She further oversaw the tightening of controls around Kenyan borders by strengthening the enforcement function, leading efforts to open additional border points as well as establishment of Inland Border Control Check points, to curb smuggling and illicit trade.

She is a high performer who started off her career in tax at KRA in 2003 as a graduate trainee. In 2009, she moved to Deloitte as a Senior Consultant for Customs and International Trade. Subsequently, she worked at EABL in various roles until 2019 when she moved to the Diageo Centre of Excellence to oversee customs governance, risk management and international trade operations across Africa.

She is a member of the National Society of Leadership and Success and a Member of the International Public Policy Association (IPPA). She was recently awarded a Lifetime Membership by the Golden Key International Honor Society.

Foreword

I'm greatly honoured to present the Kenya Revenue Authority (KRA) Annual Report and Financial Statements for the Financial Year 2023/24. This is the final report within KRA's Eighth Corporate Plan implementation period (FY 2021/2022 to 2023/2024).

The 8th Corporate Plan theme is "**Revenue Mobilisation through Tax simplification, technology-driven compliance and tax base expansion**". The strategic thrusts adopted in realizing KRA's principal role of mobilising resources to finance the country's development agenda including the Government's Bottom-Up Economic Transformation Agenda and the Sustainable Development Goals, are i) Revenue mobilisation; ii) Tax base expansion; iii) Simplification of the tax regime to ease compliance and service delivery; iv) Application of cutting-edge technology; v) Performance-oriented and ethical organisation culture; and vi) Strategic partnerships to bolster compliance.

During the 8th plan period, the Kenya Revenue Authority collected a total of **Kshs. 6.604 trillion** against a target of **Kshs. 6.831 trillion**, representing a performance of **97.6 percent**. In the final year of the plan, FY 2023/24, KRA attained an overall revenue performance of **95.5 percent** (collecting **Kshs. 2.407 trillion** against the revenue target of **Kshs. 2.519 trillion**) despite the challenging global and domestic economic environment. This is a revenue growth of **11.1 percent**, as compared to **Kshs. 2.166 trillion** collected in the FY 2022/23. This revenue collection is the highest in KRA history, an indication of the sustained transformation of the Authority into a high-performance culture, leveraging technology as well as strict enforcement of tax laws.

Enhanced domestic revenue mobilisation by KRA is key to realising the Government's Bottom-Up Economic Transformation Agenda (BETA). The Agenda is geared towards an economic turnaround and inclusive growth and aims to increase investments in at least five sectors envisaged to have the largest impact and linkages to the economy as well as on household welfare. These include Agricultural Transformation; Micro, Small and Medium Enterprises (MSME); Housing and Settlement; Healthcare; and Digital Superhighway and Creative Industry. As part of the economic turnaround plan, the Government aims to scale up revenue collection efforts by the Kenya Revenue Authority (KRA) to over Kshs. 3.0 trillion in the short term.

**Kenya Revenue Authority
Annual Report and Financial Statements
for the year ended June 30, 2024**

Looking ahead, the 9th Corporate Plan, with the theme "Unlock and tap the full revenue potential through technology transformation, service excellence, and integrity," defines KRA's new aspirational direction. This plan focuses on KRA's continued transformation through technological advancements, promoting service delivery excellence, and fostering an integrity culture. These efforts are expected to unlock new revenue streams while optimising existing ones, assuring Kenya's long-term growth and development.

The achievements of the 8th Corporate Plan serve as a solid basis as we go forward with the 9th Corporate Plan. With a renewed emphasis on technology, service excellence, and integrity, KRA is well-positioned to reach and surpass its revenue targets, thereby contributing to the nation's economic and developmental goals.

Kenya's Economy

In the year 2023, Kenya's economy expanded by 5.6 percent compared to a revised growth of 4.9 percent in 2022. The positive growth was notable across most sectors of the economy except Mining and Quarrying, which contracted by 6.5 percent. Growth was mainly driven by a rebound in agricultural activities that contracted in 2022.

The inflationary shock caused by the Russia-Ukraine conflict had a ripple effect on the region, leading to decreased international demand, increased global interest rates, and exchange rate pressures, which posed a challenge for the region amidst recovery from the effects of the COVID-19 pandemic. However, the inflation declined to 6.2% in the FY 2023/24 from 8.8% in the FY 2022/23. Additionally, the current account deficit narrowed from 5.2% of GDP in 2022 to 4.9% in 2023, as trade deficits shrank, and secondary incomes increased.

Global Economy

World real GDP growth is estimated to have slowed from 3.5 per cent in 2022 to 3.1 per cent in 2023. The decline in the growth was attributed to disruptions emanating from the remnant effects of COVID-19, the Russia-Ukraine conflict and tightened monetary policies in a number of economies. In 2024, the global economy is expected to grow at a similar pace as 2023 but slower than the historical (2000-2019) annual average of 3.8 percent. This is on account of restrictive monetary policies, withdrawal of fiscal support, low underlying productivity growth, as well as escalating geopolitical fragmentations that could result in higher commodity prices despite a projected decline in global headline and core inflation.

**Kenya Revenue Authority
Annual Report and Financial Statements
for the year ended June 30, 2024**

Advanced economies expanded by 1.6 percent in 2023 compared to the 2.6 percent growth rate experienced in 2022 largely due to tighter monetary conditions within the bloc and a lower-than-anticipated growth rate in the Euro Area. Growth in Emerging Markets and Developing Economies remained at 4.1 percent in the period under review. Sub-Saharan Africa region saw a decline in real GDP growth rate to stand at 3.3 percent in 2023, compared to 4.0 percent growth in 2022.

Revenue Performance

During the Financial Year 2023/24, the Authority collected **Kshs. 2.407 trillion** against the target of **Kshs. 2.519 trillion**. This represents a performance rate of **95.5 percent** and revenue growth of **11.1%** over **Kshs. 2.166 trillion** collected in the Financial Year 2022/23. This performance reflects improved compliance among taxpayers.

Exchequer Revenue

During the Financial Year 2023/24, the Exchequer Revenue was **Kshs. 2.223 trillion** against a target of **Kshs. 2.320 trillion** and above the **Kshs. 2.029 trillion** collected in the previous financial year. This represents a performance rate of **95.8 percent** and a growth of **9.5 percent**.

Agency Revenue

In the FY 2023/24, **Kshs. 184.04 billion** was collected as Agency revenue against a target of **Kshs. 198.55 billion** translating to a performance rate of **92.7 percent**. The Agency revenue grew by **34.9 percent** as compared to the previous Financial Year.

Overview of factors underpinning revenue performance in 2023/24

The Kenya Revenue Authority achieved notable tax revenue performance in FY 2023/24 despite challenges experienced in the domestic economy and globally. This success is largely due to the implementation of revenue mobilisation strategies outlined in the KRA's 8th Corporate Plan, effective tax policy measures, and enhanced revenue administration practices. The Authority's strategic initiatives, combined with favourable economic growth in key sectors such as agriculture, manufacturing, and services, have played a crucial role in maintaining strong revenue growth.

**Kenya Revenue Authority
Annual Report and Financial Statements
for the year ended June 30, 2024**

KRA has continued to leverage technology to prevent revenue leakages and enhance compliance. Significant developments include the implementation of the Electronic Tax Invoice Management System (*eTIMS*), enhancements to the *iTax* platform, and the use of scanners for smart alerts. Additionally, the Integrated Customs Management System (*iCMS*) has been crucial, incorporating features such as targeting and profiling through smart alerts, a risk engine, and bond management and reconciliation. These technological advancements have significantly bolstered the efficiency and effectiveness of KRA's tax administration, facilitating better tracking and management of taxpayer information.

Moreover, KRA's rigorous monitoring efforts have ensured compliance across all tax heads. The extensive use of data and intelligence to identify unpaid taxes has led to improved voluntary compliance and an expanded tax base, incorporating individuals who previously evaded taxes. Enhanced integrity measures, combined with continuous taxpayer education and outreach programmes, have further contributed to sustaining revenue collection efforts. These efforts reflect KRA's commitment to a transparent and accountable tax administration system.

Kenya's Economic Outlook

The economy is projected to remain strong and resilient in 2024 and over the medium term supported by the continued robust growth of the services sectors, the rebound in agriculture, and the ongoing implementation of measures to boost economic activity in priority sectors by the Government. As such, the economy is expected to remain strong and expand by 5.5 percent in both FY 2023/24 and FY 2024/25.

Appreciation

On behalf of the Board of Directors, I would like to thank the National Treasury and Economic Planning and look forward to their continued support as KRA fulfils its revenue mobilisation duty. I would also like to take this opportunity to thank my fellow Board members, KRA management, and all staff for their unwavering efforts to ensure the Authority's great revenue performance despite the adverse macroeconomic environment.

We appreciate our valued taxpayers' dedication to meeting their tax obligations and contributing to the overall goal of the government. Your dedication to our country by filing and paying your fair share of taxes has led us this far.

HON. NDIRITU MURIITHI

CHAIRMAN, KRA BOARD OF DIRECTORS

COMMISSIONER GENERAL'S STATEMENT

1) Introduction

The Financial Year 2023/24 marked the final year of the implementation of the 8th Corporate Plan (2021/22 to 2023/24). The plan's theme is *"Revenue Mobilisation through Tax Simplification, Technology-Driven Compliance, and Tax Base Expansion"*. The Plan builds on the successes gained by KRA since it was established by focusing on tax simplification, the use of modern technology and strategic partnerships. Despite an economic downturn caused by an unfriendly global fiscal climate, KRA achieved a revenue collection of **Kshs. 2.407 trillion** for the period July 2023 - June 2024, compared to **Kshs. 2.166 trillion** collected in the previous fiscal year.

