WANJIRU GIKONYO v ATTORNEY GENERAL

PETITION NO 94 OF 2018

CONSTITUTIONALITY OF NAIROBI AREA METROPOLITAN TRANSPORT
AUTHORITY (NAMATA)

PARLIAMENT
OF KENYA
LIBRARY

MEDIA BRIEF

Overview

Today, March 14, 2018, Ms Wanjiru Gikonyo, the National Coordinator for The Institute of Social Accountability (TISA) has filed a Petition at the High Court (Petition no. 94 of 2018) challenging the constitutionality of the Nairobi Metropolitan Transport Authority (NAMATA) that was created by Legal Notice No 18 of 2017. The Petitioner is represented by lawyers from Katiba Institute. The Respondents are The Attorney General and the Ministry of Transport and Infrastructure. The Petitioner has named Nairobi, Machakos, Kajiado, Murang's and Kiambu counties as Interested Parties.

The overall concern that triggered this litigation is that the national government is using NAMATA to clawback on devolution by unconstitutionally and unprocedurally assigning functions assigned to County governments by the constitution to NAMATA which is a state corporation. NAMATA, as created, has serious deleterious implication on devolution and the functioning of county governments. It is another effort by the national government to illegally and irregularly re-centralize governance contrary to the provisions of the constitution.

Background

On 21st October 2014, the Cabinet Secretary (CS) for the Ministry of Transport and Infrastructure signed a Memorandum of Understanding (MoU) with Governors of *Nairobi, Kajiado, Kiambu, Machakos*, and *Muranga* counties. The objectives of the MoU included establishment of a Nairobi

Metropolitan Transport Area Authority (NAMATA) to oversee a metropolitan transport system within the 5 counties.

On 20th February 2015, the CS appointed a Steering Committee to establish the Nairobi Metropolitan Area Transport Authority. On 4th March 2016, the CS extended the mandate of the Steering Committee for a period of one (1) year. On 9th February 2017, the President issued an Executive Order creating the Nairobi Metropolitan Area Transport Authority (NAMATA) through the Nairobi Metropolitan Area Transport Authority (NAMATA) Order, 2018. The Order was published in Legal Notice No 18 of 2017 under the State Corporations Act.

That means NAMATA is legally a state corporation performing county functions. On 9th February 2018, the Chairperson of the NAMATA Council appointed three people to the Board of the Nairobi Metropolitan Area Transport Authority in implementation of the Order.

The purpose for the creation of the Metropolitan Transport Area is to ensure the delivery of integrated, efficient, effective and sustainable public transport services by these counties in a joint and collaborative manner together with the national government. To realize this objective, the Order seeks to establish an intergovernmental joint entity or authority known as the Nairobi Metropolitan Area Transport Authority.

Article 189(2) of the Constitution 2010 provides that the national and county governments and the county governments can set up joint entities or authorities through which they can jointly discharge some of their functions and jointly deliver services. The governments establishing such a joint authority can by agreement in terms of Articles 187 and 189(2) to transfer or delegate some of their functions to the joint authority.

Intergovernmental Relations Act, 2012

Section 26 of the Act requires certain mandatory steps prior to transfer or delegation of powers, functions or competencies. One of those conditions is that the two governments must agree in writing. There must also be service standards for the transferred function. Section 29 of the Intergovernmental Relations Act includes public participation as one of the mandatory steps to be followed when negotiating an intergovernmental agreement.

Urban Areas and Cities Act, 2011

Section 6 of the Urban Areas and Cities Act 2011 provides that the capital city be governed and managed in the same manner as a county government. The Act allows the two levels of government to enter into an agreement on the performance of functions and delivery of services within the capital city.

Why NAMATA has been challenged in Court

The petition claims that the NAMATA Order is unconstitutional based on the following issues:

- There was no mandatory written agreement between the two levels of government to form NAMATA. A written agreement is required by section 26 of the Intergovernmental Relations Act, 2011 and section 6(5) of the Urban Areas and Cities Act, 2011.
- There formation of NAMATA was not preceded by the mandatory intergovernmental cooperation, consultation and negotiation required by law
- NAMATA interferes with the separation of powers and functions between national and county governments
- There was inadequate public participation on the decision to form NAMATA
- The National Assembly and County Assemblies were not notified of the transfer of county transport functions to the national government through NAMATA
- NAMATA Authority is a state corporation formed under section 3 of the State Corporations Act therefore owned by the national government. County functions cannot be delegated to a state corporation like NAMATA unless the counties agree
- By giving NAMATA the authority to collect revenue from county transport NAMATA deprives county governments of their revenue including through parking fees
- Because of this reduction in county revenue, NAMATA violates the obligation of the national government under Article 191 to ensure that counties have sufficient resources to undertake their functions.
- Since licensing of motor vehicles is already reposed in the NTSA under the NTSA Act, the duplication of functions in NAMATA, without justification, is an imprudent and irresponsible use of public money contrary to Article 201(d).

- The Order is unlawful for empowering the NAMATA Council to determine the financial contribution by counties without the input of county assemblies under Article 185
- NAMATA is allowed to retain, outside the County Revenue Fund, money raised or received on behalf of county governments
- The NAMATA Order allows money to be withdrawn from the county Revenue Funds unlawfully
- There are no minimum service standards or norms of performance for county transport function allocated to NAMATA
- Financing of NAMATA may affect other Counties other than those included in the NAMATA area yet these counties were not consulted.
- Allocating funds to NAMATA creates a third party at the table of division of revenue which is not provided for by the constitution.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED REHABILITATION OF ISEBANIA- MUKUYU-AHERO (A1) ROAD IN MIGORI, KISII, HOMA BAY AND KISUMU COUNTIES

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya National Highways Authority, is proposing a Rehabilitation of Isebania-Mukuyu-Ahero (A1) Road, in Migori, Kisii, Homa Bay and Kisumu counties. The project will involve rehabilitation of an existing 167 kilometers (km) Road from Ahero through Kisii to Isebania. The proposed road traverses four counties namely: Migori, Kisii, Homa Bay and Kisumu and touches the peripheries of Kericho and Nyamira counties. It starts at Ahero junction on B1 road then moves southerly via Katito, Onyungo, and Nyabondo to Sondu to Oyugis where it meets C26. From Oyugis, it moves via Mosochi and Nyamatara meeting the B3 road within Kisii town. From here, it changes direction via Suneka, Kamagambo, Rongo, Awendo, Uriri, and Kakrao near Mukuyu, Migori, and Isebania and terminates at the border at Nyabikaye. The Mukuyu-Kisii-Ahero section is a 149 km long single carriageway. Its average width is 4.5m and varying shoulder of 0.5-1.5m wide, built to bituminous standard in 1969. It now has exceeded its design life of 20-25 years. The rest of the stretch, about 18 km long from Mukuyu to Isebania had been improved to 7m wide carriageway with 1-1.5m wide shoulders is in better condition but scheduled for the rehabilitation.

The following are the anticipated impacts and proposed mitigation measures:

Identified Impacts

Proposed Mitigation

Climate Change

- Proposed designs provide for concrete culverts and ensure that the detailed drainage designs accommodates the projected Climate Change predictions.
- Plant trees along the road corridor.

