units which, according to Note 11 to the Financial Statements includes an amount of Kshs.2,726,653,120 paid to Kenya Power and Lighting Company Ltd (KPLC). However, this amount of Kshs.2,726,653,120 could not be traced in the KPLC financial statements as receipts for the year ended 30 June, 2014.
- (ii) Also, the Kshs.21,058,145,189 figure includes an amount of Kshs.80,000,000 paid to Kenya energy Environmental Program Fund which is directly administered by the MOE. However, the financial statement prepared and presented for audit for KEEP fund do not reflect receipt of the Kshs.80,000,000.

### **5. District Suspense Account**

The Statement of Assets as at 30 June 2014 reflects a District Suspense Account balance of Kshs.11,548,767 representing un-accounted for balances of cash (Authority to Incur Expenditure (AIEs) released to Marsabit, Mirangini, Busia, Wajir, Kisii and Lodwar offices of the Ministry. No explanation has been given for failure to recover these amounts from the relevant centre managers.

### **6. Outstanding Imprests**

The Statement also reflects an Imprests balance of Kshs.14,682,001 which according to information and documents availed, were accounted for before 30 June 2014, but had not been processed through the accounting system by 30 June 2014. This has in consequence understated the Statement of Receipts and Payments expenditure for 2013/2014 by Kshs.14,682,001. The Accounting Officer has not provided justification for this irregularity.

### **7. Advances**

The Statement further reflects an Advances balance of Kshs.1,843,838 which is explained in Note 16E to the financial statements as representing unrecovered salary

overpayments. However, no reasons have been given for the overpayments and non-recovery of the amounts from the respective officers.

## **8. Suspense Account**

The statement reflects a Kshs.2,318,327,767 Suspense Account debit explained under note 18 to the financial statements, as representing payments recorded in the cashbooks but not entered in the Integrated Financial Management Information System (IFMIS) financial statements. However, documentary evidence in support of these payments was not availed for audit verification. Had the amount been captured in the appropriation accounts, the Statement of Receipts and Payments for the year ended 30 June 2014 would have reflected a new unauthorized excess of vote of Kshs.372,619,536 instead of the surplus of Kshs.1,945,708,231 now shown.

## **9. Unsupported Balances**

The Statement of Assets also reflects a debit Prior Year Adjustment debit balance of Kshs.1,328,047,730 which is explained under Note 19 as representing cash and bank balances relating to 2012/2013 and earlier years that are included in the brought forward bank balances but excluded in the opening cash book balances.

No documentation and information has been given for these prior year adjustment balance. Consequently, I am unable to ascertain whether all bank transactions and bank balances during the year were fairly stated.

## **10. Summary of Statement of Provisioning**

- i) The Summary Statement of Provisionings reflects General Account of Vote (GAV) Provisioning Account balance of Kshs.17,788,184,218 which includes an amounts of Kshs.12,291,230,719 relating to 2012/2013 and earlier years. No explanation has been provided as to why these long outstanding balances have not been cleared from the books of account.
- ii) The summary also reflects a General Account of Vote balance of Kshs.13,898,359,898 that includes an amount of Kshs.10,357,527,379 relating to 2012/2013 and prior years. This balance is unsupported with documentation and bank reconciliation statements.

## **11. Non-Financial Assets**

- i) Annex 5 to the financial statements as at 30 June 2014 shows a summary of Ministry of Energy and Petroleum fixed assets register whose historical costs totaled Kshs.67,692,280,356, representing assets acquired in the years 2012/2013 and 2013/2014 of Kshs.35,855,782,258 and Kshs.31,836,498,098 respectively. The assets acquired in period prior to 2012/2013 have been excluded in these financial statements.

- ii) The Ministry did not maintain an assets register of its property, plant and equipment, hence unable to confirm existence, ownership and valuation of its assets balances as at 30 June 2014.
- iii) Further, it was noted that the Ministry did not have Title Deeds for the parcels of land occupied by Kericho, Kisii, Migori, Bukura, Uashin Gishu, Kitui, Wambugu and Mitunguu Energy Centres. Information available show that the process of acquiring titles for some these lands, such as the 2.5Ha at Wambugu Energy Centre, has been ongoing for a long period of time. I am therefore unable to verify ownership of these properties.

Consequently, in light of the above paragraphs, I am unable to confirm whether the carrying values as stated in the financial statements reflect the fair values of the non-financial assets of the Ministry of Energy and Petroleum as at the Statement of Assets date.

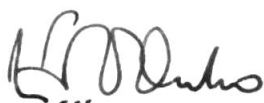

## **12. Construction of Resource Centre at Mitunguu in South Imenti District**

Information available indicates that the Ministry incurred Kshs.44,636,192.00 to construct a resource Centre at Mitunguu Energy Centre, Meru County. The construction work was completed in year 2012/2013 and the site handed over to the Ministry on 25 July, 2013. However, it was noted that throughout the year under review and at the time of audit the site remained idle with only three staff stationed there notwithstanding the budget allocation secured in the subsequent period.