2) Operating Environment

Despite the adverse effect of external shocks, Kenya's growth is projected to reach 5.2% on average during 2024-2026, mainly driven by the private sector as business confidence strengthens and the public sector continues to scale back. This growth will be supported by several factors, including the continued robust growth of the services sectors, a rebound in agriculture aided by anticipated adequate rainfall in most parts of the country, a decline in global commodity prices reducing production costs, and the ongoing implementation of measures by the Government to boost economic activity in priority sectors.

3) Revenue Performance

Revenue collection in the FY 2023/24 stood at **Kshs. 2.407 trillion** compared to **Kshs. 2.166 trillion** collected in the FY 2022/23. This translates to a performance rate of **95.5 percent** against the revenue target of **Kshs. 2.519 trillion**, and a revenue growth of **11.1 percent**.

It is important to note that revenue collection has progressively increased in the last 5 years from **Kshs. 1.6 trillion** in FY 2019/2020 to **Kshs. 2.407 trillion** in FY2023/24, thereby registering a growth of **50.4 percent** (or Kshs. 800 billion). The trend in revenue performance as shown in Figure 1 indicates consistent revenue growth from 2014/15 to 2023/24, with an average annual revenue growth of **9.7 percent** in the 10 years.

**Kenya Revenue Authority

Figure 1: Tax Revenue Trends (2014/15 – 2023/24)

i. Customs and Domestic Taxes Performance

Revenue collection by Departments is shown in Figure 2. Customs and Border Control collected **Kshs. 791.368 billion** in FY 2023/24 against a target of **Kshs. 836.709 billion** registering a revenue shortfall of **Kshs. 45.34 billion**. Customs revenues grew by **4.9 percent** over **Kshs. 754.090 billion** collected in the FY 2022/23 and recorded a performance rate of **94.6%**.

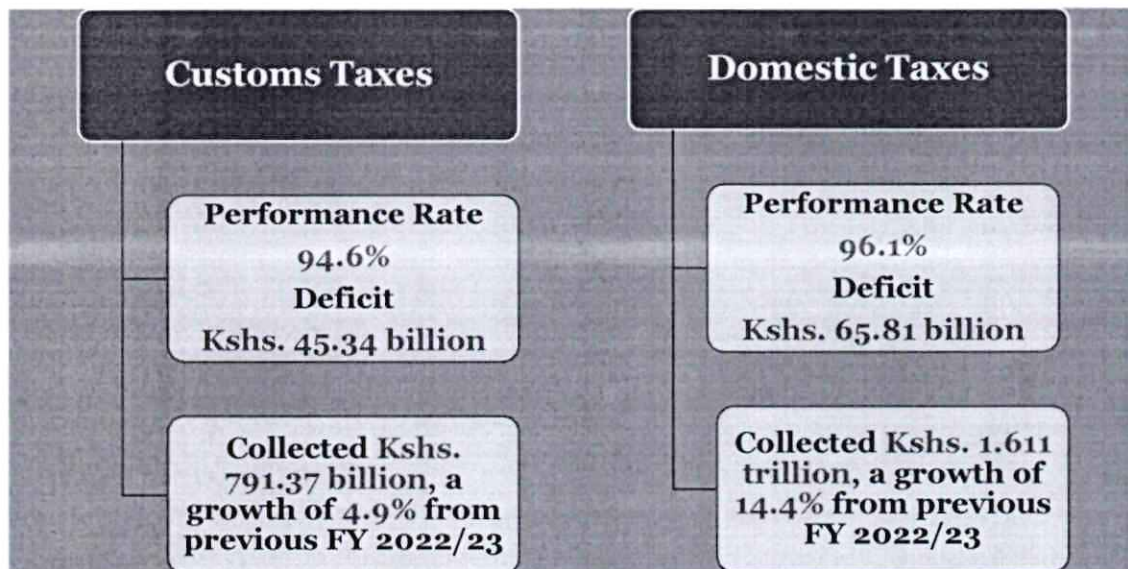

Figure 2: FY 2023/24 Performance rate against the target

On the other hand, the Domestic Taxes Department collected **Kshs. 1.611 trillion** in FY 2023/24 against a target of **Kshs. 1.677 Trillion**, a revenue shortfall of **Kshs. 65.8 billion**. Domestic tax revenue grew by **14.4 percent** over **Kshs. 1.407 trillion** collected in the FY 2022/23 and recorded a performance rate of **96.1 percent**.

ii. Performance of Key Tax Heads

Corporation Tax: Corporation tax collections stood at **Kshs. 278.16 billion** against a target of **Kshs. 297.73 billion**. The tax head recorded a growth of **4.9 percent** in the FY 2023/24. This performance was driven by increased remittances from sectors like: Wholesale & Retail Trade; Electricity, Oil & Gas; Transport & Storage; Accommodation & Food Service; and Education. These sectors contributed **20.5 percent** of the Corporation taxes.

Pay As You Earn (PAYE): P.A.Y.E collection was **Kshs. 543.19 billion** against a target of **Kshs. 580.72 billion**. The performance was mainly driven by remittance from private firms and the public sector, which grew by **13.4%** and **3.7%** respectively.

Domestic Excise: The tax head recorded a growth of **8.1 percent** in FY 2023/24, with a collection of **Kshs 73.62 billion** against a target of **Kshs 73.94 billion**. The performance is attributed to the growth in revenue from Beer (16.2% growth); Bottled Water (9.7% growth); Soft Drinks (12.2% growth); and Tobacco (1.9% growth).

Domestic VAT: Domestic VAT collection amounted to **Kshs. 314.16 billion** in FY 2023/24 compared to **Kshs 272. 45 billion** in FY 2022/23, a growth of **15.3 percent**. The growth is attributed to the implementation of the tax amnesty programme, which enhanced compliance among taxpayers.

4) Key Revenue Drivers FY 2023/24

The revenue growth is attributed to the implementation of key strategies contained in the KRA's 8th Corporate Plan. Some of these strategies include:

Tax Amnesty: Through the tax amnesty programme, KRA collected **Kshs. 43.9 billion**. This is after **2,617,111** taxpayers were granted amnesty in the financial year 2023/24.

Tax Base Expansion: The programme enabled KRA to collect **Kshs. 24.62 billion** in revenue. Some of the initiatives under the TBE include recruitment of landlords under the Monthly Rental income (MRI) and Block Management System (BMS) to map out potential taxpayers. Through the programme KRA recruited **1,247,543** additional taxpayers in the period under review.

Betting and Gaming Tax: The integration of betting and gaming companies into the system has given KRA real time access to companies in the sector. During the FY 2023/24, KRA collected **Kshs. 24.27 BILLION** in Excise Duty and Withholding Tax from **111** on-boarded companies.

Anti-Corruption Measures: The public and staff reported **883** cases involving tax malpractices. This was done through the iWhistle system and led to the recovery of **Kshs. 4.22 billion**.

Debt collection initiatives: KRA enhanced collection from debt programmes on non-compliant taxpayers, netting a total of **Kshs. 103.39 billion** in the FY 2023/24. This performance is attributable to follow-ups on demand notices and the debt instalment plans agreed upon with taxpayers.

Dispute resolution framework: The framework enhanced revenue collection from Litigation, Alternative Dispute Resolution (ADR), and Tax Appeals Tribunal (TAT). This enabled KRA to collect **Kshs. 60.47 billion** from **6,778** conclude cases.

KRA has continued to use technology to streamline tax administration and facilitate trade. Among the systems implemented are the Integrated Customs Management System (iCMS), iTax, Regional Electronic Management System (RECTS), Smart Gates, Data Warehouse and Business Intelligence, Integrated Scanners, as well as the Excisable Goods Management System (EGMS).

5) Outlook

The revenue target for the FY 2024/25 is **Kshs. 3.013 trillion**, implying a growth of **25.2 percent** over the FY 2023/24 collection. Revenue contribution for key tax categories in FY 2024/25 is as follows: PAYE (**20.7%**); Non-Oil taxes (**22.8%**); VAT Domestic (**13.5%**); Corporation Tax (**11.7%**); Oil taxes (**10.7%**); Withholding Tax (**7.6%**); among others.

The National Treasury projected that the economy would expand by **5.5 percent** in FY 2023/24 and maintain momentum over the medium term (2023/24-2025/26). Some of the factors that will likely impact the revenue outlook in the subsequent months of FY 2024/2025 include economic prospects in the country (mostly impacted by stringent monetary policies in the global economy, and geopolitical conflicts, among others).

The Authority has successfully implemented the final phase of the 8th Corporate Plan (2021/22 to 2023/24). With the continued support of taxpayers, the projected economic growth of 5.5 percent in FY 2023/24, a progressive tax policy framework, tax simplification, and a robust tax compliance mechanism, KRA is confident that it will meet its targets and enable the government to finance its economic agenda.

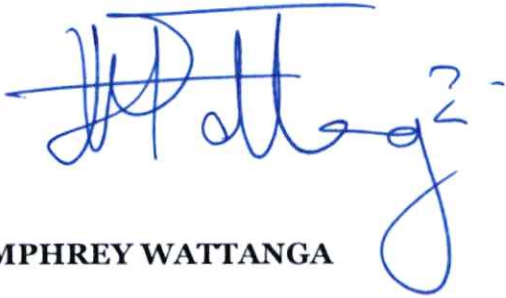

Beginning this financial year 2024/25, KRA will implement a five-year 9th Corporate Plan under the theme "Unlock and tap the full revenue potential through technology transformation, service excellence, and integrity". This plan focuses on KRA's ongoing transformation through technological advancements, promoting service delivery excellence, and fostering a culture of integrity. These efforts are expected to unlock new revenue streams while optimising existing ones, and ensuring Kenya's long-term growth and development.

6) Conclusion

I would like to thank the KRA Board of Directors, management, and staff for their hard work and dedication during the just concluded financial year 2023/24. I am glad to inform you that, despite the volatile and unpredictable economic environment coupled with other challenges, KRA recorded impressive revenue growth. I also take this opportunity to thank The National Treasury and Economic Planning for the support accorded to KRA in executing its mandate.