Air quality

- Use of Personal Protective Equipment (PPE) by workers and all visitors to the site.

Noise generation and vibrations

- Contractor to agree noise limits/ noise control stations with NEMA and obtain a Construction Noise Permit prior to the commencement of construction work.
- Positioning Powered Mechanical Equipment (PME) so that noise is directed away from sensitive areas.
- Contractor to prepare for approval by KENHA a Health Management Plan (HMP) detailing means to protect site workers and community from excessive noise and vibrations.
- Construction activities to be scheduled carefully to minimize the impact of noise from construction machinery. Night time's uses of certain noisy machines, such as pile drivers and concrete vibrators, will be regulated. Special care to be taken when construction is taking place near sensitive receptors such as schools and hospitals.
- The location and operation of asphalt batch plants to be sited far from sensitive receptors, such as shopping centers, health facilities and learning institutions
- To the extent possible, heavy vehicles should not be used at night across populated areas especially in towns and settlement areas.
- Ensure that construction equipment is operating optimally and with operational noise mufflers.

Impacts on water quality

- Regulate working hours to minimize impacts.
- Installation of noise barriers.
- Areas dedicated for hazardous material storage shall provide spill containment and facilitate clean up through measures such as: maximum separation from sensitive features (water bodies); clear identification of the materials present; access restricted to authorized personnel and vehicles only and dedicated spill response equipment.
- Provide solid and liquid waste disposal system - a waste collector, NEMA recommended waste disposal manual and a waste collection bin for each housing unit, workshop, plant, structural shelter.
- Acquire all the relevant licenses prior to drilling boreholes through an abstraction permit from the Water Resources Management Authority (WRMA), and a license from NEMA.
- Explore possibility of sourcing construction water from other sources and not groundwater, given the high number of permanent rivers in the project area.
- Carefully select any permanent water sources, to be handed to the communities upon decommissioning.
- The Contractor should consult the community on suitable location for sinking the boreholes.

Solid/ liquid waste

- Provide solid waste disposal system - a waste collector, NEMA recommended waste disposal manual and a waste collection bin for each housing unit, workshop, plant, structural shelter, etc.
- Waste disposal site to have stone perimeter wall; 1.5 m high x 7 m long x 5 m wide at a far corner to contain disposed materials from wind and run-off.
- Keep records of all disposal/ potential disposal locations.
- Hazardous materials to be stored within dedicated areas at work camps and yards in full compliance with regulatory requirements and the contractor to ensure that all waste materials at the point of construction are transported to a place of safe disposal.
- Areas dedicated for hazardous material storage to provide spill containment and facilitate clean up through measures such as: clear identification of the materials present; access restricted to authorized personnel and vehicles only and dedicated spill response equipment
- Avoid spillage.
- Carry out remediation immediately.
- Empty containers to be managed carefully to avoid exposing life to possible poisoning.
- Replant with original vegetation at the completion of the construction phase
- Construction activities will be localized to specific site thus minimizing vegetation loss.
- Keep land clearance to a minimum and wherever possible avoid clearing areas

Vegetation loss

of highly erodible soils and steep slopes which are prone to erosion.

- Avoid the cutting down of trees as much as can be avoided.
- Constantly monitor bridge locations for new ecosystems/habitat development.
- Ensure that provision that has been made in the design for bridges, culverts, cut-off drains and side drains to improve drainage is adhered to.

Relocation impact

- Identify and Consult project affected persons and compensate them as per the laid down policies.
- Consult the Project Affected Persons (PAP's) on, and offer choices among technically and economically feasible resettlement alternatives.
- Land acquisition to be done before the contractor goes to site.
- Compensate those affected according to the laid down policies in collaboration with the Ministry of Lands.
- Implement an institutional structure or a mechanism for monitoring and evaluating the compensation/ resettlement process.

Change of landscape/visual intrusion

- Need to landscape the material sites/borrow areas and quarries after use to blend with the landscape as far as are reasonably possible.
- Spoil materials including solid waste produced at camping sites for road construction crews should be properly disposed.
- Proponent to set standards on advertising bodies on the need to observe road safety especially on the visual intrusion.
- Ensure that solid waste materials are properly disposed to suitable locations through awareness creation.

Occupational health and Safety of construction workers (OHS) and the communities along the corridor

- Draft and operational manuals in line with OSHA for approval by the proponent.
- Posting of clear and prominent warning signage at appropriate potential points of entry to hazardous areas.
- Keep verifiable records of all accidents and incidences.
- Draft operational policies on safety e.g. Alcohol use, speed limits.
- Spread awareness to curb vandalism of safety equipment and other installations.
- Installation of barriers like fences around active sites and other locations to prevent access to facilities by unauthorized persons.
- HIV/AIDS awareness and prevention campaigns and provision of condoms for road crews and adjacent communities.
- Establish Health clinics (VCT Centres) along the road with special attention to dangers of HIV/AIDS.
- Enlighten personnel and community about Malaria and use of mosquito nets including proper hygiene and sanitation, Proper disposal of containers and other wastes that may act as mosquito breeding grounds.

- Full clean-up costs should be incorporated into BOQ.
- Introduction of measures that intercept transmission of dust and other air pollutants likely to be generated to sensitive receptors when it cannot be entirely avoided.
- Vehicles and construction machinery to be properly maintained and to comply with relevant emission standards.
- Construction activities to be scheduled carefully to minimize the impact of noise from construction machinery. Night time's uses of certain noisy machines, such as pile drivers and concrete vibrators, to be regulated.
- Employing as many people as possible from the locality especially unskilled workforce will help them accept skilled labour from outside. This will promote cohesion and the spirit of the project.
- Strict adherence to OSHA standards that prohibit child labour.
- Contractor to work hand-in-hand with local leadership which may report on child labour and any work related grievances.
- Design to provide for utility ducts especially in the towns and trading centers for future crossing of utilities.
- Prepare a Utility Relocation Plan with drawings of the road and the utilities to be affected to facilitate early application for relocation of the utilities.
- To reduce accidents, appropriate road signs and road markings to be put in place to warn drivers of safety hazards especially while approaching bends, junctions, bridges, animal crossings, schools and shopping centres.
- To reduce the possibility of vehicle and animals collisions vehicle speeds shall not exceed posted speed limits and animal crossing warning signs shall be installed where appropriate.
- Training of boda boda riders on traffic regulations.
- Keep surveillance on roadside markets who encroach on the roads and interrupt visibility.
- Prepare a Utility Relocation Plan with drawings of the road and the utilities to be affected to facilitate early application for relocation of the utilities.
- Design to provide for utility ducts especially in the towns and trading centers for future crossing of utilities.
- Set up a cultural board within the county or other administrative level to safeguard and promote local cultural heritage like music, dance, folklore, artifacts.

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Vipingo Development Limited, proposes to undertake Phase 1 development that will see the construction of high quality reliable, cost effective and sustainable state of the art infrastructure. The proposed infrastructure is anchored on providing the most cost effective facilities and utilities in the area to ensure smooth running of activities in an urban environment with access to good roads, clean safe water, reliable electricity and high quality telecommunication services among others.