In the absence of elaborate operation plan on utilization of the Centre, it was not possible to confirm viability of this project.

### **Qualified Opinion**

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion paragraph, the financial statements presents fairly, in all material respects the financial position of the Ministry as at 30 June 2014, and its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards and comply with Public Finance Management Act, 2012.

## Reports and Financial Statements

For the year ended June 30, 2014 (Kshs)

---

### I. MINISTRY OF ENERGY AND PETROLEUM KEY INFORMATION AND MANAGEMENT

#### (a) Background information

The Ministry of Energy was formed many years ago and on 20 May 2013, its name was changed to the Ministry of Energy and Petroleum through Executive Order No.2/2013 that outlined the Organisation of the Government of Kenya. At the cabinet level, the Ministry is represented by the Cabinet Secretary for Energy and Petroleum, who is responsible for the general policy and strategic direction of the Ministry.

#### (b) Key Management

The Ministry's day-to-day management is under the following key departments:

- Renewable Energy Department
- Electric Power Development Department
- Geo-Exploration Department
- Petroleum Energy Department
- Administration Department
- ICT Department
- Accounts Department
- Human Resource Development Department
- Human Resource Management Department
- Internal Audit
- Finance Department
- Central Planning and Project Monitoring Unit (CPPMU) Department
- Supplies Chain Department
- Public Communications Department

#### (c) Fiduciary Management

The key management personnel who held office during the financial year ended 30<sup>th</sup> June 2014 and who had direct fiduciary responsibility were:

No	Designation	Name
1.	Cabinet Secretary, Ministry of Energy & Petroleum	Hon. Davis Chirchir
2.	Principal Secretary (Accounting Officer)	Eng. Joseph Njoroge, MBS
3.	Senior Deputy Secretary	Paul Ngatia, MBS
4.	Senior Deputy Secretary	F.M.Ongaki
5.	Head of Finance	Momata Gichana
6.	Head of Accounting Unit	Phoebe Ndonge
7.	Head of Supplies Chain	Patrick Meyo
8.	Chief Geologist	John M. Omenge
9.	Director Renewable Energy	Eng. Isaac Kiva
10.	Commissioner Petroleum	Martin M Heya
11.	SAD/HRM	Ann Kariuki
12.	SAD//HRM	Janerose Karanja
13.	SPSE	Eng. Julius M. Mwathani
14.	ICT	Elijah Mumbo

## **II. FORWARD BY THE CABINET SECRETARY**

### **1. Policy and Legislative Changes/New Strategic Initiative**

Energy is prioritized as one of the infrastructure enablers for achievement of the objectives of Kenya Vision 2030 being implemented through five-year horizon Medium Term Plans. Improved access to energy sources especially electricity improves human development conditions through provision of water; industrial and agricultural productivity; disadvantaged groups empowerment; better health and education conditions and environmental sustainability. Approximately three (3) out of every four (4) Kenyans, of which two-third reside in the rural areas, lack access to electricity services resulting into unsustainable use of biomass and agricultural waste linked with exposure to indoor respiratory infections. The poor households lack adequate access to affordable, reliable, safe and quality energy services.

### **2. Overview of Accomplishment and Challenges**

Electricity contributes about 9% of Kenya's energy needs with the remainder from biomass (68%), petroleum (22%) and all others (<1%). However, it is the most sought for commercial energy service, with per capita consumption estimated at 150 kilowatt hours (KWh) and national access is about 30% both of which are below the average for developing countries. The growth in electricity has been affected by constrained supply, inadequate transmission capacity and high technical losses at both transmission and distribution levels. This has had an adverse effect on both reliability of supply and cost of electricity.

#### **Budget Performance Vs Actual Amounts**

During the year 2013/14, the Ministry received a total budget of Ksh.79.797b of which Kshs.2.400b was recurrent expenditure and Kshs.77.397b Development Expenditure. This amount was later revised downwards to Kshs.73.663b Comprising Kshs.2.354b Recurrent and Kshs.71.309b Development. The actual expenditure as at 30<sup>th</sup> June 2014 amounted to Ksh.1.830b Recurrent and Kshs.53.178b Development, both totalling to Kshs.55.007B, representing 74.7% absorption.