**REVIEW OF KENYA REGULATORY & NON-COMMERCIAL ENTERPRISE'S
PERFORMANCE FOR FY 2023/24**

Statement of Performance against Pre-Determined Objectives

KRA has four balanced scorecard perspectives and four overarching goals within its strategic plan for the period 2021/22 to 2023/24. These strategic perspectives are:

- 1) Revenue,
- 2) People,
- 3) Customer, and
- 4) Business process.

KRA develops Annual Work Plans based on the above four perspectives. Assessment of the Board's performance against its annual work plan is done monthly by perspective. KRA achieved most of its performance targets set for the FY 2023/24 period for its four strategic perspectives as indicated in Table 1.

MANAGEMENT DISCUSSION AND ANALYSIS

1. Revenue Performance and Growth FY 2015/16 – FY 2023/24

KRA continues to implement her mandate of assessing, collecting, and accounting for all revenues per specific laws governing it. At the same time, the Authority, advises on matters relating to the administration of, and collection of revenue under the written laws or the specified provisions of the written laws while performing such other functions concerning revenue as directed by the Cabinet Secretary for National Treasury and Economic Planning.

The following sections present the revenue collected, the contribution from the two main departments, and the collection against the target for the nine years. It also gives an overview of some anticipated risks and their mitigation measures.

Figure 1 presents the revenue collection trend from FY 2015/16 to FY 2023/24. The figure shows consistent revenue performance in this period, with average annual revenue growth of **9.6 percent** in the nine years and **13.2 percent** in the last three years. The highest revenue growth was recorded in FY 2021/22 at **21.7 percent**.

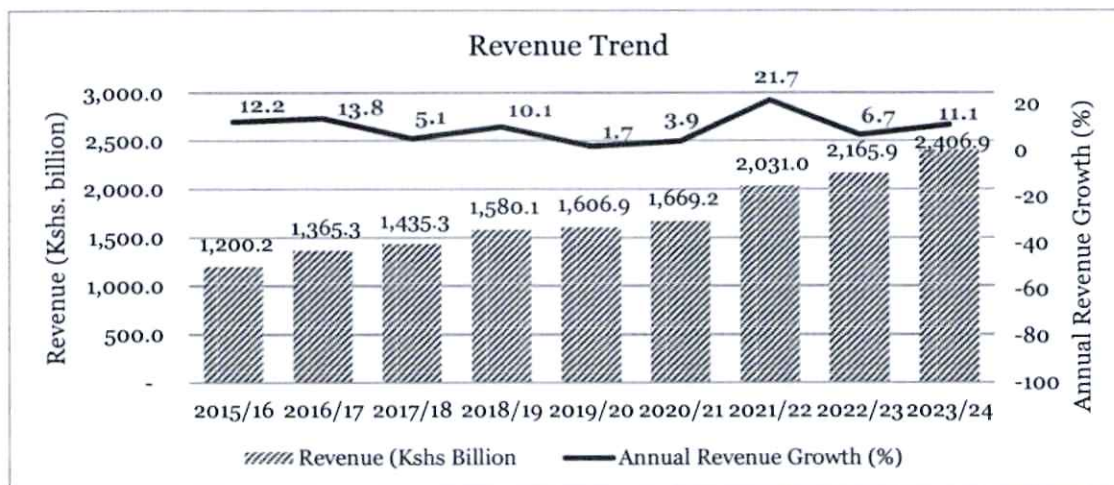

Figure 3: Tax Revenue Trends (2015/16 – 2023/24)

As shown in Figure 2, Customs and Border Control collected **Kshs. 791.37 billion** in the FY 2023/24 against a target of **Kshs. 836.71 billion** registering a revenue shortfall of **Kshs. 45.34 billion**. Customs revenues grew by **4.9 percent** over **Kshs. 754.09 billion** collected in FY 2022/23 and recorded a performance rate of **94.6%**. On the other hand, the Domestic Taxes Department collected **Kshs. 1.611 trillion** in FY 2023/24 against a target of **Kshs. 1.677 trillion**, a revenue shortfall of **Kshs. 65.8 billion**. Domestic tax revenue grew by **14.4 percent** over **Kshs. 1.407 trillion** collections in FY 2022/23 and recorded a performance rate of **96.1 percent**.

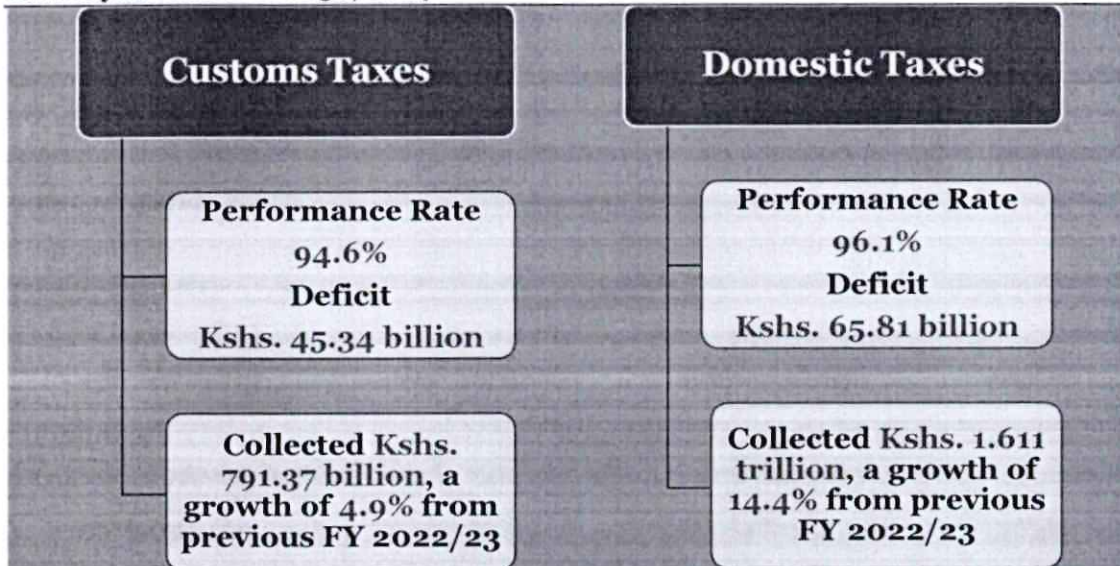

Figure 4: FY 2023/24 Performance rate against the target

2. Revenue Performance against Target FY 2015/16 – FY 2023/24

In Figure 3, we present the historical performance of revenue against revised targets. It is noted that the target has been revised over the years to adjust for changes in the macroeconomic environment that dictates the level of revenue collection. For the last nine years, KRA has consistently missed her target by an average of **2.65%**. However, in FY 2020/21 and FY 2021/22, the targets were surpassed by **1.04%** and **2.78%** respectively despite the challenges in the operating environment. In FY 2023/24, the revenue collection fell short of the revised target by **4.45 percent**.

Figure 5: FY 2015/16 - FY2023/24 Actual Collection against Revised Target

3. Risks and Mitigation in the 8th Corporate Plan

While KRA remains optimistic about implementing her mandate, we take cognisance of the risks that can lead to challenges in the implementation of this mandate. For this reason, risk mitigation measures have been put in place to ensure effective risk management. Some of the anticipated risks are discussed in this section.

a. Non-registration of taxpayers

To mitigate this risk, KRA's Eighth Corporate Plan implemented tax base expansion through the recruitment of new taxpayers, subjecting persons and entities to taxes that were previously exempt, and the addition of new obligations to the taxpayers already in the tax base. The strategies for tax base expansion focus on the taxation of the informal sector, the use of a geographic information system for block management system, increased compliance by high net-worth individuals to promote equity, taxation of the digital economy, and strategic collaboration and partnerships for revenue mobilisation.

b. Taxpayer/customer experience risk

To mitigate this risk, KRA has enhanced efforts towards simplification of tax processes and technology links to make it easy for taxpayers to comply with their tax obligations. KRA is also implementing tax policy reforms to ensure stability and clarity of tax laws and avert risks associated with policy formulation and design.

c. Data integrity risk

This is the risk that data stored and processed by information technology (IT) systems are incomplete, inaccurate, or inconsistent across different IT systems. KRA is in the process of cleaning up the taxpayer database. A clean taxpayer database is critical for revenue mobilisation as it ensures that the taxpayers have the correct obligations and ledger balances reflect the correct position.

d. Smuggling risk

This comes about due to the instability and underdevelopment of some neighbouring countries thus facilitating smuggling across porous borders. This risk is mitigated through the following strategies: i) Use of East Africa Community Centralized Platform for information and data

exchange interface; ii) Work with the multi-agency task force to tackle security, smuggling, and illicit trade; and iii) Improve border management.

4. KRA Project Portfolio

KRA is implementing the following projects with the goal of effectively delivering its primary mandate of revenue mobilization. The projects are at different stages of completion and are shown in Table 2.

ENVIRONMENTAL AND SUSTAINABILITY REPORTING
Employee Welfare Activities for FY 2023/2024

The Authority complies with Occupational Safety and Health Act of 2007 (OSHA) as operationalised by Work Environment Standard Policy. This enhances provision of safety and health for internal and external stakeholders (both male and Female) as follows;

- i) Promoting and maintaining high standards of health and safety of employees, customers and general by;
 - a) conducting sensitizations on regular basis
 - b) Reporting accidents and incidences to Directorate of Occupational Safety and Health(DOSH) when they occur.
- ii) Ensuring Annual work environment Audits are conducted in the workplaces as follows;
 - a) HR conducts and report gaps to relevant HoDs to ensure a safe and healthy work environment
 - b) Employees/ departments channel their work environment challenges to HR for facilitation as necessary
 - c) HR conducts regular work environment spot checks and submits recommendations for implementation to ensure compliance by relevant departments
 - d) Security and Safety Division reports accidents and incidences to DOSH when they occur.
- iii) Ensuring utilization of leave entitlement in compliance with the leave management policy as follows;
 - a) Facilitating staff to utilize their annual leave entitlement when it becomes due.
 - b) HR conducts sensitizations on the importance of leave (rest and avoid burn out) on a regular basis.