The total project area for Phase I measures about 900 acres of land. The design for the proposed Infrastructure development for Phase I of Vipingo mixed use development provides for the construction of various infrastructure aspects; road works, foot paths, culverts and drainage, road furniture, electrical installations, duct works (electrical) and Water reticulation.

The project is located along the Kenyan coastline, 30 kilometers (km) from the Port of Mombasa and Moi International Airport Mombasa, connected to the Mombasa-Malindi Highway and 40 km to the proposed Government Mariakani Logistics Hub. The site is strategically located between growing Mtwapa and Kilifi towns interconnected to the port of Mombasa, Mombasa Airport and LAPSET Project.

The following are the anticipated impacts and proposed mitigation measures:

Impact	Proposed Mitigation Measure
Noise and vibration	• Implement both engineering and administrative controls for machines and equipment to reduce noise pollution at the site. • Fitting noise machines with noise reduction devices. • Educating all workers on importance of making correct use of PPE. • Comply to Noise and Excessive Vibrations Regulations, 2009.
Dust generation	• Sprinkling of water at the site and access roads during dry conditions to suppress fugitive dust.

- Fix a dust proof net high above the hoarding.
- Strict enforcement on PPE use by all workers.

 - Set up a health and safety committee and periodic site inspections, training and annual safety audits.
 - Provide appropriate PPEs to workers and visitors to the site.
 - Adhere to the provisions of the Occupational Health and Safety Act of 2007.
- Generation of waste water
 - Adoption of water conservation opportunities.
 - Identify opportunities for reuse of waste water.
 - Treatment to meet national standards for waste water discharge.
 - Formulate and implement an inspection and maintenance program for the waste water disposal system.
- Storm Water
 - Storm water should be separated from processes and waste water streams in order to reduce the volume of waste water to be treated.
 - Run-off from areas with potential sources of contamination should be minimised and the peak discharge ratio.
- Increased demand for water and electricity
 - Incorporate rain water harvesting technology in the project design.
 - Encourage water reuse and/or recycling.
 - Use of energy efficient machines and appliances.
- Land degradation
 - Limit excavations to areas marked for development.
 - Apply a layer of selected backfill material on the access roads.

THE COUNTY GOVERNMENT ACT

(No. 17 of 2012)

THE COUNTY GOVERNMENT OF UASIN GISHU UASIN GISHU COUNTY PUBLIC SERVICE BOARD REPORT FOR THE YEAR 2014

1.0 Introduction

PURSUANT to section 59 subsection 1(f) of the County Government Act 2012, the functions and powers of the County Public Service Board inter alia, is to evaluate and report to the County Assembly each December on the extent to which the values and principles referred to in Article 10 and 232 of the Constitution of Kenya, 2010 are complied with in the county public service. Further section 59 subsections 5 of the County Government Act, 2012 states that the report prepared shall include:

- All the steps taken and decisions made by the Board in the realization of values and principles;
- Specific recommendations that require to be implemented in the promotion and protection of the values and principles;
- Specific decisions on particulars of persons or public body who have violated the values and principles, including actions taken or recommendations against them;
- Any impediment in the promotion of the values and principles and
- The programmes the Board is undertaking or has planned to undertake in the medium term towards the promotion of the values and principles.

The scope of this report is therefore limited to evaluation and reporting to the County Assembly the extent to which the values and principles as enshrined in Article 10 and 232 of the Constitution of Kenya, 2010 are embedded in critical Board decisions and policies with a view of translating these values into practice. This is aimed at ensuring that citizens not only access quality services, but do also recognize in officers serving them a spirit of fairness, integrity and respect for their rights and human dignity.

2.0 Measures/steps taken in the Realization of National Values and Principles of Public Service.

This section outlines the steps taken by the County Public Service Board (CPSB) to realize the national values and principles of public service. These steps have been grouped into eight broad and distinctly related categories namely: sharing and devolution of power, exercise of social justice and sovereign power, protection of human rights, leadership and governance, professionalism, sustainable development, prudent use of resources and impartial and timely provision of information.

2.1 Steps taken

The CPSB took the following steps in the realization of national values and principles of public service under each broad category specified in 2.0 above in the year 2014:

2.1.1 Sharing and Devolution of Power

This is outlined in Article 10 (2) (a): *sharing and devolution of power*

The National Government devolved most of its functions to County Governments in January, 2014 as provided in Article Six (6) of the Constitution of Kenya (CoK) 2010 with a view of bringing services closer to the people. Subsequently staff who served in the devolved functions were seconded to County Government. The Board took deliberate steps of integrating the said staff within the County Public Service in line with the Transition to Devolved Government Act, 2012.

The Board also staffed areas that were critically understaffed to match the additional devolved functions to ensure services were offered promptly and efficiently. In addition the Board in accordance with section 86 (1) of the County Government Act (CGA) 2012 delegated authority to Chief Officers and the County Secretary as a

deliberate step to give the said officers powers to handle Human Resource(HR) issues at their respective departments on behalf of the Board. The Board also constituted and empowered three critical committees namely: Training, Disciplinary and Human Resource Management Advisory to handle training issues, disciplinary hearing and staff promotions respectively.

2.1.2 Exercise of Social Justice and Sovereign Power

Outlined in Article 10(2)(a): *patriotism, national unity, the rule of law, democracy and participation of the people* and Article 232(1) (d): *involvement of the people in the process of policy making*.

The Board while developing its five year Strategic Plan (2014-2018) identified members of the key stakeholders and invited them to give their views to be incorporated in the Strategic Plan during the stakeholder's forum. Further the Board in collaboration with National Integration and Cohesion Commission also conducted a one day public forum during the year to educate members of the public.

Further, the Board has drafted the County Public Service Board Bill which once approved by the County Assembly will operationalize the Board's mandate in respect to promotion of national values and principles of public service.

2.1.3 Leadership and Governance

This is outlined in Article 10(2) (c): *Good governance, integrity, transparency and accountability* as well as Article 232 (1) (e): *Accountability for administrative acts*.

The Board advertised job opportunities in the print media and the County website with a view of attracting qualified candidates while offering equal opportunity to all. In addition, the Board conducted practical field interviews for plant operators which were witnessed by members of the public.

In the CPSB Strategic Plan, the strategic objective on governance and leadership outlines the steps to be followed in the promotion of national values and principles of public service. The Board further put in place mechanisms to ensure that it complied with good governance practices. To this end, a register of interests for its members has been opened for purposes of recording declarations of interest.

Additional efforts taken by the Board in enforcing the provisions of Chapter Six (6) of the CoK 2010 was entrenching of issues of ethics and integrity in the recruitment process of county officers by making it mandatory for applicants to seek clearance from Ethics and Anti-Corruption Commission (EACC), Higher Education Loans Board (HELB), Credit Reference Bureau (CRB), Department of Criminal Investigation (CID) and Kenya Revenue Authority (KRA) while applying for the advertised positions.