The table below provides a summary of Expenditure according to economic classification and programmes:

**MINISTRY OF ENERGY AND PETROLEUM**  
**Reports and Financial Statements**  
**For the year ended June 30, 2014 (Kshs)**

Classification	Final Budget	Actual expenditure	% Utilization
	Kshs	Kshs	
<b>Receipts</b>			
Headquarters Administrative Services	390,746,913	346,747,893	89
Headquarters Administration and Planning Services	19,361,167	18,435,616	95
Financial Management and Procurement Services	38,416,012	34,336,066	89
Woodfuel Resources Development	310,851,472	237,700,371	76

**Key Achievements**

Some of the key achievements in the FY 2013/14 include:

**(a) Electric power development**

- i. By the end of June 2014, 209.8MW of new capacity had been commissioned, comprising:
  - Kindaruma 24MW;
  - Thika Power 87MW;
  - Orpower Geothermal 16MW;
  - 12.8MW Geothermal Wellhead; and
  - Olkaria IV 70MW unit 1
- ii. The second 70MW unit of Olkaria IV began commissioning tests in July 2014. The 83 MW Gulf and 80MW Triumph medium speed diesel power plants that had been due for completion within 2013/14 are now expected in August and October 2014, respectively.
- iii. The additional 140MW Olkaria I units 4 & 5 Geothermal plant are still under construction and are expected to be commissioned in 2014/15.
- iv. Developer for 140 MW Menengai geothermal power plant was contracted.

## MINISTRY OF ENERGY AND PETROLEUM

### Reports and Financial Statements

For the year ended June 30, 2014 (Kshs)

---

#### *(b) Other Major Generation Projects*

- i. 140 MW new AGIL Geothermal Power plant: The PPA was signed in April 2013 and the plant is expected to be commissioned in 2017. The developer is doing appraisal drilling prior to commencing construction and still awaits financial closure.
- ii. 960MW Coal plant at Lamu County: The Ministry of Energy and Petroleum issued Expression of Interest (EOI) on 2<sup>nd</sup> October 2013 for investors to express their interest to provide the generation capacity. The shortlisted firms for construction of coal plant were issued with Request for Proposal (RFP) document on 27<sup>th</sup> January 2014. RFP documents; Technical and Financial Proposals for establishment of the 900 – 1000 MW Lamu Coal Plant were Evaluated. Pre-bid and site visit for coal plant was held on 27<sup>th</sup> February 2014. The bids were returned in April 2014 and evaluated.

Other activities carried out in support of coal development include

- 31 new blocks were delineated in Kwale, Kilifi, Tana River, Baringo, Meru, Isiolo, Lamu, Garissa.
  - Coal part of the Strategy for generating an additional 5000+MW in the period of 40 months was developed.
  - Four workshops were conducted and a series of meetings for Kitui County Local Community Leaders to build consensus for signing of the Blocks C and D Benefit Sharing Agreements were done. The public ceremony for signing the documents was held in Mwingi on 23<sup>rd</sup> December, 2013.
  - A regional office was established at Mathuki for the purpose of coordinating coal development activities in Mui Basin;
  - Logistical support was provided to Officers of the Ministry of Land, Housing and Urban Development engaged in ongoing Land adjudication and registration in the areas covered by the coal project
  - Four coal exploratory wells were drilled, two in Karoo system (one in each County, Kwale and Kilifi) and two others one each in Meru and Isiolo
- iii. 700MW LNG gas Plant at Mombasa: The Government has been negotiating for favourable LNG prices with exporting countries such as Qatar and coal with South Africa and Nigeria to facilitate development of LNG and coal fired electricity generation plants at Dongo Kundu – Mombasa and Lamu respectively by Independent Power Producers (IPP). RFP's were issued to short-listed investors, 12 for 700MW LNG-fired power plant in Dongo Kundu, Mombasa and 10 for the 960MW coal fired power plant at Lamu. Pre-bid and site visit for Liquefied Natural Gas (LNG) was held on 24<sup>th</sup> February 2014. The bids were returned in April 2014 and evaluated.
  - iv. 300MW Lake Turkana Wind: The PPA was signed in May 2013 and the project subsequently achieved financial closure in March 2014. Construction is now expected to commence and the plant is expected to be commissioned in June 2016. Local community concerns were communicated and LTWP are engaging local community leaders to address their concerns.
  - v. 60MW Kinangop Wind Park: The PPA was signed in 2013 and construction had

## MINISTRY OF ENERGY AND PETROLEUM

### Reports and Financial Statements

For the year ended June 30, 2014 (Kshs)

---

begun. Construction has since been stopped due to a force majeure situation caused by the local community interference. The plant was expected to be commissioned in December 2015.

- vi. 18MW Kwale International Sugar Negotiations for the PPA are at an advanced stage and the power plant is under construction.
- vii. New Power Purchase Agreements in 2013/14: Negotiations on five Power Purchase Agreements comprising Kieta 100MW Wind, Cummins 12MW Biogas, Prunes 50MW Wind, Menengai Geothermal and Tenino 2.5MW hydro were concluded.

The PPA for Tenino has since been approved by ERC, while the others are undergoing internal approvals by the respective Boards of Directors before they are forwarded to ERC.