Efforts made in improving the reward systems

- a) The Authority in an effort to improve the reward system offers performance based rewards.
- b) The Authority offers competitive remuneration packages and benefits geared towards improving the pay package. To ensure the remuneration package remains competitive, the Authority has engaged a consultant to conduct a salary survey with a view to enhancing the remuneration package.

Efforts made in improving skills and managing careers

The Authority has continued to optimise capability human resource capability and capacity through implementation of talent management, structured trainings and repositioning KESRA as a premier training institution.

CORPORATE SOCIAL RESPONSIBILITY (CSR) STATEMENT

Statement Purpose:

The Corporate Social Responsibility (CSR) statement is a progress report on Kenya Revenue Authority (KRA) as a responsible corporate citizen. KRA's corporate sustainability target audience include employees, their families, local communities and society at large. The CSR initiatives are aimed to improve quality of life, the environment and the economy in the long-term. KRA focuses on four strategic pillars namely: **Environment, Health, Education, and Sports.**

In the financial year 2023/2024, KRA staff volunteers played a key role in the implementation of 45 social engagements. These initiatives are as follows; two (2) engagements under the environment pillar, three (3) under the health pillar, one (1) under education pillar and 39 engagements under the volunteers' programme respectively.

The theme of FY 2023/24 CSR initiatives

In this financial year, KRA focused on achieving its responsible corporate citizenship through partnership and volunteerism leading to the theme of: ***Ushirikiano na Kujitolea***. This statement highlights our journey of collaboration with both our internal and external partnerships for a common goal which is supporting initiatives for people, planet and profit. We are grateful to Commissioner General, Humphrey Wattanga (Mr). for supporting the social engagements and climate change mitigation by leading KRA staff in planting 377,388 trees in support the Government of Kenya 15B Tree planting drive.

Innovative approaches to CSR

- **Community engagements through social engagements**

In this financial year, KRA achieved 45 community social engagements through:

- a. The Tenda Wema campaign
- b. CSR staff volunteers programme

- a. Tenda Wema**

Tenda Wema campaign is a 'Do Good' staff initiative that encourages staff to support social engagements in-kind. We have implemented three (3) Tenda Wema initiatives that benefited 1598 people.

b. Staff Volunteers Programme

CSR staff volunteers' programme is an initiative that voluntarily registers staff to give hours of community service in social community engagements. So far, KRA has registered 368 CSR staff volunteers. In the FY 2023/24 KRA Volunteers gave 2275 Hours to community service. This is approximately 94 days of their time in serving the community. Through the volunteers' programme we implemented two activities:

1. Weekly volunteers' initiative
2. CSR Volunteers Handbook

1. Weekly Volunteers Initiative

Through the weekly volunteers' initiative staff participated in the Feeding Programme that is a partnership between KRA and Relationship Haven. This initiative is supported by the Hindu Council of Kenya. This initiative is conducted every Sunday from 12.30 pm to 5:00 pm where staff visit informal settlements in Nairobi. In the FY 2023/24 154 KRA volunteers participated in 39 activities and served **10,729** families and children in Nairobi slums namely; Huruma, Elite school Kibera, Komarock Market, Makadara boys center, Imara Daima, Mission Hope Pangani, Mathare Christ Hope, Shinning Hill Academy, Njiru, Jericho Makadara, Viwandani Makadara, Mukuru Kayaba, Kicheko, mlolongo, Dagoretti South, Christian Restoration Church Matopeni, Pangani ward, Dagoreti Lenana area, Mwiki Kasarani area and Baba Dogo among others.

2. Volunteers Handbook

KRA developed a CSR Volunteers' Handbook whose purpose is to act as a volunteer's guide and facilitate the on-boarding process of newly registered volunteers. The handbook provides registration details and timesheets for documenting volunteers activities.

Environment pillar

• Tree growing

In this financial year, KRA has planted 377,388 against a target of 300,000 tree seedlings. This was made possible through adoption of forest in all KRA regions across the country. The trees were grown in the following locations: Mau Forest, Kinale Forest, Mangrove Forest, Mt. Elgon Forest, Kajulu Forest, Ganahola, Suam Forest, Lower Imenti Forest and Elbagon-Kiptunga Forest.

- **E-Waste Initiative**

KRA has also implemented an E-Waste Management initiative in partnership with WEE Centre. This initiative advances the Sustainable Development Goals and Circular economy through collecting, recovering and recycling all electronic waste. On December 8, 2024, KRA held a staff sensitization session on the importance of E-Waste management. This session aimed to educate staff and raise awareness about the E-Waste management initiative.

Education pillar

Since 2022, KRA has engaged various partners and volunteers to mentor 549 students, youth and teen mothers in Ngong, Kibra, Njiru and Mukuru kwa Reuben.

- **Mentorship initiatives**

Shinning Hill Junior & Secondary School

In the financial year 2023/24 CSR conducted a mentorship programme at Shinning Hill Junior and Secondary on 9th February 2024 at Njiru, Kasarani. This programme saw 191 students mentored on issues of drug abuse, teenage pregnancies and early marriages. The mentorship was carried out by approved KRA counsellors and approved peer educators Mrs. Bertha Kanyili and Mr. Samuel Githinji from Customs & Boarder Control Department.

Mentoring these students is important as it shows KRA's commitment to ensuring the wellbeing of Kenya's future tax payers.

Health pillar

The Health pillar is two pronged with KRA corporate led initiatives and volunteers driven initiative that supports neurodiversity and sanitary dignity.

- **Neurodiversity & Inclusivity.**

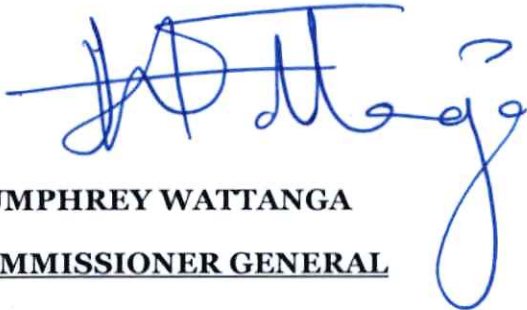

In July 2023, CSR organized a neurodiversity initiative at Percy Davies Special Schools in Murang'a, showcasing its commitment to supporting neurodiversity communities. The school has 202 special needs children mostly affected by autism.

In October 2023, KRA conducted a staff sensitization on dyslexia at the workplace to mark the global Dyslexia Awareness month.

- **Sanitary dignity – Code Red Campaign**

Code Red is an initiative that aims to address the need for menstrual hygiene and infant care products in correctional facilities for women and children. Its primary objective is to supply essential sanitary pads and diapers, fostering a healthier and more supportive environment within the prison system.

This initiative was achieved through staff donations of sanitary towels, diapers and dignity kits to women prisons in Kenya and schools. The Code Red campaign benefitted 1,097 women and 45 children's in Langata Women's Maximum Prison, Kisumu Women Prison, Shimo la Tewa Women Prison, Saika Group 'Njiru Feminist' at Silanga in Saika and St. Thomas Aquinas Komosoko secondary school in Isebania

Date:

STATEMENT OF DIRECTORS' RESPONSIBILITIES

Section 81 of the Public Finance Management Act, 2012 and the Kenya Revenue Authority Act require the Directors to prepare financial statements in respect of the Authority, which give a true and fair view of the state of affairs of the Authority at the end of the financial year and the operating results of the Authority for that year. The Directors are also required to ensure that the Authority keeps proper accounting records which disclose with reasonable accuracy the financial position of the Authority. The Directors are also responsible for safeguarding the assets of the Authority.

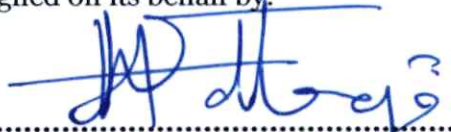

The Directors are responsible for the preparation and presentation of the Authority's financial statements, which give a true and fair view of the state of affairs of the Authority for and as at the end of the financial period ended on June 30, 2024. This responsibility includes: (i) maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period; (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the entity; (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv) safeguarding the assets of the Authority; (v) selecting and applying appropriate accounting policies; and (vi) making accounting estimates that are reasonable in the circumstances.

The Directors accept responsibility for the Authority's financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act, 2012 and The KRA Act. The Directors are of the opinion that the Authority's financial statements give a true and fair view of the state of Authority's transactions during the financial period ended June 30, 2024, and of the Authority's financial position as at that date. The Directors further confirm the completeness of the accounting records maintained for the Authority, which have been relied upon in the preparation of the Authority's financial statements as well as the adequacy of the systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Authority will not remain a going concern for at least the next twelve months from the date of this statement.

REPORT OF THE AUDITOR-GENERAL ON KENYA REVENUE AUTHORITY FOR THE YEAR ENDED 30 JUNE, 2024

PREAMBLE

I draw your attention to the contents of my report which is in three parts:

- A. Report on Financial Statements that considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the financial statements.
- B. Report on Lawfulness and Effectiveness in the Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure the Government achieves value for money and that such funds are applied for the intended purpose.
- C. Report on Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, risk management environment and internal controls, developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

A Qualified Opinion is issued when the Auditor-General concludes that, except for material misstatements noted, the financial statements are fairly presented in accordance with the applicable financial reporting framework. The Report on Financial Statements should be read together with the Report on Lawfulness and Effectiveness in the Use of Public Resources, and the Report on Effectiveness of Internal Controls, Risk Management and Governance.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012, and the Public Audit Act, 2015. The three parts of the report when read together constitute the report of the Auditor-General.