2.1.4 Professionalism

Outlined in Article 232 (a): *High standards of professional ethics*

The Board made efforts to develop its members through acquisition of necessary knowledge and skill to match its mandate. To address this, the Board sponsored its members to undertake Senior Management and Strategic Leadership Development Programme courses at Kenya School of Government. The Board also facilitated its members to attend seminars and conferences organized by various professional bodies including the Institute of Certified Public Accountants of Kenya (ICPAK), Institute of Certified Public Secretaries of Kenya (ICPSK), Kenya Institute of Management (KIM) and Institute of Human Resource Management (IHRM).

2.1.5 Protection of Human Rights

Outlined in Article 10(2) (b): *Human dignity, equity, social justice, inclusiveness, equality, human rights, non-discrimination and protection of the marginalized*; Article 232 (d): *Involvement of the people in the process of policy making*; Article 232 (h): *representation of Kenya's diverse communities* and Article 232 (i): *Affording adequate and equal opportunities for appointments, training and advancement, at all levels of the public service of; men and women, members of all ethnic groups and persons with disability*.

The Board advertised job opportunities in at least two daily newspapers with country-wide circulation and deliberately included a clause encouraging women and people with disability to apply with a view of addressing non-discrimination and protection of the marginalized to maintain inclusiveness. Further the Board applied

affirmative action to satisfy provisions of inclusiveness and protection of the marginalized.

2.1.6 Sustainable Development

This is outlined in Article 10(2) (d): *Sustainable development*

The Board successfully discussed the County departmental structures with respective County Executive Committee Members (CECs) during the year with the aim of attaining optimal staffing level for each department. The Board also facilitated the development of coherent, integrated human resource planning and budgeting for personnel emoluments for County staff.

In addition, the budget for the period 2014/2015 was prepared and presented to County Assembly for approval. The CPSB Strategic Plan for 2014-2018 was also developed and launched purposely to act as a road map for the Board to execute its mandate.

An advisory on development of a training policy was provided to the department of Public Service Management (PSM) and a Training Committee comprising of Chief Officers was constituted to handle training and development of County staff.

2.1.7 Prudent use of Resources

Outlined in Article 232(b). *Efficient, effective and economic use of resources*

Efforts were initiated by the Board to ensure that departmental structures were developed to address staff placement whereby skills will be matched with the jobs to ensure efficient and effective service delivery.

2.1.8 Impartial and Timely Provision of Information

Outlined in Article 232 (c): *Responsive, prompt, effective, impartial and equitable provision of services* and Article 232 (f): *Transparency and provision to the public of timely accurate information*.

The Board advertised all job vacancies in at least two newspapers with national wide circulation and also in the county website. The names of shortlisted candidates and dates of interviews were also published in the print media to ensure accurate information reached the interested parties.

Both successful and unsuccessful candidates were also contacted promptly through phone calls and short message service (SMS) about the interview outcome.

3.0 Milestones in the Promotion of National Values and Principles of Public Service

3.1 Introduction

Uasin Gishu County Public Service Board and the County at large in its efforts to realize the provisions made in Article 10 and 232 of the CoK 201 have made remarkable progress. The major focus is the extent to which the board has proactively put in place mechanisms to domesticate and operationalize national values and principles of public service. The Board developed a Strategic Plan that will serve as a road map in fulfilling its mandate. Further progress was realized through open and transparent job advertisements, delegation of authority and establishment of committees.

3.2 Milestones

Progress has been made as follows:

3.2.1 Sharing and devolution of power

This is outlined in Article 10 (2) (a): *sharing and devolution of power*

The National Government devolved staff to County Governments in January, 2014 and CPSBs were mandated to manage these staff. In this regard the Board integrated the said staff within the County Public Service in line with Transition to Devolved Government Act, 2012. In addition budgetary provisions towards personnel emoluments were enhanced in 2014/15 Financial Year courtesy of advisory from the Board to cater for devolved staff salaries.

In order to match the increased functions, additional staffs were recruited by the Board in departments that had staff shortages. This was aimed to ensure that services were offered in prompt and timely manner to the people of Uasin Gishu.

Three crucial committees namely, Disciplinary, Training and Human Resource Management Advisory were also constituted by the Board, informed by section 86 of the CGA 2012 on delegated authority. These committees drew its membership from the Chief Officers, County Secretary and County Human Resource Manager. These committees will further delegate authority within the County Public Service to address issues affecting staff promptly.

3.2.2 Exercise of Social Justice and Sovereign Power

Outlined in Article 10 (2) (a): *patriotism, national unity, the rule of law, democracy and participation of the people* and 232 (1) (d): *involvement of the people in the process of policy making*.

The Board has made great strides in promoting peace and cohesion of all communities living in Uasin Gishu County by partnering with National Cohesion and Integration Commission and conducting jointly public sensitization meetings on promotion of National Values and Principles of governance. In August, 2014 a successful meeting was held between a team from National Cohesion and Integration commission, members of Uasin Gishu CPSB and members of the public at Eldoret Polytechnic. While developing its Strategic Plan, the Board invited views from stakeholders to be incorporated in the document.

Advisories on pension arrangements, performance contracting, staff benefits, disciplinary controls, staff transfers and appointment of staff were independently given by the Board to County Government. The advisories were backed by relevant legal provisions and were geared towards ensuring that the rule of law was upheld.

The Board also observed gender distribution in all recruitments conducted and surpassed the thirty per cent legal requirement

3.2.3 Leadership and Governance

This is outlined in Article 10(2) (c) *Good governance, integrity, transparency and accountability* as well as Article 232 (1) (e) *Accountability for administrative acts*.

To promote transparency, the Board advertised job vacancies in two daily newspapers with countrywide circulation and uploaded the same in the County website to attract qualified candidates from across the country. Internal job advertisements were also placed in all Notice Boards of County Departments; authorized officers were advised to encourage qualified officers in their respective departments to apply. The Board underscored the fact that she is an equal opportunity employer and women and persons with disabilities were encouraged to apply. The Board observed Constitutional provisions that promote equity and inclusiveness.

The Board handled two disciplinary cases conclusively and others are in progress (Two officers were interdicted while three others were suspended pending the determination of their cases).

The findings and recommendations for the two concluded cases were forwarded to Public Service Commission of Kenya for action. Induction of Chief Officers and Sub-County Administrators on delegated authority which included disciplinary control and promotion of values and principles was conducted by the Board. Thereafter the delegated authority was operationalized through appointment of Disciplinary, Human Resource Advisory and Training Committees.

The Board further formed internal working committees namely, Recruitment, Selection, HR Policy and Audit, Administration and Governance, Disciplinary Control and Training Committee and Board Affairs which will eventually be transformed into directorates.

The Board has been collaborating with Government Institutions inter alia National Cohesion and Integration Commission of Kenya and Transitional Authority on matters of promotion of National Values and Principles of public service, devolution and staff rationalization

3.2.4 Professionalism

Outlined in Article 232 (a): *High standards of professional ethics*

Recruitment, selection and placement of all job opportunities were done professionally. There were no litigations arising from the exercise.

3.2.5 Protection of Human Rights

Outlined in Article 10(2) (b) *Human dignity, equity, social justice, inclusiveness, equality, human rights, non-discrimination and*

protection of the marginalized, and Article 232 (1): Affording adequate and equal opportunities for appointments, training and advancement, at all levels of the public service of, men and women, members of all ethnic groups and persons with disability.