The Menengai project was tendered by Geothermal Development Corporation, the steam field developer, and the winning IPPs were Quantum Power EA (37MW), Format Symbol/Civic on Construction (35MW) and Ossian Menengai Project (35MW).

#### *(c) New customer and Public Facilities connected with electricity*

- 443,254 new customers were connected to electricity. The high number of new customers connected was due to new financing schemes to help applicants meet up front capital costs, continued outsourcing of construction, sufficient availability of construction materials and an intensified connection campaign in the 4<sup>th</sup> quarter.
- 5,231 public institutions were connected to electricity.
- Installation in 66 Public Institutions commenced.
- Installation works under Spanish funded programme targeting 380 institutions in the next 12 months commenced.
- 72 public institutions were installed with solar PV system

#### *(d) Connectivity Fee/Standard Policy*

- GOK already subsidized connectivity Fee.
- Kshs.2.7billion was set aside to subsidize connection to customers.
- GOK is in process of paying the second tranche of Kshs.2.7billion to subsidize more customers while awaiting the finalization of the last mile connectivity project
- Connection study to confirm actual cost was finalized.

#### *(e) Power Transmission and Distribution Lines*

During the 2013-14 financial year, 341km of the following lines was completed and energized:

- 67 Kms-132 Kv Kilimambogo-Thuka-Githamb0 transmission line constructed.
- 40 Kms-132 Kv Thika-Kiganjo transmission lines constructed.

## MINISTRY OF ENERGY AND PETROLEUM

### Reports and Financial Statements

For the year ended June 30, 2014 (Kshs)

---

- 234 out of 328 Km-220 Kv Rabai-Malindi-Garsen-Lamu constructed and energized to Garsen.
- Construction of the remaining Rabai Malindi-Garsen-Lamu section (94.5 km) between Garsen and Lamu was completed but not energized due to insecurity challenges.
- Contractor was mobilized for Lessos-Tororo-Kampala-Kigali line.
- Valuation of land and structures on the 612 kms-400Kv Ethiopia-Kenya interconnector was completed and payments for the same are on-going. Procurement of EPC contractor for the line finalized.
- A total of 17,666 Kms of distribution lines were constructed. These covers new High Voltage, Medium Voltage and Low Voltage lines completed. The high actual result arises from inclusion of LV lines for new customer connectivity that is largely being funded by KPLC due to below cost connection charges.

#### *(f) Petroleum Energy Development*

- i. Mombasa Single Buoy Moring and 85,000 MT tank-farm
- ii. The National Oil Corporation of Kenya (NOCK) has completed a feasibility study for Mombasa Single Buoy Moring and 85,000 MT tank-farm. The project will require dredging to a minimum depth of 13 metres at Dongo Kundu and Changamwe to enable berthing of LPG large cargos, as small cargos will be more expensive to import.
- iii. Lokichar- Lamu integrated Pipeline Project
- iv. Concept paper was prepared
- v. Expression of Interest (EOI) was floated.
- vi. Petroleum Exploration: The Ministry continued to monitor, supervise and reported on the following results of oil and gas activities in the country:
  - Out of 46 blocks, 41 are licensed to 22 international oil companies.
  - 7 wells were drilled by Tullow Oil Company with 100% oil discovery.
  - A total of 724 line kilometers of 2D seismic data was acquired by Rift Energy in Block L19 and completed in mid June, 2014;
  - A total of 345 line kilometers of 2D seismic data was acquired by Tullow Oil in block 12B. This was completed on 15<sup>th</sup> June 2014.
  - A total of 305 line kilometers of 2D seismic data was acquired in block 14T by National Oil/JOGMEC. The acquisition process was completed on 9<sup>th</sup> May, 2014.

Other progress made in oil and gas drilling and exploration wells includes;

#### BLOCK L10A,

##### Sunbird-1 well

Sunbird-1 well was spud on 4<sup>th</sup> January, 2014. The well is situated in offshore Block L10A within the Lamu Basin. It was drilled to a total depth of 2850m. In the mean time, some minor discovery of oil and gas has been intercepted in the well. Further evaluation will be carried out to determine the ultimate hydrocarbon prospectively of Block L10A and chart the best way forward.

#### BLOCK 9,

##### Bahasi-1 well

The well was spud in October 2013. It is situated in Block 9 and is operated by Africa Oil. It was drilled to a total depth of 2900m. It encountered metamorphic basement at 2850m. A thick section of Tertiary and Cretaceous interbedded sands and shales

**MINISTRY OF ENERGY AND PETROLEUM**

**Reports and Financial Statements**

**For the year ended June 30, 2014 (Kshs)**

---

were encountered with only minor shows of gas throughout the section. The well was plugged and abandoned.

Sala-1 well

Sala-1 well was spud on 21<sup>st</sup> February, 2014. The well is situated in Block 9 within the Anza Graben. The well was drilled to a total depth of 3030m and it was finished on 5<sup>th</sup> May, 2014. Significant occurrences of oil and gases ranging from C1, C2, C3, C4 and C5 were encountered in different horizons with the final results expected after the analysis is finished.