REPORT ON THE FINANCIAL STATEMENTS

Qualified Opinion

I have audited the accompanying financial statements of Kenya Revenue Authority set out on pages 60 to 103, which comprise of the statement of financial position as at 30 June, 2024 and the statement of financial performance, statement of changes in net

assets, statement of cash flows and statement of comparison of budget and actual amounts for the year then ended and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of Kenya Revenue Authority as at 30 June, 2024 and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with, the Public Finance Management Act, 2012.

Basis for Qualified Opinion

1.0 Inaccuracies in the Financial Statements

Review of the financial statements submitted for audit revealed the following inaccuracies

- i. The statement of financial performance reflects agency income of Kshs.32,293,063,000 as disclosed in Note 3 to the financial statements. However, as further analyzed in Note 11 to the financial statements, the Authority received a funding of Kshs.29,901,566,000 (Kshs.28,811,566,000 in 2023/2024, Kshs.1,090,000,000 in July, 2024) out of the approved budget. The budget for the year 2023/2024 lapsed on 30 June, 2024. Therefore, the receipt of the undisbursed amount of Kshs.2,391,497,000 remain uncertain and contradicts Paragraph 31 of IPSAS 23 which states that an inflow of resources from a non-exchange transaction, other than services in-kind, that meets the definition of an asset shall be recognized as an asset when, and only when: it is probable that the future economic benefits or service potential associated with the asset will flow to the entity; and the fair value of the asset can be measured reliably.
- ii. The statement of financial performance reflects administrative expenses of Kshs.30,839,311,000 as disclosed in Note 5 to the financial statements. The amount includes depreciation charge of Kshs.496,548,000. However, Note 8 to the financial statements on property, plant and equipment movement schedule reflects depreciation charge for the year of Kshs.548,604,000 resulting in unreconciled variance of Kshs.52,056,000.
- iii. The statement of changes in net assets reflects a revaluation surplus for the year of Kshs.2,150,564,000. However, Note 8(i) reflects a surplus of Kshs.2,143,750,000, resulting in unreconciled variance of Kshs.6,814,000.
- iv. The statement of cashflows reflects net cashflows from operating activities of Kshs.1,234,180,000. However, a reconciliation Note on net cashflows from operating activities using the indirect cashflow method has not been disclosed as required by the Public Sector Accounting Standards Board reporting template.

- v. The statement of comparison of budget and actual amounts reflects final approved revenue budget and recurrent expenditure budget of Kshs.39,315,851,000 and Kshs.34,567,345,000 respectively. Similarly, the statement reflects final actual revenue and recurrent expenditure on comparable basis of Kshs.36,705,404,000 and Kshs.34,269,443,000. However, the actual amounts have been presented on accrual basis, while the budget is on cash basis contrary to Paragraph 7 and 14 of IPSAS 24 and the reporting template issued by the Public Sector Accounting Standards Board (PSASB). Further, explanation on material differences between the budget and actual amounts had not been disclosed as required paragraph 14 of IPSAS 24.

In the circumstances, the accuracy and completeness of the balances reflected in financial statements could not be confirmed.

2.0 Unsupported Administrative Expenses

The statement of financial performance reflects administrative expenses of Kshs.30,839,311,000 as disclosed in Note 5 to the financial statements. The balance includes insurance costs of Kshs.403,920,000 which has not been supported with details of insurance premiums paid. Further, the amount includes expenditure on printing and stationery amounting to Kshs.4,076,000 which was not supported with any documentary evidence.

In the circumstances, the accuracy and completeness of administrative expenses of Kshs.407,996,000 could not be confirmed.

3.0 Inaccuracies in Receivables Balance

The statement of financial position reflects receivables balance of Kshs.829,047,000 as disclosed in Note 10 to the financial statements. The balance includes Kshs.267,693,000 in respect of staff debtors. Included in the staff debtors is an imprest of Kshs.2,153,057 relating to officers who had exited the Authority. Although Management has provided for doubtful debts of Kshs.1,883,000, the recoverability of the Kshs.2,153,057 remains doubtful. Further, imprest of Kshs.508,800 relates to officers who were deceased and which Management had proposed for write-off. However, as at the time of audit, no feedback had been received from The National Treasury in regards to the write-off.

In addition, the balance includes prepayments made to suppliers of Kshs.57,653,000 which further include Kshs.14,424,546 paid to a local company for the supply, installation, testing and commissioning of Lifts at Customs House, Mombasa. Although the amount has been reflected as a prepayment, certificates of payment and invoices provided indicate that the payment relates to partial works already performed and certified.

In the circumstances, the accuracy of the receivables balance of Kshs.829,047,000 could not be confirmed. In addition, the collectability of the debt remains uncertain.

4.0 Property, Plant and Equipment Balance

The statement of financial position reflects property, plant and equipment balance of Kshs.33,278,045,000 as disclosed in Note 8 to the financial statements. The following anomalies were noted;

4.1 Delayed Transfer of Assets from Work in Progress

Note 8 to the financial statements reflects work in progress balance of Kshs.3,756,075,000 as at 30 June, 2024. However, supporting documentation such as original contracts and interim payment certificates were not provided to support the work in progress. Further, the Note reflects transfers from Work in Progress (WiP) of Kshs.257,881,000 comprising of motor vehicles; fixtures and fittings; fiber optic based Metropolitan Area Network (MAN); and Enterprise Network Management and WAN optimization solution; valued at Kshs.10,000,000; Kshs.39,653,000 Kshs.163,084,037 and Kshs.48,042,385 respectively. The completion certificates indicate that the works were purchased and works completed between 2020 and 2021.

However, the assets have been carried in the books as WiP and transferred in their respective classes of assets in the financial year under audit thereby misstating the depreciation charge for the year.

4.2 Land Without Title Documents

Note 8 to the financial statements reflects land valued at Kshs.12,851,064,000 as at 30 June, 2024. According to the valuation report for the properties, the balance includes 13 parcels of land without titles valued at Kshs.2,285,941,000. Management indicated that these properties were at various stages of registration with the National Land Commission and Ministry of Lands. In absence of the titles, the ownership of the parcels of land and the developments thereof could not be confirmed. The Note also indicates that the Authority was allocated five (5) plots which have been gazetted as border entry points. However, these plots have not been valued and Titles have also not been obtained. Management also indicates that four (4) plots measuring 7.4 Ha and with a value of Kshs.44,588,942 had disputes with other Government agencies and that an inter-agency committee had been formed to resolve the disputes. However, no disclosures have been provided in the financial statements.

4.3 Depreciation of Revalued Assets

Review of records revealed that Management revalued land and buildings; computers; motor vehicles; motor boats plant and machinery; and office equipment between 2022 and 2023. The revalued balances were adopted by the Board and were to take effect on 1 June, 2024. However, no depreciation was charged on the revalued assets in the month of June, 2024 contrary to the Authority's policy on Property, Plant and Equipment, which states that assets are stated at cost or valuation less accumulated

depreciation and annual impairment losses, and that depreciation is prorated on a monthly basis.

In the circumstances, the accuracy and completeness of property, plant and equipment balance of Kshs.33,278,045,000 could not be confirmed.

5.0 Intangible Assets Balance

The statement of financial position reflects intangible assets with a net book value of Kshs.20,052,000 as further disclosed in Note 9 to the financial statements. Although a list of the intangible assets was provided for audit, supporting documentation was not provided. It was therefore not possible to confirm if the assets conform to the recognition and valuation criteria set out in paragraph 16 and 28 of IPSAS 31.

Further, the intangible assets include fully amortized assets with an historical cost of Kshs.2,623,384,200 and which are still in use. This is contrary to provisions of paragraph 96 of the IPSAS 1 which states that that the depreciable amount of an intangible asset with a finite useful life shall be allocated on a systematic basis over its useful life.

In addition, the Note does not provide a distinction between internally generated and other intangible assets as required by paragraph 117 of IPSAS 31.

In the circumstances, the accuracy of the intangible assets balance of Kshs.20,052,000 could not be confirmed.

6.0 Excise Stamp Liability

Note 15 (B) to the financial statements reflects excise stamp liability of Kshs.3,625,708,000 which operates on a cost recovery model under Excisable Goods Management System (EGMS). However, it was observed that the Authority incurred costs due to an imbalanced pricing model for non-alcoholic beverages, where the stamp prices are set below the actual cost. This has resulted in the Authority absorbing the costs associated with this pricing structure leading to accumulation of debts.

Further, a stock take report for the stamps as at 30 June, 2024 indicates that 9,686,358 stamps of unknown value were lost. However, no evidence was provided on the type of the stamps lost, when the stamps were lost and investigations on the circumstances leading to their loss.

Additionally, the Authority had initiated a procurement process for a new EGMS system, as the existing contract was set to expire in July, 2023. This procurement process was approved by the Board in a meeting held on 23 March, 2023. However, as at the time of audit in December, 2024, the process had not been concluded, and it remains unclear whether the Authority will continue extending the contract.

Further, in a letter Ref: 1071/22/01'A'/(42)) from The National Treasury to the Commissioner General, the Authority was instructed to proceed with the handover process of the EGMS from the current service provider to the Kenya Revenue Authority.

However, the extent of this handover process could not be determined, particularly in the context of ongoing contract extensions. The addendum to the expired contract did not clarify whether the handover would include both the software and hardware or whether a solution from a new supplier would be compatible with the assets being transferred. This uncertainty arises amid efforts to source a new supplier.

In the circumstances, the accuracy of the excise stamp liability of Kshs.3,625,708,000 and the sustainability of the cost recovery model could not be confirmed.