Considerations were taken to ensure affirmative action was applied without compromising the minimum requirement for the advertised positions.

In all the job advertisements, the Board provided orders encouraging women and persons living with disabilities to apply

3.2.6 Sustainable Development

Outlined in Article 10 (2) (d) *Sustainable development*

The Board successfully held and concluded discussions with all respective County Departments on departmental structures during the year. The output of these discussions was the establishment of optimum staffing levels for each department. An advisory on development of a training policy was given by the CPSB to the relevant department and a training committee comprising of Chief Officers was thereafter constituted to handle Training and Career Progression needs of County staff.

In addition, the Board prepared 2014/2015 Annual Budget which was presented to the County Assembly for approval. The CPSB Strategic Plan 2014/2018 was developed and launched as road map for the Board to execute its mandate.

3.2.7 Prudent use of Resources

Outlined in Article 232 (b): *Efficient, effective and economic use of resources*

The Board has successfully concluded discussions on County Organizational Structures which addresses staff rationalizations and ensure that skills are matched with the right jobs hence efficient and effective service delivery.

The Board is monitoring the progress of Capacity Assessment and Rationalization of the Public Service (CARPS) and intends to fully adopt the findings and recommendations thereof.

3.2.8 Impartial and Timely Provision of Information

Outlined in Article 232 (c) *Responsive, prompt, effective, impartial and equitable provision of services* and Article 232 (f) *Transparency and provision to the public of timely accurate information*

To attract required skills, the Board managed to advertise all job vacancies in at least two newspapers with country wide circulation and in the county website. There were also internal adverts which gave opportunities for growth to existing county staff. Shortlisted candidates and dates for interviews were published in the print media.

Both successful and unsuccessful candidates were contacted through telephone calls and short text message service (SMS) to inform them of the interview outcomes.

4.0 Challenges Encountered in the Realization of National Values and Principles of Public Service

4.1 Sharing and Devolution of Power

There have been instances where lack of understanding of key issues around devolution has generated mistrust amongst stakeholders. There is inadequate infrastructure to support devolved units thus causing delays in service provision to the public. Devolved staff remains apprehensive due to perceived invasion of their previous scope of authority.

4.1.2 Exercise of Social Justice and Sovereign Power

There have been different interpretations of the roles of County Secretary, County Public Service Board and County Executive Committee in-charge of Public Service Management leading to turf wars in aspects of human resource management.

4.1.3 Leadership and Governance

Lack of support from the public in dealing with fraudsters especially in recruitment where job seekers are conned in the pretext of securing employment. Equally there is a slow pace of action from law enforcement institutions in dealing with reported cases of such fraud. On the other hand, members of the public lack clear

10

11

12

understanding of the recruitment process and feel that the Board is biased and rigid on the requirements of the job opportunities available.

4.1.4 Professionalism

There was inadequate reporting by supervisors on cases of professional malpractices in the work place leading to inability of the Board to deal with such cases.

4.1.5 Protection of Human Rights

Members of the minority and marginalized in some cases do not have the requisite minimum qualifications for certain appointments thus making it difficult for the board to apply affirmative action. There is a perception from these groups that jobs are already allocated to the dominant ethnic group hence they do not apply. Additionally the public rely on grape vine as opposed to formal communication from the Board and fail to seek clarification leading to misinformation.

4.1.6 Sustainable Development

There was slow process of putting in place a County Organizational Structure this has which affected rationalization of staff. Further there was resistance to change which is evident particularly on the health sector where staff have not embraced devolution.

4.1.7 Prudent use of Resources

Processes aimed at staff rationalization by the different authorities for instance human resource capacity assessment audit (Transition Authority), Skills Audit (Department of Public Service Management) and Capacity Assessment and Rationalization of the Public Service (Ministry of Devolution and Planning) have led to wastage of resources and subjected to uncertainty and subsequent underperformance.

4.1.8 Impartial and timely Provision of Information

The limited access by the public to print and electronic media curtails accessibility to information released by the Board in relation to recruitment within the County Public Service.

5.0 Recommendations and Way Forward

5.1 Recommendations

While implementing the requirements of Article 10 and 232 of the Constitution, challenges were inevitable. To address the various challenges encountered by the Board, the following recommendations are made:

1. Parameters of good governance should be identified from the Constitution and other legal provisions so as to provide a frame work for implementation.
2. Governance structures to be put in place to allow the roll out of various activities that promote National Values and Principles of Governance to County staff and members of the public.
3. Put in place a monitoring and evaluation tool to gauge performance levels in all departments.
4. Draw a programme of activities that targets the sensitization of various cadres of officers on Constitutional requirements pertaining to good governance.
5. Fast track the CPSB Bill to operationalize the Board's mandate.

5.1 Way Forward

Outlined in The County Government Act 2012 section 59 (5) (e): *The programmes the Board is undertaking or has planned to undertake in the medium term towards the promotion of the values and principles.*

In the CPSB Strategic Plan (2014-2018), the Board undertakes to improve the governance index in the Public Service by promoting National Values and Principles of Governance and Values and Principles of Public Service in the County Public Service. To achieve this, the Board will:

1. Determine the parameters for good governance from the constitution and any other written law through identification of activities, within the County Public Service, that promote National Values and Principles of Governance and Values and Principles of Public Service as well as sensitization of public officers and the public on parameters of good governance.

2. Establish a system for implementation of good governance in the County Public Service through a County Governance framework that entails putting in place a Governance Committee and facilitation of the development and roll out of a County Public Service code of conduct.

3. Annually measure and evaluate the governance index through establishment of the key performance indicators, setting of annual targets based on established parameters and undertaking an annual survey to determine the governance index within the County Public Service.

Other measures to be undertaken by the Board in promotion of the National Values and Principles of Governance and Values and Principles of Public Service are:

- (a) Continuous sensitization of County Public Service Officers on the provision of the Constitution and other applicable Laws.
- (b) Providing regular advisories to the County Executive Committee on aspects of human resource management and development that enhance the practice of good governance.
- (c) Through the County Public Service Board Bill 2014, the Board will formulate a policy framework to guide its activities relating to informing and educating the public on National Values and Principles of Governance and Values and Principles of Public Service.

GAZETTE NOTICE NO. 983

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ESTABLISHMENT OF A 2.5 MW
BIOMASS POWER PLANT USING PROSOPIS JULIFLORA AS
FEEDSTOCK ABOUT 1 KM FROM GARISSA TOWN TOWARDS
RIVER TANAIN GARISSA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent (Northern Energy Limited) is proposing to establish a biomass power plant to produce 2.5MW of electricity using *Prosopis juliflora* (SW) DC as a feedstock about 1 Km from Garissa Town towards River Tana in Garissa County.