*BLOCK 10BB*

*Etuko-well*

Etuko well was spud on 11<sup>th</sup> May, 2013. It was drilled to a total depth of 3,100m. It encountered approximately 45 m of net pay thickness in shallower Auwerwer (Upper Lokhone Sandstone) reservoir and 50m of potential net pay in Lower Lokhone Sandstone. The well was drilled in Block 10BB.

Etuko prospect is the first test of the basins Flank Play in the eastern part of the basin.

Amosing-1 well

Amosing-1 well was spud on 5<sup>th</sup> January, 2014. It was drilled to a total depth of 2101m. It encountered a potential net pay zone of 160m to 200m. It is located in Block 10BB, 7km South-West of Ngamia-1 well. The net pay in Amosing Well significantly exceeds pre-drill expectations.

Ewoi-1 well

Ewoi-1 well was spud on 28<sup>th</sup> December, 2013. It is located in Block 10BB. Ewoi-1 well encountered potential net pay thickness of 20m to 80m. This discovery continues to de-risk the basin Flank Play that was opened by Etuko-1.

Ekunyuk 1 well

Ekunyuk 1 well was spud on 11<sup>th</sup> April, 2014. The well is situated in Block 10BB within the Tertiary Basin. It was drilled to a total depth of 1806m and was finished on 2<sup>nd</sup> May, 2014. This was a discovery well and had oil net pay of five (5) meters improving the prospectivity of the Lokichar Sub- Basin.

BLOCK 13T

Ekales-well

Ekales well was spud on 22<sup>nd</sup> July, 2013. It is located in Block 13T. It was drilled to a total depth of 1454 m. It encountered net pay zone of 60m to 100m in the Upper Lokhone Sandstone reservoirs. Future Drill Stem Testing (DST) aims to confirm productivity of these zones.

Agete-1 well

The well was spud on 26<sup>th</sup> September, 2013. It is in Block 13T. It was drilled to a total depth of 1930m. It encountered moveable oil with an estimated 100m of net oil pay in good quality sandstone reservoirs.

Ngamia-2 well

Ngamia-2 well was spud on 8<sup>th</sup> April, 2014. The well is situated in Block 13T within

**MINISTRY OF ENERGY AND PETROLEUM**  
**Reports and Financial Statements**  
**For the year ended June 30, 2014 (Kshs)**

---

the Tertiary Basin. It was drilled to a total depth of 1923m and was finished on 22<sup>nd</sup> May, 2014. This was a discovery well and had oil net pay of thirty nine (39) m improving the prospectivity of the Lokichar Sub- Basin even further.

***(g) Ensure availability of LPG in the market***

- i. Operations of the Common user LPG import handling and storage facility in Miritini, Mombasa continued to be monitored so as to ensure prudent use of the facility.
- ii. Tender terms and conditions and thru-put agreements are ready and are awaiting signing by the relevant OMCs once the thru-put tariff is agreed upon
- iii. Various meetings to discuss the thru-put tariff to be levied on LPG ex-AGOL terminal were done.
- iv. A letter was addressed to AGOL to expedite on the thru-put tariff to be levied on LPG ex-AGOL terminal so as to pave way for the organized LPG imports through the Open Tender System.

**Emerging Issues**

Some of the emerging issues among others include:

- (a) Access to and acquisition of land: Difficulty in the acquisition of sites, way leaves, rights of way and easements to facilitate energy infrastructure development is an impediment to fast tracking the improvement and upgrading of the energy systems.
- (b) Absence of a Resettlement Action Plan (RAPs) Framework: Currently, all projects receiving support by World Bank or IFC are required to develop RAPs.
- (c) High resource development risks.
- (d) Inadequate and obsolete institutional, legal and regulatory framework for management of renewable energy resources.
- (e) High cost of financing energy infrastructure projects.
- (f) Lack of adequate port facilities for handling cheaper energy resources including coal and natural gas to support power generation.
- (g) Disjointed legal and regulatory frameworks governing operation of government institutions that impact the operations of institutions within the energy sector.
- (h) Inadequate structures and systems for integrated energy planning and monitoring of the implementation of planned projects.
- (i) Inadequate capacity to carry out integrated energy planning.
- (j) Delays in project implementation due to cumbersome procurement process, financing challenges, court action and poor governance.
- (k) Underdeveloped road and railway transportation system.

**Challenges and Way forward**

***(a) Electrical Energy Generation from New and Renewable Energy Resources***

- i. Inadequate skills in renewable energy technologies, i.e. installation, post installation operation and maintenance service.
- ii. Low uptake of solar home systems.