The audit was conducted in accordance with International Standards for Supreme Audit Institutions (ISSAIs). I am independent of the Kenya Revenue Authority Management in accordance with ISSAI 130 on the Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Emphasis of Matter

1.0 Working Capital Management

I draw attention to the statement of financial position which reflects total current assets of Kshs.3,940,590,000 and total current liabilities balance of Kshs.13,426,662,000, resulting to a negative working capital of Kshs.9,359,144,000. This is an indication that the Authority is in a net liability position and may not be able to settle liabilities when they fall due. It is also noted that during the year, current liabilities increased significantly by Kshs.2,526,780,000 compared to current assets which increased by Kshs.613,708,000, a reflection of Authority's continued accumulation of debts.

2.0 Long Outstanding Trade Payables

The statement of financial position reflects payables of Kshs.10,747,699,000 as further disclosed in Note 15 to the financial statements. The payables balance includes Kshs.6,742,004,000 in respect of trade creditors, whose balances have been outstanding for more than 365 days. Also Included is Kshs.60,022,000 which relates to invoiced amounts by the Administration Police for guarding KRA premises for the period July 2016 to January 2018 before gazettelement of the Authority as a protected area vide Legal Notice No.96 of 17 April, 2019. However, records maintained by the State Department for Internal Security and National Administration indicates that the bill had accrued to Kshs.418,004,000 as at 30 June, 2023, leaving unreconciled variance of Kshs.357,182,000. Although management indicated that it was engaging the State Department for waiver of the debt, the same had not been granted as at the time of Audit.

3.0 Amount Due from The National Treasury Not Recoverable

The statement of financial position reflects amount due from The National Treasury of Kshs.17,371,838,000 as disclosed in Note 11 to the financial statements. The balance is classified as non-current asset and represents cumulative funding allocation not received

by the Authority over the years. The recoverability of the balance due from the National Treasury is in doubt.

My opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, are of most significance in the audit of the financial statements. Except for the matters described in the Basis for Qualified Opinion section, I have determined that there are no other key audit matters to communicate in my report.

Other Matter

Non-Disclosure of the Board Performance and Remuneration

The corporate governance statement does not indicate the results of the Board evaluation conducted by the State Corporation Advisory Committee. Further, there is no disclosure of the remuneration to board members individually, the accounting officer and senior management as required by Mwongozo code of governance for State Corporations

In the circumstances, the completeness of non-financial information could not be confirmed.

Other Information

The Management is responsible for the other information set out on page 1 to 59 which comprise of Key information and Management; Board of Directors; Management Team; Chairman's Statement; Commissioner General's Statement; Review of Kenya Regulatory and Non-commercial Enterprise; Corporate Governance Statement; Management Discussion and Analysis; Environmental and Sustainability Reporting; Corporate Social Responsibility; Report of the Board of Directors and Statement of Directors' Responsibility. The Other Information does not include the financial statements and my audit report thereon.

In connection with my audit on the Kenya Revenue Authority financial statements, my responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information and I am required to report that fact. Based on the audit procedures performed and the matters described in my Basis for Qualified Opinion, I confirm that other information is not materially inconsistent with the financial statements.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN THE USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, except for the matters described in the Basis for Conclusion on Lawfulness and Effectiveness in the Use of Public Resources section of my report, I confirm that nothing else has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

1.0 Non-Compliance with Authority Guidelines on Internship

Review of the internship records revealed instances where 53 interns were engaged for a period of more than two years. This was contrary to the Authority's internship and attachment policy clause 8.3.11 which states that internship period will not exceed one (1) year, but may be extended for a period not exceeding one (1) year, in exceptional cases.

In the circumstances, Management was in breach of the Authority's guidelines on internship and attachment.

2.0 Non-Compliance with the Transfer Policy Guidelines

Review of staff transfers effected during the year revealed that 57 officers transferred from hardship areas had served in the stations for a duration of between two (2) and seven (7) years while 214 officers transferred from other stations had served in the previous workstation for a period of between 4 and 36 years. In addition, human resource records indicate that twenty (20) staff members posted to hardship areas had overstayed with some having served for over ten years without rotation. This is contrary to Section 8.1 of the Authority's transfer policy which states that officers shall not remain in the area of assignment for more than two years in gazetted hardship areas and not more than 4 years in all other areas of assignment. Although Human Resources Department indicated that it had issued memos to the relevant departments, no justification was provided for the delayed redeployment.

In the circumstances, Management was in breach of the Authority's transfer policy guidelines.

3.0 Secondment of Staff to The National Treasury

Review of records revealed that the Authority seconded a commissioner and three senior management officials who are engaged on contractual terms to The National Treasury. This is contrary to Section B,33 (1) of the Public Service Commission Human Resource Policies and Procedures Manual, 2016 which states that secondment of officers from the

Public Service to other organizations is applicable to pensionable officers. Further, the staff continued to draw salary from the Authority despite their deployment.

In the circumstances, the Board was in breach of the Public Service Commission Guidelines on secondment of staff in the public service.

4.0 Failure to Prepare Financial Statements for Car Loan and Mortgage Scheme

The statement of financial position reflects secure deposits of Kshs.3,155,916,000 as disclosed in Note 12 to the financial statements. The balance is placed as security against staff mortgage advances and car loans. However, separate financial statement had not been prepared and submitted for audit as required by the Salaries and Remuneration Commission Circular dated 17 December, 2014 on car loan and mortgage schemes for state officers and other public officers of Government of Kenya which advised on the mortgage benefits for all state officers and other public officers in Kenya.

In the circumstances the Management was in breach of the law.

5.0 Delinking of Kenya School of Revenue Administration from Agency Operations

Review of records revealed that the Authority owns Kenya School of Revenue Administration (KESRA) which was established to enhance the capacity building of staff members and provide a learning platform for the public on tax affairs. However, the activities of KESRA do not fall within the core mandate of the Authority as outlined in the Kenya Revenue Authority Act. Further, the School is a registered institution having the Technical and Vocational Education and Training Authority (TVETA) Certificate and the National Industrial Training Authority (NITA) Approval. However, separate financial statements for the school were not prepared.

In the circumstances, the operations and financial performance of KESRA could not be confirmed.

The audit was conducted in accordance with ISSAI 3000 and ISSAI 4000. The standards require that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements comply in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, I confirm that, except for the effects of the matter discussed in the Basis for Conclusion on Internal Controls, Risk Management and Governance section of my report, nothing else has come to my attention to cause me to believe that internal controls, risk management and governance were not effective.

Basis for Conclusion

Weaknesses in Internal Control Over Management of Authority Information System

Review of records revealed an intrusion on the Regional Electronic Cargo Tracking System (RECTS) system between 4 and 14 March, 2023, where 11 alert incidences were noted involving a truck on transit. These incidents were traced to an unknown user created in the Nakuru Rapid Response Unit, where the alerts were being routed. A report by management dated 12 July, 2023 indicated that a staff member, who was the RECTS system administrator, had created users in the system. These users were located in Nakuru and Eldoret, and were set to receive alerts. As a result of this intrusion, cargo of unknown value was lost. Management indicated that investigations relating to one thousand one hundred and eight (1,108) custom entries are in progress to determine if there was any revenue loss. No evidence was provided on actions taken to avert occurrence of a similar incident in future. Further, management has not provided details on the culpability of staff members or other parties involved, nor have they elaborated on any legal actions to be taken against those responsible.

In Addition, review of records revealed that nineteen (19) individuals were involved in tampering with tax payers ledgers to effect irregular refunds. Among the individuals involved, one person was not a staff member. Out of the 18 staff members, eight (8) were interdicted, four (4) retired, two (2) are deceased and four (4) were dismissed from service. However, details of the taxpayers' ledgers affected by the irregular refunds, and steps taken to recover irregular refunds (if any) or rectify incorrect transactions were not provided.

In the circumstances, the effectiveness of Management's internal controls over information system could not be confirmed.

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal controls, risk Management and overall governance were operating effectively in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of the Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal controls as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal controls, risk management and governance.

In preparing the financial statements, Management is responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters

related to going concern and using the going concern basis of accounting unless Management is aware of the intention to cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements comply with the authorities which govern them and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the Authority's financial reporting process, reviewing the effectiveness of how Management monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

My responsibility is to conduct an audit of the financial statements in accordance with Article 229(4) of the Constitution, Section 35 of the Public Audit Act, 2015 and the International Standards for Supreme Audit Institutions (ISSAIs). The standards require that, in conducting the audit, I obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error and to issue an auditor's report that includes my opinion in accordance with Section 48 of the Public Audit Act, 2015. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with IFPP will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In conducting the audit, Article 229(6) of the Constitution also requires that I express a conclusion on whether or not in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way. In addition, I consider the entity's control environment in order to give an assurance on the effectiveness of internal controls, risk management and governance processes and systems in accordance with the provisions of Section 7 (1) (a) of the Public Audit Act, 2015.

Further, I am required to submit the audit report in accordance with Article 229(7) of the Constitution.

Detailed description of my responsibilities for the audit is located at the Office of the Auditor-General's website at: <https://www.oagkenya.go.ke/auditor-generals-responsibilities-for-audit/>. This description forms part of my auditor's report.

Notes:

The variance in performance in the expenditure lines is due to funding from funds rolled over from FY 2022/2023. It is noted that the Authority had been under funded in the financial year hence expenditure was more than the funding for the financial year.

NOTES TO THE FINANCIAL STATEMENTS

1. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

The financial statements have been prepared on a historical cost basis except for the measurement at re-valued amounts of certain items of property, plant and equipment, marketable securities and financial instruments at fair value, impaired assets at their estimated recoverable amounts and actuarially determined liabilities at their present value. The preparation of financial statements in conformity with International Public Sector Accounting Standards (IPSAS) allows the use of estimates and assumptions. It also requires management to exercise judgement in the process of applying the entity's accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note 1 (o).