The following are the anticipated impacts and proposed mitigation measures:

| Impacts | Mitigation measures |
|---|---|
| Vegetation loss and Soil erosion | <ul style="list-style-type: none"> The developer will undertake grass and flower planting to avoid the soils being washed or carried by wind. Places of least vegetation cover will be identified and only construction points will be completely cleared to ensure minimum vegetative disturbance. Wherever possible vegetation within the biomass plant site should be preserved and where plants must be uprooted they should be recycled into use as construction materials, firewood or converted into soil manure. Plant and maintain flowers and ornamental trees along the paths and around the buildings. |
| Soil disturbance by vehicle movements, digging of pits and scooping of Surface soil | <ul style="list-style-type: none"> Movement of vehicles outside the designated areas to be minimized as much as possible. Alterations of soil surface should be avoided as much as possible. |
| Air pollution from moving vehicles | <ul style="list-style-type: none"> Spray water on paths used by vehicle to reduce dust. When possible vehicles should be used off the peak hours of people and livestock movement. |
| Noise from machineries and movement of Vehicles | <ul style="list-style-type: none"> Use vehicle and machineries and equipment that are of good mechanical condition. Ensure the machines used are adequately serviced. Noise level should be kept within acceptable limits as stipulated in EMCA (Noise and excessive vibrations pollution) Workers exposed to high noise should wear PPE e.g., ear plugs. |
| Vibrations on the ground | <ul style="list-style-type: none"> Avoid using heavy equipment that causes vibrations on the ground. Use mechanisms (where applicable) to reduce transmission of vibrations to the ground. |

| | | | |
|--|--|---|---|
| | <ul style="list-style-type: none"> There should be no vibrations at night when people and most of animals are asleep. | | <ul style="list-style-type: none"> appropriate forbs seeds and establishing tree nurseries in the rehabilitation programme. |
| Dust | <ul style="list-style-type: none"> Trucks to avoid driving off road and to spray water on the road during dry seasons to reduce dust. | Increased surface runoff and soil erosion | <ul style="list-style-type: none"> Will construct surface rainwater trap pits and cut-off drains to check occasional runoff. |
| Flooding | <ul style="list-style-type: none"> Drainage of surface water must be done to avoid water collecting on the surface. Drainage channels should lead the water to River Tana. | | <ul style="list-style-type: none"> Roof catchment gutters connected to tanks will harvest excess rainwater in the site. The water would also be used for irrigating planted vegetation, outdoor cleaning such as of vehicles and toilet cleaning, thereby reducing demand on water supply. |
| Contamination of water resources | <ul style="list-style-type: none"> Water collected from roof catchments and gutters will be treated control growth contaminant organisms. Storage tanks will be supplied to trap water and use it for irrigating planted vegetation. | Air pollution from dust and engine exhaust gases | <ul style="list-style-type: none"> Prompt compaction of loose soils and aggressive grass replanting will be implemented. Water will be sprinkled onto the disturbed soil to reduce flying dust. Employees/ workers will be provided with personal protective equipment (PPE), to reduce possible dust and noxious gas inhalation. |
| Solid wastes during construction | <ul style="list-style-type: none"> All solid waste must be collected into waste bins and sorted out before taken to landfills. Wastes should be sorted, re used, and recycled as much as possible. All wastes to be handled by qualified waster handlers and be disposed in official designated areas. | Disposal of Waste into the Environment including solid wastes | <ul style="list-style-type: none"> The construction site will be equipped with toilet and washing facilities fully connected to septic tanks. Enlisting of a licensed private company specialized in handling oils and solid wastes. Biodegradable organic wastes will be composted on site for tree planting manure. A Good housekeeping as part of the company policy will be implemented at the facility. |
| Liquid wastes during construction | <ul style="list-style-type: none"> All liquid waste must be disposed to pits for evaporation. All wastes to be handled by qualified waster handlers and be disposed in official designated areas. | | |
| Sanitation | <ul style="list-style-type: none"> All workers must have access to toilets, hand washing stations at all times Mobile toilets if provided should serviced accordingly. | Fire hazards in the power plant | <ul style="list-style-type: none"> Fire fighting equipments must be installed in all buildings and placed at strategic places within the power plant site. First aid kits installed should have first aid medicines to treat burns. |
| Cultural conflicts between locals and the incoming workers | <ul style="list-style-type: none"> The incoming workers of different cultural backgrounds should not interfere with the local cultures. Incoming workers should be instructed to respect the local cultural values. | Dangers of exposed live electricity wires | <ul style="list-style-type: none"> The site engineer should make sure there are no un insulated live electricity wires that may affect people, livestock and wildlife. Proper signage to warn public on dangerous areas within the plant. |
| Soil disturbance
Interference with visual aesthetics | <ul style="list-style-type: none"> The stripped top soils from the site leveling and clearing will be used to build and strengthen the perimeter wall if needed. Care will be taken not to interfere with the course of the seasonal streams, by leaving clearance of at least 30m from the operations points. A. Parties

1. The Petitioner is a Kenyan citizen who brings this Petition on her behalf and in the public interest.

6. The Order is impugned as violating the vertical separation of powers between national and county governments as well as functional, institutional and operational autonomy of national and county governments.

B. Constitutional Foundation to the Petition

7. The Preamble to the Constitution of Kenya, 2010 bespeaks the aspiration of Kenyans for a government based on the essential values of human rights, equality, freedom, democracy, social justice and the rule of law.
8. Through the concept of popular sovereignty in Article 1(1) the Constitution locates all sovereign power in the people of Kenya to be exercised only in accordance with the Constitution.

9. Under Article 2, the Constitution is the supreme law of the land and it binds all persons and all State organs at both levels of government. In addition, no person may claim or exercise State authority except as authorised under the Constitution. Ultimately, any law that is inconsistent with the Constitution is void to the extent of the inconsistency, and any act or omission in contravention of this Constitution is invalid.
10. Article 2(5) of the Constitution also expressly imports the general rules of international law and makes them part of the law of Kenya.
11. Article 3 of the Constitution behoves the Respondents, like all Kenyans and State organs, to respect, uphold and defend the Constitution.
12. Article 4 establishes Kenya as a sovereign Republic and a multi-party democratic State founded on the national values and principles of governance in Article 10.
13. Article 6 the territory of Kenya is divided into the counties specified in the First Schedule. Article 6(2) also sets a cooperative interdependent devolved governance system. The governments at the national and county levels are distinct and inter-dependent and must conduct their mutual relations on the basis of consultation and cooperation. To this end, a national State organ must ensure reasonable access to its services in all parts of the Republic, so far as it is appropriate to do so having regard to the nature of the service.
14. The national values and principles of governance enumerated in Article 10 bind all state organs as well as everyone who applies or interprets the Constitution or any law or performs any public duty.
15. The national values and principles of government pertinent to this petition include: sharing and devolution of power, the rule of law, democracy and participation of the people; equity, social justice, good governance, integrity, transparency and accountability; and sustainable development.
16. Under Article 129 the principles of executive authority derives from the people of Kenya and must be exercised in accordance with the Constitution. Also, executive authority must be exercised in a manner compatible with the principle of service to the people of Kenya, and for their well-being and benefit.