## MINISTRY OF ENERGY AND PETROLEUM

### Reports and Financial Statements

For the year ended June 30, 2014 (Kshs)

---

- iii. Inadequate wind regime data.
- iv. Inadequate wind energy industry standards due to fast changing technologies and enhanced capacities of turbines.
- v. Lack of legal, institutional framework data and information for exploitation of municipal solid waste.

#### ***(b) Power Transmission and Distribution***

- i. Weak and ageing transmission and distribution network leading to frequent supply interruptions and high system losses.
- ii. Vandalism of electric power infrastructure.
- iii. Inadequate local technical skills especially in HVDC Current systems.
- iv. High electricity connection charges end-user electricity tariffs including standing charges.
- v. High operating costs of grids in some low population density rural areas.

#### ***(c) Fossil Fuels***

- i. High price volatility of imports of petroleum products.
- ii. Lack of legal and regulatory framework in coal exploration and development.
- iii. Exploration and production of fossil energy sources is high capital intensive and high failure risk.
- iv. Inadequate infrastructure to support discovery and development of fossil energy sources.
- v. Weaknesses in the Petroleum (Exploration and Production) Act, Cap 308 and Model Production Sharing Contract (PSC).
- vi. Limited coal reserve data due to low intensity of exploration.
- vii. Lack of a special purpose vehicle to spearhead exploration, assessment and development of coal resources.
- viii. Inadequate technical capacity for coal mid and downstream activities.

#### ***(d) Energy Financing, Pricing and Socio-Economic Issues***

- i. Inadequate funding for the energy sector.
- ii. Foreign exchange fluctuations.
- iii. Inadequate promotion of local content in energy technologies.

#### **The way forward**

To address the implementation challenges highlighted above, the following measures should be considered:

- (a) Increased budgetary support for energy sector to promote geothermal resources assessment, oil and gas exploration activities, transmission capacity enhancement and rural electrification expansion.
- (b) Promote public private partnerships in the energy sector. This will increase

**MINISTRY OF ENERGY AND PETROLEUM**  
**Reports and Financial Statements**  
**For the year ended June 30, 2014 (Kshs)**

---

investments in the sector since the government the budgetary allocations of the sector is inadequate.

- (c) Diversification of the electrical energy generation mix by finding other commercially viable alternative sources of energy to reduce dependence on hydropower and thermal energy.
- (d) Expansion of decentralized, renewable off-grid energy systems, especially solar power, with consideration for input subsidies to offset the high installation costs.
- (e) Deliberate interventions in the energy market through fiscal incentives (taxes, duties, levies) and non-fiscal incentives (subsidies, fees, guarantees, credits)
- (f) Consensus building and mutual understanding among stakeholders are crucial to energy development, because of the interlocking technical, environment, social, political, economic, and financial dimensions and the risks involved. This will include involvement of communities, members of parliament and local leaders to sensitize communities on importance of granting free way leaves.
- (g) Adequate groundwork must be prepared, in the form of in-depth technical, environmental, social, economic and financial studies, and dialogue on the findings since energy development projects invariably involve long lead times before implementation can begin in earnest.
- (h) Need to create adequate and effective human capacity for projects identification, planning and execution to enhance donor funding absorptive capacity. This can be achieved by partnering with institutions of higher learning to provide graduates with necessary skills for the sector. The government can also partner with other states to promote technology transfer in specialized field such as nuclear, oil and gas exploration, geothermal resources exploitation among others. Develop private sector capacity in construction and maintenance of bio-digesters for successful adaptation of the technology.
- (i) Strengthening performance monitoring, accountability and project/program planning systems, i.e. to improve governance and productivity of resources.
- (j) Reducing levels of bureaucracy in the funds flow process, when processing withdrawal applications, to speed up disbursement from donors.
- (k) Periodic review of feed-in-tariffs for power generation.
- (l) Limiting maximum periods of negotiations with investors and approval of energy production contracts.
- (m) Support research and development on the new and renewable sources of energy. This will cushion the government on over reliance on hydropower.

Finally, I urge all the stakeholders to collaborate in the implementation of the various energy sector strategies and plans with a view to delivering, on a sustainable basis, affordable quality energy for all Kenyans.

**III. STATEMENT OF MINISTRY'S MANAGEMENT RESPONSIBILITIES**

Section 81 (1) of the Public Finance Management Act, 2012 requires that, at the end of each financial year, the accounting officer for a Ministry of Energy and Petroleum shall prepare financial statements in respect of that entity. Section 81 (3) requires the financial statements so prepared to be in a form that complies with relevant accounting standards as prescribed the Public Sector Accounting Standards Board of Kenya from time to time.

The Accounting Officer in charge of the Ministry of Energy and petroleum is responsible for the preparation and presentation of the ministry's financial statements, which give a true and fair view of the state of affairs of the ministry for and as at the end of the financial year (period) ended on June 30, 2014. This responsibility includes: (i) maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period; (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the ministry; (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv) safeguarding the assets of the ministry; (v) selecting and applying appropriate accounting policies; and (vi) making accounting estimates that are reasonable in the circumstances.