The financial statements have been prepared and presented in Kenya Shillings which is the functional and reporting currency of the Authority and all values are rounded to the nearest thousand (Kshs. 000).

The financial statements have been prepared in accordance with the PFM Act, the Kenya Revenue Authority Act and International Public Sector Accounting Standards (IPSAS). The accounting policies adopted have been consistently applied to all the years presented.

ADOPTION OF NEW AND REVISED STANDARDS

New standards and amendments to published standards effective for the year ended 30 June 2024

- i. *New and amended standards and interpretations in issue effective in the year ended 30 June 2024.*

There were no new and amended standards issued in the financial year.

- ii. **Relevant new standards and amendments to published standards but not yet effective for the year ended 30 June 2024**

Standard	Effective date and impact:
IPSAS 43	<p><i>Applicable 1st January 2025</i></p> <p>The standard sets out the principles for the recognition, measurement, presentation, and disclosure of leases. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cashflows of an Entity.</p> <p>The new standard requires entities to recognise, measure and present information on right of use assets and lease liabilities.</p> <p><i>The standard will have a significant impact on the accounting treatment of operating leases by the Authority.</i></p>

Standard	Effective date and impact:
IPSAS 47- Revenue	<p><i>Applicable 1st January 2026</i></p> <p>This standard supersedes IPSAS 9- Revenue from exchange transactions, IPSAS 11 Construction contracts and IPSAS 23 Revenue from non- exchange transactions. This standard brings all the guidance of accounting for revenue under one standard. The objective of the standard is to establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flow arising from revenue transactions.</p> <p><i>Management is accessing the impact of this Standard to the Financial Statements of the Authority.</i></p>
IPSAS 48- Transfer Expenses	<p><i>Applicable 1st January 2026</i></p> <p>The objective of the standard is to establish the principles that a transfer provider shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of expenses and cash flow arising from transfer expense transactions. This is a new standard for public sector entities geared to provide guidance to entities that provide transfers on accounting for such transfers.</p> <p><i>Management is accessing the impact of this Standard to the Financial Statements of the Authority.</i></p>
IPSAS 49- Retirement Benefit Plans	<p><i>Applicable 1st January 2026</i></p> <p>The objective is to prescribe the accounting and reporting requirements for the public sector retirement benefit plans which provide retirement to public sector employees and other eligible participants. The standard sets the financial statements that should be presented by a retirement benefit plan.</p> <p><i>Management is accessing the impact of this Standard to the Financial Statements of the Authority.</i></p>

iii. Early adoption of standards

The Authority did not early – adopt any new or amended standards in year 2023/2024.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Revenue Recognition

i) Agency Income

In accordance with the Kenya Revenue Authority Act CAP 469, income to the Authority is “such amounts not exceeding 2% as may be determined by the Minister each financial year” of the total estimated revenue to be collected by the Authority on behalf of the Exchequer. In addition, the Authority is entitled to a Bonus of 3% of the surplus revenue collected above the estimates and also earns income from other activities. Agency Income is recognised.

ii) Revenue from exchange transactions

Finance Revenue

Finance revenue comprises interest receivable on fixed and security deposits. The revenue is recognised as it accrues in using the effective yield method. Interest income is derived from short term placements held in approved commercial banks.

Rental income

Rental income is recognised on a straight line basis over the lease term.

Commission revenue

Commission income comprises agency fees charged on collections made on behalf of other regulatory bodies.

Other operating income

Other income is recognised when significant risks and rewards of ownership are transferred to the recipient and the amounts of revenue can be reliably measured.

(b) Development funding and capital grants by the Treasury

Grants by the Treasury in form of assets or funding for acquisition of major assets or development projects are recognized as a financing reserve when received. No repayment of the financing is expected by the Authority.

(c) Property, Plant and Equipment

All categories of property, plant and equipment are stated at cost or valuation less accumulated depreciation and annual impairment losses. Depreciation is calculated to write off the cost or valuation of each asset to its residual value where applicable, over the expected useful life of the asset in equal instalments. Depreciation is prorated from the month of purchase but no charge is made in the month of disposal.

The estimated useful life is as follows: -

Plant & Machinery	8 years
Equipment/Furniture/Fittings	8 years
Equipment – Loose Tools	5 Years
Boats	8 years
Motor Vehicles	5 years (with a 10% residual value)
Computers	3 years
Computer Software	3 Years
Buildings	40 years
Leasehold land	Over the remaining lease period

Gains or losses on property, plant and equipment are determined by reference to their carrying value and are taken into account in determining the surplus / (deficit) for the year.

(d) Intangible Assets

Intangible assets consist of various computer software systems purchased for use by the Authority. The Authority recognises Intangible Assets acquired separately at cost less accumulated amortisation. Amortisation is charged on a straight-line basis over their useful lives as estimated by management from time to time.

(e) Cash and Cash equivalents

For purposes of the cash flow statement, cash and cash equivalents comprise cash in hand and short-term deposits held with banks.

(f) Translation of foreign currencies

Transactions in foreign currencies during the year are converted into Kenya Shillings at rates ruling at the transaction dates. Assets and liabilities at the balance sheet date, which are expressed in foreign currencies, are translated into Kenya Shillings at the rate ruling on that date. The resulting foreign exchange gains and losses are recognized on a net basis, differences are dealt with in the income and expenditure statement in the financial year in which they arise.

(g) Employee benefits costs

(i) Retirement benefit obligations

The Authority operates a hybrid pension scheme with a defined contribution plan for the permanent and pensionable employees. Payments to the scheme by the Authority are recognised as an expense when employees have rendered service entitling them to the contributions. The scheme is funded by contributions from both the entity and the employees. The entity and all employees also contribute to the National Social Security Fund, which is a defined contribution scheme.

ii) Other entitlements

Employees' entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for outstanding leave at the reporting date.

(h) Inventories

Inventories are stated at the lower of cost and net realisable value. The cost of inventories comprises purchase price, import duties, transportation and handling charges, and is determined on the weighted average price. Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the Entity.

(i) Receivables

Receivables are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Objective evidence of impairment of the receivables is when there is significant financial difficulty of the counter party or when there is a default or delinquency in payment according to agreed terms. When a receivable is considered uncollectible it is written off. Subsequent recoveries of amounts previously written off are credited in the Statement of Financial Performance. Changes in the carrying amount of the allowance account are recognized in the Statement of Financial Performance.

(j) Payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer), otherwise they are presented as non-current liabilities.

Trade payables are recognized initially at the transaction price and subsequently measured at amortized cost using the effective interest method.

(k) Provisions

Provisions for liabilities are recognised when there is a present obligation (legal or constructive) resulting from a past event, and it is probable that an outflow of economic resources will be required to settle the obligation and a reliable estimate can be made of the monetary value of the obligation.

(l) Budget information

The KRA Board of Directors approved the original budget for FY 2023-2024 on 15th August 2023. The initial funding allocation by the National Treasury (TNT) for FY 2023/24 was insufficient to support operations i.e. staff costs, existing contracted services and other revenue operational costs up to the end of the Financial Year. The funds were expected to last a maximum of 8 months to February 2024.

An additional funding of Kshs.10.98 Billion was allocated from the National Treasury to cater for Budget Deficit for revenue mobilization operations under Article 223 of the Constitution of Kenya 2010. The 1st Revised Budget was prepared, presented, approved and signed by the Board on 13th February 2024.

Further, the National Treasury effected a second budget revision as a result of the reduction of Kshs. 3.5 Billion of the Authority's supplementary budget. This was presented to the Board and approved on 23rd May 2024.

(m) Nature and Purpose of Reserves

The Authority creates and maintains reserves in terms of specific requirements. The Authority has created Capital Grants from the National Treasury reserves to represent the National Treasury's input by directly funding capital development for the Authority.

The Revaluation reserves represent the surplus arising from the revaluation of the Authority's Property, Plant and Equipment.

(n) Related Parties

The Authority regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the Entity, or vice versa.

(o) Critical Accounting Estimates and Judgements in applying the Authority's accounting policies

In the process of applying the entity's accounting policies, management has made estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. These are dealt with below:

Critical accounting judgments in applying the Authority's policies

Impairment losses

At each reporting date, the entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the entity estimates the recoverable amount of the cash generating unit to which the asset belongs.

Plant and equipment

Property and equipment is depreciated over its useful life taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed at the reporting date and may vary depending on a number of factors. In reassessing asset lives, factors such as technological innovation, product life cycles and maintenance

Kenya Revenue Authority
Annual Reports and Financial Statements
for the year ended June, 2024

programmes are taken into account. Residual value assessments consider issues such as future market conditions, the remaining life of the asset and projected disposal values.

Contingent liabilities

The directors evaluate the status of any exposures on a regular basis to assess the probability of the entity incurring related liabilities. However, provisions are only made in the financial statements where, based on the directors' evaluation, a present obligation has been established.

	<u>3,305,600</u>	<u>2,761,311</u>

The Commissions Income represents amounts earned on agency revenue collections as per the Service Level Agreements (SLAs) with the principals.

- The decrease in Road Maintenance Levy Commission and Petroleum Development Levy is attributable to the under performance in the revenue collection hence reduced commission arising therefrom.

**Kenya Revenue Authority
Annual Reports and Financial Statements
for the year ended June, 2024**

- The increase in Air Passenger Service Charge Commission is attributable to increase in revenue collection performance.
- The decrease in Aviation Revenue Commission and NCCG Commission is attributable to expiry of the Service Level Agreements with the Kenya Civil Aviation Authority and Nairobi County Council Government respectively. KRA no longer collects the related Revenue items.
- The Authority commenced the collection of National Industrial Training Authority's income in Q4 FY 2022/2023.
- The Authority commenced the collection of the Affordable Housing Levy and Solatium Agency Commissions in FY 2023/2024.