17. Article 174, stipulates the objects of devolution of government to be:
 - (a) to promote democratic and accountable exercise of power;
 - (b) to foster national unity by recognising diversity;
 - (c) to give powers of self-governance to the people and enhance the participation of the people in the exercise of the powers of the State and in making decisions affecting them;
 - (d) to recognise the right of communities to manage their own affairs and to further their development;
 - (e) to protect and promote the interests and rights of minorities and marginalised communities;
 - (f) to promote social and economic development and the provision of proximate, easily accessible services throughout Kenya;
 - (g) to ensure equitable sharing of national and local resources throughout Kenya;
 - (h) to facilitate the decentralisation of State organs, their functions and services, from the capital of Kenya; and
 - (i) to enhance checks and balances and the separation of powers.
18. Additionally, under Article 175 the principles of devolved government are that:
 - (a) county governments shall be based on democratic principles and the *separation of powers*;
 - (b) county governments shall have *reliable sources of revenue* to enable them to govern and deliver services effectively; and
 - (c) no more than two-thirds of the members of representative bodies in each county government shall be of the same gender.
19. Article 176 which sets up county governments for each county, consisting of a county assembly and a county executive, requires them to *decentralise* their functions and provision of its services to the extent that it is efficient and practicable to do so.
20. The functions of county executive committee under Article 183 are to:
 - (a) implement county legislation;
 - (b) implement, within the county, national legislation to the extent that the legislation so requires;

Transport Area Authority NAMETA an intergovernmental and inter-county Authority to oversee the operation of the MRTS

47. Clause 1.2 of the Memorandum of Understanding provided that parties would negotiate in good faith formal legal agreements with each other and that unless and until then the Final Agreement were approved and executed by the parties, the MoU was not intended to and would not create any legal obligations between the parties. Under Clause 6.3 the MoU would stay in force until a Formal Agreement had been entered into or unless terminated by any of the parties.
48. On 20th February, 2015 through Gazette Notice No 1093 the Cabinet Secretary for Transport and Infrastructure purported to appoint a Steering Committee to Establish the Nairobi Metropolitan Area Transport Authority. The Steering Committee comprised of the Principal Secretaries Transport as well as Housing in addition to the County Executive Committee Members in charge of Roads from Machakos, Muranga, Kiambu, Kajiado and Nairobi Counties.
49. On 4th March, 2016 the Cabinet Secretary for Infrastructure gazetted an extension of the mandate of the Steering Committee to Establish the Nairobi Metropolitan Area Transport Authority for a period of one (1) year, with effect from the 1st March, 2016
50. On 9th February 2017 the Respondents issued an Executive Order creating the *Nairobi Metropolitan Area Transport Authority* (NAMATA) under Legal Notice No 18 of 2017 and the State Corporations Act.
51. On 9th February, 2018 through Gazette Notice No 1240 the Chairperson of the NAMATA Council appointed some 3 persons to the Board of the Nairobi Metropolitan Area Transport Authority in implementation of the impugned Order. The Petitioner is therefore aggrieved and has filed this Petition in her own name and in the public interest.

D. Particulars of Unconstitutionality

52. As the Cabinet Secretary for Transport and Infrastructure on 20th February, 2015, through Gazette Notice No 1093, purported to unilaterally appoint a Steering Committee to Establish the Nairobi Metropolitan Area Transport Authority, without a written agreement between the two levels of government, the same is invalid and of no effect in law.

53. The petitioner asserts that the Nairobi Metropolitan Area Transport Authority Order, 2017 in its intent and effect is unconstitutional and invalid in so far as it disregards the vertical separation of powers, functional, fiscal, and institutional integrity, as well as constitutional status and institutions of government at the either level of government contrary to Articles 3, 4, 6, 10, 174 and 175 of the Constitution.
54. The formation of the NAMATA Authority is ultra vires Article sections 24, 26, 27 and 28 of the Intergovernmental Relations Act, 2018 which provisions have constitutional underpinning and are normative derivatives of Article 189 of the Constitution.
55. Some of the delegated functions, which the Fourth Schedule of the Constitution assigns to county governments, are county transport, including county roads; street lighting; traffic and parking; and public road transport. These functions implicate fundamental executive and legislative or regulatory powers of the county governments, which cannot be delegated to the joint Transport Authority without agreement of the county governments.
56. The formation of the Authority is a usurpation of the legislative powers of the National Assembly under Article 93 to 96 as well as the Legislative powers of County Assemblies under Article 185.
57. Since Legal Notice No 18 of 2017 was not preceded by the appropriate or adequate levels of public participation the same is unconstitutional and invalid
58. Since the National Assembly and county assemblies concerned were not notified of the transfer of county transport functions to the national government such transfer vide Legal Notice 18 of 2017 is unconstitutional and invalid.
59. In so far as the NAMATA Authority Order was unilaterally anchored under section 3 of the State Corporation Act and the county transport function assigned to it, other than by agreement between the two levels of government, the same is contrary to Article 187 (1) hence unconstitutional.
60. Petitioner submits that the national government has no constitutional authority to unilaterally delegate to NAMATA Authority, a state corporation established under section 3 of the State Corporations Act, the functions, competencies and powers allocated to a county government under the Fourth Schedule

61. Such delegation is unconstitutional and invalid more because it did not follow the mandatory intergovernmental processes and procedures prescribed by Article 187 of the Constitution and section 26 of the Intergovernmental Act, 2011.
62. Whereas under Article 209(4) national and county governments may impose charges for the services they provide, paragraph 9(c) of the Order gives NAMATA Board the authority to determine, impose and levy rates, charges, dues or fees for any services performed by the Authority, or for the grant, renewal or validation of a licence, permit or certificate. The effect of this is that the Authority will deprive the county governments of essential sources of revenue including from parking fees rendering the Order inconsistent with Article 209(4).
63. As a result of the effect on revenue, the issuing of the order is inconsistent with the obligation of the national government under Article 191 to ensure that counties have sufficient resources to undertake their functions.
64. Moreover, as licensing of motor vehicles is already reposed in the National Transport Authority established under the National Transport Authority Act the duplication of functions without justification is an imprudent and irresponsible use of public money contrary hence invalid under Article 201(d).
65. Paragraph 7(c) of the Order is unconstitutional in so far as it upsets the fiscal autonomy of counties by empowering the Council of the Authority to determine the financial contribution of each county to the funds of the Authority, under paragraph and 15(d), without the input of county assemblies under Article 185
66. Paragraphs 10(a) and (c) and 15(b) which allows the Authority to retain, outside the County Revenue Fund, money raised or received on behalf of county governments and which have not been reasonably excluded by an Act of Parliament is contrary to Article 207(1) and therefore invalid
67. Further Paragraph 7(c) and 15(d) are unconstitutional in so far as they permit money to be withdrawn, contrary to Article 207(2), from the Revenue Fund of a county government without a charge against the Revenue Fund provided for by an Act of Parliament or by legislation of the county; or authorisation by an appropriation legislation of the county. The illegality is compounded in so far as it does not forbid money to be withdrawn from a Revenue Fund without the Controller of Budget's approval under Article 207(3).