The Accounting Officer in charge of the Ministry of Energy and Petroleum accepts responsibility for the ministry's financial statements, which have been prepared on the Cash Basis Method of Financial Reporting, using appropriate accounting policies in accordance with International Public Sector Accounting Standards (IPSAS). The Accounting Officer is of the opinion that the Ministry's financial statements give a true and fair view of the state of Ministry's transactions during the financial year ended June 30, 2014, and of the Ministry's financial position as at that date. The Accounting Officer charge of the Ministry of Energy and Petroleum further confirms the completeness of the accounting records maintained for the Ministry, which have been relied upon in the preparation of the Ministry's financial statements as well as the adequacy of the systems of internal financial control.

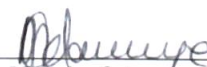

The Accounting Officer in charge of the Ministry of Energy and Petroleum confirms that the entity has complied fully with applicable Government Regulations and the terms of external financing covenants (where applicable), and that the entity's funds received during the year under audit were used for the eligible purposes for which they were intended and were properly accounted for. Further the Accounting Officer confirms that the Ministry's financial statements have been prepared in a form that complies with relevant accounting standards prescribed by the Public Sector Accounting Standards Board of Kenya.

**Approval of the financial statements**

The Ministry of Energy and Petroleum financial statements were approved and signed by the Accounting Officer on 28/11 2014.

Principal Secretary

Head of Accounting Unit

## MINISTRY OF ENERGY AND PETROLEUM

### Reports and Financial Statements

For the year ended June 30, 2014 (Kshs)

---

#### IV. REPORT OF THE AUDITOR GENERAL ON THE MINISTRY OF ENERGY AND PETROLEUM

We have audited the accompanying (consolidated) financial statements of Ministry of Energy and Petroleum for the year ended June 30, 2014, which comprise: (i) a statement of receipts and payments; (ii) a statement of financial assets and liabilities; (iii) a statement of comparative budget and actual amounts; (iv) a statement of pending bills as at June 30, 2014; and (v) a summary of significant accounting policies and other explanatory information.

##### **Management's responsibility for the financial statements**

The Ministry of Energy and Petroleum Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Public Sector Accounting Standards, and for such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

##### **Auditors' responsibility**

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with the International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Ministry of Energy and Petroleum's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

##### **Opinion**

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Ministry of Energy and Petroleum as at June 30, 2014, and its receipts and payments, as well as cash flows for the year then ended in accordance with International Public Sector Accounting Standards.

---

## **XII. SIGNIFICANT ACCOUNTING POLICIES**

The principle accounting policies adopted in the preparation of these financial statements are set out below:

### **1. Statement of compliance and basis of preparation**

The financial statements have been prepared in accordance with and comply with International Public Sector Accounting Standards (IPSAS) with particular emphasis on Cash Basis Financial Reporting under the Cash Basis of Accounting. The financial statements comply with and conform to the form of presentation prescribed by the Public Sector Accounting Standards Board of Kenya.

The financial statements are presented in Kenya Shillings, which is the functional and reporting currency of the Ministry of Energy and Petroleum reporting currency and all values are rounded to the nearest one Shilling. The accounting policies adopted have been consistently applied to all the years presented.

The financial statements have been prepared on the cash basis following the Government's standard chart of accounts. The cash basis of accounting recognises transactions and events only when cash is received or paid by the Ministry.

### **2. Recognition of revenue and expenses**

The Ministry of Energy and Petroleum recognises all revenues from the various sources when the event occurs and the related cash has actually been received by the Ministry. In addition, the Ministry recognises all expenses when the event occurs and the related cash has actually been paid out by the Ministry.

### **3. In-kind contributions**

In-kind contributions are donations that are made to the Ministry in the form of actual goods and/or services rather than in money or cash terms. These donations may include vehicles, equipment or personnel services. Where the financial value received for in-kind contributions can be reliably determined, the Ministry includes such value in the statement of receipts and payments both as revenue and as an expense in equal and opposite amounts; otherwise, the contribution is not recorded.

### **4. Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents also include short term cash imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

**MINISTRY OF ENERGY AND PETROLEUM**  
**Reports and Financial Statements**  
**For the year ended June 30, 2014 (Kshs)**

---

SIGNIFICANT ACCOUNTING POLICIES (Continued)

**5. Pending bills**

Pending bills consist of unpaid liabilities at the end of the financial year arising from contracted goods or services during the year or in past years. As pending bills do not involve the payment of cash in the reporting period, they recorded as 'memorandum' or 'off-balance' items to provide a sense of the overall net cash position of the Ministry at the end of the year. When the pending bills are finally settled, such payments are included in the statement of receipts and payments in the year in which the payments are made.