* The Transfer/Adjustments is in respect of Accumulated Depreciation as at 30 June 2023 which has been reversed in accordance with the requirements of IPSAS 17 Section 50. The adjustment of Kshs. 175 Million relate to correction of a compensating error in cost and depreciation in buildings.

(ii) Land & buildings

The Authority received several leasehold properties (land and buildings) from the government at inception in 1995. The Authority was not required to pay for the property hence did not incur any cost on the same. To recognize the property in its books, the Authority undertook a professional valuation of the land and buildings in 1996 and the values were adopted in the Authority's statement of financial position. The assets were revalued again in the Financial Year 2016/17 and the values adopted in the statements.

The Authority is yet to receive title documents for 7 pieces of leasehold land from the Government. These properties are at various stages of registration with the Commissioner of Lands. The Authority was allocated 5 plots of land in Halugho, Amuma, Gerille, Elwak & Diff which have been gazetted as border entry points. The five (5) plots are yet to be valued.

(iii) Revaluation of Property, Plant and Equipment

The Authority carried out a revaluation of Land & Buildings, Computers, Motor Vehicles, Motor Boats, Plant & Machinery and Office Equipment in May 2024, and has adopted the revalued amounts in the Statement of Financial Position. The valuation was done by internal professionally qualified valuers who adopted the Depreciated Replacement Cost approach method of valuation for all the classes apart from Land where the Market Comparable approach was adopted. The revaluation established the value of an asset in reference to recent comparable transactions involving sale of similar assets by ascertaining fair value in an active and liquid market. The revaluation surplus / deficits for individual items within these classes have been disclosed in the asset movement register above.

Other agency debtors represent outstanding commission on collection of revenues on behalf of other organisations. Staff debtors mainly comprise of outstanding travel imprests, loans for acquisition of laptops and medical advances.

The increase in prepayment is attributable to advance payments for the development of Rapid Response Unit offices.

The provision for doubtful debt relates to rent receivables from premises in Wilson Airport and Forodha house and amounts owed by former staff members who have since left the Authority, the collectability of the amounts is uncertain.

The Authority earned a commission of Kshs. 447 Million for collection and remittances of Nairobi City County Government (NCCG) revenue collections in the period November 2022 to August 2024. The Authority is engaging the NCCG in order to collect the commission which accrued outside the contracted period and the amount yet to be recognised as a receivable.

Following vandalism and malicious damage of KRA property during the May 2024 political riots, the Authority lodged a claim of Kshs. 12.3 Million with the insurance company for the affected assets. The claim has not been recognised in the receivables.

Taxes	127,489	89,788
	<u>7,121,991</u>	<u>3,443,290</u>

Trade creditors and accounts payables represent the outstanding payments to suppliers and other parties, Payroll deductions include outstanding amounts for statutory deductions, loans, SACCOS contributions and others. Staff creditors comprise of outstanding payments due to staff and funds for staff welfare associations.

B. Excise Stamps Liability

Grand Total Payables	<u>10,747,699</u>	<u>8,237,026</u>

Excise Stamps are supplied on a cost recovery model. The payable for the supply of the stamps is attributable to the disproportionate pricing model for the non-alcoholic beverages, which are priced below the cost of stamps, the depreciation of the Kenya Shilling against the Euro and the disproportionate volume mix between non-alcoholic and alcoholic beverages.

In order to mitigate the accumulation of further debt, the Authority has negotiated with the supplier on a revised pricing model and settlement of bills in local currency. Further, KRA has initiated the process of handing over the Excisable Goods Management System (EGMS) to KRA which would significantly reduce the price of the stamps and hence stop accumulation of further debt.

The Authority appealed to the National Treasury for the provision of funds to settle the debt and an allocation of Kshs. 2 Billion was provided in the Financial Year 2022/2023 Supplementary Budget with a further commitment to provide Kshs. 2.47 Billion in Financial Year 2023/2024 the Medium Term. The amounts have not been disbursed and the Authority is following up with the National Treasury for the settlement.

27. FINANCIAL RISK & CAPITAL MANAGEMENT

The Authority's activities expose it to a variety of financial risks including credit and liquidity risks and effects of changes in foreign currency. The Authority's overall risk management programme focuses on unpredictability of changes in the business environment and seeks to minimise the potential adverse effect of such risks on its performance by setting acceptable levels of risk.

The Authority's financial risk management objectives and policies are detailed below:

(i) Credit risk

The Authority has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk arises from cash and cash equivalents, and deposits with banks, as well as agency and other receivables.

The carrying amount of financial assets recorded in the financial statements representing the Authority's maximum exposure to credit risk is made up as follows:

Kenya Revenue Authority
Annual Reports and Financial Statements
for the year ended June, 2024

	Fully Performing Kshs 000	Past Due Kshs 000	Impaired Kshs 000

Receivables	669,526	-	-
Security Deposits	3,078,470	-	-
Bank Balances	2,574,865	-	-

The credit risk associated with these receivables is minimal hence no allowance for uncollectible amounts has been recognised in the financial statements.

(ii) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Authority's directors, who have built an appropriate liquidity risk management framework for the management of the Authority's short, medium and long-term funding and liquidity management requirements. The Authority manages liquidity risk through continuous monitoring of forecasts and actual cash flows.

The table below represents cash flows payable by the company under non-derivative financial liabilities by their remaining contractual maturities at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

(iii) Market risk

The board has put in place an internal audit function to assist it in assessing the risk faced by the Authority on an ongoing basis, evaluate and test the design and effectiveness of its internal accounting and operational controls.

Market risk is the risk arising from changes in market prices, such as interest rate, equity prices and foreign exchange rates which will affect the Authority's income or the value of its holding of financial instruments. The objective of market risk management is to manage and

**Kenya Revenue Authority
Annual Reports and Financial Statements
for the year ended June, 2024**

control market risk exposures within acceptable parameters, while optimising the return. Overall responsibility for managing market risk rests with the Audit Committee. The Authority's Corporate Risk Department is responsible for the development of detailed risk management policies and for the day to day implementation of those policies. There has been no change to the Authority's exposure to market risks or the manner in which it manages and measures the risk.

(a) Foreign currency risk

The Authority has transactional currency exposures. Such exposure arises from foreign denominated bank balances.

The carrying amount of the Authority's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	2023/2024	2022/2023
	Kshs '000	Kshs '000
KRA US Dollar Account (NBK)	48,936	58,940

	<u>61,065</u>	<u>70,596</u>
Liabilities / Payables	-	-
Net Foreign currency liability	<u>61,065</u>	<u>70,596</u>

(b) Interest rate risk

Interest rate risk is the risk that the Authority's financial condition may be adversely affected as a result of changes in interest rate levels. The Authority's interest rate risk arises from fixed and security deposits. This exposes the Authority to cash flow interest rate risk.

(c) *Management of interest rate risk*

To manage the interest rate risk, management has endeavoured to bank with institutions that offer favourable interest rates.

(d) *Sensitivity analysis*

The Authority analyses its interest rate exposure on a dynamic basis by conducting a sensitivity analysis. The sensitivity analysis for interest rate risk assumes that all other variables, in particular foreign exchange rates, remain constant. The analysis has been performed on the same basis as the prior year.

Using the end of the year figures, the sensitivity analysis indicates the impact on the statement of financial performance if current floating interest rates increase/decrease by five percentage (5% as a decrease/increase).

(e) Price risk

The Authority does not hold investments that would be subject to price risk; hence this risk not relevant.

28. CONTINGENT LIABILITIES

These include:-

- Pending cases arising from Revenue and staff related matters. 33 undetermined cases have a specified claim amounting to Kshs 11,129 million while 9 cases have no specified quantum and will be determined by the Court after hearing. 6 cases amounting to Kshs 15 million have been concluded against the Authority and the National Treasury has been engaged to provide funds for settling the awards as they materialize.

Further, the Authority recorded a deficit of Kshs.2,488,550,000 for the year under review. Management has indicated that the negative working capital was as a result of non-disbursement of funds by The National Treasury. Although The National Treasury has committed to providing additional funding to the Authority during the 2023/2024 financial year, delayed and non-disbursement of funds may adversely affect the performance of the Authority.</p> <p>In the circumstances, the existence of material uncertainty casts doubt on the Authority's ability to continue to sustain its services and to meet its obligations as and when they fall due.</p>	<p>The National Treasury allocated additional funding for FY 2023/2024 of Kshs. 9.1 Billion out of which Kshs. 5 Billion had been disbursed by July 2024.</p> <p>Disbursement of all the amounts due from the National Treasury (including for past years) are been followed up. Basis for Conclusion				
<p>1. Anomalies in Excise Goods Management Systems (EGMS)</p>	<p>The statement of financial position reflects payables balance of Kshs.8,196,980,000 which, as disclosed in Note 15 to the financial statements includes an amount of Kshs.4,793,736,000 due to a supplier of excise stamps. Contract documents indicate that in 2015, KRA entered into a contract agreement with an international company for the printing, supply and delivery of security revenue stamps complete with track and trace and integrated production accounting system. The terms of the contract was based on a time factor subject to achievement of certain milestones including reaching the maximum number of 12,876,633,889 stamps or the contract period of 5 years whichever came earlier.</p> <p>On 4 May, 2021, an Addendum to the Agreement was signed for the terms of handing over the system to KRA upon expiry of the contract period of 2015. The Addendum also required the two parties to enter into a maintenance contract after the expiry of the 2015 contract. A second Addendum was signed on 23 December, 2022 increasing the maximum number of stamps to be supplied under the contract by 15% in order to provide time for handover, reduce the unit price and change the contract currency from the Euro to Kenya Shillings.</p> <p>As at 30 June, 2023, the debt owed to the</p>	<p><u>Status of an Excisable Goods Management System (EGMS) as at 22nd July 2024</u></p> <p>i.