68. That apart, contrary to section 26 of Intergovernmental Relations Act, 2011, the transfer of functions to the NAMATA Authority vide the impugned Order was not by an agreement in writing accompanied with:

- (a) the function, power or competency transferred or delegated;
- (b) the specific legal provisions supporting the transfer or delegation;
- (c) the reasons for the transfer or delegation;
- (d) the performance standards and frameworks in respect of the transfer or delegation;
- (e) the resourcing framework for delivery of the powers, function or competency transferred or delegated;
- (f) the capacity of the receiving entity to exercise or perform the powers, function, or competency transferred or delegated;
- (g) the capacity building framework for enhancing any deficits identified in the entity to which the transfer or delegation has been effected;
- (h) the method of resolving any dispute that may arise under the agreement; and
- (i) the terms and conditions for the exercise or performance of the power, function or competency including the time frame.

69. In particular the transfer of functions to the NAMATA Authority vide the Order was not preceded by the mandatory intergovernmental cooperation, consultation and negotiation as well as intergovernmental agreement prerequisite to establishment of joint authorities.

70. Similarly there are no accompanying minimum service standards or norms of performance for the county transport function transferred to the NAMATA Authority rendering the Order ultra vires section 27 of the Intergovernmental Relations Act.

34

71. As the Order was not preceded by a written agreement with the county governments, the attendant transfer of human resource functions from the counties to the Authority under paragraph 14 of the Authority is unconstitutional and violates the autonomy of counties over their human resources.
72. As the order transfers transport function in the capital city without a written agreement the same is ultra vires section 6(5) of the Urban Areas and Cities Act, 2011 - underpinned by Article 184 of the Constitution.
73. The petitioner asserts that section 15 of the Nairobi Metropolitan Area Transport Authority Order is unconstitutional as it provides for the financing of the joint authority in a manner that may affect other Counties other than those included in the Nairobi Metropolitan Area yet these counties were not consulted.
74. Additionally, as the part of the funds of the joint Authority are monies allocated by the Order is unconstitutional in because it does not specify if the funds are allocated before or after the vertical division of revenue between the national and county governments. The order creates a third party at the table of division of revenue which is not provided for by the constitution. The Petitioner asserts that Article 202(1) only provides for an equitable division of revenue among the national and county governments only.
75. Lastly, as the 2nd Respondent acting as Chairperson of the NAMATA Council on 9th February, 2018 through Gazette Notice No 1240 unilaterally appointed some 3 persons to the Board of the Nairobi Metropolitan Area Transport Authority in implementation of an unconstitutional order, and without the written agreement of the 1st to 5th Interested Parties, the appointments are unlawful and invalid.
76. As a resident of Nairobi County the Petitioner concedes the need to develop an integrated, efficient, effective and sustainable public transport system within Nairobi County, but quickly adds that that must be within the Constitution and its devolved system. As the Order unconstitutionally delegates county functions to the Authority; without recourse to mandatory intergovernmental procedures, the same is invalidated by Article 2(4) of the Constitution.

77. As a result, the Nairobi Metropolitan Transport Authority Order is fundamentally flawed, null and unconstitutional for the reasons stated above. As a consequence of which your humble Petitioner pleads the Court for:

- (a) A declaration that the Nairobi Metropolitan Area Transport Authority Order, 2017 is unconstitutional and invalid; and
- (b) A declaration that any continued enforcement of the Nairobi Metropolitan Area Transport Authority Order 2017 Legal Notice No 18 of 2017 by the 1st Respondent is unconstitutional and invalid
- (c) A declaration that the appointment of Board Members to the NAMATA Authority vide Gazette Notice No 1240 of 2018 is unconstitutional and invalid ✓ 1093
- (d) That the 1st Respondent bears the Petitioners costs while the Interested Parties each bear their own costs

AFFIDAVIT IN SUPPORT OF THE PETITION AND APPLICATION

I Wanjiru Gikonyo, a citizen of the Republic of Kenya do solemnly make oath and state as follows:

1. THAT I am the Petitioner herein and therefore competent to swear this affidavit
2. THAT I am making this affidavit in support of the Petition herein in which I have challenged the constitutionality and legality of the Nairobi Metropolitan Area Transport Authority Order of 2017.
3. On 21st October, 2014, the national government represented by the Secretary Cabinet Ministry of Transport and Infrastructure purportedly signed a Memorandum of Understanding with Governors of Nairobi, Kajiado, Kiambu, Machakos, and Muranga Counties whose objects included:
 - (a) creating a framework for collaboration, consultation and joint planning of a metropolitan transport system (MRTS) in the Nairobi Metropolitan Region.
 - (b) Establishment, implementation and operation of the MRTS in the Metropolitan Area
 - (c) establishment and operationalization of a Nairobi Metropolitan Transport Area Authority NAMETA an intergovernmental and inter-county Authority to oversee the operation of the MRTS

I annex a copy of the Memorandum of Understanding dated 21st October, 2014 marked as WG-1

4. I know of my own knowledge that Clause 1.2 of the Memorandum of Understanding provided that parties would negotiate in good faith formal legal agreements with each other and that unless and until then the Final Agreement were approved and executed by the parties, the MoU was not intended to and would not create any legal obligations between the parties. Under Clause 6.3 the MoU would stay in force until a Formal Agreement had been entered into or unless terminated by any of the parties.
5. On 9th February 2017 the President purported to issue an Executive Order creating the Nairobi Metropolitan Area Transport Authority (NAMATA) under Legal Notice No 18 of 2017 and the State Corporations Act. *I annex a copy of the Legal Notice No 18 of 2017 marked as WG-2*
6. On 20th February, 2015 through Gazette Notice No 1093 the Cabinet Secretary for Transport and Infrastructure appointed a Steering Committee to Establish the Nairobi Metropolitan Area Transport Authority. The Steering Committee comprised of the Principal Secretaries Transport as well as Housing in addition to the County Executive Committee Members in charge of Roads from Machakos, Muranga, Kiambu, Kajiado and Nairobi Counties. *I annex a copy of the Gazette Notice No 1093 of 2015 dated 20th February, 2015 marked as WG-3*
7. On 18th March, 2016 through Gazette Notice No 1743 the Cabinet Secretary for Infrastructure gazetted an extension of the mandate of the Steering Committee to Establish the Nairobi Metropolitan Area Transport Authority for a period of one (1) year, with effect from the 1st March, 2016. *I annex a copy of Gazette Notice No 1743 dated 18th March, 2016 marked as WG-4*
8. On 9th February, 2018 through Gazette Notice No 1240 the Chairperson of the NAMATA Council appointed some 3 persons to the Board of the Nairobi Metropolitan Area Transport Authority evidencing serious intention to implement the unlawful Order thus imperilling county functions and revenue. *I annex a copy of the Gazette Notice No 1240 marked as dated 9th February, 2018 marked as WG-5.*
9. I believe the Nairobi Metropolitan Area Transport Authority Order of 2017 is fundamentally flawed and is therefore unconstitutional because of its failure to observe the constitutional provisions on intergovernmental relations

10. Unless a conservatory order is issued pending the hearing and determination of this Petition the Petition will be rendered nugatory because such further expenses and losses in revenue would be in-compensable despite the success of the Petition.

11. I depose this affidavit in support of the Petition as well as the Notice of Motion application for conservatory orders in preservation of the status quo, pending the hearing and determination of the Petition, based on facts within my knowledge and believing it to be in accordance with the Oaths and Statutory Declarations Act, Cap 20