**6. Budget**

The budget is developed on the same accounting basis (cash basis), the same accounts classification basis, and for the same period as the financial statements. The Ministry of Energy and Petroleum budget was approved as required by Law and as detailed in the Government of Kenya Budget Printed Estimates. A high-level assessment of the Ministry's actual performance against the comparable budget for the financial year under review has been included in an annex to these financial statements.

**7. Comparative figures**

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

**8. Subsequent events**

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2014.

883	<b>Construction of Ministry Headquarters</b>				
	<p>On 1 April 2011, the Ministry awarded a contract for the construction of the Ministry Headquarters building to the lowest evaluated bidder at a contract sum of Kshs.1,625,917,898.. After the adjudication of subcontract works, the contract sum was varied by Kshs.163, 527,201. National Oil Corporation of Kenya (NOCK) made the payments on behalf of the Ministry However, no evidence to show that this arrangement was approved by the National Treasury was availed for audit review and funds made to NOCK exceeded the contract price by Ksh. 488,649,901.</p>	<p>(a) The project is complete and awaiting handing over from ministry of lands, housing and urban development.(b) Ksh.2, 372,083,926 has been disbursed to NOCK under phase I and II of the project. Phase I was complete and the Final Financial Appraisal prepared by Project consultants. (c) Phase II is awaiting the completion of bills of quantities for the access road. Extra disbursements to NOCK will cover any liabilities arising from future reconciliation. Ksh 612,474,702 held by NOCK will form part of 2014/2015 fiscal year budget.</p>	Head of Accounting Unit	Not resolved	To be reviewed

884	<b>Disbursement of Kenya Power and Lighting Company Limited</b>				
	The Appropriation Account as at 30 June 2013 shows that the Ministry disbursed funds totalling Kshs.1,328,000,000.00 to Kenya Power and Lighting Company Limited during the year under Head 0006 Item 2630200: - Capital Grants to Government Agencies and other Levels of Government. However, examination of payment vouchers indicate that out of the Kshs.1,328,000,000, disbursed an amount of Kshs.309,000,000.00 was transferred to National Oil Corporation of Kenya (NOCK). It is not clear how the amount meant for KPLC was redirected to NOCK.	Kshs. 309,000,000 was erroneously transferred to NOCK. Public Accounts Committee instructed the Ministry of Energy through a budget line provision to reimburse KPLC in this fiscal year.	Head of Accounting Unit	Resolved	N/A
885	<b>Vote D Cash at Bank</b>				
	The Statement of Assets and Liabilities for Vote D 130 as at 30 June 2013 reflects cash at bank balance of Kshs.244, 944,548.35 while the cash book reflects a balance of Kshs.263, 173,048.35 as at the same date. The resultant difference of Kshs.18, 228,500.00 has not been reconciled or explained.	The difference of Kshs. 18,228,500 relates to a Development Exchequer notification of 25 <sup>th</sup> June 2013 this has since been posted accordingly in Cash Book.	Head of Accounting Unit	Resolved	N/A

886	<b>Account Adjustment</b>				
	The Statement also reflects a Suspense Account Adjustment debit balance of Kshs.1, 269,821,356.75 whose supporting analysis was not availed for audit review. Consequently, the existence and accuracy of the Suspense Account Adjustment balance of Kshs.1, 269,821,356.75 as at 30 June 2013 could not be confirmed.	Kshs.1,269,821,356.75 relates to 2012/2013 and previous years has been analysed, corrected and adjusted vide J.E NO.9104, 9170 & 9059 including the long outstanding items as per the Treasury Authority ref No. AG. 3/009/VOL. (83) dated 6 <sup>th</sup> April 2010.	Head of Accounting Unit	Resolved	N/A
887	<b>Statement of participation by government of Kenya in Quasi –government and other statutory organizations -excess Shareholding</b>				
	As reported in the previous year, the Ministry continues to hold more than one share each in KENGEN and Geothermal Development Corporation contrary to the provisions of the Permanent Secretary to the Treasury (Incorporation) Act, Cap 101 as amended under Section 2 of the First Schedule to the Public Finance Management Act, 2012 which requires all Government Investments to be vested in the Principal Secretary, Treasury as a body corporate	The Extra shares has been transferred to the Principal Secretary, Geothermal Development Corporation is in the process of affecting the other transfer of the 9 extra shares.	Head of Accounting Unit	Resolved	N/A

888	<b>Failure To Change Name on Share Certificate</b>				
	The share certificate in respect of one share with a book value of Kshs.20.00 which the Ministry holds in Kenya Pipeline Company Limited (KPC) is held in the name of a former Permanent Secretary, Ministry of Energy and Petroleum instead of the current office holder.	A new Certificate with correct details will be effected accordingly during the Annual General Meeting of Kenya Pipeline Company.	Head of Accounting Unit	In progress	To be reviewed

Principal Secretary
